§ 16-13A-1. Legislative findings

The Legislature of the state of West Virginia hereby determines and finds that the present system of public service districts within the state has provided a valuable service at a reasonable cost to persons who would otherwise have been

unable to obtain public utility services. To further this effort, and to insure that all areas of the state are benefiting from the availability of public service district utility services and to further correct areas with health hazards, the Legislature concludes that it is in the best interest of the public to implement better management of public service district resources by expanding the ability and the authority of the public service commission to assist public service districts by offering advice and assistance in operational, financial and regulatory affairs.

In addition to the expanded powers which shall be given to the public service commission, the Legislature also concludes that it is in the best interest of the public for each county commission to review current technology available and consider consolidating existing public service districts where it is feasible and will not result in the interference with existing bond instruments. Further, if such consolidation is not feasible, the Legislature finds that it is in the best interest of the public for each county commission to review current technology available and consider consolidating or centralizing the management of public service districts within its county or multi-county area to achieve efficiency of operations. The Legislature also finds that additional guidelines should be imposed on the creation of new public service districts and that county commissions shall dissolve inactive public service districts as hereinafter provided. The Legislature also finds that the public service commission shall promulgate rules and regulations to effectuate the expanded powers given to the commission relating to public service districts.

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying water and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6,

§ 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 123(3); Statutes ⇐ 123(5)

Statute authorizing creation of public service districts violates no provision of State Constitution, nor is it violative of Fourteenth Amendment to United States Constitution. Act 1953, c. 147; U.S.C.A.Const. Amend. 14. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 4056; Municipal Corporations ⇐ 4

In statute authorizing creation of public service districts, provision for delinquent fixed rates and charges for services rendered to be lien on premises served was not unconstitutional as depriving owners of property without due process of law or as violating Fourteenth Amendment of United States Constitution or applicable provisions of State Constitution. Acts 1953, c. 147, § 1 et seq.; Const. art. 3, §§ 9, 10; U.S.C.A.Const. Amend. 14. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 4416; Municipal Corporations ⇐ 408(1)

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2355; Municipal Corporations ⇐ 4

2. In general

A public service district may be created for the purpose of furnishing water or sewer services, or both water and sewer services. Code, 16–13A–1. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 5

Creation and operation of water or sanitary districts or authorities by issuance of revenue bonds payable from revenues are authorized. Code, 16–13A–1 et seq. State ex rel. Appalachian Power Co. v. Gainer, 1965, 143 S.E.2d 351, 149 W.Va. 740. Health ⇐ 369; Waters And Water Courses ⇐ 183.5

A county court may use Federal Revenue Sharing Funds for ordinary and necessary maintenance and operating expenses for sewage disposal, sanitation, and pollution abatement, and ordinary and necessary capital expenditures authorized by law but may not use such funds for matching purposes under any other federal-aid program. 55 W.Va. Op.Atty.Gen. 116 (June 27, 1973) 1973 WL 159152.

3. Construction and application

A public service district is a public corporation and does not come within constitutional provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 80(3)

4. Eminent domain powers

Where notice, hearing and order with respect to creation of public service district considered only the question of furnishing water, such district was created only for the purposes of furnishing water services, and had no power to condemn real estate for sewerage facilities. Code, 16-13A–1, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Eminent Domain ⇐ 32

Condemnation by public service district is not a taking of private property for private use in violation of applicable constitutional provision. Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Eminent Domain ⇐ 13

5. Property of public service district

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. Acts 1953, c. 147, § 1 et seq.; Const. art. 10, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Taxation ⇐ 2289

6. Rates and charges for service

Relief under Federal Securities Act of 1933 was not adequate or sufficient remedy for relief sought by corporations holding sewer revenue bonds of public service district in mandamus proceeding to compel district to establish and collect rates for services rendered by district sufficient to provide for all operational and maintenance expenses, to pay, when due, principal and interest of revenue bonds issued by district, and to file tariff reflecting such charges with Public Service Commission, and any relief afforded under provisions of federal statute could not supersede relief which could be granted in mandamus proceeding. Securities Act of 1933, § 1 et seq., 15 U.S.C.A. § 77a et seq.; Code, 16–13A–1 et seq. State ex rel. Allstate Ins. Co. v. Union Public Service Dist., 1966, 151 S.E.2d 102, 151 W.Va. 207. Mandamus ⇐ 3(8)

Corporations holding sewer revenue bonds of public service district, a public corporation and political subdivision of state, had right by mandamus to enforce and compel district and members of the Public Service Board to establish, charge and collect rates for services rendered by district sufficient to provide for all operation-

al and maintenance expenses, to pay, when due, principal and interest of revenue bonds issued by district, and to file tariffs reflecting such charges with Public Service Commission. Code, 16–13A–1 et seq., 16–13A–9, 16–13A–10, 16–13A–13, 16–13A–17. State ex rel. Allstate Ins. Co. v. Union Public Service Dist., 1966, 151 S.E.2d 102, 151 W.Va. 207. Mandamus ⇦ 110

It was ministerial duty of chairman of public service board of public service district to sign revenue bonds and to assist in effectuating their issuance, and in view of constitutionality of statute authorizing creation of the public service board, relator's showing of legal right to require performance of such duty, was sufficient and writ of mandamus would issue. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇦ 103

7. Creation and enforcement of liens

Public service district's failure to docket notice of lien prior to date purchaser recorded deed of trust prevented district from enforcing sewer lien against purchaser. Code, 16–13A–9, 38–10C–1. McClung Investments, Inc. v. Green Valley Community Public Service Dist., 1997, 485 S.E.2d 434, 199 W.Va. 490. Municipal Corporations ⇦ 712(7)

Public service district liens must be docketed to be enforceable against purchaser of property for valuable consideration, without notice. Code, 16–13A–9, 38–10C–1. McClung Investments, Inc. v. Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations ⇦ 222; Municipal Corporations ⇦ 225(1)

8. Admissibility of evidence

Extrinsic evidence relating to background and negotiations with regard to forming a public service district were not admissible in regard to construction of a contract for furnishing of water, where contract language was clear and unambiguous that district was to furnish water as customer should require. Berkeley County Public Service Dist. v. Vitro Corp. of America, 1968, 162 S.E.2d 189, 152 W.Va. 252. Evidence ⇦ 448

9. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇦ 190

§ 16–13A–1a. Jurisdiction of the public service commission

The jurisdiction of the public service commission relating to public service districts shall be expanded to include the following powers and such powers shall be in addition to all other powers of the public service commission set forth in this code:

(a) To study, modify, approve, deny or amend the plans created under section one-b of this article for consolidation or merger of public service districts and their facilities, personnel or administration;

(b) To petition the appropriate circuit court for the removal of a public service district board member or members; and

(c) To create by general order a separate division within the public service commission to provide assistance to public service districts in technological, operational, financial and regulatory matters.

Notes of Decisions

In general 1

1. In general

Statute clearly and unambiguously gives Public Service Commission (PSC) power to reduce or increase utility rates whenever it finds that existing rate is unjust, unreasonable, insufficient, or unjustly discriminatory or otherwise in violation of any provision of legislation governing Commission. Code, 24-1-1 et seq., 24-2-3. State ex rel. Water Development Authority v. Northern Wayne County Public Service Dist., 1995, 464 S.E.2d 777, 195 W.Va. 135. Public Utilities ⇐ 123

Legislature sought to establish in Public Service Commission (PSC) governmental entity which would protect public from unfair rates and practices by public utilities and also ensure that public utilities are given competitive return for their stockholders. Code, 24-2-3. State ex rel. Water Development Authority v. Northern Wayne County Public Service Dist., 1995, 464 S.E.2d 777, 195 W.Va. 135. Public Utilities ⇐ 123; Public Utilities ⇐ 129

§ 16-13A-1b. County commissions to develop plan to create, consolidate, merge, expand or dissolve public service districts

Each county commission shall conduct a study of all public service districts which have their principal offices within its county and shall develop a plan relating to the creation, consolidation, merger, expansion or dissolution of such districts or the consolidation or merger of management and administrative services and personnel and shall present such plan to the public service commission for approval, disapproval, or modification: Provided, That within ninety days of the effective date of this section each county commission in this state shall elect either to perform its own study or request that the public service commission perform such study. Each county commission electing to perform its own study has one year from the date of election to present such plan to the public service commission. For each county wherein the county commission elects not to perform its own study, the public service commission shall conduct a study of such county. The public service commission shall establish a schedule for such studies upon a priority basis, with those counties perceived to have the greatest need of creation or consolidation of public service districts receiving the highest priority. In establishing the priority schedule, and in the performance of each study, the bureau of public health and the division of environmental protection shall offer their assistance and cooperation to the public service commission. Upon completion by the public service commission of each study, it shall be submitted to the appropriate county commission for review and comment. Each county commission has six months in which to review the study conducted by the public service commission, suggest changes or modifications thereof, and present such plan to the public service commission. All county plans, whether conducted by the county commission itself or submitted as a result of a public service commission study, shall, by order, be approved, disapproved or modified by the public service commission in accordance with rules promulgated by the public service commission and such order shall be implemented by the county commission.

(a) The county commission of any county may propose the creation, enlargement, reduction, merger, dissolution, or consolidation of a public service district by any of the following methods: (1) On its own motion by order duly adopted, (2) upon the recommendation of the Public Service Commission, or (3) by petition of twenty-five percent of the registered voters who reside within the limits of the proposed public service district within one or more counties. The petition shall contain a description, including metes and bounds, sufficient to identify the territory to be embraced therein and the name of such proposed district: *Provided,* That after the effective date of this section, no new public service district shall be created, enlarged, reduced, merged, dissolved or consolidated under this section without the written consent and approval of the Public Service Commission, which approval and consent shall be in accordance with rules promulgated by the Public Service Commission and may only be requested after consent is given by the appropriate county commission or commissions pursuant to this section. (b) The petition shall be filed in the office of the clerk of the county commission of the county in which the territory to constitute the proposed district is situated, and if the territory is situated in more than one county, then the petition shall be filed in the office of the clerk of the county commission of the county in which the major portion of the territory extends, and a copy thereof (omitting signatures) shall be filed with each of the clerks of the county commission of the other county or counties into which the territory extends. The clerk of the county commission receiving such petition shall present it to the county commission of the county at the first regular meeting after the filing or at a special meeting called for the consideration thereof.

(c) When the county commission of any county enters an order on its own motion proposing the creation, enlargement, reduction, merger, dissolution or consolidation of a public service district, as aforesaid, or when a petition for the creation is presented, as aforesaid, the county commission shall at the same session fix a date of hearing in the county on the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed public service district, which date so fixed shall be not more than forty days nor less than twenty days from the date of the action. Within ten days of fixing the date of hearing, the county commission shall provide the Executive Secretary of the Public Service Commission with a copy of the order or petition and notification of the time and place of the hearing to be held by the county commission. If the territory proposed to be included is situated in more than one county, the county commission, when fixing a date of hearing, shall provide for notifying the county commission and clerk thereof of each of the other counties into which the territory extends of the date so fixed. The clerk of the county commission of each county in which any territory in the proposed public service district is located shall cause notice of the hearing and the time and place thereof, and setting forth a description of all of the territory proposed to be included therein to be given by publication as a Class I legal advertisement in compliance with the provisions of article three, chapter fifty-nine of this code, and the publication area for the publication shall be by publication in each city, incorporated town or municipal corporation if available in each county in which any territory in the proposed public service district is located. The publication shall be at least ten days prior to the hearing.

(d) In all cases where proceedings for the creation, enlargement, reduction, merger, dissolution or consolidation of the public service districts are initiated by petition as aforesaid, the person filing the petition shall advance or satisfactorily indemnify the payment of the cost and expenses of publishing the hearing notice, and otherwise the costs and expenses of the notice shall be paid in the first instance by the county commission out of contingent funds or any other funds available or made available for that purpose. In addition to the notice required herein to be published, there shall also be posted in at least five conspicuous places in the proposed public service district, a notice containing

the same information as is contained in the published notice. The posted notices shall be posted not less than ten days before the hearing.

(e) All persons residing in or owning or having any interest in property in the proposed public service district shall have an opportunity to be heard for and against its creation, enlargement, reduction, merger, dissolution or consolidation. At the hearing the county commission before which the hearing is conducted shall consider and determine the feasibility of the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district. If the county commission determines that the construction or acquisition by purchase or otherwise and maintenance, operation, improvement and extension of public service properties by the public service district will be conducive to the preservation of public health, comfort and convenience of such area, the county commission shall by order create, enlarge, reduce, merge, dissolve or consolidate such public service district. If the county commission, after due consideration, determines that the proposed district will not be conducive to the preservation of public health, comfort or convenience of the area or that the creation, enlargement, reduction, merger, dissolution or consolidation of the proposed district as set forth and described in the petition or order is not feasible, it may refuse to enter an order creating the district or it may enter an order amending the description of the proposed district and create, enlarge, reduce, merge, dissolve or consolidate the district as amended.

(f) If the county commission determines that any other public service district or districts can adequately serve the area of the proposed public service district, whether by enlargement, reduction, merger, dissolution or consolidation, it shall refuse to enter the order, but shall enter an order creating, enlarging, reducing, merging, dissolving or consolidating the area with an existing public service district, in accordance with rules adopted by the Public Service Commission for such purpose: *Provided,* That no enlargement of a public service district may occur if the present or proposed physical facilities of the public service district are determined by the appropriate county commission or the Public Service Commission to be inadequate to provide such enlarged service. The clerk of the county commission of each county into which any part of such district extends shall retain in his office an authentic copy of the order creating, enlarging, reducing, merging, dissolving or consolidating the district: *Provided, however,* That within ten days after the entry of an order creating, enlarging, reducing, merging, dissolving or consolidating a district, such order must be filed for review and approval by the Public Service Commission. The Public Service Commission may provide a hearing in the affected county on the matter and may approve, reject or modify the order of the county commission if it finds it is in the best interests of the public to do so. The Public Service Commission shall adopt rules relating to such filings and the approval, disapproval or modification of county commission orders for creating, enlarging, merging, dissolving or consolidating districts. The provisions of this section shall not apply to the implementation by a county commission of an order issued by the Public Service Commission pursuant to this section and section one-b, of this article.

(g) The county commission may, if in its discretion it deems it necessary, feasible and proper, enlarge the district to include additional areas, reduce the area of the district, where facilities, equipment, service or materials have not been extended, or dissolve the district if inactive or create or consolidate two or more such districts. If consolidation of districts is not feasible, the county commission may consolidate and centralize management and administration of districts within its county or multi-county area to achieve efficiency of operations: *Provided,* That where the county commission determines on its own motion by order entered of record, or there is a petition to enlarge the district, merge and consolidate districts, or the management and administration thereof, reduce the area of the district or dissolve the district if inactive, all of the applicable provisions of this article providing for hearing, notice of hearing and approval by the Public Service Commission shall apply. The Commission shall at all times attempt to bring about the enlargement or merger of existing public service districts in order to provide increased services and to eliminate the need for creation of new public service districts in those areas which are not currently serviced by a public service district: *Provided, however,* That where two or more public service districts are consolidated pursuant to this section, any rate differentials may continue for the period of bonded indebtedness incurred prior to consolidation. The districts may not enter into any agreement, contract or covenant that infringes upon, impairs, abridges or usurps the duties, rights or powers of the county commission, as set forth in this article, or conflicts with any provision of this article.

(h) A list of all districts and their current board members shall be filed by the county commission with the Secretary of State and the Public Service Commission by the first day of July of each year.

1. Validity

Title of act authorizing creation of public service districts in connection with acquisition, construction, maintenance, operation, improvement and extension of properties supplying water and sewerage services, clearly defines object and purposes of act and powers of governing board, and is sufficient to meet constitutional requirements. Acts 1953, c. 147; Const. art. 6, § 30. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 123(3); Statutes ⇐ 123(5)

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional delegation of judicial functions to the County Court, Acts 1953, c. 147; Const. art. 8, § 24.

State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2355; Municipal Corporations ⇐ 4

2. Creation of public service districts

Where notice, hearing and order with respect to creation of public service district considered only the question of furnishing water, such district was created only for the purposes of furnishing water services, and had no power to condemn real estate for sewerage facilities. Code, 16-13A–1, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Eminent Domain ⇐ 32

Where public service district was created for purpose of furnishing water services, county court had authority to add sewerage services to the facilities of the district under appropriate proceedings. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 270

Statute authorizing creation of public service districts confers upon public service board authority to create mortgage lien on the property of public service district, and action of legislature conferring such authority was within the legislature's power. Acts 1953, c. 147; Const. art. 10, § 8. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Municipal Corporations ⇐ 222; Municipal Corporations ⇐ 225(1)

3. District boundaries

Public service district statute that allowed county commission to designate district's boundaries did not also empower commission to make service territories exclusive, displacing Public Service Commission's (PSC) authority to determine service rights. Code, 16–13A–2. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. Counties ⇐ 47

4. Notice of hearing

Provisions of statute, with respect to creation of public service districts, which relate to the filing of the petition or motion of the county court, the description of the territory to be embraced, and like provisions are mandatory; but, despite use of the word "shall," the requirements for posting and publication of notice and the time of setting the hearing are directory and require only substantial compliance. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 12(3); Municipal Corporations ⇐ 12(6)

Though record with respect to creation of public service district was silent with respect to posting of notice of hearing and as to whether hearing was not more than 40 nor less than 20 days after his fixing the date for hearing as provided by statute, there was substantial compliance with statute where hearing was set some time prior to the date of the hearing, there was publication of notice more than ten days prior to the date of the hearing as required, and there were no objections either before, during or after the hearing to the creation of the district or to the procedures employed in its creation. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 12(6)

5. Number of voters within district

Public service district was not void because there were not 100 legal voters owning property within the district. Code, 16–13A–2. Canyon Public Service Dist. v. Tasa Coal Co., 1973, 195 S.E.2d 647, 156 W.Va. 606. Municipal Corporations ⇐ 6

6. Costs

Costs of proceeding whereby constitutionality of statute authorizing creation of public service districts was tested would not be taxed against defendant who was chairman of public service board and who, honestly and in good faith, though mistakenly, endeavored to perform his duty in refusing to sign revenue bonds, and each litigant would pay his own costs. Acts 1953, c. 147. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Mandamus ⇐ 190

7. Referendum

A public service district, once created by county court, not subject to referendum on issue to continue or be abolished. 52 W.Va. Op.Atty. Gen. 33 (August 11, 1966) 1966 WL 87428.

§ 16–13A–3. District to be a public corporation and political subdivision; powers thereof; public service boards

From and after the date of the adoption of the order creating any public service district, it is a public corporation and political subdivision of the state, but without any power to levy or collect ad valorem taxes. Each district may acquire, own and hold property, both real and personal, in its corporate name, and may sue, may be sued, may adopt an official seal and may enter into

contracts necessary or incidental to its purposes, including contracts with any city, incorporated town or other municipal corporation located within or without its boundaries for furnishing wholesale supply of water for the distribution system of the city, town or other municipal corporation, or for furnishing stormwater services for the city, town or other municipal corporation, and contract for the operation, maintenance, servicing, repair and extension of any properties owned by it or for the operation and improvement or extension by the district of all or any part of the existing municipally owned public service properties of any city, incorporated town or other municipal corporation included within the district: Provided, That no contract shall extend beyond a maximum of forty years, but provisions may be included therein for a renewal or successive renewals thereof and shall conform to and comply with the rights of the holders of any outstanding bonds issued by the municipalities for the public service properties.

The powers of each public service district shall be vested in and exercised by a public service board consisting of not less than three members, who shall be persons residing within the district, who possess certain educational, business or work experience which will be conducive to operating a public service district. Each board member shall, within six months of taking office, successfully complete the training program to be established and administered by the public service commission in conjunction with the division of environmental protection and the bureau of public health. Board members shall not be or become pecuniarily interested, directly or indirectly, in the proceeds of any contract or service, or in furnishing any supplies or materials to the district nor shall a former board member be hired by the district in any capacity within a minimum of twelve months after board member's term has expired or such board member has resigned from the district board. The members shall be appointed in the following manner:

Each city, incorporated town or other municipal corporation having a population of more than three thousand but less than eighteen thousand is entitled to appoint one member of the board, and each city, incorporated town or other municipal corporation having a population in excess of eighteen thousand shall be entitled to appoint one additional member of the board for each additional eighteen thousand population. The members of the board representing such cities, incorporated towns or other municipal corporations shall be residents thereof and shall be appointed by a resolution of the governing bodies thereof and upon the filing of a certified copy or copies of the resolution or resolutions in the office of the clerk of the county commission which entered the order creating the district, the persons so appointed become members of the board without any further act or proceedings. If the number of members of the board so appointed by the governing bodies of cities, incorporated towns or other municipal corporations included in the district equals or exceeds three, then no further members shall be appointed to the board and the members so appointed are the board of the district except in cases of merger or consolidation where the number of board members may equal five.

If no city, incorporated town or other municipal corporation having a population of more than three thousand is included within the district, then the county commission which entered the order creating the district shall appoint three members of the board, who are persons residing within the district and residing within the state of West Virginia, which three members become members of the board of the district without any further act or proceedings except in cases of merger or consolidation where the number of board members may equal five.

If the number of members of the board appointed by the governing bodies of cities, incorporated towns or other municipal corporations included within the district is less than three, then the county commission which entered the order creating the district shall appoint such additional member or members of the board, who are persons residing within the district, as is necessary to make the number of members of the board equal three except in cases of merger or consolidation where the number of board members may equal five, and the member or members appointed by the governing bodies of the cities, incorporated towns or other municipal corporations included within the district and the additional member or members appointed by the county commission as aforesaid, are the board of the district. A person may serve as a member of the board in one or more public service districts.

The population of any city, incorporated town or other municipal corporation, for the purpose of determining the number of members of the board, if any, to be appointed by the governing body or bodies thereof, is the population stated for such city, incorporated town or other municipal corporation in the last official federal census.

Notwithstanding any provision of this code to the contrary, whenever a district is consolidated or merged pursuant to section two of this article, the terms of office of the existing board members shall end on the effective date of the merger or consolidation. The county commission shall appoint a new board according to rules promulgated by the public service commission. Whenever districts are consolidated or merged no provision of this code prohibits the expansion of membership on the new board to five.

The respective terms of office of the members of the first board shall be fixed by the county commission and shall be as equally divided as may be, that is approximately one third of the members for a term of two years, a like number for a term of four years, the term of the remaining member or members for six years, from the first day of the month during which the appointments are made. The first members of the board appointed as aforesaid shall meet at the office of the clerk of the county commission which entered the order creating the district as soon as practicable after the appointments and shall qualify by taking an oath of office: Provided, That any member or members of the board may be removed from their respective office as provided in section three-a of this article.

Any vacancy shall be filled for the unexpired term within thirty days, otherwise successor members of the board shall be appointed for terms of six

years and the terms of office shall continue until successors have been appointed and qualified. All successor members shall be appointed in the same manner as the member succeeded was appointed. The district shall provide to the public service commission, within thirty days of the appointment, the following information: The new board member's name, home address, home and office phone numbers, date of appointment, length of term, who the new member replaces and if the new appointee has previously served on the board. The public service commission shall notify each new board member of the legal obligation to attend training as prescribed in this section.

The board shall organize within thirty days following the first appointments and annually thereafter at its first meeting after the first day of January of each year by selecting one of its members to serve as chair and by appointing a secretary and a treasurer who need not be members of the board. The secretary shall keep a record of all proceedings of the board which shall be available for inspection as other public records. Duplicate records shall be filed with the county commission and shall include the minutes of all board meetings. The treasurer is lawful custodian of all funds of the public service district and shall pay same out on orders authorized or approved by the board. The secretary and treasurer shall perform other duties appertaining to the affairs of the district and shall receive salaries as shall be prescribed by the board. The treasurer shall furnish bond in an amount to be fixed by the board for the use and benefit of the district.

The members of the board, and the chair, secretary and treasurer thereof, shall make available to the county commission, at all times, all of its books and records pertaining to the district's operation, finances and affairs, for inspection and audit. The board shall meet at least monthly.

§ 16–13A–8. Acquisition and purchase of public service properties; right of eminent domain; extraterritorial powers

The board may acquire any publicly or privately owned public service properties located within the boundaries of the district regardless of whether or not all or any part of such properties are located within the corporate limits of any city, incorporated town or other municipal corporation included within the district and may purchase and acquire all rights and franchises and any and all property within or outside the district necessary or incidental to the purpose of the district.

The board may construct any public service properties within or outside the district necessary or incidental to its purposes and each such district may acquire, construct, maintain and operate any such public service properties within the corporate limits of any city, incorporated town or other municipal corporation included within the district or in any unincorporated territory within ten miles of the territorial boundaries of the district: Provided, That if any incorporated city, town or other municipal corporation included within the district owns and operates either water facilities, sewer facilities, stormwater facilities or gas facilities or all of these, then the district may not acquire, construct, establish, improve or extend any public service properties of the same kind within such city, incorporated towns or other municipal corporations or the adjacent unincorporated territory served by such cities, incorporated towns or other municipal corporations, except upon the approval of the public service commission, the consent of such cities, incorporated towns or other municipal corporations and in conformity and compliance with the rights of the holders of any revenue bonds or obligations theretofore issued by such cities, incorporated towns or other municipal corporations then outstanding

Property of public service district is public property used for public purposes, and, under constitutional provision that public property shall be exempt from taxation, statute authorizing creation of public service districts and granting tax exemption was not violative of constitutional provision requiring that taxation be equal and uniform throughout state. Acts 1953, c. 147, § 1 et seq.; Const. art. 10, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Taxation ⇐ 2289

2. In general

Statute providing that private property may be taken or damaged for a number of specified purposes amounts to legislative declaration of public purposes within meaning of laws, and it is a judicial question whether such declaration is consonant with organic law. Acts 1949, c. 59; Const. art. 3, § 9. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Constitutional Law ⇐ 2510

3. Eminent domain powers

Although construction of new facility proposed by utility will often require taking of private property through eminent domain, absent express statutory language Public Service Commission (PSC) has no duty to review and decide issues that are inherent in eminent domain proceeding. Although landowner is competent to give estimate of value of property in eminent domain proceeding, that valuation is not conclusive; government agency may rely on appraisal report concerning estimated value of property to be taken. Whether construction of sewage lagoons would constitute "nuisance" does not defeat Public Service Commission's (PSC) jurisdiction to issue certificate of public convenience and necessity; while PSC may assess environmental considerations, chief inquiry by PSC is need of public for project. 6. Connections with sewers or drains

City, rather than sewer and water districts, was entitled to provide sewer and water services to newly developed tract that was within districts' boundaries, but was annexed to city, where such services were not previously furnished to tract. If a tract of real estate located within a public service district has been annexed into a municipality, then, as between the municipality and the public service district, the municipality has the superior right to extend water and/or sewer service which were not being previously furnished to the tract by the public service district, and under those circumstances, a public service district would need the consent of the municipality and the Public Service Commission (PSC) in order to provide such service. Code, 16–13A–8. Berkeley County Public Service Sewer Dist. v. West Virginia Public Service Com'n, 1998, 512 S.E.2d 201, 204 W.Va. 279. A public service district is a public corporation and does not come within constitutional provision which in substance provides that all corporations shall be created by general laws and which is applicable to private corporations. Acts 1953, c. 147, § 1 et seq.; Const. art. 11, § 1. State ex rel. McMillion v. Stahl, 1955, 89 S.E.2d 693, 141 W.Va. 233. Statutes ⇐ 80(3)

§ 16–13A–9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees

(a)(1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management,

maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district. The board shall establish rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia division of highways.

(2) Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant's specific customer class or fifty dollars, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or fifty dollars and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant's specific customer class or fifty dollars. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant's specific customer class or fifty dollars

has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer's account at a rate as the public service commission may prescribe: *Provided,* That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the public service commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service district included within the district owns and operates separately either water facilities or sewer facilities, and the district owns and operates the other kind of facilities either water or sewer, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer service fees and charges: *Provided,* That any contracts entered into by a public service district pursuant to this section shall be submitted to the public service commission for approval. Any public service district providing water and sewer service to its customers has the right to terminate water service for delinquency in payment of either water or sewer bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer district is providing water service, and the district providing sewer service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer district that is providing water service, upon the request of the district providing sewer service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer account: *Provided, however,* That any termination of water service must comply with all rules and orders of the public service commission.

(c) Any district furnishing sewer facilities within the district may require, or may by petition to the circuit court of the county in which the property is located, compel or may require the division of health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where

there is gravity flow or transportation by any other methods approved by the division of health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this paragraph is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the main sewer line, the public service district board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the division of health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the public service commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the division of health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay the rates and charges for services established under this article only after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner's, tenant's or occupant's specific customer class.

(e) Whenever any district has made available a stormwater system to any owner, tenant or occupant of any real property located near the stormwater system and where stormwater from real property affects or drains into the stormwater system, it is hereby found, determined and declared that the owner, tenant or occupant is being served by the stormwater system and it is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge, and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-day notice of the availability of the stormwater system has been received by the owner.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and munici-

pal taxes. In addition to the other remedies provided in this section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided,* That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the division of environmental protection, as prescribed by section eleven, article eleven, chapter twenty-two of this code, is exempt from the provisions of this section.

Statute authorizing creation of public service districts does not, in so far as it requires County Court to define territory to be included in public service district and appoint a board to govern same in first instance, involve unconstitutional

1.- In general

The borrowing by PSD's of money from counties and/or municipalities, as evidenced by a note, is permissible borrowing under this section. 62 W.Va. Op.Atty.Gen. 27 (May 6, 1988) 1988 WL 483331.

§ 16–13A–25. Borrowing and bond issuance; procedure

(a) Notwithstanding any other provisions of this article to the contrary, a public service district may not borrow money, enter into contracts for the provision of engineering, design or feasibility studies, issue or contract to issue revenue bonds or exercise any of the powers conferred by the provisions of section thirteen, twenty or twenty-four of this article without the prior consent and approval of the Public Service Commission: *Provided*, That approval of funding set forth in section eleven, article two, chapter twenty-four of this code or this section is not required if the funding is for a project which has received a certificate of public convenience and necessity after the eighth day of July, two thousand five, from the commission and where the cost of the project changes but the change does not affect the rates established for the project.

(b) The Public Service Commission may waive the provision of prior consent and approval for entering into contracts for engineering, design or feasibility studies pursuant to this section for good cause shown which is evidenced by the public service district filing a request for waiver of this section stated in a letter directed to the commission with a brief description of the project, a verified statement by the board members that the public service district has complied with chapter five-g of this code, and further explanation of ability to evaluate their own engineering contract, including, but not limited to:

(1) Experience with the same engineering firm; or

(2) Completion of a construction project requiring engineering services. The district shall also forward an executed copy of the engineering contract to the commission after receiving approval of the waiver.

(c) An engineering contract that meets one or more of the following criteria is exempt from the waiver or approval requirements:

(1) A contract with a public service district that is a Class A utility on the first day of April, two thousand three, or subsequently becomes a Class A utility as defined by commission rule;

(2) A contract with a public service district that does not require borrowing and that can be paid out of existing rates;

(3) A contract where the payment of engineering fees are contingent upon the receipt of funding, and commission approval of the funding, to construct the project which is the subject of the contract; or

(4) A contract that does not exceed fifteen thousand dollars.

(d) Requests for approval or waivers of engineering contracts shall be deemed granted thirty days after the filing date unless the staff of the Public Service Commission or a party files an objection to the request. If an objection is filed, the Public Service Commission shall issue its decision within one hundred twenty days of the filing date. In the event objection is received to a request for a waiver, the application shall be considered a request for waiver as well as a request for approval in the event a waiver is not appropriate.

(e) Unless the properties to be constructed or acquired represent ordinary extensions or repairs of existing systems in the usual course of business, a public service district must first obtain a certificate of public convenience and necessity from the Public Service Commission in accordance with the provision of chapter twenty-four of this code when a public service district is seeking to acquire or construct public service property.

Proposed sewage treatment project complied with buffer zone requirements where all parties acknowledged that distance of proposed sewage lagoons from property owners' home was further than minimum buffer-zone requirement of 300 feet; Public Service Commission relied on ample evidence in record to support claim that proposed location was both cost-effective and environmentally sound. PUBLIC SERVICE DISTRICTS

Section		Section	
16–13A–9.	Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees.		

§ 16–13A–9. Rules; service rates and charges; discontinuance of service; required water and sewer connections; lien for delinquent fees

(a)(1) The board may make, enact and enforce all needful rules in connection with the acquisition, construction, improvement, extension, management, maintenance, operation, care, protection and the use of any public service properties owned or controlled by the district.

The board shall establish rates, fees and charges for the services and facilities it furnishes, which shall be sufficient at all times, notwithstanding the provisions of any other law or laws, to pay the cost of maintenance, operation and depreciation of the public service properties and principal of and interest on all bonds issued, other obligations incurred under the provisions of this article and all reserve or other payments provided for in the proceedings which authorized the issuance of any bonds under this article. The schedule of the rates, fees and charges may be based upon:

(A) The consumption of water or gas on premises connected with the facilities, taking into consideration domestic, commercial, industrial and public use of water and gas;

(B) The number and kind of fixtures connected with the facilities located on the various premises;

(C) The number of persons served by the facilities;

(D) Any combination of paragraphs (A), (B) and (C) of this subdivision; or

(E) May be determined on any other basis or classification which the board may determine to be fair and reasonable, taking into consideration the location of the premises served and the nature and extent of the services and facilities furnished. However, no rates, fees or charges for stormwater services may be assessed against highways, road and drainage easements or stormwater facilities constructed, owned or operated by the West Virginia Division of Highways.

