§ 16-13A-1. Legislative findings

The Legislature of the state of West Virginia hereby determines and finds that the present system of public service districts within the state has provided a valuable service at a reasonable cost to persons who would otherwise have been

unable to obtain public utility services. To further this effort, and to insure that all areas of the state are benefiting from the availability of public service district utility services and to further correct areas with health hazards, the Legislature concludes that it is in the best interest of the public to implement better management of public service district resources by expanding the ability and the authority of the public service commission to assist public service districts by offering advice and assistance in operational, financial and regulatory affairs.

In addition to the expanded powers which shall be given to the public service commission, the Legislature also concludes that it is in the best interest of the public for each county commission to review current technology available and consider consolidating existing public service districts where it is feasible and will not result in the interference with existing bond instruments. Further, if such consolidation is not feasible, the Legislature finds that it is in the best interest of the public for each county commission to review current technology available and consider consolidating or centralizing the management of public service districts within its county or multi-county area to achieve efficiency of operations. The Legislature also finds that additional guidelines should be imposed on the creation of new public service districts and that county commissions shall dissolve inactive public service districts as hereinafter provided. The Legislature also finds that the public service commission shall promulgate rules and regulations to effectuate the expanded powers given to the commission relating to public service districts.

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying water and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6,

§ 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 123(3); Statutes ⇐ 123(5)

Statute authorizing creation of public service districts violates no provision of State Constitution, nor is it violative of Fourteenth Amendment to United States Constitution. Act 1953, c. 147; U.S.C.A.Const. Amend. 14. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 4056; Municipal Corporations ⇐ 4

In statute authorizing creation of public service districts, provision for delinquent fixed rates and charges for services rendered to be lien on premises served was not unconstitutional as depriving owners of property without due process of law or as violating Fourteenth Amendment of United States Constitution or applicable provisions of State Constitution. Acts 1953, c. 147, § 1 et seq.; Const. art. 3, §§ 9, 10; U.S.C.A.Const. Amend. 14. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 4416; Municipal Corporations ⇐ 408(1)

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2355; Municipal Corporations ⇐ 4

2. In general

A public service district may be created for the purpose of furnishing water or sewer services, or both water and sewer services. Code, 16–13A–1. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 5

Creation and operation of water or sanitary districts or authorities by issuance of revenue bonds payable from revenues are authorized. Code, 16–13A–1 et seq. State ex rel. Appalachian Power Co. v. Gainer, 1965, 143 S.E.2d 351, 149 W.Va. 740. Health ⇐ 369; Waters And Water Courses ⇐ 183.5

A county court may use Federal Revenue Sharing Funds for ordinary and necessary maintenance and operating expenses for sewage disposal, sanitation, and pollution abatement, and ordinary and necessary capital expenditures authorized by law but may not use such funds for matching purposes under any other federal-aid program. 55 W.Va. Op.Atty.Gen. 116 (June 27, 1973) 1973 WL 159152.

3. Construction and application

A public service district is a public corporation and does not come within constitutional provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 80(3)

4. Eminent domain powers

Where notice, hearing and order with respect to creation of public service district considered only the question of furnishing water, such district was created only for the purposes of furnishing water services, and had no power to condemn real estate for sewerage facilities. Code, 16-13A-1, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Eminent Domain ⇐ 32

Condemnation by public service district is not a taking of private property for private use in violation of applicable constitutional provision. Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Eminent Domain ⇐ 13

5. Property of public service district

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. Acts 1953, c. 147, § 1 et seq.; Const. art. 10, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Taxation ⇐ 2289

6. Rates and charges for service

Relief under Federal Securities Act of 1933 was not adequate or sufficient remedy for relief sought by corporations holding sewer revenue bonds of public service district in mandamus proceeding to compel district to establish and collect rates for services rendered by district sufficient to provide for all operational and maintenance expenses, to pay, when due, principal and interest of revenue bonds issued by district, and to file tariff reflecting such charges with Public Service Commission, and any relief afforded under provisions of federal statute could not supersede relief which could be granted in mandamus proceeding. Securities Act of 1933, § 1 et seq., 15 U.S.C.A. § 77a et seq.; Code, 16–13A–1 et seq. State ex rel. Allstate Ins. Co. v. Union Public Service Dist., 1966, 151 S.E.2d 102, 151 W.Va. 207. Mandamus ⇐ 3(8)

Corporations holding sewer revenue bonds of public service district, a public corporation and political subdivision of state, had right by mandamus to enforce and compel district and members of the Public Service Board to establish, charge and collect rates for services rendered by district sufficient to provide for all operation-

al and maintenance expenses, to pay, when due, principal and interest of revenue bonds issued by district, and to file tariffs reflecting such charges with Public Service Commission. Code, 16–13A–1 et seq., 16–13A–9, 16–13A–10, 16–13A–13, 16–13A–17. State ex rel. Allstate Ins. Co. v. Union Public Service Dist., 1966, 151 S.E.2d 102, 151 W.Va. 207. Mandamus ⇐ 110

It was ministerial duty of chairman of public service board of public service district to sign revenue bonds and to assist in effectuating their issuance, and in view of constitutionality of statute authorizing creation of the public service board, relator's showing of legal right to require performance of such duty, was sufficient and writ of mandamus would issue. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇐ 103

7. Creation and enforcement of liens

Public service district's failure to docket notice of lien prior to date purchaser recorded deed of trust prevented district from enforcing sewer lien against purchaser. Code, 16–13A–9, 38–10C–1. McClung Investments, Inc. v. Green Valley Community Public Service Dist., 1997, 485 S.E.2d 434, 199 W.Va. 490. Municipal Corporations ⇐ 712(7)

Public service district liens must be docketed to be enforceable against purchaser of property for valuable consideration, without notice. Code, 16–13A–9, 38–10C–1. McClung Investments, Inc. v. Green Valley Community Public Service Dist., 1997, 485 S.E.2d 434, 199 W.Va. 490. Gas ⇐ 14.6; Municipal Corporations ⇐ 712(7); Waters And Water Courses ⇐ 203(14)

Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations ⇐ 222; Municipal Corporations ⇐ 225(1)

8. Admissibility of evidence

Extrinsic evidence relating to background and negotiations with regard to forming a public service district were not admissible in regard to construction of a contract for furnishing of water, where contract language was clear and unambiguous that district was to furnish water as customer should require. Berkeley County Public Service Dist. v. Vitro Corp. of America, 1968, 162 S.E.2d 189, 152 W.Va. 252. Evidence ⇐ 448

9. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇐ 190

§ 16–13A–1a. Jurisdiction of the public service commission

The jurisdiction of the public service commission relating to public service districts shall be expanded to include the following powers and such powers shall be in addition to all other powers of the public service commission set forth in this code:

(a) To study, modify, approve, deny or amend the plans created under section one-b of this article for consolidation or merger of public service districts and their facilities, personnel or administration;

(b) To petition the appropriate circuit court for the removal of a public service district board member or members; and

(c) To create by general order a separate division within the public service commission to provide assistance to public service districts in technological, operational, financial and regulatory matters.

Acts 1986, c. 81.

Notes of Decisions

In general 1

1. In general

Statute clearly and unambiguously gives Public Service Commission (PSC) power to reduce or increase utility rates whenever it finds that existing rate is unjust, unreasonable, insufficient, or unjustly discriminatory or otherwise in violation of any provision of legislation governing Commission. Code, 24–1–1 et seq., 24–2–3. State ex rel. Water Development Authority v. Northern Wayne County Public Service Dist., 1995, 464 S.E.2d 777, 195 W.Va. 135. Public Utilities ⇐ 123

Legislature sought to establish in Public Service Commission (PSC) governmental entity which would protect public from unfair rates and practices by public utilities and also ensure that public utilities are given competitive return for their stockholders. Code, 24–2–3. State ex rel. Water Development Authority v. Northern Wayne County Public Service Dist., 1995, 464 S.E.2d 777, 195 W.Va. 135. Public Utilities ⇐ 123; Public Utilities ⇐ 129

§ 16–13A–1b. County commissions to develop plan to create, consolidate, merge, expand or dissolve public service districts

Each county commission shall conduct a study of all public service districts which have their principal offices within its county and shall develop a plan relating to the creation, consolidation, merger, expansion or dissolution of such districts or the consolidation or merger of management and administrative services and personnel and shall present such plan to the public service commission for approval, disapproval, or modification: Provided, That within ninety days of the effective date of this section each county commission in this state shall elect either to perform its own study or request that the public service commission perform such study. Each county commission electing to perform its own study has one year from the date of election to present such plan to the public service commission. For each county wherein the county commission elects not to perform its own study, the public service commission shall conduct a study of such county. The public service commission shall establish a schedule for such studies upon a priority basis, with those counties perceived to have the greatest need of creation or consolidation of public service districts receiving the highest priority. In establishing the priority schedule, and in the performance of each study, the bureau of public health and the division of environmental protection shall offer their assistance and cooperation to the public service commission. Upon completion by the public service commission of each study, it shall be submitted to the appropriate county commission for review and comment. Each county commission has six months in which to review the study conducted by the public service commission, suggest changes or modifications thereof, and present such plan to the public service commission. All county plans, whether conducted by the county commission itself or submitted as a result of a public service commission study, shall, by order, be approved, disapproved or modified by the public service commission in accordance with rules promulgated by the public service commission and such order shall be implemented by the county commission.

(b) The petition shall be filed in the office of the clerk of the county commission of the county in which the territory to constitute the proposed district is situated, and if the territory is situated in more than one county, then the petition shall be filed in the office of the clerk of the county commission of the county in which the major portion of the territory extends, and a copy thereof (omitting signatures) shall be filed with each of the clerks of the county commission of the other county or counties into which the territory extends. The clerk of the county commission receiving such petition shall present it to the county commission of the county at the first regular meeting after the filing or at a special meeting called for the consideration thereof.

(c) When the county commission of any county enters an order on its own motion proposing the creation, enlargement, reduction, merger, dissolution or consolidation of a public service district, as aforesaid, or when a petition for the creation is presented, as aforesaid, the county commission shall at the same session fix a date of hearing in the county on the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed public service district, which date so fixed shall be not more than forty days nor less than twenty days from the date of the action. Within ten days of fixing the date of hearing, the county commission shall provide the Executive Secretary of the Public Service Commission with a copy of the order or petition and notification of the time and place of the hearing to be held by the county commission. If the territory proposed to be included is situated in more than one county, the county commission, when fixing a date of hearing, shall provide for notifying the county commission and clerk thereof of each of the other counties into which the territory extends of the date so fixed. The clerk of the county commission of each county in which any territory in the proposed public service district is located shall cause notice of the hearing and the time and place thereof, and setting forth a description of all of the territory proposed to be included therein to be given by publication as a Class I legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for the publication shall be by publication in each city, incorporated town or municipal corporation if available in each county in which any territory in the proposed public service district is located. The publication shall be at least ten days prior to the hearing.

(d) In all cases where proceedings for the creation, enlargement, reduction, merger, dissolution or consolidation of the public service districts are initiated by petition as aforesaid, the person filing the petition shall advance or satisfactorily indemnify the payment of the cost and expenses of publishing the hearing notice, and otherwise the costs and expenses of the notice shall be paid in the first instance by the county commission out of contingent funds or any other funds available or made available for that purpose. In addition to the notice required herein to be published, there shall also be posted in at least five conspicuous places in the proposed public service district, a notice containing

the same information as is contained in the published notice. The posted notices shall be posted not less than ten days before the hearing.

(e) All persons residing in or owning or having any interest in property in the proposed public service district shall have an opportunity to be heard for and against its creation, enlargement, reduction, merger, dissolution or consolidation. At the hearing the county commission before which the hearing is conducted shall consider and determine the feasibility of the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district. If the county commission determines that the construction or acquisition by purchase or otherwise and maintenance, operation, improvement and extension of public service properties by the public service district will be conducive to the preservation of public health, comfort and convenience of such area, the county commission shall by order create, enlarge, reduce, merge, dissolve or consolidate such public service district. If the county commission, after due consideration, determines that the proposed district will not be conducive to the preservation of public health, comfort or convenience of the area or that the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district as set forth and described in the petition or order is not feasible, it may refuse to enter an order creating the district or it may enter an order amending the description of the proposed district and create, enlarge, reduce, merge, dissolve or consolidate the district as amended.

(f) If the county commission determines that any other public service district or districts can adequately serve the area of the proposed public service district, whether by enlargement, reduction, merger, dissolution or consolidation, it shall refuse to enter the order, but shall enter an order creating, enlarging, reducing, merging, dissolving or consolidating the area with an existing public service district, in accordance with rules adopted by the Public Service Commission for such purpose: *Provided,* That no enlargement of a public service district may occur if the present or proposed physical facilities of the public service district are determined by the appropriate county commission or the Public Service Commission to be inadequate to provide such enlarged service. The clerk of the county commission of each county into which any part of such district extends shall retain in his office an authentic copy of the order creating, enlarging, reducing, merging, dissolving or consolidating the district: *Provided, however,* That within ten days after the entry of an order creating, enlarging, reducing, merging, dissolving or consolidating a district, such order must be filed for review and approval by the Public Service Commission. The Public Service Commission may provide a hearing in the affected county on the matter and may approve, reject or modify the order of the county commission if it finds it is in the best interests of the public to do so. The Public Service Commission shall adopt rules relating to such filings and the approval, disapproval or modification of county commission orders for creating, enlarging, merging, dissolving or consolidating districts. The provisions of this section shall not apply to the implementation by a county commission of an order issued by the Public Service Commission pursuant to this section and section one-b, of this article.

(g) The county commission may, if in its discretion it deems it necessary, feasible and proper, enlarge the district to include additional areas, reduce the area of the district, where facilities, equipment, service or materials have not been extended, or dissolve the district if inactive or create or consolidate two or more such districts. If consolidation of districts is not feasible, the county commission may consolidate and centralize management and administration of districts within its county or multi-county area to achieve efficiency of operations: *Provided,* That where the county commission determines on its own motion by order entered of record, or there is a petition to enlarge the district, merge and consolidate districts, or the management and administration thereof, reduce the area of the district or dissolve the district if inactive, all of the applicable provisions of this article providing for hearing, notice of hearing and approval by the Public Service Commission shall apply. The Commission shall at all times attempt to bring about the enlargement or merger of existing public service districts in order to provide increased services and to eliminate the need for creation of new public service districts in those areas which are not currently serviced by a public service district: *Provided, however,* That where two or more public service districts are consolidated pursuant to this section, any rate differentials may continue for the period of bonded indebtedness incurred prior to consolidation. The districts may not enter into any agreement, contract or covenant that infringes upon, impairs, abridges or usurps the duties, rights or powers of the county commission, as set forth in this article, or conflicts with any provision of this article.

(h) A list of all districts and their current board members shall be filed by the county commission with the Secretary of State and the Public Service Commission by the first day of July of each year.

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying water and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6, § 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 123(3); Statutes ⇐ 123(5)

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24.

State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2355; Municipal Corporations ⇐ 4

2. Creation of public service districts

Where notice, hearing and order with respect to creation of public service district considered only the question of furnishing water, such district was created only for the purposes of furnishing water services, and had no power to condemn real estate for sewerage facilities. Code, 16-13A–1, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Eminent Domain ⇐ 32

Where public service district was created for purpose of furnishing water services, county court had authority to add sewerage services to the facilities of the district under appropriate proceedings. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 270

Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations ⇐ 222; Municipal Corporations ⇐ 225(1)

3. District boundaries

Public service district statute that allowed county commission to designate district's boundaries did not also empower commission to make service territories exclusive, displacing Public Service Commission's (PSC) authority to determine service rights. Code, 16–13A–2. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. Counties ⇐ 47

4. Notice of hearing

Provisions of statute, with respect to creation of public service districts, which relate to the filing of the petition or motion of the county court, the description of the territory to be embraced, and like provisions are mandatory; but, despite use of the word "shall," the requirements for posting and publication of notice and the time of setting the hearing are directory and require only substantial compliance. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 12(3); Municipal Corporations ⇐ 12(6)

Though record with respect to creation of public service district was silent with respect to posting of notice of hearing and as to whether hearing was not more than 40 nor less than 20 days after his fixing the date for hearing as provided by statute, there was substantial compliance with statute where hearing was set some time prior to the date of the hearing, there was publication of notice more than ten days prior to the date of the hearing as required, and there were no objections either before, during or after the hearing to the creation of the district or to the procedures employed in its creation. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 12(6)

5. Number of voters within district

Public service district was not void because there were not 100 legal voters owning property within the district. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 6

6. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇐ 190

7. Referendum

A public service district, once created by county court, not subject to referendum on issue to continue or be abolished. 52 W.Va. Op.Atty. Gen. 33 (August 11, 1966) 1966 WL 87428.

§ 16–13A–3. District to be a public corporation and political subdivision; powers thereof; public service boards

From and after the date of the adoption of the order creating any public service district, it is a public corporation and political subdivision of the state, but without any power to levy or collect ad valorem taxes. Each district may acquire, own and hold property, both real and personal, in its corporate name, and may sue, may be sued, may adopt an official seal and may enter into

contracts necessary or incidental to its purposes, including contracts with any city, incorporated town or other municipal corporation located within or without its boundaries for furnishing wholesale supply of water for the distribution system of the city, town or other municipal corporation, or for furnishing stormwater services for the city, town or other municipal corporation, and contract for the operation, maintenance, servicing, repair and extension of any properties owned by it or for the operation and improvement or extension by the district of all or any part of the existing municipally owned public service properties of any city, incorporated town or other municipal corporation included within the district: Provided, That no contract shall extend beyond a maximum of forty years, but provisions may be included therein for a renewal or successive renewals thereof and shall conform to and comply with the rights of the holders of any outstanding bonds issued by the municipalities for the public service properties.

The powers of each public service district shall be vested in and exercised by a public service board consisting of not less than three members, who shall be persons residing within the district, who possess certain educational, business or work experience which will be conducive to operating a public service district. Each board member shall, within six months of taking office, successfully complete the training program to be established and administered by the public service commission in conjunction with the division of environmental protection and the bureau of public health. Board members shall not be or become pecuniarily interested, directly or indirectly, in the proceeds of any contract or service, or in furnishing any supplies or materials to the district nor shall a former board member be hired by the district in any capacity within a minimum of twelve months after board member's term has expired or such board member has resigned from the district board. The members shall be appointed in the following manner:

Each city, incorporated town or other municipal corporation having a population of more than three thousand but less than eighteen thousand is entitled to appoint one member of the board, and each city, incorporated town or other municipal corporation having a population in excess of eighteen thousand shall be entitled to appoint one additional member of the board for each additional eighteen thousand population. The members of the board representing such cities, incorporated towns or other municipal corporations shall be residents thereof and shall be appointed by a resolution of the governing bodies thereof and upon the filing of a certified copy or copies of the resolution or resolutions in the office of the clerk of the county commission which entered the order creating the district, the persons so appointed become members of the board without any further act or proceedings. If the number of members of the board so appointed by the governing bodies of cities, incorporated towns or other municipal corporations included in the district equals or exceeds three, then no further members shall be appointed to the board and the members so appointed are the board of the district except in cases of merger or consolidation where the number of board members may equal five.

If no city, incorporated town or other municipal corporation having a population of more than three thousand is included within the district, then the county commission which entered the order creating the district shall appoint three members of the board, who are persons residing within the district and residing within the state of West Virginia, which three members become members of the board of the district without any further act or proceedings except in cases of merger or consolidation where the number of board members may equal five.

If the number of members of the board appointed by the governing bodies of cities, incorporated towns or other municipal corporations included within the district is less than three, then the county commission which entered the order creating the district shall appoint such additional member or members of the board, who are persons residing within the district, as is necessary to make the number of members of the board equal three except in cases of merger or consolidation where the number of board members may equal five, and the member or members appointed by the governing bodies of the cities, incorporated towns or other municipal corporations included within the district and the additional member or members appointed by the county commission as aforesaid, are the board of the district. A person may serve as a member of the board in one or more public service districts.

The population of any city, incorporated town or other municipal corporation, for the purpose of determining the number of members of the board, if any, to be appointed by the governing body or bodies thereof, is the population stated for such city, incorporated town or other municipal corporation in the last official federal census.

Notwithstanding any provision of this code to the contrary, whenever a district is consolidated or merged pursuant to section two of this article, the terms of office of the existing board members shall end on the effective date of the merger or consolidation. The county commission shall appoint a new board according to rules promulgated by the public service commission. Whenever districts are consolidated or merged no provision of this code prohibits the expansion of membership on the new board to five.

The respective terms of office of the members of the first board shall be fixed by the county commission and shall be as equally divided as may be, that is approximately one third of the members for a term of two years, a like number for a term of four years, the term of the remaining member or members for six years, from the first day of the month during which the appointments are made. The first members of the board appointed as aforesaid shall meet at the office of the clerk of the county commission which entered the order creating the district as soon as practicable after the appointments and shall qualify by taking an oath of office: Provided, That any member or members of the board may be removed from their respective office as provided in section three-a of this article.

Any vacancy shall be filled for the unexpired term within thirty days, otherwise successor members of the board shall be appointed for terms of six

years and the terms of office shall continue until successors have been appointed and qualified. All successor members shall be appointed in the same manner as the member succeeded was appointed. The district shall provide to the public service commission, within thirty days of the appointment, the following information: The new board member's name, home address, home and office phone numbers, date of appointment, length of term, who the new member replaces and if the new appointee has previously served on the board. The public service commission shall notify each new board member of the legal obligation to attend training as prescribed in this section.

The board shall organize within thirty days following the first appointments and annually thereafter at its first meeting after the first day of January of each year by selecting one of its members to serve as chair and by appointing a secretary and a treasurer who need not be members of the board. The secretary shall keep a record of all proceedings of the board which shall be available for inspection as other public records. Duplicate records shall be filed with the county commission and shall include the minutes of all board meetings. The treasurer is lawful custodian of all funds of the public service district and shall pay same out on orders authorized or approved by the board. The secretary and treasurer shall perform other duties appertaining to the affairs of the district and shall receive salaries as shall be prescribed by the board. The treasurer shall furnish bond in an amount to be fixed by the board for the use and benefit of the district.

The members of the board, and the chair, secretary and treasurer thereof, shall make available to the county commission, at all times, all of its books and records pertaining to the district's operation, finances and affairs, for inspection and audit. The board shall meet at least monthly.

§ 16–13A–8. Acquisition and purchase of public service properties; right of eminent domain; extraterritorial powers

The board may acquire any publicly or privately owned public service properties located within the boundaries of the district regardless of whether or not all or any part of such properties are located within the corporate limits of any city, incorporated town or other municipal corporation included within the district and may purchase and acquire all rights and franchises and any and all property within or outside the district necessary or incidental to the purpose of the district.

The board may construct any public service properties within or outside the district necessary or incidental to its purposes and each such district may acquire, construct, maintain and operate any such public service properties within the corporate limits of any city, incorporated town or other municipal corporation included within the district or in any unincorporated territory within ten miles of the territorial boundaries of the district: Provided, That if any incorporated city, town or other municipal corporation included within the district owns and operates either water facilities, sewer facilities, stormwater facilities or gas facilities or all of these, then the district may not acquire, construct, establish, improve or extend any public service properties of the same kind within such city, incorporated towns or other municipal corporations or the adjacent unincorporated territory served by such cities, incorporated towns or other municipal corporations, except upon the approval of the public service commission, the consent of such cities, incorporated towns or other municipal corporations and in conformity and compliance with the rights of the holders of any revenue bonds or obligations theretofore issued by such cities, incorporated towns or other municipal corporations then outstanding

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying wa-

ter and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6, § 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 123(3); Statutes ⇐ 123(5)

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. Acts 1953, c. 147, § 1 et seq.; Const. art. 10, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Taxation ⇐ 2289

2. In general

Statute providing that private property may be taken or damaged for a number of specified purposes amounts to legislative declaration of public purposes within meaning of laws, and it is a judicial question whether such declaration is consonant with organic law. Acts 1949, c. 59; Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2510

3. Eminent domain powers

Although construction of new facility proposed by utility will often require taking of private property through eminent domain, absent express statutory language Public Service Commission (PSC) has no duty to review and decide issues that are inherent in eminent domain proceeding. Sexton v. Public Service Com'n, 1992, 423 S.E.2d 914, 188 W.Va. 305. Public Utilities ⇐ 114

Statute providing that private property may be taken or damaged for a number of specified purposes is consonant with organic law and is constitutional. Acts 1949, c. 59; Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Eminent Domain ⇐ 3

4. Valuation of property

Although landowner is competent to give estimate of value of property in eminent domain proceeding, that valuation is not conclusive; government agency may rely on appraisal report concerning estimated value of property to be taken. Sexton v. Public Service Com'n, 1992, 423 S.E.2d 914, 188 W.Va. 305. Evidence ⇐ 568(4)

5. Environmental assessment

Whether construction of sewage lagoons would constitute "nuisance" does not defeat Public Service Commission's (PSC) jurisdiction to issue certificate of public convenience and necessity; while PSC may assess environmental considerations, chief inquiry by PSC is need of public for project. Code, 24–2–11. Sexton v. Public Service Com'n, 1992, 423 S.E.2d 914, 188 W.Va. 305. Municipal Corporations ⇐ 708

6. Connections with sewers or drains

City, rather than sewer and water districts, was entitled to provide sewer and water services to newly developed tract that was within districts' boundaries, but was annexed to city, where such services were not previously furnished to tract. Code, 16–13A–8. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. Municipal Corporations ⇐ 712(1); Waters And Water Courses ⇐ 201

If a tract of real estate located within a public service district has been annexed into a municipality, then, as between the municipality and the public service district, the municipality has the superior right to extend water and/or sewer service which were not being previously furnished to the tract by the public service district, and under those circumstances, a public service district would need the consent of the municipality and the Public Service Commission (PSC) in order to provide such service. Code, 16–13A–8. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. 7. Public corporation

A public service district is a public corporation and does not come within constitutional provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 80(3)

§ 16–13A–9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees

(a)(1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management,

maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district. The board shall establish rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia division of highways.

(2) Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant's specific customer class or fifty dollars, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or fifty dollars and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant's specific customer class or fifty dollars. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant's specific customer class or fifty dollars

has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer's account at a rate as the public service commission may prescribe: *Provided,* That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the public service commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service district included within the district owns and operates separately either water facilities or sewer facilities, and the district owns and operates the other kind of facilities either water or sewer, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer service fees and charges: *Provided,* That any contracts entered into by a public service district pursuant to this section shall be submitted to the public service commission for approval. Any public service district providing water and sewer service to its customers has the right to terminate water service for delinquency in payment of either water or sewer bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer district is providing water service, and the district providing sewer service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer district that is providing water service, upon the request of the district providing sewer service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer account: *Provided, however,* That any termination of water service must comply with all rules and orders of the public service commission.

(c) Any district furnishing sewer facilities within the district may require, or may by petition to the circuit court of the county in which the property is located, compel or may require the division of health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where

there is gravity flow or transportation by any other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this paragraph is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the main sewer line, the public service district board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the division of health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the public service commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the division of health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay the rates and charges for services established under this article only after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner's, tenant's or occupant's specific customer class.

(e) Whenever any district has made available a stormwater system to any owner, tenant or occupant of any real property located near the stormwater system and where stormwater from real property affects or drains into the stormwater system, it is hereby found, determined and declared that the owner, tenant or occupant is being served by the stormwater system and it is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge, and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-day notice of the availability of the stormwater system has been received by the owner.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and munici-

pal taxes. In addition to the other remedies provided in this section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided,* That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant; nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the division of environmental protection, as prescribed by section eleven, article eleven, chapter twenty-two of this code, is exempt from the provisions of this section.

1. Validity

In statute authorizing creation of public service districts, provision for delinquent fixed rates and charges for services rendered to be lien on premises served was not unconstitutional as depriving owners of property without due process of law or as violating Fourteenth Amendment of United States Constitution or applicable provisions of State Constitution. Acts 1953, c. 147, § 1 et seq.; Const. art. 3, §§ 9, 10; U.S.C.A.Const. Amend. 14. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. 2. Takings

Public service district's requiring property owner to connect onto its sewer system and to abandon private sewer system located on property was not a taking of private property without just compensation. Public service district liens must be docketed to be enforceable against purchaser of property for valuable consideration, without notice. Code, 16–13A–9, 38–10C–1. McClung Investments, Inc. v. If owner, tenant or occupant of garage apartment did not receive notice that public service district's sewer facilities were available for apartment, district would have been without statutory authority to impose charges and a lien against apartment for sewer services, though the apartment was on a lot containing another dwelling which was properly subject to sewer service charges. Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Notes of Decisions

In general 1

1. **In general**

The borrowing by PSD's of money from counties and/or municipalities, as evidenced by a note, is permissible borrowing under this section. 62 W.Va. Op.Atty.Gen. 27 (May 6, 1988) 1988 WL 483331.

§ 16–13A–25. Borrowing and bond issuance; procedure

(a) Notwithstanding any other provisions of this article to the contrary, a public service district may not borrow money, enter into contracts for the provision of engineering, design or feasibility studies, issue or contract to issue revenue bonds or exercise any of the powers conferred by the provisions of section thirteen, twenty or twenty-four of this article without the prior consent and approval of the Public Service Commission: *Provided*, That approval of funding set forth in section eleven, article two, chapter twenty-four of this code or this section is not required if the funding is for a project which has received a certificate of public convenience and necessity after the eighth day of July, two thousand five, from the commission and where the cost of the project changes but the change does not affect the rates established for the project.

(b) The Public Service Commission may waive the provision of prior consent and approval for entering into contracts for engineering, design or feasibility studies pursuant to this section for good cause shown which is evidenced by the public service district filing a request for waiver of this section stated in a letter directed to the commission with a brief description of the project, a verified statement by the board members that the public service district has complied with chapter five-g of this code, and further explanation of ability to evaluate their own engineering contract, including, but not limited to:

(1) Experience with the same engineering firm; or

(2) Completion of a construction project requiring engineering services. The district shall also forward an executed copy of the engineering contract to the commission after receiving approval of the waiver.

(c) An engineering contract that meets one or more of the following criteria is exempt from the waiver or approval requirements:

(1) A contract with a public service district that is a Class A utility on the first day of April, two thousand three, or subsequently becomes a Class A utility as defined by commission rule;

(2) A contract with a public service district that does not require borrowing and that can be paid out of existing rates;

(3) A contract where the payment of engineering fees are contingent upon the receipt of funding, and commission approval of the funding, to construct the project which is the subject of the contract; or

(4) A contract that does not exceed fifteen thousand dollars.

(d) Requests for approval or waivers of engineering contracts shall be deemed granted thirty days after the filing date unless the staff of the Public Service Commission or a party files an objection to the request. If an objection is filed, the Public Service Commission shall issue its decision within one hundred twenty days of the filing date. In the event objection is received to a request for a waiver, the application shall be considered a request for waiver as well as a request for approval in the event a waiver is not appropriate.

(e) Unless the properties to be constructed or acquired represent ordinary extensions or repairs of existing systems in the usual course of business, a public service district must first obtain a certificate of public convenience and necessity from the Public Service Commission in accordance with the provision of chapter twenty-four of this code when a public service district is seeking to acquire or construct public service property.

Proposed sewage treatment project complied with buffer zone requirements where all parties acknowledged that distance of proposed sewage lagoons from property owners' home was further than minimum buffer-zone requirement of 300 feet; Public Service Commission relied on ample evidence in record to support claim that proposed location was both cost-effective and environmentally sound. order issued by the Secretary of the Department of Environmental Protection or the Environmental Quality Board requiring the municipality to cease the pollution of any stream or waters is hereby authorized to establish and maintain, by ordinance, just and equitable rates, fees or charges for the use of the services and facilities of the existing municipal sewer system and/or stormwater system, or for the use of the services and facilities to be rendered upon completion of any works and system necessary by virtue of said order, to be paid by the owner, tenant or occupant of each and every lot or parcel of real estate or building that is connected with and uses any part of such sewer system or stormwater system, or that in any way uses or is served thereby, and may change and readjust such rates, fees or charges from time to time.

(b) The rates, fees or charges shall be sufficient to all the proper and reasonable costs and expenses of the acquisition and construction of plants, machinery and works for the collection, treatment, purification and disposal of sewage or stormwater and the repair, alteration and extension of existing sewer facilities or stormwater facilities, as may be necessary to comply with such order of the Secretary of the Department of Environmental Protection or the Environmental Quality Board, and for the operation, maintenance and repair of the entire works and system.

(c) The governing body shall create, by ordinance, a sinking fund to accumulate and hold any part or all of the proceeds derived from rates or charges until completion of the construction, to be remitted to and administered by the Municipal Bond Commission by expending and paying the costs and expenses of construction and operation in the manner as provided by said ordinance.

(d) After the completion of the construction, the rates, fees or charges shall be sufficient in each year for the payment of the proper and reasonable costs and expenses of operation, maintenance, repair, replacement and extension, from time to time, of the entire sewer and works or entire stormwater works.

(e) No such rates, fees or charges shall be established until after a public hearing, at which all the potential users of the works and owners of property served or to be served thereby and others shall have had an opportunity to be heard concerning the proposed rates or charges.

(f) After introduction of the ordinance fixing rates, fees or charges, and before the same is finally enacted, notice of such hearing setting forth the proposed schedule of rates, fees or charges shall be given by publication of notice as a Class II–0 legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code. The publication area for such publication is the municipality. The first publication shall be made at least ten days before the date fixed therein for the hearing.

(g) After such hearing, which may be adjourned from time to time, the ordinance establishing the rates, fees or charges, either as originally introduced or as modified and amended, may be passed and put into effect. A copy of the schedule of the rates, fees and charges so established shall be kept on file in the office of the sanitary board having charge of the construction and operation of such works and in the office of the clerk of the municipality. The schedule of rates, fees and charges shall be open to inspection by all parties interested. The rates, fees or charges established for any class of users or property served shall be extended to cover any additional premises thereafter served which fall within the same class, without the necessity of any hearing or notice.

(h) Any change or readjustment of rates, fees or charges may be made in the same manner as rates, fees or charges were originally established as hereinbefore provided: *Provided*, That if such change or readjustment be made substantially pro rata, as to all classes of service, no hearing or notice is required.

(i) If any rate, fee or charge is not paid within thirty days after it is due, the amount thereof, together with a penalty of ten percent and a reasonable attorney's fee, may be recovered by the sanitary board of the municipality in a civil action in the name of the municipality.

(j) Any municipality exercising the powers given herein has the authority to construct, acquire, improve, equip, operate, repair and maintain any plants, machinery or works necessary to comply with the order of the Secretary of the Department of Environmental

Protection or the Environmental Quality Board and the authority provided herein to establish, maintain and collect rates, fees or charges is an additional and alternative method of financing such works and matters, and is independent of any other provision of this article insofar as the article provides for or requires the issuance of revenue bonds or the imposition of rates, fees and charges in connection with the bonds: *Provided*, That except for the method of financing such works and matters, the construction, acquisition, improvement, equipment, custody, operation, repair and maintenance of any plants, machinery or works in compliance with an order of the Secretary of the Department of Environmental Protection or the Environmental Quality Board and the rights, powers and duties of the municipality and the respective officers and departments thereof, including the sanitary board, are governed by the provisions of this article.

(k) The jurisdiction and authority provided by this section does not extend to highways, road and drainage easements and stormwater facilities constructed, owned or operated by the West Virginia Division of Highways and no rates, fees or charges for stormwater services or costs of compliance may be assessed against highways, road and drainage easements and/or stormwater facilities constructed, owned and/or operated by the West Virginia Division of Highways.

(*l*) A municipality which has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community, as defined in 40 C.F.R. § 122.26, has the authority to enact ordinances or regulations which allow for the issuance of orders, the right to enter properties and the right to impose reasonable fines and penalties regarding correction of violations of municipal stormwater ordinances or regulations within the municipal watershed served by the municipal stormwater system, as long as such rules, regulations, fines or actions are not contrary to any rules or orders of the Public Service Commission.

(m) Notice of a violation of a municipal stormwater ordinance or regulation shall be served in person to the alleged violator or by certified mail, return receipt requested. The notice shall state the nature of the violation, the potential penalty, the action required to correct the violation and the time limit for making the correction. Should a person, after receipt of proper notice, fail to correct the violation of the municipal stormwater ordinance or regulation, the municipality may make or have made the corrections of the violation and bring the party into compliance with the applicable stormwater ordinance or regulation. The municipality may collect the costs of correcting the violation from the person by instituting a civil action, as long as such actions are not contrary to any rules or orders of the Public Service Commission.

(n) A municipality which has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community shall prepare an annual report detailing the collection and expenditure of rates, fees or charges and make it available for public review at the place of business of the governing body and the stormwater utility main office.

ARTICLE 13A

PUBLIC SERVICE DISTRICTS

Section
16–13A–9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees.

§ 16–13A–9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees

(a)(1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management, maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district.

The board shall establish rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia Division of Highways.

(2) Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant's specific customer class or fifty dollars, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or fifty dollars and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant's specific customer class or fifty dollars. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant's specific customer class or fifty dollars has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer's account at a rate as the Public Service Commission may prescribe: *Provided,* That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the Public Service Commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service district included within the district owns and operates separately water facilities, sewer facilities or stormwater facilities and the district owns and operates another kind of facility either water or sewer, or both, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer

or stormwater service fees and charges: *Provided,* That any contracts entered into by a public service district pursuant to this section shall be submitted to the Public Service Commission for approval. Any public service district which provides water and sewer service, water and stormwater service or water, sewer and stormwater service has the right to terminate water service for delinquency in payment of water, sewer or stormwater bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer or stormwater district is providing water service and the district providing sewer or stormwater service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer or stormwater district that is providing water service, upon the request of the district providing sewer or stormwater service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer or stormwater account: *Provided, however,* That any termination of water service must comply with all rules and orders of the Public Service Commission.

(c) Any district furnishing sewer facilities within the district may require, or may by petition to the circuit court of the county in which the property is located, compel or may require the Division of Health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the Division of Health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where there is gravity flow or transportation by any other methods approved by the Division of Health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this paragraph is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the main sewer line, the Public Service District Board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the Division of Health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the Public Service Commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the Division of Health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay, the rates and charges for services established under this article only after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner's, tenant's or occupant's specific customer class.

(e) The owner, tenant or occupant of any real property may be determined and declared to be served by a stormwater system only after each of the following conditions is met: (1) The district has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community, as defined in 40 C.F.R. § 122.26; (2) the district's authority has been properly expanded to operate and maintain a stormwater system; (3) the district has made available a stormwater system where stormwater from the real property affects or drains into the stormwater system; and (4) the real property is

located in the Municipal Separate Storm Sewer System's designated service area. It is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-day notice of the availability of the stormwater system has been received by the owner. An entity providing stormwater service shall provide a tenant a report of the stormwater fee charged for the entire property and, if appropriate, that portion of the fee to be assessed to the tenant.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and municipal taxes. In addition to the other remedies provided in this section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided,* That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two of this code, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the Department of Environmental Protection, as prescribed by section eleven of said article is exempt from the provisions of this section.

(h) A public service district which has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community shall prepare an annual report detailing the collection and expenditure of rates, fees or charges and make it available for public review at the place of business of the governing body and the stormwater utility main office.

1. Person

The state and its political subdivisions are within the meaning of the terms "person" and "another" as those terms are used in the statute prohibiting one from obtaining money, goods, labor, services and other things of value from another person under false pretenses; thus, the state and its political subdivisions may be the victim of that offense. § 22C-1-4. Water development authority; water development board; organization of authority and board; appointment of board members; their term of office, compensation and expenses; director of authority; compensation

(a) The water development authority is continued. The authority is a governmental instrumentality of the state and a body corporate. The exercise by the authority of the powers conferred by this article and the carrying out of its

purposes and duties are essential governmental functions and for a public purpose.

(b) The authority is controlled, managed and operated by a seven-member board known as the water development board. The governor or designee, the secretary of the department of environmental protection or designee and the commissioner of the bureau for public health or designee are members ex officio of the board. Four members are appointed by the governor, by and with the advice and consent of the Senate, for six-year terms, which are staggered in accordance with the initial appointments under prior enactment of this section. In the event of a vacancy, appointments are filled in the same manner as the original appointment for the remainder of the unexpired term. A member continues to serve until the appointment and qualification of the successor. More than two appointed board members may not at any one time belong to the same political party. Appointed board members may be reappointed to serve additional terms.

(c) All members of the board shall be citizens of the state. Each appointed member of the board, before entering upon his or her duties, shall comply with the requirements of article one, chapter six of this code and give bond in the sum of twenty-five thousand dollars in the manner provided in article two of said chapter. The governor may remove any board member for cause as provided in article six of said chapter.

(d) The governor or designee serves as chair. The board annually elects one of its appointed members as vice chair and appoints a secretary-treasurer, who need not be a member of the board. Four members of the board is a quorum and the affirmative vote of four members is necessary for any action taken by vote of the board. A vacancy in the membership of the board does not impair the rights of a quorum by such vote to exercise all the rights and perform all the duties of the board and the authority. The person appointed as secretary-treasurer, including a board member if so appointed, shall give bond in the sum of fifty thousand dollars in the manner provided in article two, chapter six of this code.

(e) The governor or designee, the secretary of the department of environmental protection and the commissioner of the bureau for public health do not receive compensation for serving as board members. Each appointed member receives an annual salary of twelve thousand dollars, payable in monthly installments. Each of the seven board members is reimbursed for all reasonable and necessary expenses actually incurred in the performance of duties as a member of the board in a manner consistent with guidelines of the travel management office of the department of administration. All expenses incurred by the board are payable solely from funds of the authority or from funds appropriated for that purpose by the Legislature. Liability or obligation is not incurred by the authority beyond the extent to which moneys are available from funds of the authority or from such appropriations.

(f) There is a director of the authority appointed by the governor, with the advice and consent of the Senate, who serves at the governor's will and

pleasure. The director is responsible for managing and administering the daily functions of the authority and for performing other functions necessary to the effective operation of the authority. The compensation of the director is fixed annually by the board.

The authority may, from time to time, issue renewal notes, issue bonds to pay such notes and whenever it deems refunding expedient, refund any bonds by the issuance of water development revenue refunding bonds by the state pursuant to the provisions of section twenty of this article. Except as may otherwise be expressly provided in this article or by the authority, every issue of its bonds or notes are obligations of the authority payable out of the revenues and reserves created for such purposes by the authority, which are pledged for such payment, without preference or priority of the first bonds issued, subject only to any agreements with the holders of particular bonds or notes pledging any particular revenues. Such pledge is valid and binding from the time the pledge is made and the revenues so pledged and thereafter received by the authority are immediately subject to the lien of such pledge without any physical delivery thereof or further act and the lien of any such pledge is valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority irrespective of whether such parties have notice thereof.

All such bonds and notes shall have and are hereby declared to have all the qualities of negotiable instruments.

The bonds and notes shall be authorized by resolution of the authority, bear such date and mature at such time, in the case of any such note or any renewals thereof not exceeding five years from the date of issue of such original note, and in the case of any such bond not exceeding fifty years from the date of issue, as such resolution may provide. The bonds and notes shall bear interest at such rate, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be payable in such medium of payment, at such place and be subject to such terms of redemption as the authority may authorize. The bonds and notes of the authority may be sold by the authority, at public or private sale, at or not less than the price the authority determines. The bonds and notes shall be executed by the chair and vice-chair of the authority, both of whom may use facsimile signatures. The official seal of the authority or a facsimile thereof shall be affixed thereto or printed thereon and attested, manually or by facsimile signature, by the secretary-treasurer of the authority, and any coupons attached thereto shall bear the signature or facsimile signature of the chair of the authority. In case any officer whose signature, or a facsimile of whose signature, appears on any bonds, notes or coupons ceases to be such officer before delivery of such bonds or notes, such signature or facsimile is nevertheless sufficient for all purposes the same as if he or she had remained in office until such delivery and in case the seal of the authority has been changed after a facsimile has been imprinted on such bonds or notes such facsimile seal will continue to be sufficient for all purposes.

Any resolution authorizing any bonds or notes or any issue thereof may contain provisions (subject to such agreements with bondholders or noteholders as may then exist, which provisions shall be a part of the contract with the

holders thereof) as to pledging all or any part of the revenues of the authority to secure the payment of the bonds or notes or of any issue thereof; the use and disposition of revenues of the authority; a covenant to fix, alter and collect rentals and other charges so that pledged revenues will be sufficient to pay the costs of operation, maintenance and repairs, pay principal of and interest on bonds or notes secured by the pledge of such revenues and provide such reserves as may be required by the applicable resolution or trust agreement; the setting aside of reserve funds, sinking funds or replacement and improvement funds and the regulation and disposition thereof; the crediting of the proceeds of the sale of bonds or notes to and among the funds referred to or provided for in the resolution authorizing the issuance of the bonds or notes; the use, lease, sale or other disposition of any water development project or any other assets of the authority; limitations on the purpose to which the proceeds of sale of bonds or notes may be applied and pledging such proceeds to secure the payment of the bonds or notes or of any issue thereof; notes issued in anticipation of the issuance of bonds, the agreement of the authority to do all things necessary for the authorization, issuance and sale of such bonds in such amounts as may be necessary for the timely retirement of such notes; limitations on the issuance of additional bonds or notes; the terms upon which additional bonds or notes may be issued and secured; the refunding of outstanding bonds or notes; the procedure, if any, by which the terms of any contract with bondholders or noteholders may be amended or abrogated, the amount of bonds or notes the holders of which must consent thereto and the manner in which such consent may be given; limitations on the amount of moneys to be expended by the authority for operating, administrative or other expenses of the authority; securing any bonds or notes by a trust agreement; and any other matters, of like or different character, which in any way affect the security or protection of the bonds or notes.

In the event that the sum of all reserves pledged to the payment of such bonds or notes are less than the minimum reserve requirements established in any resolution or resolutions authorizing the issuance of such bonds or notes, the chair of the authority shall certify, on or before the first day of December of each year, the amount of such deficiency to the governor of the state, for inclusion, if the governor shall so elect, of the amount of such deficiency in the budget to be submitted to the next session of the Legislature for appropriation to the authority to be pledged for payment of such bonds or notes: Provided, That the Legislature is not required to make any appropriation so requested, and the amount of such deficiencies is not a debt or liability of the state.

Neither the members of the authority nor any person executing the bonds or notes are liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

Notes of Decisions

In general 1

1. In general

Statute authorizes Water Development Authority (WDA) to directly impose on public service district, which operates public utility as defined by separate statutory provision, in its own name and for its own benefit service charges determined by it to be necessary when public service district defaults on loan made by Water Development Authority to public service district; however, Water Development Authority's power to impose such service charges upon public service district which operates public utility is subject to regulatory review and approval of Public Service Commission (PSC) pursuant to separate statute. Code, 22C-1-7, 24-1-2, 24-2-1. State ex rel. Water Development Authority v. Northern Wayne County Public Service Dist., 1995, 464 S.E.2d 777, 195 W.Va. 135. Waters And Water Courses ⇐ 183.5

§ 22C-1-10. Trustee for bondholders; contents of trust agreement

In the discretion of the authority, any water development revenue bonds or notes or water development revenue refunding bonds issued by the authority under this article may be secured by a trust agreement between the authority and a corporate trustee, which trustee may be any trust company or banking institution having the powers of a trust company within or without this state.

Any such trust agreement may pledge or assign revenues of the authority to be received, but shall not convey or mortgage any water development project or any part thereof. Any such trust agreement or any resolution providing for the issuance of such bonds or notes may contain such provisions for protecting and enforcing the rights and remedies of the bondholders or noteholders as are reasonable and proper and not in violation of law, including the provisions contained in section nine of this article and covenants setting forth the duties of the authority in relation to the acquisition of property, the construction, improvement, maintenance, repair, operation and insurance of the water development project the cost of which is paid, in whole or in part, from the proceeds of such bonds or notes, the rentals or other charges to be imposed for the use or services of any water development project, provisions with regard to the payment of the principal of and interest, charges and fees on loans made to governmental agencies from the proceeds of such bonds or notes, the custody, safeguarding, and application of all moneys and provisions for the employment of consulting engineers in connection with the construction or operation of such water development project. Any banking institution or trust company incorporated under the laws of this state which may act as depository of the proceeds of bonds or notes or of revenues shall furnish such indemnifying bonds or pledge such securities as are required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and noteholders and of the trustee and may restrict individual rights of action by bondholders and noteholders as customarily provided in trust agreements or trust indentures securing similar bonds. Such trust agreement may contain such other provisions as the authority deems reasonable and proper for the security of the bondholders or noteholders. All expenses incurred in carrying out the provisions of any such trust agreement may be treated as a part of the

cost of the operation of the water development project. Any such trust agreement or resolution authorizing the issuance of water development revenue bonds may provide the method whereby the general administrative overhead expenses of the authority will be allocated among the several projects acquired or constructed by it as a factor of the operating expenses of each such project.

§ 22C-1-16. Rentals and other revenues from water development projects owned by the authority; contracts and leases of the authority; cooperation of other governmental agencies; bonds of such agencies

This section applies to any water development project or projects which are owned, in whole or in part, by the authority. The authority may charge, alter and collect rentals or other charges for the use or services of any water development project, and contract in the manner provided by this section with one or more persons, one or more governmental agencies, or any combination thereof, desiring the use or services thereof, and fix the terms, conditions, rentals or other charges for such use or services. Such rentals or other charges are not subject to supervision or regulation by any other authority, department, commission, board, bureau or agency of the state, and such contract may provide for acquisition by such person or governmental agency of all or any part of such water development project for such consideration payable over the period of the contract or otherwise as the authority in its sole discretion determines to be appropriate, but subject to the provisions of any resolution authorizing the issuance of water development revenue bonds or notes or water development revenue refunding bonds of the authority or any trust agreement securing the same. Any governmental agency which has power to construct, operate and maintain public water or wastewater facilities may enter into a contract or lease with the authority whereby the use or services of any water development project of the authority will be made available to such governmental agency and pay for such use or services such rentals or other charges as may be agreed to by such governmental agency and the authority.

Any governmental agency or agencies or combination thereof may cooperate with the authority in the acquisition or construction of a water development project and shall enter into such agreements with the authority as are necessary, with a view to effective cooperative action and safeguarding of the respective interests of the parties thereto, which agreements shall provide for such contributions by the parties thereto in such proportion as may be agreed upon and such other terms as may be mutually satisfactory to the parties, including, without limitation, the authorization of the construction of the project by one of the parties acting as agent for all of the parties and the ownership and control of the project by the authority to the extent necessary or appropriate for purposes of the issuance of water development revenue bonds by the authority. Any governmental agency may provide such contribution as is required under such agreements by the appropriation of money or, if authorized by a favorable vote of the electors to issue bonds or notes or levy taxes or assessments and issue notes or bonds in anticipation of the collection thereof, by the issuance of bonds or notes or by the levying of taxes or assessments and the issuance of bonds or notes in anticipation of the collection thereof, and by the payment of such appropriated money or the proceeds of such bonds or notes to the authority pursuant to such agreements.

Any governmental agency, pursuant to a favorable vote of the electors in an election held for the purpose of issuing bonds to provide funds to acquire, construct or equip, or provide real estate and interests in real estate for a public water or wastewater facility, whether or not the governmental agency at the time of such an election had the authority to pay the proceeds from such bonds or notes issued in anticipation thereof to the authority as provided in this section, may issue such bonds or notes in anticipation of the issuance thereof and pay the proceeds thereof to the authority in accordance with an agreement between such governmental agency and the authority: Provided, That the legislative authority of the governmental agency finds and determines that the water development project to be acquired or constructed by the authority in cooperation with such governmental agency will serve the same public purpose and meet substantially the same public need as the facility otherwise proposed to be acquired or constructed by the governmental agency with the proceeds of such bonds or notes.

The authority may acquire by purchase, whenever it deems such purchase expedient, any land, property, rights, rights-of-way, franchises, easements and other interests in lands it deems necessary or convenient for the construction and operation of any water development project upon such terms and at such prices it considers reasonable and can be agreed upon between the authority and the owner thereof, and take title thereto in the name of the state.

§ 22C-1-23. Same—Acquisition under subdivision (10), section six of this article; property of public utilities and common carriers; relocation, restoration, etc., of highways and public utility facilities

The authority may acquire, pursuant to subdivision (10), section six of this article, any land, rights, rights-of-way, franchises, easements or other property necessary or proper for the construction or the efficient operation of any water development project.

This section does not authorize the authority to take or disturb property or facilities belonging to any public utility or to a common carrier, which property or facilities are required for the proper and convenient operation of such public utility or common carrier, unless provision is made for the restoration, relocation or duplication of such property or facilities elsewhere at the sole cost of the authority.

When the authority finds it necessary to change the location of any portion of any public road, state highway, railroad or public utility facility in connection with the construction of a water development project, it shall cause the same to be reconstructed at such location as the unit or division of government having jurisdiction over such road, highway, railroad or public utility facility deems most favorable. Such construction shall be of substantially the same type and in as good condition as the original road, highway, railroad or public utility facility. The cost of such reconstruction, relocation or removal and any damage incurred in changing the location of any such road, highway, railroad or public utility facility shall be paid by the authority as a part of the cost of such water development project.

When the authority finds it necessary that any public highway or portion thereof be vacated by reason of the acquisition or construction of a water development project, the authority shall request the commissioner of the division of highways, in writing, to vacate such highway or portion thereof if the highway or portion thereof to be vacated is part of the state road system, or, if the highway or portion thereof to be vacated is under the jurisdiction of a county or a municipality, the authority shall request the governing body of such county or municipality to vacate such public road or portion thereof. The authority shall pay to the commissioner of the division of highways or to the county or municipality, as the case may be, as part of the cost of such water development project, any amounts required to be deposited with any court in connection with proceedings for the determination of compensation and damages and all amounts of compensation and damages finally determined to be payable as a result of such vacation.

The authority may make reasonable rules for the installation, construction, maintenance, repair, renewal, relocation and removal of railroad or public utility facilities in, on, over or under any water development project. Whenever the authority determines that it is necessary that any such facilities installed or constructed in, on, over or under property of the authority pursuant to such rules be relocated, the railroad or public utility owning or operating such facilities shall relocate or remove them in accordance with the order of the authority. The cost and expenses of such relocation or removal, including the cost of installing such facilities in a new location, the cost of any lands or any rights or interests in lands and the cost of any other rights acquired to accomplish such relocation or removal, may be paid by the authority as a part of the cost of such water development project. In case of any such relocation or removal of facilities, the railroad or public utility owning or operating them, and its successors or assigns, may maintain and operate such facilities, with the necessary appurtenances in the new location in, on, over or under the property

of the authority for as long a period and upon the same terms as it had the right to maintain and operate such facilities in their former location.

OLD BUSINESS:

Chairman Howell asked for an update on the Winifrede project. Mr. Sanghavi said DEP has approved the plan specs. They have all of the paper work including the preliminary title of opinion for 80% of the rights of way. Chelyan Public Service District is now waiting for the DEP to authorize advertisement of the project, which should be at anytime. The application has been filed with the WVIJDC for the $125,000.00 grant to cover soft costs of the Winifrede project. Mr. Hanna said the certificate application is still pending and the Public Service Commission. He said the fact we haven't received a data request is a good sign. Mr. Hanna said the request for the design loan through the WDA in the approximate amount of $400,000.00 is still pending. Chairman Howell asked if once the project is bid, does that mean the Chelyan Public Service District is insured the money for the project. Mr. Sanghavi explained that once you bid the project and submit the paper work that is when the DEP will let us know if the project was funded or not. Chairman Howell asked what the total amount of the project is. Mr. Sanghavi said $6,040,000.00, which will be made up of 50% grant money and 50% loan money at an interest rate of 1% for 20 years.

Chairman Howell asked for an update on the Pratt/UKVPSD O & M Agreements. Mr. Hanna said Mr. Dingess and Mr. Hope have a meeting scheduled with Mr. Jim Weimer, PSC to review some of the cost figures in the O & M Agreements. Mr. Dingess said there is an RDA meeting scheduled for Wednesday July 29, 2009 to discuss whether the $100,000.00 loan offer made to the Town of Pratt is still committed funding.

Mr. Hope asked Mr. Sanghavi if he had a chance to review the papers for the Jon Sanchez project in Shrewsbury. Mr. Sanghavi said he hadn't had the chance to review them.

NEW BUSINESS:

Chairman Howell suggested a letter might be mailed to Mayor Fields requesting he attend a special meeting to discuss meter reading fees and termination/reconnect fees for non payment of sewer bills. Mrs. Garrison said she would draft that letter as soon as Mr. Stout could notify her of his availability.

CHELYAN PUBLIC SERVICE DISTRICT
HELD ON TUESDAY JULY 28, 2009

Mr. Howell said the PEIA insurance premium took an 11% increase for the new fiscal year. He suggested the District increase their portion of the premium to $880.00. He said the additional incremental cost to the District would be a $687.00 increase. Mr. Hanna asked if the increase was built into the budget. Mr. Dingess said there is a surplus in the most recent rate case and he didn't anticipate any cash flow problems due to this increase.

Chairman Howell moved to adjourn the meeting at 11:30 a.m. Mr. Shelton presented the second and the motion carried.

CASE NO. 09-0902-PSD-SCN

CHELYAN PUBLIC SERVICE DISTRICT
a public utility.
Application for a certificate of convenience and necessity to serve approximately 315 new customers in the Winifrede Hollow area, within the District's existing service territory, in Kanawha County, West Virginia.

RECOMMENDED DECISION

PROCEDURE

On June 3, 2009, the Chelyan Public Service District (District) filed an application for a certificate of public convenience and necessity with the Public Service Commission, pursuant to W. Va. Code §24-2-11, for approval to construct sanitary sewer collection and treatment facilities to serve approximately 315 new customers in the Winifrede Hollow area, within the District's existing service territory in Kanawha County, West Virginia. The Project includes the installation of approximately 53,815 lineal feet of various sizes and types of sewer line; 210 manholes; one connection to the District's existing sanitary sewer system; two (2) pump stations; and three (3) grinder pump stations.

The District estimated that the Project would cost approximately $6,040,000 and anticipated utilizing Project funding consisting of a 100% forgiveable loan in the amount of $3,020,000 from the West Virginia Department of Environmental Protection (DEP) utilizing funds provided by The American Recovery and Reinvestment Act of 2009 (ARRA) and a loan in the amount of $3,020,000 through the State Revolving Loan Fund Program, at an interest rate not to exceed 1% for a term not to exceed 20 years. The District anticipated that it would need a rate increase of approximately 20% to fund the cost associated with the Project.

The District stated that the Project would not compete with any other public utilities and that service was not now rendered in the proposed project area by any existing utility, corporation or person. The District requested that the certificate be granted because the Project will provide sanitary sewer collection and treatment services to an area which currently is not being provided with sewer service. Many of the septic systems serving the individual residences in the Project area are ineffective and are discharging untreated sewage directly into nearby creeks and streams.

Along with the application, the District filed a Rule 42 Exhibit for the fiscal year ended June 30, 2008; operation and maintenance costs estimates for the Project; treatment cost estimates for the Project; a breakdown of construction costs and funding; and Project plans, specifications and contract documents prepared by S&S Engineers, Inc. (Project Engineer).

By Notice of Filing Order dated June 5, 2009, the Commission directed the District to provide notice of the application to its customers by publishing a copy of the Notice of Filing Order one time in a qualified newspaper, published and of general circulation in Kanawha County, making due return to the Commission of proper certification of publication immediately thereafter. Anyone desiring to protest the application was given leave to do so no later than thirty (30) days from the date of publication. Finally, the Notice of Filing provided that, if no substantial protest to the application was filed within said 30-day period, the Commission could waive formal hearing and grant the application based upon the evidence submitted with the application and the Commission's review thereof.

On June 12, 2009, Staff Attorney John Auville filed the Initial Joint Staff Memorandum herein, attached to which was the Initial Internal Staff Memorandum prepared by Utilities Analyst Nathan Nelson of the Water and Wastewater Division and Technical Analyst Jim Spurlock of the Engineering Division. Commission Staff indicated that its review of the application had commenced and it would file its recommendation within the required time frame. The Staff Memorandum set forth four(4) items of additional information needed for Staff to complete its review. Along with the Initial Joint Staff Memorandum and attachment, the Staff Attorney filed a copy of Commission Staff's first set of data requests to the District, requesting the information specified in the Initial Joint Staff Memorandum.

By Commission Referral Order entered on June 17, 2009, the Commission referred this matter to the Division of Administrative Law Judges for a decision to be rendered on or before September 2, 2009.

On June 22, 2009, the District filed its response to Staff's first set of data requests. Among other things, the District filed a copy of the preliminary engineering report dated February 2005, and an addendum dated April 2009; a Kanawha-Charleston Health Department letter regarding the results of a sewage survey in the Project area conducted on April 15, 2009, finding that 260 homes have some type of untreated wastewater discharge; as part of the preliminary engineering report, a petition from residents of the area to be served requesting service from the District; and a DEP letter dated June 10, 2009, informing the District that it appeared to be eligible to be considered for a $6,040,000 loan, with a -3% interest rate for a term of 38 years, equaling debt forgiveness of approximately 50%, with a 1% annual administrative fee for the amount of the loan to be repaid.

Also on June 22, 2009, the District filed the affidavit of publication from The Charleston Gazette, a qualified newspaper, published in Kanawha County, verifying that the Notice of Filing was published in that newspaper on June 15, 2009. The 30-day protest period expired on July

15, 2009, with no protest having been filed in response to the publication either by that date or as of the date of this Order.

On June 24, 2009, the District filed another copy of the DEP letter indicating the District's eligibility for consideration for an ARRA loan.

On July 13, 2009, the District filed the form of certificate of posting, publication and separate mailing to sanitary sewer customers and resale customers of the District, regarding its request for a change in its sewer tariff, pursuant to the Commission's rules. The filing indicated that the District's customers received individual notice of the proposed rate increase with their June 2009 bills. The District noted that it has two (2) resale customers who were not affected by the proposed rate increase. Additionally, the Notice of Filing was posted at the District's offices on June 8, 2009.

On August 5, 2009, Staff Attorney Auville, by Staff Attorney Chris Howard, filed the Final Joint Staff Memorandum herein, attached to which was the Final Staff Internal Memorandum prepared by Mr. Nelson and Mr. Spurlock. Technical Staff reviewed the construction proposed in the Project and verified that the Project will serve an area which currently does not receive public sewer service. Residents currently utilize inadequate septic systems and are discharging untreated sewage into the nearby streams, which has been documented by the Kanawha-Charleston Health Department. The Kanawha-Charleston Health Department has endorsed the District's efforts to extend service to that area.

Wastewater treatment will be provided by the District's wastewater treatment plant. The treatment plant has adequate capacity to treat the flows expected from the proposed Project. Wastewater treatment at the Marmet/Chesapeake plant was evaluated and rejected due to responses from town officials, indicating insufficient treatment plant and collection system capacity. Additionally, the District's treatment plant is closer to the Project area than is Marmet's treatment plant.

The total Project cost estimate is $6,040,000, resulting in a cost per customer of $19,175. Engineering fees for the Project are approximately 15% of the construction costs. The District anticipates an increase in operation and maintenance expenses annually of $72,758, which Commission Staff believes to be reasonable. The District has received a permit for construction of the Project from the DEP. Staff's review of the plans and specifications did not reveal any conflicts with the Commission's Rules and Regulations for the Government of Sewer Utilities (Sewer Rules).

Financial Staff's review recited the terms of the proposed ARRA funding in the form of a loan in the amount of $6,040,000, with a -3% interest rate for a term of 38 years, which amounts to a debt forgiveness of approximately 50%. The annual payments on the loan will be $83,252, with a 10% debt reserve requirement. The annual administrative fee $12,563.

Upon review of the filing and the proposed financing, Commission Staff recommended a rate increase for the District of only 5%, compared to the District's requested 20% increase. The District had based its rate increase on a 20-year pay back period. While Commission Staff

utilized the 38-year term set forth in the DEP letter of eligibility. The difference in the repayment amount is $86,090 annually. Further, the District imposed the rate increase upon its core customers only and did not include the resale customers. Staff spread the 5% increase across all customer classes. Commission Staff prepared a cash flow analysis for the District indicating that, upon Project completion, the District should experience a cash flow surplus of $18,725, with debt service coverage of 121.03%. Financial Staff is of the opinion that the Project is feasible and should be approved, along with the Staff-recommended tariff.

In summary, Commission Staff recommended approval of the Project; approval of the Project financing; approval of the Staff-recommended increased rates and charges; and approval of other conditions regarding the Project.

On August 10, 2009, the District filed a letter in response to the Final Joint Staff Memorandum. The District indicated its intent to pursue the loan terms specified in its original filing, as opposed to the terms set forth in the letter from the DEP. The District indicated that a letter from DEP clarifying the Project funding would be filed separately as soon as it was available. Accordingly, the District requested that Commission Staff recalculate the cash flow requirements and revise its proposed rates and charges.

On August 12, 2009, the District filed a revised letter from DEP, agreeing to a twenty (20) year term for repayment of the loan instead of the 38-year term. The ARRA forgiveness portion of the total loan will remain at 50% and the repayable loan portion will be 50% with a 0% interest rate, a 1% annual administrative fee and a 20-year term.

On August 14, 2009, Staff Attorney Auville filed the Further Final Joint Staff Memorandum in this proceeding, attached to which was the Further Final Internal Memorandum prepared by Mr. Nelson and Mr. Spurlock, in response to the revised funding letter from DEP. Since the term of the loan will now be 20 years instead of 38 years, annual payments on the loan will be $151,000, with a 10% debt reserve requirement. The annual administrative fee remains the same. Upon review of the filing and the change in the terms of the proposed financing, Commission Staff modified its recommended rates and charges to reflect a 12.1% increase over the District's current rates, rather than the 5% increase originally recommended. The difference between the District's requested 20% increase and the Staff recommendation was based upon the imposition by the District of the rate increase only upon its core customers, and not upon its resale customers, and the use by Staff of an average consumption level of 3500 gallons for the new customers, rather than the 3000 gallons used in the Rule 42 Exhibit. Staff noted that the District's residential customers' currently average monthly consumption of 3700 gallons. The Staff-recommended cash flow analysis indicates that, upon Project completion, the District should experience a cash flow surplus of $17,784, with debt service coverage of 119.5%. With the exception of the modification to the Staff-recommended rates and charges and the DEP revised funding letter, there were no other revisions to the Final Joint Staff Memorandum.