(2) Where water, sewer, stormwater or gas services, or any combination thereof, are all furnished to any premises, the schedule of charges may be billed as a single amount for the aggregate of the charges. The board shall require all users of services and facilities furnished by the district to designate on every application for service whether the applicant is a tenant or an owner of the premises to be served. If the applicant is a tenant, he or she shall state the name and address of the owner or owners of the premises to be served by the district. Notwithstanding the provisions of section eight, article three, chapter twenty-four of this code to the contrary, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage of the applicant's specific customer class or fifty dollars, with the district to secure the payment of service rates, fees and charges in the event they become delinquent as provided in this section. If a district provides both water and sewer service, all new applicants for service shall deposit the greater of a sum equal to two twelfths of the average annual usage for water service or fifty dollars and the greater of a sum equal to two twelfths of the average annual usage for wastewater service of the applicant's specific customer class or fifty dollars. In any case where a deposit is forfeited to pay service rates, fees and charges which were delinquent at the time of disconnection or termination of service, no reconnection or reinstatement of service may be made by the district until another deposit equal to the greater of a sum equal to two twelfths of the average usage for the applicant's specific customer class or fifty dollars has been remitted to the district. After twelve months of prompt payment history, the district shall return the deposit to the customer or credit the customer's account at a rate as the Public Service Commission may prescribe: *Provided,* That where the customer is a tenant, the district is not required to return the deposit until the time the tenant discontinues service with the district. Whenever any rates, fees, rentals or charges for services or facilities furnished remain unpaid for a period of twenty days after the same become due and payable, the user of the services and facilities provided is delinquent and the user is liable at law until all rates, fees and charges are fully paid. The board may, under reasonable rules promulgated by the Public Service Commission, shut off and discontinue water or gas services to all delinquent users of either water or gas facilities, or both, ten days after the water or gas services become delinquent.

(b) In the event that any publicly or privately owned utility, city, incorporated town, other municipal corporation or other public service district included within the district owns and operates separately water facilities, sewer facilities or stormwater facilities and the district owns and operates another kind of facility either water or sewer, or both, as the case may be, then the district and the publicly or privately owned utility, city, incorporated town or other municipal corporation or other public service district shall covenant and contract with each other to shut off and discontinue the supplying of water service for the nonpayment of sewer

or stormwater service fees and charges: *Provided,* That any contracts entered into by a public service district pursuant to this section shall be submitted to the Public Service Commission for approval. Any public service district which provides water and sewer service, water and stormwater service or water, sewer and stormwater service has the right to terminate water service for delinquency in payment of water, sewer or stormwater bills. Where one public service district is providing sewer service and another public service district or a municipality included within the boundaries of the sewer or stormwater district is providing water service and the district providing sewer or stormwater service experiences a delinquency in payment, the district or the municipality included within the boundaries of the sewer or stormwater district that is providing water service, upon the request of the district providing sewer or stormwater service to the delinquent account, shall terminate its water service to the customer having the delinquent sewer or stormwater account: *Provided, however,* That any termination of water service must comply with all rules and orders of the Public Service Commission.

(c) Any district furnishing sewer facilities within the district may require, or may by petition to the circuit court of the county in which the property is located, compel or may require the Division of Health to compel all owners, tenants or occupants of any houses, dwellings and buildings located near any sewer facilities where sewage will flow by gravity or be transported by other methods approved by the Division of Health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code, from the houses, dwellings or buildings into the sewer facilities, to connect with and use the sewer facilities and to cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from the houses, dwellings and buildings where there is gravity flow or transportation by any other methods approved by the Division of Health, including, but not limited to, vacuum and pressure systems, approved under the provisions of section nine, article one, chapter sixteen of this code and the houses, dwellings and buildings can be adequately served by the sewer facilities of the district and it is declared that the mandatory use of the sewer facilities provided for in this paragraph is necessary and essential for the health and welfare of the inhabitants and residents of the districts and of the state. If the public service district requires the property owner to connect with the sewer facilities even when sewage from dwellings may not flow to the main line by gravity and the property owner incurs costs for any changes in the existing dwellings' exterior plumbing in order to connect to the main sewer line, the Public Service District Board shall authorize the district to pay all reasonable costs for the changes in the exterior plumbing, including, but not limited to, installation, operation, maintenance and purchase of a pump or any other method approved by the Division of Health. Maintenance and operation costs for the extra installation should be reflected in the users charge for approval of the Public Service Commission. The circuit court shall adjudicate the merits of the petition by summary hearing to be held not later than thirty days after service of petition to the appropriate owners, tenants or occupants.

(d) Whenever any district has made available sewer facilities to any owner, tenant or occupant of any house, dwelling or building located near the sewer facility and the engineer for the district has certified that the sewer facilities are available to and are adequate to serve the owner, tenant or occupant and sewage will flow by gravity or be transported by other methods approved by the Division of Health from the house, dwelling or building into the sewer facilities, the district may charge, and the owner, tenant or occupant shall pay, the rates and charges for services established under this article only after thirty-day notice of the availability of the facilities has been received by the owner, tenant or occupant. Rates and charges for sewage services shall be based upon actual water consumption or the average monthly water consumption based upon the owner's, tenant's or occupant's specific customer class.

(e) The owner, tenant or occupant of any real property may be determined and declared to be served by a stormwater system only after each of the following conditions is met: (1) The district has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community, as defined in 40 C.F.R. § 122.26; (2) the district's authority has been properly expanded to operate and maintain a stormwater system; (3) the district has made available a stormwater system where stormwater from the real property affects or drains into the stormwater system; and (4) the real property is

located in the Municipal Separate Storm Sewer System's designated service area. It is further hereby found, determined and declared that the mandatory use of the stormwater system is necessary and essential for the health and welfare of the inhabitants and residents of the district and of the state. The district may charge and the owner, tenant or occupant shall pay the rates, fees and charges for stormwater services established under this article only after thirty-day notice of the availability of the stormwater system has been received by the owner. An entity providing stormwater service shall provide a tenant a report of the stormwater fee charged for the entire property and, if appropriate, that portion of the fee to be assessed to the tenant.

(f) All delinquent fees, rates and charges of the district for either water facilities, sewer facilities, gas facilities or stormwater systems or stormwater management programs are liens on the premises served of equal dignity, rank and priority with the lien on the premises of state, county, school and municipal taxes. In addition to the other remedies provided in this section, public service districts are granted a deferral of filing fees or other fees and costs incidental to the bringing and maintenance of an action in magistrate court for the collection of delinquent water, sewer, stormwater or gas bills. If the district collects the delinquent account, plus reasonable costs, from its customer or other responsible party, the district shall pay to the magistrate the normal filing fee and reasonable costs which were previously deferred. In addition, each public service district may exchange with other public service districts a list of delinquent accounts: *Provided*, That an owner of real property may not be held liable for the delinquent rates or charges for services or facilities of a tenant, nor may any lien attach to real property for the reason of delinquent rates or charges for services or facilities of a tenant of the real property, unless the owner has contracted directly with the public service district to purchase the services or facilities.

(g) Anything in this section to the contrary notwithstanding, any establishment, as defined in section three, article eleven, chapter twenty-two of this code, now or hereafter operating its own sewage disposal system pursuant to a permit issued by the Department of Environmental Protection, as prescribed by section eleven of said article is exempt from the provisions of this section.

(h) A public service district which has been designated by the Environmental Protection Agency as an entity to serve a West Virginia Separate Storm Sewer System community shall prepare an annual report detailing the collection and expenditure of rates, fees or charges and make it available for public review at the place of business of the governing body and the stormwater utility main office.

§ 31-15A-3. West Virginia infrastructure and jobs development council continued; members of council; staff of council

(a) The West Virginia infrastructure and jobs development council is hereby continued. The council is a governmental instrumentality of the state. The exercise by the council of the powers conferred by this article and the carrying out of its purpose and duties shall be considered and held to be, and are hereby determined to be, essential governmental functions and for a public purpose.

(b) The council shall consist of eleven members, including the executive director of the housing development fund or his or her designee, the director of the division of environmental protection or his or her designee, the director of the economic development authority or his or her designee, the director of the water development authority or his or her designee, the executive director of the state development office or his or her designee, the director of the division of health or his or her designee, the chairman of the public service commission or his or her designee, and four members representing the general public: Provided, That there shall be at least one member representing the general public from each congressional district: Provided, however, That after the expiration of the term of office of the members first appointed as representatives of the general public, no more than one member representing the general public may be a resident of the same county. The governor shall appoint the public members of the council who shall serve three-year staggered terms. The commissioner of the division of highways, the executive director of the state rail authority, two members of the West Virginia Senate, two members of the West Virginia House of Delegates, one representative of the board of directors of the state college system and one representative of the board of trustees of the university of West Virginia shall serve as advisory members of the council. The governor shall appoint the legislative members of the council: Provided, further That no more than three of the legislative members may be of the same political party. The governor shall appoint the representatives of the governing boards from a list of three names submitted by each governing board. The advisory members shall be ex officio, nonvoting members of the council.

(c) The council shall annually elect one of its members as chairman, and shall appoint a secretary, who need not be a member of the council and who shall keep records of its proceedings. Six members of the council shall constitute a quorum and the affirmative vote of at least the majority of those members present shall be necessary for any action taken by vote of the council.

No vacancy in the membership of the council impairs the rights of a quorum by such vote to exercise all the rights and perform all the duties of the council.

(d) No member of the council who serves by virtue of his or her office shall receive any compensation or reimbursement of expenses for serving as a member. The members of the council who represent the general public shall receive reimbursement for actual expenses incurred in the service of the council.

(e) The council shall meet at least monthly to review projects and infrastructure projects requesting funding assistance and otherwise to conduct its business, and shall meet more frequently if necessary. Notwithstanding any other provision of this article to the contrary, the economic development authority shall not be subject to council review with regard to any action taken pursuant to the authority established in article fifteen, chapter thirty-one of this code nor shall the governor's civil contingent fund be subject to council review with regard to projects or infrastructure projects funded through the governor's civil contingent fund.

(f) The water development authority shall provide office space for the council, and each governmental agency represented on the council shall provide staff support for the council in the manner determined by the council from time to time.

(g) The council shall invite to all its meetings one or more representatives of the United States department of agriculture, rural economic community development, the United States economic development agency and the United States army corps of engineers or any successors thereto. § 31–15A–4. Development of guidelines and preliminary application for funding assistance

(a) To implement and carry out the intent of this article, the council shall promulgate legislative rules in accordance with article three, chapter twenty-nine-a of this code to develop comprehensive, uniform guidelines for use by the council and other state infrastructure agencies in evaluating any request by a project sponsor for funding assistance to plan, acquire, construct, improve or otherwise develop a project or infrastructure project. The guidelines shall include the following factors: (1) the public health benefits of the project or infrastructure project; (2) the economic development benefits of the project or infrastructure project; (3) the degree to which the project or infrastructure project will correct deficiencies in the compliance of water supply or sewage treatment facilities with state or federal laws, regulations or standards; (4) the degree to which the project or infrastructure project encourages effective and efficient consolidation of water or sewage treatment systems consistent with the comprehensive plan developed pursuant to section six of this article; (5) the cost effectiveness of the project or infrastructure project as compared with

alternatives which achieve substantially the same public health or economic development benefits, including the consideration of providing maximum feasible fire protection; (6) the availability of alternative sources of funding which could finance all or a part of the project and infrastructure project, and the need for the assistance of the council to finance the project or infrastructure project or attract other sources of funding; (7) the applicant's ability to operate and maintain the system if the project or infrastructure project is approved; (8) the degree to which the project or infrastructure project achieves other state or regional planning goals; (9) the estimated date upon which the project or infrastructure project could commence if funding were available and the estimated completion date of the project or infrastructure project; and (10) such other considerations as the council may consider necessary or appropriate to accomplish the purpose and intent of this article.

(b) The council shall create a preliminary application form which shall be used by all project sponsors requesting funding assistance from state infrastructure agencies to plan, acquire, construct, improve or otherwise develop an infrastructure project or project. The preliminary application form shall contain all information required by all state infrastructure agencies that will be required to issue permits and/or certificates regarding the project or infrastructure project. The preliminary application shall require the project sponsor to set forth the type and proposed location of the infrastructure project or project; the estimated total cost of the project; the amount of funding assistance required and the specific uses of the funding; other sources of funding available or potentially available for the infrastructure project or project; information demonstrating the need for the infrastructure project or project and that the proposed funding of the project is the most economically feasible and viable alternative to completing the project or infrastructure project; and such other information as the council considers necessary to enable it to recommend the type of project or infrastructure project financing, in terms of the kind, amount and source of funding, which the project sponsor should pursue and which the state infrastructure agency or agencies should consider an appropriate investment of public funds, and to otherwise carry out the intent of this article.

Acts 1994, 1st Ex. Sess., c. 26.

§ 31-15A-5. Requirements for project funding assistance; review of project preliminary applications by council

(a) No project sponsor may apply for or receive any loan, loan guarantee, grant or other funding assistance for a project or infrastructure project from any state infrastructure agency (i) unless the project sponsor requiring the funding assistance first submits a completed preliminary application to the council on the form prepared for such purpose by the council pursuant to section four of this article, and (ii) except as may be recommended by the council after consideration of the preliminary application: Provided, That any project sponsor which has an infrastructure project or project with either

acceptable bids or all funding in place on the effective date of this act is not required to comply with the provisions of this section.

(b) The council shall, within thirty days of receipt of each completed preliminary application submitted to it, review the preliminary application and either (i) make a written recommendation as to the infrastructure project or project financing, in terms of the kind, amount and source of funding, which the project sponsor submitting the application should pursue and which the state infrastructure agency or agencies should consider an appropriate investment of public funds, or (ii) if the council determines that (1) the proposed project or infrastructure project is not eligible for funding assistance from any state infrastructure agency, or (2) the proposed project or infrastructure project is not otherwise an appropriate or prudent investment of state funds, the council shall recommend that the project sponsor not seek funding from any state infrastructure agency. A project sponsor shall include the preliminary application and the council's recommendations in any application to a state infrastructure agency.

(c) The council shall provide a copy of its recommendation with respect to each preliminary application, together with a copy of the preliminary application, to all appropriate state infrastructure agencies, which shall take into account the council's recommendations with respect to a project or infrastructure project before taking any action with respect to the project. No state infrastructure agency shall take any action inconsistent with the recommendation of the council unless the governing body of the agency, or the head of the agency if it has no governing body, expressly finds and determines that the recommendation is not in the best interest of the state or the area in which the proposed infrastructure project or project is to be located.

(d) In reviewing each preliminary application, the council shall use the engineering, financial and technical expertise of the respective staffs of the state infrastructure agencies represented on the council so as to recommend for funding those projects or infrastructure projects which are consistent with the purposes and intent of this article and with the policies and priorities of this state generally. The council may include in its findings a recommendation that a state infrastructure agency consider technical reports on the project prepared by other infrastructure agencies or by any federal agency.

Acts 1994, 1st Ex. Sess., c. 26.

§ 31–15A–6. Powers, duties and responsibilities of the council generally; comprehensive assessment

(a) In addition to the powers set forth elsewhere in this article, the council is hereby granted, has and may exercise all powers necessary or appropriate to carry out and effectuate the purposes and intent of this article. The council shall have the power and capacity to:

(1) Provide consultation services to project sponsors in connection with the planning, acquisition, improvement, construction or development of any infrastructure project or project;

(2) Periodically prepare a list of infrastructure projects or projects which cannot meet the established funding guidelines of the various state infrastructure agencies, other than the housing development fund, but which are consistent with the mandates of this article and recommend to the water development authority that it make a grant or loan to the project sponsors from the infrastructure fund to finance the cost of one or more such projects or infrastructure projects;

(3) Do all other acts necessary and proper to carry out the powers expressly granted to the authority in this article; and

(4) To make and execute contracts, commitments and obligations and other instruments necessary or convenient for the exercise of its powers.

(b) The council shall develop a comprehensive statewide inventory of water supply systems and sewage treatment systems and an assessment of current and future needs by the first day of July, one thousand nine hundred ninety-six. The assessment shall identify the areas of the state which do not have adequate public water or sewage systems and offer recommendations for the construction of new facilities or the extension or expansion of existing facilities to meet the identified needs. The council shall include in the assessment an identification of the obstacles, issues and problems which prevent or inhibit development of adequate infrastructure throughout the state, including financial, governmental, physical, or geographical factors and make recommendation as the council considers appropriate regarding the obstacles, issues or problems identified. This comprehensive inventory and assessment shall be updated at least once in every three year period after the initial assessment and inventory is completed.

(c) The council shall study the viability of the consolidation of public service districts throughout the state: Provided, That the study shall encompass not only public service districts but also any and all entities which provide or supply water and sewer service to the general public: Provided, however, That the council shall, in the preparation of the study, consult with the public service district division of the public service commission and representatives of the West Virginia rural water association and the West Virginia association of public service districts, as needed. The council shall report their findings and conclusions on or before the sixteenth of January of the year one thousand nine hundred ninety-five to the governor, speaker of the house of delegates and president of the senate.

Acts 1994, 1st Ex. Sess., c. 26.

§ 31–15A–7. Current and prospective planning; roads and highways; report to division of highways

(a) The council shall take into account the current and prospective infrastructure needs in relation to plans of the division of highways for the development and building of new roads. Upon completion of an environmental impact study, the commissioner of highways shall provide the council with plans for any and all new roads. In a timely manner, the council shall advise the

commissioner of the division of highways on the feasibility of the expansion of new or existing water and sewer lines concomitant to the construction of the new roads.

(b) The council has the authority to appoint local infrastructure planning teams. The local infrastructure planning teams may consist of the following: A designee of the division of highways from the region where the new road is being built; a designee of the division of highways from the central state office; a designee from the environmental engineers division of the department of health and human resources; a designee from the local developmental authority where the new road is being built; a designee from the regional developmental authority in the area where the new road is being built; a designee from the public service commission; a designee from the division of environmental protection; a designee from the county commission where the new road is being built who shall serve as chairperson of the planning team; a citizen of the county where the new road is being built to be chosen by the county commission; and the elected state delegates and senators from the area where the new road is being built. In order to avoid delay of any highway project, immediately upon appointment of a local infrastructure planning team, the director of the division of highways shall submit to the council a time frame within which the planning team must act and within which the planning team must submit any plans, maps, recommendations or reports developed pursuant to this subsection. The local infrastructure planning team shall meet prior to the development and building of a new road. Members of the local infrastructure planning team shall only receive payment for actual expenses incurred. The local infrastructure planning team shall advise the commissioner of the division of highways on the feasibility of an infrastructure plan. The local infrastructure planning team shall meet to develop an infrastructure plan that includes an assessment study of existing water and sewer lines and a feasibility study on future development and laying of water and sewer lines. After these studies are completed, a developmental map shall be drawn of the proposed road route with overlays of the proposed water and sewer lines. These studies and the map shall be presented to the commissioner of the division of highways and shall be used by the commissioner in the planning, developing and building of the road.

(c) The water development authority shall establish a restricted account within the infrastructure fund to be expended for the construction of water and sewage lines as may be recommended by the council in accordance with this article and specifically, in accordance with the plan developed under subsection (b) of this section. The reserve account shall be known as the "infrastructure road improvement reserve account". The council and the division of highways may enter into agreements to share the cost of financing projects approved in accordance with this section from moneys available in the infrastructure road reserve account and moneys available from the state road fund. Annually, the council may direct the water development authority to transfer funds from the infrastructure fund in an amount not to exceed one million dollars to the

restricted account: Provided, That at no time may the balance of the restricted account exceed one million dollars.

(d) For the purposes of this section the term "new" means a road right-of-way being built for the first time.

(e) After the construction of water and sewer lines adjacent to the new road, these new lines shall be turned over to existing utilities by expansion of boundaries of public service districts or shall be main extensions from the municipality.

Acts 1994, 1st Ex. Sess., c. 26.

§ 31-15A-8. Exemption of certain emergency projects from certificate of public convenience and necessity requirements; review of certain emergency projects by public service commission; and exemption for North Fork Hughes River watershed project

(a) If the council determines a project to be an emergency and the emergency project will be funded solely with grant money for the extension of an existing certificated water facility or wastewater facility, and if the council finds in its recommendation that the construction and acquisition of the emergency project will have no effect on the public utility's customer rates and will have no significant effect on its operational costs as a result of the project cost, then the emergency project is exempt from the requirement to obtain a certificate of public convenience and necessity under section eleven, article two, chapter twenty-four of this code. If the public utility is a public service district, it is exempt from the approval of the public service commission required under section twenty-five, article thirteen-a, chapter sixteen of this code.

(b) Any public utility, and any other entity that will operate as a public utility, must obtain a certificate of public convenience and necessity pursuant to section eleven, article two, chapter twenty-four of this code for any emergency project that is not exempt under subsection (a) of this section. The public service commission shall render its final decision on any application for a certificate within one hundred twenty days of the filing of the application: Provided, That the thirty-day prefiling requirement is not required. If the project sponsor is a public service district, then the project will be exempted from the approval requirements of section twenty-five, article thirteen-a, chapter sixteen of this code.

(c) Projects that are not emergency projects are subject to the requirements of section eleven, article two, chapter twenty-four of this code to the extent they would be otherwise.

(d) The North Fork Hughes River watershed project, proposed to enhance economic growth and development through tourism as provided in subsection (*l*), section two of this article and to include a water facility project as defined in subsection (n), section two of this article, is hereby specifically exempted from any requirement imposed by this article, except that the provisions of subsection (a) of this section are specifically made applicable to the project.

The project is hereby specifically authorized and the public land corporation shall have and may exercise the power of eminent domain and all authority otherwise prescribed by law to acquire necessary land and rights-of-way, to include approximately four hundred seventy-eight acres, in connection with the project. Funding for the project shall be provided by the federal government from the Appalachian regional commission through the United States soil conservation service. Upon completion of the project, the property acquired shall be transferred to the state park system. The commissioner of the division of tourism and parks or the successor to the commissioner's powers and duties is directed to expand the boundaries of North Bend state park to include the project area and to operate the expanded park property, including improved recreational facilities, from funds appropriated for that purpose.

§ 31–15A–9. Infrastructure fund; deposits in fund; disbursements to provide loans, loan guarantees, grants and other assistance; loans, loan guarantees, grants and other assistance shall be subject to assistance agreements

(a) The water development authority shall create and establish a special revolving fund of moneys made available by appropriation, grant, contribution or loan to be known as the "West Virginia Infrastructure Fund". This fund shall be governed, administered and accounted for by the directors, officers and managerial staff of the water development authority as a special purpose account separate and distinct from any other moneys, funds or funds owned and managed by the water development authority. The infrastructure fund shall consist of sub-accounts, as deemed necessary by the council or the water development authority, for the deposit of: (1) Infrastructure revenues; (2) any appropriations, grants, gifts, contributions, loan proceeds or other revenues received by the infrastructure fund from any source, public or private; (3) amounts received as payments on any loans made by the water development authority to pay for the cost of a project or infrastructure project; (4) insurance proceeds payable to the water development authority or the infrastructure fund in connection with any infrastructure project or project; (5) all income earned on moneys held in the infrastructure fund; (6) all funds deposited in accordance with section four of article fifteen-b; and (7) all proceeds derived from the sale of bonds issued pursuant to article fifteen-b of this chapter.

Any money collected pursuant to this section shall be paid into the West Virginia infrastructure fund by the state agent or entity charged with the collection of the same, credited to the infrastructure fund, and used only for purposes set forth in this article or article fifteen-b.

Amounts in the infrastructure fund shall be segregated and administered by the water development authority separate and apart from its other assets and programs. Amounts in the infrastructure fund may not be transferred to any other fund or account or used, other than indirectly, for the purposes of any other program of the water development authority, except that the water development authority may use funds in the infrastructure fund to reimburse

itself for any administrative costs incurred by it and approved by the council in connection with any loan, loan guarantee, grant or other funding assistance made by the water development authority pursuant to this article.

(b) Notwithstanding any provision of this code to the contrary, amounts in the infrastructure fund shall be deposited by the water development authority in one or more banking institutions: Provided, That any moneys so deposited shall be deposited in a banking institution located in this state. The banking institution shall be selected by the water development authority by competitive bid. Pending the disbursement of any money from the infrastructure fund as authorized under this section, the water development authority shall invest and reinvest the moneys subject to the limitations set forth in article eighteen, chapter thirty-one of this code.

(c) To further accomplish the purposes and intent of this article and article fifteen-b of this chapter, the water development authority may pledge infrastructure revenues and from time to time establish one or more restricted accounts within the infrastructure fund for the purpose of providing funds to guarantee loans for infrastructure projects or projects: Provided, That for any fiscal year the water development authority may not deposit into the restricted accounts more than twenty percent of the aggregate amount of infrastructure revenues deposited into the infrastructure fund during the fiscal year. No loan guarantee shall be made pursuant to this article unless recourse under the loan guarantee is limited solely to amounts in the restricted account or accounts. No person shall have any recourse to any restricted accounts established pursuant to this subsection other than those persons to whom the loan guarantee or guarantees have been made.

(d) Each loan, loan guarantee, grant or other assistance made or provided by the water development authority shall be evidenced by a loan, loan guarantee, grant or assistance agreement between the water development authority and the project sponsor to which the loan, loan guarantee, grant or assistance shall be made or provided, which agreement shall include, without limitation and to the extent applicable, the following provisions:

(1) The estimated cost of the infrastructure project or project, the amount of the loan, loan guarantee or grant or the nature of the assistance, and in the case of a loan or loan guarantee, the terms of repayment and the security therefor, if any;

(2) The specific purposes for which the loan or grant proceeds shall be expended or the benefits to accrue from the loan guarantee or other assistance, and the conditions and procedure for disbursing loan or grant proceeds;

(3) The duties and obligations imposed regarding the acquisition, construction, improvement or operation of the project or infrastructure project; and

(4) The agreement of the governmental agency to comply with all applicable federal and state laws, and all rules and regulations issued or imposed by the water development authority or other state, federal or local bodies regarding the acquisition, construction, improvement or operation of the infrastructure project or project and granting the water development authority the right to

appoint a receiver for the project or infrastructure if the project sponsor should default on any terms of the agreement.

(e) Any resolution of the water development authority approving loan, loan guarantee, grant or other assistance shall include a finding and determination that the requirements of this section have been met.

(f) The interest rate on any loan to governmental, quasi-governmental, or not for profit project sponsors for projects made pursuant to this article shall not exceed three percent per annum. Due to the limited availability of funds available for loans for projects, it is the public policy of this state to prioritize funding needs to first meet the needs of governmental, quasi-governmental and not for profit project sponsors and to require that loans made to for-profit entities shall bear interest at the current market rates. Therefore, no loan may be made by the council to a for-profit entity at an interest rate which is less than the current market rate at the time of the loan agreement.

(g) The water development authority shall cause an annual audit to be made by an independent certified public accountant of its books, accounts and records, with respect to the receipts, disbursements, contracts, leases, assignments, loans, grants and all other matters relating to the financial operation of the infrastructure fund, including the operating of any sub-account within the infrastructure fund. The person performing such audit shall furnish copies of the audit report to the commissioner of finance and administration, where they shall be placed on file and made available for inspection by the general public. The person performing such audit shall also furnish copies of the audit report to the Legislature's joint committee on government and finance.

Acts 1994, 1st Ex. Sess., c. 26; Acts 1995, c. 130, eff. March 10, 1995.

Acts 1990, c. 2, abolished the office of commissioner of finance and administration and transferred all duties and powers to the secretary of administration. See § 5A-1-2.

§ 31-15A-10. Recommendations by council for expenditures of funds by loan, grant or for engineering assistance

(a) To further accomplish the purpose and intent of this article, the water development authority shall use the moneys in the infrastructure fund created pursuant to section nine of this article, upon receipt of one or more recommendations from the council pursuant to section five of this article, to make loans, with or without interest, loan guarantees or grants and to provide other assistance, financial, technical or otherwise, to finance all or part of the costs of infrastructure projects or projects to be undertaken by a project sponsor: Provided, That any moneys disbursed from the infrastructure fund in the form of grants shall not exceed twenty percent of the total funds available for the funding of projects. No loan, loan guarantee, grant or other assistance shall be made or provided except upon a determination by the council that the loan, loan guarantee, grant or other assistance and the manner in which it will be provided are necessary or appropriate to accomplish the purposes and intent of this article, based upon an application submitted to the council: Provided,

however, That no grant shall be made to a project sponsor that is not a governmental agency or a not for profit corporation under the provisions of section 501(c) of the Internal Revenue Code of 1986, as amended. Applications for loans, loan guarantees, grants or other assistance may be submitted by a project sponsor for one or more infrastructure projects on preliminary application forms prepared by the council pursuant to section four of this article. Any recommendation of the council approving a loan, loan guarantee, grant or other assistance shall include a finding and determination by the council that the requirements of this section have been met. The council shall base any decisions to loan money for projects to project sponsors pursuant to this article solely on the need of the project sponsors.

(b) The council has the authority in its sole discretion to make grants to project sponsors if it finds that: (1) The level of rates for the users would otherwise be an unreasonable burden given the users' likely ability to pay; or (2) the absence of a sufficient number of users prevents funding of the project except through grants: Provided, That no project sponsor shall receive infrastructure grant money in an amount in excess of fifty percent of the total cost of the project. Therefore, the council may consider the economic or financial conditions of the area to be served. As a condition for receipt of a grant under this subsection, the council may require, in addition to any other conditions, that the applicant pursue other state or federal grant or loan programs. Upon a recommendation by the council, the water development authority shall provide the grant in accordance with the recommendation. The council shall develop criteria to be considered in making grants to project sponsors which shall require consideration of the economic or financial conditions of the area to be served and the availability of other funding sources. The council shall adopt procedural rules regarding the manner in which grants will be awarded in conformity with this section. The procedural rules shall be adopted pursuant to article three, chapter twenty-nine-a of this code.

(c) Notwithstanding any other provision of this article to the contrary, the council shall apply a mandatory minimum end user utility rate that must be met by the project sponsor before funding assistance may be awarded. The mandatory minimum end utility rate shall be based upon a uniform statewide percentage of the median household income in a particular geographic area and said rate shall not exceed six tenths of one percent: Provided, That funding assistance made from the proceeds of any general obligation bonds and revenue bonds issued after the fifteenth day of March, one thousand ninety-eight, after transfers required to make the state match for the water and wastewater revolving loan programs pursuant to article two, chapter twenty-two-c and article thirteen-c, chapter sixteen of this code, shall be provided by the council on a pro rata basis divided equally among the congressional districts of this state as delineated in accordance with section three, article two, chapter one of this code: Provided, however, That infrastructure projects as defined in subsection (1), section two of this article shall be subject to pro rata distribution. When determining median household income of a geographic area of the

project to be served, the council shall consider any surveys of the income of the households that will be served by the project.

(d) No loan or grant funds may be made available for a project if the project to be funded will provide subsidized services to certain users in the service area of the project.

(e) Notwithstanding any other provision of this article to the contrary, engineering studies and requirements imposed by the council for preliminary applications shall not exceed those engineering studies and requirements which are necessary for the council to determine the economic feasibility of the project. If the council determines that the engineering studies and requirements for the preapplication would impose an undue hardship on any project sponsor, the council may provide funding assistance to project sponsors to defray the expenses of the preapplication process from moneys available in the infrastructure fund for making loans: Provided, That the council may only provide funding assistance in an amount equal to five thousand dollars or fifty percent of the total preapplication cost of the project, whichever amount is greater. If the project is ultimately approved for a loan by the council, the amount of funding assistance provided to the project sponsor for the preapplication process shall be included in the total amount of the loan to be repaid by the project sponsor. If the project is not ultimately approved by the council, then the amount of funding assistance provided to the project sponsor will be considered a grant by the council and the total amount of the assistance shall be forgiven. In no event may the amount of funding assistance provided to all project sponsors exceed, in the aggregate, one hundred thousand dollars annually.

(f) The council shall report to the governor, the speaker of the House of Delegates and the president of the Senate during each regular and interim session of the Legislature, on its activities and decisions relating to distribution or planned distribution of grants and loans under the criteria to be developed pursuant to this article.

§ 31–15A–11. Reservation of funds for projects and infrastructure projects

Eighty percent of the funds deposited in the West Virginia infrastructure fund shall be dedicated for the purpose of providing funding for the cost of projects as defined in subsection (n), section two of this article. Twenty percent of the funds deposited in the West Virginia infrastructure fund shall be dedicated for the purpose of providing funding for costs of infrastructure projects as defined in subsection (*l*), section two of this article. Project sponsors of infrastructure projects shall follow the application process as established by this article: Provided, That notwithstanding any provision of this article to the contrary, all applications for any infrastructure project shall be submitted to the council for

community and economic development, or its successor, for review, recommendation and approval regarding infrastructure project funding.

§ 31–15A–12. Additional powers of water development authority

To accomplish the purpose and intent of this article, the water development authority is hereby empowered, in addition to all other powers granted to it under this code, upon approval of the council, to (1) enter into agreements or other transactions with any federal or state agency in connection with any infrastructure project or project; (2) receive or administer on behalf of any federal or state agency grants, subsidies or other payments to be applied to the costs of any infrastructure project or project financed in whole or in part or otherwise assisted by the water development authority, including, but not limited to, payments to be applied to operating costs and debt service or obligations of any project sponsor; (3) receive and accept aid or contributions from any source of money, property, labor or other things of value, to be held, used and applied only for the purposes for which such grants and contributions are made; (4) establish and amend the criteria and qualifications for making loans, loan guarantees or grants, or providing any other assistance, for any infrastructure project or project, and the terms of any loans, loan guarantee, grant or assistance agreement for any project; and (5) do all things which are necessary to further the purposes and intent of this article.

latitude of N. 39° 13' 25" and having a longitude of W. 81° 33' 07"; thence in a northwesterly direction approximately 2.15 miles to a point in the present boundary of Lubeck Public Service District having a latitude of N. 39° 14' 24" and a longitude of W. 81° 35'; thence with the present boundary line of Lubeck Public Service District the following three courses: W. approximately 1.73 miles to a point having a latitude of N. 39° 14' 24" and a longitude of W. 81° 36' 58"; thence southwest approximately 2.9 miles to a point having a latitude of N. 39° 12' 43" and a longitude of W. 81° 38' 58"; thence W. approximately 1.80 miles to the place of beginning.

It is ordered that a public hearing to consider the enlargement of Lubeck Public Service District to include the aforesaid area be held in the Judicial Annex Building of Wood County in the City of Parkersburg, West Virginia, on the 7th day of July, 1988, at 7:00 o'clock P. CASE NO. 88-404-W-PC

WOOD COUNTY COMMISSION,
Parkersburg, Wood County.
Petition for permission to enlarge boundaries of Lubeck Public Service District.

RECOMMENDED DECISION

On June 16, 1988, the Wood County Commission adopted an order to enlarge the boundaries of Lubeck Public Service District to include areas commonly known as Lost Pavement, Missouri Run, Hope Hill, Homewood Road, and Woodyard Creek Road, all of which are located in Wood County. The purpose of this expansion of the Lubeck Public Service District boundaries was to ultimately provide water service to those areas as a part of a future project to be undertaken by that District.

In accordance with the provisions of West Virginia Code §16-13A-2, the order of the Wood County Commission was submitted for the Commission's consideration and approval. In accordance with the provisions of that statute, the Public Service Commission is required to conduct a public hearing in the affected County prior to entering a decision which either approves, modifies or disapproves the proposed Public Service District boundary modifications.