DISCUSSION

The Project at issue herein, in and of itself, is not remarkable and appears to be well-justified. There is more than ample proof of need to support the conclusion that the public convenience and necessity require the Project and that the Project appears to be economically and financially viable, based upon the proposed ARRA funding and the District's recently enacted revised sewer rates and charges. This Project is remarkable because it is one of the SCN applications created by the Public Service Commission in General Order No. 182.09, issued on April 16, 2009. In that General Order, the Commission discussed the process to be followed for water and sewer certificate projects that are to be funded with stimulus funds under the ARRA.[1] The Commission noted that the State Bureau for Public Health will have approximately 19.5 million dollars in federal stimulus funds for water projects, while the DEP will have approximately 61 million dollars for sewer projects. Originally, those projects had to be bid by August 2009 and the contracts awarded by October 2009, although it now appears that the projects must be bid by October 2009. The economic stimulus projects are made more complicated by the fact that the funding agencies overseeing the distribution of economic stimulus funds will not be finally awarding those funds through a traditional commitment letter until approximately August or September of 2009. Economic stimulus money is awarded on a "first come, first served" basis and there is no guarantee that any project which received a letter from either DEP or the Bureau for Public Health, indicating that a project was eligible for certain level of ARRA funding, will actually receive the originally specified level of ARRA funding, or any ARRA funding at all.

Traditionally, orders granting certificates of convenience and necessity to public utilities have specifically approved the funding package proposed for the water or sewer project and have required that the public utility file a petition to reopen the proceeding to obtain Commission approval of any changes to project financing only in the event that project costs change and rates are affected, either requiring increases or decreases. That process is being retained in large part for projects using ARRA funds, since that process provides a reasonable, and streamlined, means of addressing the timing problems associated with ARRA projects, i.e., the financing will not be finally committed until sometime in August or September of 2009 and contracts must be awarded on or before October 1, 2009. The biggest difference is the approval of project financing that has not been committed. To further accommodate the timing constraints of ARRA, essentially, the determination is being made in advance that any funding package that includes ARRA funds is reasonable, so that changes to an ARRA funding package do not require additional review, unless rates have to be increased.

Despite the ARRA constraints, the Public Service Commission has an obligation with regard to any certificate application, whether it is

---

[1]While the availability of ARRA funding has generated a flurry of SCN certificate filings with accelerated timelines, there has been no statutory change in the West Virginia Code to accommodate the ARRA funding. For the purposes of W. Va. Code § 24-2-11, ARRA funding is no different from any other funding.

filed by a private utility, a public service district or a municipality, to insure that the project is economically feasible and financially viable, which includes guaranteeing that there is adequate financing to fund the proposed project. See, Town of Man and Man Water Works, Inc., Case No. 81-433-W-PC, Order Affirming Hearing Examiner's Decision, April 16, 1982, 69 ARPSCWV 1893; Ohio County Public Service District, Case No. 82-482-S-CN, Order Affirming Hearing Examiner's Decision Without Prejudice, April 8, 1983, 70 ARPSCWV 2049. See also, Sexton v. Public Service Commission, 188 W. Va. 305, 423 S.E.2d 914, (1992). Accordingly, the District must reopen this proceeding for Commission review and approval of project changes which generate rate changes, with the clarification that this requirement will apply only to rate increases. Further, it is reasonable to include an ordering paragraph prohibiting the public utility from commencing construction, unless it has secured adequate funding to cover all project costs, as those costs have been determined upon the conclusion of the bidding process and after bids have been awarded for all of the construction contracts associated with the project, and to file that information with the Commission. The District will be required to file with the Commission a letter detailing the final funding package for this project upon that information being known, along with the bid tabulations for each construction contract to be awarded for the project. Those filings should be made as closed entries and should not be treated as petitions to reopen.

In the event that, after the filing of the letter by the public utility providing the details of the finalized funding package for the certificated project, Commission Staff concludes, based upon its own independent analysis, that either the specified funding package or the rates are insufficient to cover all project costs, it will be the obligation of Commission Staff to petition the Public Service Commission to reopen the certificate proceeding for the purpose of reviewing the financial viability of the certificated project.

As with all certificate applications filed with the Commission, in the event that the project scope changes, or changes in project cost and/or financing require a further rate increase, or if the District ultimately receives no ARRA funding, the District will be required to file a petition to reopen this matter, to allow the Commission to assess the nature of the project changes, both to determine if they are adequately funded and to determine if those changes are appropriate and not in conflict with any state laws or Commission rules, and to insure that funding package and associated rates support the economic feasibility and financial viability of the project.

FINDINGS OF FACT

1. On June 3, 2009, Chelyan Public Service District filed an application with the Public Service Commission for a certificate of public convenience and necessity to construct a sewer main extension project to serve 315 customers in the Winifrede Hollow area of Kanawha County. The project has been approved by the West Virginia Infrastructure and Jobs Development Council. (See, application filed June 3, 2009; Final Joint Staff Memorandum and attachment filed August 14, 2009).

2. By Notice of Filing Order entered on June 5, 2009, Chelyan Public Service District was required to publish a Notice of Filing one time in a newspaper, published and generally circulated in Kanawha County, providing anyone affected by the application thirty (30) days in which to file written protests with the Public Service Commission. No protests were filed within the thirty-day protest period or as of the date of this Order. (See, Notice of Filing Order entered June 5, 2009; affidavit of publication filed June 22, 2009; case file generally).

3. The District has received a letter from the West Virginia Department of Environmental Protection, informing it that the Project is eligible to be considered for an award of economic stimulus funds, under The American Recovery and Reinvestment Act of 2009, with said funding to be in the form of a $6,040,000 loan, with a -3% interest rate for a term of 20 years, which equals an approximate 50% debt forgiveness. There will also be an annual administrative fee in the amount of 1% for the amount of the loan to be repaid. (See, DEP letter dated August 11, 2009, filed August 12, 2009).

4. DEP has reviewed and approved the plans and specifications for the Project. (See, Final Joint Staff Memorandum and attachment filed August 5, 2009).

5. The Project will require a rate increase of 12.1%, as opposed to the 20% requested by the District. Based upon the Staff-recommended rates, and with adjustment by Commission Staff for different expenses, at project completion, the District should experience a cash flow surplus of $17,784, with debt service coverage of 119.5%. (See, Further Final Joint Staff Memorandum and attachment filed August 14, 2009).

6. Commission Technical Staff has reviewed the original plans and specifications for the Project and has concluded that there are no conflicts with the Commission's Sewer Rules concerning engineering requirements. (See, Final Joint Staff Memorandum and attachment filed August 5, 2009).

7. The project area currently does not have public sewer service. Residents use inadequate septic systems, which discharge untreated sewage into nearby streams. The Kanawha-Charleston Health Department has documented the need for proper sewage disposal in the area and has endorsed the District's effort to extend service to those residents. (See, application filed June 3, 2009; filing of June 22, 2009; Final Joint Staff Memorandum and attachment filed August 5, 2009).

8. After concluding its review, Commission Staff recommended that a certificate of convenience and necessity be granted to Chelyan Public Service District, that the proposed ARRA financing be approved and that various other conditions with regard to certification of the project be adopted. (See, Final and Further Final Joint Staff Memoranda and attachments filed August 5 and 14, 2009).

CONCLUSIONS OF LAW

1. The Public Service Commission is empowered to require all public utilities, including municipally-operated public utilities, to

demonstrate that a proposed water or sewer project is economically feasible and financially viable by demonstrating that they have secured adequate funding to cover all project costs, as those project costs are determined to be at the conclusion of the bidding process, and that the resulting rates are just, reasonable, applied without unjust discrimination or preference and based primarily on the cost of providing service. See, W. Va. Code §24-2-4b; State ex. rel. Public Service Commission v. Town of Fayetteville, 212 W. Va. 427, 573 S.E.2d 338 (2002); Town of Man and Man Water Works, Inc., Case No. 81-433-W-PC, Order Affirming Hearing Examiner's Decision, April 16, 1982, 69 ARPSCWV 1893; Ohio County Public Service Commission, Case No. 82-482-S-CN, Order Affirming Hearing Examiner's Decision Without Prejudice, April 8, 1983, 70 ARPSCWV 2049. See also, Sexton v. Public Service Commission, 188 W. Va. 305, 423 S.E.2d 914, (1992).

2. In order to accommodate the unique timing issues involving the economic stimulus funds provided under *The American Recovery and Reinvestment Act of 2009*, and recognizing that these funds are available for a short period on a one-time only basis, it is reasonable to modify some of the Commission's traditional requirements regarding certificate applications, as set forth in the ordering paragraphs of this decision.

3. The public convenience and necessity require the proposed project.

4. The revised Staff-recommended rates and charges appear to be sufficient to cover all project-related costs, as well as the District's going-level operation and maintenance expenses.

5. The proposed funding package for the project, consisting of the DEP loan of ARRA funds in the amount of $6,040,000, at an interest rate of negative 3%, for a term of 20 years, with a 1% annual administrative fee, is reasonable and is sufficient to cover the cost of the project, at its current cost estimates.

6. Because ARRA funds represent an additional one-time infusion of capital for West Virginia water and sewer projects, with extremely favorable terms, it is reasonable to conclude that any funding package which includes ARRA funds is convenient to the public, without further review, as long as rates do not have to be increased to support funding revisions made after a certificate is granted.

7. A certificate of convenience and necessity should be granted to Chelyan Public Service District for the project specified herein, without specifically approving the project's plans and specifications.

ORDER

IT IS, THEREFORE, ORDERED that the application filed by Chelyan Public Service District on June 3, 2009, for a certificate of convenience and necessity to extend its sewer collection system to serve approximately 315 residents in the Winifrede Hollow area of Kanawha County, all as more particularly described in the plans and specifications filed with the application, at a total cost of approximately

$6,040,000, be, and it hereby is, granted, without specifically approving the plans and specifications filed herein.

IT IS FURTHER ORDERED that the proposed project financing package, consisting of a loan in the amount of $6,040,000 from the Department of Environmental Protection, at an interest rate of negative 3%, for a term of 20 years, and a 1% annual administrative fee, using funds provided by *The American Recovery and Reinvestment Act of 2009*, be, and it hereby is, approved. Upon finalization of the funding package, Chelyan Public Service District shall file a letter with the Commission detailing the specifics of that funding package, including the terms and conditions of any loans awarded. If the funding package is revised, but still includes ARRA funds, the District is not required to petition the Commission for approval of that revised project financing, as long as the revised ARRA funding package does not require an additional rate increase. It will be sufficient for the District to file the revised funding commitment documentation, along with a certification from its certified public accountant or bond counsel that the revised funding package is adequate to cover all project costs and will not require any additional rate increase.

IT IS FURTHER ORDERED that the revised Staff-recommended rates and charges, attached hereto as Appendix A, be, and hereby are, approved, to become effective for all service rendered on and after the date the project is certified as substantially complete.

IT IS FURTHER ORDERED that, within thirty (30) days of the project being certified as substantially complete, Chelyan Public Service District file an original and at least five (5) copies of a proper tariff setting forth the rates and charges hereby approved.

IT IS FURTHER ORDERED that, if the project scope changes, if project costs or financing require a further rate increase beyond any reviewed in this application, or if, ultimately, Chelyan Public Service District does not receive any ARRA funding, Chelyan Public Service District petition the Commission for approval of such change(s) prior to commencing construction.

IT IS FURTHER ORDERED that, if, due to project cost or funding revisions, the rates approved herein are excessive and need to be decreased, Chelyan Public Service District must notify the Commission through the filing of a letter detailing the funding and/or cost revisions and estimating the rate decrease needed, upon the funding package being finalized, along with copies of the final funding commitment documentation. The District must petition the Commission for review and approval of those changes and obtain Commission approval of revised decreased rates prior to rates becoming effective upon substantial completion of the project.

IT IS FURTHER ORDERED that Chelyan Public Service District cannot proceed to construction unless and until it has received all required federal, state and local permits, and unless the finally-awarded ARRA funding package is adequate to cover all project costs, as determined at the conclusion of the bidding process with a bid awarded for each construction contract or vendor contract for the project.

IT IS FURTHER ORDERED that Chelyan Public Service District provide a copy of the engineer's certified tabulation of bids, within ten (10) days of the bid opening date, for each construction contract or vendor contract to be awarded for this project.

IT IS FURTHER ORDERED that Chelyan Public Service District provide a copy of the certification of substantial completion for each contract associated with this project, within ten (10) days of issuance.

IT IS FURTHER ORDERED that, if this project requires the use of Division of Highways' rights-of-way, Chelyan Public Service District comply with all rules and regulations of the Division of Highways regarding the use of those rights-of-way.

IT IS FURTHER ORDERED that this matter be removed from the Commission's docket of open cases.

The Executive Secretary is hereby ordered to serve a copy of this order upon the Commission by hand delivery, and upon all parties of record by United States Certified Mail, return receipt requested.

Leave is hereby granted to the parties to file written exceptions supported by a brief with the Executive Secretary of the Commission within fifteen (15) days of the date this order is mailed. If exceptions are filed, the parties filing exceptions shall certify to the Executive Secretary that all parties of record have been served said exceptions.

If no exceptions are so filed this order shall become the order of the Commission, without further action or order, five (5) days following the expiration of the aforesaid fifteen (15) day time period, unless it is ordered stayed or postponed by the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's order by filing an appropriate petition in writing with the Secretary. No such waiver will be effective until approved by order of the Commission, nor shall any such waiver operate to make any Administrative Law Judge's Order or Decision the order of the Commission sooner than five (5) days after approval of such waiver by the Commission.

SCHEDULE NO. 3

SURCHARGE FORMULA TO BE APPLIED IN THE CASES OF USERS PRODUCING UNUSUAL WASTE

The charge for the treatment of unusual waste will be calculated on the basis of the following formula:

$$Ci = VoVi + BoBi + SoSi$$

Ci = charge to unusual users per year
Vo = average unit cost of transport and treatment chargeable to volume, in dollars per gallon
Vi = volume of wastewater from unusual users, in gallons per year
Bo = average unit cost of treatment, chargeable to Biochemical Oxygen Demand (BOD), in dollars per pound
Bi = weight of BOD from unusual users, in pounds per year
So = average unit cost of treatment (including sludge treatment) chargeable to total solids in dollars per pound
Si = weight of total solids from unusual users, in pounds per year

When an unusual user is to be served, a preliminary study of its wastes, and the cost of transport and treatment thereof, will be made. Waste containing materials which, in the judgement of the Chelyan Public Service District, should not be introduced into the sewer system, need not be handled by it. The results of the preliminary study will be used to determine the feasibility of the proposed sewer service and the charge therefore, based upon the formula set out above.

Thereafter, unusual sewage will be monitored on a regular basis and at the conclusion of each fiscal year, based on the investigation aforesaid and audit of the Chelyan Public Service District's records, new cost figures will be calculated for use in the above formula. The cost of establishing the monitoring facilities shall be paid by the unusual user, or refund given by Chelyan Public Service District, as the case may be. Such audited figures will then be used for the preliminary billing for the next fiscal year, at the end of which an adjustment will be made as aforesaid.

SCHEDULE NO. 4

APPLICABILITY

Applicable inside and outside of the corporate limits of the Chelyan Public Service District.

Where the amount of sanitary sewage discharged into the Chelyan waste treatment system by certain industrial plant or plants cannot be accurately determined by the use of the plant's water meter or meters, and said plant cannot install a flow meter to measure such waste, a special formula will be used whereby such plant or plants will pay to the Chelyan Public Service District a sewer charge calculated at fifty (50) gallons of water per each employee at the plant each working day.

SCHEDULE NO. 5

SURFACE OR GROUNDWATER SURCHARGE

Whenever the utility has discovered that a customer's roof drain, downspout, storm sewer or similar facilities conducting surface water have been connected to the utility's sewer system, and such customer has failed to take appropriate action within thirty (30) days of receipt of a demand by the District in accordance with the rules and regulations of the Public Service Commission, to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the folling formula:

$$S=A \times R \times .0006233 \times C$$

S	=	the surcharge in dollars
A	=	the area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet

Re: Chelyan Public Service District
Sewer Project 2003S-746

Dear Ms. McPhail:

The West Virginia Infrastructure and Jobs Development Council (the "Council") has reviewed the Chelyan Public Service District's (the "District") revised preliminary application to provide sanitary sewer service to the Winifrede Hollow Road (the "Project").

Based on the findings of the Sewer Technical Review Committee, the Council has determined that the Project is technically feasible within the guidelines of the Infrastructure and Jobs Development Act. The District should carefully review the enclosed comments of the Sewer Technical Review Committee as the District may need to address certain issues raised in said comments as it proceeds with the Project.

Upon consideration of the revised preliminary application, the Council determined that the District should pursue a $1,000,000 Governor's Contingency grant and a $1,000,000 Kanawha County Commission grant to fund this $5,176,000 project. Please contact the WV Development Office at (304) 558-4010 for specific information on the steps the District needs to follow to apply for these funds. **Please note that this letter <u>does not</u> constitute funding approval from this agency.**

The Council also determined that the District may be eligible for a $3,176,000 Infrastructure Fund loan (3%, 20 yrs) pending the District's readiness to proceed and availability of funds. **This letter is not a commitment letter of Infrastructure Funds.** The Project will be placed on the Infrastructure Council's pending list of projects.

If you have any questions regarding this matter, please contact Jeff Brady at 558-4607.

Sincerely,

Mark Prince

The Local Government further specifically recognizes that all loans will be originated in conjunction with the SRF Regulations and with the prior approval of DEP.

ARTICLE IV

Local Bonds; Security for Loan; Repayment of Loan; Interest on Loan; Fees and Charges

4.1 The Local Government shall, as one of the conditions of the Authority and DEP to make the Loan, authorize the issuance of and issue the Local Bonds pursuant to an official action of the Local Government in accordance with the Local Statute, which shall, as adopted or enacted, contain provisions and covenants in substantially the form as follows:

(a) That the gross revenues of the System shall always be used for purposes of the System. Such gross revenues will be used monthly, in the order of priority listed below:

(i) to pay Operating Expenses of the System;

(ii) unless waived or modified by Schedule X and to the extent not otherwise limited by any outstanding loan resolution, indenture or other act or document and beginning on the date set forth in Schedule X, to provide debt service on

the Local Bonds by depositing in a sinking fund one-third (1/3) of the interest payment next coming due on the Local Bonds and one-third (1/3) of the principal payment next coming due on the Local Bonds and, beginning three (3) months prior to the first date of payment of principal of the Local Bonds, if the reserve account for the Local Bonds (the "Reserve Account") was not funded from proceeds of the Local Bonds or otherwise concurrently with the issuance thereof in an amount equal to the maximum amount of principal and interest which will come due on the Local Bonds in the then current or any succeeding year (the "Reserve Requirement"), by depositing in the Reserve Account an amount not less than one-twelfth (1/12) of one-tenth (1/10) of the Reserve Requirement or, if the Reserve Account has been so funded (whether by Local Bond proceeds, monthly deposits or otherwise), any amount necessary to maintain the Reserve Account at the Reserve Requirement;

(iii) to create a renewal and replacement, or similar, fund in an amount equal to two and one-half percent (2-1/2%) of the gross revenues from the System, exclusive of any payments into the Reserve Account, for the purpose of improving or making emergency repairs or replacements to the System (or eliminating any deficiencies in the Reserve Account, if applicable); and

(iv) for other legal purposes of the System, including payment of debt service on other obligations junior, subordinate and inferior to the Local Bonds.

Provided, that if the Local Government has existing outstanding indebtedness which has greater coverage or renewal and replacement fund requirements, then the greater requirements will prevail until said existing indebtedness is paid in full.

(b) Covenants substantially as follows:

(i) That the Local Bonds shall be secured by a pledge of either the net or gross revenues of the System as provided in the Local Act;

(ii) Unless waived in Schedule X, that the schedule of rates or charges for the services of the System shall be sufficient to provide funds which, along with other revenues of the System, will pay all Operating Expenses and leave a balance each year equal to at least one hundred fifteen percent (115%) of the maximum amount required in any year for debt service on the Local Bonds and all other obligations secured by a lien on or payable from the revenues of the System prior to or on a parity with the Local Bonds or, if the Reserve Account is funded (whether by Local Bond proceeds, monthly deposits or otherwise) at an amount equal to the Reserve Requirement and any reserve account for any such prior or parity obligations is funded at least at the requirement therefor, equal to at least one hundred ten percent (110%) of the maximum

amount required in any year for debt service on the Local Bonds and any such prior or parity obligations;

(iii) That the Local Government shall complete the Project and operate and maintain the System in good condition;

(iv) That, except as otherwise required by State law or the Regulations, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, provided that the net proceeds to be realized from such sale, mortgage, lease or other disposition shall be sufficient to fully pay all of the Local Bonds outstanding and further provided that portions of the System when no longer required for the ongoing operation of such System as evidenced by certificates from the Consulting Engineer, may be disposed of with such restrictions as are normally contained in such covenants;

(v) That the Local Government shall not issue any other obligations payable from the revenues of the System which rank prior to, or equally, as to lien and security with the Local Bonds, except parity bonds which shall only be issued if net revenues of the System prior to issuance of such parity bonds, plus reasonably projected revenues from rate increases and the improvements to be financed by such parity bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on all Local Bonds and parity bonds theretofore and then being issued and on any obligations secured by a lien on or payable from the revenues of the System prior to the Local Bonds and with the prior written consent of the Authority and DEP; provided, however, that additional parity bonds may be issued to complete the Project, as described in the Application as of the date hereof, without regard to the foregoing;

(vi) That the Local Government will carry such insurance as is customarily carried with respect to works and properties similar to the System, including those specified by Section 2.8 hereof;

(vii) That the Local Government will not render any free services of the System;

(viii) That the Authority may, by proper legal action, compel the performance of the duties of the Local Government under the Local Act, including the making and collection of sufficient rates or charges for services rendered by the System, and shall also have, in the event of a default in payment of principal of or interest on the Local Bonds, the right to obtain the appointment of a receiver to administer the System or construction of the Project, or both, as provided by law and all rights as set forth in Section 5 of the Act;

(ix) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, all delinquent rates and charges, if not paid when due, shall become a lien on the premises served by the System;

(x) That, to the extent legally allowable, the Local Government will not grant any franchise to provide any services which would compete with the System;

(xi) That the Local Government shall annually cause the records of the System to be audited by an independent certified public accountant or independent public accountant and shall submit the report of said audit to the Authority and DEP, which report shall include a statement that notes whether the results of tests disclosed instances of noncompliance that are required to be reported under government auditing standards and, if they are, describes the instances of noncompliance and the audited financial statements shall include a statement that notes whether the Local Government's revenues are adequate to meet its Operating Expenses and debt service and reserve requirements;

(xii) That the Local Government shall annually adopt a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding fiscal year and shall submit a copy of such budget to the Authority and DEP within 30 days of adoption thereof;

(xiii) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, prospective users of the System shall be required to connect thereto;

(xiv) That the proceeds of the Local Bonds, advanced from time to time, except for accrued interest and capitalized interest, if any, must (a) be deposited in a construction fund, which, except as otherwise agreed to in writing by the Authority, shall be held separate and apart from all other funds of the Local Government and on which the owners of the Local Bonds shall have a lien until such proceeds are applied to the construction of the Project (including the repayment of any incidental interim financing) and/or (b) be used to pay (or redeem) bond anticipation notes or other interim financing of such Local Government, the proceeds of which were used to finance the construction of the Project; provided that, with the prior written consent of the Authority and DEP, the proceeds of the Local Bonds may be used to fund all or a portion of the Reserve Account, on which the owner of the Local Bonds shall have a lien as provided herein;

(xv) That, as long as the Authority is the owner of any of the Local Bonds, the Local Government may authorize redemption of the Local Bonds with 30 days written notice to the Authority;

(xvi) That the West Virginia Municipal Bond Commission (the "Commission") shall serve as paying agent for all Local Bonds;

Item 1 You will need a copy of the current fiscal year budget adopted by the Local Government to complete Items 1 and 2. In Item 1, provide the amount of actual **Gross Revenues** for the current month and the total amount year-to-date in the respective columns. Divide the budgeted annual Gross Revenues by 12. For example, if Gross Revenues of $1,200 are anticipated to be received for the year, each month the base would be increased by $100 ($1,200/12). This is the incremental amount for the Budget Year-to-Date column.

Item 2 Provide the amount of actual **Operating Expenses** for the current month and the total amount year-to-date in the respective columns. Any administrative fee should be included in the Operating Expenses. Divide the budgeted annual Operating Expenses by 12. For example, if Operating Expenses of $900 are anticipated to be incurred for the year, each month the base would be increased by $75 ($900/12). This is the incremental amount for the Budget Year-to-Date column.

Item 3 Provide the **Bond Payments (principal, interest and reserve account)** for all the outstanding bonds of the Local Government according to the source of funding. For example, Clean Water State Revolving Fund loan from Department of Environmental Protection, Drinking Water Treatment Revolving Fund loan from Bureau for Public Health, Infrastructure Fund loan from Infrastructure and Jobs Development Council, or a loan from the Water Development Authority, etc.

Item 4 Provide the amount deposited into the **Renewal and Replacement Fund** each month. This amount is equal to 2.5% of Gross Revenues minus the total reserve account payments included in Item 3. If Gross Revenues are $1,200, then $30 (2.5% of $1,200), LESS the amount of all reserve account payments in Item 3 should be deposited into the Renewal and Replacement Fund. The money in the Renewal and Replacement Fund should be kept separate and apart from all other funds of the Local Government.

The Local Government must complete the Monthly Financial Report and forward it to the Water Development Authority by the 10th day of each month, commencing on the date contracts are executed for the acquisition or construction of the Project and for two years following the completion of acquisition or construction of the Project.

The Local Bonds are issued for the purposes of (i) _____, and (ii) paying certain issuance and other costs in connection therewith.

We have also examined the applicable provisions of _____ of the Code of West Virginia, 1931, as amended (the "Local Statute"), and the bond duly adopted or enacted by the Local Government on _____, as supplemented by the supplemental

resolution duly adopted by the Local Government on _____ (collectively, the "Local Act"), pursuant to and under which Local Statute and Local Act the Local Bonds are authorized and issued, and the ARRA Assistance Agreement has been undertaken. Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion as follows:

1. The ARRA Assistance Agreement has been duly authorized by and executed on behalf of the Local Government and is a valid and binding special obligation of the Local Government, enforceable in accordance with the terms thereof.

2. The ARRA Assistance Agreement inures to the benefit of the Authority and the DEP and cannot be amended so as to affect adversely the rights of the Authority or the DEP or diminish the obligations of the Local Government without the consent of the Authority and the DEP.

3. The Local Government is a duly organized and validly existing _____, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt or enact the Local Act and to issue and sell the Local Bonds, all under the Local Statute and other applicable provisions of law.

5. The Local Bonds have been duly authorized, issued, executed and delivered by the Local Government to the Authority and are valid, legally enforceable and binding special obligations of the Local Government, payable from the net or gross revenues of the System set forth in the Local Act and secured by a first lien on and pledge of the net

or gross revenues of the System, all in accordance with the terms of the Local Bonds and the Local Act.

6. The Local Bonds are, by statute, exempt _____, and under existing statutes and court decisions of the United States of America, as presently written and applied, the interest on the Local Bonds is excludable from the gross income of the recipients thereof for federal income tax purposes.

No opinion is given herein as to the effect upon enforceability of the Local Bonds of bankruptcy, insolvency, reorganization, moratorium and other laws affecting creditors' rights or in the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Local Bond numbered R-1, and in our opinion the form of said bond and its execution and authentication are regular and proper.

BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF CHELYAN PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof (as hereinafter defined), or both, the "Bond Legislation") is adopted pursuant to the provisions of (i) Chapter 16, Article 13A and (ii) Chapter 22C, Article 2 of the West Virginia Code of 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Chelyan Public Service District (the "Issuer") is a public service district, public corporation and political subdivision of the State of West Virginia in Kanawha County of said State.

B. The Issuer presently owns and operates the System (as hereinafter defined). However, it is deemed necessary and desirable for the health and welfare of the inhabitants of the Issuer that there be acquired and constructed certain extensions, additions, betterments and improvements to the System, consisting of the extension of sewer services to the Winifrede area of Kanawha County, together with all appurtenant facilities (collectively, the "Project"), in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have heretofore been filed with the West Virginia Department of Environmental Protection (the "DEP").

C. The Issuer intends to finance a portion of the costs of the Project through the issuance of its revenue bonds to the West Virginia Water Development Authority (the "Authority"), in connection with the West Virginia Water Pollution Control Revolving Fund pursuant to the Act.

D. It is deemed necessary for the Issuer to issue its Sewer Revenue Bonds in the total aggregate principal amount not to exceed $6,000,000, in two series, being the (1) Sewer Revenue Bonds, Series 2009 A (WVCWSRF Program), in the aggregate principal amount not to exceed $3,000,000 (the "Series 2009 A Bonds"), and the (2) Sewer Revenue Bonds, Series 2009 B (WVCWSRF/ARRA), in the aggregate principal amount not to exceed $3,000,000 (the "Series 2009 A Bonds") (the Series 2009 A Bonds and the Series 2009 A Bonds collectively, the "Series 2009 Bonds"), to finance the costs of the Project. The remaining costs of the Project shall be funded from the sources set forth in Section 2.01 hereof, if any. Said costs shall be deemed to include the cost of acquisition or construction of any public service properties and any improvements and extensions thereto, the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Series 2009 Bonds prior to and during acquisition and installation of the Project and for a period not exceeding 6 months after completion of acquisition and installation of the Project; amounts which may be deposited in the Reserve Accounts (as hereinafter defined); engineering and legal expenses; expenses for estimates of costs and revenues, expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise, administrative expense, commitment fees, fees and expenses of the Authority, including the SRF Administrative Fee (as hereinafter defined), discount, initial fees for the services of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Series 2009 Bonds and such other expenses as may be necessary or incidental to the financing herein authorized, the acquisition or installation of the Project and the placing of same in operation, and the performance of the things herein required or permitted, in connection with any thereof provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the Series 2009 Bonds or the repayment of indebtedness incurred by the Issuer for such purposes shall be deemed Costs of the Project, as hereinafter defined.

E. The period of usefulness of the System after completion of the Project is not less than 40 years.

F. It is in the best interests of the Issuer that its Series 2009 A Bonds and Series 2009 B Bonds be sold to the Authority pursuant to the terms and provisions of an ARRA assistance agreement by and among the Issuer, the Authority and the DEP, the agreement in form satisfactory to the respective parties (the "ARRA Assistance Agreement"), approved hereby if not previously approved by resolution of the Issuer.

G. The Series 2009 Bonds shall be issued on a parity with the Prior Bonds (as hereinafter defined) with respect to liens, pledge and source of and security for payment and in all other respects. The Issuer has met the parity and coverage requirements of the Prior Bonds and the Prior Resolutions (as hereinafter defined) and has substantially complied with all other parity requirements, except to the extent that noncompliance with any such other parity requirements is not of a material nature. Prior to the issuance of the Series 2009 Bonds, the Issuer will obtain (1) the certificate of an Independent Certified Public Accountant stating that the parity and coverage tests of the Prior Bonds have been met; and (2) the written consent of the Registered Owners (as hereinafter defined) of the Prior Bonds to the issuance of the Series 2009 Bonds on a parity with the Prior Bonds. Other than the Prior Bonds (as hereinafter defined), there are no outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System. The Issuer is in compliance with all of the covenants of the Prior Bonds and the Prior Resolutions.

H. The estimated revenues to be derived in each year following completion of the Project from the operation of the System will be sufficient to pay all costs of operation and maintenance of the System and the principal of and interest, if any, on the Series 2009 Bonds and the Prior Bonds, and to make payments into all funds and accounts and other payments provided for herein.

I. The Issuer has complied with all requirements of West Virginia law and the ARRA Assistance Agreement relating to authorization of the Project, including without limitation, the acquisition, installation and operation of the Project and the System and issuance of the Series 2009 Bonds, or will have so complied prior to issuance of any thereof, including, among other things and without limitation, the approval of the Project and the financing thereof by the Council and the obtaining of a certificate of public convenience and necessity and approval of this financing and necessary user rates and charges described herein from the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which will either have expired prior to the issuance of the Series 2009 Bonds or such final order will not be subject to appeal or rehearing.

J. The Project has been reviewed and determined to be technically and financially feasible by the Council as required under Chapter 31, Article 15A of the West Virginia Code of 1931, as amended.

Section 1.03. Bond Legislation Constitutes Contract. In consideration of the acceptance of the Series 2009 Bonds by those who shall be the Registered Owners of the same from time to time, this Bond Legislation shall be deemed to be and shall constitute a contract between the Issuer and such Registered Owners, and the covenants and agreements herein set forth to be performed by the Issuer shall be for the equal benefit, protection and security of the Registered Owners of any and all of such Series 2009 Bonds, all which shall be of equal rank and without preference, priority or distinction between any one Bond of a series and any other Bonds of the same series, by reason of priority of issuance or otherwise, except as expressly provided therein and herein.

The Bond Registrar for the Series 2009 Bonds shall be the bank or other entity designated as such in the Supplemental Resolution and its successors and assigns. So long as the Series 2009 Bonds remain outstanding, the Issuer, through the Bond Registrar as its agent, shall keep and maintain books for the registration and transfer of the Bonds.

The registered Series 2009 Bonds shall be transferable only upon the books of the Bond Registrar, by the registered owner thereof in person or by his attorney duly authorized in

writing, upon surrender thereto together with a written instrument of transfer satisfactory to the Bond Registrar duly executed by the registered owner or his duly authorized attorney.

In all cases in which the privilege of exchanging Series 2009 Bonds or transferring the registered Series 2009 Bonds is exercised, all Series 2009 Bonds shall be delivered in accordance with the provisions of this Bond Legislation. All Series 2009 Bonds surrendered in any such exchanges or transfers shall forthwith be canceled by the Bond Registrar. For every such exchange or transfer of Series 2009 Bonds, the Bond Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and the cost of preparing each new Bond upon each exchange or transfer, and any other expenses of the Bond Registrar incurred in connection therewith, which sum or sums shall be paid by the Issuer. The Bond Registrar shall not be obliged to make any such exchange or transfer of Bonds during the period commencing on the 15th day of the month next preceding an interest payment date, if any, on the Series 2009 Bonds or, in the case of any proposed redemption of Series 2009 Bonds, next preceding the date of the selection of Bonds to be redeemed, and ending on such interest payment date, if any, or redemption date.

Section 3.06. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Series 2009 Bond shall become mutilated or be destroyed, stolen or lost, the Issuer may, in its discretion, issue, and the Bond Registrar shall, if so advised by the Issuer, authenticate and deliver, a new Bond of the same series and of like tenor as the Bonds so mutilated, destroyed, stolen or lost, in exchange and substitution for such mutilated Bond, upon surrender and cancellation of such mutilated Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, and upon the Holder's furnishing satisfactory indemnity and complying with such other reasonable regulations and conditions as the Issuer may prescribe and paying such expenses as the Issuer and the Bond Registrar may incur. All Bonds so surrendered shall be cancelled by the Bond Registrar and held for the account of the Issuer. If any such Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and if such Bond be lost, stolen or destroyed, without surrender thereof.

Section 3.07. Bonds not to be Indebtedness of the Issuer. The Series 2009 Bonds shall not, in any event, be or constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation, but shall be payable solely from the Net Revenues derived from the operation of the System as herein provided. No holder or holders of the Series 2009 Bonds shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Series 2009 Bonds or the interest, if any, thereon.

Section 3.08. Bonds Secured by Pledge of Net Revenues; Lien Positions with Respect to Prior Bonds. The payment of the debt service of the Series 2009 A Bonds and the Series 2009 B Bonds shall be secured forthwith equally and ratably with each other by a first lien on the Net Revenues derived from the System on a parity with the lien on such Net Revenues in favor of the Holders of the Prior Bonds. Such Net Revenues in an amount sufficient to pay the principal of and interest, if any, on and other payments for the Series 2009 Bonds and Prior

Bonds and to make all other payments provided for in the Bond Legislation, are hereby irrevocably pledged to such payments as they become due.

The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property in

accordance with the laws of the State. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. The payment of such proceeds into the Renewal and Replacement Fund shall not reduce the amount required to be paid into said fund by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Holders of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Holders of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Series 2009 Bonds, the Series 2009 A Bonds and the Prior Bonds; provided, however, that Parity Bonds may be issued as provided for in Section 7.07 hereof and in the Prior Resolutions (so long as the Prior Bonds are Outstanding). All obligations issued by the Issuer after the issuance of the Series 2009 Bonds and payable from the revenues of the System, except such additional parity bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Series 2009 Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all finds and accounts set forth herein have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Series 2009 Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Series 2009 Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the DEP, the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. So long as the Prior Bonds are outstanding, the limitations on the issuance of parity obligations set forth in the Prior Resolution shall be applicable. In addition, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Series 2009 Bonds pursuant to this Bond Legislation, without the prior written consent of the Authority, the DEP and the Council and without complying with the conditions and requirements herein provided.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2009 Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the acquisition or construction of additions extensions, improvements or betterments to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the eighteen (18) months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues expected to be received in each of the three (3) succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from the improvements to be financed by such Parity Bonds and any increase in rates adopted by the Issuer and approved by the Public Service Commission of West Virginia, the time for appeal of which shall have expired prior to the issuance of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period herein above referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. All Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the

System and their source of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Series 2009 Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2009 Bonds.

No Parity Bonds shall be issued at any time, however, unless all of the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 7.08. Books; Records and Audit. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the costs of acquiring, constructing and installing the Project. The Issuer shall permit the DEP, the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the DEP, the Authority and the Council such documents and information as they may reasonably require in connection with the acquisition and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the DEP, the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at all reasonable times following completion of installation of the Project and commencement of operation thereof, or, if the Project is an improvement to an existing system, at any reasonable time following commencement of installation.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the Public Service Commission of West Virginia. Separate control accounting records shall be maintained

by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the DEP, the Council, the Authority, or any other original purchaser of the Series 2009 Bonds, and shall mail in each year to any Holder or Holders of the Series 2009 Bonds, requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Bond Legislation, and the status of all said funds and accounts.

(C) The amount of any Bonds, notes or other obligations outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants (and to the extent legally required, in compliance with the applicable 0MB Circular and the Single Audit Act, or any successor thereto), and shall mail upon request, and make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of the Series 2009 Bonds, and shall submit said report to the DEP, the Council and the Authority, or any other original purchaser of the Series 2009 Bonds. Such audit report submitted to the DEP, the Authority and the Council shall include a statement that the Issuer is in compliance with the terms and provisions of the Act, the ARRA Assistance Agreement and this Bond Legislation and that the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the ARRA Assistance Agreement and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to install the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times after such acquisition be and remain the property of the Issuer.

The Issuer shall permit the DEP, the Authority and the Council, or their agents and representatives, to enter and inspect the Project site and Project facilities at all reasonable times. Prior to, during and after completion of installation of the Project, the Issuer shall also provide the DEP, the Authority and the Council, or their agents and representatives, with access to the System site and System facilities as may be reasonably necessary to accomplish all of the

powers and rights of the DEP, the Authority and the Council with respect to the System pursuant to the Act.

The Issuer shall provide the DEP with all appropriate documentation to comply with any special conditions established by federal and/or state regulations as set forth in EXHIBIT E of the ARRA Assistance Agreement for the Series 2009 A Bonds or as promulgated from time to time.

Section 7.09. Rates. So long as the Prior Bonds are outstanding, any requirement for rates set forth in the Prior Resolutions shall be met. Prior to the issuance of the Series 2009 Bonds, equitable rates or charges for the use of and service rendered by the System shall be established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2009 Bonds and all other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Series 2009 Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit respectively in the Series 2009 A Bonds Reserve Account, the Series 2009 B Reserve Account and the reserve accounts for obligations on a parity with the Series 2009 Bonds, including the Prior Bonds, are funded at least at the requirement therefore, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2009 Bonds and all other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Series 2009 Bonds, including the Prior Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the DEP, the Authority and the Council within 30 days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by a professional engineer, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer

shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of a professional engineer that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the DEP, the Authority and the Council and to any Holder of any Bonds, within 30 days of adoption thereof, and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to the DEP, the Authority and the Council and to any Holder of any Bonds, or anyone acting for and in behalf of such Holder of any Bonds.

The Issuer shall provide and maintain competent and adequate engineering services satisfactory to the DEP, the Authority and the Council covering the supervision and inspection of the development and installation of the Project, and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the DEP, the Authority, the Council and the Issuer at the completion of installation that installation of the Project is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies.

The Issuer shall require the Consulting Engineers to submit Recipient Record Drawings, as defined in the SRF Regulations, to it within 60 days of the completion of the Project. The Issuer shall notify the DEP in writing of such receipt. The Issuer shall submit a "Performance Certificate," a form of which is attached to the ARRA Assistance Agreement for the Series 2009 A Bonds as Exhibit A, to the DEP within 60 days of the end of the first year after the Project is completed.

The Issuer shall require the Consulting Engineers to submit the final Operation and Maintenance Manual, as defined in the Site Regulations, to the DEP when the Project is 90%

completed. The Issuer shall at all times provide operation and maintenance of the System in compliance with all State and federal standards.

The Issuer shall employ qualified operating personnel properly certified by the State before the Project is 50% complete and shall retain such a certified operator to operate the System during the entire term of the ARRA Assistance Agreement. The Issuer shall notify the DEP in writing of the certified operator employed at the 50% completion stage.

Section 7.12. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the Public Service Commission of West Virginia and other laws of the State of West Virginia.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 20 days after the same shall become due and payable, the user of the services and facilities shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, rates, rentals and other charges, if not paid, when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that, it will, to the full extent permitted by law and the rules and regulations promulgated by the Public Service Commission of West Virginia, discontinue and shut off the services of the System and any services and facilities of the water system, if so owned by the Issuer, to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services of either system until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law. If the water facilities are not owned by the Issuer, the Issuer shall enter into a termination agreement with the water provider, subject to any required approval of such agreement by the Public Service Commission of West Virginia and all rules, regulations and orders of the Public Service Commission of West Virginia.

Section 7.14. No Free Services. Except as required by law, the Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality,

officer or employee. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.15. Insurance and Construction Bonds. A. The Issuer hereby covenants and agrees that so long as the Bonds remain Outstanding, the Issuer will, as an Operating Expense, procure, carry and maintain insurance with a reputable insurance carrier or carriers as is customarily covered with respect to works and properties similar to the System. Such insurance shall initially cover the following risks and be in the following amounts:

(I) FIRE, LIGHTNING, VANDALISM. MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, on all above-ground insurable portions of the System in an amount equal to the actual cost thereof. In time of war the Issuer will also carry and maintain insurance to the extent available against the risks and hazards of war. The proceeds of all such insurance policies shall be placed in the Renewal and Replacement Fund and used only for the repairs and restoration of the damaged or destroyed properties or for the other purposes provided herein for the Renewal and Replacement Fund. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their respective interests may appear, in accordance with the ARRA Assistance Agreement, during installation of the Project on a 100% basis (completed value form) on the insurable portion of the Project, such insurance to be made payable to the order of the Authority, the Issuer, the contractors and subcontractors, as their interests may appear.

Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Division of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Division of Health and such house, dwelling or building can be adequately served by the System, and every such owner, tenant or occupant shall, after a 30-day notice of the availability of the System, pay the rates and charges established therefor.

Any monies held as a part of the funds and accounts created by this Bond Legislation other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Bond Legislation, the need for such monies for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank, or such other bank or national banking association, as the case may be, may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any of the Series 2009 Bonds are Outstanding and as long thereafter as necessary to assure the exclusion of interest, if any, on the Series 2009 Bonds from gross income for federal income tax purposes.

The Issuer shall deliver a certificate as to use of proceeds or other similar certificate to be prepared by nationally recognized bond counsel relating to restrictions on the use of proceeds of the Series 2009 Bonds as a condition to issuance of the Series 2009 Bonds. In addition, the Issuer covenants (i) to comply with the Code and all Regulations from time to time in effect and applicable to the Series 2009 Bonds as may be necessary in order to maintain the status of the Series 2009 Bonds as public purpose bonds; (ii) that it shall not take, or permit or suffer to be taken, any action with respect to the Issuer's use of the proceeds of the Series 2009 Bonds which would cause any bonds, the interest on which is exempt from federal income taxation under Section 103(a) of the Code, issued by the Authority, the Council or the DEP, as the case may be, from which the proceeds of the Series 2009 Bonds are derived, to lose their status as tax-exempt

bonds; and (iii) to take such action, or refrain from taking such action, as shall be deemed necessary by the Issuer, or requested by the Authority, the Council or the DEP, to ensure compliance with the covenants and agreements set forth in this Section, regardless of whether such actions may be contrary to any of the provisions of this Resolution.

The Issuer shall annually furnish to the Authority information with respect to the Issuer's use of the proceeds of the Series 2009 Bonds and any additional information requested by the Authority.

ARTICLE IX

(1) If default occurs in the due and punctual payment of the principal of or interest, if any, on the Series 2009 Bonds; or

(2) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to the Series 2009 Bonds set forth in this Bond Legislation, any supplemental resolution or in the Series 2009 Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by the Commission, the Depository Bank, Registrar or any other Paying Agent or a Holder of a Bond;

(3) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America; or

(4) If default occurs with the Prior Bonds or the Series 2009 A Bonds.

Section 9.02. Remedies. OLD BUSINESS:

Samme Gee, Jackson Kelly PLLC, bond council for the Winifrede project, said when the meeting was set up originally to review and approve the Bond resolution we were working on a schedule that anticipated we would close the bond issue on December 9th just prior to the Districts December 10th regular monthly meeting. However, Mr. Sanghavi has been working with DEP to get more money into the project, therefore, DEP hasn't finalized the numbers, so today we are not going to pass the bond resolution not to exceed $3,000,000.00 she said she would come back on December 10th with a final supplemental resolution and we'll close on December 15, 2009. The A bond we are authorizing today is in the amount of $2,717,569.00 at 0% interest and 1% administrative fee over a 20 year term. The B bond is in the amount of $2,497,569.00 not to be paid back. Mr. Sanghavi said the list of items to be added is as follows:

1. The air diffuser must be replaced in the 1st set of aeration basins.
2. The blower must have a variable frequency drive
3. A flow meter for return sludge
4. The lab relocation

When Ms. Gee returns on December 10th she will ask Chairman Howell to sign all of the loan closing documents. The following week they will meet with DEP and WDA for their signature then the first draw down will be wired to the Bank on December 15th. Chairman Howell asked for an update on the Winifrede project easements. Mr. Hanna said at this time there are approximately 14 easements needed prior to the loan closing. Mr. Hanna said this number is too high; we must try to get this number down below 10 if at all possible due to the cost of condemnation. Mr. Hope said they obtained three more easements this week. Mr. Sanghavi said there is approximately $50,000.00 budgeted for this cost.

Wyatt Hanna gave an update on the engineering proposals. He said the legal ad was published in the paper as required and the deadline to submit the engineering proposals is Friday November 20th at 4:00 p.m. Mr. Hanna said once these have been opened the Board members must select three proposals and interview each firm and make a decision from there.

Chairman Howell asked Mr. Dingess when our projected rate will go into effect. Mr. Dingess said at the end of the Winifrede project. Chairman Howell asked if it would be possible to increase our rates prior to the Winifrede project. Mr. Dingess said we could file for a rate increase prior to the Winifrede project, but he would recommend we don't file anything until after the loan closing. Mr. Hanna suggested we request the rate to be effective immediately as opposed to at the end of the project. Mr. Dingess said that would create a huge surplus if we did that. Chairman Howell said he would like to do that if it is at all possible. Mr. Hanna said East Bank and Cedar Grove may protest that because their rates will increase from $1.85 - $2.07 at the end of the project as well. Mr. Dingess said we could ask for the post project rates for our customers only. Mr. Dingess said he would run a couple of different options and report back at the December 10th meeting. Chairman Howell said that would be fine.

Chairman Howell asked for an update on the progress of the personnel committee. Mr. Stout said the job descriptions are almost complete and we are ready to approve an employee evaluation form. Chairman Howell suggested the Committee meet on December 1st to finalize everything so it can be approved at the December 10th meeting.

Mr. Hope asked if the District had to send Mr. Sweeney a check for $1.00. Mr. Hanna said yes we do that way he can't argue "failure of consideration".

Chairman Howell wanted to discuss the UKVPSD problem. Mr. Hanna said UKVPSD wants the CPSD to take over now, due to the fact the Pratt sewer employees have stopped working. Chairman Howell said he received a call from Jim Weimer, Public Service Commission. He conducted an inspection of the condition of the UKVPSD pump station and reported to the Town of Pratt the deplorable condition of the pump stations. He asked Chairman Howell if the CPSD would be willing to take over the operational maintenance of the UKVPSD system. The Town of Pratt would continue to maintain the plant at this time. Mr. Weimer said he would talk to the Public Service Commission to get their okay for us to go ahead and start. Mr. Hanna said we must file the Pratt and UKVPSD agreements with the Public Service Commission. Mr. Hanna said as part of the agreement filing we could ask the Public Service Commission for authority on an interim basis to operate UKVSPD system. Mr. Hanna said Mr. Weimer must talk to Pratt staff to ensure they are on board with this decision. Chairman Howell asked if we could begin doing the accounting for UKVPSD as discussed previously. Mr. Hanna said UKVPSD should provide an agreement for the accounting and it should be approved by the Public Service Commission. Chairman Howell suggested we take over the maintenance, the billing/collecting and the accounting of the UKVPSD before the agreements have been approved by the Public Service Commission as long as the two following stipulations are in place:

1. The CPSD should be added as additional insures on their policies
2. We have a letter from them stating they will pay the CPSD for our expenses incurred

Mr. Hanna said that would be fine. Mr. Hanna suggested a letter from the Public Service Commission stating it is okay to proceed on an interim basis. Mr. Hanna said we should really have a letter from Pratt as well stating Pratt is relinquishing their day to day operational control of the UKVPSD system.

Mr. Dingess gave a report on the financial status of the Chelyan Public Service District. He said in general terms we ended the fiscal year with our bond coverage at 117%, and we had a justification to raise the rates. However, things have happened in the first 3 months of the current fiscal year to cause our monthly ending balance to be very low, which is causing us to raise rates in order to move forward. A lot of the extra costs is a result of the Winifrede project, which hopefully we will get back through soft costs funds and the loan closing on December 10th. He said he wanted to wait a month or two so as not to interfere with the Winifrede project. Chairman Howell said tat would be fine. At that time the personnel committee should be ready with their pay rate structure. Chairman Howell said once we have the Asset Management Plan into play that will also be considered into the request for expediting the rate increase.

Mr. Sanghavi provided Mr. Hanna with the new metes and bounds description with maps for the consolidated District as well as incorporating Lens Creek and Kelly's Creek areas into the District. He said he would coordinate with Mr. Roedecker, UKVPSD attorney, as far as getting the merger information prepared and to the County to be scheduled for a hearing.

Mr. Hanna said he would add the pay information into the Handley agreement. Mr. Hanna said would try to have the agreement ready by the December 10th meeting.

NEW BUSINESS:

Chairman Howell wanted to discuss the item on the agenda titled "Green Projects". He said there are funds available for "Green Projects". Chairman Howell asked Mr. Sanghavi if we had a project that would reduce our I & I, Mr. Sanghavi said it could, because it will improve the water quality. Mr. Sanghavi said these funds are gone for this year, however, the second stimulus package has passed congress and they have allotted at least 20% of these funds for "Green Projects". Mr. Sanghavi suggested since the roof on the office building is slanted we could possibly put a solar roof on the building and it could be funded from the "green projects" funds.

Mr. Hope gave a report on infiltration (copy on file). Chairman Howell suggested Mr. Hope prepare a list beginning with what he would consider our worst I & I areas within our system. Then it could be prioritized accordingly. Chairman Howell asked Mr. Hope to have the list ready for the December 10th meeting. Mr. Hope said he could do that.

Mrs. Garrison presented her report for the write-offs and adjustments, delinquent accounts, and budget. She said she didn't have the write off and adjustment report, because it was such short notice. However, she reported the delinquent account letters were mailed in the amount of $20,803.36 and by the due date on the letters we had collected $19,224.06 leaving a balance of $1,579.30 to be collected.

Mr. Hope said he had some bad grinder pumps that must be replaced. The cost of a new grinder is approximately $1,900.00 with a one year warranty. Chairman Howell said that was fine.

Chairman Howell moved to adjourn the meeting at 5:00 p.m. Mr. Stout presented the second and the motion carried.

Ladies and Gentlemen:

We have reviewed the sewer service rates of Chelyan Public Service District (the "Issuer"), and the projected operating expenses and anticipated customer usage provided by S&S Engineers, Inc., the consulting engineer of the Issuer. It is our opinion that such rates are sufficient (i) to provide for all operating expenses of the public sewer facilities of the Issuer (the "System"), and (ii) to leave a balance each fiscal year equal to at least 115% of the maximum amount required in any succeeding fiscal year for the payment of principal of and interest on the Issuer's Sewer Revenue Bonds, Sewer Revenue Bonds, Series 2009 A (West Virginia CWSRF Program) and Sewer Revenue Bonds, Series 2009 B (West Virginia CWSRF/ARRA) (collectively, the "Bonds") and all other obligations secured by or payable from revenues of the System on a parity with the Bonds, including the Issuer's (i) Sewerage System Revenue Bonds Series 1994 A; (ii) Sewerage System Revenue Bonds Series 1994 B; (iii) Sewerage System Revenue Bonds, Series 1995 A; (iv) Sewerage System Revenue Bonds, Series 1999, Series A; and (v) Sewer Revenue Bonds, Series 2002 (West Virginia Infrastructure Fund) (collectively, the "Prior Bonds").

It is further our opinion that (i) the Net Revenues for the fiscal year following the year in which the Bonds are to be issued will be at least 120% of the average annual debt service on the Prior Bonds and the Bonds; and (ii) the Net Revenues actually derived from the System during any 12 consecutive months within the 18 months immediately preceding the date of the actual issuance of the Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by the Bonds, will not be less than 115% of the maximum debt service in any succeeding year on the Prior Bonds and the Bonds.

The Issuer is current on all payments to the funds and accounts established under the Bond Resolutions.

Capitalized terms used herein and not otherwise defined herein shall have the same meanings set forth in the Bond Ordinance authorizing the Bonds.

Subject to the registration requirements set forth herein, this Bond under the provision of the Act is, and has all the qualities and incidents of, a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

Section 5.03. System Revenues; Flow of Funds. A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided.

(1) The Issuer shall first, each month, pay from the Revenue Fund the current Operating Expenses of the System.

(2) Thereafter, from the moneys remaining in the Revenue Fund, the Issuer shall next, on the first day of each month and simultaneously with the transfers required by Section 3.02(B)(2) of the Prior Resolution, apportion

and set apart out of the Revenue Fund and remit to the Commission, without distinction or priority between tl three payments, (i) commencing 7 months prior to tl first date of payment of interest on the Series 1994 A Bonds for which interest has not been capitalized, apportion and set apart out of the Revenue Fund and remit to the Commission, for deposit in the Series 1994 A Bonds Sinking Fund, a sum equal to 1/6th of the amount of interest which will become due on said Series 1994 A Bonds on the next ensuing semiannual interest payment date; provided, that, in the event the period to elapse between the date of such initial deposit in the Series 1994 A Bonds Sinking Fund and the next semiannual interest payment date is less than 7 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next semiannual interest payment date, the required amount of interest coming due on such date; and (ii) commencing 7 months prior to the first date of payment of interest on the Series 1994 B Bonds for which interest has not been capitalized, apportion and set apart out of the Revenue Fund and remit to the Commission, for deposit in the Series 1994 B Bonds Sinking Fund, a sum equal to 1/6th of the amount of interest which will become due on said Series 1994 B Bonds on the next ensuing semiannual interest payment date; provided, that, in the event the period to elapse between the date of such initial deposit in the Series 1994 B Bonds Sinking Fund and the next semiannual interest payment date is less than 7 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next semiannual interest payment date, the required amount of interest coming due on such date.

(3) The Issuer shall next, on the first day of each month and without distinction or priority between the payments, (i) commencing 13 months prior to the first date of payment of principal on the Series 1994 A Bonds, apportion and set apart out of the Revenue Fund and remit to the Commission for deposit in the Series 1994 A Bonds Sinking Fund, a sum equal to 1/12th of the amount of principal which will mature and become due on said Series 1994 A Bonds on the next ensuing principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 1994 A Bonds Sinking Fund and the next annual principal payment date is less than 13 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next annual principal payment date, the required amount of principal coming due on such date; and (ii) commencing 13 months prior to the first date of payment of principal on the Series 1994 B Bonds,

apportion and set apart out of the Revenue Fund and remit to the Commission for deposit in the Series 1994 B Bonds Sinking Fund, a sum equal to 1/12th of the amount of principal which will mature and become due on said Series 1994 B Bonds on the next ensuing principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 1994 B Bonds Sinking Fund and the next annual principal payment date is less than 13 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next annual principal payment date, the required amount of principal coming due on such date.

(4) The Issuer shall next and simultaneously with the transfer required by Section 3.02(B)(3) of the Prior Resolution, on the first day of each month and without distinction of priority between the two payments, (i) commencing 13 months prior to the first date of payment of principal of the Series 1994 A Bonds, if not fully funded upon issuance of the Series 1994 A Bonds, apportion and set apart out of the Revenue Fund and remit to the Commission for deposit in the Series 1994 A Bonds Reserve Account, an amount equal to 1/120 of the Series 1994 A Bonds Reserve Requirement; provided, that no further payments shall be made into the Series 1994 A Bonds Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 1994 A Bonds Reserve Requirement; and (ii) commencing 13 months prior to the first date of payment of principal of the Series 1994 B Bonds, if not fully funded upon issuance of the Series 1994 B Bonds, apportion and set apart out of the Revenue Fund and remit to the Commission for deposit in the Series 1994 B Bonds Reserve Account, an amount equal to 1/120 of the Series 1994 B Bonds Reserve Requirement; provided, that no further payments shall be made into the Series 1994 B Bonds Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 1994 B Bonds Reserve Requirement.

(5) From the moneys remaining in the Revenue Fund, the Issuer shall next, on the first day of each month, commencing with the month succeeding the first full calendar month after commencement of operation of the Project and simultaneously with the transfer required by Section 3.02(B)(4) of the Prior Resolution, transfer to the Renewal and Replacement Fund a sum equal to 2 1/2% of the Gross Revenues each month, exclusive of any payments for account of the Series 1994 A Bonds Reserve Account and the Series 1994 B Bonds Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart

from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in the Series 1994 A Bonds Reserve Account and the Series 1994 B Bonds Reserve Account, except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required by Subsection 5.03(A)(4), shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

Moneys in the Series 1994 A Bonds and Series 1994 B Bonds Sinking Fund shall be used only for the purposes of paying principal of and interest, if any, on the respective series of Bonds as the same shall become due. Moneys in the Series 1994 A Bonds Reserve Account and the Series 1994 B Bonds Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the respective series of Bonds, as the same shall come due, when other moneys in the attendant Sinking Funds are insufficient therefor, and for no other purpose.

All investment earnings on moneys in the Series 1994 A Bonds Sinking Fund and Reserve Account and Series 1994 B Bonds Sinking Fund and Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall be deposited for use in the Earnings Fund as required by Section 8.03.

Any withdrawals from the Series 1994 A Bonds Reserve Account which result in a reduction in the balance of the Series 1994 A Bonds Reserve Account to below the Reserve Requirement therefor shall be subsequently restored from the first Net Revenues available after all required payments to the Series 1994 A Bonds Sinking Fund and the Series 1994 A Bonds Reserve Account, including deficiencies for prior payments, have been made in full.

Any withdrawals from the Series 1994 B Bonds Reserve Account which result in a reduction in the balance of the Series 1994 B Bonds Reserve Account to below the Reserve Requirement therefor shall be subsequently restored from the first Net Revenues available after all required payments to the Series 1994 B Bonds Sinking Fund and the Series 1994 B Bonds Reserve Account, including deficiencies for prior payments, have been made in full.

As and when additional Bonds ranking on a parity with the Series 1994 A Bonds and Series 1994 B Bonds are issued, provision shall be made for additional payments into the respective Sinking Fund sufficient to pay any interest on such Parity Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the appropriate Reserve Account in an amount equal to the maximum provided and required to be paid into the concomitant Sinking Fund in any year for account of the Series 1994 A Bonds and Series 1994 B Bonds of such series, including such additional Bonds which by their terms are payable from such Sinking Fund.

The Commission is hereby designated as the fiscal agent for the administration of the Sinking Funds created hereunder, and all amounts required for said Sinking Funds shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein.

The payments into the Sinking Funds shall be made on the first day of each month, except that when the first day of any month shall be a Sunday or legal holiday then such payments shall be made on the next succeeding business day, and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Resolution.

Moneys in the Reserve Accounts shall be invested and reinvested by the Commission in accordance with Section 8.01 hereof.

The Sinking Funds, including the Reserve Accounts therein, shall be used solely and only for, and are hereby pledged for, the purpose of servicing the respective Bonds and any Parity Bonds that may be issued and Outstanding under the conditions and restrictions hereinafter set forth.

B. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in said Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into the Sinking Funds, including the Reserve Accounts therein, and the Renewal and Replacement Fund during the following month or such other period as required by law, such excess shall be considered Excess Revenues. Excess Revenues may be used for any lawful purpose of the System.

C. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent, or the Depository Bank, on such dates as the Commission, the Registrar, the Paying

Agent, or the Depository Bank as the case may be, shall require, such additional sums as shall be necessary to pay the charges and the fees then due.

D. The moneys in excess of the maximum amounts insured by FDIC in the Revenue Fund and the Renewal and Replacement Fund shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

E. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, that all deposits, including on account of deficiencies, shall be made in the order of priority set forth in Paragraph (A), above, and no payment of lower priority shall be made if there exists a deficiency in a fund or account of higher priority. No such deficiency shall exist solely because the required payments into the Reserve Accounts have not, as of such date, funded such account to the requirement therefor.

F. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

G. The Gross Revenues of the System shall only be used for purposes of the System.

H. All Tap Fees shall be deposited by the Issuer, as received, in the Construction Trust Fund, and following completion of the Project, shall be deposited in the Revenue Fund and used for any lawful purpose of the System.

ARTICLE VI

APPLICATION OF BONDS PROCEEDS

Section 6.01. Application of Bonds Proceeds; Pledge of Unexpended Bonds Proceeds. (1) From the moneys received from the sale of the Series 1994 A Bonds, the following amounts shall be deposited as set forth below:

A. From the proceeds of the Series 1994 A Bonds, there shall be deposited in the Series 1994 A Bonds Sinking Fund, the sum, if any, set forth in the Supplemental Resolution; provided that such amount shall not exceed the amount necessary to pay interest for the construction period, plus six months.

B. From the proceeds of the Series 1994 A Bonds, there shall be deposited with the Commission in the Series 1994 A Bonds Reserve Account the sum, if any, set forth in this Resolution for funding of the Series 1994 A Bonds Reserve Account.

C. The remaining moneys derived from the sale of the Series 1994 A Bonds shall be deposited with the Construction Trust Fund Depository Bank in the Construction Trust Fund and applied solely to payment of Costs of the Project in the manner set forth in Section 6.02.

(2) From the moneys received from the sale of the Series 1994 B Bonds, the following amounts shall be deposited as set forth below:

A. From the proceeds of the Series 1994 B Bonds, there shall be deposited in the Series 1994 B Bonds Sinking Fund, the sum, if any, set forth in the Supplemental Resolution; provided that such amount shall not exceed the amount necessary to pay interest for the construction period, plus six months.

B. From the proceeds of the Series 1994 B Bonds, there shall be deposited with the Commission in the Series 1994 B Bonds Reserve Account the sum, if any, set forth in this Resolution for funding of the Series 1994 B Bonds Reserve Account.

C. The remaining moneys derived from the sale of the Series 1994 B Bonds shall be deposited with the Construction Trust Fund Depository Bank in the Construction Trust Fund and applied solely to payment of Costs of the Project in the manner set forth in Section 6.02.

The Construction Trust Fund Depository Bank shall act as a trustee and fiduciary for the Bondholders with respect to the Construction Trust Fund and shall comply with all requirements with respect to the disposition of the Construction Trust Fund set forth

in this Resolution. Moneys in the Construction Trust Fund shall be used solely to pay Costs of the Project and, until so expended, a hereby pledged as additional security for the respective series Bonds. For purposes of this provision only, the moneys on hand in the Construction Trust Fund shall be treated as being disbursed on a proportionate basis.

Section 6.02. Disbursements from the Construction Trust Fund. Payments for Costs of the Project shall be made monthly.

Except as provided in Section 6.01 hereof, disbursements from the Construction Trust Fund (except for the costs of issuance of the Bonds originally authorized hereby, which shall be made upon request of the Issuer), shall be made only after submission to the Construction Trust Fund Depository Bank of a certificate, signed by an Authorized Officer and the Consulting Engineers, stating:

(A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;

(B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(C) That each of such costs has been otherwise properly incurred; and

(D) That payment for each of the items proposed is then due and owing.

In case any contract provides for the retention of a portion of the contract price, the Construction Trust Fund Depository Bank shall disburse from the Construction Trust Fund only the net amount remaining after deduction of any such portion. All payments made from the Construction Trust Fund shall be presumed by the Construction Trust Fund Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Construction Trust Fund. The Consulting Engineers shall from time to time file with the Construction Trust Fund Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Construction Trust Fund, including any accounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

After completion of the Project, as certified by the Consulting Engineers, the Construction Trust Fund Depository Bank shall transfer, pro rata, any moneys remaining in the Construction

Trust Fund to the Series 1994 A Bonds Reserve Account and to the Series 1994 B Bonds Reserve Account, and when all Reserve Accounts are fully funded, shall return such remaining moneys to the Issuer for deposit in the Revenue Fund. The Issuer shall thereafter apply such moneys in full, first to the next ensuing interest payments, if any, due on the respective series of Bonds and thereafter to the next ensuing principal payments due thereon.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Resolution shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Holder or Holders of the Bonds. In addition to the other covenants, agreements and provisions of this Resolution, the Issuer hereby covenants and agrees with the Holders of the Bonds, as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of said Bonds, or the interest thereon is Outstanding and unpaid.