By Order entered on August 3, 1988, hearings in these matters were scheduled to commence in the Judge's Chambers, City Building, 2nd and Avery Streets, Parkersburg, West Virginia, on Tuesday, September 13, 1988, beginning at 10:00 a.m., EDST. The purpose of this hearing was to receive public testimony and to receive additional evidence to determine if the order of the Wood County Commission is in the public interest.

The August 3, 1988 Order required the Wood County Commission to publish a copy of the Commission's Order once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Wood County. On August 30, 1988, the Wood County Commission submitted an affidavit of publication verifying that the required public notice was provided by publication on August 19, 1988 in The Parkersburg News, a newspaper published and of general circulation in Wood County.

The hearing commenced as scheduled. The Wood County Commission and the Lubeck Public Service District were represented by Lawrence M. Ronning, and the Commission's Staff was represented by Ann Rodak of the Legal Division.

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

DISCUSSION

The hearing was well attended by members of the public. The 53 persons in attendance signed a sheet which noted their attendance and indicated whether they were in protest or in support of the proposed boundary expansion. All persons in attendance indicated that they supported the project, except two persons who did not indicate whether they either supported or protested the described boundary expansion.

The Lubeck Public Service District and the Wood County Commission first made statements on the record describing the rationale behind the proposed boundary expansion. Staff then went on record to voice its support for the proposed boundary expansion. Thereafter, members of the public were provided the opportunity to appear and make statements on the record either in support of or against the proposed boundary expansion.

James Cox, the District Manager for Lubeck Public Service District, generally described the territories covered by the proposed boundary expansion and the District's plans for providing water service to those territories. As shown on the map identified as Exhibit 1, the territories in question lie beyond the municipal boundaries of the City of Parkersburg, and they are not currently within the boundaries of any public service district. Both Lubeck Public Service District and Mineral Wells Public Service District have facilities and territories which are directly adjacent to the territories included in the proposed expansion. (Tr., pp. 10-12; Lubeck Exhibit No. 1).

The residents in these territories do not currently have access to a public water supply, and many must transport bottled water or take other measures to meet their water supply needs. These customers have repeatedly approached the City of Parkersburg, Mineral Wells Public Service District and Lubeck Public Service District in an effort to obtain public water to these territories, but to date they have been unable to secure public water from any of the adjacent public utilities. (Tr., pp. 29-35).

As described by Mr. Cox, Lubeck Public Service District is currently unable to extend its facilities by ordinary extensions to serve these territories, and it must upgrade its facilities and add a new treatment plant to be able to serve these customers. These residents have petitioned Lubeck Public Service District for water service, and Lubeck is in the process of performing engineering feasibility studies to determine how water service can best be extended to these territories. (Tr., pp. 6-10).

The Public Service Commission previously approved an engineering contract for the performance of feasibility studies to evaluate the growth and expansion of the Lubeck Public Service District to serve these territories. (Case No. 88-042-W-PC).

Based upon its initial evaluation, Lubeck Public Service District believes that it can extend service throughout these territories as part of a project to upgrade its system and add a new treatment plant to serve its existing facilities as well as the new territories. The District hopes to secure available grant money and low interest loans to finance

the construction of this contemplated project. It is ultimately hoped that service can be extended to these customers to provide quality service at reasonable rates. If everything goes according to schedule, Lubeck Public Service District hopes to submit a proposed project for the Commission's review and consideration as early as 1989. The Mid-Ohio Valley Regional Council and the Wood County Commission have evaluated the ability of both Lubeck Public Service District and Mineral Wells Public Service District to serve these territories, and they have concluded that the plan proposed by Lubeck Public Service District provides the most reasonable alternative for providing much needed water service to these territories. (Tr., pp. 11, 14-15).

Robert L. Skiles, Chief Utilities Manager for the Public Service District Division of the Public Service Commission, testified that Staff had reviewed the proposed boundary expansion and is in support of the enlargement of Lubeck Public Service District's boundaries. During its initial review of the filing, Staff was of the opinion that the proposed boundary expansion should be approved unless Mineral Wells Public Service District provided evidence that it could provide water service to the proposed area of expansion in a more feasible manner than the Lubeck Public Service District. Since Mineral Wells Public Service District had neither submitted a plan for Staff consideration nor appeared at the hearing in opposition to the expansion, Staff believed that it was best for the District to proceed with the expansion of its boundaries and the development of an acceptable project to serve the territory. The Staff believed that the District was taking reasonable measures to evaluate available alternatives for serving the territory, and the approval of the proposed boundary expansion was seen as the first step in providing safe, adequate and reasonably priced water service to these territories. (Tr., pp. 19-22).

Public statements in support of the proposed boundary expansion and the future development of the public water system in these territories were provided by Dale Sole, James E. Smith, David Van Kirk and Betty Bower. All of these customers related the residents' longstanding desire to obtain public water service to meet the needs of the territory, and the approval of the boundary expansion was seen as the first significant step towards securing adequate water service. The residents have been trying to obtain appropriate water service to this territory for over 15 years, and the residents had wide spread support for the development of water service to these territories by Lubeck Public Service District. (Tr., pp. 28-35).

Upon review of all of the above, the Administrative Law Judge is of the opinion that the July 7, 1988 Order of the Wood County Commission to enlarge the boundaries of Lubeck Public Service District is reasonable and appropriate and is consistent with the public interest. Therefore, the proposed boundary expansion shall be approved by this order. The proposed enlargement of the Lubeck Public Service District boundaries to include the territories of Lost Pavement, Missouri Run, Hope Hill, Homewood Road and Woodyard Creek Road appears to represent the initial step in securing a much needed public water supply to serve these territories.

While the residents of these areas are eager to get water service in this territory as soon as possible, the Administrative Law Judge notes that the Commission's approval of the described enlargement to Lubeck Public Service District's boundaries shall in no way constitute prior approval of any proposed project to serve these territories which is subsequently submitted by Lubeck Public Service District. When submitted, such a project would be reviewed on its own merits to insure that the described service and facilities were properly designed, the project is supported by adequate financing, rates and charges, and the project is consistent with the public interest.

Even though a specific project has yet to be submitted and reviewed, it is reasonable to grant the proposed boundary expansion at this time so that an acceptable project can be developed by Lubeck Public Service District as soon as possible to satisfy the public needs throughout these territories. If, for some reason, the contemplated project does not proceed to construction in a timely manner, and the approved expansion of Lubeck Public Service District's boundaries proves to be a hindrance to the development of alternate public water supplies to serve these territories, the Wood County Commission and the Public Service Commission would have to take appropriate steps to subsequently modify Lubeck Public Service District's boundaries as necessary to promote the development of alternate water projects.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

1. The Wood County Commission's order proposes to expand the boundaries of Lubeck Public Service District to include certain unincorporated territories adjacent to Lubeck Public Service District which currently have no source of water supply. (July 3, 1988 Application and attachments).

2. Lubeck Public Service District is in the process of evaluating a proposed project to include the expansion of service into these designated territories in conjunction with a project to expand the District's capacity and upgrade its facilities to meet the needs of existing and future customers. Lubeck Public Service District intends to seek available funding and file for a certificate of convenience and necessity from the Commission for such a project as soon as possible, hopefully as early as 1989. (Tr., pp. 11, 14-15).

3. Based upon preliminary estimates, it is anticipated that Lubeck Public Service District can provide quality water service at reasonable rates to these areas, and an appropriate project can be submitted for the Commission's review and approval. (Tr., pp. 11, 14-15).

4. Mineral Wells Public Service District, which is another water utility which serves adjacent territories, has not submitted an alternate proposal for serving the territory in question, and it did not appear in opposition to the proposed expansion of boundaries by Lubeck Public Service District. (Tr., pp. 10-12).

5. The general public in the affected territories supports the expansion of Lubeck Public Service District's boundaries. (Tr., pp. 28-35).

6. The Staff of the Public Service Commission supported the proposed boundary expansion, and believed the District was taking reasonable measures to evaluate available alternatives for serving the territory. (Tr., pp. 19-22).

CONCLUSION OF LAW

Upon consideration of all of the above, the Administrative Law Judge is of the opinion that the July 7, 1988 Order of the Wood County Commission to enlarge the boundaries of Lubeck Public Service District is reasonable and appropriate and consistent with the public interest. This approval shall in no manner constitute any prior approval for any project which is subsequently designed to serve these territories, and such a project, when developed, must be submitted to the Commission and reviewed on its own merits.

ORDER

IT IS, THEREFORE, ORDERED that the July 7, 1988 Order of the Wood County Commission to enlarge the boundaries of Lubeck Public Service District to include the territories of Lost Pavement, Missouri Run, Hope Hill, Homewood Road, and Woodyard Creek Road, is hereby approved. Any project which is subsequently developed to serve this territory shall be submitted to the Commission for review and approval on its own merits.

The Executive Secretary is hereby ordered to serve a copy of this order upon the Commission by hand delivery, and upon all parties of record by United States Certified Mail, return receipt requested.

Leave is hereby granted to the parties to file written exceptions supported by a brief with the Executive Secretary of the Commission within fifteen (15) days of the date this order is mailed. If exceptions are filed, the parties filing exceptions shall certify to the Executive Secretary that all parties of record have been served said exceptions.

If no exceptions are so filed this order shall become the order of the Commission, without further action or order, five (5) days following the expiration of the aforesaid fifteen (15) day time period, unless it is ordered stayed or postponed by the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's Order by filing an appropriate petition in writing with the Secretary. No such waiver will be effective until approved by order of the Commission, nor shall any such waiver operate to make any Administrative Law Judge's Order or Decision the order of the

Commission sooner than five (5) days after approval of such waiver by the Commission.

Entered: September 2, 1997

CASE NO. 97-0297-PSWD-PC

WOOD COUNTY COMMISSION
Petition for consent and approval
for enlargement of the boundaries of
the Mineral Wells Public Service District.

CASE NO. 97-0483-PSWD-PC

WOOD COUNTY COMMISSION
Petition for consent and approval to
enlarge and readjust the boundaries
of Lubeck Public Service District.

RECOMMENDED DECISION

Case No. 97-0297-PSWD-PC

On March 19, 1997, the Wood County Commission filed a petition seeking Commission approval for the enlargement of the boundaries of the Mineral Wells Public Service District. Such enlargement would incorporate areas in Steele, Slate and Tygart Magisterial Districts of Wood County.

Case No. 97-0483-PSWD-PC

On April 25, 1997, the Wood County Commission filed a petition seeking Commission approval to enlarge and readjust the boundaries of the Lubeck Public Service District.

By Order dated June 6, 1997, Case Nos. 97-0483-PSWD-PC and 97-0297-PSWD-PC were consolidated and referred to the Division of Administrative Law Judges for a decision to be rendered on or before October 15, 1997.

In Final Joint Memoranda filed in these cases on May 22 and June 3, 1997, Staff Attorney J. Joseph Watkins, Esquire, indicated that, in both cases, Staff recommended approval of the Wood County Commission's petitions and that the matters be set for hearing as required by West Virginia Code §16-13A-2.

By Order dated July 16, 1997, these matters were set for hearing to be held in the Court Room, Second Floor, City-County Complex, Parkersburg, West Virginia, on August 13, 1997. Said order also required that the Wood County Commission give notice of the date, time and place of the hearing by publishing a Notice of Hearing once in a newspaper, duly qualified by the

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

Secretary of State, published and of general circulation in Wood County. The hearing was held as scheduled. The Wood County Commission appeared by its counsel Ellen Madeglio, Esquire. The Lubeck Public Service District appeared by its counsel Lawrence Ronning, Esquire. Commission Staff was represented by Staff Attorney J. Joseph Watkins.

No one appeared at the hearing in protest after proper publication had been made, as evidenced by the affidavit of publication dated August 4, 1997, which was filed with the Commission on August 11, 1997.

FINDINGS OF FACT

1. In Case No. 97-0297-PSWD-PC, on March 19, 1997, the Wood County Commission filed a petition seeking Commission approval for the enlargement of the boundaries of the Mineral Wells Public Service District. (See, petition).

2. In Case No. 97-0483-PSWD-PC, on April 25, 1997, the Wood County Commission filed a petition seeking Commission approval to enlarge and readjust the boundaries of Lubeck Public Service District. (See, petition).

3. In a Final Joint Staff Memorandum filed in these cases on May 22 and June 3, 1997, Staff Attorney J. Joseph Watkins advised that, in both cases, Staff recommended approval of the Wood County Commission's petitions. (See, Final Joint Staff Memorandum filed May 22, 1997 and June 3, 1997).

4. By Order dated July 16, 1997, these matters were set for hearing to be held in the Court Room, Second Floor, City-County Complex, Parkersburg, West Virginia, on August 13, 1997. Said Order also required that the Wood County Commission give notice of the hearing by publishing a Notice of Hearing once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Wood County. (See, Order dated July 16, 1997).

5. The Wood County Commission published the Notice of Hearing in Wood County in accordance with the Commission's requirements. (See, affidavit of publication filed August 11, 1997).

6. At the hearing held in these cases on August 13, 1997, no one appeared in protest to the orders of the Wood County Commission. (See, Tr., p. 5).

CONCLUSION OF LAW

The Administrative Law Judge is of the opinion and finds that, since the Wood County Commission gave proper notice of the hearing to be held in these cases, and no one appeared in protest to the petitions at the hearing held on August 13, 1997, the orders of the Wood County Commission in these cases can be approved as unprotested.

ORDER

IT IS, THEREFORE, ORDERED that the order of the Wood County Commission dated April 10, 1997, filed in Case Nos. 97-0297-PSWD-PC and 97-0483-PSWD-PC, adjusting the boundaries of Mineral Wells Public Service District and Lubeck Public Service District, be, and the same hereby is, approved.

The Executive Secretary is hereby ordered to serve a copy of this order upon the Commission by hand delivery, and upon all parties of record by United States Certified Mail, return receipt requested.

Leave is hereby granted to the parties to file written exceptions supported by a brief with the Executive Secretary of the Commission within fifteen (15) days of the date this order is mailed. If exceptions are filed, the parties filing exceptions shall certify to the Executive Secretary that all parties of record have been served said exceptions.

If no exceptions are so filed this order shall become the order of the Commission, without further action or order, five (5) days following the expiration of the aforesaid fifteen (15) day time period, unless it is ordered stayed or postponed by the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's Order by filing an appropriate petition in writing with the Secretary. During the open portion of the meeting, prior to convening an executive session, the Chairperson shall identify the authorization under Chapter 6, Article 9A, Section 4 of the Code of West Virginia, 1931, as amended, for holding the executive session and present it to the Board and to the general public, but no decision may be made in the executive session. An executive session may be held only upon a majority affirmative vote of the Board members present. Rule No. 6. No Actions by Reference. Except as otherwise expressly provided by law, the Board may not deliberate, vote, or otherwise take official action upon any matter by reference to a letter, number or other designation or other secret device or method, which may render it difficult for persons attending a meeting to understand what is being deliberated,

voted or acted upon. However, this rule does not prohibit the Board from deliberating, voting or otherwise taking action by reference to an agenda, if copies of the agenda, sufficiently worded to enable the public to understand what is being deliberated, voted or acted upon, are available for public inspection at the meeting. The Board may not vote by secret or written ballot.

The Board shall allow the equipment to be placed within the meeting room in such a way as to permit its intended use, and the ordinary use of the equipment may not be declared to constitute undue interference; provided, that if the Board, in good faith, determines that the size of the meeting room is such that all the members of the public present and the equipment and personnel necessary for broadcasting, photographing, filming and tape-recording the meeting cannot be accommodated in the meeting room without unduly interfering with the meeting and an adequate alternative meeting room is not readily available, then the Board, acting in good faith and consistent with the purposes of this rule, may require the pooling of the equipment and the personnel operating it.

Rule No. 8. Telephonic Meetings. Board meetings may be held by telephone conference or other electronic means. All Board members participating by telephone or other electronic means must be audible to all those personally present.

APPROVED ATTESTED

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

At a session of the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 13th day of November 2009.

CASE NO. 08-2016-PSWD-42A

LUBECK PUBLIC SERVICE DISTRICT,
a public utility, Washington, Wood County.
Rule 42A application to increase water and sewer rates and charges.

COMMISSION ORDER

The Commission declines to adopt the Recommended Decision with regard to rates and issues an Order approving the water and sewer rate increase originally requested by the District.

BACKGROUND

On November 24, 2008, Lubeck Public Service District ("District") filed a *Tariff Rule* 42A application requesting an increase in its annual revenue for providing water service by approximately $176,051, or 11%, and requesting an increase in its annual revenues for providing sewer service by approximately $117,033, or 11%. *See,* November 24, 2008 application.

On February 24, 2009, William T. Argabite, a customer of the District, filed a complaint against the District that was treated as a protest. Numerous other letters of protest were filed. On March 23, 2009, another customer, John P. Penczak, filed a petition to intervene.

By March 27, 2009 Order, the Administrative Law Judge Division ("ALJ") granted intervenor status to Mr. Argabite and Mr. Penczak.

On April 15, 2009, Staff filed a Final Joint Staff Memorandum, recommending an increase of approximately 12% in water rates and 6% in sewer rates. The Staff indicated that its recommended 12% water rate increase would provide sufficient cash to pay water operation and maintenance expenses, taxes and debt service and result in a cash surplus available for plant additions of approximately $111,000. Staff further indicated that the District should consider using up to $25,000 per year from existing renewal and replacement cash reserves to fund additional plant additions. The Staff recommendation regarding the 6%

sewer rate increase indicated that the recommended increase would allow the District to meet its ongoing cash requirements and provide approximately $55,000 in cash surplus available for plant additions. Staff also indicated that up to $20,000 per year of additional cash was available to the District from existing renewal and replacement cash reserves.

On May 26, 2009, the District filed a letter requesting authorization from the West Virginia Infrastructure and Jobs Development Council ("WVIJDC") to convert $2,136,720 of a 2005 BAN to permanent financing.

The WVIJDC approved the District request in a letter on June 4, 2009.

On June 9, 2009, Staff filed a Further Final Memorandum ("FFM") with recommendations that varied significantly from its Initial Memo. In this revised set of recommendations, Staff recommended a water rate increase of 9.5% and a sewer increase of 13.5%. For the District's water operations, Staff indicated that the District could now finance $600,000 for an extensive tank maintenance project and still have cash surplus of approximately $117,000. Staff again indicated that the District should consider using up to $25,000 per year from existing renewal and replacement cash reserves to fund additional plant additions. With regard to the sewer operations, in the June 9, 2009 FFM Staff indicated that its new sewer rate recommendation would provide debt service to convert approximately $2,100,000 of an existing Bond Anticipation Note (BAN) to permanent financing, provide sufficient funds to finance a new high-pressure line cleaning machine, and also provide a slightly higher cash surplus as compared to Staff's earlier recommendation.

On June 11, 2009, the ALJ held a hearing and issued a Recommended Decision on August 19, 2009. The ALJ held the Staff recommended rates to be sufficient to cover reasonable Operation and Maintenance ("O & M") expenses and provide the proper debt service coverage and cash surplus for reasonable plant additions.

The ALJ concluded that the Intervenors presented no evidence that reasonably rebutted the Staff-recommended sewer rate increase. Staff originally recommended a smaller rate increase but later considered the District's request for inclusion of a payment to convert approximately $2,100,000 of a BAN to permanent financing, increasing the principal loan payment by $73,680. The BAN was issued for a 1998 certificate project. *See* Case No.98-0009-W-CN. The ALJ held that it is reasonable to include the BAN payment in the instant rate case rather than require the District to incur further expenses in another filing to convert the BAN by the March 1, 2010 deadline. The District converted a portion of the BAN to permanent financing in 2005. *See* Case No. 05-0115-PSD-PC.

On September 3, 2009, Intervenor John Penczak filed exceptions to the Recommended Decision, arguing that:

(i) there is a pattern utilities using funds generated from a rate increase for purposes other than the stated purpose for increase. (TR., p. 113);

(ii) in test year 2008, the District made excessive loan principal payments. (TR., p. 126) In a telephone conversation, Staff indicated that the 2008 loan principal payments were far greater that the previous year, and deleting the excess payment would reduce the rate increase.

(iii) Staff is not aware of any other public service district paying100% of employee health insurance premiums. (TR., p. 159);

(iv) BAN conversion funding constitutes approximately 7.5% of the 13.5% sewer rate increase and therefore the conversion should be delayed until the March 1, 2010 due date, or in the alternative, for two years to allow for the addition of new customers to support the additional debt; and

(v) the Commission should reexamine the BAN and make the rate setting process simpler, less costly and more accountable.

On September 14, 2009, the District filed the following responses, corresponding to the Exceptions:

(i) Under the rate setting process for municipal public utilities (sic) established by the state legislature and implemented by the Commission, public service districts cannot accumulate funds to meet unforeseen emergencies, although depreciation and replacement reserves for capital expenditures are addressed in the process. Occasionally a utility must use funds planned for another use to meet emergencies. (TR., p. 60).

(ii) The Staff statement concerning excessive loan principal payments was not presented to the ALJ nor has the Intervenor requested reopening the proceeding to take additional evidence. The refunded amount, however, was not an excessive repayment of an existing loan obligation. Rather the District was required to refund the unused portion of a loan extended to the District to replace and restore water tank storage capacity and extend service lines to the tanks.

(iii) The payment of 100% of employee health insurance premiums is a benefit provided in lieu of paying higher wages with all the associated fringe benefit costs. (TR. p. 145, 146) and Staff was not critical of this decision.

(iv) The WVIJDC requires the conversion of the current BAN by March, 2010, not 2011, and the claim that there will be sufficient new customers to make the additional payment is speculative.

(v) Deferring the refund of the BAN until March 1, 2010 rather than addressing the request in this proceeding would require a separate petition for sewer rate relief and incur several months delay and additional transactional costs.

In its response, the District also requested clarification of the Recommended Decision. The approved rate increase included funding to acquire a replacement dump truck and tractor but the Recommended Decision did not authorize these purchases and should be amended to do so. In addition, the Recommended Decision contains a typographical error authorizing a tank rehabilitation loan to be repaid over five years, rather than fifteen years, as Staff recommended and the rates allow.

On September 21, 2009, the District requested emergency interim implementation of the recommended rates, subject to refund, arguing it cannot complete operations for the fiscal year at current rates without risking compliance with bond covenants. The District has filed affidavits of publication of the Staff-recommended water and sewer rates.

DISCUSSION

The Commission finds this case to be troubling mainly due to the changing and confusing recommendations that were received throughout the processing of the case. As pointed out in the Recommended Decision, Staff first recommended an increase of approximately 12% in water rates and 6% in sewer rates. The recommendation suggested that the District was adequately staffed, reasonably shared employee responsibilities between water and sewer operations and had relatively low levels of unaccounted-for water. The Staff recommendation further suggested that the District had relatively high levels of infiltration and inflow into its sewer lines, but recommended only further study and consideration of remedial actions by the District.

The Staff indicated that its recommended 12% water rate increase would provide sufficient cash for meeting water operation and maintenance expenses, taxes and debt service and result in a cash surplus available for plant additions of approximately $111,000. Staff further indicated that the District should consider using up to $25,000 per year from existing renewal and replacement cash reserves to fund additional plant additions.

The Staff recommendation regarding the 6% sewer rate increase indicated that the recommended increase would allow the District to meet is ongoing cash requirements and provide $55,000 in cash surplus available for plant additions. The Staff also indicated that up to $20,000 per year of additional cash was available to the District from existing renewal and replacement cash reserves.

On June 9, 2009, Staff filed a second set of recommendations in the FFM that varied significantly from its Final Memorandum. In this revised set of recommendations, Staff changed its recommended water rate increase from 12% to 9.5%, going from a

recommendation that was originally higher than the District's request to one that is now lower than the District's request. Staff changed its recommended sewer increase from 6% to 13.5%, moving in the opposite direction and now recommending an increase higher than the District's request. Even though it reduced its recommended water increase to 9.5%, the Staff indicated that the District could now finance $600,000 for an extensive tank maintenance project and still have cash surplus of approximately $117,000, which was greater than that projected in the first Staff recommendation. Staff again indicated that the District should consider using up to $25,000 per year from existing renewal and replacement cash reserves to fund additional plant additions.

In the June 9, 2009, FFM, Staff recommended a much higher sewer rate increase from its initial recommendation in large part due to the introduction of a proposal to increase debt costs to refinance approximately $2.1 million of an existing BAN that was due to be refinanced in early 2010. Staff also added a recommendation for the financing of a high-velocity pipe cleaning system which had not been mentioned in the initial Staff recommendation. The new Staff sewer rate recommendation would also provide a slightly higher cash surplus as compared to Staff's earlier recommendation. This recommendation did not suggest any ongoing use for the existing renewal and replacement cash reserves for the sewer operations.

On June 12, 2009, Staff filed a Further Final Memorandum that corrected its initial recommendation. This memo indicated that at the original recommendation of a 12% water rate increase, the District would have generated cash surplus for plant additions of approximately $178,000 instead of the originally calculated $111,000.

Staff recommendations are not, and should not be considered, directives of the Commission. The recommendations provide suggestions regarding the operations of the utility and suggestions regarding capital improvements and acquisition of equipment that the utility should seriously consider. Although the Commission may sometimes find it necessary to order specific remedial actions by a utility, when the utility has proposed a rate change and filed a proposed tariff and supporting financial documentation in the format prescribed by *Tariff Rule 42*, a review of requested rates and the justification for such rates is the preferred regulatory approach.

The District originally filed a case requesting an 11% across-the-board increase in its water and sewer rates. The subsequent Staff evaluations of the District's operations and capital requirements have demonstrated that the requested rates are reasonable. We are not inclined to complicate this case further or delay the implementation of a needed rate increase to further analyze the various options that the District has for spending the cash that is produced at its requested 11% rate increase. There is no indication that the District is not properly managing its operations or its cash. To the contrary, the record indicates that the District is in touch with its needs, is proactive in determining the revenue requirements associated with its operational and construction needs and is responsive to suggestions from Staff. The District has indicated that it is committed to the maintenance program for storage

facilities and equipment purchases as recommended by Staff and it appears that the District was doing so before it received such suggestions from Staff. There is no indication that the storage facility maintenance, equipment purchase or normal ongoing plant additions are unreasonable or imprudent. Accordingly, there is no reason why the Commission needs to authorize a particular equipment purchase.

The Commission will not adopt any of the across-the-board rate recommendations made by Staff or the Recommended Decision of the ALJ. The Commission concludes that the District's original *Tariff Rule* 42A application for a water rate increase of approximately $176,051, or 11%, and a sewer rate increase of approximately $117,033, or 11% is a reasonable rate increase for the District. The record supports a finding that these increases originally requested by the District were reasonable and would produce revenue that was sufficient, but not more than sufficient, to operate the utility in a reasonable and efficient manner. We shall also adopt the Staff recommended leak adjustment rate and minor modification to wording in certain tariff provisions to make them consistent with current Commission policy. We note that the water rate increase herein authorized provides sufficient cash for the District to proceed with the accelerated maintenance project on its water storage facilities and we expect the District to follow through on that project. The Commission will herein approve the financing of the proposed water storage facility maintenance project and authorize a tank rehabilitation loan to be repaid over five years.

We further note that the District has requested approval to refinance a portion of its existing Sewer BAN. The Commission will herein approve the refinancing of that note, with permanent financing of up to $2,136,720 at 0% for 30 years and a new Bond Anticipation Note which shall carry an interest rate of 0% for five years with an annual payment of $100 and which will become due and payable at March 1, 2015.

FINDINGS OF FACT

1. The District filed a *Tariff Rule* 42A application requesting an increase in its annual revenue for providing water service by approximately $176,050, or 11%, and an increase in its annual revenues for providing sewer service by approximately $117,033, or 11%. *See,* November 24, 2008 application.

2. The ALJ granted intervenor status to Mr. Penczak.

3. The WVIJDC approved the District's request to convert $2,136,720 of a 2005 BAN to permanent financing.

4. Staff revised its water report, resulting in a change in the Staff-recommended water rate increase from 6 % across-the-board to 9.53% across-the-board. Staff further revised its sewer report to provide debt service to convert approximately $2,136,720 of a BAN to

permanent financing, resulting in a change in the Staff-recommended sewer rate increase from 6% across -the-board to 13.5% across-the-board.

5. The ALJ recommended approval of the Staff-recommended water and sewer rates and the BAN conversion.

6 Intervenor Penczak filed exceptions to the Recommended Decision.

7. The District responded to the exceptions.

CONCLUSIONS OF LAW

1. The District's original *Tariff Rule* 42A application for a water rate increase of approximately $176,051, or 11%, and a sewer rate increase of approximately $117,033, or 11% is a reasonable rate increase for the District.

2. The across-the-board increases originally requested by the District were reasonable and will produce revenue that is sufficient, but not more than sufficient, to operate the utility in a reasonable and efficient manner.

3. It is reasonable for the Commission to approve the financing of $600,000 for the proposed water storage facility maintenance project and authorize a tank rehabilitation loan to be repaid over five years.

4. It is reasonable for the Commission to approve the refinancing of the District's existing Sewer Bond Anticipation Note, with permanent financing of up to $2,136,720 at 0% for 30 years and a new Bond Anticipation Note which shall carry an interest rate of 0% for five years with an annual payment of $100 and which will become due and payable at March 1, 2015.

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

At a session of the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 3rd day of December 2009.

CASE NO. 08-2016-PSWD-42A

LUBECK PUBLIC SERVICE DISTRICT,
a public utility, Wood County.
Rule 42A application to increase water and sewer rates and charges.

COMMISSION CORRECTIVE ORDER

On November 13, 2009, the Commission issued an Order approving a water and sewer rate increase for the Lubeck Public Service District, as filed by the District.

It has come to the attention of the Commission that the water tariff filed by the District which was approved and attached to the Order ("Attachment A") contains errors. The Minimum Charge section, on page one of Attachment A, paragraph one, incorrectly states the minimum bill amount and does not clearly describe that there were multiple minimum charges depending on meter size.

It has further come to the attention of the Commission that the Order issued on November 13, 2009 incorrectly stated that the approved $600,000 tank rehabilitation loan would be repaid over five years. Conclusion of Law Number 3 and Ordering Paragraph 3. The proposed and approved repayment term was actually fifteen years rather than five years.

IT IS THEREFORE ORDERED that Conclusion of Law Number 3 in the November 13, 2009 is modified to refer to a repayment term of fifteen years.

IT IS FURTHER ORDERED that a tank rehabilitation loan to be repaid over fifteen years is approved.

IT IS FURTHER ORDERED that to correct the error in the November 13, 2009 Order and ambiguity in the filed tariff, the water tariff Minimum Charge section previously approved by the Commission is corrected to read as follows:

MINIMUM CHARGE

No bill will be rendered for less than the following amount, depending on the size of the meter serving the customer.

5/8 inch meter	$14.16 per month
1 inch meter	$35.40 per month
2 inch meter	$113.30 per month
3 inch meter	$212.40 per month
4 inch meter	$354.00 per month
6 inch meter	$708.00 per month

IT IS FURTHER ORDERED that except as corrected herein, the November 13, 2009 Order remains in full force and effect.

IT IS FURTHER ORDERED that the Commission Executive Secretary serve a copy of this order on all parties of record by United States First Class Mail and upon Commission Staff by hand delivery.

Dear Mr. Cox:

The West Virginia Infrastructure and Jobs Development Council (Council), at its June 3, 2009 meeting, reviewed the Lubeck Public Service District's (District) request to restructure Sewerage System Bond Anticipation Notes 2005 (BAN) issued by the District to the West Virginia Water Development Authority (WDA) on behalf of the Council. The BAN matures on March 1, 2010.

The Council reviewed and approved the District's request to convert a portion of the BAN to bonds and to reissue a smaller bond anticipation note as outlined on the attached Schedule A.

The Council will enter into Loan agreements with the District following receipt of the completed Schedule B, a final, non-appealable order from the Public Service Commission authorizing the borrowing and any other documents requested by the Council.

No statements or representations made before or after the issuance of this contingent commitment by any person or member of the Council shall be construed as approval to alter or amend this commitment, as all such amendments or alterations shall only be made in writing after approval of the Council.

If this commitment letter is acceptable to the District, please execute two copies of this letter and return to the Council at the address below not later than **July 15, 2009.** If the Council does not receive this acknowledged commitment letter by July 15, 2009, the Council shall consider this offer rejected.

If the District has any questions regarding this commitment, please contact Angela K. Chestnut at the 304-558-4607.

(iii) That the Governmental Agency shall complete the Project and operate and maintain the System in good condition;

(iv) That, except as otherwise required by State law or with the written consent of the Council and the Authority, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to pay fully all the Local Bonds outstanding, with further restrictions on the disposition of portions of the System as are normally contained in such covenants;

(v) That the Governmental Agency shall not issue any other obligations payable from the revenues of the System which rank prior to, or equally, as to lien and security with the Local Bonds, except parity bonds which shall only be issued if net revenues of the System prior to issuance of such parity bonds, plus reasonably projected revenues from rate increases and the improvements to be financed by such parity bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on all Local Bonds and parity bonds theretofore and then being issued and on any obligations secured by a lien on or payable from the revenues of the System prior to the Local Bonds and with the prior written consent of the Authority and the Council; provided, however, that additional parity bonds may be issued to complete the Project, as described in the Application as of the date hereof, without regard to the foregoing;

(vi) That the Governmental Agency will carry such insurance as is customarily carried with respect to works and properties similar to the System, including those specified by Section 2.8 hereof;

(vii) That the Governmental Agency will not render any free services of the System;

(viii) That the Authority may, by proper legal action, compel the performance of the duties of the Governmental Agency under the Local Act, including the making and collection of sufficient rates or charges for services rendered by the System, and shall also have, in the event of a default in payment of principal of or interest on the Local Bonds, the right to obtain the appointment of a receiver to administer the System or construction of the Project, or both, as provided by law;

(ix) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, all delinquent rates and charges, if not paid when due, shall become a lien on the premises served by the System;

(x) That, to the extent legally allowable, the Governmental Agency will not grant any franchise to provide any services which would compete with the System;

(xi) That the Governmental Agency shall annually cause the records of the System to be audited by an independent certified public accountant or independent public accountant and shall submit the report of said audit to the Authority and

the Council, which report shall include a statement that notes whether the results of tests disclosed instances of noncompliance that are required to be reported under government auditing standards and, if they are, describes the instances of noncompliance and the audited financial statements shall include a statement that notes whether the Governmental Agency's revenues are adequate to meet its Operating Expenses and debt service and reserve requirements;

(xv) That, as long as the Authority is the owner of any of the Local Bonds, the Governmental Agency may not redeem any Local Bonds by it without the written consent of the Authority and the Council and otherwise in compliance with this Loan Agreement;

(xvi) That the West Virginia Municipal Bond Commission (the "Commission") shall serve as paying agent for the Local Bonds;

The Governmental Agency shall complete the Monthly Payment Form, attached hereto as Exhibit D and incorporated herein by reference, and submit a copy of said form along with a copy of the check or electronic transfer to the Authority by the 5th day of such calendar month. When required by the Authority, the Local Entity shall make monthly payments to the Commission by electronic transfer;

West Virginia Water Development Authority

Ladies and Gentlemen:

We are bond counsel to _____ (the "Governmental Agency"), a _____.