Section 7.02. Bonds, not to be Indebtedness of the Issuer. The Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Resolution. No Holder or Holders of any Bonds, shall ever have the right to compel the exercise of the taxing power, if any, of the Issuer to pay said Bonds or the interest thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues; Lien Position. The payment of the debt service of the Series 1994 A Bonds and Series 1994 B Bonds issued hereunder shall be secured forthwith equally and ratably by a first lien on the Net Revenues derived from the operation of the System on parity with the lien on said Net Revenues in favor of the holders of the Prior Bond. The revenues derived from the System, in an amount sufficient to pay the principal of and interest on the Prior Bond and the Bonds herein authorized and to make the payments into the Sinking Funds, including the Reserve Accounts therein, and all other payments provided for in this Resolution and the Prior Resolution are hereby irrevocably pledged, in the manner provided herein, to the payment of the principal of and interest on the Bonds as the same become due, and for the other purposes provided in this Resolution.

Section 7.04. Initial Schedule of Rates and Charges. The schedule of rates and charges for the services and facilities of the System shall be as set forth, described in and ordered by the PSC Order, which schedule of rates is attached as Exhibit B hereto and incorporated herein by reference and is hereby adopted and approved as the rates of the Issuer, which rates will become effective as provided in the PSC Order.

The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay the Operating Expenses of the System and to make the prescribed

payments into the funds and accounts created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes.

Section 7.05. Sale of the System. Except as otherwise required by law and as long as the Prior Bond is outstanding, the System may not be sold, mortgaged, leased or otherwise disposed of except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to pay fully or redeem at or prior to maturity all the Bonds Outstanding, or to effectively defease this Resolution in accordance with Sections 10.01 hereof and to pay the Prior Bond in full. The proceeds from any such sale, mortgage, lease or other disposition of the System shall be immediately remitted to the Commission for deposit in the Sinking Funds, and the Issuer shall direct the Commission to apply such proceeds to the payment of principal at maturity of and interest on the Series 1994 A Bonds and Series 1994 B Bonds about to mature and to the redemption prior to maturity at the earliest date permitted hereby and at the redemption price, of all other Outstanding Bonds. Any balance remaining after the redemption or payment of all the Series 1994 A Bonds and Series 1994 B Bonds and interest thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, in writing, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property upon public bidding. The proceeds derived from any such sale, lease or other disposition of such property, aggregating during such Fiscal Year in excess of

$10,000 and not in excess of $50,000, shall, upon receipt of approval of the Registered Owners, if needed, be remitted by the Issuer to the Commission for deposit in the appropriate Sinking Fund and shall be applied only to the purchase or redemption of Bonds of the last maturities then Outstanding at prices not greater than the applicable redemption price, or, if not redeemable, par, or otherwise in the Renewal and Replacement Fund. The payment of such proceeds into the Sinking Funds or the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said funds by other provisions of this Resolution. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay or redeem prior to maturity all Bonds then Outstanding without the prior approval and consent in writing of the Holders, or their duly authorized representatives, of sixty-six and two-thirds (66 2/3%) in amount of the Bonds then Outstanding and the Consulting Engineers. The Issuer shall prepare the form of such approval and consent for execution by the then Holders of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. So long as any of the Bonds are Outstanding, the Issuer shall not issue any other obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bonds; provided, however, that Parity Bonds may be issued as provided for in Section 7.07 hereof. All obligations hereafter issued by the Issuer payable from the revenues of the System, except such Parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on and source of and security for payment from such revenues and in all other respects, to the Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into the Reserve Accounts and the Renewal and Replacement Fund at the time of the issuance of such subordinate obligations have been made and are current.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the respective liens of the Bonds, and the interest thereon, upon any of the income and revenues of the System pledged for payment of the Bonds and the interest thereon in this Resolution, or upon the System or any part thereof.

Section 7.07. Parity Bonds. A. No Parity Bonds, payable out of the revenues of the System, shall be issued after

the issuance of any Bonds pursuant to this Resolution, except under the conditions and in the manner herein provided and in the Prior Resolution so long as the Prior Bond is outstanding.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 1994 A Bonds and Series 1994 B Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the construction or acquisition of extensions or improvements to the System or refunding one or more series of Bonds issued pursuant hereto, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, based upon the necessary investigation and certification by the Consulting Engineers, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the three succeeding years after the completion of the improvements to be financed by such Parity Bonds, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest on the following:

(1) The Bonds then Outstanding, including, without limitation, the Prior Bond;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the three succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from any increase in rates adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Consulting Engineers, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Consulting Engineers and the said Independent Certified Public

Accountants, as stated in a certificate jointly made and signed by the Consulting Engineers and said Independent Certified Publi Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to issuance of such Parity Bonds.

Not later than simultaneously with the delivery of such Parity Bonds, the Issuer shall have entered into written contracts for the immediate construction or acquisition of such extensions or improvements, if any, to the System that are to be financed by such Parity Bonds.

All covenants and other provisions of this Resolution (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Series 1994 A Bonds and Series 1994 B Bonds and the Holders of any Parity Bonds issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their respective liens on the revenues of the System and their respective source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of another series on a parity therewith. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Resolution required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Resolution.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Outstanding Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from the revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 1994 A Bonds and Series 1994 B Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Resolution with respect to the Bonds then Outstanding, and any other payments provided for in this Resolution, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Resolution.

B. Notwithstanding the foregoing, or any provision of Section 7.06 to the contrary, additional Bonds may be issued pursuant to a Supplemental Resolution solely for the purpose of

completing the Project as described in the application to the Authority and in accordance with the plans and specifications of the Consulting Engineer, in the event that the Series 1994 A Bonds and Series 1994 B Bonds should be insufficient, together with other funds lawfully available therefore, to pay all costs of construction and acquisition of the project without regard to the restrictions set forth in this Section 7.07, if there is first obtained by the Issuer the written consent of the Authority to the issuance of bonds on a parity with the Bonds and provided further that prior to the issuance of such Parity Bonds and under the provisions of this paragraph, the Consulting Engineers shall file with the Secretary a certificate to the effect that additional funds are necessary for such purpose. All such Parity Bonds authorized and issued under the provisions of this paragraph shall be limited to the aggregate principal amount required to make up any deficiency in funds for payment of the construction costs to complete the Project, and the maturities of any such Parity Bonds shall be in years and amounts suggested by the Authority. The holders of the Prior Bond must consent to the issuance of such Parity Bonds.

Section 7.08. Books and Records. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Resolution shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed by the Uniform System of accounts promulgated by the PSC. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system, which may be installed remote from the direct supervision of the Governing Body, shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Consulting Engineers, and the Authority, or any other original purchaser of the Bonds, and shall mail in each year to any Holder or Holders of Bonds requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues, Excess Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Resolution with respect to said Bonds and the status of all said funds and accounts.

(C) The amount of any Bonds, Notes or other obligations outstanding and secured by a lien on the Net Revenues of the System.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants and shall mail upon request, and make available generally, the report of said Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of Bonds and shall submit said report to the Authority, or any other original purchaser of the Bonds. Such audit report submitted to the Authority shall include a statement that the Issuer is in compliance with the terms and provisions of the Loan Agreement and this Resolution.

Section 7.09. Rates. Equitable rates or charges for the use of and service rendered by the System have been established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from said System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all reasonable expenses of operation, repair and maintenance of the System, including any reserves required by the PSC Order or any supplement or amendment thereto and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Bonds, including the Prior Bond; provided that, in the event that amounts equal to or in excess of the Reserve Requirement are on deposit respectively in the Reserve Account and reserve accounts for obligations prior to or on a parity with the Bonds, including the Prior Bond, are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all

other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Bonds.

Section 7.10. Operating Budget and Audit. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority within thirty days of the adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by the Consulting Engineers, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of the Consulting Engineers that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Authority and to any Holder of any Bonds who shall file his address with the Issuer and request in writing that copies of all such budgets and resolutions be furnished him and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to any Holder of any Bonds or anyone acting for and in behalf of such Holder of any Bonds.

Section 7.11. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.12. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the PSC and other laws of the State.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 30 days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all

such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the PSC, rates, rentals and other charges, if not paid when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that it will, to the full extent permitted by law and the rules and regulations promulgated by the PSC, discontinue and shut off the services of the System to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law.

Section 7.13. No Free Services. The Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. Such charges shall be paid as they accrue and the issuer shall transfer from its general funds sufficient sums to pay such charges for service to any of its departments or properties. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.14. Insurance. The Issuer will carry such insurance and in such amounts as is customarily carried with respect to works and properties similar to the System, with a reputable insurance carrier or carriers, against loss or damage by fire, explosion, hurricane, earthquake, cyclone, occupancy or other hazards and risks. The Issuer will require that each of its contractors and all subcontractors maintain, during the life of the construction contract, workers' compensation coverage, public liability insurance, property damage insurance and vehicle liability insurance in amounts and on terms satisfactory to the Authority, so long as the Authority is the Owner of the Bonds. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their interests may appear, in accordance with the Loan Agreement, during construction of the Project in the full insurable value thereof. In time of war, the Issuer shall also carry in said amount such insurance as may be available against loss or damage by

the risks and hazards of war. The proceeds of all such insurance policies shall be disposed of as provided in this Resolution and otherwise shall be placed in the Renewal and Replacement Fund and used only for the repair and restoration of the damaged or destroyed properties or for the other purposes provided herein for said Renewal and Replacement Fund. The Issuer will also carry liability insurance for damage or injury to persons or property in amounts adequate for such purposes and customarily carried with respect to works and properties similar to the System. The Issuer shall carry such other insurance as is required by the Authority, including but not limited to flood insurance and business interruption insurance, to the extent available at reasonable cost to the Issuer.

Section 7.15. Mandatory Connections. The mandatory use of the sewerage facilities portion of the System is essential and necessary for the protection and preservation of the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and in order to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Department of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the sewerage facilities portion of the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Department of Health and such house, dwelling or building can be adequately served by the sewerage facilities portion of the System, and every such owner, tenant or occupant shall, after a 30 day notice of the availability of the sewerage facilities portion of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the sewerage facilities portion of the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer and a public nuisance which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.16. Completion, Operation and Maintenance. The Issuer will expeditiously complete the Project in accordance with the plans and specifications prepared by the Consulting Engineers and will maintain the System in good condition and will operate the same as a revenue-producing enterprise in an efficient

and economical manner, making such expenditures for equipment and for renewal, repair and replacement as may be proper for the economical operation and maintenance thereof from the revenues of the System in the manner provided in this Resolution.

Section 7.17. Tax Covenants. The Issuer hereby further covenants and agrees as follows:

A. PUBLIC PURPOSE BONDS. The Issuer shall use the Bond proceeds solely for the Project and as otherwise set forth herein, and the Project will be solely operated as a public purpose and as local governmental activity of the Issuer.

B. PRIVATE ACTIVITY BOND COVENANT. The Issuer shall not permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in a manner which would result in the exclusion of the Bonds from the treatment afforded by Section 103(a) of the Code by reason of the classification of the Bonds as 'private activity bonds' within the meaning of the Code. The Issuer will take all actions necessary to comply with the Code in order to assure the tax-exempt status of the Bonds.

C. PRIVATE LOAN LIMITATION. The Issuer shall assure that not in excess of 5% of the Net Proceeds of the Series 1994 A Bonds are used, directly or indirectly, to make or finance a loan (other than loans constituting Nonpurpose Investments) to persons other than state or local government units.

D. FEDERAL GUARANTEE PROHIBITION. The Issuer shall not take any action or permit or suffer any action to be taken if the result of the same would be to cause the Bonds to be "federally guaranteed" within the meaning of Section 149(b) of the Code.

E. TWO YEAR CONSTRUCTION ELECTION. The Issuer will expend the gross proceeds of the Bonds for the Project no later than the day which is two years after the date of issuance of the Bonds. The Issuer will expend the net proceeds (including, without limitation, investment proceeds earned before the close of the period involved on the investment of the proceeds of the Bonds) of the Bonds for the Project within the following periods beginning on the date of issuance of the Bonds.

Not less than 10 percent within 6 months,

Not less than 45 percent within 1 year,

Not less than 75 percent within 18 months, and

Not less than 100 percent within 2 years

(except for a reasonable retainage not exceeding 5% of the net proceeds of the Bonds which will be spent within 3 years). At least 75% of the net proceeds of the Bonds are to be used for construction expenditures with respect to property owned by the Issuer, and the Project will be owned by the Issuer.

F. INFORMATION RETURN. The Issuer will file all statements, instruments and returns necessary to assure the tax exempt status of the Bonds, including without limitation the information return required under Section 149(e) of the Code.

G. FURTHER ACTIONS. The Issuer will take any and all actions that may be required of it (including those deemed necessary by the Authority) so that the interest on the Bonds will be and remain excludable from gross income for federal income tax purposes, and will not take any actions, or fail to take any actions (including those determined by the Authority) which would adversely affect such exclusion.

Section 7.18. Statutory Mortgage Lien. For the further protection of the Holders of the Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding, and shall take effect immediately upon delivery of the Bonds and shall be for the benefit of all Registered Owners of Bonds which lien is on a parity with the lien of the Prior Bond.

Section 7.19. PSC Order. The Issuer shall comply with the conditions of the PSC Order and any supplement or amendment thereto.

ARTICLE VIII

INVESTMENT OF FUNDS; NON-ARBITRAGE

Section 8.01. Investments. Any moneys held as a part of the funds and accounts created by this Resolution, other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank or such other bank or national banking association holding such fund or account, as the case may be, at the direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Resolution, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Except as specifically provided herein, any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission, the Depository Bank or such other bank or national banking association, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank or such other bank or national banking association, as the case may be, may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once a year, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records relating thereto so long as any of the Bonds are Outstanding and as long thereafter as necessary to comply with the Code and assure the exclusion of intent on the Bonds from gross income for Federal income tax purposes.

Section 8.02. Arbitrage. The Issuer covenants that (i) it will restrict the use of the proceeds of the Series 1994 A Bonds and Series 1994 B Bonds in such manner and to such extent as may be necessary, in view of the Issuer's reasonable expectations at the

time of issuance of the Series 1994 A Bonds so that the Series 1994 A Bonds will not constitute "arbitrage bonds" under Section 148 of the Code, and (ii) it will take all actions that may be required of it (including, without implied limitation, the timely filing of a federal information return with respect to the Bonds so that the interest on the Series 1994 A Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions which would adversely affect such exclusion.

Section 8.03. Rebate of Excess Investment Earnings to the United States. A. CREATION OF FUNDS. There are hereby created, to be held by the Depository Bank as separate funds distinct from all other funds and accounts held by the Depository Bank under this Resolution, the Earnings Fund and the Rebate Fund. All interest earnings and profits on amounts in all funds and accounts established under this Resolution on account of the Series 1994 A Bonds and Series 1994 B Bonds, other than (i) interest earnings and profits on any funds referenced in Subsection C(5) of this Section if such earnings in any Bond Year are less than $100,000, (ii) interest earnings and profits on amounts in funds and accounts which do not constitute Gross Proceeds, and (iii) interest earnings and profits on the Rebate Fund shall, upon receipt by the Depository Bank, be deposited in the Earnings Fund. In addition, all interest earnings and profits on Gross Proceeds in funds held by the Issuer shall, upon receipt, be paid to the Depository Bank for deposit in the Earnings Fund. Annually, on or before the 30th day following the end of each Bond Year or on the preceding business day in the event that such last day is not a business day, or such earlier date as may be required under the Code or the Loan Agreement, the Depository Bank shall transfer from the Earnings Fund to the Rebate Fund for purposes of ultimate payment to the United States an amount equal to Excess Investment Earnings, all as more particularly described in this Section. Following the transfer referenced in the preceding sentence, the Depository Bank shall transfer all amounts remaining in the Earnings Fund to the Construction Trust Fund until completion of the Project, and thereafter to the Revenue Fund.

B. DUTIES OF ISSUER IN GENERAL. The Issuer shall calculate Excess Investment Earnings in accordance with Subsection C and shall assure payment of an amount equal to Excess Investment Earnings to the United States in accordance with Subsections D and E.

C. CALCULATION OF EXCESS INVESTMENT EARNINGS. Within 15 days following the last day of the first Bond Year, the Issuer shall calculate, and shall provide written notice to the Authority and Depository Bank of, the Excess Investment Earnings referenced in clause (A) of the definition of Excess Investment Earnings. Thereafter, within 15 days following the last day of each Bond Year and within 15 days following the date of the retirement of the Series 1994 A Bonds, the Issuer shall calculate, and shall provide

written notice to the Authority and Depository Bank of, the amount of Excess Investment Earnings. Said calculations shall be made or caused to be made by the Issuer in accordance with the following:

(1) Except as provided in (2), in determining the amount described in clause A(i) of the definition of Excess Investment Earnings, the aggregate amount earned on Nonpurpose Investments shall include (i) all income realized under federal income tax accounting principles (whether or not the person earning such income is subject to federal income tax) with respect to such Nonpurpose Investments and with respect to the reinvestment of investment receipts from such Nonpurpose Investments (without regard to the transaction costs incurred in acquiring, carrying, selling or redeeming such Nonpurpose Investments), including, but not limited to, gain or loss realized on the disposition of such Nonpurpose Investments (without regard to when such gains are taken into account under Section 453 of the Code relating to taxable year of inclusion of gross income), and income under Section 1272 of the Code (relating to original issue discount) and (ii) any unrealized gain or loss as of the date of retirement of the Bonds in the event that any Nonpurpose Investment is retained after such date.

(2) In determining the amount described in clause (A) of the definition of Excess Investment Earnings, Investment Property shall be treated as acquired for its fair market value at the time it becomes a Nonpurpose Investment, so that gain or loss on the disposition of such Investment Property shall be computed with reference to such fair market value as its adjusted basis.

(3) In determining the amount described in clause (A)(ii) of the definition of Excess Investment Earnings, the Yield on the Series 1994 A Bonds and Series 1994 B Bonds shall be determined based on the actual Yield of the Series 1994 A Bonds and Series 1994 B Bonds and during the period between the Closing Date for the Series 1994 A Bonds and Series 1994 B Bonds and the date the computation is made (with adjustments for original issue discount or premium).

(4) In determining the amount described in clause (B) of the definition of Excess Investment Earnings, all income attributable to the excess described in clause (A) of said definition must be taken into account, whether or not that income exceeds the Yield of the Series 1994 A Bonds and Series 1994 B Bonds, and no amount may be treated as "negative arbitrage."

(5) In determining the amount of Excess Investment Earnings, there shall be excluded any amount earned on any fund or account which is used primarily to achieve a proper

matching of revenues and Debt Service within each Bond Year and which is depleted at least once a year except for a reasonable carryover amount not in excess of the greater of 1 year's earnings on such fund or account or 1/12th of annual Debt Service as well as amounts earned on said earnings if the gross earnings on such fund or account for the Bond Year is less than $100,000.

D. PAYMENT TO THE UNITED STATES. The Issuer shall direct the Depository Bank to pay from the Rebate Fund an amount equal to Excess Investment Earnings to the United States in installments with the first payment to be made not later than 30 days after the end of the 5th Bond Year and with subsequent payments to be made not later than 5 years after the preceding payment was due. The Issuer shall assure that each such installment is in an amount equal to at least 90% of the Excess Investment Earnings with respect to the Gross Proceeds as of the close of the computation period. Not later than 60 days after the retirement of the Series 1994 A Bonds and Series 1994 B Bonds, the Issuer shall direct the Depository Bank to pay from the Rebate Fund to the United States 100% of the theretofore unpaid Excess Investment Earnings in the Rebate Fund. In the event that there are any amounts remaining in the Rebate Fund following the payment required by the preceding sentence, the Depository Bank shall pay said amounts to the Issuer to be used for any lawful purpose of the System. The Issuer shall remit payments to the United States at the address prescribed by the Regulations as the same may be from time to time in effect with such reports and statements as may be prescribed by such Regulations. In the event that, for any reason, amounts in the Rebate Fund are insufficient to make the payments to the United States which are required by this Subsection D, the Issuer shall assure that such payments are made by the Issuer to the United States, on a timely basis, from any funds lawfully available therefor.

E. FURTHER OBLIGATIONS OF ISSUER. The Issuer shall assure that Excess Investment Earnings are not paid or disbursed except as required in this Section. To that end the Issuer shall assure that investment transactions are on an arm's length basis and that Nonpurpose Investments are acquired at their fair market value. In the event that Nonpurpose Investments consist of certificates of deposit or investment contracts, investment in such Nonpurpose Investments shall be made in accordance with the procedures described in applicable Regulations as from time to time in effect. The Depository Bank shall keep the moneys in the Earnings Fund and Rebate Fund invested and reinvested to the fullest extent practicable in Government Obligations with maturities consonant with the required use thereof and investment profits and earnings shall be credited to the account of such fund on which earned.

F. MAINTENANCE OF RECORDS. The Issuer shall keep, and retain for a period of six years following the retirement of the Series 1994 A Bonds and Series 1994 B Bonds, records of the determinations made pursuant to this Section 8.03.

G. INDEPENDENT CONSULTANTS. In order to provide for the administration of this Section 8.03, the Issuer and the Depository Bank (at the expense of the Issuer) may provide for the employment of independent attorneys, accountants or consultants compensated on such reasonable basis as the Issuer or the Depository Bank may deem appropriate.

H. FURTHER AGREEMENT. Notwithstanding the foregoing, the Issuer further covenants to comply with all Regulations from time to time in effect and applicable to the Bonds, as may be necessary in order to fully comply with Section 148(f) of the Code.

I. REPORTING TO AUTHORITY. The Issuer shall furnish to the Authority, annually, at such time as it is required to perform its rebate calculations under the Code, a certificate with respect to its rebate calculations and, at any time, any additional information relating thereto as may be requested by the Authority and shall furnish to the Authority such information with respect to earnings on all funds constituting "gross proceeds" of the Bonds (as that term is defined in the Code) from time to time as the Authority may request.

J. AMENDMENTS TO THIS SECTION. Notwithstanding any of the provisions herein to the contrary, the Issuer agrees to amend the provisions of this Section from time to time at the direction of the Authority in order to insure continuing compliance with Section 8.02 hereof.

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Bonds:

(1) If default occurs in the due and punctual payment of the principal of or interest on any Bonds; or

(2) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to the Bonds set forth in this Resolution, any Supplemental Resolution or in the Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by the Commission, the Depository Bank, the Bond Registrar, any Paying Agent or a Holder of a Bond; or

(3) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default, any Registered Owner of a Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding enforce all rights of such Registered Owners including the right to require the Issuer to perform its duties under the Act and this Resolution relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon the Bonds, (iv) by action at law or bill in equity require the Issuer to account as if it were the trustee of an express trust for the Registered Owners of the Bonds, and (v) by action at law or bill in equity enjoin any acts in violation of the Resolution with respect to the Bonds, or the rights of such Registered Owners, provided however, that all rights and remedies of the Registered Owners shall be subject to those of the Registered Owners of the Prior Bond.

Section 9.03. Appointment of Receiver. Any Registered Owner of a Bond may, by proper legal action, compel the performance of the duties of the Issuer under this Resolution and the Act, including, the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any Event of Default with respect to the Bonds any Registered Owner of

a Bond shall, in addition to all other remedies or rights, have the right by appropriate legal proceedings to obtain the appointment of a receiver to administer the System or to complete the acquisition and construction of the Project, or both, on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of Operating Expenses of the System, the payment of the Bonds and interest and the deposits into the funds and accounts hereby established, and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of this Resolution and the Act.

The receiver so appointed shall forthwith, directly or by his agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate and maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might do.

Whenever all that is due upon the Bonds and interest thereon and under any covenants of this Resolution for Reserve, Sinking or other funds and upon any other obligations and interest thereon having a charge, lien or encumbrance upon the revenues of the System shall have been paid and made good, and all defaults under the provisions of this Resolution shall have been cured and made good, possession of the System shall be surrendered to the Issuer upon the entry of an order of the court to that effect. Upon any subsequent default, any Registered Owner of any Bonds shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby, and a successor receiver may be appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Registered Owners of the Bonds. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the possession, operation and maintenance of the System for the sole purpose of the protection of both the Issuer and Registered Owners of such Bonds and the curing and making good of any Event of Default with respect thereto under

the provisions of this Resolution, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, assign, mortgage or otherwise dispose of any assets of the System.

ARTICLE X

DEFEASANCE

Section 10.01. Defeasance of a Series of Bonds. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the respective Holders of a Series of Bonds, the principal of and interest due or to become due thereon, at the times and in the manner stipulated therein and in this Resolution, then with respect to such Series only the pledge of Net Revenues and other moneys and securities pledged under this Resolution and all covenants, agreements and other obligations of the Issuer to the Registered Owners of such Series of Bonds shall thereupon cease, terminate and become void and be discharged and satisfied.

All Bonds shall, prior to the maturity thereof, be deemed to have been paid within the meaning and with the effect expressed in the first paragraph of this section if there shall have been deposited with the Commission or its agent either moneys in an amount which shall be sufficient, or securities the principal of and the interest on which, when due, will provide moneys which, together with other moneys, if any, deposited with the Commission at the same time, shall be sufficient to pay when due the principal installments of and interest due and to become due on said Series of Bonds on and prior to the next redemption date or the maturity dates thereof. The

Issuer has entered into sewer provider agreements with The Town of East Bank and the Town of Cedar Grove, as approved by the PSC.

D. The estimated revenues to be derived in each year after completion of the Project from the operation of the System will be sufficient to pay all the costs of the operation and maintenance of the System, the principal of and interest on the Prior Bond, the Series 1995 A Bonds and all sinking funds, reserve accounts and other payments provided for herein, in the Prior Resolution and in the PSC Order.

E. So long as any of the Bonds are Outstanding, the Issuer shall not issue any other obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bonds; provided, however, that Parity Bonds may be issued as provided for in Section 7.07 hereof. All obligations hereafter issued by the Issuer payable from the revenues of the System, except such Parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on and source of and security for payment from such revenues and in all other respects, to the Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into the Reserve Accounts and the Renewal and Replacement Fund at the time of the issuance of such subordinate obligations have been made and are current.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the respective liens of the Bonds, and the interest thereon, upon any of the income and revenues of the System pledged for payment of the Bonds and the interest thereon in this Resolution, or upon the System or any part thereof.

Section 7.07. Parity Bonds. A. No Parity Bonds, payable out of the revenues of the System, shall be issued after

the issuance of any Bonds pursuant to this Resolution, except und the conditions and in the manner herein provided and in the Pri Resolutions so long as the Prior Bonds are outstanding.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 1995 A Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the construction or acquisition of extensions or improvements to the System or refunding one or more series of Bonds issued pursuant hereto, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, based upon the necessary investigation and certification by the Consulting Engineers, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the three succeeding years after the completion of the improvements to be financed by such Parity Bonds, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest on the following:

(1) The Bonds then Outstanding, including, witho limitation, the Prior Bonds;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the three succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from any increase in rates adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Consulting Engineers, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Consulting Engineers and the said Independent Certified Public

Accountants, as stated in a certificate jointly made and signed by the Consulting Engineers and said Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to issuance of such Parity Bonds.

Not later than simultaneously with the delivery of such Parity Bonds, the Issuer shall have entered into written contracts for the immediate construction or acquisition of such extensions or improvements, if any, to the System that are to be financed by such Parity Bonds.

All covenants and other provisions of this Resolution (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Series 1995 A Bonds and the Holders of any Parity Bonds issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their respective liens on the revenues of the System and their respective source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of another series on a parity therewith. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Resolution required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Resolution.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Outstanding Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from the revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 1995 A Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Resolution with respect to the Bonds then Outstanding, and any other payments provided for in this Resolution, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Resolution.

B. Notwithstanding the foregoing, or any provision of Section 7.06 to the contrary, additional Bonds may be issued pursuant to a Supplemental Resolution solely for the purpose of completing the Project as described in the application to the Authority and in accordance with the plans and specifications of

the Consulting Engineer, in the event that the Series 1995 A Bonds should be insufficient, together with other funds lawfully available therefore, to pay all costs of construction and acquisition of the project without regard to the restrictions set forth in this Section 7.07, if there is first obtained by the Issuer the written consent of the Authority to the issuance of bonds on a parity with the Bonds and provided further that prior to the issuance of such Parity Bonds and under the provisions of this paragraph, the Consulting Engineers shall file with the Secretary a certificate to the effect that additional funds are necessary for such purpose. All such Parity Bonds authorized and issued under the provisions of this paragraph shall be limited to the aggregate principal amount required to make up any deficiency in funds for payment of the construction costs to complete the Project, and the maturities of any such Parity Bonds shall be in years and amounts suggested by the Authority. The holders of the Prior Bonds must consent to the issuance of such Parity Bonds.

Section 7.08. Books and Records. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Resolution shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed by the Uniform System of accounts promulgated by the PSC. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system, which may be installed remote from the direct supervision of the Governing Body, shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Consulting Engineers, and the Authority, or any other original purchaser of the Bonds, and shall mail in each year to any Holder or Holders of Bonds requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues, Excess Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Resolution with respect to said Bonds and the status of all said funds and accounts.

(C) The amount of any Bonds, Notes or other obligations outstanding and secured by a lien on the Net Revenues of the System.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants and shall mail upon request, and make available generally, the report of said Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of Bonds and shall submit said report to the Authority, or any other original purchaser of the Bonds. Such audit report submitted to the Authority shall include a statement that the Issuer is in compliance with the terms and provisions of the Loan Agreement and this Resolution.

Section 7.09. Rates. Equitable rates or charges for the use of and service rendered by the System have been established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from said System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all reasonable expenses of operation, repair and maintenance of the System, including any reserves required by the PSC Order or any supplement or amendment thereto and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the Reserve Requirement are on deposit respectively in the Reserve Account and reserve accounts for obligations prior to or on a parity with the Bonds, including the Prior Bonds, are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues prior to or on a parity with the Bonds.

Section 7.10. Operating Budget and Audit. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced

budget of the estimated revenues expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority within thirty days of the adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by the Consulting Engineers, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of the Consulting Engineers that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Authority and to any Holder of any Bonds who shall file his address with the Issuer and request in writing that copies of all such budgets and resolutions be furnished him and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to any Holder of any Bonds or anyone acting for and in behalf of such Holder of any Bonds.

Section 7.11. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.12. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the PSC and other laws of the State.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 30 days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the PSC, rates, rentals and other charges, if not paid when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that it will, to the full extent permitted by law and the rules and regulations promulgated by the

PSC, discontinue and shut off the services of the System to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law.

Section 7.13. No Free Services. The Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. Such charges shall be paid as they accrue and the issuer shall transfer from its general funds sufficient sums to pay such charges for service to any of its departments or properties. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.14. Insurance. The Issuer will carry such insurance and in such amounts as is customarily carried with respect to works and properties similar to the System, with a reputable insurance carrier or carriers, against loss or damage by fire, explosion, hurricane, earthquake, cyclone, occupancy or other hazards and risks. The Issuer will require that each of its contractors and all subcontractors maintain, during the life of the construction contract, workers' compensation coverage, public liability insurance, property damage insurance and vehicle liability insurance in amounts and on terms satisfactory to the Authority, so long as the Authority is the Owner of the Bonds. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their interests may appear, in accordance with the Loan Agreement, during construction of the Project in the full insurable value thereof. In time of war, the Issuer shall also carry in said amount such insurance as may be available against loss or damage by the risks and hazards of war. The proceeds of all such insurance policies shall be disposed of as provided in this Resolution and otherwise shall be placed in the Renewal and Replacement Fund and used only for the repair and restoration of the damaged or destroyed properties or for the other purposes provided herein for said Renewal and Replacement Fund. The Issuer will also carry

liability insurance for damage or injury to persons or property in amounts adequate for such purposes and customarily carried with respect to works and properties similar to the System. The Issuer shall carry such other insurance as is required by the Authority, including but not limited to flood insurance and business interruption insurance, to the extent available at reasonable cost to the Issuer.

Section 7.15. Mandatory Connections. The mandatory use of the sewerage facilities portion of the System is essential and necessary for the protection and preservation of the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and in order to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Department of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the sewerage facilities portion of the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Department of Health and such house, dwelling or building can be adequately served by the sewerage facilities portion of the System, and every such owner, tenant or occupant shall, after a 30 day notice of the availability of the sewerage facilities portion of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the sewerage facilities portion of the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer and a public nuisance which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.16. Completion, Operation and Maintenance. The Issuer will expeditiously complete the Project in accordance with the plans and specifications prepared by the Consulting Engineers and will maintain the System in good condition and will operate the same as a revenue-producing enterprise in an efficient and economical manner, making such expenditures for equipment and for renewal, repair and replacement as may be proper for the economical operation and maintenance thereof from the revenues of the System in the manner provided in this Resolution.

Section 7.17. Tax Covenants. The Issuer hereby further covenants and agrees as follows:

A. PUBLIC PURPOSE BONDS. The Issuer shall use the Bond proceeds solely for the Project and as otherwise set forth herein, and the Project will be solely operated as a public purpose and as local governmental activity of the Issuer.

B. PRIVATE ACTIVITY BOND COVENANT. The Issuer shall not permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in a manner which would result in the exclusion of the Bonds from the treatment afforded by Section 103(a) of the Code by reason of the classification of the Bonds as 'private activity bonds' within the meaning of the Code. The Issuer will take all actions necessary to comply with the Code in order to assure the tax-exempt status of the Bonds.

C. PRIVATE LOAN LIMITATION. The Issuer shall assure that not in excess of 5% of the Net Proceeds of the Series 1995 A Bonds are used, directly or indirectly, to make or finance a loan (other than loans constituting Nonpurpose Investments) to persons other than state or local government units.

D. FEDERAL GUARANTEE PROHIBITION. The Issuer shall not take any action or permit or suffer any action to be taken if the result of the same would be to cause the Bonds to be "federally guaranteed" within the meaning of Section 149(b) of the Code.

E. TWO YEAR CONSTRUCTION ELECTION. The Issuer will expend the gross proceeds of the Bonds for the Project no later than the day which is two years after the date of issuance of the Bonds. The Issuer will expend the net proceeds (including, without limitation, investment proceeds earned before the close of the period involved on the investment of the proceeds of the Bonds) of the Bonds for the Project within the following periods beginning on the date of issuance of the Bonds.

Not less than 10 percent within 6 months,

Not less than 45 percent within 1 year,

Not less than 75 percent within 18 months, and

Not less than 100 percent within 2 years

(except for a reasonable retainage not exceeding 5% of the net proceeds of the Bonds which will be spent within 3 years). At least 75% of the net proceeds of the Bonds are to be used for construction expenditures with respect to property owned by the Issuer, and the Project will be owned by the Issuer.

F. INFORMATION RETURN. The Issuer will file all statements, instruments and returns necessary to assure the tax exempt status of the Bonds, including without limitation the information return required under Section 149(e) of the Code.

G. FURTHER ACTIONS. The Issuer will take any and all actions that may be required of it (including those deemed necessary by the Authority) so that the interest on the Bonds will be and remain excludable from gross income for federal income tax purposes, and will not take any actions, or fail to take any actions (including those determined by the Authority) which would adversely affect such exclusion.

Section 7.18. Statutory Mortgage Lien. For the further protection of the Holders of the Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding, and shall take effect immediately upon delivery of the Bonds and shall be for the benefit of all Registered Owners of Bonds which lien is on a parity with the lien of the Prior Bonds.

Section 7.19. PSC Order. The Issuer shall comply with the conditions of the PSC Order and any supplement or amendment thereto.

Section 7.20. Securities Compliance. The Issuer will provide the Authority, in a timely manner, with any and all information that may be requested of it (including its annual audit, annual operating related information and notices of changes in usage and customer base) so that the Authority may comply with the provisions of Securities and Exchange Commission Rule 15c2-12 (17 C.F.R., Part 240, (240, 15c2-12)).

ARTICLE VIII

INVESTMENT OF FUNDS; NON-ARBITRAGE

Section 8.01. Investments. Any moneys held as a part of the funds and accounts created by this Resolution, other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank or such other bank or national banking association holding such fund or account, as the case may be, at the direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Resolution, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Except as specifically provided herein, any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission, the Depository Bank or such other bank or national banking association, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank or such other bank or national banking association, as the case may be, may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once a year, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records relating thereto so long as any of the Bonds are Outstanding and as long thereafter as necessary to comply with the Code and assure the exclusion of intent on the Bonds from gross income for Federal income tax purposes.

Section 8.02. Arbitrage. The Issuer covenants that (i) it will restrict the use of the proceeds of the Series 1995 A Bonds in such manner and to such extent as may be necessary, in view of the Issuer's reasonable expectations at the time of issuance of the

Series 1995 A Bonds so that the Series 1995 A Bonds will not constitute "arbitrage bonds" under Section 148 of the Code, and (ii) it will take all actions that may be required of it (including, without implied limitation, the timely filing of a federal information return with respect to the Bonds so that the interest on the Series 1995 A Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions which would adversely affect such exclusion.

Section 8.03. Rebate of Excess Investment Earnings to the United States. A. CREATION OF FUNDS. There are hereby created, to be held by the Depository Bank as separate funds distinct from all other funds and accounts held by the Depository Bank under this Resolution, the Earnings Fund and the Rebate Fund. All interest earnings and profits on amounts in all funds and accounts established under this Resolution on account of the Series 1995 A Bonds, other than (i) interest earnings and profits on any funds referenced in Subsection C(5) of this Section if such earnings in any Bond Year are less than $100,000, (ii) interest earnings and profits on amounts in funds and accounts which do not constitute Gross Proceeds, and (iii) interest earnings and profits on the Rebate Fund shall, upon receipt by the Depository Bank, be deposited in the Earnings Fund. In addition, all interest earnings and profits on Gross Proceeds in funds held by the Issuer shall, upon receipt, be paid to the Depository Bank for deposit in the Earnings Fund. Annually, on or before the 30th day following the end of each Bond Year or on the preceding business day in the event that such last day is not a business day, or such earlier date as may be required under the Code or the Loan Agreement, the Depository Bank shall transfer from the Earnings Fund to the Rebate Fund for purposes of ultimate payment to the United States an amount equal to Excess Investment Earnings, all as more particularly described in this Section. Following the transfer referenced in the preceding sentence, the Depository Bank shall transfer all amounts remaining in the Earnings Fund to the Construction Trust Fund until completion of the Project, and thereafter to the Revenue Fund.

B. DUTIES OF ISSUER IN GENERAL. The Issuer shall calculate Excess Investment Earnings in accordance with Subsection C and shall assure payment of an amount equal to Excess Investment Earnings to the United States in accordance with Subsections D and E.

C. CALCULATION OF EXCESS INVESTMENT EARNINGS. Within 15 days following the last day of the first Bond Year, the Issuer shall calculate, and shall provide written notice to the Authority and Depository Bank of, the Excess Investment Earnings referenced in clause (A) of the definition of Excess Investment Earnings. Thereafter, within 15 days following the last day of each Bond Year and within 15 days following the date of the retirement of the Series 1995 A Bonds, the Issuer shall calculate, and shall provide

written notice to the Authority and Depository Bank of, the amount of Excess Investment Earnings. Said calculations shall be made or caused to be made by the Issuer in accordance with the following:

(1) Except as provided in (2), in determining the amount described in clause A(i) of the definition of Excess Investment Earnings, the aggregate amount earned on Nonpurpose Investments shall include (i) all income realized under federal income tax accounting principles (whether or not the person earning such income is subject to federal income tax) with respect to such Nonpurpose Investments and with respect to the reinvestment of investment receipts from such Nonpurpose Investments (without regard to the transaction costs incurred in acquiring, carrying, selling or redeeming such Nonpurpose Investments), including, but not limited to, gain or loss realized on the disposition of such Nonpurpose Investments (without regard to when such gains are taken into account under Section 453 of the Code relating to taxable year of inclusion of gross income), and income under Section 1272 of the Code (relating to original issue discount) and (ii) any unrealized gain or loss as of the date of retirement of the Bonds in the event that any Nonpurpose Investment is retained after such date.

(2) In determining the amount described in clause (A) of the definition of Excess Investment Earnings, Investment Property shall be treated as acquired for its fair market value at the time it becomes a Nonpurpose Investment, so that gain or loss on the disposition of such Investment Property shall be computed with reference to such fair market value as its adjusted basis.

(3) In determining the amount described in clause (A)(ii) of the definition of Excess Investment Earnings, the Yield on the Series 1995 A Bonds shall be determined based on the actual Yield of the Series 1995 A Bonds and during the period between the Closing Date for the Series 1995 A Bonds and the date the computation is made (with adjustments for original issue discount or premium).

(4) In determining the amount described in clause (B) of the definition of Excess Investment Earnings, all income attributable to the excess described in clause (A) of said definition must be taken into account, whether or not that income exceeds the Yield of the Series 1995 A Bonds, and no amount may be treated as "negative arbitrage."

(5) In determining the amount of Excess Investment Earnings, there shall be excluded any amount earned on any fund or account which is used primarily to achieve a proper matching of revenues and Debt Service within each Bond Year and which is depleted at least once a year except for a

reasonable carryover amount not in excess of the greater of 1 year's earnings on such fund or account or 1/12th of annua Debt Service as well as amounts earned on said earnings if the gross earnings on such fund or account for the Bond Year is less than $100,000.

D. PAYMENT TO THE UNITED STATES. The Issuer shall direct the Depository Bank to pay from the Rebate Fund an amount equal to Excess Investment Earnings to the United States in installments with the first payment to be made not later than 30 days after the end of the 5th Bond Year and with subsequent payments to be made not later than 5 years after the preceding payment was due. The Issuer shall assure that each such installment is in an amount equal to at least 90% of the Excess Investment Earnings with respect to the Gross Proceeds as of the close of the computation period. Not later than 60 days after the retirement of the Series 1995 A Bonds, the Issuer shall direct the Depository Bank to pay from the Rebate Fund to the United States 100% of the theretofore unpaid Excess Investment Earnings in the Rebate Fund. In the event that there are any amounts remaining in the Rebate Fund following the payment required by the preceding sentence, the Depository Bank shall pay said amounts to the Issuer to be used for any lawful purpose of the System. The Issuer shall remit payments to the United States at the address prescribed by the Regulations as the same may be from time to time in effect with such reports and statements as may be prescribed by such Regulations. In the event that, for any reason, amounts in th Rebate Fund are insufficient to make the payments to the Unite States which are required by this Subsection D, the Issuer shall assure that such payments are made by the Issuer to the United States, on a timely basis, from any funds lawfully available therefor.

E. FURTHER OBLIGATIONS OF ISSUER. The Issuer shall assure that Excess Investment Earnings are not paid or disbursed except as required in this Section. To that end the Issuer shall assure that investment transactions are on an arm's length basis and that Nonpurpose Investments are acquired at their fair market value. In the event that Nonpurpose Investments consist of certificates of deposit or investment contracts, investment in such Nonpurpose Investments shall be made in accordance with the procedures described in applicable Regulations as from time to time in effect. The Depository Bank shall keep the moneys in the Earnings Fund and Rebate Fund invested and reinvested to the fullest extent practicable in Government Obligations with maturities consonant with the required use thereof and investment profits and earnings shall be credited to the account of such fund on which earned.

F. MAINTENANCE OF RECORDS. The Issuer shall keep, and retain for a period of six years following the retirement of the

Series 1995 A Bonds, records of the determinations made pursuant to this Section 8.03.

G. INDEPENDENT CONSULTANTS. In order to provide for the administration of this Section 8.03, the Issuer and the Depository Bank (at the expense of the Issuer) may provide for the employment of independent attorneys, accountants or consultants compensated on such reasonable basis as the Issuer or the Depository Bank may deem appropriate.

H. FURTHER AGREEMENT. Notwithstanding the foregoing, the Issuer further covenants to comply with all Regulations from time to time in effect and applicable to the Bonds, as may be necessary in order to fully comply with Section 148(f) of the Code.

I. REPORTING TO AUTHORITY. The Issuer shall furnish to the Authority, annually, at such time as it is required to perform its rebate calculations under the Code, a certificate with respect to its rebate calculations and, at any time, any additional information relating thereto as may be requested by the Authority and shall furnish to the Authority such information with respect to earnings on all funds constituting "gross proceeds" of the Bonds (as that term is defined in the Code) from time to time as the Authority may request.

J. AMENDMENTS TO THIS SECTION. Notwithstanding any of the provisions herein to the contrary, the Issuer agrees to amend the provisions of this Section from time to time at the direction of the Authority in order to insure continuing compliance with Section 8.02 hereof.

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Bonds:

(1) If default occurs in the due and punctual payment of the principal of or interest on any Bonds; or

(2) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to the Bonds set forth in this Resolution, any Supplemental Resolution or in the Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by the Commission, the Depository Bank, the Bond Registrar, any Paying Agent or a Holder of a Bond; or

(3) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default, any Registered Owner of a Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding enforce all rights of such Registered Owners including the right to require the Issuer to perform its duties under the Act and this Resolution relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon the Bonds, (iv) by action at law or bill in equity require the Issuer to account as if it were the trustee of an express trust for the Registered Owners of the Bonds, and (v) by action at law or bill in equity enjoin any acts in violation of the Resolution with respect to the Bonds, or the rights of such Registered Owners, provided however, that all rights and remedies of the Registered Owners shall be subject to those of the Registered Owners of the Prior Bonds.

Section 9.03. Appointment of Receiver. Any Registered Owner of a Bond may, by proper legal action, compel the performance of the duties of the Issuer under this Resolution and the Act, including, the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any Event of Default with respect to the Bonds any Registered Owner of

a Bond shall, in addition to all other remedies or rights, have the right by appropriate legal proceedings to obtain the appointment of a receiver to administer the System or to complete the acquisition and construction of the Project, or both, on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of Operating Expenses of the System, the payment of the Bonds and interest and the deposits into the funds and accounts hereby established, and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of this Resolution and the Act.

The receiver so appointed shall forthwith, directly or by his agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate and maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might do.

Upon any subsequent default, any Registered Owner of any Bonds shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby, and a successor receiver may be appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Registered Owners of the Bonds. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the possession, operation and maintenance of the System for the sole purpose of the protection of both the Issuer and Registered Owners of such Bonds and the curing and making good of any Event of Default with respect thereto under

the provisions of this Resolution, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, assign, mortgage or otherwise dispose of any assets of the System.

Section 1.04. Findings. It is hereby found, determined and declared as follows:

A. The Issuer is a public corporation and political subdivision of the State in Kanawha County of said State. The Issuer now owns and operates a public wastewater collection and treatment system furnishing service to residences, premises and businesses residing or located within the Issuer's service territory. However, there are several communities in the Cabin Creek area of Kanawha County and within the Issuer's service territory that are not yet served by a public wastewater system. Certain of these communities have experienced reported outbreaks of encephalitis linked to the presence of open sewer lines, raising serious health concerns.

B. It is deemed necessary and desirable for the health, welfare and safety of the inhabitants of the Issuer that there be acquired and constructed the Project, generally consisting of the acquisition and construction of approximately 70,000 feet of sanitary sewer collection lines, seven pumping stations and two grinder pumping stations between Dry Branch and Cabin Creek Medical Center to serve approximately 640 new customers. The Project will be have an estimated cost of $6,068,000 and will be constructed in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have been approved by DEP and are on file with the Issuer. The Project is generally described in Exhibit A attached hereto and has an estimated useful life in excess of thirty years.

C. The Issuer derives Net Revenues from the System. The Net Revenues are currently encumbered by four outstanding obligations, including the Issuer's Series 1979 Bonds, dated September 13, 1979 and issued in the aggregate principal amount of $822,100; the Issuer's Series 1994 A Bonds, dated April 22, 1994 and issued in the aggregate principal amount of $1,023,500; the Issuer's Series 1994 B Bonds, dated April 22, 1994 and issued in the aggregate principal amount of $175,276; and the Issuer's Series 1995 A Bonds, dated June 29, 1995 and issued in the aggregate principal amount of $634,000 (collectively, the "Prior Bonds"). Other than the Prior Bonds, the Net Revenues of the System are not encumbered in any manner. The Issuer has received or, prior to the issuance of the Bonds, will have received, a certification from an Independent Accountant that the various tests for the issuance of parity bonds set forth in the Prior Resolutions have been met or waived.

D. In addition to the Prior Bonds, the Issuer has also issued its Sewerage System Design Note, Series 1998 A, dated July 10, 1998 and issued in the aggregate principal amount of $90,000 (the "Prior Notes," and collectively with the Prior Bonds, the "Prior Obligations") pursuant to a resolution adopted by the Governing Body on July 9, 1998 (the "Prior Notes Resolution"). The Prior Notes are not secured by the net revenues of the System, but have a first lien on the proceeds of any grants (other than Infrastructure Fund grants) for the System, the proceeds of any Original Bonds or any other revenue bonds, refunding bonds or other obligations of the Issuer for the System issued subsequent to the

issuance of the Prior Notes, and Surplus Revenues, if any, if adequate to amortize the Prior Notes over a twenty-year period. Section 3.09 of the Prior Notes Resolution provides. however, that the proceeds from the permanent financing of the acquisition and construction of sewer line extensions from Dry Branch to Cabin Creek Medical Center (the purpose for which the Original Bonds are to be issued) are not required to be used to repay the Prior Notes.

E. The Issuer (i) has informed the Authority and the Infrastructure Council of its intent to authorize the issuance of additional indebtedness related to the System as required by Section 3.15 of the Prior Notes Resolution and (ii) has secured the written consent of the Authority and the Infrastructure Council to issue revenue bonds and notes payable from the revenues of the System as required by Section 3.13 of the Prior Notes Resolution.

F. The Issuer intends to permanently finance a portion of the costs of acquisition and construction of the Project through the issuance of its revenue bonds to the Authority. The Issuer also intends to apply the proceeds of several grants to finance a portion of the costs of acquisition and construction of the Project, including a grant from the Governor's Partnership Grant program in the amount of $1,035,000, a grant from the County Commission of Kanawha County in the amount of $1,175,000 and a Small Cities Block Grant in the amount of $1,250,000 (the "Grants").

G. The estimated revenues to be derived in each year after the adoption of this Resolution from the operation of the System will be sufficient to pay all the costs of the operation and maintenance of said System, the principal of the Original Bonds of the Issuer and all sinking fund and other payments provided for in this Resolution and in the Prior Resolutions.

H. It is deemed necessary for the Issuer to issue its Original Bonds in the aggregate principal amount of not more than $2,700,000 to finance the costs of the acquisition and construction of the Project herein described through the Program. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest on the Original Bonds prior to and during construction or acquisition and for six months after completion of construction of the Project, if any; engineering, fiscal and legal expenses; expenses for estimates of cost and revenue; expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise; administrative expense, any fees or expenses of the Authority and DEP, commitment fees, discount, initial fees for the service of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Original Bonds, and such other expenses as may be necessary or incidental to the financing herein authorized, the construction or acquisition of the Project and the placing of the same in operation, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts

expended by it for allowable costs prior to the issuance of the Original Bonds or the repayment of the indebtedness incurred by the Issuer for such purposes shall be deemed part of the Cost of the Project.

I. The Infrastructure Council has approved the Project. It is in the best interests of the Issuer that its Original Bonds be sold to the Authority pursuant to the terms and provisions of the Loan Agreement.

J. The Issuer has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the Original Bonds, or will have so complied prior to the issuance of any thereof, including, among other things, the obtaining of a Certificate of Convenience and Necessity from the PSC by Final Order, the time for rehearing and appeal of which will have expired prior to the issuance of the Original Bonds.

ARTICLE II

AUTHORIZATION OF EXTENSIONS, ADDITIONS, BETTERMENTS AND IMPROVEMENTS TO SYSTEM

Section 2.01. Authorization of Extensions, Additions, Betterments and Improvements. There is hereby authorized the acquisition and construction of the Project in accordance with plans and specifications prepared by the Consulting Engineers, approved by DEP and the Issuer, and on file in the office of the Governing Body; provided, however, that such plans and specifications, and the construction and acquisition of the Project in accordance therewith, are subject to the specific authorization by the Governing Body pursuant to a Supplemental Resolution.

The Issuer has received acceptable bids for the acquisition and construction of the Project. Prior to or concurrently with the issuance of the Original Bonds, the Issuer must enter into contracts for the acquisition and construction of the Project, compatible with the financing plan submitted to the Program.

ARTICLE III

AUTHORIZATION, TERMS, EXECUTION AND REGISTRATION OF BONDS

Section 3.01. Authorization and Terms of Original Bonds. For the purposes of funding the reserve account, paying costs of issuance, financing a portion of the costs of the acquisition and construction of the Project not otherwise provided for, or any one or more of such items, there shall be issued the Original Bonds of the Issuer. The Original Bonds shall be initially issued in one or more series to be designated "Sewerage System Convertible Revenue Bonds, Series 1999 A," and so on, in an aggregate principal amount not to exceed $2,700,000. The Original Bonds shall be dated as of the date of delivery thereof and shall mature at such times, not exceeding thirty (30) years after the date of issuance and in such amount or amounts as shall be set out in the Loan Agreement. The Original Bonds shall bear no interest. The Original Bonds shall be subject to the SRF Administrative Fee set out in the Loan Agreement. The repayment of principal on the Original Bonds shall be as set forth in the Loan Agreement. The Original Bonds shall contain such other terms, provisions, conditions and limitations, all as provided by this Resolution and the Loan Agreement and as the Governing Body shall prescribe by a supplemental or amendatory resolution hereto adopted in connection with the sale of such Original Bonds.

The Original Bonds shall be payable as to principal, at the principal office of the Paying Agent, in any coin or currency which, on the dates of payment of principal is legal tender for the payment of public or private debts under the laws of the United States of America.

Unless otherwise provided in the Supplemental Resolution, the Original Bonds shall be issued in the form of a single bond, fully registered to the Authority, with a record of advances and a payment record attached, representing the aggregate principal amount, and shall mature in principal installments, all as provided in the Loan Agreement and said Supplemental Resolution. Bonds shall be exchangeable at the option and expense of the Bondholder for other fully registered Bonds in aggregate principal amount equal to the amount of said Bonds then Outstanding, with principal installments or maturities, as applicable, corresponding to the dates of payment of principal installments of said Bonds; provided, that the Authority shall not be obligated to pay any expenses of such exchange.

Subsequent series of Bonds may be issued in fully registered form, in the denomination of $5,000 or any integral multiple thereof, all as determined by a Supplemental Resolution. Said Bonds shall be dated as of the date specified in said Supplemental Resolution.

Section 3.02. Execution of Bonds. The Bonds shall be executed in the name of the Issuer by the Chairperson and attested by the Secretary, and the seal of the Issuer shall be affixed thereto or imprinted thereon. In case any one or more of the officers who shall

have signed or sealed any of the Bonds shall cease to be such officer of the Issuer before the Bonds so signed and sealed have been sold and delivered, such Bonds may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Any Bonds may be signed and sealed on behalf of the Issuer by such person as, at the actual time of the execution of such Bonds, shall hold the proper office in the Issuer, although at the date of such Bonds such person may not have held such office or may not have been so authorized.

Section 3.03. Authentication and Registration. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Resolution unless and until the Certificate of Authentication and Registration on such Bond, substantially in the form set forth in Section 3.08, shall have been duly manually executed by the Registrar. Any such executed Certificate of Authentication and Registration upon any such Bond shall be conclusive evidence that such Bond has been authenticated, registered and delivered under this Resolution. The Certificate of Authentication and Registration on any Bond shall be deemed to have been executed by the Registrar if manually signed by an authorized officer of the Registrar, but it shall not be necessary that the same officer sign the Certificate of Authentication and Registration on all of the Bonds issued hereunder.

Section 3.04. Negotiability, Transfer and Registration. Subject to the provisions for transfer of registration set forth below, the Bonds shall be, and have all of the qualities and incidents of, negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner, in accepting any of said Bonds shall be conclusively deemed to have agreed that such Bonds shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner shall further be conclusively deemed to have agreed that said Bonds shall be incontestable in the hands of a bona fide holder for value in the manner provided hereinafter in the form of said Bonds.

So long as any of the Bonds remain Outstanding, the Issuer, through the Registrar, shall keep and maintain books for the registration and transfer of the Bonds.

Bonds shall be transferable only upon the books of the Registrar, by the registered Owner thereof in person or by the Owner's attorney duly authorized in writing, upon surrender thereto together with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered Owner or the Owner's duly authorized attorney.

In all cases in which the privilege of exchanging Bonds or transferring Bonds is exercised, Bonds shall be delivered in accordance with the provisions of this Resolution. All Bonds surrendered in any such exchanges or transfers shall forthwith be canceled by the Registrar. For every such exchange or transfer of Bonds, the Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and the cost of preparing each new Bond upon each exchange or transfer, and any other expenses of the Registrar incurred in connection therewith, which sum or sums shall be paid by the Issuer. The Registrar shall not be obliged

to make any such exchange or transfer of Bonds during the 15 days preceding an interest payment date on the Bonds, or, in the case of any proposed redemption of Bonds, next preceding the date of the selection of Bonds to be redeemed.

Section 3.05. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be destroyed, stolen or lost, the Issuer may, in its discretion, issue and deliver a new Bond in exchange and substitution for such mutilated Bond, upon surrender and cancellation of such mutilated Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, and upon the Owner's furnishing the Issuer proof of ownership thereof and satisfactory indemnity and complying with such other reasonable regulations and conditions as the Issuer may prescribe and paying such expenses as the Issuer may incur and the Registrar shall authenticate the new Bond. All Bonds so surrendered shall be canceled by the Registrar and held for the account of the Issuer. If such Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and, if such Bond be lost, stolen, or destroyed, without surrender therefor.

Any such duplicate Bonds issued pursuant to this Section shall constitute original, additional contractual obligations on the part of the Issuer, whether or not the lost, stolen or destroyed Bonds be at any time found by anyone, and such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source of security for payment from the revenues pledged herein with all other Bonds issued hereunder.

Section 3.06. Bonds not to be Indebtedness of the Issuer. The Bonds shall not, in any event, be or constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation, but shall be payable solely from the Net Revenues derived from the operation of the System as herein provided. No Owner or Owners of any of the Bonds shall ever have the right to compel the exercise of the taxing power, if any, of the Issuer to pay the Bonds or any interest thereon.

Section 3.07. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of all the Original Bonds shall be secured forthwith equally and ratably with each other by a first lien on the Net Revenues derived from the System on a parity with the lien of the Prior Bonds. Such Net Revenues in an amount sufficient to pay the principal of and interest, if any, on and other payments for the Bonds, to make the payments into the Series 1999 A Sinking Fund and the Series 1999 A Reserve Account therein and into the Renewal and Replacement Fund hereinafter established or contained, and to make the payments into the sinking funds, reserve accounts, and renewal and replacement or depreciation funds established for the Prior Bonds, are hereby irrevocably pledged to the payment of the principal of and any interest on the Bonds and the Prior Bonds as the same become due.

Section 3.08. Form of Original Bonds. The text of each series of Original Bonds shall be of substantially the following tenor, with such omissions, insertions and

variations as may be necessary and desirable and authorized or permitted by this Resolution or any subsequent resolution adopted prior to the issuance thereof.

SYSTEM REVENUES AND APPLICATION THEREOF

Section 5.01. Establishment of Continuation of Funds and Accounts with Depository Bank. The following special funds or accounts are created with (or, if established by a resolution prior to this resolution, continued hereby) and shall be held by the Depository Bank:

(1) Revenue Fund;

(2) Renewal and Replacement Fund; and

(3) Series 1999 Bond Construction Trust Fund.

Section 5.02. Establishment of Funds and Accounts with Commission. The following special funds or accounts are hereby established with the Commission:

(1) Series 1999 A Bonds Sinking Fund; and

(a) Within the Series 1999 A Bonds Sinking Fund, the Series 1999 A Reserve Account.

Section 5.03. System Revenues; Flow of Funds. A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner therein and herein provided.

(1) The Issuer shall, on the first day of each month, transfer from the Revenue Fund an amount sufficient to pay current Operating Expenses of the System.

(2) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund an amount necessary to make, simultaneously and without preference or priority as between any of the deposits, the following deposits on account of interest on the Prior Bonds, on the respective dates set forth in the Prior Resolutions: to make the interest payments required by Section 3.02(B)(2) of the Series 1979 Resolution, Section 5.03(2) of the Series 1994 Resolution and Section 5.03(2) of the Series 1995 Resolution.

(3) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund an amount necessary to make, simultaneously and without preference or priority as between any of the deposits, the following deposits, on the respective dates set forth herein and in the Prior Resolutions: (i) to make the principal payments required by Section 3.02(B)(2) of the Series 1979 Resolution, Section 5.03 (3) of the Series 1994 Resolution and Section 5.03(3) of the Series 1995 Resolution; and (ii) on the first day of each month commencing 4 months prior to the first date of payment of principal, to remit to the Commission, for deposit in the Series 1999 A Sinking Fund, a sum equal to 1/3rd of the amount of principal which will become due on the Bonds on the next ensuing quarterly principal payment date; provided, that, in the event the period to elapse between the date of such initial deposit in the Series 1999 A Sinking Fund and the next quarterly principal payment date is less than 4 months, then such monthly payment shall be increased proportionately to provide, one month prior to the next quarterly principal payment date, the required amount of principal coming due on such date. When additional series of Original Bonds are issued, the payment of principal on said bonds shall be made simultaneously with the payments described in this Section 5.03A(2) and to the extent that Revenues are insufficient to make all of the payments, such payments shall be made, pro rata, among each series of Bonds.

(4) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund an amount necessary to make, simultaneously and without preference or priority as between any of the deposits, the following deposits, on the respective dates set forth herein and in the Prior Resolutions: (i) to make the respective payments required by Section 3.02(B)(3) of the Series 1979 Resolution, Section 5.03(4) of the Series 1994 Resolution and Section 5.03(4) of the Series 1995 Resolution on account of the reserve accounts established for the Prior Bonds; and (ii) on the first day of each month commencing 4 months prior to the first date of payment of principal, to remit to the Commission, for deposit in the Series 1999 A Reserve Account, if not fully funded upon issuance of the Bonds, an amount equal to 1/120 of the Series 1999 A Reserve Requirement; provided, that no further payments shall be made into the Series 1999 A Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 1999 A Reserve Requirement. When additional series of Original Bonds are issued, the deposits on account of the reserve accounts established for said bonds shall be made simultaneously with the payments described in this Section 5.03A(3) and to the extent that Revenues are insufficient to make all of the payments, such payments shall be made, pro rata, among each series of Bonds.

(5) The Issuer shall next, from the moneys remaining in the Revenue Fund, on the first day of each month, the Issuer shall transfer from the Revenue Fund a sum equal to 2 1/2% of the Gross Revenues each month, exclusive of any payments for account of any reserve account pursuant to Section 5.03A(3) hereof; provided, that for so long as the Series 1979 Bonds are Outstanding and there has not been accumulated in the Renewal and Replacement Fund, or the balance therein has fallen below, the aggregate sum of $10,000, the Issuer shall transfer all moneys remaining in the Revenue Fund after the transfers described in Sections 5.03A(1), (2), (3) and (4) and not permitted to be retained therein. All

funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that for so long as the Series 1979 Bonds are Outstanding, withdrawals and disbursements from the Renewal and Replacement Fund may also be used to make up any deficiencies for monthly payments of principal and interest on the Series 1979 Bonds; and provided further, that any deficiencies in the respective reserve accounts (except to the extent such deficiencies exist because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

Moneys in the Series 1999 A Sinking Fund shall be used only for the purposes of paying principal of and interest on the Bonds as the same shall become due. Moneys in the Series 1999 A Reserve Account shall be used only for the purpose of paying principal of or interest on the Bonds, as the same shall come due, when other moneys in the Series 1999 A Sinking Fund are insufficient therefor, and for no other purpose. Except for the funds required to be deposited in the Rebate Fund, all investment earnings on moneys in the Series 1999 A Reserve Account shall be transferred, not less than once each year, to the Bond Construction Trust Fund prior to completion of the Project and thereafter, pro rata, to the Series 1999 A Sinking Fund.

Any withdrawals from the Series 1999 A Reserve Account which result in a reduction in the balance of the Series 1999 A Reserve Account to an amount below the Series 1999 A Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments to the Series 1999 A Sinking Fund for payment of debt service on the Bonds have been made in full.

B. As and when additional Bonds ranking on a parity with the Original Bonds are issued, provision shall be made for additional payments into the Series 1999 A Sinking Fund sufficient to pay any interest on such additional Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the Series 1999 A Reserve Account in an amount equal to the Series 1999 A Reserve Requirement.

The Commission is hereby designated as the fiscal agent for the administration of the Series 1999 A Sinking Fund created hereunder, and all amounts required for said Series 1999 A Sinking Fund shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein.

The payments into the Series 1999 A Sinking Fund shall be made on the first day of each month, except that when the first day of any month shall be a Sunday or legal holiday then such payments shall be made on the next succeeding business day, and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Resolution. In the

case of payments to the Commission under this paragraph, the Issuer shall, if required by the Authority at any time, make the necessary arrangements whereby such required payments shall be automatically deducted from the Revenue Fund and transferred to the Commission on the dates required.

Moneys in the Series 1999 A Reserve Account shall be invested and reinvested by the Commission in accordance with Article VIII hereof.

The Series 1999 A Sinking Fund, including the Series 1999 A Reserve Account therein, shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Bonds and any additional Bonds ranking on a parity with them that may be issued and Outstanding under the conditions and restrictions hereinafter set forth.

C. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinabove provided, are current and there remains in said Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into the Series 1999 A Sinking Fund, including the Series 1999 A Reserve Account therein, and the Renewal and Replacement Fund during the following month or such longer period as shall be required by the Act, such excess shall be considered as surplus revenues (the "Surplus Revenue"). Surplus Revenues may be used for any lawful purpose of the System.

D. The Issuer shall remit from the Revenue Fund to the Commission or the Depository Bank, on such dates as the Commission or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay any Depository Bank's charges then due.

Simultaneously with the deposits made to the Commission pursuant to Section 5.03A(3) and (4), the Issuer shall remit to the Commission the SRF Administrative Fee.