We have examined a certified copy of proceedings and other papers relating to the authorization of (i) a loan agreement dated _____, _____, including all schedules and exhibits attached thereto (the "Loan Agreement"), between the Governmental Agency and the West Virginia Water Development Authority (the "Authority"), on behalf of the West Virginia Infrastructure and Jobs Development Council (the "Council"), and (ii) the issue of a series of revenue bonds of the Governmental Agency, dated _____, (the "Local Bonds"), to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Local Bonds are issued in the principal amount of $_____, in the form of one bond, registered as to principal and interest to the Authority, with interest and principal payable quarterly on March 1, June 1, September 1 and December 1 of each year, beginning _____, 1, _____, and ending _____, 1, _____, as set forth in the "Schedule Y" attached to the Loan Agreement and incorporated in and made a part of the Local Bonds.

The Local Bonds are issued for the purposes of (i) _____, and (ii) paying certain issuance and other costs in connection therewith.

We have also examined the applicable provisions of _____ of the Code of West Virginia, 1931, as amended (the "Local Statute"), and the bond _____ duly adopted or enacted by the Governmental Agency on _____, as supplemented by the supplemental resolution duly adopted by the Governmental Agency on _____ (collectively, the "Local Act"), pursuant to and under which Local Statute and Local Act the Local Bonds are authorized and issued, and the Loan Agreement has been undertaken. The Local Bonds are subject to redemption prior

to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Local Act and the Loan Agreement.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion as follows:

1. The Loan Agreement has been duly authorized by and executed on behalf of the Governmental Agency and is a valid and binding special obligation of the Governmental Agency, enforceable in accordance with the terms thereof.

2. The Loan Agreement inures to the benefit of the Authority and the Council and cannot be amended so as to affect adversely the rights of the Authority or the Council or diminish the obligations of the Governmental Agency without the consent of the Authority and the Council.

3. The Governmental Agency is a duly organized and validly existing _____, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt or enact the Local Act and to issue and sell the Local Bonds, all under the Local Statute and other applicable provisions of law.

4. The Local Act and all other necessary orders and resolutions have been legally and effectively adopted or enacted by the Governmental Agency and constitute valid and binding obligations of the Governmental Agency, enforceable against the Governmental Agency in accordance with their terms. The Local Act contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

5. The Local Bonds have been duly authorized, issued, executed and delivered by the Governmental Agency to the Authority and are valid, legally enforceable and binding special obligations of the Governmental Agency, payable from the net or gross revenues of the System set forth in the Local Act and secured by a first lien on and pledge of the net or gross revenues of the System, all in accordance with the terms of the Local Bonds and the Local Act.

6. The Local Bonds are, by statute, exempt _____, and under existing statutes and court decisions of the United States of America, as presently written and applied, the interest on the Local Bonds is excludable from the gross income of the recipients thereof for federal income tax purposes.

No opinion is given herein as to the effect upon enforceability of the Local Bonds of bankruptcy, insolvency, reorganization, moratorium and other laws affecting creditors' rights or in the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Local Bond numbered R-1, and in our opinion the form of said bond and its execution and authentication are regular and proper.

Very truly yours,

Item 1 You will need a copy of the current fiscal year budget adopted by the Governmental Agency to complete Items 1 and 2. This is the incremental amount for the Budget Year-to-Date column.

Item 2 Provide the amount of actual **Operating Expenses** for the current month and the total amount year-to-date in the respective columns. Any administrative fee should be included in the Operating Expenses. Divide the budgeted annual Operating Expenses by 12. Item 4 Provide the amount deposited into the **Renewal and Replacement Fund** each month. This amount is equal to 2.5% of Gross Revenues minus the total reserve account payments included in Item 3. If Gross Revenues are $1,200, then $30 (2.5% of $1,200), LESS the amount of all reserve account payments in Item 3 should be deposited into the Renewal and Replacement Fund. The money in the Renewal and Replacement Fund should be kept separate and apart from all other funds of the Governmental Agency.

If facilities of the System which are detrimentally affected by flooding are or will be located in designated special flood or mudslide-prone areas and if flood insurance is available at a reasonable cost, a flood insurance policy must be obtained by the Governmental Agency on or before the Date of Loan Closing, as hereinafter defined, and maintained so long as any of the Notes is outstanding. Prior to commencing operation of the Project, the Governmental Agency must also obtain, and maintain so long as any of the Notes are outstanding, business interruption insurance if available at a reasonable cost.

2.9 The Governmental Agency shall provide and maintain competent and adequate engineering services satisfactory to the Council and the Authority covering the supervision and inspection of the development and construction of the Project, and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the Authority, the Council and the Governmental Agency at the completion of construction that construction is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies.

2.10 The Governmental Agency shall at all times provide operation and maintenance of the System in compliance with any and all State and federal standards. The Governmental Agency shall employ qualified operating personnel properly certified by the State to operate the System during the entire term of this Loan Agreement.

2.11 The Governmental Agency hereby covenants and agrees to comply with all applicable laws, rules and regulations issued by the Council, the Authority or other State, federal or local bodies in regard to the construction of the Project and operation, maintenance and use of the System.

ARTICLE III

Conditions to Loan;
Issuance of Notes

3.1 The agreement of the Authority and Council to make the Loan is subject to the Governmental Agency's fulfillment, to the satisfaction of the Authority and the Council, of each and all of those certain conditions precedent on or before the delivery date for the Notes, which shall be the date established pursuant to Section 3.4 hereof. (c) The Governmental Agency shall either have received bids or entered into contracts for the construction of the Project which are in an amount and otherwise compatible with the plan of financing described in the Application; provided that, if the Loan will refund an interim construction financing, the Governmental Agency must either be constructing or have constructed its Project for a cost and as otherwise compatible with the plan of financing described in the Application;

(d) The Governmental Agency shall have obtained all permits required by the laws of the State and the federal government necessary for the construction of the Project;

(f) The Governmental Agency shall have obtained any and all approvals for the issuance of the Notes required by State law, and the Authority and the

Council shall have received an opinion of counsel to the Governmental Agency, which may be local counsel to the Governmental Agency, bond counsel or special PSC counsel but must be satisfactory to the Authority, to such effect;

(g) The net proceeds of the Notes, together with all moneys on deposit or to be simultaneously deposited and irrevocably pledged thereto and the proceeds of grants irrevocably committed therefor, shall be sufficient to pay the costs of construction and acquisition of the Project as set forth in the Application, and the Authority shall have received evidence satisfactory to the Authority of such irrevocably committed funds.

3.2 Subject to the terms and provisions of this Loan Agreement, the rules and regulations promulgated by the Authority, the Council or any other appropriate State agency and any applicable rules, regulations and procedures promulgated from time to time by the federal government, it is hereby agreed that the Authority shall make the Loan to the Governmental Agency and the Governmental Agency shall accept the Loan from the Authority, and in furtherance thereof it is agreed that the Governmental Agency shall sell to the Authority and the Authority shall make the Loan by purchasing the Notes in the principal amount and at the price set forth in Schedule X hereto. The Governmental Agency specifically recognizes that the Authority will not purchase the

Notes unless and until sufficient funds are available in the Infrastructure Fund to purchase all the Notes and that, prior to execution of this Loan Agreement, the Authority may commit to and purchase the notes and/or revenue bonds of other governmental agencies for which it has sufficient funds available.

3.6 The Governmental Agency shall prepay the Notes from the proceeds of any permanent financing it obtains for the Project.

(ix) That the Governmental Agency shall take any and all action, or shall refrain from taking any action regarding the use of the proceeds of the Notes, as shall be deemed necessary by the Authority to maintain the exclusion from gross income

5.1 The Governmental Agency hereby irrevocably covenants and agrees to comply with all of the terms, conditions and requirements of this Loan Agreement and the Local Act.

5.2 In the event the Governmental Agency defaults in any payment to the Authority, the amount of such default shall bear interest at the annual rate of 3% on the installment of the Loan next due, from the date of the default until the date of the payment thereof, unless waived by the Authority.

5.3 The Governmental Agency hereby irrevocably covenants and agrees with the Authority that, in the event of any default hereunder by the Governmental Agency, the Authority may exercise any or all of the rights and powers granted under the Act and State law, including without limitation the right to an appointment of a receiver.

Prior to the Authority's making the Loan and receiving the Notes, the Authority and the Council shall have the right to cancel all or any of their obligations under this Loan Agreement if (a) any representation made to the Authority and the Council by the Governmental Agency in connection with the Loan shall be incorrect or incomplete in any material respect or (b) the Governmental Agency has violated any commitment made by it in its Application or in any supporting documentation or has violated any of the terms of this Loan Agreement.

6.2 The Governmental Agency hereby covenants that it will rebate any amounts required by Section 148 of the Code, if applicable, and will take all steps necessary to make any such rebates. In the event the Governmental Agency fails to make any such rebates as required, then the Governmental Agency shall pay any and all penalties, obtain a waiver from the Internal Revenue Service and take any other actions necessary or desirable to preserve the exclusion from gross income for federal income tax purposes of interest on the Notes.

6.3 Notwithstanding Section 6.2, the Authority may at any time, in its sole discretion, cause the rebate calculations prepared by or on behalf of the Governmental Agency to be monitored or cause the rebate calculations for the Governmental Agency to be prepared, in either case at the expense of the Governmental Agency.

6.4 The Governmental Agency hereby agrees to give the Authority and the Council prior written notice of the issuance by it of any other obligations to be used to pay costs of the Project, payable from the revenues of the System or from any grants for the Project or otherwise related to the Project or the System.

ARTICLE VII

7.3 If any provision of this Loan Agreement shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this Loan Agreement, and this Loan Agreement shall be construed and enforced as if such invalid or unenforceable provision had not been contained herein.

7.4 This Loan Agreement may be executed in one or more counterparts, any of which shall be regarded for all purposes as an original and all of which constitute but one and the same instrument. Each party agrees that it will execute any and all

documents or other instruments and take such other actions as may be necessary to give effect to the terms of this Loan Agreement.

7.5 No waiver by either party of any term or condition of this Loan Agreement shall be deemed or construed as a waiver of any other terms or conditions, nor shall a waiver of any breach be deemed to constitute a waiver of any subsequent breach, whether of the same or of a different section, subsection, paragraph, clause, phrase or other provision of this Loan Agreement.

7.6 This Loan Agreement supersedes all prior negotiations, representations and agreements between the parties hereto relating to the Loan and constitutes the entire agreement between the parties hereto in respect thereof.

7.7 By execution and delivery of this Loan Agreement, notwithstanding the date hereof, the Governmental Agency specifically recognizes that it is hereby agreeing to sell its Notes to the Authority and that such obligation may be specifically enforced or subject to a similar equitable remedy by the Authority.

The Notes are issued in the principal amount of $_____, in the form of one note, fully registered as to principal to the Authority, with no interest, and the entire outstanding principal of the Notes shall be payable on _____, ____, as set forth in Schedule Y incorporated in and made a part of the Notes.

The Notes are issued for the purposes of (i) _____, and (ii) paying certain issuance and other costs in connection therewith.

We have also examined the applicable provisions of _____ of the Code of West Virginia, 1931, as amended (the "Local

Statute"), and the note _____duly adopted or enacted by the Governmental Agency on _____(the "Local Act"), pursuant to and under which Local Statute and Local Act the Notes are authorized and issued, and the Loan Agreement that has been undertaken. The Notes are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Local Act and the Loan Agreement.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion as follows:

1. The Loan Agreement has been duly authorized by and executed on behalf of the Governmental Agency and is a valid and binding special obligation of the Governmental Agency, enforceable in accordance with the terms thereof.

4. The Local Act and all other necessary orders and resolutions have been legally and effectively adopted or enacted by the Governmental Agency and constitute valid and binding obligations of the Governmental Agency, enforceable against the Governmental Agency in accordance with their terms. The Local Act contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

5. The Notes have been duly authorized, issued, executed and delivered by the Governmental Agency to the Authority and are valid and legally enforceable special obligations of the Governmental Agency, payable from and secured by a first lien on the proceeds of any grants received by the Governmental Agency for the System, proceeds of any revenue bonds, refunding bonds, bond anticipation notes or other obligations of the Governmental Agency, issued subsequent to the issuance of the Notes, all in accordance with the terms of the Notes and the Local Act.

6. [If required, the Notes are, by statute, exempt _____, and under existing statutes and court decisions of the United States of America, as presently written and applied, the interest on the Notes is excludable from the gross income of the recipients thereof for federal income tax purposes.]

No opinion is given herein as to the effect upon enforceability of the Notes of bankruptcy, insolvency, reorganization, moratorium and other laws affecting creditors' rights or in the exercise of judicial discretion in appropriate cases.

We have examined executed and authenticated Note numbered R-1, and in our opinion the form of said Note and its execution and authentication are regular and proper.

BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF LUBECK PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Bond Legislation") is adopted pursuant to the provisions of Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Lubeck Public Service District (the "Issuer") is a public service district, a public corporation and political subdivision of the State of West Virginia in Wood County of said State.

B. The Issuer presently owns and operates a public sewerage system. However, for the health, safety, advantage, convenience and welfare of the inhabitants of the Issuer, the Issuer has heretofore acquired and constructed certain improvements and extensions to the existing public sewerage system of the Issuer, consisting of approximately 40 miles of sewer collection lines and a 1.5 million gallons per day wastewater treatment plant, together with all appurtenant facilities (collectively, the "Project") (the existing public sewerage facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System"), in accordance with the plans and specifications prepared by the Consulting Engineers and filed with the Issuer.

C. The Issuer has heretofore temporarily financed a portion of the costs of the acquisition and construction of the Project through the issuance of its Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund), dated September 27, 2005, in the original aggregate principal amount of $6,278,679, of which $6,278,279 is presently outstanding (the "Prior Notes").

D. Pursuant to the Act, the Issuer is authorized and empowered to issue refunding revenue bonds for the purpose of refunding, retiring or refinancing the Prior Notes. The Issuer hereby determines that it is necessary and desirable to refund the Prior Notes.

E. The Issuer intends to refund the Prior Notes through the issuance of its revenue bonds and notes to the West Virginia Water Development Authority (the "Authority"), which administers the West Virginia Infrastructure Fund (the "Infrastructure Fund") for the West Virginia Infrastructure and Jobs Development Council (the "Council").

F. It is deemed necessary for the Issuer to issue its (i) Sewer Revenue Bonds, Series 2010 A (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $2,136,720 (the "Series 2010 A Bonds"); and (ii) Sewerage System Bond Anticipation Notes, Series 2010 (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $4,141,959 (the "Series 2010 Notes" or the "Notes"), to refund the Prior Notes and pay all costs relating thereto. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Series 2010 A Bonds prior to and during acquisition and construction of the Project and for a period not exceeding six (6) months after

This Bond shall bear no interest. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent").

This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority and the West Virginia Infrastructure and Jobs Development Council (the "Council"), and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement by and between the Issuer and the Authority, on behalf of the Council, dated _____, 2010.

This Bond is issued to pay a portion of the refunding of the Issuer's Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund) (the "Prior Notes"). The existing public sewerage facilities of the Issuer and any further improvements or extensions thereto are herein called the "System." This Bond is issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS WITH THE ISSUER'S (1) SEWERAGE SYSTEM REVENUE BONDS, SERIES 1999 A (WEST VIRGINIA SRF PROGRAM), DATED MARCH 9, 1999, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $7,950,000; (2) SEWERAGE SYSTEM REVENUE BONDS, SERIES 1999 B (WEST VIRGINIA INFRASTRUCTURE FUND), DATED MARCH 9, 1999, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,000,000; (3) SEWER REVENUE BONDS, SERIES 2005 A (WEST VIRGINIA INFRASTRUCTURE FUND), DATED SEPTEMBER 27, 2005, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $7,879,443; AND (4) SEWER REVENUE BONDS, SERIES 2005 B (WEST VIRGINIA INFRASTRUCTURE FUND), DATED SEPTEMBER 27, 21005, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,411,178 (COLLECTIVELY, THE "PRIOR BONDS").

This Bond is payable only from and secured by a pledge of the Net Revenues (as defined in the Bond Legislation) to be derived from the operation of the System, on a parity with the pledge of Net Revenues in favor of the holders of the Prior Bonds and from monies in the reserve account created under the Bond Legislation for this Bond (the "Series 2010 A Bonds Reserve Account") and unexpended proceeds of this Bond. Such Net Revenues shall be sufficient to pay the principal of and interest, if any, on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same, or the interest, if any, hereon, except from said special fund provided from the Net Revenues, the monies in the Series 2010 A Bonds Reserve Account and unexpended proceeds of this Bond. 2010 A Bonds Reserve Account an amount at least equal to the maximum amount of principal and interest, if any, which will become due on this Bond in the then current or any succeeding year, and in the respective reserve accounts established for any other obligations outstanding on a parity with this Bond, including the Prior Bonds, an amount at least equal to the requirement therefor, such percentage may be reduced to 110%. The Issuer has entered into certain further covenants with the registered owners of this Bond for the terms of which reference is made to the Bond Legislation. Remedies provided the registered owners of this Bond are exclusively as provided in the Bond Legislation, to which reference is here made for a detailed description thereof.

Subject to the registration requirements set forth herein, this Bond is transferable, as provided in the Bond Legislation, only upon the books of the Registrar (as defined in the Bond Legislation) by the registered owner, or by its attorney duly authorized in writing, upon the surrender of this Bond, together with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered owner or its attorney duly authorized in writing.

Subject to the registration requirements set forth herein, this Bond, under the provision of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

All monies received from the sale of this Bond, after reimbursement and repayment of all amounts advanced for preliminary expenses as provided by law and the Bond Legislation, shall be applied solely to payment of the costs of refunding the Prior Notes as described in the Bond Legislation, and there shall be and hereby is created and granted a lien upon such monies, until so applied, in favor of the registered owner of this Bond.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all acts, conditions and things required to exist, happen and be performed precedent to and at the issuance of this Bond do exist, have happened, and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other obligations of the Issuer, does not exceed any limit prescribed by the Constitution or statutes of the State of West Virginia and that a sufficient amount of the Net Revenues of the System has been pledged to and will be set aside into said special fund by the Issuer for the prompt payment of the principal of this Bond.

The Notes shall be issued as a single note, designated "Sewerage System Bond Anticipation Notes, Series 2010 (West Virginia Infrastructure Fund)," in the aggregate principal amount of not more than $4,141,959, and shall have such terms as set forth hereinafter and in the Supplemental Resolution.

Section 4.02. Terms of Notes. The Notes shall be issued in such principal amounts; shall bear interest, if any, at such rate or rates, not exceeding the then legal maximum rate, payable on such dates; shall mature on such dates and in such amounts; and shall be redeemable, in whole or in part, all as the Issuer shall prescribe in the Supplemental Resolution or as specifically provided in the Loan Agreement. The Notes shall be payable as to principal at the principal office of the Paying Agent, in any coin or currency which, on the date of payment of principal is legal tender for the payment of public and private debts under the laws of the United States of America (US Dollars $).

Unless otherwise provided in the Supplemental Resolution, the Notes shall be issued in the form of a single note, fully registered to the Authority, all as provided in the Loan Agreement and the Supplemental Resolution. The Notes shall be exchangeable at the option and expense of the Registered Owner for other fully registered Notes in aggregate principal amount equal to the amount of said Notes then Outstanding, with a maturity corresponding to the dates of maturity of the Notes; provided, that the Authority shall not be obligated to pay any expenses of such exchange.

Section 4.03. Execution of Notes. The Notes shall be executed in the name of the Issuer by the Chairperson, and the seal of the Issuer shall be affixed thereto or imprinted thereon and attested by the Secretary. In case any one or more of the officers who shall have signed or sealed the Notes shall cease to be such officer of the Issuer before the Notes so signed and sealed have been sold and delivered, such Notes may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Notes had not ceased to hold such office. The Notes may be signed and sealed on behalf of the Issuer by such person as, at the actual time of the execution of the Notes, shall hold the

proper office in the Issuer, although at the date of the Notes such person may not have held such office or may not have been so authorized.

Section 4.04. Authentication and Registration. No Note shall be valid or obligatory for any purpose or entitled to any security or benefit under this Resolution unless and until the Certificate of Authentication and Registration on such Note, substantially in the form set forth in Section 4.10, shall have been duly manually executed by the Notes Registrar. Any such executed Certificate of Authentication and Registration upon any such Note shall be conclusive evidence that such Note has been authenticated, registered and delivered under this Resolution. The Certificate of Authentication and Registration on any Note shall be deemed to have been executed by the Notes Registrar if manually signed by an authorized officer of the Notes Registrar, but it shall not be necessary that the same officer sign the Certificate of Authentication and Registration on all the Notes issued hereunder.

Section 4.05. Negotiability, Transfer and Registration. Subject to the provisions for transfer of registration set forth below, the Notes shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive Registered Owner, in accepting any of the Notes shall be conclusively deemed to have agreed that such Notes shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive Registered Owner shall further be conclusively deemed to have agreed that such Notes shall be incontestable in the hands of a bona fide registered owner for value.

So long as the Notes remain Outstanding, the Issuer, through the Notes Registrar as its agent, shall keep and maintain books for the registration and transfer of the Notes.

In all cases in which the privilege of exchanging the Notes or transferring the Notes is exercised, the Notes shall be delivered in accordance with the provisions of this Resolution. All Notes surrendered in any such exchanges or transfers shall forthwith be canceled by the Notes Registrar. For every such exchange or transfer of Notes, the Notes Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and the cost of preparing

All Notes so surrendered shall be canceled by the Notes Registrar and held for the account of the Issuer. If such Note shall have matured or be about to mature, instead of issuing a substitute Note, the Issuer may pay the same, upon being indemnified as aforesaid, and, if such Note be lost, stolen, or destroyed, without surrender therefor.

Section 4.07. Pledge of Security for the Notes. The Notes shall be payable solely from proceeds of any additional sewerage system revenue bonds or refunding revenue bonds of the Issuer, any additional grants which the Issuer may receive and any additional bond anticipation notes which the Issuer may issue from time to time upon maturity of the Notes.

The Registered Owner of the Notes shall never have the right to compel the forfeiture of any property of the Issuer. The Notes shall not be a debt of the Issuer, nor a legal or equitable pledge, charge, lien or encumbrance upon any property of the Issuer or upon any of its income, receipts or revenues.

(1) Revenue Fund (established by the Prior Resolution); and

(2) Renewal and Replacement Fund (established by the Prior Resolution).

Section 5.02. Establishment of Funds and Accounts with Commission. The following special funds or accounts are hereby created with and shall be held by the Commission, separate and apart from all other funds or accounts of the Commission and the Issuer and from each other:

(1) Series 2010 A Bonds Sinking Fund;

(2) Series 2010 A Bonds Reserve Account; and

(3) Series 2010 Notes Payment Fund.

Section 5.03. System Revenues; Flow of Funds. A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in this Bond Legislation and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided. All revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following manner and order of priority:

(1) The Issuer shall first, each month, pay from the Revenue Fund all Operating Expenses of the System.

(2) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously remit to the Commission (i) for deposit in the Sinking Funds for the Prior Bonds, the amounts required to pay principal of the Prior Bonds as required by the Prior Resolution; and (ii) commencing 3 months prior to the first date of

payment of principal of the Series 2010 A Bonds, for deposit in the Series 2010 A Bonds Sinking Fund, an amount equal to 1/3rd of the amount of principal which will mature and become due on the Series 2010 A Bonds on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 2010 A Bonds Sinking Fund and the next quarterly principal payment date is less than 3 months, then such monthly payment shall be increased proportionately to provide, 1 month prior to the next quarterly principal payment date, the required amount of principal coming due on such date.

(3) The Issuer shall next, (i) on the first day of each month, transfer from the Revenue Fund and remit to the Commission for deposit in the Reserve Accounts for the Prior Bonds, the amounts required by the Prior Resolution to be deposited therein; and (ii) on the first day of each month, commencing June 1, 2010, transfer from the Revenue Fund and remit to the Commission for deposit in the Series 2010 A Bonds Reserve Account, an amount equal to 1/120th of the Series 2010 A Bonds Reserve Requirement, until the amount in the Series 2010 A Bonds Reserve Account equals the Series 2010 A Bonds Reserve Requirement; provided that, no further payments shall be made into the respective Series 2010 A Bonds Reserve Accounts when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the respective Series 2010 A Bonds Reserve Requirement. In the event any amount is withdrawn from any of the Series 2010 A Bonds Reserve Account, the Issuer shall transfer from the Revenue Fund and restore the deficient Series 2010 A Bonds Reserve Account to an amount equal to the Series 2010 A Bonds Reserve Requirement.

(4) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and remit to the Depository Bank, for deposit in the Renewal and Replacement Fund, a sum equal to 2 1/2% of the Gross Revenues each month (as previously set forth in the Prior Resolution and not in addition thereto), exclusive of any payments for account of any Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in any Reserve Account (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with monies from the Renewal and Replacement Fund.

Monies in the Series 2010 A Bonds Sinking Fund shall be used only for the purposes of paying principal of and interest, if any, on the Series 2010 A Bonds as the same shall become due. Monies in the Series 2010 A Bonds Reserve Account shall be used only

for the purposes of paying principal of and interest, if any, on the Series 2010 A Bonds as the same shall come due, when other monies in the Series 2010 A Bonds Sinking Fund are insufficient therefor, and for no other purpose.

All investment earnings on monies in the Series 2010 A Bonds Sinking Fund and the Series 2010 A Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payment due on the Series 2010 A Bonds, respectively, and then to the next ensuing principal payment due thereon, all on a pro rata basis.

Any withdrawals from the Series 2010 A Bonds Reserve Account which result in a reduction in the balance of such accounts to below the respective Reserve Requirements thereof, shall be restored from the first Net Revenues available after all required payments have been made in full in the order set forth above.

As and when additional Bonds ranking on a parity with the Series 2010 A Bonds are issued, provision shall be made for additional payments into the respective sinking funds sufficient to pay the interest on such additional parity Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the respective reserve accounts in an amount equal to the requirement therefor.

The Issuer shall not be required to make any further payments into the respective Series 2010 A Bonds Sinking Funds or the respective Series 2010 A Bonds Reserve Accounts therein when the aggregate amount of funds therein are at least equal to the aggregate principal amount of the Series 2010 A Bonds issued pursuant to this Bond Legislation then Outstanding and all interest, if any, to accrue until the maturity thereof.

Principal, interest or reserve account payments, whether made for a deficiency or otherwise, shall be made on a parity and pro rata, with respect to the Series 2010 A Bonds and the Prior Bonds, in accordance with the respective principal amounts then Outstanding.

The Commission is hereby designated as the fiscal agent for the administration of the respective Series 2010 A Bonds Sinking Funds and the respective Series 2010 A Bonds Reserve Accounts created hereunder, and all amounts required for said accounts shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein. If required by the Authority at any time, the Issuer shall make the necessary arrangements whereby required payments into the Series 2010 A Bonds Sinking Funds and the respective Series 2010 A Bonds Reserve Accounts shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required hereunder.

Monies in the respective Series 2010 A Bonds Sinking Funds and the respective Series 2010 A Bonds Reserve Accounts shall be invested and reinvested by the Commission in accordance with Section 8.01 hereof.

The Series 2010 A Bonds Sinking Fund and the Series 2010 A Bonds Reserve Account shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Series 2010 A Bonds under the conditions and restrictions set forth herein.

B. The Issuer shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required principal, interest and reserve account payments with respect to the Series 2010 A Bonds and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Bond Legislation.

C. The Issuer shall complete the "Monthly Payment Form," a form of which is attached to the Loan Agreements, and submit a copy of said form along with a copy of its payment check to the Authority by the 5th day of each calendar month.

D. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in the Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into such funds during the following month or such other period as required by law, such excess shall be considered Surplus Revenues. Surplus Revenues may be used for any lawful purpose of the System.

E. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as such parties shall require, such additional sums as shall be necessary to pay their respective charges and fees then due. In the case of payments to the Commission under this paragraph, the Issuer shall, if required by the Authority at any time, make the necessary arrangements whereby such required payments shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required.

F. The monies in excess of the maximum amounts insured by FDIC in any of the funds and accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 5.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

I. The Gross Revenues of the System shall only be used for purposes of the System.

ARTICLE VI

EXCHANGE OF BONDS AND NOTES FOR PRIOR NOTES

Section 6.01. Exchange of Bonds and Notes for Prior Notes. On the Closing Date, the Issuer shall deliver the Series 2010 A Bonds and the Series 2010 Notes to the Authority in exchange for the Prior Notes, which exchange shall release and discharge the liens, pledges and encumbrances securing the Prior Notes.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Bond Legislation shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Registered Owner of the Series 2010 A Bonds and the Series 2010 Notes. In addition to the other covenants, agreements and provisions of this Bond Legislation, the Issuer hereby covenants and agrees with the Registered Owners of the Series 2010 A Bonds and the Series 2010 Notes as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as the Series 2010 A Bonds and the Series 2010 Notes or the interest, if any, thereon are Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Series 2010 A Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Bond Legislation. No Registered Owner of the Series 2010 A Bonds shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Series 2010 A Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues; Lien Position with Respect to Prior Bonds. The payment of the debt service of the Series 2010 A Bonds shall be secured by a first lien on the Net Revenues derived from the System on a parity with the lien on the Net Revenues in favor of the Registered Owners of the Prior Bonds. Such Net Revenues in an amount sufficient to pay the principal of and interest on and other payments for the Series 2010 A Bonds and the Prior Bonds and to make all other payments provided for in the Bond Legislation, are hereby irrevocably pledged to such payments as they become due.

Section 7.04. Initial Schedule of Rates and Charges. The Issuer has obtained any and all approvals of rates and charges required by State law and has taken any other action required to establish and impose such rates and charges, with all requisite appeal periods having expired without successful appeal. Such rates and charges shall be sufficient to comply with the requirements of the Loan Agreements. The initial schedule of rates and charges for the services and facilities of the System shall be as set forth and approved by the PSC Order and such rates are hereby adopted.

So long as the Series 2010 A Bonds are outstanding, the Issuer covenants and agrees to fix and collect rates, fees and other charges for the use of the System and to take all such actions necessary to provide funds sufficient to produce the required sums set forth in

the Bond Legislation and in compliance with the Loan Agreements. In the event the schedule of rates and charges initially established for the System in connection with the Series 2010 A Bonds shall prove to be insufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements, the Issuer hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates and charges and take all such actions necessary to provide funds sufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements.

Section 7.05. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of or encumber the System, or any part thereof, except as provided in the Prior Resolution. Additionally, so long as the Series 2010 A Bonds are outstanding and except as otherwise required by law or with the written consent of the Authority and the Council, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to fully pay all the Bonds Outstanding in accordance with Article X hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall immediately be remitted to the Commission for deposit in the respective Series 2010 A Bonds Sinking Fund, and, with the written permission of the Authority and the Council, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of and interest, if any, on the respective Series 2010 A Bonds. Any balance remaining after the payment of the respective Series 2010 A Bonds and interest, if any, thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution, duly adopted, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such

sale, lease or other disposition of such property upon public bidding. The proceeds derived from any such sale shall be deposited in the Renewal and Replacement Fund. The payment of such proceeds into the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said fund by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Registered Owners, or their duly authorized representatives, of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Registered Owners of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Series 2010 A Bonds. All obligations issued by the Issuer after the issuance of the Series 2010 A Bonds and payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Series 2010 A Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts set forth herein have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Series 2010 A Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Series 2010 A Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. So long as the Prior Bonds are outstanding, the limitations on the issuance of parity obligations set forth in the Prior Resolution shall be applicable. In addition, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Series 2010 A Bonds pursuant to this Bond Legislation,

except with the prior written consent of the Authority and the Council under the conditions and in the manner herein provided.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2010 A Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the design, acquisition, or construction of extensions and improvements to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the issuance of such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained
in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from (a) the improvements to be financed by such Parity Bonds and (b) any increase in rates adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the

System adopted by the Issuer, the period for appeal of which has expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Registered Owners of the Bonds and the Registered Owners of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of the same series. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on revenues of the System is subject to the prior and superior liens of the Series 2010 A Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2010 A Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 7.08. Books; Records and Audit. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the cost of designing, acquiring, constructing and installing the Project. The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the Authority and the Council such documents and information as it may reasonably require in connection with the design, acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at any reasonable time following completion of construction of the Project and commencement of operation thereof, or if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Registered Owner of the Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the PSC. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Council, the Authority, or any other original purchaser of the Series 2010 A Bonds, and shall mail in each year to any Registered Owner of the Series 2010 A Bonds, requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Bond Legislation, and the status of all said funds and accounts.

(C) The amount of any Bonds, notes or other obligations outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants in compliance with the applicable OMB Circular or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Registered Owner of the Series 2010 A Bonds, and shall submit said report to the Council and the Authority, or any other original purchaser of the Series 2010 A

Bonds. Such audit report submitted to the Council and the Authority shall include a statement that notes whether the results of tests disclosed instances of noncompliance that are required to be reported under government auditing standards and, if they are, describes the instances of noncompliance and the audited financial statements shall include a statement that notes whether the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the Loan Agreements and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

The Issuer shall permit the Council and the Authority, or their agents and representatives, to enter and inspect the Project site and facilities at all reasonable times. Prior to, during and after completion of construction and commencement of operation of the Project, the Issuer shall also provide the Council and the Authority, or their agents and representatives, with access to the System site and facilities, as may be reasonably necessary to accomplish all of the powers and rights of the Council and the Authority with respect to the System pursuant to the Act.