The Issuer shall complete the "monthly payment form," which form is attached to the Loan Agreement as Exhibit F, and submit a copy of said form along with a copy of its payment check to the Authority by the fifth day of each calendar month.

E. The moneys in excess of the maximum amounts insured by FDIC in the Revenue Fund and the Renewal and Replacement Fund shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

F. If, on any monthly payment date, the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments, in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates.

G. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

H. The Gross Revenues of the System shall only be used for purposes of the System.

Section 5.04. Excess Bond Proceeds. Upon completion of construction of the Project, as certified by the Consulting Engineers, and after all costs have been paid, any remaining proceeds of the Series 1999 A Bonds shall be used as directed in writing by the Authority and the DEP.

ARTICLE VI

APPLICATION OF ORIGINAL BOND PROCEEDS; FUNDS AND ACCOUNTS

Section 6.01. Application of Original Bond Proceeds. From the moneys received from time to time from the sale of any or all of the Original Bonds, the following amounts shall be first deducted and deposited in the order set forth below:

A. From the proceeds of the Bonds, there shall be deposited with the Commission in the Series 1999 A Reserve Account the sums, if any, set forth in the Supplemental Resolution for funding of said Reserve Account.

B. The remaining moneys derived from the sale of the Original Bonds shall be deposited by the Issuer, as received from time to time, in the Bond Construction Trust Fund hereinafter established.

C. There is hereby created and established with the Depository Bank a special fund, designated the "Series 1999 A Bond Construction Trust Fund," with a separate subaccount to be established for the Original Bonds. The Depository Bank shall act as a trustee and fiduciary for the Bondholders with respect to the Bond Construction Trust Fund and shall comply with all requirements with respect to the disposition of the Bond Construction Trust Fund set forth in this Resolution. Moneys in the Bond Construction Trust Fund shall be used solely to pay Costs of the Project and until so transferred or expended, are hereby pledged as additional security for the Bonds.

Section 6.02. Disbursements From the Bond Construction Trust Fund.

A. With respect to the proceeds of the Bonds, on or before the Closing Date, the Issuer shall have delivered to the Authority a report listing the specific purposes for which the proceeds of the Bonds will be expended and the disbursement procedures for such proceeds, including an estimated monthly draw schedule.

Except as provided in Section 6.01 hereof, disbursements from the Bond Construction Trust Fund from proceeds of the Bonds (except for the cost of issuance of the Bonds which shall be made upon request of the Issuer) shall be made only after submission to, and approval from, the Authority and the DEP of the following:

(1) A "Payment Requisition Form," attached to the Loan Agreement, and

(2) a certificate, signed by the Chairperson and the Consulting Engineers, stating:

(A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursements theretofore made;

(B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(C) That each of such costs has been otherwise properly incurred; and

(D) That payment for each of the items proposed is then due and owing.

B. In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Bond Construction Trust Fund only the net amount remaining after deduction of any such portion. All payments made from the Bond Construction Trust Fund shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Bond Construction Trust Fund. The Consulting Engineers shall, from time to time, file with the Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Bond Construction Trust Fund, including any subaccounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions set forth in this Resolution shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any owner or owners of the Bonds. In addition to the other covenants, agreements and provisions of this Resolution, the Issuer hereby covenants and agrees with the owners of the Bonds as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of said Bonds, or the interest, if any, thereon, is Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Resolution. No Holder or Holders of any Bonds shall ever have the right to compel the exercise of the taxing power, if any, of the Issuer to pay said Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Original Bonds issued hereunder shall be secured forthwith, equally and ratably, by a first lien on the Net Revenues derived from the operation of the System on a parity with the Prior Bonds. The revenues derived from the System, in an amount sufficient to pay the principal of and interest on the Bonds herein authorized and the Prior Bonds and to make the payments into the sinking funds, including the reserve accounts therein, established for the Bonds and the Prior Bonds, and all other payments provided for in this Resolution and the Prior Resolutions, are hereby irrevocably pledged, in the manner provided herein, to the payment of the principal of and interest on the Bonds and the Prior Bonds and for the other purposes provided in the Resolution.

Section 7.04. Rates. Prior to issuance of the Original Bonds, equitable rates or charges for the use of and service rendered by the System will be established in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from said System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted, whenever necessary, so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reductions in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System, (i) to provide for all reasonable expenses of operation, repair and maintenance of the System, including any reserves required by the PSC Order or any supplemental or

amendments thereto, and (ii) to leave a balance each Fiscal Year equal to at least 115% of the maximum amount required in any succeeding Fiscal Year for payment of principal of and interest on the Bonds; provided that, in the event that amounts at least equal to or in excess of the respective Reserve Requirements are on deposit in the respective Reserve Accounts, such balance each Fiscal Year need only equal at least 110% of the maximum amount required in any succeeding Fiscal Year for payment of principal of and interest on the Original Bonds.

Section 7.05. Completion, Operation and Maintenance; Schedule of Cost. The Issuer will expeditiously complete the Project and will maintain the System in good condition and will operate the same as a revenue-producing enterprise in an efficient and economical manner, making such expenditures, for equipment and for renewal, repair and replacement as may be proper for the economical operation and maintenance thereof, from the revenues of said System, in the manner provided in the Resolution.

Upon completion of the Project, the Issuer shall file with the Authority a schedule, in substantially the form of Amended Schedule A to the Program loan application, setting forth the actual costs of the Project and sources of funds therefor.

Section 7.06. Sale of the System. The System may be sold, mortgaged, leased or otherwise disposed of only as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient fully to pay or redeem at or prior to maturity all the Bonds Outstanding. The proceeds from such sale, mortgage, lease or other disposition of the System shall immediately be remitted to the Commission for deposit, on a pro rata basis, in the Series 1999 A Sinking Fund and the sinking funds established for any Prior Bonds then Outstanding, and the Issuer shall direct the Commission to apply such proceeds to the payment of principal and any interest, if any, at maturity of Bonds and Prior Bonds about to mature and to the redemption prior to maturity, at the earliest date permitted hereby and at the redemption price, of all other Outstanding Bonds and Prior Bonds. Any balance remaining after the redemption or payment of all the Bonds and Prior Bonds and the interest, if any, thereon shall be remitted to the Issuer by the Commission, unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding and, for so long as any of the Prior Bonds are Outstanding, to the extent the Prior Resolutions authorizing such Prior Bonds do not establish more restrictive provisions and limitations, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. The Governing Body may then, if it be so advised, as evidenced by certificates of the Consulting Engineers, by resolution duly adopted, approve and concur in such finding and provide for the sale of such property if the amount to be received therefor is not in excess of ten thousand dollars ($10,000),or authorize such sale, lease or other disposition of such property, upon public bidding, if the amount to be received therefor is in excess of ten thousand dollars ($10,000) but not in excess of one hundred thousand dollars ($100,000). The proceeds of any such sale, lease or other

disposition of such property, not in excess of $100,000, shall be deposited in the Renewal and Replacement Fund. The proceeds derived from any such sale, lease or other disposition of such property, in excess of $10,000 and not in excess of $100,000, shall be remitted by the Issuer to the Commission for deposit, or a pro rata basis, in the Series 1999 A Sinking Fund, the sinking funds for the Prior Bonds then Outstanding, and shall be applied only to the redemption of Bonds and Prior Bonds of the last maturities then Outstanding or to the purchase of Bonds and Prior Bonds of the last maturities then Outstanding at prices not greater than the redemption price of such Bonds and Prior Bonds. Such payments of such proceeds into the Series 1999 A Sinking Fund, the sinking funds for the Prior Bonds then Outstanding, and the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said funds by other provisions of this Resolution.

No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom shall be in excess of two hundred thousand dollars ($200,000) and be insufficient to pay or redeem, prior to maturity, all the Bonds then Outstanding, without the prior approval and consent in writing of the owners, or their duly authorized representatives, of sixty-six and two-thirds percent (66-2/3%) in amount of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then owners of the Bonds, for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.07. Issuance of Other Obligations Payable out of Revenues and General Covenant Against Encumbrances. The Issuer shall not issue any other obligations whatsoever, except pari passu additional Bonds provided for in Section 7.08 hereof, payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bonds; provided, however, that additional Parity Bonds may be issued as provided in Section 7.08 hereafter. All obligations hereafter issued by the Issuer payable from the revenues of the System, except such additional Parity Bonds, shall contain an express statement that such obligations are junior and subordinate as to lien on and source of and security for payment from such revenues and in all other respects to the Bonds to the extent such are Outstanding; provided, that no such subordinate obligations shall be issued unless all payments required to be made into the Series 1999 A Reserve Account and the Renewal and Replacement Fund, at the time of the issuance of such subordinate obligations, have been made and are current.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or, except with respect to said pari passu additional Bonds, being on a parity with the lien of the Bonds, and the interest thereon, upon any of the income and revenues of the System pledged for payment of the Bonds and the interest thereon in this Resolution or upon the System or any part thereof.

The Issuer shall give the Authority and the DEP prior written notice of its issuance of any other obligations to be used for the Project, payable from the revenues of the

System or from any grants for the Project, or any other obligations related to the Project or the System.

Section 7.08. Parity Bonds. No Parity Bonds payable out of the revenues of the System shall be issued after the issuance of any Bonds pursuant to this Resolution, except under the conditions and in the manner herein provided and with the prior written consent of DEP and the Authority.

No Parity Bonds shall be issued, except for the purpose of financing the costs of the acquisition or construction of extensions, additions, betterments or improvements to the System or refunding the entirety of one or more issues or series of bonds or both such purposes.

No Parity Bonds shall be issued at any time, however, unless and until there has been procured and filed with the Secretary a written statement by Independent Accountants, based upon the necessary investigation and certification by the Consulting Engineers, reciting the conclusion that the net revenues actually derived, subject to the adjustments hereinafter provided, from the System during any twelve (12) consecutive months within the eighteen (18) months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual net revenues to be received in each of the three (3) succeeding years after the completion of the improvements to be financed by such additional Parity Bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on the following:

(1) Each series of Original Bonds and Prior Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual net revenues to be received in each of the three (3) succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased net revenues estimated to be derived from any increase in rates enacted by the Issuer, the time for appeal of which shall have expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Consulting Engineers, which shall be filed in the office of the Secretary prior to the issuance of such additional Parity Bonds.

The Net Revenues actually derived from the System during the twelve (12) consecutive month period hereinabove referred to may be adjusted by adding to such net revenues such additional net revenues which would have been received, in the opinion of the Consulting Engineers and the Independent Accountants as stated in a certificate jointly made and signed by the Consulting Engineers and the Independent Accountants, on account of

increased rates, rentals, fees and charges for the System enacted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

Not later than simultaneously with the delivery of such Parity Bonds, the Issuer shall have entered into written contracts for the immediate acquisition or construction of such extensions, additions, betterments or improvements to the System which are to be financed by such Parity Bonds.

All the covenants and other provisions of this Resolution (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the owners of the Original Bonds and the owners of any Parity Bonds subsequently issued, from time to time, within the limitations of and in compliance with this Section. All the Bonds, regardless of the time or times of their issuance shall rank equally with respect to their respective liens on the revenues of the System, and their respective sources of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds created in this Resolution required for and on account of such additional Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Resolution.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior lien of the Outstanding Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from the revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Bonds.

No Parity Bonds shall be issued at any time, however, unless all the payments into the respective funds and accounts provided for in this Resolution on account of the Bonds then Outstanding, and any other payments provided for in this Resolution, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Resolution.

Section 7.09. Insurance and Construction Bonds. The Issuer will carry such insurance and in such amounts as is customarily carried with respect to works and properties similar to the System, with a reputable insurance carrier or carriers, against loss or damage by fire, explosion, hurricane, earthquake, cyclone, occupancy or other hazards and risks. The Issuer will require that each of its contractors and all subcontractors maintain, during the life of the construction contract, workers' compensation coverage, public liability insurance, property damage insurance and vehicle liability insurance in amounts and on terms satisfactory to the Authority and the DEP, so long as the Authority is the Owner of the Bonds. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) on a one hundred percent (100%) basis (completed value form) on the insurable portion of the Project, to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their

interests may appear, in accordance with the Loan Agreement, during construction of the Project in the full insurable value thereof. In time of war, the Issuer shall also carry in said amount such insurance as may be available against loss or damage by the risks and hazards of war. The proceeds of all such insurance policies shall be disposed of as provided in the Resolution and otherwise shall be placed in the Renewal and Replacement Fund and used only for the repair and restoration of the damaged or destroyed properties or for the other purposes provided herein for said Renewal and Replacement Fund. The Issuer shall also carry liability insurance for damage or injury to persons or property in amounts adequate for such purposes and customarily carried with respect to works and properties similar to the System. The Issuer shall carry such other insurance as is required by the Authority and DEP and as set forth in the Loan Agreement, including but not limited to flood insurance and business interruption insurance, to the extent available at reasonable cost to the Issuer.

The Issuer shall require all contractors engaged in the construction of the Project to furnish a performance bond and a payment bond, each in an amount equal to 100% of the contract price of the portion of the Project covered by the particular contract, as security for the faithful performance of such contract.

Section 7.10. Consulting Engineers. The Issuer shall provide and maintain competent and adequate resident engineering services satisfactory to the Authority and the DEP covering the supervision and inspection of the development and construction of the Project and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers. Such resident engineer shall certify to the Authority, the DEP and the Issuer, at the completion of construction, that construction is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies. The Issuer shall require the Consulting Engineers to submit Recipient As-Built Plans, as defined in the SRF Regulations, to it within 60 days of the completion of the Project. The Issuer shall notify the DEP in writing of such receipt. The Issuer shall submit a Performance Certificate, the form of which is attached as Exhibit A to the Loan Agreement and is incorporated herein by reference, to the DEP within 60 days of the end of the first year after the Project is completed.

The Issuer shall require the Consulting Engineers to submit the final Operation and Maintenance Manual, as defined in the SRF Regulations, to the DEP when the Project is 90% completed. The Issuer agrees that it will, at all times, provide operation and maintenance of the System to comply with any and all State and federal standards. The Issuer agrees that qualified operating personnel, properly certified by the State, will be employed before the Project is 25% complete and agrees that it will retain such a certified operator(s) to operate the System during the entire term of the Loan Agreement. The Issuer shall notify the DEP in writing of the certified operator employed at the 25% completion stage.

The Issuer agrees that qualified operating personnel, properly certified by the State, will be retained to operate the System during the entire term of the Loan Agreement.

Section 7.11. Compliance With Loan Agreement, Rules and Regulations. The Issuer hereby covenants and agrees to perform and satisfy all terms and conditions of the Loan Agreement and to comply with all applicable laws, rules and regulations issued by the Authority, the DEP or other State, federal or local bodies in regard to the construction of the Project and operation, maintenance and use of the System. Notwithstanding anything herein to the contrary, the Issuer will provide the DEP with copies of all documents submitted to the Authority.

Section 7.12. No Free Services. Except as provided by law, the Issuer will not render or cause to be rendered any free services, of any nature, by its System; and, in the event the Issuer or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or himself or herself of the facilities or services provided by the System or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. Such charges shall be paid as they accrue, and the Issuer shall transfer from its general funds sufficient sums to pay such charges for service to any of its departments or properties. The revenues so received shall be deemed to be revenues derived from the operation of the System and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rates, rentals or other charges for the services and facilities of the System and take all steps, actions and proceedings for the enforcement and collection of such fees, rates, rentals or other charges that shall become delinquent to the full extent permitted or authorized by the laws of the State of West Virginia. All such rates and charges, if not paid when due, shall become a lien on the premises served by the System.

Whenever any rates, rentals or charges for the services or facilities of the System shall remain unpaid for a period of thirty (30) days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all such rates and charges are fully paid. The Issuer further covenants and agrees that it will, to the full extent permitted by law, and any rules and regulations promulgated by the PSC applicable thereto, discontinue and shut off the services and facilities of the System to all delinquent users of the services and facilities of the System, and will not restore the services and facilities of the System to all delinquent users until all delinquent charges, plus reasonable interest penalty charges for the restoration of service, have been fully paid.

Section 7.14. No Competing Franchise. To the extent allowable by law, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation or body, or agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.15. Books, Records and Facilities. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the costs of acquiring,

constructing and installing the Project. The Issuer shall permit the Authority and the DEP, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System, at all reasonable times, for the purpose of audit and examination. The Issuer shall submit to the Authority and the DEP such documents and information as they may reasonably require in connection with the acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the Loan Agreement or Grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the DEP, or their agents and representatives, to inspect all records pertaining to the operation of the System, at all reasonable times, following completion of construction of the Project and commencement of operation thereof, or, if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any owner of a Bond or Bonds issued pursuant to the Resolution shall have the right, at all reasonable times, to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow currently accepted accounting practices in accordance with the rules and regulations of the PSC and the Act. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner, on the forms, in the books, and along with other bookkeeping records as prescribed by the Issuer. The Issuer shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Issuer shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Consulting Engineers and the Authority and DEP, and shall mail in each year to any owner or owners of Bonds requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Resolution with respect to said Bonds and the status of all said funds and accounts.

(C) The amount of any Bonds or other obligations Outstanding and secured by a lien on the Net Revenues of the System.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be completely audited by Independent Accountants in compliance with the applicable OMB Circular, or any successors thereto, and the Single Audit Act, or any successors thereto, and shall mail upon request, and make available generally, the report of said Independent Accountants, or a summary thereof, to any owner or owners of Bonds issued pursuant to this Resolution, and shall submit said report to the Authority, the Infrastructure Council and the DEP. The report of said audit shall include a statement that the Issuer is in compliance with the terms and provisions of the Act and the Loan Agreement and that the Issuer's revenues are adequate to meet its operation and maintenance expenses and debt service requirements.

The Issuer shall, commencing on the date contracts are executed for the construction of the Project and for two years following the completion of the Project, each month complete a Monthly Financial Report and forward a copy by the 10th of each month to the Authority and the DEP.

The Issuer shall, during construction of the Project, complete Payment Requisition Forms, the form of which is attached to the Loan Agreement as Exhibit C and is incorporated herein by reference, and forward a copy to the DEP in compliance with the Issuer's construction schedule.

The Issuer shall provide the DEP with all appropriate documentation to comply with any special conditions established by federal and/or state regulations as set forth in Exhibit E of the Loan Agreement or as promulgated from time to time.

The Issuer shall permit the Authority or the DEP, or their agents and representatives, to enter and inspect the Project site and Project facilities at all reasonable times. Prior to, during and after completion of construction of the Project, the Issuer shall also provide the Authority and the DEP, or their agents and representatives, with access to the System site and System facilities as may be reasonably necessary to accomplish all of the powers and rights of the Authority and the DEP with respect to the System pursuant to the Act.

Section 7.16. Operating Budget. The Issuer shall, annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority and the DEP within thirty days of the adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by the Consulting Engineers, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Governing Body shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made, except

upon the further certificate of the Consulting Engineers that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Authority and to any Holder of any Bonds who shall file his address with the Issuer and request in writing that copies of all such budgets and resolutions be furnished him and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to any Holder of any Bonds or anyone acting for and in behalf of such Holder of any Bonds.

Section 7.17. Mandatory Connection. The mandatory use of the System is essential and necessary to protect and preserve the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Bureau for Public Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the PSC shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matter from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Bureau for Public Health and such house, dwelling or building can be adequately served by the System, and every such owner, tenant or occupant shall, after a 30 day notice of the availability of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer and a public nuisance, which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.18. Statutory Mortgage Lien. For the further protection of the Bondholders, a statutory mortgage lien upon the System is granted and created by the Bond Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon delivery of the Bonds and shall be for the benefit of all Owners of the Bonds.

Section 7.19. PSC Order. The Issuer shall comply with the conditions of the PSC Order and any supplement or amendment thereto.

Section 7.20. Covenant to Amend Resolution. The Issuer retains the right to make any amendments, insertions or deletions by Supplemental Resolution of this Resolution as the Issuer deems necessary prior to the issuance of the Bonds to meet the requirements of the Authority.

Section 7.21. Compensation of the Issuer. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body of the Issuer in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is a default in the performance of or compliance with any covenants or provision hereof.

Section 7.22. Securities Law Compliance. The Issuer will provide the Authority, in a timely manner, with any and all information that may be requested of it (including its annual audit report, financial statements, related information and notices of changes in usage and customer base) so that the Authority may comply with the provisions of SEC Rule 15c2-12 (17 CFR Part 240).

ARTICLE VIII

INVESTMENT OF FUNDS

Section 8.01. Investments. Any moneys held as a part of the funds and accounts created by this Resolution, other than the Revenue Fund, shall be invested and reinvested by the Commission or the Depository Bank, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Resolution, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Except as specifically provided herein, any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, including but not limited to those in the Bond Construction Trust Fund, and used for the purpose of such fund or account. The interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the Owner, including the value of accrued interest and giving effect to the amortization of discount and investments in the "consolidated fund" of the West Virginia Investment Management Board shall be valued at par. The Commission or the Depository Bank, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. Such Depository Bank may make any and all investments permitted by this Section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

Notwithstanding the foregoing, any investments made pursuant to this Resolution shall comply with the guidelines of the Authority.

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Bonds:

(A) If default occurs in the due and punctual payment of the principal of or interest on any series of Original Bonds; or

(B) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to such Bonds set forth in this Resolution, any supplemental Resolution, or in such Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by any bank or banking association holding any fund or account hereunder or an owner of such Bonds; or

(C) If a default occurs under the Prior Resolutions; or

(D) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default with respect to any Bonds, any Registered Owner of such Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his or her rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding, enforce all rights of such registered Owners, including the right to require the Issuer to perform its duties under the Act and the Resolution relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon such Bonds, (iv) by action at law or bill in equity, require the Issuer to account as if it were the trustee of an express trust for the registered Owners of such Bonds, and (v) by action or bill in equity, enjoin any acts in violation of the Resolution with respect to such Bonds, or the rights of such registered Owners; provided that all rights and remedies of the Registered Owners shall be subject to and parity with those of the Registered Owners of the Prior Bonds..

Section 9.03. Appointment of Receiver. Any Bondholder may, by proper legal action, compel the performance of the duties of the Issuer under the Resolution and the Act, including the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any default in the payment of interest on any Bonds when the same shall become due, or in the payment of the principal of any Bond or Bonds, either at the specified date of maturity thereof or at a date set for redemption thereof, or otherwise in the performance of any

covenant contained in the Resolution other than as to such payment and such default shall continue for a period of thirty (30) days after written notice to the Issuer of such default, any Bondholder shall, in addition to all other remedies or rights, have the right, by appropriate legal proceedings, to obtain the appointment of a receiver to administer the System on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of the Bonds and any interest thereon, the deposits into the funds and accounts hereby established as herein provided and the payment of Operating Expenses of the System and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of the Resolution and the Act.

The receiver so appointed shall forthwith, directly or by his agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate, maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might do.

Whenever all that is due upon the Bonds issued pursuant to the Resolution and interest thereon and under any covenants of the Resolution for reserve, sinking or other funds and upon any other obligations and interest thereon having a charge, lien or encumbrance upon the revenues of the System shall have been paid and made good, and all defaults under the provisions of this Resolution shall have been cured and made good, possession of the System shall be surrendered to the Issuer upon the entry of an order of the court to that effect. Upon any subsequent default, any owner of Bonds issued pursuant to this Resolution shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him or her, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby and a successor receiver appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Owners of Bonds issued pursuant to the Resolution. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the possession, operation and maintenance of the System, for the sole purpose of the protection of both the Issuer and Bondholders, and the curing and making good of any default under the provisions of the Resolution, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, mortgage or otherwise dispose of any assets of the System.

ARTICLE X

DEFEASANCE

Section 10.01. Defeasance of Bonds. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Owners of all Bonds the principal thereof, and redemption premium, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in the Resolution, then the pledge of Net Revenues and any other moneys and securities pledged under this Resolution and all covenants, agreements and other obligations of the Issuer to the Bondholders shall thereupon cease, terminate and become void and be discharged and satisfied.

Bonds for the payment of which either moneys in an amount which shall be sufficient, or securities the principal of and the interest on which, when due, will provide moneys which, together with the moneys, if any, deposited with the Paying Agent at the same or earlier time, shall be sufficient to pay, as and when due, the principal of and interest on the Bonds shall be deemed to have been paid within the meaning and with the effect expressed in the first paragraph of this Section. All Bonds shall, prior to the maturity thereof, be deemed to have been paid within the meaning and with the effect expressed in the first paragraph of this section if there shall have been deposited with the Commission or its agents, either moneys in an amount which shall be sufficient, or securities the principal of and the interest on which, when due, will provide moneys which, together with other moneys, if any, deposited with the Commission at the same time, shall be sufficient to pay when due the principal installments and interest due and to become due on said Bonds on and prior to the maturity dates thereof. Neither securities nor moneys deposited with the Commission pursuant to this Section nor principal or interest payments on any such securities shall be withdrawn or used for any purposes other than, and shall be held in trust for, the payment of the principal of and redemption premium, if applicable, on and interest on said Bonds; provided, that any cash received from such principal or interest payments on such securities deposited with the Commission, if not then needed for such purpose, shall, to the extent practicable, be reinvested in securities maturing at times and in amounts sufficient to pay when due the principal of and redemption premium, if applicable, on and interest to become due on said Bonds on and prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the Issuer, as received by the Commission, free and clear of any trust, lien or pledge. For the purpose of this Section, securities shall mean and include only Government Obligations.

ARTICLE XI

MISCELLANEOUS

Section 11.01. Modification or Amendment. No material modification or amendment of this Resolution or of any resolution amendatory hereof or supplemental hereto which would materially and adversely affect the rights of Bondholders shall be made without the consent in writing of the owners of two-thirds (2/3) or more in principal amount of the Bonds then Outstanding and to be affected by said modification; provided, however, that no change shall be made in the maturity of any Bond or the rates of interest, if any, thereon, or in the principal amount thereof, or affecting the unconditional promise of the Issuer to pay such principal and interest, if any, as provided in this Resolution without the consent of the owner thereof. No amendment or modification shall be made which would reduce the percentage of the principal amount of Bonds required for consent to the above permitted amendments or modifications.

Section 11.02. Severability of Invalid Provisions. If any section, paragraph, clause or provision of this Resolution shall be held invalid, such invalidity shall not affect any of the remaining provisions of this Resolution.

Section 11.03. Table of Contents and Headings. The Table of Contents and the headings of the articles, sections and subsections hereof are for convenience only and shall neither control nor affect in any way the meaning or construction of any of the provisions hereof.

Section 11.04. Repeal of Conflicting Resolutions. All resolutions, resolutions and orders, or parts thereof, in conflict with this Resolution are, to the extent of such conflict, repealed.

Section 11.05. Covenant of Due Procedure. The Issuer covenants that all acts, conditions, things and procedures required to exist, to happen, to be performed or to be taken precedent to and in the final enactment and passage of this Resolution do exist, have happened, have been performed and have been taken in regular and due time, form and manner as required by and in full compliance with the laws and Constitution of the State of West Virginia applicable thereto; and that the Chairperson, the Secretary and members of the Governing Body were at all times when any actions in connection with this Resolution occurred, and are, duly in office and duly qualified for such office.

Section 11.06. Effective Date. This Resolution shall take effect immediately upon its adoption.

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Resolution") is adopted pursuant to the provisions of Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia of 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Chelyan Public Service District (the "Issuer") is a public service district, public corporation and political subdivision duly created under the laws of the State of West Virginia in Kanawha County.

B. The Issuer presently owns and operates a public sewer system. However, it is deemed necessary and desirable for the health and welfare of the inhabitants of the Issuer and surrounding areas that there be acquired and constructed certain additions, betterments, improvements and extensions to the existing sewer system of the Issuer, consisting of approximately 27,700 LF of 8", 6,500 LF of 6", 5,100 LF of 4" gravity sewers, 10 grinder pump stations, 5 lift stations, 188 manholes, 45 cleanouts, 10,500 LF of 6" force main, 4,000 LF of 4" force main, 6,200 LF of 3" force main, 1,400 LF of 1 1/2" force main, 50 LF of 1 1/4" force main, 13 air relief valves, a telemetry system, an expansion of the existing wastewater treatment plant from 0.815 mgd to 1.63 mgd capacity, two 37,510 gallon aeration tanks, two 83,600 gallon contact stabilization tanks, two 47,000 gallon clarifies, an ultraviolet disinfection unit, a garage building, and all other necessary appurtenances to serve certain areas of Giles, Ohley, Eskdale and Leewood in Kanawha County(collectively, the "Project") which constitute properties for the

collection and/or transportation, purification and disposal of liquid or solid wastes, sewage or industrial wastes (the existing and proposed sewer facilities of the Issuer, the Project and any further additions thereto or extensions thereof are herein called the "System"), in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications are on file with the Issuer.

C. The Issuer has outstanding its Sewerage System Revenue Bonds, Series 1994 A, dated April 22, 1994, issued in the original principal amount of $1,023,500, Sewerage System Revenue Bonds, Series 1994 B, dated April 22, 1994, issued in the original principal amount of $175,276, Sewerage System Revenue Bonds, Series 1995 A, dated June 29, 1995, issued in the original principal amount of $634,000, and Sewerage System Revenue Bonds, Series 1999 A (West Virginia SRF Extended Bond Purchase Program), dated July 15, 1999, issued in the original principal amount of $2,518,000 (collectively the "Prior Bonds"), which were issued by resolutions duly adopted by the Issuer on April 18, 1994, June 28, 1995, and July 8, 1999, respectively (collectively, the "Prior Resolutions").

Prior to the issuance of the Bond, the Issuer will obtain (i) the certificate of an Independent Certified Public Accountant stating that the coverage and parity tests of the Prior Bonds are met and (ii) the written consent of the Holders of the Prior Bonds to the issuance of the Bond on parity with the Prior Bonds. Other than the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer that are secured by revenues or assets of the System. The Issuer is in compliance with all the covenants of the Prior Bonds and the Prior Resolutions.

Prior to or on the date of issuance of the Bond, the Issuer will pay in full the entire outstanding principal of its Sewer System Design Notes, Series 1998, dated July 10, 1998, issued in the original aggregate principal amount of $90,000, and its Sewerage System Revenue Bonds, Series 1979, dated September 13, 1979, issued in the original aggregate principal amount of $822,100, with proceeds of the Bond or other available funds of the Issuer.

D. In accordance with Section 3 of the Act, the System will be under the supervision and control of the Public Service Board of the Issuer (the "Board").

E. The Bond shall be sold to the Authority, pursuant to the terms and conditions of the Loan Agreement. If not so authorized by previous resolution, the Chairperson is specifically authorized and directed to execute the Loan Agreement in substantially the form attached hereto as "Exhibit A" and made a part hereof, with such changes, insertions and omissions as may be approved by the Chairperson, the execution of which shall be conclusive evidence of such approval, and the Secretary is directed to affix the seal of the Issuer, attest the same and deliver the Loan Agreement to the Council and the Authority, and any such prior execution and delivery is hereby authorized, ratified and approved. The Loan Agreement, including all schedules and exhibits attached thereto, as the same may be amended and/or supplemented, and the terms and provisions thereof, are herein incorporated by reference thereto.

Section 3.10. Filing of Amended Schedule. Upon completion of the acquisition, construction and equipping of the Project, the Issuer will file with the Authority and the Council a schedule, the form of which shall be provided by the Council, setting forth the actual costs of the acquisition, construction and equipping of the Project and sources of funds thereof.

ARTICLE IV

FUNDS AND ACCOUNTS; SYSTEM REVENUES AND APPLICATION THEREOF

Section 4.01. Establishment of Funds and Accounts with the Depository Bank. The following special funds or accounts are created or continued and shall be held by the Depository Bank separate and apart from all other funds or accounts of the Depository Bank and from each other:

(1) Revenue Fund;

(2) Renewal and Replacement Fund; and

(3) Project Account.

Section 4.02. Establishment of Funds and Accounts with Commission. The following special funds or accounts are hereby created with the Commission:

(1) Series 2002 Bond Sinking Fund;

(a) Within the Series 2002 Bond Sinking Fund, the Series 2002 Bond Reserve Account.

Section 4.03. System Revenues; Flow of Funds.

A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the Revenue Fund established herein. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct from

all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided.

(1) The Issuer shall, on the first day of each month, transfer from the Revenue Fund an amount necessary and sufficient to pay current Operating Expenses.

(2) The Issuer shall next, each month, from the moneys in the Revenue Fund, make the interest payments on the Prior Bonds in the amounts and on the dates required by the Prior Resolutions.

(3) The Issuer shall next, each month, from the moneys in the Revenue Fund, (i) make the principal payments on the Prior Bonds in the amounts and on the dates required by the Prior Resolutions and (ii) on the first day of each month, beginning three (3) months prior to the first date of payment of principal of the Bond, as set forth in Schedule Y to the Loan Agreement, remit to the Commission for deposit in the Series 2002 Bond Sinking Fund, an amount equal to one-third (1/3) of the amount of principal which will mature and become due on the Bond on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 2002 Bond Sinking Fund and the next quarterly principal payment date is less than four (4) months, then such monthly payments shall be increased proportionately to provide, one (1) month prior to the next quarterly principal payment date, the required amount of principal coming due on such date.

(4) The Issuer shall next, each month, from the moneys in the Revenue Fund, (i) make the reserve account payments for the Prior Bonds in the amounts and on the dates required by the Prior Resolutions, and (ii) on the first day of each month, commencing three (3) months prior to the first date of payment of principal of the Bond, if not fully funded upon issuance of the Bond, remit to the Commission for deposit into the Series 2002 Bond Reserve Account, an amount equal to 1/120 of the Series 2002 Bond Reserve Requirement; provided, that no further payments shall be made into the Series 2002 Bond Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 2002 Bond Reserve Requirement.

(5) The Issuer shall next, each month, from the moneys remaining in the Revenue Fund, transfer to the Renewal and Replacement Fund, a sum equal to 2 1/2% of the Gross Revenues each month (as previously set forth in the Prior Resolutions and not in addition thereto), exclusive of any payments for account of any reserve account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in any Reserve Account, except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof, shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

With respect to the payments made by the Issuer under Section 4.03A (3) through (4) above which relate to the Bond, the Issuer shall complete the Monthly Payment Form attached to the Loan Agreement and submit a copy of said form and the check or checks representing such payments to the Authority by the 5th day of such calendar month.

Principal, interest or reserve payments, whether made for a deficiency or otherwise, shall be made on a parity and prorata, with respect to the Bond and the Prior Bonds, in accordance with the respective principal amounts then Outstanding.

Moneys in the Series 2002 Bond Sinking Fund shall be used only for the purpose of paying principal of and interest, if any, on the Bond, as the same shall become due. Moneys in the Series 2002 Bond Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the Bond, as the same shall come due, when other moneys in the Series 2002 Bond Sinking Fund are insufficient therefor, and for no other purpose.

All investment earnings on moneys in the Series 2002 Bond Sinking Fund and Series 2002 Bond Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall, during acquisition, construction and equipping of the Project, be deposited in the Project Account, and following completion of acquisition, construction and equipping of the Project shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payments, if any, due on the Bond, and then to the next ensuing principal payments due thereon.

Any withdrawals from the Series 2002 Bond Reserve Account that result in a reduction in the balance of the Series 2002 Bond Reserve Account to below the Series 2002 Bond Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full to the Series 2002 Bond Sinking Fund for payment of debt service on the Bond.

As and when additional bonds ranking on a parity with the Bond are issued, provision shall be made for additional payments into the respective Sinking Fund sufficient to pay the interest on such additional parity bonds and accomplish retirement thereof at maturity and to accumulate a balance in the respective Reserve Account in an amount equal to the requirement therefor.

The Issuer shall not be required to make any further payments into the Series 2002 Bond Sinking Fund or into the Series 2002 Bond Reserve Account therein when the aggregate amount of funds in said Series 2002 Bond Sinking Fund and Series 2002 Bond Reserve Account are at least equal to the aggregate principal amount of the Bond issued pursuant to this Resolution then Outstanding and all interest, if any, to accrue until the maturity thereof.

The Commission is hereby designated as the fiscal agent for the administration of the Series 2002 Bond Sinking Fund and the Series 2002 Bond Reserve Account created hereunder, and all amounts required for said accounts shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein. If required by the Authority, the Issuer shall make the necessary arrangements whereby required payments into such accounts shall be automatically

debited from the Revenue Fund and electronically transferred to the Commission on the dates hereof.

Moneys in the Series 2002 Bond Sinking Fund and the Series 2002 Bond Reserve Account shall be invested and reinvested by the Commission in accordance with Section 7.01 hereof.

The Series 2002 Bond Sinking Fund, including the Series 2002 Bond Reserve Account therein, shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Bond Outstanding under the conditions and restrictions set forth herein.

B. The Issuer shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required interest, principal and reserve account payments, and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of the Resolution. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

C. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in said Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into such funds during the following month or such other period as required by law, such excess shall be considered Surplus Revenues. Such Surplus Revenues may be used for any lawful purposes of the Issuer.

D. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as the Commission, the Registrar, the Paying Agent or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay the Commission's fees, the Registrar's fees, the Paying Agent's fees and the Depository Bank's charges then due.

E. The City National Bank of West Virginia is hereby designated as the Bond Registrar for the Bond and as the Depository Bank. The Commission is hereby designated as Paying Agent for the Bond.

F. The moneys in excess of the sum insured by the maximum amounts insured by FDIC held by the Depository Bank shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 4.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited. If requested in writing by the Authority and the Council, all remittances may be made by electronic transfer or automatic debit.

I. The Gross Revenues of the System shall only be used for purposes of the System.

J. All Tap Fees shall be deposited by the Issuer, as received, in the Project Account, and following completion of the Project, shall be deposited in the Revenue Fund and may be used for any lawful purpose of the System.

ARTICLE V

BOND PROCEEDS; DISBURSEMENTS

Section 5.01. Application of Bond Proceeds. From the moneys received from time to time from the sale of any or all of the Bond, the following amounts shall be first deducted and deposited in the order set forth below:

A. From the proceeds of the Bond, there shall be deposited with the Commission in the Series 2002 Bond Reserve Account the sum, if any, required hereunder for funding the Series 2002 Bond Reserve Account.

B. The remaining moneys derived from the sale of the Bond shall be deposited by the Issuer as received from time to time in the Project Account established hereunder.

C. The Depository Bank shall comply with all requirements with respect to the disposition of the Project Account set forth in this Resolution. Moneys in the Project Account shall be used solely to pay Costs of the Project and, until so transferred or expended, are hereby pledged as additional security for the Bond.

Section 5.02. Disbursements from the Project Account. The Issuer shall each month provide the Council with a requisition for the costs incurred for the Project, together with such documentation as the Council shall require. Payments for Costs of the Project shall be made monthly.

Except as provided in Section 5.01 hereof, disbursements from the Project Account shall be made only after submission to and approval from the Authority and the Council of the following:

(1) a certificate, signed by an Authorized Officer and the Consulting Engineers, stating:

(A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;

(B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(C) That each of such costs has been otherwise properly incurred; and

(D) That payment for each of the items proposed is then due and owing.

In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Project Account only the net amount remaining after deduction of any such portion. All payments made from the Project Account shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Project Account. The Consulting Engineers shall from time to time file with the Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Project Account, including any accounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

After completion of the Project, as certified by the Consulting Engineers, any proceeds of the Bond remaining shall be applied as directed by the Council.

The Issuer shall expend all proceeds of the Bond within 3 years of issuance of the State's general obligation bonds, the proceeds of which were used to make the loan to the Issuer.

ARTICLE VI

ADDITIONAL COVENANTS OF THE ISSUER

Section 6.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Resolution shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Holder or Holders of the Bond. In addition to the other covenants, agreements and provisions of this Resolution, the Issuer hereby covenants and agrees with the Holder of the Bond as hereinafter provided in this Article VI. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as the Bond, or any interest thereon, is Outstanding and unpaid.

Section 6.02. Bond not to be Indebtedness of the Issuer. The Bond shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Resolution. No Holder or Holders of any Bond shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Bond or the interest, if any, thereon.

Section 6.03. Bond Secured by Pledge of Net Revenues. The payment of the debt service of the Bond issued hereunder shall be secured forthwith by a first lien on the Net Revenues derived from the operation of the System on parity with the lien of the Prior Bonds. The Net Revenues derived from the System, in an amount sufficient to pay the principal of and interest, if any, on the Bond and the Prior Bonds and to make the payments into all funds and accounts, and all other payments provided for in the Resolution are hereby irrevocably pledged, in the manner provided herein, to the payment of the principal of and interest, if any, on the Bond and the Prior Bonds as the same become due, and for the other purposes provided in the Resolution.

Section 6.04. Rates. Prior to issuance of the Bond, equitable rates or charges for the proposed and/or actual use of and service rendered by the System have been or will be established, all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. The Issuer shall take the necessary actions with respect to the imposition of rates at such times and with such provisions with respect to interest rate and maturity of the Bond to finance the issuance of the Bond as the purchaser thereof shall require. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each Fiscal Year equal to at least one hundred fifteen percent (115%) of the maximum amount required in any succeeding Fiscal Year for payment of principal of and interest, if any, on the Bond and the Prior Bonds and all other obligations secured by a lien on or payable from such revenues on parity with the Bond; provided that, in the event that an amount at least equal to or in excess of the Series 2002 Bond Reserve Requirement is on deposit in the Series 2002 Bond Reserve Account and the Reserve Accounts for obligations on parity with the Bond, including the Prior Bonds, are funded at least at the requirement therefor, such balance each Fiscal Year need only equal at least one hundred ten percent (110%) of the maximum amount required in any succeeding Fiscal Year for payment of principal of and interest, if any, on the Bond and all other obligations on parity with the Bond.

Section 6.05. Sale of the System. So long as the Prior Bonds are Outstanding, the System may not be sold, transferred, mortgaged, leased or otherwise disposed of, except in accordance with the terms of the Prior Resolutions. So long as the Bond is Outstanding and except as otherwise required by state law and with the consent of the Authority and the Council, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to pay fully all the Outstanding Bond and effectively defease this Resolution in accordance with Section 9.01 hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall, with respect to the Outstanding Bond, immediately be remitted to the Commission for deposit in the Series 2002 Bond Sinking Fund, and, with the written permission of the Authority, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of the Outstanding Bond. Any balance remaining after the

payment of all the Outstanding Bond shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property upon public bidding. The proceeds derived from any such sale, lease or other disposition of such property, aggregating during such Fiscal Year in excess of $10,000 and not in excess of $50,000, shall with the written consent of the Authority and the Council, be remitted by the Issuer to the Commission for deposit in the Series 2002 Bond Sinking Fund and shall be applied only to the purchase of Bond of the last maturities then Outstanding at prices not greater than the redemption price of such Bond. Such payment of such proceeds into the Series 2002 Bond Sinking Fund or the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said funds by other provisions of this Resolution. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bond then outstanding without the prior approval and consent in writing of the Council and the Holders, or their duly authorized representatives, of the Bond then outstanding. The Issuer shall prepare the form of such approval and consent for execution by the Council and the then Holders of the Bond for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 6.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 6.06 and in Section 6.07, the Issuer shall not issue any obligations whatsoever with a lien on or otherwise payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bond and the Prior Bonds. All obligations issued by the Issuer after the issuance of the Bond and payable from the revenues of the System, except such additional parity bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Bond and the Prior Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts set forth herein at the time of the issuance of such subordinate obligations have been made and are current.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on parity with the lien of the Bond, and the interest thereon, upon any of the income and revenues of the System pledged for payment of the Bond and the interest, if any, thereon in this Resolution, or upon the System or any part thereof.

The Issuer shall give the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System payable from the revenues of the System or from any grants for the Project or any other obligations related to the Project or the System.

Section 6.07. Parity Bonds. So long as the Prior Bonds are Outstanding, no Parity Bonds shall be issued except in accordance with the terms of the Prior Resolutions. In addition, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Bond issued pursuant to this Resolution, except under the conditions and in the manner herein provided. No Parity Bonds shall be issued without the prior written consent of the Authority and the Council.

All Parity Bonds issued hereunder shall be on parity in all respects with the Bond.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the construction or acquisition of the System or extensions, improvements or betterments to the System or refunding any Outstanding Bonds issued pursuant hereto, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, based upon the necessary investigation and certification by the Consulting Engineers, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any twelve (12) consecutive months, within the eighteen (18) months immediately preceding the date of the actual issuance of such Parity Bond, plus the estimated average increased annual Net Revenues to be received in each of the three (3) succeeding years after the completion of the improvements to be financed by such Parity Bond, shall not be less than one hundred fifteen percent (115%) of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest on the following:

(1) The Prior Bonds and the Bond then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the three (3) succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from (a) the improvements to be financed by such Parity Bonds and (b) any increase in rates adopted by the Issuer, the period for

appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the twelve (12) consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Consulting Engineers and the Independent Certified Public Accountants, as stated in a certificate jointly made and signed by the Consulting Engineers and the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the period for appeal of which has expired prior to issuance of such Parity Bonds.

Not later than simultaneously with the delivery of such Parity Bonds, the Issuer shall have entered into written contracts for the immediate construction or acquisition of such additions, betterments or improvements, if any, to the System that are to be financed by such Parity Bonds.

All covenants and other provisions of this Resolution (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holder of the Bond and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. Any Parity Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bonds of one series over any other Bonds of the same series. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Resolution required for and on account of such Parity Bonds, in addition to the payments required for the Bond theretofore issued pursuant to this Resolution.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Bond on such revenues. The Issuer shall not issue any obligations whatsoever payable from the revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Bond.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Resolution with respect to the Bonds then outstanding, and any other payments provided for in this Resolution, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Resolution.

Section 6.08. Books, Records and Audit. The Issuer shall keep complete and accurate records of the costs of acquisition, construction and equipping the System, acquiring the Project site and acquiring, constructing and installing the Project. The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the Authority and the Council such documents and

information as it may reasonably require in connection with the acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the acquisition, construction, equipping, operation and maintenance of the System at all reasonable times following completion of acquisition, construction and equipping of the Project and commencement of operation thereof, or, if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer shall keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any owner of the Bond issued pursuant to the Resolution shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the Public Service Commission of West Virginia. The Issuer shall maintain separate control accounting records. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system that may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Council and the Authority, or any other original purchaser of the Bond, and shall mail in each year to any Holder or Holders of Bond requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Resolution with respect to said Bond and the status of all said funds and accounts.

(C) The amount of any Outstanding Bond or other obligations outstanding and secured by a lien on the Net Revenues of the System.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants, in compliance with the applicable OMB Circular, or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and make available generally, the report of said Independent Certified Public Accountants, or a summary thereof, to any Holder or

Holders of Bond and shall submit said report to the Council and the Authority, or any other original purchaser of the Bond. Such audit report submitted to the Authority and the Council shall include a statement that the Issuer is in compliance with the terms and provisions of the Loan Agreement and this Resolution and the Act and that Gross Revenues are adequate to meet Operating Expenses and debt service and reserve requirements.

Commencing on the date contracts are executed for the acquisition, construction and equipping of the Project and for two (2) years following the completion of the Project, the Issuer shall each month complete a Monthly Financial Report, the form of which is attached to the Loan Agreement and made a part hereof, and forward a copy of such report by the 10th of each month to the Authority and the Council.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to enter and inspect the Project site and Project facilities at all reasonable times. Prior to, during and after completion of acquisition, construction and equipping of the Project and commencement of operation thereof, the Issuer shall also provide the Authority and the Council, or their agents and representatives, with access to the System site and System facilities as may be reasonably necessary to accomplish all of the powers and rights of the Authority and the Council with respect to the System pursuant to the Act.

Subject to the terms, conditions and provisions of the Loan Agreement and the Act, the Issuer has acquired, or shall take all steps necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

Section 6.09. Operating Budget. The Issuer shall annually, at least forty-five (45) days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority and the Council within thirty (30) days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by the Consulting Engineers, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of ten percent (10%) of the amount of such budget shall be made except upon the further certificate of the Consulting Engineers that such increased expenditures are necessary for the continued operation of the System. Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of thirty (30) days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all such rates and charges are fully paid. Section 6.16. Completion and Operation of Project; Permits and Orders. The Issuer will complete the Project as promptly as possible and operate and maintain the System as a revenue-producing utility in good condition and in compliance with all applicable laws, rules and regulations issued by the Council, the Authority or other State, federal or local bodies in regard to the construction of the Project and operation, maintenance and use of the System.

B. PRIVATE ACTIVITY BOND COVENANT. The Issuer shall not permit at any time or times any of the proceeds of the Bond or any other funds of the Issuer to be used directly or indirectly in a manner which would result in the exclusion of the Bond from the treatment afforded by Section 103(a) of the Code by reason of the classification of the Bond as a "private activity bond" within the meaning of the Code. The Issuer will take all actions necessary to comply with the Code in order to assure the tax-exempt status of the Bond.

Section 6.18. Compliance with Loan Agreement and Law. The Issuer shall perform, satisfy and comply with all the terms and conditions of the Loan Agreement and the Act. The Issuer also agrees to comply with all applicable laws, rules and regulations issued by the Authority, the Council or other State, federal or local bodies in regard to the acquisition and construction of the Project and the operation, maintenance and use of the System. Notwithstanding anything herein to the contrary, the Issuer will provide the Council with copies of all documents submitted to the Authority.

C. Section 7.01. Investments. Any moneys held as a part of the funds and accounts created by this Resolution, other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Resolution, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 7.01 and in Section 7.02.

Any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission, the Depository Bank, or such other bank or national banking association, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank, or such other bank or national banking association, as the case may be, may make any and all investments permitted by this section through its own trust department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once each year, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any Bond is outstanding.

Section 7.02. Certificate as to Use of Proceeds. The Issuer shall deliver a certificate as to use of proceeds or other similar certificate to be prepared by nationally recognized bond counsel relating to restrictions on the use of proceeds of the Bond as a condition to the issuance of the Bond. In addition, the Issuer covenants (i) to comply with the Code and all Regulations from time to time in effect and applicable to the Bond, as may be necessary in order to maintain the status of the Bond

as governmental bonds; (ii) that it shall not take, or permit or suffer to be taken, any action with respect to the Issuer's use of the proceeds of the Bond that would cause any bonds, the interest on which is exempt from federal income taxation under Section 103(a) of the Code, issued by the Authority or the Council, as the case may be, from which the proceeds of the Bond are derived, to lose their status as tax-exempt bonds; and (iii) to take any action, or refrain from taking such action, as shall be deemed necessary by the Issuer, or requested by the Authority or the Council, to ensure compliance with the covenants and agreements set forth in this Section, regardless of whether such actions may be contrary to any of the provisions of this Resolution.

The Issuer shall annually furnish to the Authority information with respect to the Issuer's use of the proceeds of the Bond and any additional information requested by the Authority.

ARTICLE VIII

DEFAULT AND REMEDIES

(1) If default occurs in the due and punctual payment of the interest on or principal of any of the Bond or the Prior Bonds; or

Section 8.03. Appointment of Receiver. Any Registered Owner of a Bond may, by proper legal action, compel the performance of the duties of the Issuer under the Resolution and the Act, including, after commencement of operation of the System, the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any Event of Default with respect to such Bond any Registered Owner of a Bond shall, in addition to all other remedies or rights, have the right by appropriate legal proceedings to obtain the appointment of a receiver to administer the System or to complete the acquisition and construction of the Project on behalf of the Issuer with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of Operating Expenses of the System, the payment of the Bond and interest and deposits into the funds and accounts hereby established, and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of this Resolution and the Act.

The receiver so appointed shall forthwith, directly or by his or her or its agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate and maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might do.

Upon any subsequent default, any Registered Owner of any Bond shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him or her or it, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby, and a successor receiver may be appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Registered Owners of the Bond. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the possession, operation and maintenance of the System for the sole purpose of the protection of both the Issuer and Registered Owner of such Bond and the curing and making good of any Event of Default with respect thereto under the provisions of this Resolution, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any

jurisdiction to enter any order or decree permitting or requiring such receiver to sell, assign, mortgage or otherwise dispose of any assets of the System.

Section 9.01. Payment of Bond. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holder of the Bond, the principal of and interest, if any, due or to become due thereon, at the times and in the manner stipulated therein and in this Resolution, then with respect to the Bond only the pledge of Net Revenues and other moneys and securities pledged under this Resolution and all covenants, agreements and other obligations of the Issuer to the Registered Owner of the Bond shall thereupon cease, terminate and become void and be discharged and satisfied.

Section 7. The Chairperson and Secretary are hereby authorized and directed to execute and deliver such other documents and certificates required or desirable in connection with the Bond hereby and by the Resolution approved and provided for, to the end that the Bond may be delivered on or about June 4, 2002, to the Authority pursuant to Loan Agreement.

Section 9. The District hereby determines to invest all moneys in the funds and accounts established by the Resolution held by the Depository Bank until expended, in money market accounts secured by a pledge of Government Obligations, and therefore, the District hereby directs the Depository Bank to take such actions as may be necessary to cause such moneys to be invested in such money market accounts until further directed in writing by the District. Moneys in the Series 2002 Bond Sinking Fund and the Series 2002 Bond Reserve Account shall be invested by the Municipal Bond Commission in the West Virginia Consolidated Fund.

Section 10. The District hereby approves and accepts all contracts relating to the financing, acquisition and construction of the Project. The District hereby approves the costs of issuance and authorizes the payment of the same.

Section 11. This Supplemental Resolution shall be effective immediately following adoption hereof.

Re: Chelyan Public Service District Sewer Revenue Bonds,
Series 2009 A (West Virginia CWSRF Program)

Ladies and Gentlemen:

We have served as bond counsel to Chelyan Public Service District ("the Issuer"), a public service district and public corporation, in connection with the issuance of its Sewer Revenue Bonds, Series 2009 A (West Virginia CWSRF Program), dated the date hereof (the "Bonds").

We have examined certified copies of proceedings and other papers relating to the authorization of (i) an ARRA assistance agreement for the Bonds dated v, 2009, including all schedules and exhibits attached thereto (the "ARRA Assistance Agreement"), by and among the Issuer, the West Virginia Water Development Authority (the "Authority") and the West Virginia Department of Environmental Protection (the "DEP"), and (ii) the Bonds to be purchased by the Authority in accordance with the provisions of the ARRA Assistance Agreement. The Bonds are issued in the principal amount of $2,761,569, in the form of one bond, registered as to principal and interest to the Authority, will bear no interest, and with principal and interest payable quarterly on March 1, June 1, September 1, and December 1 of each year, commencing June 1, 2011, all as set forth in the Schedule Y attached to the ARRA Assistance Agreement and incorporated in and made a part of the Bonds. The Bonds are subject to the SRF

Administrative Fee equal to 1% of the principal amount of the Bonds as set forth in the Schedule Y attached to the ARRA Assistance Agreement.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 22C, Article 2 of the Code of West Virginia, 1931, as amended (collectively, the "Act"), for the purposes of (i) paying the costs of acquisition and construction of certain extensions, additions, betterments and improvements to the existing public sewer facilities of the Issuer (the "Project); and (ii) paying certain costs of issuance and related costs.

We have also examined the applicable provisions of the Act and a Bond Resolution duly passed by the Issuer on November 12, 2009, as supplemented by a Supplemental Resolution duly adopted by the Issuer on December 10, 2009 (collectively, the "Bond Resolution"), pursuant to and under which Act and Bond Resolution the Bonds are authorized and issued, and the ARRA Assistance Agreement has been entered into. The Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Bond Resolution and the ARRA Assistance Agreement. All capitalized terms used herein and not otherwise defined herein shall have the same meaning set forth in the Bond Resolution and in the ARRA Assistance Agreement when used herein.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly organized and presently existing public service district, public corporation and political subdivision of the State of West Virginia, with full power and authority to acquire and construct the Project, to operate and maintain the System, to enact the Bond Resolution and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The ARRA Assistance Agreement has been duly authorized by and executed on behalf of the Issuer and is a valid and binding special obligation of the Issuer, enforceable in accordance with the terms thereof.

3. The ARRA Assistance Agreement inures to the benefit of the Authority and the DEP and cannot be amended so as to affect adversely the rights of the

Authority or the DEP or diminish the obligations of the Issuer without the written consent of the Authority and the DEP.

4. The Issuer has legally and effectively enacted the Bond Resolution and adopted all other necessary resolutions in connection with the issuance and sale of the Bonds. The Bond Resolution constitutes a valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms thereof and contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the ARRA Assistance Agreement.

5. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Prior Bonds (as that term is defined in the Bond Resolution) and Series 2009 B Bonds (as that term is defined in the Bond Resolution), all in accordance with the terms of the Bonds and the Bond Resolution.

6. Under the Act, the Bonds and any interest thereon are exempt from all taxation by the State of West Virginia, or any county, municipality, political subdivision or agency thereof.

No opinion is given herein as to the effect upon enforceability of the Bonds under any applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or in the exercise of judicial discretion or principles of equity in appropriate cases.

We have examined the executed and authenticated Bond numbered AR-1 and in our opinion, the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

Based upon the foregoing, and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district, public corporation and political subdivision of the State of West Virginia, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt the Bond Resolution and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The ARRA Assistance Agreement has been duly authorized by and executed on behalf of the Issuer, is a valid and binding special obligation of the Issuer enforceable in accordance with the terms thereof, and inures to the benefit of the Authority and the DEP and cannot be amended by the Issuer so as to affect adversely the rights of the Authority or the DEP or diminish the obligations of the Issuer without the written consent of the Authority and the DEP.

3. The Bond Resolution and all other necessary ordinances and resolutions have been duly and effectively adopted by the Issuer and constitute valid and binding obligations of the Issuer enforceable against the Issuer in accordance with their terms.

The Bond Resolution contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the ARRA Assistance Agreement.

4. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System referred to in the Bond Resolution and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment from the Net Revenues with the Issuer's Prior Bonds (as defined in the Bond Resolution), all in accordance with the terms of the Bonds and the Bond Resolution.

5. The Bonds are, under the Act, exempt from taxation by the State of West Virginia and the other taxing bodies of the State. The Bonds bear no interest.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the ARRA Assistance Agreement and the Bond Resolution, and the liens and pledges set forth therein, may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion and the application of equitable remedies in appropriate cases.

RE: Chelyan Public Service District
Sewer Revenue Bonds, Series 2009A
(West Virginia CWSRF Program),
Sewer Revenue Bonds, Series 2009B
(West Virginia CWSRF/ARRA)

Ladies and Gentlemen:

I am counsel to Chelyan Public Service District, Kanawha County, West Virginia (the "Issuer"). As such counsel, I have examined copies of the approving opinion of Jackson Kelly PLLC, as Bond Counsel, relating to the above captioned bonds of the Issuer (the "Bonds"), an ARRA assistance agreement for the Bonds, dated December 15, 2009, including all schedules and exhibits attached thereto (the "ARRA Assistance Agreement"), by and among the Issuer, the West Virginia Water Development Authority (the "Authority") and the West Virginia Department of Environmental Protection (the "DEP"), A Bond Resolution duly passed by the Issuer on November 12, 2009, as supplemented by a Supplemental Resolution duly adopted by the Issuer on December 10, 2009, (collectively, the "Bond Resolution"). All capitalized terms used herein and not otherwise defined herein shall have the same meanings set forth in the ARRA Assistance Agreement and the Bond Resolution of the Issuer when used herein.

I am of the opinion that:

1. The Issuer is a duly organized and presently existing public service district, public corporation and political subdivision of the State of West Virginia, with full power and authority to acquire and construct the Project, to operate and maintain the System and to enact the Bond Resolution, all under the Act and other applicable provisions of law.

2. The ARRA Assistance Agreement has been duly authorized, executed and delivered by the Issuer and, assuming due authorization, execution and delivery by the DEP and the Authority, constitutes valid and binding agreements of the Issuer, enforceable in accordance with the terms.

3. The Chair, Secretary and members of the Public Service Board of the Issuer have been duly, lawfully and properly elected or appointed, as applicable, have taken the requisite oaths, and are authorized to act in their respective capacities on behalf of the Issuer.

4. The Bond Resolution has been duly adopted and enacted by the Issuer and is in full force and effect.

5. The execution and delivery of the Bonds and the ARRA Assistance Agreement and the consummation of the transactions contemplated by the Bonds, the ARRA Assistance Agreement and the Bond Resolution, and the carrying out of the terms thereof, do not and will not, in any material respect, conflict with or constitute, on the part of the Issuer, a breach or default under any ordinance, resolution, order, agreement, document or instrument to which the Issuer is a party or by which the Issuer or its properties are bound or any existing law, regulation, rule, order or decree to which the Issuer is subject.

6. The Issuer has received all permits, licenses, approvals, consents, exemptions, orders, certificates and authorizations necessary for the creation and existence of the Issuer, the issuance of the Bonds, the acquisition and construction of the Project, the operation of the System and the imposition of rates and charges, including, without limitation, all requisite orders, consents, certificates and approvals from the DEP, the West Virginia Infrastructure and Jobs Development Council and the Issuer has taken any other action required for the imposition of such rates and charges, including, without limitation, the enactment of an ordinance prescribing such rates and charges.

7. The Issuer has received all orders, certificates and authorizations from the Public Service Commission of West Virginia necessary for the issuance of the Bonds, the acquisition and construction of the Project, the operation of the System and the implementation of rates and charges, and the Issuer has taken any other action required for the imposition of such rates and charges, including, without limitation, the adoption of an ordinance prescribing such rates and charges. The Issuer has received a Recommended Decision of an Administrative Law Judge dated September 2, 2009, as made final by the PSC in Case No. 09-0902-PSD-SCN on September 22, 2009, among other things, granting to the Issuer a certificate of public convenience and necessity for the Project and approving the financing for the Project. The time for appeal of such Order has expired prior to the date hereof.

8. To the best of my knowledge, there is no litigation, action, suit, proceeding or investigation at law or in equity before or by any court, public board or body, pending or threatened, wherein an unfavorable decision, ruling or finding would adversely affect the transactions contemplated by the ARRA Assistance Agreement, the Bonds and the Bond Resolution, the acquisition and construction of the Project, the operation of the System, the validity of the Bonds, the collection of the Gross Revenues or the pledge of the Net Revenues for the payment of the Bonds.

9. I will determine that all successful bidders have made the required provisions for all insurance and payment and performance bonds and such insurance policies or binders and such bonds have been verified for accuracy. Based upon my review of the contracts, the surety bonds and the policies or other evidence of insurance coverage in connection with the Project, I am of the opinion that such surety bonds and policies: (1) are in compliance with the contracts; (2) are adequate in form, substance and amount to protect the various interest of the Issuer; (3) have been executed by duly authorized representatives of the proper parties; (4) meet with requirements of the Act, the Bond Resolution and the ARRA Assistance Agreement; and (5) all such documents constitute valid and legally binding obligations of the parties thereto in accordance with the terms, conditions and provisions thereof.

10. The contracts contain language requiring the contractors to provide affidavits from all contractors and subcontractors indicating that each contractor and subcontractor have a drug free workplace policy pursuant to Chapter 21, Article 1D of the West Virginia Code of 1931, a amended. The contractor has submitted a plan to implement the drug free workplace policy prior to the awarding of the contract pursuant to Chapter 21, Article 1D of the West Virginia Code of 1931, as amended.

All counsel to this transaction may rely upon this opinion as if specifically addressed to them.

Sincerely,

H. Wyatt Hanna, III

RE: Chelyan Public Service District
Final Title Opinion

Ladies and Gentlemen:

I am counsel to Chelyan Public Service District, Kanawha County, West Virginia (the "Issuer") in connection with a proposed project to construct certain extensions, additions, betterments and improvements to the existing public sewer facilities of the Issuer (the "Project"). I provide this final title opinion on behalf of the Issuer to satisfy the requirements of the West Virginia Department of Environmental Protection (the "DEP") for the Project. Please be advised of the following:

1. I am of the opinion that the Issuer is a public service district and a public corporation duly created by the County Commission of Kanawha County, West Virginia, validly existing and possessed with all the powers and authority granted to public service districts under the laws of the State of West Virginia to construct, operate and maintain the Project as approved by the DEP.

2. The Issuer has obtained all necessary permits and approvals for the construction of the Project.

3. I have investigated and ascertained the location of, and I am familiar with the legal description of, the necessary sites, including easements and/or rights of way, required for the Project as set forth in the plans for the Project prepared by Thrasher Engineering, the consulting engineer for the Project.

4. I have examined the records on file in the Office of the Clerk of the County Commission of Kanawha County, West Virginia, the county in which the Project is to be located, and, in my opinion, the Issuer has acquired legal title or such other estate or interest in all of the necessary site components for the Project, including all easements and/or rights of way, sufficient to assure undisturbed use and possession for the purpose of construction, operation and maintenance for the estimated life of the Project, subject to the following exceptions:

   A. That certain Condemnation action filed in the Circuit Court of Kanawha County, West Virginia, by Chelyan Public Service District, a public utility, against Kathy L. Pullen, being Case No. 09-MSC-455, for Tax Map 39B, Parcel 53, Cabin Creek District, Kanawha County, West Virginia.

   B. That certain Condemnation action filed in the Circuit Court of Kanawha County, West Virginia, by Chelyan Public Service District, a public utility, against Kathy L. Pullen, being Case No. 09-MSC-454, for Tax Map 39B, Parcel 49.1, Cabin Creek District, Kanawha County, West Virginia.

   C. That certain Condemnation action filed in the Circuit Court of Kanawha County, West Virginia, by Chelyan Public Service District, a public utility, against Jeffrey S. Wells, being Case No. 09-MSC-453, for Tax Map 41, Parcel 20, Cabin Creek District, Kanawha County, West Virginia.

   D. That certain Condemnation action filed in the Circuit Court of Kanawha County, West Virginia, by Chelyan Public Service District, a public utility, against Timothy Caldwell, being Case No. 09-MSC-456, for Tax Map 40B, Parcel 36, Cabin Creek District, Kanawha County, West Virginia.

Rights of Entry have been obtained for each of these properties permitting the District an immediate entry upon each specific property so that construction of this project will not be affected.

5. All deeds, easements and rights of way which have been acquired to date by the Issuer have been duly recorded in the Office of the Clerk of the County Commission of Kanawha County to protect the legal title to and interest of the Issuer.

Sincerely,

H. Wyatt Hanna, III