Section 7.09. Rates. Prior to the issuance of the Series 2010 A Bonds, equitable rates or charges for the use of and service rendered by the System have been established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2010 A Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2010 A Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit in the respective Series 2010 A Bonds

Reserve Accounts and any reserve accounts for obligations on a parity with the Series 2010 A Bonds, including the Prior Bonds, are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2010 A Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2010 A Bonds, including the Prior Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 30 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Council and the Authority within 30 days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by a professional engineer which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of a professional engineer that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Council and the Authority and to any Registered Owner of the Series 2010 A Bonds, within 30 days of adoption thereof, and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to the Council and the Authority and to any Registered Owner of the Series 2010 A Bonds, or anyone acting for and on behalf of such Registered Owner.

Commencing on the date contracts are executed for the acquisition and construction of the Project and for two years following the completion of the Project, the Issuer shall each month complete a "Monthly Financial Report," a form of which is attached to the Loan Agreements, and forward a copy of such report to the Council and the Authority by the 10th day of each month.

Section 7.11. Engineering Services and Operating Personnel. The Issuer will obtain a certificate of the Consulting Engineers in the form attached to the Loan Agreements, stating, among other things, that the Project has been or will be constructed in accordance with the approved plans, specifications and designs as submitted to the Council and the Authority, the Project is adequate for the purposes for which it was designed, the funding

plan as submitted to the Council and the Authority is sufficient to pay the costs of acquisition and construction of the Project, and all permits required by federal and state laws for construction of the Project have been obtained.

The Issuer shall provide and maintain competent and adequate engineering services satisfactory to the Council and the Authority covering the supervision and inspection of the development and construction of the Project and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the Council and the Authority and the Issuer at the completion of construction that construction of the Project is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies.

The Issuer shall employ qualified operating personnel properly certified by the State to operate the System during the entire term of the Loan Agreements.

Section 7.12. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the Public Service Commission of West Virginia and other laws of the State of West Virginia.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 20 days after the same shall become due and payable, the user of the services and facilities shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the PSC, rates, rentals and other charges, if not paid, when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that, it will, to the full extent permitted by law and the rules and regulations promulgated by the PSC, discontinue and shut off the services of the System to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted

by law. If the water facilities are not owned by the Issuer, the Issuer will use diligent efforts to enter into a termination agreement with the provider of such water, subject to any required approval of such agreement by the PSC and all its rules, regulations and orders.

Section 7.14. No Free Services. The Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.15. Insurance and Construction Bonds. A. The Issuer hereby covenants and agrees that so long as the Series 2010 A Bonds remain Outstanding, the Issuer will, as an Operating Expense, procure, carry and maintain insurance with a reputable insurance carrier or carriers as is customarily covered with respect to works and properties similar to the System. Such insurance shall initially cover the following risks and be in the following amounts:

(1) FIRE, LIGHTNING, VANDALISM, MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, on all above-ground insurable portions of the System in an amount equal to the actual cost thereof. In time of war the Issuer will also carry and maintain insurance to the extent available against the risks and hazards of war. The proceeds of all such insurance policies shall be placed in the Renewal and Replacement Fund and used only for the repairs and restoration of the damaged or destroyed properties or for the other purposes provided herein for the Renewal and Replacement Fund. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their respective interests may appear, in accordance with the Loan Agreements, during construction of the Project on a 100% basis (completed value form) on the insurable portion of the Project, such insurance to be made payable to the order of the Authority, the Issuer, the contractors and subcontractors, as their interests may appear.

(2) PUBLIC LIABILITY INSURANCE, with limits of not less than $1,000,000 per occurrence to protect the Issuer from claims for bodily injury and/or death and not less than $500,000 per occurrence from claims for damage to property of others which may arise from the operation of the System, and insurance with the same limits to

protect the Issuer from claims arising out of operation or ownership of motor vehicles of or for the System.

(3) WORKER'S COMPENSATION COVERAGE FOR ALL EMPLOYEES OF OR FOR THE SYSTEM ELIGIBLE THEREFOR; AND PERFORMANCE AND PAYMENT BONDS, such bonds to be in the amounts of 100% of the construction contract and to be required of each contractor contracting directly with the Issuer, and such payment bonds will be filed with the Clerk of The County Commission of the County in which such work is to be performed prior to commencement of construction of the Project in compliance with West Virginia Code, Chapter 38, Article 2, Section 39.

(4) FLOOD INSURANCE, if the facilities of the System are or will be located in designated special flood or mudslide-prone areas and to the extent available at reasonable cost to the Issuer.

(5) BUSINESS INTERRUPTION INSURANCE, to the extent available at reasonable cost to the Issuer.

(6) FIDELITY BONDS will be provided as to every officer, member and employee of the Issuer or the Governing Body having custody of the revenues or of any other funds of the System, in an amount at least equal to the total funds in the custody of any such person at any one time.

B. The Issuer shall require all contractors engaged in the construction of the Project to furnish a performance bond and a payment bond, each in an amount equal to 100% of the contract price of the portion of the Project covered by the particular contract as security for the faithful performance of such contract. The Issuer shall verify such bonds prior to commencement of construction.

The Issuer shall also require all contractors engaged in the construction of the Project to carry such worker's compensation coverage for all employees working on the Project and public liability insurance, vehicular liability insurance and property damage insurance in amounts adequate for such purposes and as is customarily carried with respect to works and properties similar to the Project; provided that the amounts and terms of such coverage are satisfactory to the Council and the Authority. In the event the Loan Agreements so require, such insurance shall be made payable to the order of the Authority, the Issuer, the prime contractor and all subcontractors, as their interests may appear. The Issuer shall verify such insurance prior to commencement of construction.

Section 7.16. Mandatory Connections. The mandatory use of the System is essential and necessary for the protection and preservation of the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and in order to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Department of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Department of Health and such house, dwelling or building can be adequately served by the System, and every such owner, tenant or occupant shall, after a 30-day notice of the availability of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer and a public nuisance which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.17. Completion of Project; Permits and Orders. The Issuer shall complete the Project as promptly as possible and operate and maintain the System as a revenue-producing utility in good condition and in compliance with all federal and state requirements and standards.

The Issuer has obtained all permits required by state and federal laws for the acquisition and construction of the Project, all orders and approvals from the PSC and the Council necessary for the acquisition and construction of the Project and the operation of the System and all approvals for issuance of the Series 2010 A Bonds required by state law, with all requisite appeal periods having expired without successful appeal.

Section 7.18. [Reserved.]

Section 7.19. Statutory Mortgage Lien. For the further protection of the Registered Owners of the Series 2010 A Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding, shall take effect immediately upon delivery of the Series

2010 A Bonds, provided however, that the statutory mortgage lien of the Series 2010 A Bonds shall be on a parity with the statutory mortgage lien of the Prior Bonds.

Section 7.20. Compliance with Loan Agreements and Law. The Issuer shall perform, satisfy and comply with all the terms, conditions and requirements of the Loan Agreements and the Act. Notwithstanding anything herein to the contrary, the Issuer will provide the Council with copies of all documents submitted to the Authority.

The Issuer shall also comply with all applicable laws, rules and regulations issued by the Council and the Authority or other state, federal or local bodies in regard to the acquisition and construction of the Project and the operation, maintenance and use of the System.

Section 7.21. Securities Laws Compliance. The Issuer will provide the Authority, in a timely manner, with any and all information that may be requested of it (including its annual audit report, financial statements, related information and notices of changes in usage and customer base) so that the Authority may comply with the provisions of SEC Rule 15c2-12 (17 CFR Part 240).

ARTICLE VIII

INVESTMENT OF FUNDS

Section 8.01. Investment of Funds. Any monies held as a part of the funds and accounts created by this Bond Legislation other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Bond Legislation, the need for such monies for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. SPECIMEN

This Bond is issued to pay a portion of the refunding of the Issuer's Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund) (the "Prior Notes"). The existing public sewerage facilities of the Issuer and any further improvements or extensions thereto are herein called the "System." This Bond is issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended (collectively, the "Act"), a Resolution duly adopted by the Issuer on February 11, 2010, and a Supplemental Resolution duly adopted by the Issuer on February 11, 2010 (collectively, the "Bond Legislation"), and is subject to all the terms and conditions thereof. The Bond Legislation provides for the issuance of additional bonds under certain conditions, and such bonds would be entitled to be paid and secured equally and ratably from and by the funds and revenues and other security provided for this Bond under the Bond Legislation.

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS WITH THE ISSUER'S (1) SEWERAGE SYSTEM REVENUE BONDS, SERIES 1999 A (WEST VIRGINIA SRF PROGRAM), DATED MARCH 9, 1999, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $7,950,000; (2) SEWERAGE SYSTEM REVENUE BONDS, SERIES 1999 B (WEST VIRGINIA INFRASTRUCTURE FUND), DATED MARCH 9, 1999, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,000,000; (3) SEWER REVENUE BONDS, SERIES 2005 A (WEST VIRGINIA INFRASTRUCTURE FUND), DATED SEPTEMBER 27, 2005, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $7,879,443; AND (4) SEWER REVENUE BONDS, SERIES 2005 B (WEST VIRGINIA INFRASTRUCTURE FUND), DATED SEPTEMBER 27, 21005, ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,411,178 (COLLECTIVELY, THE "PRIOR BONDS").

This Bond is payable only from and secured by a pledge of the Net Revenues (as defined in the Bond Legislation) to be derived from the operation of the System, on a parity with the pledge of Net Revenues in favor of the holders of the Prior Bonds and from monies in the reserve account created under the Bond Legislation for this Bond (the "Series 2010 A Bonds Reserve Account") and unexpended proceeds of this Bond. Such Net Revenues shall be sufficient to pay the principal of and interest, if any, on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same, or the interest, if any, hereon, except from said special fund

provided from the Net Revenues, the monies in the Series 2010 A Bonds Reserve Account and unexpended proceeds of this Bond. Pursuant to the Bond Legislation, the Issuer has covenanted and agreed to establish and maintain just and equitable rates and charges for the use of the System and the services rendered thereby, which shall be sufficient, together with other revenues of the System, to provide for the reasonable expenses of operation, repair and maintenance of the System, and to leave a balance each year equal to at least 115% of the maximum amount payable in any year for principal of and interest, if any, on this Bond and all other obligations secured by a lien on or payable from such revenues on a parity with this Bond, including the Prior Bonds; provided however, that so long as there exists in the Series 2010 A Bonds Reserve Account an amount at least equal to the maximum amount of principal and interest, if any, which will become due on this Bond in the then current or any succeeding year, and in the respective reserve accounts established for any other obligations outstanding on a parity with this Bond, including the Prior Bonds, an amount at least equal to the requirement therefor, such percentage may be reduced to 110%. The Issuer has entered into certain further covenants with the registered owners of this Bond for the terms of which reference is made to the Bond Legislation. Subject to the registration requirements set forth herein, this Bond is transferable, as provided in the Bond Legislation, only upon the books of the Registrar (as defined in the Bond Legislation) by the registered owner, or by its attorney duly authorized in writing, upon the surrender of this Bond, together with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered owner or its attorney duly authorized in writing.

Subject to the registration requirements set forth herein, this Bond, under the provision of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

All monies received from the sale of this Bond, after reimbursement and repayment of all amounts advanced for preliminary expenses as provided by law and the Bond Legislation, shall be applied solely to payment of the costs of refunding the Prior Notes as described in the Bond Legislation, and there shall be and hereby is created and granted a lien upon such monies, until so applied, in favor of the registered owner of this Bond.

Section 1.04. Findings. It is hereby found, determined and declared as follows:

A. The Issuer is a public corporation and political subdivision of the State in Wood County of said State. The Issuer now owns and operates a public wastewater collection and treatment system furnishing service to residences, premises and businesses residing or located within the territory of the Issuer. However, the Issuer has experienced numerous environmental problems in connection with the operation of the various package wastewater treatment plants within its territory, most of which are in poor condition and in need of repair. In addition, many residences within the service territory of the Issuer are served only by private septic systems, many of which are not working well. The deficiencies in the package plants and private septic systems described above are causing extreme environmental damage and serious health concerns.

B. It is deemed necessary and desirable for the health, welfare and safety of the inhabitants of the Issuer that there be acquired and constructed the Project, generally consisting of the acquisition and construction of approximately forty miles of sanitary sewer collection lines and appurtances and a 1.5 million gallon per day wastewater treatment plant at an estimated cost of $26,500,000, in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have been approved by DEP and are on file with the Issuer. The Project is generally described in Exhibit A attached hereto and incorporated by reference herein. The Project has an estimated useful life in excess of forty years.

C. The Issuer derives Net Revenues from the System. The Net Revenues are currently encumbered by two outstanding obligations. These obligations include the Issuer's 1992 Sewer Revenue Bonds in the approximate outstanding principal amount of $75,193.43; the outstanding Step I Design Loan of the Parkersburg Sanitary Board in the approximate outstanding principal amount of $10,544.41; and the Step II Design Loan of the Issuer in the approximate outstanding principal amount of $178,981.65 (collectively, the "Prior Obligations"). The Issuer deems it advisable and hereby authorizes the payment in full of the outstanding principal and interest, if any, of the Prior Obligations from the proceeds of the Series 1999 B Bonds. Other than the Prior Obligations, the Net Revenues of the System are not encumbered in any manner.

D. The Issuer intends to permanently finance a portion of the costs of acquisition and construction of the Project and to pay in full the Prior Obligations through

the issuance of its revenue bonds to the Authority. The Issuer intends to temporarily finance a portion of the costs of acquisition and construction of the Project through the issuance of bond anticipation notes to the Authority.

E. The estimated revenues to be derived in each year after the enactment of this Resolution from the operation of the System will be sufficient to pay all the costs of the operation and maintenance of said System, the principal of and interest on each series of Original Bonds of the Issuer and all sinking fund and other payments provided for in this Resolution.

F. It is deemed necessary for the Issuer to issue its Original Bonds in the aggregate principal amount of $9,950,000 to finance the costs of the acquisition and construction of the Project herein described through the Program and the Infrastructure Council and to finance the payment in full of the outstanding principal of and interest, if any, on the Prior Obligations. It is also deemed necessary for the Issuer to issue its Notes in the aggregate principal amount of not more than $16,550,000 to temporarily finance a portion of the costs of acquisition and construction of the Project. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest on the Original Bonds prior to and during construction or acquisition and for six months after completion of construction of the Project, if any; engineering, fiscal and legal expenses; expenses for estimates of cost and revenue; expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise; administrative expense, any fees or expenses of the Authority, DEP and the Infrastructure Council, commitment fees, discount, initial fees for the service of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Original Bonds, and such other expenses as may be necessary or incidental to the financing herein authorized, the construction or acquisition of the Project and the placing of the same in operation, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the Original Bonds or the repayment of the indebtedness incurred by the Issuer for such purposes shall be deemed part of the Cost of the Project.

G. The Infrastructure Council has approved the Project and has authorized the Authority to purchase bonds of the Issuer to permanently finance a portion of the Costs of the Project and to issue bond anticipation notes of the Issuer to temporarily finance a portion of the Costs of the Project. It is in the best interests of the Issuer that its Series 1999 A Bonds, Series 1999 B Bonds and Series 1999 Bond Anticipation Notes be sold to the Authority pursuant to the terms and provisions of the respective Loan Agreements.

H. The Issuer has complied with all requirements of West Virginia law relating to authorization of the construction, acquisition and operation of the Project and issuance of the Original Bonds and Notes, or will have so complied prior to the issuance of any thereof, including, among other things, the obtaining of a Certificate of Convenience and Necessity from the PSC by Final Order, the time for rehearing and appeal of which has expired.

ARTICLE II

AUTHORIZATION OF EXTENSIONS, ADDITIONS, BETTERMENTS AND IMPROVEMENTS TO SYSTEM

Section 2.01. Authorization of Extensions, Additions, Betterments and Improvements. There is hereby authorized the acquisition and construction of the Project in accordance with plans and specifications prepared by the Consulting Engineers, approved by DEP, the Infrastructure Council and the Issuer, and on file in the office of the Board; provided, however, that such plans and specifications, and the construction and acquisition of the Project in accordance therewith, are subject to the specific authorization by the Board pursuant to a Supplemental Resolution.

Prior to issuing the Original Bonds for the acquisition and construction of the Project, the Issuer must receive acceptable bids or enter into contracts for the acquisition and construction of the Project, compatible with the financing plan submitted to the Program and the Infrastructure Council.

Section 2.02. Authorization of Payment of Prior Obligations. There is hereby authorized the payment in full of the Prior Obligations from the proceeds of the issuance of the Series 1999 B Bonds authorized hereunder.

The Original Bonds shall be issued in two series, with the first series to be designated "Sewerage System Revenue Bonds, Series 1999 A" and so on, in an aggregate principal amount of $9,950,000. Each series of Original Bonds shall be dated as of the date of delivery thereof, shall bear such interest, shall mature at such times, not exceeding forty (40) years after the date of issuance, and in such amount or amounts as shall be set out in the respective Loan Agreements. The Originial Bonds shall bear no interest. The Series 1999 A Bonds shall be subject to the SRF Administrative Fee. The repayment of principal on the Original Bonds shall be as set forth on Schedule Y to the respective Loan Agreements. The Original Bonds shall contain such other terms, provisions, conditions and limitations, all as provided by this Resolution and the Loan Agreements and as the Board shall prescribe by a supplemental or amendatory resolution hereto adopted in connection with the sale of such Original Bonds.

The Original Bonds shall be payable as to principal, at the principal office of the Paying Agent, in any coin or currency which, on the dates of payment of principal is legal tender for the payment of public or private debts under the laws of the United States of America.

Unless otherwise provided in the Supplemental Resolution, the Original Bonds shall be issued in the form of a single bond for each series, fully registered to the Authority, with a record of advances and a payment record attached, representing the aggregate principal amount, and shall mature in principal installments, all as provided in the Loan Agreements and said Supplemental Resolution. Bonds shall be exchangeable at the option and expense of the Bondholder for other fully registered Bonds in aggregate principal amount equal to the amount of said Bonds then Outstanding, with principal installments or maturities, as applicable, corresponding to the dates of payment of principal installments of said Bonds; provided, that the Authority shall not be obligated to pay any expenses of such exchange.

Subsequent series of Bonds may be issued in fully registered form, in the denomination of $5,000 or any integral multiple thereof, all as determined by a Supplemental Resolution. Said Bonds shall be dated as of the date specified in said Supplemental Resolution.

Section 3.02. Execution of Bonds. Said Bonds shall be executed in the name of the Issuer by the Chairman and attested by the Secretary, and the seal of the Issuer shall be affixed thereto or imprinted thereon. In case any one or more of the officers who shall have signed or sealed any of the Bonds shall cease to be such officer of the Issuer before the Bonds so signed and sealed have been sold and delivered, such Bonds may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Bonds had not ceased to hold such office. Any Bonds may be signed and sealed on behalf of the Issuer by such person as, at the actual time of the execution of such Bonds, shall hold the proper office in the Issuer, although at the date of such Bonds such person may not have held such office or may not have been so authorized.

Section 3.03. Authentication and Registration. No Bond shall be valid or obligatory for any purpose or entitled to any security or benefit under this Resolution unless and until the Certificate of Authentication and Registration on such Bond, substantially in the form set forth in Section 3.08, shall have been duly manually executed by the Bond Registrar. Any such executed Certificate of Authentication and Registration upon any such Bond shall be conclusive evidence that such Bond has been authenticated, registered and delivered under this Resolution. The Certificate of Authentication and Registration on any Bond shall be deemed to have been executed by the Bond Registrar if manually signed by an authorized officer of the Bond Registrar, but it shall not be necessary that the same officer sign the Certificate of Authentication and Registration on all of the Bonds issued hereunder.

Section 3.04. Negotiability, Transfer and Registration. Subject to the provisions for transfer of registration set forth below, the Bonds shall be, and have all of the qualities and incidents of, negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner, in accepting any of said Bonds shall be conclusively deemed to have agreed that such Bonds shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner shall further be conclusively deemed to have agreed that said Bonds shall be incontestable in the hands of a bona fide holder for value in the manner provided hereinafter in the form of said Bonds.

So long as any of the Bonds remain Outstanding, the Issuer, through the Bond Registrar, shall keep and maintain books for the registration and transfer of the Bonds.

Bonds shall be transferable only upon the books of the Bond Registrar, by the registered Owner thereof in person or by the Owner's attorney duly authorized in writing, upon surrender thereto together with a written instrument of transfer satisfactory to the Bond Registrar, duly executed by the registered Owner or the Owner's duly authorized attorney.

In all cases in which the privilege of exchanging Bonds or transferring Bonds is exercised, Bonds shall be delivered in accordance with the provisions of this Resolution. All Bonds surrendered in any such exchanges or transfers shall forthwith be canceled by the Bond Registrar. For every such exchange or transfer of Bonds, the Bond Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge

required to be paid with respect to such exchange or transfer and the cost of preparing each new Bond upon each exchange or transfer, and any other expenses of the Bond Registrar incurred in connection therewith, which sum or sums shall be paid by the Issuer. The Bond Registrar shall not be obliged to make any such exchange or transfer of Bonds during the 15 days preceding an interest payment date on the Bonds, or, in the case of any proposed redemption of Bonds, next preceding the date of the selection of Bonds to be redeemed.

Section 3.05. Bonds Mutilated, Destroyed, Stolen or Lost. In case any Bond shall become mutilated or be destroyed, stolen or lost, the Issuer may, in its discretion, issue and deliver a new Bond in exchange and substitution for such mutilated Bond, upon surrender and cancellation of such mutilated Bond, or in lieu of and substitution for the Bond destroyed, stolen or lost, and upon the Owner's furnishing the Issuer proof of ownership thereof and satisfactory indemnity and complying with such other reasonable regulations and conditions as the Issuer may prescribe and paying such expenses as the Issuer may incur and the Bond Registrar shall authenticate the new Bond. All Bonds so surrendered shall be canceled by the Bond Registrar and held for the account of the Issuer. If such Bond shall have matured or be about to mature, instead of issuing a substitute Bond, the Issuer may pay the same, upon being indemnified as aforesaid, and, if such Bond be lost, stolen, or destroyed, without surrender therefor.

Any such duplicate Bonds issued pursuant to this Section shall constitute original, additional contractual obligations on the part of the Issuer, whether or not the lost, stolen or destroyed Bonds be at any time found by anyone, and such duplicate Bonds shall be entitled to equal and proportionate benefits and rights as to lien and source of security for payment from the revenues pledged herein with all other Bonds issued hereunder.

Section 3.06. Bonds not to be Indebtedness of the Issuer. The Bonds shall not, in any event, be or constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation, but shall be payable solely from the Net Revenues derived from the operation of the System as herein provided. No Owner or Owners of any of the Bonds shall ever have the right to compel the exercise of the taxing power, if any, of the Issuer to pay the Bonds or any interest thereon.

Section 3.07. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of all the Original Bonds shall be secured forthwith equally and ratably with each other by a first lien on the Net Revenues derived from the System. Such Net Revenues in an amount sufficient to pay the principal of and interest, if any, on and other payments for the Bonds and to make the payments into the sinking funds and the reserve accounts therein and in the Renewal and Replacement Fund hereinafter established are hereby irrevocably pledged to the payment of the principal of and any interest on the Bonds as the same become due.

Section 3.08. Form of Original Bonds. The text of each series of Original Bonds shall be of substantially the following tenor, with such omissions, insertions and

variations as may be necessary and desirable and authorized or permitted by this Resolution or any subsequent resolution adopted prior to the issuance thereof.

ARTICLE IV

AUTHORIZATION, TERMS, EXECUTION AND REGISTRATION OF BOND ANTICIPATION NOTES

Section 4.01. Authorization and Terms of Notes. In order to pay certain Costs of the Project pending receipt of proceeds from the issuance of additional sewerage system revenue bonds for the System or proceeds of additional grants (other than Infrastructure Council grants) received for the System, there shall be issued the Notes of the Issuer. The Notes shall be issued in one series, designated "Bond Anticipation Notes, Series 1999," in the aggregate principal amount of $16,550,000, and numbered R-1. The Notes shall be dated as of the date of delivery thereof, shall mature at such time and in such amount or amounts as shall be set forth in the Series 1999 Notes Loan Agreement and the Supplemental Resolution. The Notes shall bear no interest. The repayment of principal on the Notes shall be as set forth on Schedule Y to the Series 1999 Notes Loan Agreement and the Supplemental Resolution. The Notes shall contain such other terms, provisions, conditions and limitations, all as provided by this Resolution and the Series 1999 Notes Loan Agreement and as the Board may prescribe by a supplementary or amendatory resolution hereto in connection with the sale of the Notes.

The Notes shall be payable as to principal at the principal office of the Paying Agent, in any coin or currency which, on the date of payment of principal is legal tender for the payment of public and private debts under the laws of the United States of America.

Unless otherwise provided in the Supplemental Resolution, the Notes shall be issued in the form of a single note, fully registered to the Authority, with a record of advances attached, all as provided in the Series 1999 Note Loan Agreement and said Supplemental Resolution. The Notes shall be exchangeable at the option and expense of the Bondholder for other fully registered Notes in aggregate principal amount equal to the amount of said Notes then Outstanding, with a maturity corresponding to the dates of maturity of the Notes; provided, that the Authority shall not be obligated to pay any expenses of such exchange.

Section 4.02. Execution of Notes. The Notes shall be executed in the name of the Issuer by the Chairman and attested by the Secretary, and the seal of the Issuer shall be affixed thereto or imprinted thereon. In case any one or more of the officers who shall have signed or sealed the Notes shall cease to be such officer of the Issuer before the Notes so signed and sealed have been sold and delivered, such Notes may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Notes had not ceased to hold such office. The Notes may be signed and sealed on behalf of the Issuer by such person as, at the actual time of the execution of the Notes, shall hold the proper office in the Issuer, although at the date of the Notes such person may not have held such office or may not have been so authorized.

Section 4.03. Authentication and Registration. No Note shall be valid or obligatory for any purpose or entitled to any security or benefit under this Resolution unless and until the Certificate of Authentication and Registration on such Note, substantially in the form set forth in Section 4.08, shall have been duly manually executed by the Notes Registrar. Any such executed Certificate of Authentication and Registration upon any such Note shall be conclusive evidence that such Note has been authenticated, registered and delivered under this Resolution. The Certificate of Authentication and Registration on any Bond shall be deemed to have been executed by the Notes Registrar if manually signed by an authorized officer of the Notes Registrar.

Section 4.04. Negotiability, Transfer and Registration. Subject to the provisions for transfer of registration set forth below, the Notes shall be, and have all of the qualities and incidents of, negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner, in accepting any of said Notes shall be conclusively deemed to have agreed that such Notes shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive owner shall further be conclusively deemed to have agreed that said Notes shall be incontestable in the hands of a bona fide holder for value in the manner provided hereinafter in the form of said Notes.

So long as the Notes remain Outstanding, the Issuer, through the Notes Registrar, shall keep and maintain books for the registration and transfer of the Notes.

The Notes shall be transferable only upon the books of the Notes Registrar, by the registered Owner thereof in person or by the Owner's attorney duly authorized in writing, upon surrender thereto together with a written instrument of transfer satisfactory to the Notes Registrar, duly executed by the registered Owner or the Owner's duly authorized attorney.

In all cases in which the privilege of exchanging the Notes or transferring the Notes is exercised, the Notes shall be delivered in accordance with the provisions of this Resolution. All Notes surrendered in any such exchanges or transfers shall forthwith be canceled by the Notes Registrar. For every such exchange or transfer of Bonds, the Notes Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and the cost of preparing each new Note upon each exchange or transfer, and any other expenses of the Notes Registrar incurred in connection therewith, which sum or sums shall be paid by the Issuer.

Section 4.05. Notes Mutilated, Destroyed, Stolen or Lost. In case any Note shall become mutilated or be destroyed, stolen or lost, the Issuer may, in its discretion, issue and deliver a new Note in exchange and substitution for such mutilated Note, upon surrender and cancellation of such mutilated Note, or in lieu of and substitution for the Note destroyed, stolen or lost, and upon the Owner's furnishing the Issuer proof of ownership thereof and satisfactory indemnity and complying with such other reasonable regulations and conditions as the Issuer may prescribe and paying such expenses as the Issuer may incur and the Notes Registrar shall authenticate the new Note. All Notes so surrendered shall be

canceled by the Notes Registrar and held for the account of the Issuer. If such Note shall have matured or be about to mature, instead of issuing a substitute Note, the Issuer may pay the same, upon being indemnified as aforesaid, and, if such Note be lost, stolen, or destroyed, without surrender therefor.

Any such duplicate Notes issued pursuant to this Section shall constitute original, additional contractual obligations on the part of the Issuer, whether or not the lost, stolen or destroyed Notes be at any time found by anyone, and such duplicate Notes shall be entitled to equal and proportionate benefits and rights as to lien and source of security for payment Notes with any other Notes issued hereunder.

Section 4.06. Notes are Special Obligations. The Notes shall be special obligations of the Issuer payable as to principal and interest, if any, solely from proceeds of any additional sewerage system revenue bonds or refunding revenue bonds of the Issuer which may be issued for the Project, any additional grants (other than Infrastructure Council grants) which the Issuer may receive for the Project and any additional bond anticipation notes which the Issuer may issue from time to time upon maturity of the Notes. If, on the fortieth anniversary of the date of issuance of the Notes, the Issuer has not (i) issued any additional sewerage system revenue bonds, refunding revenue bonds, or bond anticipation notes pursuant to the terms of this Resolution or (ii) received any additional grants (other than Infrastructure Council grants) for the Project, then the Infrastructure Council shall instruct the Authority to convert the outstanding principal amount of the Note or Notes then Outstanding to a grant and to cancel the Note or Notes then Outstanding; provided, that in no event shall an amount of the principal amount of the Notes greater than $8,600,000 be converted to a grant.

The Notes do not and shall not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provisions. The general funds of the Issuer are not liable, and neither the full faith and credit nor the taxing power, if any, of the Issuer is pledged for the payment of the Notes. The Holder of the Notes shall never have the right to compel the forfeiture of any property of the Issuer. The Notes shall not be a debt of the Issuer, nor a legal or equitable pledge, charge, lien or encumbrance upon any property of the Issuer or upon any of its income, receipts or revenues except as may be set forth in the Supplemental Resolution.

Section 4.07. Covenants of Resolution Applicable to Notes. All covenants and restrictions contained in the Resolution, where appropriate and to the extent required by the Infrastructure Council, the Authority or the Series 1999 Notes Loan Agreement, are recognized and agreed by the Issuer to be applicable to the Notes.

Section 4.08. Form of Notes. The text of the Notes shall be of substantially the following tenor, with such omissions, insertions and variations as may be necessary and desirable and authorized or permitted by this Resolution or any subsequent resolution adopted prior to the issuance thereof.

Section 4.09. Application of Notes Proceeds. The moneys derived from the sale of the Notes shall be deposited with the Depository Bank in the Series 1999 Bond and Note Construction Trust Fund and applied solely to the payment of the costs of the Project and the costs of issuance and related costs.

Section 4.10. Establishment of Series 1999 Bond Anticipation Notes Payment Fund. There is hereby created and established with the Commission, to be held by the Commission separate and apart from all other funds or accounts of the Commission and from all other funds or accounts of the Issuer, the Series 1999 Bond Anticipation Notes Payment Fund. Upon receipt of proceeds of any grants (other than an Infrastructure Council grants) for the System, any sewerage system revenue bonds or revenue refunding bonds of the Issuer, or any additional bond anticipation notes which the Issuer may issue upon maturity of the Notes pursuant to Section 4.11 hereof, an amount of the proceeds of such grants, revenue bonds or additional bond anticipation notes sufficient to pay all or a portion of the entire outstanding principal of the Notes shall be deposited in the Series 1999 Bond Anticipation Notes Payment Fund. All moneys so deposited in the Series 1999 Bond Anticipation Notes Payment Fund shall be paid by the Commission to the Authority on the maturity date of the Notes, if such moneys have been so deposited prior to the maturity date of the Notes, or on an earlier date if so requested by the Authority on behalf of the Infrastructure Council and if so directed by the Issuer, in full or partial payment of the outstanding principal of the Notes. All moneys deposited in the Series 1999 Bond Anticipation Notes Payment Fund shall be held in trust for the Authority on behalf of the Infrastructure Council, and the Issuer shall have no rights with respect thereto except to receive the balance therein after payment of the Notes in full and the charges, if any, of the Paying Agent.

Any moneys remaining in the Series 1999 Bond Anticipation Notes Payment Fund, after the payment of the Notes in full and all charges of the Paying Agent, shall be used as directed in writing by the Authority and the Infrastructure Council.

Section 4.11. Conversion of Notes to Permanent Financing and/or Additional Bond Anticipation Notes.

A. In the event proceeds of any grants (other than Infrastructure Council grants) for the Project, any sewerage system revenue bonds or revenue refunding bonds of the Issuer or any other obligations of the Issuer issued subsequent to the issuance of the Notes are not sufficient or available on a timely basis to pay the Notes in full by the maturity date of the Notes, the Issuer covenants and agrees to issue and sell its revenue bonds and/or additional bond anticipation notes in an amount sufficient to pay the Notes in full pursuant to the requirements of this Section 4.11.

B. The Issuer covenants that no later than twelve months prior to the maturity date of the Notes, the Issuer will retain an Independent Certified Public Accountant to prepare a report (the "Customer Growth Report") setting forth the following information:

(i) the amount of additional Net Revenues of the System attributable to the annual customer growth experienced by the System during the period between the date of issuance of the Notes and the date of the report, taking into account any rebates required to be repaid to new customers for construction advances pursuant to applicable PSC regulations;

(ii) the existing maximum annual debt service requirements of all bonds, notes, and other obligations then Outstanding payable from the Net Revenues of the System, taking into account the periodic payments required to be made into the various sinking fund, reserve account, renewal and replacement fund payments required by this Resolution on account of the Bonds and by any other resolution authorizing the issuance of such bonds, notes and other obligations;

(iii) the increases in operation and maintenance expenses experienced by the System during the period between the date of issuance of the Notes and the date of the report, and the additional increases in operation and maintenance expenses that are expected to be experienced by the System as a result of future customer growth, the effects of inflation, or otherwise;

(iv) the rate coverage requirements established by Section 7.04 of this Resolution and any more stringent rate coverage requirements established in any resolution adopted after this Resolution authorizing the issuance of other bonds, notes or other obligations of the Issuer then Outstanding;

(v) the then-current rates and charges of the Issuer;

(vi) the sources of permanent financing potentially available to the Issuer during the succeeding six months, including, for each such source, the applicable principal amount available to be loaned to the Issuer, the applicable interest rate, the existence and amount of any administrative or similar fee to be imposed by the lender, and the term of the loan; and

(vii) whether, considering the factors stated in subdivisions (ii), (iii), (iv) and (v) above and the terms of the available sources of permanent financing stated in subdivision (vi) above, the additional Net Revenues of the System attributable to the annual customer growth experienced by the System stated in subdivision (i) are sufficient to permit the Issuer to issue additional revenue bonds payable from the Net Revenues of the System to repay all or a portion of the Outstanding principal amount of the Notes and, if so, the principal amount of such additional revenue bonds that could be so issued.

No later than twelve months prior to the maturity date of the Notes, the Issuer will contact all available governmental funding sources to secure the information required to be set forth in subdivision (vi) above.

C. The Issuer will provide the Customer Growth Report to the Authority and the Infrastructure Council no later than ten and one-half months prior to the maturity date of the Notes. Based on its review of the Customer Growth Report, the Infrastructure Council will recommend that the Issuer take one or both of the following actions:

(i) that the Issuer issue additional revenue bonds, notes or other obligations of the System and that the proceeds of such additional revenue bonds, notes or other obligations be deposited in the Series 1999 Bond Anticipation Notes Payment Fund prior to the maturity date of the Notes to be applied to the payment of all or a portion of the Outstanding principal amount of the Notes; or

(ii) to the extent that the proceeds of such additional revenue bonds, notes or other obligations be deposited in the Series 1999 Bond Anticipation Notes Payment Fund will be sufficient to repay only a portion of the Outstanding principal amount of the Notes, that on the maturity date of the notes, the Issuer issue an additional bond anticipation note or notes to the Authority on behalf of the Infrastructure Council, containing such terms as the Authority and the Infrastructure Council may request, with an aggregate principal amount equal to the principal amount of the Notes not paid in full on the maturity date of the Notes.

D. Upon receipt of the Infrastructure Council's recommendations offered in response to the Customer Growth Report, the Issuer will take such actions as are necessary and convenient to implement the recommendations of the Infrastructure Council, including the adoption of a bond and/or note resolution, the issuance of additional revenue bonds, notes or other obligations payable from the Net Revenues of the System or the issuance of additional bond anticipation notes or both in principal amounts sufficient to convert all of the Outstanding principal amount of the Notes to permanent financing or additional bond anticipation notes.

E. Notwithstanding any other provision of this Resolution, if the Program is amended prior to the maturity date of the Notes to permit the Authority and the DEP to authorize and make loans under the Program for terms in excess of twenty years, the Authority, acting on behalf of the Infrastructure Council and upon providing reasonable written notice to the Issuer, may declare all or any portion of the outstanding principal amount of the Notes to be due and payable prior to maturity.

Section 4.12. Prohibition of Other Debt. So long as the Notes are outstanding, no bonds, notes or other evidences of indebtedness secured by the System or the proceeds of any grants, revenue bonds or bond anticipation notes for the System, shall be issued by the Issuer other than pursuant to Section 4.11 hereof without the prior written consent of the Authority and the Infrastructure Council.

Section 4.13. Investment of Funds. Pending application as provided above, any moneys held in the Series 1999 Bond and Note Construction Trust Fund on account of the proceeds of the Notes and in the Series 1999 Bond Anticipation Notes Payment Fund shall

be invested and reinvested by the Depository Bank or the Commission, as applicable, at the direction of the Issuer to the fullest extent possible under applicable laws, and to the extent practicable, in Qualified Investments having maturities consonant with the required use thereof.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once a year (or more often if reasonably requested by the Issuer), a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any of the Notes are Outstanding and as long thereafter as necessary to comply with the Code and assure the exclusion of interest, if any, on the Notes from gross income for federal income tax purposes.

ARTICLE V

SYSTEM REVENUES AND APPLICATION THEREOF

Section 5.01. Establishment of Continuation of Funds and Accounts with Depository Bank. The following special funds or accounts are created with (or, if established by a resolution prior to this resolution, continued hereby) and shall be held by the Depository Bank:

(1) Revenue Fund;

(2) Renewal and Replacement Fund; and

(3) Series 1999 Bond and Note Construction Trust Fund (with a separate subaccount to be established for each series of Original Bonds and for the Notes).

Section 5.02. Establishment of Funds and Accounts with Commission. The following special funds or accounts are hereby established with the Commission:

(1) Series 1999 A Bonds Sinking Fund;

(a) Within the Series 1999 A Bonds Sinking Fund, the Series 1999 A Bonds Reserve Account;

(2) Series 1999 B Bonds Sinking Fund;

(a) Within the Series 1999 B Bonds Sinking Fund, the Series 1999 B Bonds Reserve Account; and

(3) Series 1999 Notes Payment Account.

Section 5.03. System Revenues; Flow of Funds. A. The entire Gross Revenues derived from the operation of the System shall be deposited upon receipt in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in this Resolution and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner therein and herein provided.

(1) The Issuer shall, each month, transfer from the Revenue Fund an amount sufficient to pay current Operating Expenses of the System.

(2) The Issuer shall next, on the first day of each month (i) commencing 4 months prior to the first date of payment of interest, if any, on the respective series of Bonds for which interest has not been capitalized, apportion and set apart out of the

Revenue Fund and remit to the Commission, for deposit in the respective Sinking Funds, a sum equal to 1/3rd of the amount of interest which will become due on the respective series of Bonds on the next ensuing quarterly interest payment date; provided, that, in the event the period to elapse between the date of such initial deposit in the respective Sinking Fund and the next quarterly interest payment date is less than 4 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next quarterly interest payment date, the required amount of interest coming due on such date, and (ii) on the first day of each month, commencing 4 months prior to the first date of payment of principal on the respective series of Bonds, apportion and set apart out of the Revenue Fund and remit to the Commission for deposit in the respective Sinking Funds, a sum equal to 1/3rd of the amount of principal which will mature and become due on the respective series of Bonds on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the respective Sinking Fund and the next quarterly principal payment date is less than 4 months, then such monthly payments shall be increased proportionately to provide, one month prior to the next quarterly principal payment date, the required amount of principal coming due on such date. When additional series of Original Bonds are issued, the payment of interest and principal on said bonds shall be made simultaneously with the payments described in this Section 5.03A(2) and to the extent that Revenues are insufficient to make all of the payments, such payments shall be made, pro rata, among each series of Bonds.

(3) The Issuer shall next transfer from the Revenue Fund and pay to the Commission on the first day of each month, commencing 3 months prior to the first date of payment of principal of each respective series of Bonds, if not fully funded upon issuance of such series of Bonds, for deposit in the respective Reserve Account, an amount equal to 1/120 of the respective Reserve Requirement; provided, that no further payments shall be made into the respective Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the respective Reserve Requirement. When additional series of Original Bonds are issued, the payment of interest and principal on said bonds shall be made simultaneously with the payments described in this Section 5.03A(3) and to the extent that Revenues are insufficient to make all of the payments, such payments shall be made, pro rata, among each series of Bonds.

(4) The Issuer shall next, from the moneys remaining in the Revenue Fund, on the first day of each month, transfer to the Renewal and Replacement Fund a sum equal to 2 1/2% of the Gross Revenues each month, exclusive of any payments for account of any Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in the Reserve Account (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the

maximum extent required hereof) shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

Moneys in the respective Sinking Funds shall be used only for the purposes of paying principal of and interest on the respective series of Bonds as the same shall become due. Moneys in the Reserve Account in the respective Sinking Funds shall be used only for the purpose of paying principal of or interest on the respective series of Bonds, as the same shall come due, when other moneys in the respective Sinking Fund are insufficient therefor, and for no other purpose. Except for the funds required to be deposited in the Rebate Fund, all investment earnings on moneys in the respective Reserve Accounts shall be transferred, not less than once each year, to the respective Bond Construction Trust Funds prior to completion of the Project and thereafter, pro rata, to the respective Sinking Funds.

Any withdrawals from the Reserve Accounts which result in a reduction in the balance of any Reserve Account to an amount below the applicable Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments to the Sinking Funds for payment of debt service on the Bonds have been made in full.

B. As and when additional Bonds ranking on a parity with the Original Bonds are issued, provision shall be made for additional payments into the Sinking Fund sufficient to pay any interest on such additional Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the Reserve Account in an amount equal to the Reserve Requirement.

The Commission is hereby designated as the fiscal agent for the administration of the Sinking Funds created hereunder, and all amounts required for said Sinking Funds shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein.

The payments into the Sinking Funds shall be made on the first day of each month, except that when the first day of any month shall be a Sunday or legal holiday then such payments shall be made on the next succeeding business day, and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Resolution.

Moneys in the Reserve Accounts shall be invested and reinvested by the Commission in accordance with Article VIII hereof.

The Sinking Funds, including the Reserve Accounts therein, shall be used solely and only for, and are hereby pledged for, the purpose of servicing the respective series of Bonds and any additional Bonds ranking on a parity with them that may be issued and Outstanding under the conditions and restrictions hereinafter set forth.

C. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinabove provided, are current and there remains in said Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into the Sinking Funds, including the Reserve Accounts therein, and the Renewal and Replacement Fund during the following month or such longer period as shall be required by the Act, such excess shall be considered as surplus revenues (the "Surplus Revenue"). Surplus Revenues may be used for any lawful purpose of the System.

D. The Issuer shall remit from the Revenue Fund to the Commission or the Depository Bank, on such dates as the Commission or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay any Depository Bank's charges then due.

Simultaneously with the deposits made to the Commission pursuant to Section 5.03A(2) and (3) the Issuer shall remit to the Commission the SRF Administrative Fee.

The Issuer shall complete the "monthly payment form," which form is attached to the Loan Agreement as Exhibit F, and submit a copy of said form along with a copy of its payment check to the Authority by the fifth day of each calendar month.

E. The moneys in excess of the maximum amounts insured by FDIC in the Revenue Fund and the Renewal and Replacement Fund shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

F. If, on any monthly payment date, the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments, in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates.

G. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

H. The Gross Revenues of the System shall only be used for purposes of the System.

Section 5.04. Excess Bond and Note Proceeds. Upon completion of construction of the Project, as certified by the Consulting Engineers, and after all costs have been paid, any remaining proceeds of the Series 1999 A Bonds shall be used as directed in writing by the Authority and the DEP and any remaining proceeds of the Series 1999 B Bonds or the Notes shall be used as directed in writing by the Authority and the Infrastructure Council.

ARTICLE VI

APPLICATION OF ORIGINAL BOND AND NOTE PROCEEDS; FUNDS AND ACCOUNTS

Section 6.01. Application of Original Bond and Note Proceeds. From the moneys received from time to time from the sale of any or all of the Original Bonds, the following amounts shall be first deducted and deposited in the order set forth below:

A. From the proceeds of the Bonds, there shall be deposited with the Commission in the respective Reserve Accounts the sums, if any, set forth in the Supplemental Resolution for funding of said Reserve Accounts.

B. The remaining moneys derived from the sale of the Original Bonds and the Notes shall be deposited by the Issuer, as received from time to time, in the Bond and Note Construction Trust Fund hereinafter established.

C. There is hereby created and established with the Depository Bank a special fund, designated the "Series 1999 Bond and Note Construction Trust Fund," with a separate subaccount to be established for each series of Original Bonds and for the Notes. The Depository Bank shall act as a trustee and fiduciary for the Bondholders and Noteholders with respect to the Bond and Note Construction Trust Fund and shall comply with all requirements with respect to the disposition of the Bond and Note Construction Trust Fund set forth in this Resolution. Moneys in the Bond and Note Construction Trust Fund shall be used solely to pay Costs of the Project and until so transferred or expended, are hereby pledged as additional security for the Bonds.

Section 6.02. Disbursements From the Bond and Note Construction Trust Fund.

A. With respect to the proceeds of the Series 1999 A Bonds, on or before the Closing Date, the Issuer shall have delivered to the Authority a report listing the specific purposes for which the proceeds of the Series 1999 A Bonds will be expended and the disbursement procedures for such proceeds, including an estimated monthly draw schedule.

Except as provided in Section 6.01 hereof, disbursements from the Bond and Note Construction Trust Fund from proceeds of the Series 1999 A Bonds (except for the cost of issuance of the Series 1999 A Bonds which shall be made upon request of the Issuer) shall be made only after submission to, and approval from, the Authority and the DEP of the following:

(1) A "Payment Requisition Form," attached to the SRF Loan Agreement, and

(2) a certificate, signed by the Chairman and the Consulting Engineers, stating:

(A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursements theretofore made;

(B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(C) That each of such costs has been otherwise properly incurred; and

(D) That payment for each of the items proposed is then due and owing.

B. With respect to the proceeds of the Series 1999 B Bonds and the Notes, on or before the Closing Date, the Issuer shall have delivered to the Infrastructure Council a report listing the specific purposes for which the proceeds of the Series 1999 B will be expended and the disbursement procedures for such proceeds, including an estimated monthly draw schedule.

With respect to the proceeds of the Series 1999 B Bonds and the Notes, each month the Issuer shall provide the Infrastructure Council with a requisition for costs incurred for the Project with such documentation as the Infrastructure Council shall from time to time require. Upon receipt of the proceeds from the Authority, the Issuer shall deposit the proceeds in the Bond and Note Construction Trust Fund and pay any approved costs. Payments for Costs of the Project shall be made monthly.

Except as provided in Section 6.01 hereof, disbursements from the Bond and Note Construction Trust Fund (except for the cost of issuance of the Series 1999 B Bonds or the Notes, which shall be made upon request of the Issuer) shall be made only after submission to, and approval from, the Authority and the Infrastructure Council, of a certificate, signed by the Chairman and the Consulting Engineers, stating that:

(A) That none of the items for which the payment is proposed to be made has formed the basis for any disbursements theretofore made;

(B) That each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(C) That each of such costs has been otherwise properly incurred; and

(D) That payment for each of the items proposed is then due and owing.

C. In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Bond and Note Construction Trust Fund only the net amount remaining after deduction of any such portion. All payments made from the Bond and Note Construction Trust Fund shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Bond and Note Construction Trust Fund. The Consulting Engineers shall, from time to time, file with the Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Bond and Note Construction Trust Fund, including any subaccounts therein, shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions set forth in this Resolution shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any owner or owners of the Bonds or the Notes. In addition to the other covenants, agreements and provisions of this Resolution, the Issuer hereby covenants and agrees with the owners of the Bonds and the Notes as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of said Bonds or Notes, or the interest, if any, thereon, is Outstanding and unpaid.

Section 7.02. Bonds and Notes not to be Indebtedness of the Issuer. The Bonds and Notes shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Resolution. No Holder or Holders of any Bonds shall ever have the right to compel the exercise of the taxing power, if any, of the Issuer to pay said Bonds or Notes or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Original Bonds issued hereunder shall be secured forthwith, equally and ratably, by a first lien on the Net Revenues derived from the operation of the System. The revenues derived from the System, in an amount sufficient to pay the principal of and interest on the Bonds herein authorized and to make the payments into the Sinking Funds, including the Reserve Accounts therein, and all other payments provided for in this Resolution are hereby irrevocably pledged, in the manner provided herein, to the payment of the principal of and interest on the Bonds and for the other purposes provided in the Resolution.

Section 7.04. Rates. Prior to issuance of the Original Bonds and the Notes, equitable rates or charges for the use of and service rendered by the System will be established in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from said System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted, whenever necessary, so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reductions in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System, (i) to provide for all reasonable expenses of operation, repair and maintenance of the System, including any reserves required by the PSC Order or any supplemental or amendments thereto, and (ii) to leave a balance each Fiscal Year equal to at least 115% of the maximum amount required in any succeeding Fiscal Year for payment

of principal of and interest on the Bonds; provided that, in the event that amounts at least equal to or in excess of the respective Reserve Requirements are on deposit in the respective Reserve Accounts, such balance each Fiscal Year need only equal at least 110% of the maximum amount required in any succeeding Fiscal Year for payment of principal of and interest on the Original Bonds.

Section 7.05. Completion, Operation and Maintenance; Schedule of Cost. The Issuer will expeditiously complete the Project and will maintain the System in good condition and will operate the same as a revenue-producing enterprise in an efficient and economical manner, making such expenditures, for equipment and for renewal, repair and replacement as may be proper for the economical operation and maintenance thereof, from the revenues of said System, in the manner provided in the Resolution.

Upon completion of the Project, the Issuer shall file with the Authority a schedule, in substantially the form of Amended Schedule A to the Program loan application, setting forth the actual costs of the Project and sources of funds therefor.

Section 7.06. Sale of the System. The System may be sold, mortgaged, leased or otherwise disposed of only as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient fully to pay or redeem at or prior to maturity all the Bonds and Notes Outstanding. The proceeds from such sale, mortgage, lease or other disposition of the System shall immediately be remitted to the Commission for deposit in the appropriate Sinking Funds for the Bonds and the Series 1999 Notes Payment Fund, and the Issuer shall direct the Commission to apply such proceeds to the payment of principal and any interest, if any, at maturity of Bonds and Notes about to mature and to the redemption prior to maturity, at the earliest date permitted hereby and at the redemption price, of all other Outstanding Bonds and Notes. Any balance remaining after the redemption or payment of all the Bonds and Notes and the interest, if any, thereon shall be remitted to the Issuer by the Commission, unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. The Board may then, if it be so advised, as evidenced by certificates of the Consulting Engineers, by resolution duly adopted, approve and concur in such finding and provide for the sale of such property if the amount to be received therefor is not in excess of ten thousand dollars ($10,000), or authorize such sale, lease or other disposition of such property, upon public bidding, if the amount to be received therefor is in excess of ten thousand dollars ($10,000) but not in excess of fifty thousand dollars ($50,000). The proceeds of any such sale, lease or other disposition of such property, not in excess of $10,000, shall be deposited in the Renewal and Replacement Fund. The proceeds derived from any such sale, lease or other disposition of such property, in excess of $10,000 and not in excess of $50,000, shall be remitted by the Issuer to the Commission for deposit, or a pro rata basis, in the respective Sinking Funds for

the Bonds and the Series 1999 Notes Payment Fund, and shall be applied only (i) to the redemption of Bonds of the last maturities then Outstanding or to the purchase of Bonds of the last maturities then Outstanding at prices not greater than the redemption price of such Bonds and (ii) to the payment prior to maturity of the Notes. Such payments of such proceeds into the respective Sinking Funds, the Series 1999 Notes Payment Fund or the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said funds by other provisions of this Resolution.

No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom shall be in excess of fifty thousand dollars ($50,000) and be insufficient to pay or redeem, prior to maturity, all the Bonds and Notes then Outstanding, without the prior approval and consent in writing of the owners, or their duly authorized representatives, of sixty-six and two-thirds percent (66-2/3%) in amount of the Bonds and Notes then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then owners of the Bonds and Notes, for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.07. Issuance of Other Obligations Payable out of Revenues and General Covenant Against Encumbrances. The Issuer shall not issue any other obligations whatsoever, except pari passu additional Bonds provided for in Section 7.08 hereof, payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bonds; provided, however, that additional Parity Bonds may be issued as provided in Section 7.08 hereafter. All obligations hereafter issued by the Issuer payable from the revenues of the System, except such additional Parity Bonds, shall contain an express statement that such obligations are junior and subordinate as to lien on and source of and security for payment from such revenues and in all other respects to the Bonds to the extent such are Outstanding; provided, that no such subordinate obligations shall be issued unless all payments required to be made into the respective Reserve Accounts and the Renewal and Replacement Fund, at the time of the issuance of such subordinate obligations, have been made and are current.

In addition to the provisions and limitations stated in the preceding paragraph, the Issuer shall not issue any other obligations whatsoever payable from the revenues of the System so long as any portion of principal amount of the Notes or any additional bond anticipation notes issued for the purpose of renewing a portion of the original principal amount of the Notes is outstanding, unless the Issuer has secured the prior written consent of the Infrastructure Council and the Authority. The limitations imposed by the preceding sentence shall apply equally (i) in the case all or any portion of the aggregate principal amount of the Bonds is Outstanding and the obligations sought to be issued would rank prior to, equally, or junior and subordinate to such Outstanding Bonds as to lien on and source and security for payment with such Bonds; or (ii) in the case the aggregate principal amount of the Bonds has been paid in full or defeased pursuant to Section 10.01 hereof.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or, except with respect to said pari passu additional Bonds, being on a parity with the lien of the Bonds, and the interest thereon, upon any of the income and revenues of the System pledged for payment of the Bonds and the interest thereon in this Resolution or upon the System or any part thereof.

The Issuer shall give the Authority, the Infrastructure Council and the DEP prior written notice of its issuance of any other obligations to be used for the Project, payable from the revenues of the System or from any grants for the Project, or any other obligations related to the Project or the System.

Section 7.08. Parity Bonds. No Parity Bonds payable out of the revenues of the System shall be issued after the issuance of any Bonds pursuant to this Resolution, except under the conditions and in the manner herein provided and with the prior written consent of DEP, the Infrastructure Council and the Authority.

No Parity Bonds shall be issued, except for the purpose of financing the costs of the acquisition or construction of extensions, additions, betterments or improvements to the System or refunding the entirety of one or more issues or series of bonds or both such purposes.

No Parity Bonds shall be issued at any time, however, unless and until there has been procured and filed with the Secretary a written statement by Independent Accountants, based upon the necessary investigation and certification by the Consulting Engineers, reciting the conclusion that the net revenues actually derived, subject to the adjustments hereinafter provided, from the System during any twelve (12) consecutive months within the eighteen (18) months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual net revenues to be received in each of the three (3) succeeding years after the completion of the improvements to be financed by such additional Parity Bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on the following:

(1) Each series of Original Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual net revenues to be received in each of the three (3) succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased net revenues estimated to be derived from any increase in rates enacted by the Issuer, the time for appeal of which shall have expired

prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Consulting Engineers, which shall be filed in the office of the Secretary prior to the issuance of such additional Parity Bonds.

The Net Revenues actually derived from the System during the twelve (12) consecutive month period hereinabove referred to may be adjusted by adding to such net revenues such additional net revenues which would have been received, in the opinion of the Consulting Engineers and the Independent Accountants as stated in a certificate jointly made and signed by the Consulting Engineers and the Independent Accountants, on account of increased rates, rentals, fees and charges for the System enacted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

Not later than simultaneously with the delivery of such Parity Bonds, the Issuer shall have entered into written contracts for the immediate acquisition or construction of such extensions, additions, betterments or improvements to the System which are to be financed by such Parity Bonds.

All the covenants and other provisions of this Resolution (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the owners of the Original Bonds and the owners of any Parity Bonds subsequently issued, from time to time, within the limitations of and in compliance with this Section. All the Bonds, regardless of the time or times of their issuance shall rank equally with respect to their respective liens on the revenues of the System, and their respective sources of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds created in this Resolution required for and on account of such additional Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Resolution.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior lien of the Outstanding Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from the revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Bonds.

No Parity Bonds shall be issued at any time, however, unless all the payments into the respective funds and accounts provided for in this Resolution on account of the Bonds then Outstanding, and any other payments provided for in this Resolution, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Resolution.

Section 7.09. Insurance and Construction Bonds. The Issuer will carry such insurance and in such amounts as is customarily carried with respect to works and properties similar to the System, with a reputable insurance carrier or carriers, against loss or damage

by fire, explosion, hurricane, earthquake, cyclone, occupancy or other hazards and risks. The Issuer will require that each of its contractors and all subcontractors maintain, during the life of the construction contract, workers' compensation coverage, public liability insurance, property damage insurance and vehicle liability insurance in amounts and on terms satisfactory to the Authority, the Infrastructure Council and the DEP, so long as the Authority is the Owner of the Bonds. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) on a one hundred percent (100%) basis (completed value form) on the insurable portion of the Project, to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their interests may appear, in accordance with the Loan Agreements, during construction of the Project in the full insurable value thereof. In time of war, the Issuer shall also carry in said amount such insurance as may be available against loss or damage by the risks and hazards of war. The proceeds of all such insurance policies shall be disposed of as provided in the Resolution and otherwise shall be placed in the Renewal and Replacement Fund and used only for the repair and restoration of the damaged or destroyed properties or for the other purposes provided herein for said Renewal and Replacement Fund. The Issuer shall also carry liability insurance for damage or injury to persons or property in amounts adequate for such purposes and customarily carried with respect to works and properties similar to the System. The Issuer shall carry such other insurance as is required by the Authority, the Infrastructure Council and DEP and as set forth in the Loan Agreements, including but not limited to flood insurance and business interruption insurance, to the extent available at reasonable cost to the Issuer.

The Issuer shall require all contractors engaged in the construction of the Project to furnish a performance bond and a payment bond, each in an amount equal to 100% of the contract price of the portion of the Project covered by the particular contract, as security for the faithful performance of such contract.

Section 7.10. Consulting Engineers. The Issuer shall provide and maintain competent and adequate resident engineering services satisfactory to the Authority, the Infrastructure Council and the DEP covering the supervision and inspection of the development and construction of the Project and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers. Such resident engineer shall certify to the Authority, the DEP and the Issuer, at the completion of construction, that construction is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies. The Issuer shall require the Consulting Engineers to submit Recipient As-Built Plans, as defined in the SRF Regulations, to it within 60 days of the completion of the Project. The Issuer shall notify the DEP in writing of such receipt. The Issuer shall submit a Performance Certificate, the form of which is attached as Exhibit A to the SRF Loan Agreement and is incorporated herein by reference, to the DEP within 60 days of the end of the first year after the Project is completed.

The Issuer shall require the Consulting Engineers to submit the final Operation and Maintenance Manual, as defined in the SRF Regulations, to the DEP when the Project

is 90% completed. The Issuer agrees that it will, at all times, provide operation and maintenance of the System to comply with any and all State and federal standards. The Issuer agrees that qualified operating personnel, properly certified by the State, will be employed before the Project is 25% complete and agrees that it will retain such a certified operator(s) to operate the System during the entire term of the SRF Loan Agreement. The Issuer shall notify the DEP in writing of the certified operator employed at the 25% completion stage.

The Issuer agrees that qualified operating personnel, properly certified by the State, will be retained to operate the System during the entire terms of the Loan Agreements.

Section 7.11. Compliance With Loan Agreements, Rules and Regulations. The Issuer hereby covenants and agrees to perform and satisfy all terms and conditions of the Loan Agreements and to comply with all applicable laws, rules and regulations issued by the Authority, the Infrastructure Council, the DEP or other State, federal or local bodies in regard to the construction of the Project and operation, maintenance and use of the System. Notwithstanding anything herein to the contrary, the Issuer will provide the DEP and the Infrastructure Council with copies of all documents submitted to the Authority.

Section 7.12. No Free Services. The Issuer will not render or cause to be rendered any free services, of any nature, by its System; and, in the event the Issuer or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or himself or herself of the facilities or services provided by the System or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. Such charges shall be paid as they accrue, and the Issuer shall transfer from its general funds sufficient sums to pay such charges for service to any of its departments or properties. The revenues so received shall be deemed to be revenues derived from the operation of the System and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rates, rentals or other charges for the services and facilities of the System and take all steps, actions and proceedings for the enforcement and collection of such fees, rates, rentals or other charges that shall become delinquent to the full extent permitted or authorized by the laws of the State of West Virginia. All such rates and charges, if not paid when due, shall become a lien on the premises served by the System.

Whenever any rates, rentals or charges for the services or facilities of the System, or of the waterworks system or sewerage system constituting a part thereof, shall remain unpaid for a period of thirty (30) days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all such rates and charges are fully paid. The Issuer further covenants and agrees that it will, to the full extent permitted by law, and any rules and regulations promulgated by the PSC applicable thereto, discontinue and shut off both the

water and sewerage services and facilities of the System to all delinquent users of the services and facilities of the System, or of the waterworks system or sewerage system constituting a part thereof, and will not restore either water or sewerage services of the System until all delinquent charges for the service and facilities of the System, or of the waterworks system or sewerage system constituting a part thereof, plus reasonable interest penalty charges for the restoration of service, have been fully paid.

Section 7.14. No Competing Franchise. To the extent allowable by law, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation or body, or agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.15. Books, Records and Facilities. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the costs of acquiring, constructing and installing the Project. The Issuer shall permit the Authority, the Infrastructure Council, and the DEP, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System, at all reasonable times, for the purpose of audit and examination. The Issuer shall submit to the Authority, the Infrastructure Council, and the DEP such documents and information as they may reasonably require in connection with the acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the Loan Agreements or Grant Receipts or other sources of financing for the Project.

The Issuer shall permit the Authority, the Infrastructure Council and the DEP, or their agents and representatives, to inspect all records pertaining to the operation of the System, at all reasonable times, following completion of construction of the Project and commencement of operation thereof, or, if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any owner of a Bond or Bonds issued pursuant to the Resolution shall have the right, at all reasonable times, to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow currently accepted accounting practices in accordance with the rules and regulations of the PSC and the Act. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner, on the forms, in the books, and along with other bookkeeping records as prescribed by the Issuer. The Issuer shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Issuer shall be reported to such agent of the Issuer as the Board shall direct.

The Issuer shall file with the Consulting Engineers and the Authority, the Infrastructure Council and DEP, and shall mail in each year to any owner or owners of Bonds requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Resolution with respect to said Bonds and the status of all said funds and accounts.

(C) The amount of any Bonds or other obligations Outstanding and secured by a lien on the Net Revenues of the System.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be completely audited by Independent Accountants in compliance with the applicable OMB Circular, or any successors thereto, and the Single Audit Act, or any successors thereto, and shall mail upon request, and make available generally, the report of said Independent Accountants, or a summary thereof, to any owner or owners of Bonds issued pursuant to this Resolution, and shall submit said report to the Authority, the Infrastructure Council and the DEP. The report of said audit shall include a statement that the Issuer is in compliance with the terms and provisions of the Act and the Loan Agreements and that the Issuer's revenues are adequate to meet its operation and maintenance expenses and debt service requirements.

The Issuer shall, commencing on the date contracts are executed for the construction of the Project and for two years following the completion of the Project, each month complete a Monthly Financial Report and forward a copy by the 10th of each month to the Authority, the Infrastructure Council and the DEP.

The Issuer shall, during construction of the Project, complete Payment Requisition Forms, the form of which is attached to the SRF Loan Agreement as Exhibit C and is incorporated herein by reference, and forward a copy to the DEP in compliance with the Issuer's construction schedule.

The Issuer shall provide the DEP with all appropriate documentation to comply with any special conditions established by federal and/or state regulations as set forth in Exhibit E of the SRF Loan Agreement or as promulgated from time to time.

The Issuer shall permit the Authority, the Infrastructure Council or the DEP, or their agents and representatives, to enter and inspect the Project site and Project facilities at all reasonable times. Prior to, during and after completion of construction of the Project, the Issuer shall also provide the Authority, the Infrastructure Council and the DEP, or their agents and representatives, with access to the System site and System facilities as may be

reasonably necessary to accomplish all of the powers and rights of the Authority, the Infrastructure Council and the DEP with respect to the System pursuant to the Act.

Section 7.16. Operating Budget. The Issuer shall, annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority, the Infrastructure Council and the DEP within thirty days of the adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by the Consulting Engineers, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Board shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made, except upon the further certificate of the Consulting Engineers that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Authority and to any Holder of any Bonds who shall file his address with the Issuer and request in writing that copies of all such budgets and resolutions be furnished him and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to any Holder of any Bonds or anyone acting for and in behalf of such Holder of any Bonds.

Section 7.17. Mandatory Connection. The mandatory use of the System is essential and necessary to protect and preserve the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Bureau of Public Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the PSC shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matter from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Bureau of Public Health and such house, dwelling or building can be adequately served by the System, and every such owner, tenant or occupant shall, after a 30 day notice of the availability of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer

and a public nuisance, which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.18. Statutory Mortgage Lien. For the further protection of the Bondholders, a statutory mortgage lien upon the System is granted and created by the Bond Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon delivery of the Bonds and shall be for the benefit of all Owners of the Bonds.

Section 7.19. PSC Order. The Issuer shall comply with the conditions of the PSC Order and any supplement or amendment thereto.

Section 7.20. Covenant to Amend Resolution. The Issuer retains the right to make any amendments, insertions or deletions by Supplemental Resolution of this Resolution as the Issuer deems necessary prior to the issuance of the Bonds to meet the requirements of the Authority and the Infrastructure Council.

Section 7.21. Compensation of the Issuer. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Board of the Issuer in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is a default in the performance of or compliance with any covenants or provision hereof.

Section 7.22. Securities Law Compliance. The Issuer will provide the Authority, in a timely manner, with any and all information that may be requested of it (including its annual audit report, financial statements, related information and notices of changes in usage and customer base) so that the Authority may comply with the provisions of SEC Rule 15c2-12 (17 CFR Part 240).

ARTICLE VIII

INVESTMENT OF FUNDS

Section 8.01. Investments. Any moneys held as a part of the funds and accounts created by this Resolution, other than the Revenue Fund, shall be invested and reinvested by the Commission or the Depository Bank, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Resolution, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Except as specifically provided herein, any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, including but not limited to those in the Bond and Note Construction Trust Fund, and used for the purpose of such fund or account. The interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the Owner, including the value of accrued interest and giving effect to the amortization of discount and investments in the "consolidated fund" of the West Virginia Board of Investments shall be valued at par. The Commission or the Depository Bank, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. Such Depository Bank may make any and all investments permitted by this Section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

Notwithstanding the foregoing, any investments made pursuant to this Resolution shall comply with the guidelines of the Authority and the Infrastructure Council.

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Bonds:

(A) If default occurs in the due and punctual payment of the principal of or interest on any series of Original Bonds; or

(B) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to such Bonds set forth in this Resolution, any supplemental Resolution, or in such Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by any bank or banking association holding any fund or account hereunder or an owner of such Bonds; or

(C) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default with respect to any Bonds, any Registered Owner of such Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his or her rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding, enforce all rights of such registered Owners, including the right to require the Issuer to perform its duties under the Act and the Resolution relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon such Bonds, (iv) by action at law or bill in equity, require the Issuer to account as if it were the trustee of an express trust for the registered Owners of such Bonds, and (v) by action or bill in equity, enjoin any acts in violation of the Resolution with respect to such Bonds, or the rights of such registered Owners.

Section 9.03. Appointment of Receiver. Any Bondholder may, by proper legal action, compel the performance of the duties of the Issuer under the Resolution and the Act, including the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any default in the payment of interest on any Bonds when the same shall become due, or in the payment of the principal of any Bond or Bonds, either at the specified date of maturity thereof or at a date set for redemption thereof, or otherwise in the performance of any covenant contained in the Resolution other than as to such payment and such default shall continue for a period of thirty (30) days after written notice to the Issuer of such default, any Bondholder shall, in addition to all other remedies or rights, have the right, by appropriate

legal proceedings, to obtain the appointment of a receiver to administer the System on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of the Bonds and any interest thereon, the deposits into the funds and accounts hereby established as herein provided and the payment of Operating Expenses of the System and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of the Resolution and the Act.

The receiver so appointed shall forthwith, directly or by his agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate, maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might do.

Whenever all that is due upon the Bonds issued pursuant to the Resolution and interest thereon and under any covenants of the Resolution for reserve, sinking or other funds and upon any other obligations and interest thereon having a charge, lien or encumbrance upon the revenues of the System shall have been paid and made good, and all defaults under the provisions of this Resolution shall have been cured and made good, possession of the System shall be surrendered to the Issuer upon the entry of an order of the court to that effect. Upon any subsequent default, any owner of Bonds issued pursuant to this Resolution shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him or her, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby and a successor receiver appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Owners of Bonds issued pursuant to the Resolution. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the possession, operation and maintenance of the System, for the sole purpose of the protection of both the Issuer and Bondholders, and the curing and making good of any default under the provisions of the Resolution, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, mortgage or otherwise dispose of any assets of the System.

ARTICLE X

DEFEASANCE

Section 10.01. Defeasance of Bonds. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Owners of all Bonds the principal thereof, and redemption premium, if applicable, and interest due or to become due thereon, at the times and in the manner stipulated therein and in the Resolution, then the pledge of Net Revenues and any other moneys and securities pledged under this Resolution and all covenants, agreements and other obligations of the Issuer to the Bondholders shall thereupon cease, terminate and become void and be discharged and satisfied.

Bonds for the payment of which either moneys in an amount which shall be sufficient, or securities the principal of and the interest on which, when due, will provide moneys which, together with the moneys, if any, deposited with the Paying Agent at the same or earlier time, shall be sufficient to pay, as and when due, the principal of and interest on the Bonds shall be deemed to have been paid within the meaning and with the effect expressed in the first paragraph of this Section. All Bonds shall, prior to the maturity thereof, be deemed to have been paid within the meaning and with the effect expressed in the first paragraph of this section if there shall have been deposited with the Commission or its agents, either moneys in an amount which shall be sufficient, or securities the principal of and the interest on which, when due, will provide moneys which, together with other moneys, if any, deposited with the Commission at the same time, shall be sufficient to pay when due the principal installments and interest due and to become due on said Bonds on and prior to the maturity dates thereof. Neither securities nor moneys deposited with the Commission pursuant to this Section nor principal or interest payments on any such securities shall be withdrawn or used for any purposes other than, and shall be held in trust for, the payment of the principal of and redemption premium, if applicable, on and interest on said Bonds; provided, that any cash received from such principal or interest payments on such securities deposited with the Commission, if not then needed for such purpose, shall, to the extent practicable, be reinvested in securities maturing at times and in amounts sufficient to pay when due the principal of and redemption premium, if applicable, on and interest to become due on said Bonds on and prior to such redemption date or maturity date thereof, as the case may be, and interest earned from such reinvestments shall be paid over to the Issuer, as received by the Commission, free and clear of any trust, lien or pledge. For the purpose of this Section, securities shall mean and include only Government Obligations.

ARTICLE XI

MISCELLANEOUS

Section 11.01. Modification or Amendment. No material modification or amendment of this Resolution or of any resolution amendatory hereof or supplemental hereto which would materially and adversely affect the rights of Bondholders or Noteholders shall be made without the consent in writing of the owners of two-thirds (2/3) or more in principal amount of the Bonds or Notes then Outstanding and to be affected by said modification; provided, however, that no change shall be made in the maturity of any Bond or Note or the rates of interest, if any, thereon, or in the principal amount thereof, or affecting the unconditional promise of the Issuer to pay such principal and interest, if any, as provided in this Resolution without the consent of the owner thereof. No amendment or modification shall be made which would reduce the percentage of the principal amount of Bonds or Notes required for consent to the above permitted amendments or modifications.

Section 11.02. Severability of Invalid Provisions. If any section, paragraph, clause or provision of this Resolution shall be held invalid, such invalidity shall not affect any of the remaining provisions of this Resolution.

Section 11.03. Table of Contents and Headings. The Table of Contents and the headings of the articles, sections and subsections hereof are for convenience only and shall neither control nor affect in any way the meaning or construction of any of the provisions hereof.

Section 11.04. Repeal of Conflicting Resolutions. All resolutions, resolutions and orders, or parts thereof, in conflict with this Resolution are, to the extent of such conflict, repealed.

Section 11.05. Covenant of Due Procedure. The Issuer covenants that all acts, conditions, things and procedures required to exist, to happen, to be performed or to be taken precedent to and in the final enactment and passage of this Resolution do exist, have happened, have been performed and have been taken in regular and due time, form and manner as required by and in full compliance with the laws and Constitution of the State of West Virginia applicable thereto; and that the Chairman, the Secretary and members of the Board were at all times when any actions in connection with this Resolution occurred, and are, duly in office and duly qualified for such office.

Section 11.06. Effective Date. This Resolution shall take effect immediately upon its adoption.

The Project consists of the construction of additions, betterments and improvements to the existing wastewater collection system of the Lubeck Public Service District and the construction of a new wastewater treatment facility. These improvements are intended to offer service to approximately 1,200 additional customers. It is expected that 15 existing wastewater treatment facilities will be eliminated as a result of the Project.

The proposed wastewater collection system improvements include construction of approximately 65,200 linear feet of six inch gravity sewers; 116,600 linear feet of eight inch gravity sewers; 6,900 linear feet of ten inch gravity sewers; 9,100 linear feet of 12 inch gravity sewers; 3,000 linear feet of 15 inch gravity sewers; 1,100 linear feet of 16 inch gravity sewers; 11,400 linear feet of 24 inch gravity sewers; 3,000 linear feet of 27 inch gravity sewers; and 3,600 linear feet of 30 inch gravity sewers. BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF LUBECK PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Bond Legislation") is adopted pursuant to the provisions of Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Lubeck Public Service District (the "Issuer") is a public service district, a public corporation and political subdivision of the State of West Virginia in Wood County of said State.

B. The Issuer presently owns and operates a public sewerage system. However, for the health, safety, advantage, convenience and welfare of the inhabitants of the Issuer, the Issuer has heretofore acquired and constructed certain improvements and extensions to the existing public sewerage system of the Issuer, consisting of approximately 40 miles of sewer collection lines and a 1.5 million gallons per day wastewater treatment plant, together with all appurtenant facilities (collectively, the "Project") (the existing public sewerage facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System"), in accordance with the plans and specifications prepared by the Consulting Engineers and filed with the Issuer.

C. The Issuer has heretofore temporarily financed a portion of the costs of the acquisition and construction of the Project through the issuance of its Sewerage System Bond Anticipation Notes, Series 1999 (West Virginia Infrastructure Fund), dated March 9, 1999, in the original aggregate principal amount of $16,550,000, of which $16,549,300 is presently outstanding (the "Prior Notes").

D. Pursuant to the Act, the Issuer is authorized and empowered to issue refunding revenue bonds for the purpose of refunding, retiring or refinancing the Prior Notes. The Issuer hereby determines that it is necessary and desirable to refund the Prior Notes.

E. The Issuer intends to refund the Prior Notes through the issuance of its revenue bonds and notes to the West Virginia Water Development Authority (the "Authority"), which administers the West Virginia Infrastructure Fund (the "Infrastructure Fund") for the West Virginia Infrastructure and Jobs Development Council (the "Council").

F. It is deemed necessary for the Issuer to issue its (i) Sewer Revenue Bonds, Series 2005 A (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $7,879,443 (the "Series 2005 A Bonds"); (ii) Sewer Revenue Bonds, Series 2005 B (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $2,411,178 (the "Series 2005 B Bonds"); and (iii) Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $6,278,679 (the "Series 2005 Notes" or the "Notes"), to refund the Prior Notes and pay all costs relating thereto. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Series 2005 Bonds prior to and during acquisition and construction of the Project and for a

period not exceeding six (6) months after completion of acquisition and construction of the Project; amounts which may be deposited in the respective Reserve Accounts (as hereinafter defined); costs of refunding the Prior Notes; engineering and legal expenses; expenses for estimates of costs and revenues, expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise, administrative expense, commitment fees, fees and expenses of the Authority, discount, initial fees for the services of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Series 2005 Bonds and the Series 2005 Notes and such other expenses as may be necessary or incidental to the financing herein authorized, the cost of acquisition and construction of the Project, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the Series 2005 Bonds or the repayment of indebtedness incurred by the Issuer for such purposes shall be deemed Costs of the Project, as hereinafter defined.

G. The period of usefulness of the System after the refunding of the Prior Notes is not less than 40 years.

H. It is in the best interests of the Issuer that the Series 2005 Bonds and the Series 2005 Notes be sold to the Authority pursuant to the terms and provisions of the respective loan agreements by and between the Issuer and the Authority, on behalf of the Council, in forms satisfactory to the Issuer, the Authority and the Council (collectively, the "Loan Agreements"), all of which are approved hereby if not previously approved by resolution of the Issuer.

I. Upon the refunding of the Prior Notes, there are outstanding obligations of the Issuer which will rank on a parity with the Series 2005 Bonds as to liens, pledge and source of and security for payment, being the Sewerage System Revenue Bonds, Series 1999 A (West Virginia SRF Program), dated March 9, 1999, issued in the original aggregate principal amount of $7,950,000 (the "Series 1999 A Bonds"); and Sewerage System Revenue Bonds, Series 1999 B (West Virginia Infrastructure Fund), dated March 9, 1999, issued in the original aggregate principal amount of $2,000,000 (the "Series 1999 B Bonds") (collectively, the "Prior Bonds").

Prior to the issuance of the Series 2005 Bonds, the Issuer will obtain (i) the certificate of an Independent Certified Public Accountant stating that the coverage and parity tests of the Prior Bonds are met; and (ii) the written consent of the Registered Owners of the Prior Bonds to the issuance of the Series 2005 Bonds on a parity with the Prior Bonds. Other than the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System. The Issuer is in compliance with all the covenants of the Prior Bonds and the Prior Resolution.

The Series 2005 Notes shall be issued junior and subordinate to the Prior Bonds and the Series 2005 Bonds as to liens, pledge and source of and security for payment.

J. The estimated revenues to be derived in each year following the refunding of the Prior Notes from the operation of the System will be sufficient to pay all Operating Expenses of the System and the principal of and interest on the Series 2005 Bonds and the Prior Bonds, and all funds and accounts and other payments provided for herein, all as such terms are hereinafter defined.

K. The Issuer has complied with all requirements of West Virginia law and the Loan Agreements relating to authorization of the acquisition, construction and operation of the Project and the System and issuance of the Series 2005 Bonds and the Series 2005 Notes, or will have so complied prior to issuance of any thereof, including, among other things and without limitation, the approval of the financing hereof by the Council and the approval of this financing and necessary user rates and charges described herein from the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which will either have expired prior to the issuance of the Series 2005 Bonds and the Series 2005 Notes or such final order will not be subject to appeal or rehearing.

L. The Project has been approved by the Council as required under Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended.

Section 1.03. Bond Legislation Constitutes Contract. In consideration of the acceptance of the Series 2005 Bonds by those who shall be the Registered Owners of the same from time to time, this Bond Legislation shall be deemed to be and shall constitute a contract between the Issuer and such Registered Owners, and the covenants and agreements herein set forth to be performed by the Issuer shall be for the equal benefit, protection and security of the Registered Owners of any and all of such Series 2005 Bonds, all which shall be of equal rank and without preference, priority or distinction between any one Bond of a series and any other Bonds of the same series, by reason of priority of issuance or otherwise, except as expressly provided therein and herein.

This Bond is payable only from and secured by a pledge of the Net Revenues (as defined in the Bond Legislation) to be derived from the operation of the System, on a parity with the pledge of Net Revenues in favor of the holders of the First Lien Bonds and from monies in the reserve account created under the Bond Legislation for this Bond (the "Series 2005 B Bonds Reserve Account") and unexpended proceeds of this Bond. Such Net Revenues shall be sufficient to pay the principal of and interest, if any, on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same, or the interest, if any, hereon, except from said special fund provided from the Net Revenues, the monies in the Series 2005 B Bonds Reserve Account and unexpended proceeds of this Bond. the respective reserve accounts established for any other obligations outstanding on a parity with this Bond, including the First Lien Bonds, an amount at least equal to the requirement therefor, such percentage may be reduced to 110%. The Issuer has entered into certain further covenants with the registered owners of this Bond for the terms of which reference is made to the Bond Legislation. Remedies provided the registered owners of this Bond are exclusively as provided in the Bond Legislation, to which reference is here made for a detailed description thereof.

Subject to the registration requirements set forth herein, this Bond is transferable, as provided in the Bond Legislation, only upon the books of the Registrar (as defined in the Bond Legislation) by the registered owner, or by its attorney duly authorized in writing, upon the surrender of this Bond, together with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered owner or its attorney duly authorized in writing.

Subject to the registration requirements set forth herein, this Bond, under the provision of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

All monies received from the sale of this Bond, after reimbursement and repayment of all amounts advanced for preliminary expenses as provided by law and the Bond Legislation, shall be applied solely to payment of the costs of refunding the Prior Notes as described in the Bond Legislation, and there shall be and hereby is created and granted a lien upon such monies, until so applied, in favor of the registered owner of this Bond.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all acts, conditions and things required to exist, happen and be performed precedent to and at the issuance of this Bond do exist, have happened, and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other obligations of the Issuer, does not exceed any limit prescribed by the Constitution or statutes of the State of West Virginia and that a sufficient amount of the Net Revenues of the System has been pledged to and will be set aside into said special fund by the Issuer for the prompt payment of the principal of this Bond.

All provisions of the Bond Legislation, resolutions and statutes under which this Bond is issued shall be deemed to be a part of the contract evidenced by this Bond to the same extent as if written fully herein.

AUTHORIZATION, TERMS, EXECUTION, REGISTRATION AND SALE OF NOTES; AUTHORIZATION AND EXECUTION OF LOAN AGREEMENT

Section 4.01. Authorization of Notes. For the purposes of refunding the Prior Notes and paying certain costs of issuance of the Notes and related costs, there shall be and hereby are authorized to be issued negotiable Notes of the Issuer. The Notes shall be issued as a single note, designated "Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund)," in the aggregate principal amount of not more than $6,278,679, and shall have such terms as set forth hereinafter and in the Supplemental Resolution.

Section 4.02. Terms of Notes. The Notes shall be issued in such principal amounts; shall bear interest, if any, at such rate or rates, not exceeding the then legal maximum rate, payable on such dates; shall mature on such dates and in such amounts; and shall be redeemable, in whole or in part, all as the Issuer shall prescribe in the Supplemental Resolution or as specifically provided in the Loan Agreement. The Notes shall be payable as to principal at the principal office of the Paying Agent, in any coin or currency which, on the date of payment of principal is legal tender for the payment of public and private debts under the laws of the United States of America.

Unless otherwise provided in the Supplemental Resolution, the Notes shall be issued in the form of a single note, fully registered to the Authority, all as provided in the Loan Agreement and the Supplemental Resolution. The Notes shall be exchangeable at the option and expense of the Registered Owner for other fully registered Notes in aggregate principal amount equal to the amount of said Notes then Outstanding, with a maturity corresponding to the dates of maturity of the Notes; provided, that the Authority shall not be obligated to pay any expenses of such exchange.

Section 4.03. Execution of Notes. The Notes shall be executed in the name of the Issuer by the Chairperson, and the seal of the Issuer shall be affixed thereto or imprinted thereon and attested by the Secretary. In case any one or more of the officers who shall have signed or sealed the Notes shall cease to be such officer of the Issuer before the Notes so signed and sealed have been sold and delivered, such Notes may nevertheless be sold and delivered as herein provided and may be issued as if the person who signed or sealed such Notes had not ceased to hold such office. The Notes may be signed and sealed on behalf of the Issuer by such person as, at the actual time of the execution of the Notes, shall hold the proper office in the Issuer, although at the date of the Notes such person may not have held such office or may not have been so authorized.

Section 4.04. Authentication and Registration. No Note shall be valid or obligatory for any purpose or entitled to any security or benefit under this Resolution unless and until the Certificate of Authentication and Registration on such Note, substantially in the form set forth in Section 4.10, shall have been duly manually executed by the Notes Registrar. Any such executed Certificate of Authentication and Registration upon any such Note shall be conclusive evidence that such Note has been authenticated, registered and delivered under this Resolution. The Certificate of Authentication and Registration on any Note shall be deemed to have been executed by the Notes Registrar if manually signed by an authorized officer of the Notes Registrar, but it shall not be necessary that the same officer sign the Certificate of Authentication and Registration on all the Notes issued hereunder.

Section 4.05. Negotiability, Transfer and Registration. Subject to the provisions for transfer of registration set forth below, the Notes shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive Registered Owner, in accepting any of the Notes shall be conclusively deemed to have agreed that such Notes shall be and have all of the qualities and incidents of negotiable instruments under the Uniform Commercial Code of the State of West Virginia, and each successive Registered Owner shall further be conclusively deemed to have agreed that such Notes shall be incontestable in the hands of a bona fide registered owner for value.

So long as the Notes remain Outstanding, the Issuer, through the Notes Registrar as its agent, shall keep and maintain books for the registration and transfer of the Notes.

The registered Notes shall be transferable only upon the books of the Notes Registrar, by the Registered Owner thereof in person or by his attorney duly authorized in writing, upon surrender thereto, together with a written instrument of transfer satisfactory to the Notes Registrar, duly executed by the Registered Owner or his duly authorized attorney.

In all cases in which the privilege of exchanging the Notes or transferring the Notes is exercised, the Notes shall be delivered in accordance with the provisions of this Resolution. All Notes surrendered in any such exchanges or transfers shall forthwith be canceled by the Notes Registrar. For every such exchange or transfer of Notes, the Notes Registrar may make a charge sufficient to reimburse it for any tax, fee or other governmental charge required to be paid with respect to such exchange or transfer and the cost of preparing each new Note upon each exchange or transfer, and any other expenses of the Notes Registrar incurred in connection therewith, which sum or sums shall be paid by the Issuer.

new Note of the same series and of like tenor as the Notes so mutilated, destroyed, stolen or lost, in exchange and substitution for such mutilated Note, upon surrender and cancellation of such mutilated Note, or in lieu of and substitution for the Note destroyed, stolen or lost, and upon the Registered Owner's furnishing the Issuer proof of ownership thereof and satisfactory indemnity and complying with such other reasonable regulations and conditions as the Issuer may prescribe and paying such expenses as the Issuer and the Notes Registrar may incur. All Notes so surrendered shall be canceled by the Notes Registrar and held for the account of the Issuer. If such Note shall have matured or be about to mature, instead of issuing a substitute Note, the Issuer may pay the same, upon being indemnified as aforesaid, and, if such Note be lost, stolen, or destroyed, without surrender therefor.

Section 4.07. Pledge of Security for the Notes. The Notes shall be payable solely from proceeds of any additional sewerage system revenue bonds or refunding revenue bonds of the Issuer, any additional grants (other than Council grants) which the Issuer may receive and any additional bond anticipation notes which the Issuer may issue from time to time upon maturity of the Notes.

Section 4.08. Notes Not to be Indebtedness of Issuer. The Notes shall be special obligations of the Issuer, payable solely from the sources set forth in Section 4.07 hereof. The Notes do not and shall not constitute an indebtedness of the Issuer within the meaning of any constitutional or statutory provision or limitation. The general funds of the Issuer are not liable, and neither the full faith and credit nor the taxing power, if any, of the Issuer is pledged for the payment of the Notes. The Registered Owner of the Notes shall never have the right to compel the forfeiture of any property of the Issuer. The Notes shall not be a debt of the Issuer, nor a legal or equitable pledge, charge, lien or encumbrance upon any property of the Issuer or upon any of its income, receipts or revenues.

The Revenue Fund shall constitute a trust fund for the purposes provided in this Bond Legislation and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided. All revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following manner and order of priority:

(1) The Issuer shall first, each month, pay from the Revenue Fund all Operating Expenses of the System.

(2) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously remit to the Commission (i) for deposit in the Sinking Funds for the Prior Bonds, the amounts required to pay principal of the Prior Bonds as required by the Prior Resolution; (ii) commencing 3 months prior to the first date of payment of principal of the Series 2005 A Bonds, for deposit in the Series 2005 A Bonds Sinking Fund, an amount equal to 1/3rd of the amount of principal which will mature and become due on the Series 2005 A Bonds on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 2005 A Bonds Sinking Fund and the next quarterly principal payment date is less than 3 months, then such monthly payment shall be increased proportionately to provide, 1 month prior to the next quarterly principal payment date, the required amount of principal coming due on such date; and (iii) commencing 3 months prior to the first date of payment of principal of the Series 2005 B Bonds, for deposit in the Series 2005 B Bonds Sinking Fund, an amount equal to 1/3rd of the amount of principal which will mature and become due on the Series 2005 B Bonds on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 2005 B Bonds Sinking Fund and the next quarterly principal payment date is less than 3 months, then such monthly payment shall be increased proportionately to provide, 1 month prior to the next quarterly principal payment date, the required amount of principal coming due on such date.

(4) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and remit to the Depository Bank, for deposit in the Renewal and Replacement Fund, a sum equal to 2 1/2% of the Gross Revenues each month (as previously set forth in the Prior Resolution and not in addition thereto), exclusive of any payments for account of any

Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, emergency repairs, improvements or extensions to the System; provided, that any deficiencies in any Reserve Account (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with monies from the Renewal and Replacement Fund.

Monies in the Series 2005 A Bonds Sinking Fund and the Series 2005 B Bonds Sinking Fund shall be used only for the purposes of paying principal of and interest, if any, on the Series 2005 A Bonds and the Series 2005 B Bonds, respectively, as the same shall become due. Monies in the Series 2005 A Bonds Reserve Account and the Series 2005 B Bonds Reserve Account shall be used only for the purposes of paying principal of and interest, if any, on the Series 2005 A Bonds and the Series 2005 B Bonds, respectively, as the same shall come due, when other monies in the Series 2005 A Bonds Sinking Fund and the Series 2005 B Bonds Sinking Fund are insufficient therefor, and for no other purpose.

All investment earnings on monies in the Series 2005 A Bonds Sinking Fund, the Series 2005 A Bonds Reserve Account, the Series 2005 B Bonds Sinking Fund and the Series 2005 B Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payment due on the Series 2005 Bonds, respectively, and then to the next ensuing principal payment due thereon, all on a pro rata basis.

Any withdrawals from the Series 2005 A Bonds Reserve Account and the Series 2005 B Bonds Reserve Account which result in a reduction in the balance of such accounts to below the respective Reserve Requirements thereof, shall be restored from the first Net Revenues available after all required payments have been made in full in the order set forth above.

As and when additional Bonds ranking on a parity with the Series 2005 Bonds are issued, provision shall be made for additional payments into the respective sinking funds sufficient to pay the interest on such additional parity Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the respective reserve accounts in an amount equal to the requirement therefor.

The Issuer shall not be required to make any further payments into the respective Series 2005 Bonds Sinking Funds or the respective Series 2005 Bonds Reserve Accounts therein when the aggregate amount of funds therein are at least equal to the aggregate principal

amount of the Series 2005 Bonds issued pursuant to this Bond Legislation then Outstanding and all interest, if any, to accrue until the maturity thereof.

Principal, interest or reserve account payments, whether made for a deficiency or otherwise, shall be made on a parity and pro rata, with respect to the Series 2005 Bonds and the Prior Bonds, in accordance with the respective principal amounts then Outstanding.

The Commission is hereby designated as the fiscal agent for the administration of the respective Series 2005 Bonds Sinking Funds and the respective Series 2005 Bonds Reserve Accounts created hereunder, and all amounts required for said accounts shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein. If required by the Authority at any time, the Issuer shall make the necessary arrangements whereby required payments into the Series 2005 Bonds Sinking Funds and the respective Series 2005 Bonds Reserve Accounts shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required hereunder.

Monies in the respective Series 2005 Bonds Sinking Funds and the respective Series 2005 Bonds Reserve Accounts shall be invested and reinvested by the Commission in accordance with Section 8.01 hereof.

The Series 2005 A Bonds Sinking Fund, the Series 2005 A Bonds Reserve Account, the Series 2005 B Bonds Sinking Fund and the Series 2005 B Bonds Reserve Account shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Series 2005 Bonds, respectively, under the conditions and restrictions set forth herein.

B. The Issuer shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required principal, interest and reserve account payments with respect to the Series 2005 Bonds and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Bond Legislation.

C. The Issuer shall complete the "Monthly Payment Form," a form of which is attached to the Loan Agreements, and submit a copy of said form along with a copy of its payment check to the Authority by the 5th day of each calendar month.

D. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in the Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into such funds during the following month or such other period as required by law, such excess shall be considered Surplus Revenues. Surplus Revenues may be used for any lawful purpose of the System.

E. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as such parties shall require, such additional sums as shall be necessary to pay their respective charges and fees then due. In the case of payments to the Commission under this paragraph, the Issuer shall, if required by the Authority at any time, make the necessary arrangements whereby such required payments shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required.

F. The monies in excess of the maximum amounts insured by FDIC in any of the funds and accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 5.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

I. The Gross Revenues of the System shall only be used for purposes of the System.

EXCHANGE OF BONDS AND NOTES FOR PRIOR NOTES

Section 6.01. Exchange of Bonds and Notes for Prior Notes. On the Closing Date, the Issuer shall deliver the Series 2005 A Bonds, the Series 2005 B Bonds and the Series 2005 Notes to the Authority in exchange for the Prior Notes, which exchange shall release and discharge the liens, pledges and encumbrances securing the Prior Notes. From the proceeds of the Series 2005 Notes, there shall be paid by the Issuer all costs of issuance of the Series 2005 Bonds and the Series 2005 Notes.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Bond Legislation shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Registered Owner of the Series 2005 Bonds and the Series 2005 Notes. In addition to the other covenants, agreements and provisions of this Bond Legislation, the Issuer hereby covenants and agrees with the Registered Owners of the Series 2005 Bonds and the Series 2005 Notes as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as the Series 2005 Bonds and the Series 2005 Notes or the interest, if any, thereon are Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Series 2005 Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Bond Legislation. No Registered Owner of the Series 2005 Bonds shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Series 2005 Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues; Lien Position with Respect to Prior Bonds. The payment of the debt service of the Series 2005 Bonds shall be secured by a first lien on the Net Revenues derived from the System on a parity with the lien on the Net Revenues in favor of the Registered Owners of the Prior Bonds. Such Net Revenues in an amount sufficient to pay the principal of and interest on and other payments for the Series 2005 Bonds and the Prior Bonds and to make all other payments provided for in the Bond Legislation, are hereby irrevocably pledged to such payments as they become due.

Section 7.04. Initial Schedule of Rates and Charges. The Issuer has obtained any and all approvals of rates and charges required by State law and has taken any other action required to establish and impose such rates and charges, with all requisite appeal periods having expired without successful appeal. Such rates and charges shall be sufficient to comply with the requirements of the Loan Agreements. The initial schedule of rates and charges for the services and facilities of the System shall be as set forth and approved by the PSC Order and such rates are hereby adopted.

So long as the Series 2005 Bonds are outstanding, the Issuer covenants and agrees to fix and collect rates, fees and other charges for the use of the System and to take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Bond Legislation and in compliance with the Loan Agreements. In the event the schedule

of rates and charges initially established for the System in connection with the Series 2005 Bonds shall prove to be insufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements, the Issuer hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates and charges and take all such actions necessary to provide funds sufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements.

Section 7.05. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of or encumber the System, or any part thereof, except as provided in the Prior Resolution. Additionally, so long as the Series 2005 Bonds are outstanding and except as otherwise required by law or with the written consent of the Authority and the Council, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to fully pay all the Bonds Outstanding in accordance with Article X hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall immediately be remitted to the Commission for deposit in the respective Series 2005 Bonds Sinking Fund, and, with the written permission of the Authority and the Council, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of and interest, if any, on the respective Series 2005 Bonds. Any balance remaining after the payment of the respective Series 2005 Bonds and interest, if any, thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution, duly adopted, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property upon public bidding. The proceeds derived from any such sale shall be deposited in the Renewal and Replacement Fund. The payment of such proceeds into

the Renewal and Replacement Fund shall not reduce the amounts required to be paid into said fund by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Registered Owners, or their duly authorized representatives, of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Registered Owners of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Series 2005 Bonds. All obligations issued by the Issuer after the issuance of the Series 2005 Bonds and payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Series 2005 Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts set forth herein have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Series 2005 Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Series 2005 Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. So long as the Prior Bonds are outstanding, the limitations on the issuance of parity obligations set forth in the Prior Resolution shall be applicable. In addition, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Series 2005 Bonds pursuant to this Bond Legislation, except with the prior written consent of the Authority and the Council under the conditions and in the manner herein provided.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2005 Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the design, acquisition, or construction of extensions and improvements to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the issuance of such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from (a) the improvements to be financed by such Parity Bonds and (b) any increase in rates adopted by the Issuer and approved by the PSC, the period for appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the period for appeal of which has expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and

security of the Registered Owners of the Bonds and the Registered Owners of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of the same series. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on revenues of the System is subject to the prior and superior liens of the Series 2005 Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2005 Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 7.08. Books; Records and Audit. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the cost of designing, acquiring, constructing and installing the Project. The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the Authority and the Council such documents and information as it may reasonably require in connection with the design, acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at any reasonable time following completion of construction of the Project and commencement of operation thereof, or if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Registered Owner of the Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the PSC. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Council, the Authority, or any other original purchaser of the Series 2005 Bonds, and shall mail in each year to any Registered Owner of the Series 2005 Bonds, requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Bond Legislation, and the status of all said funds and accounts.

(C) The amount of any Bonds, notes or other obligations outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants in compliance with the applicable OMB Circular or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Registered Owner of the Series 2005 Bonds, and shall submit said report to the Council and the Authority, or any other original purchaser of the Series 2005 Bonds. Such audit report submitted to the Council and the Authority shall include a statement that notes whether the results of tests disclosed instances of noncompliance that are required to be reported under government auditing standards and, if they are, describes the instances of noncompliance and the audited financial statements shall include a statement that notes whether the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the Loan Agreements and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

The Issuer shall permit the Council and the Authority, or their agents and representatives, to enter and inspect the Project site and facilities at all reasonable times. Prior to, during and after completion of construction and commencement of operation of the Project, the Issuer shall also provide the Council and the Authority, or their agents and representatives, with access to the System site and facilities, as may be reasonably necessary to accomplish all of the powers and rights of the Council and the Authority with respect to the System pursuant to the Act.

Section 7.09. Rates. Prior to the issuance of the Series 2005 Bonds, equitable rates or charges for the use of and service rendered by the System have been established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2005 Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2005 Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit in the respective Series 2005 Bonds Reserve Accounts and any reserve accounts for obligations on a parity with the Series 2005 Bonds, including the Prior Bonds, are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2005 Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2005 Bonds, including the Prior Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 30 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Council and the Authority within 30 days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by a professional engineer which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of a professional engineer that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Council and the Authority and to any Registered Owner of the Series 2005 Bonds, within 30 days of adoption thereof, and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to the Council and the Authority and to any Registered Owner of the Series 2005 Bonds, or anyone acting for and on behalf of such Registered Owner.

Commencing on the date contracts are executed for the acquisition and construction of the Project and for two years following the completion of the Project, the Issuer shall each month complete a "Monthly Financial Report," a form of which is attached to the Loan Agreements, and forward a copy of such report to the Council and the Authority by the 10th day of each month.

Section 7.11. Engineering Services and Operating Personnel. The Issuer will obtain a certificate of the Consulting Engineers in the form attached to the Loan Agreements, stating, among other things, that the Project has been or will be constructed in accordance with the approved plans, specifications and designs as submitted to the Council and the Authority, the Project is adequate for the purposes for which it was designed, the funding plan as submitted to the Council and the Authority is sufficient to pay the costs of acquisition and construction of the Project, and all permits required by federal and state laws for construction of the Project have been obtained.

The Issuer shall provide and maintain competent and adequate engineering services satisfactory to the Council and the Authority covering the supervision and inspection of the development and construction of the Project and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the Council and the Authority and the Issuer at the completion of construction

that construction of the Project is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies.

The Issuer shall employ qualified operating personnel properly certified by the State to operate the System during the entire term of the Loan Agreements.

Section 7.12. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the Public Service Commission of West Virginia and other laws of the State of West Virginia.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 20 days after the same shall become due and payable, the user of the services and facilities shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the PSC, rates, rentals and other charges, if not paid, when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that, it will, to the full extent permitted by law and the rules and regulations promulgated by the PSC, discontinue and shut off the services of the System to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law. If the water facilities are not owned by the Issuer, the Issuer will use diligent efforts to enter into a termination agreement with the provider of such water, subject to any required approval of such agreement by the PSC and all its rules, regulations and orders.

Section 7.14. No Free Services. The Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. The revenues so received shall be deemed to be revenues derived from the

operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.15. Insurance and Construction Bonds. A. The Issuer hereby covenants and agrees that so long as the Series 2005 Bonds remain Outstanding, the Issuer will, as an Operating Expense, procure, carry and maintain insurance with a reputable insurance carrier or carriers as is customarily covered with respect to works and properties similar to the System. Such insurance shall initially cover the following risks and be in the following amounts:

(1) FIRE, LIGHTNING, VANDALISM, MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, on all above-ground insurable portions of the System in an amount equal to the actual cost thereof. In time of war the Issuer will also carry and maintain insurance to the extent available against the risks and hazards of war. The proceeds of all such insurance policies shall be placed in the Renewal and Replacement Fund and used only for the repairs and restoration of the damaged or destroyed properties or for the other purposes provided herein for the Renewal and Replacement Fund. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance (fire and extended coverage) to protect the interests of the Issuer, the Authority, the prime contractor and all subcontractors as their respective interests may appear, in accordance with the Loan Agreements, during construction of the Project on a 100% basis (completed value form) on the insurable portion of the Project, such insurance to be made payable to the order of the Authority, the Issuer, the contractors and subcontractors, as their interests may appear.

(2) PUBLIC LIABILITY INSURANCE, with limits of not less than $1,000,000 per occurrence to protect the Issuer from claims for bodily injury and/or death and not less than $500,000 per occurrence from claims for damage to property of others which may arise from the operation of the System, and insurance with the same limits to protect the Issuer from claims arising out of operation or ownership of motor vehicles of or for the System.

(3) WORKER'S COMPENSATION COVERAGE FOR ALL EMPLOYEES OF OR FOR THE SYSTEM ELIGIBLE THEREFOR; AND PERFORMANCE AND PAYMENT BONDS, such bonds to be in the amounts of 100% of the construction contract and to be required of each contractor contracting directly with the Issuer, and such payment bonds will be filed with the Clerk of The County Commission of the County in which such work is to be performed prior to commencement of construction of the Project in compliance with West Virginia Code, Chapter 38, Article 2, Section 39.

(4) FLOOD INSURANCE, if the facilities of the System are or will be located in designated special flood or mudslide-prone areas and to the extent available at reasonable cost to the Issuer.

(5) BUSINESS INTERRUPTION INSURANCE, to the extent available at reasonable cost to the Issuer.

(6) FIDELITY BONDS will be provided as to every officer, member and employee of the Issuer or the Governing Body having custody of the revenues or of any other funds of the System, in an amount at least equal to the total funds in the custody of any such person at any one time.

B. The Issuer shall require all contractors engaged in the construction of the Project to furnish a performance bond and a payment bond, each in an amount equal to 100% of the contract price of the portion of the Project covered by the particular contract as security for the faithful performance of such contract. The Issuer shall verify such bonds prior to commencement of construction.

The Issuer shall also require all contractors engaged in the construction of the Project to carry such worker's compensation coverage for all employees working on the Project and public liability insurance, vehicular liability insurance and property damage insurance in amounts adequate for such purposes and as is customarily carried with respect to works and properties similar to the Project; provided that the amounts and terms of such coverage are satisfactory to the Council and the Authority. In the event the Loan Agreements so require, such insurance shall be made payable to the order of the Authority, the Issuer, the prime contractor and all subcontractors, as their interests may appear. The Issuer shall verify such insurance prior to commencement of construction.

Section 7.16. Mandatory Connections. The mandatory use of the System is essential and necessary for the protection and preservation of the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and in order to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Department of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Department of Health and such house, dwelling or building can be

adequately served by the System, and every such owner, tenant or occupant shall, after a 30-day notice of the availability of the System, pay the rates and charges established therefor.

Any such house, dwelling or building from which emanates sewage or water-borne waste matter and which is not so connected with the System is hereby declared and found to be a hazard to the health, safety, comfort and welfare of the inhabitants of the Issuer and a public nuisance which shall be abated to the extent permitted by law and as promptly as possible by proceedings in a court of competent jurisdiction.

Section 7.17. Completion of Project; Permits and Orders. The Issuer shall complete the Project as promptly as possible and operate and maintain the System as a revenue-producing utility in good condition and in compliance with all federal and state requirements and standards.

The Issuer has obtained all permits required by state and federal laws for the acquisition and construction of the Project, all orders and approvals from the PSC and the Council necessary for the acquisition and construction of the Project and the operation of the System and all approvals for issuance of the Series 2005 Bonds required by state law, with all requisite appeal periods having expired without successful appeal.

Section 7.18. [Reserved.]

Section 7.19. Statutory Mortgage Lien. For the further protection of the Registered Owners of the Series 2005 Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding, shall take effect immediately upon delivery of the Series 2005 Bonds, provided however, that the statutory mortgage lien of the Series 2005 Bonds shall be on a parity with the statutory mortgage lien of the Prior Bonds.

Section 7.20. Compliance with Loan Agreements and Law. The Issuer shall perform, satisfy and comply with all the terms, conditions and requirements of the Loan Agreements and the Act. Notwithstanding anything herein to the contrary, the Issuer will provide the Council with copies of all documents submitted to the Authority.

The Issuer shall also comply with all applicable laws, rules and regulations issued by the Council and the Authority or other state, federal or local bodies in regard to the acquisition and construction of the Project and the operation, maintenance and use of the System.

Section 7.21. Securities Laws Compliance. The Issuer will provide the Authority, in a timely manner, with any and all information that may be requested of it (including its annual audit report, financial statements, related information and notices of

changes in usage and customer base) so that the Authority may comply with the provisions of SEC Rule 15c2-12 (17 CFR Part 240).

ARTICLE VIII

INVESTMENT OF FUNDS

Section 8.01. Investment of Funds. Any monies held as a part of the funds and accounts created by this Bond Legislation other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Bond Legislation, the need for such monies for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once each year, or more often as reasonably requested by the Issuer, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any of the Series 2005 Bonds are Outstanding and as long thereafter as necessary to assure the exclusion of interest, if any, on the Series 2005 Bonds from gross income for federal income tax purposes.

Section 8.02. Certificate as to Use of Proceeds. The Issuer shall deliver a certificate as to use of proceeds or other similar certificate to be prepared by nationally recognized bond counsel relating to restrictions on the use of proceeds of the Series 2005 Bonds as a condition to issuance of the Series 2005 Bonds. CERTIFICATE AS TO USE OF PROCEEDS

On this 25th day of February, 2010, the undersigned Chairperson of the Public Service Board of Lubeck Public Service District in Wood County, West Virginia (the "Issuer"), being one of the officials of the Issuer duly charged with the responsibility for the issuance of $2,136,720 Sewer Revenue Bonds, Series 2010 A (West Virginia Infrastructure Fund) and $4,141,959 Sewerage System Bond Anticipation Notes, Series 2010 (West Virginia Infrastructure Fund), of the Issuer, all dated February 25, 2010 (the "Bonds" and the "Notes" and individually, the "Series 2010 A Bonds" and the "Series 2010 Notes"), hereby certify as follows:

1. I am one of the officers of the Issuer duly charged with the responsibility of issuing the Bonds and the Notes. I am familiar with the facts, circumstances and estimates herein certified and duly authorized to execute and deliver this certificate on behalf of the Issuer. Capitalized terms used herein and not otherwise defined herein shall have the same meanings set forth in the Resolution duly adopted by the Issuer on February 11, 2010 (the "Resolution"), authorizing the Bonds and the Notes.

2. This certificate may be relied upon as the certificate of the Issuer.

3. This certificate is based upon facts, circumstances, estimates and expectations of the Issuer in existence on February 25, 2010, the date on which the Bonds and the Notes are being physically delivered in exchange for the Prior Notes and a portion of the proceeds of the Series 2010 Notes, and to the best of my knowledge and belief, the expectations of the Issuer set forth herein are reasonable.

4. In the Resolution pursuant to which the Bonds and the Notes are issued, the Issuer has covenanted that it shall not take, or permit or suffer to be taken, any action with respect to Issuer's use of the proceeds of the Bonds or the Notes which would cause any bonds, the interest on which is exempt from federal income taxation under Section 103(a) of the Internal Revenue Code of 1986, as amended, and the temporary and permanent regulations promulgated thereunder or under any predecessor thereto (collectively, the "Code"), issued by the West Virginia Water Development Authority (the "Authority") or the West Virginia Infrastructure and Jobs Development Council (the "Council"), as the case may be, from which the proceeds of the Bonds or the Notes are

derived, to lose their status as tax-exempt bonds. The Issuer hereby covenants to take all actions necessary to comply with such covenant.

5. The Series 2010 A Bonds were sold on February 25, 2010, to the Authority, pursuant to a loan agreement dated February 25, 2010, by and between the Issuer and the Authority on behalf of the Council, for an aggregate purchase price of $2,136,720 (100% of par). No accrued interest has been or will be paid on the Bonds and the Notes.

6. The Bonds and the Notes are being delivered simultaneously with the delivery of this Certificate and are issued for the purposes of (i) refunding the Issuer's Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund) (the "Prior Notes"), heretofore issued to pay a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public sewer facilities of the Issuer (the "Project"); and (ii) paying certain costs of issuance of the Bonds and the Notes and related costs. 15. All property financed with the proceeds of the Prior Notes has been and will be owned and held by (or on behalf of) a qualified governmental unit.

16. The Project has been and will be operated solely for a public purpose as a local governmental activity of the Issuer.

17. The Bonds and the Notes are not federally guaranteed.

18. The Issuer has retained the right to amend the Resolution authorizing the issuance of the Bonds and the Notes if such amendment is necessary to assure that the Bonds and the Notes remain governmental or public purpose bonds.

19. The Issuer has either (a) funded the Series 2010 A Bonds Reserve Account at the maximum amount of principal and interest, if any, which will mature and become due on the Series 2010 A Bonds in the then current or any succeeding year with the proceeds of the Series 2010 A Bonds, or (b) created the Series 2010 A Bonds Reserve Account which will be funded with equal payments made on a monthly basis over a 10-year period until such Series 2010 A Bonds Reserve Account hold an amount equal to the maximum amount of principal and interest, if any, which will mature and become due on the Series 2010 A Bonds in the then current or any succeeding year. Moneys in the Series 2010 A Bonds Reserve Account and the Series 2010 A Bonds Sinking Fund will be used solely to pay principal of and interest, if any, on the Series 2010 A Bonds.

20. There are no other obligations of the Issuer which (a) are to be issued at substantially the same time as the Bonds and the Notes, (b) are to be sold pursuant to a common plan of financing together with the Bonds and the Notes and (c) will be paid out of substantially the same sources of funds or will have substantially the same claim to be paid out of substantially the same sources of funds as the Bonds and the Notes.

21. To the best of my knowledge, information and belief, there are no other facts, estimates and circumstances which would materially change the expectations herein expressed.

22. The Issuer will comply with instructions as may be provided by the Authority, at any time, regarding use and investment of proceeds of the Bonds and the Notes, rebates and rebate calculations.

23. To the best of my knowledge, information and belief, the foregoing expectations are reasonable.

Ladies and Gentlemen:

I have reviewed the sewer rates of the Lubeck Public Service District (the "Issuer"), as approved by the order of the Public Service Commission of West Virginia entered November 13, 2009 in Case No., 08-2016-PSWD-42A, the current operating expenses and the current customer usage provided by the Issuer. It is my opinion that such rates are sufficient (i) to provide for all operating expenses of the sewerage facilities of the Issuer (the System) and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in nay year for payment of principal of and interest on the Issuer's Sewerage System Revenue Bonds, Series 1999 (West Virginia SRF Program), Sewerage System Revenue Bonds, Series 1999 B (West Virginia Infrastructure Fund); Sewer Revenue Bonds, Series 2005 A (West Virginia Infrastructure Fund); and Sewer Revenue Bonds, Series 2005 B (West Virginia Infrastructure Fund) (collectively, the "Prior Bonds").

It is further my opinion that the Net Revenues actually derived from the System during any 12 consecutive months within the 18 months immediately preceding the date of the actual issuance of the Series 2010 A Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by the Series 2010 A Bonds will not

be less than 115% of the largest aggregate amount that will mature and become due in any succeeding fiscal year for the principal of and interest on the Prior Bonds and the Series 2010 A Bonds.

Respectfully submitted,

08. For any noncompliance reports required to be submitted in writing by Appendix A, Part IV, of this Permit, a copy shall also be forwarded to the Environmental Protection Agency at the location specified in Section C.06.

09. The permittee shall not accept any new non-domestic discharges without first obtaining approval from the Director of the Division of Water and Waste Management as provided in Title 47, Series 10, Section 14 of the West Virginia Legislative Rules.

10. If any existing non-domestic discharge causes, or is suspected of causing, interference or pass through (as defined by 40 CFR 403.3) or otherwise violates any provision of 40 CFR 403, the permittee shall notify the Director of such violation or suspected violation.

11. If any existing non-domestic discharge is identified as being subject to Categorical Pretreatment Standard under 40 CFR Chapter 1, Subchapter N, and the discharge is not regulated by this permit, the permittee shall notify the Director of such identification.

12. Outlet No. 001:

    The permittee shall be required to test the sewage treatment plant's influent in order to calculate the percent (%) removal parameters for five (5) day Biochemical Oxygen Demand (BOD5) and Total Suspended Solids (TSS), as prescribed in Section A.001 of this Permit. Influent sampling requirements shall include the following:

    a. Percent removal shall be defined as a percentage expression of the removal efficiency across the wastewater treatment plant for a given pollutant parameter, as determined from the thirty day average values of the influent concentrations to the facility and the thirty day average effluent pollutant concentrations. Only influent and effluent samples taken concurrently as specified below shall be used for reporting.

    b. Influent BOD5 and TSS samples shall be collected using the permittee's established sampling schedule at least once per month (1/month) for the wastewater treatment facility.

    c. The permittee shall collect representative BOD and TSS influent samples using their established sampling procedures over an eight (8) hour period.

Section C - Other Requirements

12. d. Influent BOD5 and TSS sampling shall be performed over the same eight (8) hour time period as the effluent BOD5 and TSS sampling.

13. Outlet No. 001:

The average daily design flow of the Publicly Owned Treatment Works has been established at 1.5 million gallons per day [MGD]. When the average monthly effluent flow reported on Discharge Monitoring Reports reaches, or exceeds, 90 percent of the average design flow, 1.35 MGD during three (3) consecutive monthly periods, the permittee shall submit a Plan of Action to the Director. The Plan of Action shall present, at a minimum, an analysis of current hydraulic and organic loadings on the plant, an analysis of the future projected loadings, and a Schedule of Tasks to accomplish procedures necessary to maintain required treatment levels.

14. Outlet No. 001:

Any future collection system extensions projected to cause an increase in the wastewater flow, equal to, or greater than, 75,000 gallons per day (five (5) percent of average design flow) shall require the permittee to contact the Director to secure approval of the extension. After consideration of the complexity of the project, and the available treatment capacity of the facility, the Director may require the permittee to seek approval through Modification of the Permit.

15. Outlet No. 001:

Over the term of this permit, the permittee is allowed up to (one) 1 excursion of the maximum daily fecal coliform effluent limitation prescribed in Section A.001. The number of allowed excursions is based upon one (1) percent of the number of required self-monitoring events. Utilization of the excursion allowance is conditioned as follows.

a. Excursion allowances are afforded only to self-monitoring results and only when self-monitoring activities assess compliance with the maximum daily effluent limitation by analysis of an individual grab sample. No excursion allowance can be applied to analytical results obtained by representatives of the Director in the performance of their compliance assessment activities. Additionally, representatives of the Director may assess compliance with the maximum daily effluent limitation by collection and analysis of an individual grab sample.

b. The excursion allowance is contingent upon the permittee's prompt return to compliance as evidenced by the next required fecal coliform self-monitoring event.

c. The result for which an excursion allowance is claimed shall be included in the calculation of the average monthly effluent value.

d. Should an excursion allowance be utilized by the permittee, said allowance must be reported as an attachment to the Discharge Monitoring Report. This attachment should state that (1) an excursion allowance was taken in accordance with the conditions outlined above, (2) the total number of allowances taken to date during the term of this permit, and (3) the total number of allowances remaining during the term of this permit. The permittee shall maintain an on-site record of the excursion allowances utilized during the term of the permit.

16. The analytical test procedures, set forth in 40 CFR Part 136, prescribe colorimetric methods for certain parameters. The digestion process for the performance of total recoverable is not sufficient for the utilization of a colorimetric procedure. Therefore, colorimetric procedures shall not be acceptable for the analysis of parameters prescribed as total recoverable.

17. Effluent monitoring for the following pollutants shall be conducted using the most sensitive methods and detection levels commercially available and economically feasible. The following methods are to be used unless the permittee desires to use an EPA Approved Test Method with a listed lower method detection level. Regardless, it is recognized that detection levels can vary from analysis to analysis and that non-detect results at a different MDL for the specified test method would not constitute a permit violation.

Section C - Other Requirements

17.

Parameter	EPA Method No.	Method Detection Level (ug/l)
Copper, Total Recoverable	200.8	0.5
Lead, Total Recoverable	200.8	0.6
Zinc, Total Recoverable	200.8	1.8
Chromium, Dissolved Hexavalent	218.6	0.6
Arsenic, Total	200.8	1.4
Nickel, Total Recoverable	200.8	0.5
Cadmium, Total Recoverable	200.8	0.5
Silver, Total Recoverable	200.8	0.1
Mercury, Total*	245.7	0.0018
Mercury, Total*	1631	0.0002
Cyanide, Free	Refer to Section C.26	

*The permittee may use either Method 245.7 or Method 1631 for the analysis of mercury.

18. Any "not detected (ND)" results by the permittee must be "ND" at the method detection limit (MDL) for the test method used for that parameter and must be reported as less than the MDL used. The permittee may not report the result as zero, "ND", or report the result as less than a minimum level (ML), reporting limit (RL), or practical quantitation limit (PQL).

    When averaging values of analytical results for DMR reporting purposes for monthly averages, the permittee should use actual analytical results when these results are greater than or equal to the MDL and should use zero (0) when these results are less than the MDL. If all analytical results are non-detect at the MDL (<MDL), then the permittee should use the actual MDL in the calculation for averaging and report the result as less than the average calculation.

19. In incidences where a specific test method is not defined, the permittee shall utilize an EPA approved method with a method detection limit (MDL) sensitive enough to confirm compliance with the permit effluent limit for that parameter. If a MDL is not sensitive enough to confirm compliance, the most sensitive approved method must be used. If a more sensitive EPA approved method becomes available, that method shall be used. Should the current and/or new method not be sensitive enough to confirm compliance with the permitted effluent limit, analytical results reported as "not detected" at the MDL of the most sensitive method available will be deemed compliant for purposes of permit compliance. Results shall be reported on the Discharge Monitoring Reports as a numeric value less than the MDL.

20. Total Residual Chlorine (TRC) self-monitoring shall be performed in accordance with EPA approved or accepted analytical methods that are sensitive enough to determine compliance with applicable effluent limitations. Examples of acceptable methods which meet the MDL requirements are HACH ULR Chlorine Residual DPD Colormetric Method 10014 and HACH Chlorine Amperometric Back Titration Method 10025. Any Total Residual Chlorine sampling result reported as less than this MDL shall be presumed to confirm compliance for purposes of permit enforcement.

21. The Division has started to analyze the impacts of nutrients upon water quality and whether there is a need to establish nutrient water quality standards. Therefore, the Division shall impose effluent sampling for Total Nitrogen and Total Phosphorus in order to assist in this analysis.
    The Division recognizes there is not an EPA approved method to directly test for Total Nitrogen. The Total Nitrogen value to be reported on the permittee's Discharge Monitoring Reports (DMRs) shall be the sum of the following parameters:
    Total Kjeldahl Nitrogen
    Nitrate and Nitrite

22. Outlet No. 001:

    Because the permittee is using ultraviolet light as their disinfection method, no Total Residual Chlorine (TRC) effluent limitation shall currently be imposed. Should the permittee in the future decide to use chlorine as a disinfection method, a TRC effluent limitation shall be promulgated and imposed.

23. Outlet No. 001:

    All effluent samples shall be collected at, or near as possible to, the point of discharge. Effluent BOD5 samples shall be properly labeled and then reseeded, in accordance with approved procedures, prior to analysis.

Section C - Other Requirements

24. Unless otherwise authorized under Section A of this permit, any discharge from any point other than a permitted treatment outfall or permitted combined sewer system is expressly prohibited. In the event there is a prohibited discharge from a sewer conveyance system, the permittee shall follow the reporting requirements contained in Appendix A, Part IV, Section 2.
25. The permittee shall perform acute effluent toxicity testing in accordance with the following.
    a. The acute effluent toxicity testing prescribed, herein, shall be 48-hour static acute toxicity tests utilizing Pimephales Promelas fathead minnow and Ceriodaphnia Dubia as the test species.
    b. The acute toxicity testing shall be performed on an annual (1/year) basis. The first acute toxicity testing shall be carried out within 6 months from the effective date of the permit for Outlet 001. There shall be a minimum of three (3) months between sampling events.
    c. Eight-hour flow weighted composite samples of the effluent, as prescribed in Section A, shall be collected for testing.
    d. The dilution water should be a representative sample of the receiving water and should be obtained from a point as close as possible to but upstream or outside of the zone influenced by the effluent. If dilution water from the receiving stream is not suitable, some other uncontaminated, well-aerated surface or groundwater or commercially available media or reconstituted laboratory water can be used.
    e. Testing and reporting of the result shall be performed in accordance with 40 CFR 136 and must be submitted with the Discharge Monitoring Report (DMR) for the month following the completion of each test. LC50 shall be converted into Acute Toxic Units (TUa) using the following formula:

       TUa = 100/LC50
       For example, if LC50 is 100%, then TUa = 100/100 = 1.

       When the LC50 is greater than 100%, the permittee shall report the acute toxicity as less than 1 TUa. When the effluent demonstrates no toxicity (no organisms die), the permittee may report zero TUa.
    f. If acute effluent toxicity testing shows noncompliance with the specified limitations prescribed in Section A, the permittee shall immediately resample and test the effluent. This shall be performed within 30 days of the initial demonstration of noncompliance with the whole effluent toxicity discharge limitations prescribed herein. Copies of the retesting results shall be provided to the Director immediately upon completion of the test.

       If the second test shows compliance, acute effluent toxicity testing shall continue in accordance with the requirements, as prescribed herein. However, if the second test shows noncompliance, the Director shall impose further requirements, as may be necessary, in order to obtain compliance with the acute effluent toxicity discharge limitations.
    g. The Director may impose further requirements should the acute effluent toxicity testing results demonstrate noncompliance.
26. For the measurement of Free Cyanide, the permittee shall use the standard method for weak acid dissociable cyanide, as specified in the latest edition of Standard Methods.

10. Areas used for processing, curing, and/or storage of sewage sludge shall be designed, constructed and operated to prevent release of contaminants to the groundwater and/or surface water.

11. The land application site(s) shall maintain the soil pH at a minimum of 6.2 S.U. for at least five (5) years from the date of application. The soil pH and soil nutrients shall be monitored once per year by obtaining a composite sample of each field utilized for land application during the previous year. The composite samples shall be made up of a minimum of four (4) aliquots taken at locations equally spaced through the land application site(s). The samples may be analyzed through the WVU Extension Service or by other certified laboratories.

Additionally, Fecal Coliform samples shall be prepared for analysis by using the method described in EPA 625R-92/013, Appendix F.

Section D - Sewage Sludge Management Requirements

13. Sewage sludge disposed in a landfill cell shall be a non-hazardous material as defined in 40 CFR Part 261.24 and a minimum of 20 percent solids. If the sewage sludge is not 20 percent solids, a bulking agent may be used to achieve 20 percent solids before the sewage sludge is weighed in at the landfill. Alternative sludge disposal methods at the landfill can be utilized upon obtaining prior written approval from the Director of the Division of Water and Waste Management.
14. If sewage sludge is used for revegetation, or spread in any other manner at the landfill, the sewage sludge shall meet all of the land application requirements. These requirements include vector attraction and pathogen reduction methods, heavy metals limits, and abiding by an approved loading rate based on soil analyses.
15. The following primary method for pathogen reduction shall apply to the sewage sludge or sewage sludge products:
    a) Lime Stabilization - Lime is added to maintain the sewage sludge pH above 12.0 S.U. for at least two (2) hours after the lime addition. The permittee shall record the pH of the sewage sludge at least twice, once upon addition of lime and once two (2) hours after addition.
    b) If compliance cannot be achieved using the primary method for pathogen reduction, then the permittee must provide a written notification to the Director prior to using a secondary method so long as the secondary method has been previously approved and contained in this permit. The permittee shall not dispose of sewage sludge until providing this written notification to the Director. The following secondary method for pathogen reduction shall apply to the sewage sludge or sewage sludge products:
        (1) Aerobic Digestion - Sewage sludge is agitated with air to maintain aerobic conditions. The mean cell residence time and temperature shall be between 40 days at 20 degrees Celsius and 60 days at 15 degrees Celsius. The permittee shall maintain logs documenting the mean cell residence time of the sewage sludge in the digester and the digester temperature, either by continuous measurements or two (2) manual measurements per day, at least one (1) per shift.
16. The following primary method for vector attraction reduction shall apply to the sewage sludge or sewage sludge products:
    a) Lime Stabilization - Lime is added to maintain the sewage sludge pH above 12.0 S.U. for two (2) hours and above 11.5 S.U. for 24 hours after the lime addition. The permittee shall record the pH of the sewage sludge at the 0, 2, and 24 hour intervals of treatment, and record the duration of time (hours) that the pH is maintained at or above the specified minimum levels.
    b) If compliance cannot be achieved using the primary method for vector attraction reduction, then the permittee must provide a written notification to the Director prior to using a secondary method so long as the secondary method has been previously approved and contained in this permit. The permittee shall not dispose of sewage sludge until providing this written notification to the Director. The following secondary method for vector attraction reduction shall apply to the sewage sludge or sewage sludge products:
        (1) Specific Oxygen Uptake Rate (SOUR) - Sewage sludge is considered stable enough for land application if the SOUR is equal to or less than 1.5 milligrams of oxygen per hour per gram of total solids (dry weight basis) at a temperature of 20 degrees Celsius. The permittee shall take dissolved oxygen (DO) readings of the sewage sludge over a fifteen(15) minute period. Either the temperature (degrees Celsius) of the sample must be adjusted to 20 degrees Celsius or the SOUR of the sewage sludge is measured at the same temperature at which digestion is occurring in the treatment works and corrected to 20 degrees Celsius.
17. The permittee shall maintain all records and reports of all monitoring required by Section D of this permit for five (5) years after the date of monitoring or reporting. Records should include all sample results, including pathogen and vector attraction reduction monitoring; any landfill receipts; land application records, including site maps, the landowner agreement, soil sample results, daily and cumulative sludge loading rate information; copies of all required reports; and records of all data used to complete these reports.

Section D - Sewage Sludge Management Requirements

18. The appropriate composite sampling procedures shall be based upon the particular sludge processing methods used by the permittee. The composite sampling procedures for the various methods are described as follows:

    Belt Press or Vacuum Filter - During the week that the composite sample is obtained, the permittee shall take a minimum of three (3) grab samples during each day of the week that the dewatering system is in operation. These grab samples are to be mixed together and the final sample obtained from the composite. Samples should be collected at a point immediately after the dewatering operation.

    Liquid Sludge - During the week that the composite sample is obtained, the permittee shall take a representative grab sample from each truck load of sewage sludge hauled during that week. These grab samples are to be mixed together and the final sample obtained from the composite. Samples should be collected from the sewage sludge being pumped into the truck or as the sewage sludge is being discharged from the truck.

    Sewage Sludge Drying Beds - During the week that the composite sample is obtained, the permittee shall take a minimum of four (4) grab samples from each bed finished during that week. These grab samples are to be mixed together and the final sample obtained from the composite.

    Composting or Stock Piles - The permittee shall obtain a minimum of eight (8) grab samples from the pile of finished product. These grab samples are to be mixed together and the final sample obtained from the composite.

19. Written notification shall be given to the Director within five (5) days of the determination of any excursion(s) of the maximum allowable limitations for sewage sludge listed in Section A.S01 of this Permit. A written plan to identify and correct the excursion(s) must be submitted to the Director within sixty (60) days.

20. No single instantaneous grab sample of the final sewage sludge product shall exceed the values found below as listed in Table 2 of the West Virginia Sewage Sludge Management Regulations (Title 33, Series 2).

21. Sewage sludge shall not be land applied in a manner or in an amount that will cause the land application site(s) to exceed the maximum soil concentrations for the following heavy metals:

Parameter	Maximum Allowable Limitations For Soils (mg/kg)
Arsenic	13.0

Section D - Sewage Sludge Management Requirements

22. All land application site(s) shall have new soil analyses performed for the metals listed in Section D.21 of this Permit when the cumulative loading reaches 50% of the assigned lifetime loading rate.

23. The sludge maximum allowable limitations identified in Section A.S01 of this permit are limitations established for sewage sludge that is being land applied. However, the maximum allowable limitations, for sewage sludge that is being taken to a designated landfill, are not applicable but the permittee remains subject to the sampling requirements and frequencies for sewage sludge that is disposed of in a landfill.

24. Should any landowner of a sludge land application site fail to comply with the terms and conditions pertaining to the landowner under an applicable landowner agreement, the permittee shall immediately contact said landowner and identify the violation causing the noncompliance with the said agreement. The permittee shall take all reasonable, escalating enforcement steps, up to and including disallowing further land application of sludge on the owner's site, in order to keep the landowner compliant with the terms and conditions of said land owner agreement. Also, the permittee shall immediately inform the Agency of any current noncompliance by the owner of a land application site by attaching a written summary of these violations, the cause of each violation, and the steps taken to prevent their recurrence with the submitted Sludge Monitoring Reports. Should the permittee take all of the enforcement steps outlined above, these actions may be used as a mitigating factor to any enforcement actions taken upon the permittee for the noncompliance by the land application site owners to the terms and conditions of Section D herein. However, the burden of proof in relation to the use of this mitigating factor shall lie exclusively upon the permittee. This condition shall not be used as a mitigating factor to any noncompliance associated with any other sections of this permit, even if said noncompliance is, in whole or in part, caused by the land application site owner.

The herein-described activity is to be extended, modified, added to, made, enlarged, acquired, constructed or installed, and operated, used and maintained strictly in accordance with the terms and conditions of this permit, with the plans and specifications submitted with Permit Application No. WV0032590; with the plan of maintenance and method of operation thereof submitted with such application(s); and with any applicable rules and regulations promulgated by the Environmental Quality Board and the Secretary of the Department of Environmental Protection.

Failure to comply with the terms and conditions of this permit, with the plans and specifications submitted with Permit Application No. WV0032590; and with the plan of maintenance and method of operation thereof submitted with such application(s) shall constitute grounds for the revocation or suspension of this permit and the invocation of all the enforcement procedures set forth in Chapter 22, Article 11, or 15 of the Code of West Virginia.

This permit is issued in accordance with the provisions of Chapter 22, Article 11 and 12 and/or 15 of the Code of West Virginia and is transferable under the terms of Section 11 of Article 11.

Lisa A. McClung, Director

a) Any person who violates a permit condition implementing sections 301, 302, 306, 307, 308, 318, or 405 of the Clean Water Act is subject to a civil penalty not to exceed $25,000 per day of such violation. Any person who willfully or negligently violates permit conditions implementing sections 301, 302, 306, 307, 308 or 405 of the Clean Water Act is subject to a fine of not less than $2,500 nor more than $25,000 per day of violation, or by imprisonment for not more than 1 year, or both.

b) Any person who falsifies, tampers with, or knowingly renders inaccurate any monitoring device or method required to be maintained under this permit shall, upon conviction, be punished by a fine of not more than $10,000 per violation, or by imprisonment for not more than 2 years, or by both.

c) Any person who knowingly makes any false statement, representation, or certification in any record or other document submitted or required to be maintained under this permit, including monitoring reports or reports of compliance or noncompliance shall, upon conviction, be punished by a fine of not more than $10,000 per violation, or by imprisonment for not more than 2 years, or by both.

d) Nothing in I.14 a), b), and c) shall be construed to limit or prohibit any other authority the Director may have under the State Water Pollution Control Act, Chapter 22, Article 11.

II. OPERATION AND MAINTENANCE:

1. Proper Operation and Maintenance

The permittee shall at all times properly operate and maintain all facilities and systems of treatment and control (and related appurtenances) which are installed or used by the permittee to achieve compliance with the conditions of this permit. Proper operation and maintenance also includes adequate laboratory controls, and appropriate quality assurance procedures. Unless otherwise required by Federal or State law, this provision requires the operation of back-up auxiliary facilities or similar systems which are installed by the permittee only when the operation is necessary to achieve compliance with the conditions of the permit. For domestic waste treatment facilities, waste treatment operators as classified by the WV Bureau of Public Health Laws, W. Va. Code Chapter 16-1, will be required except that in circumstances where the domestic waste treatment facility is receiving any type of industrial waste, the Director may require a more highly skilled operator.

2. Need to Halt or Reduce Activity Not a Defense

It shall not be a defense for a permittee in an enforcement action that it would have been necessary to halt or reduce the permitted activity in order to maintain compliance with the conditions of the permit.

3. Bypass

a) Definitions
   (1) "Bypass" means the intentional diversion of waste streams from any portion of a treatment facility; and
   (2) "Severe property damage" means substantial physical damage to property, damage to the treatment facilities which causes them to become inoperable, or substantial and permanent loss of natural resources which can reasonably be expected to occur in the absence of a bypass. Severe property damage does not mean economic loss caused by delays in production.

b) Bypass not exceeding limitations. The permittee may allow any bypass to occur which does not cause effluent limitations to be exceeded, but only if it also is for essential maintenance to assure efficient operation. These bypasses are not subject to the provision of II.3.c) and II.3.d) of this permit.

c) (1) If the permittee knows in advance of the need for a bypass, it shall submit prior notice, if possible at least ten (10) days before the date of the bypass;
   (2) If the permittee does not know in advance of the need for bypass, notice shall be submitted as required in IV.2.b) of this permit.

d) Prohibition of bypass
   (1) Bypass is permitted only under the following conditions, and the Director may take enforcement action against a permittee for a bypass, unless;
      (A) Bypass was unavoidable to prevent loss of life, personal injury, or severe property damage;
      (B) There were no feasible alternatives to the bypass, such as the use of auxiliary treatment facilities, retention of untreated wastes, or maintenance during normal periods of equipment downtime. This condition is not satisfied if adequate backup equipment should have been installed in the exercise of reasonable engineering judgement to prevent a bypass which occurred during normal periods of equipment downtime or preventative maintenance; and
      (C) The permittee submitted notices as required under II.3.c) of this permit.
   (2) The Director may approve an anticipated bypass, after considering its adverse effects, if the Director determines that it will meet the three conditions listed in II.3.d.(1) of this permit.

4. Upset

a) Definition. "Upset" means an exceptional incident in which there is unintentional and temporary noncompliance with technology-based permit effluent limitations because of factors beyond the reasonable control of the permittee. An upset does not include noncompliance to the extent caused by operational error, improperly designed treatment facilities, inadequate treatment facilities, lack of preventative maintenance, or careless or improper operation.

b) Effect of an upset. An upset constitutes an affirmative defense to an action brought for noncompliance with such technology-based permit effluent limitation if the requirements of II.4.c) are met. No determination made during administrative review of claims that noncompliance was caused by upset, and before an action for noncompliance, is final administrative action subject to judicial review.

c) Conditions necessary for a demonstration of upset. A permittee who wishes to establish the affirmative defense of upset shall demonstrate, through properly signed, contemporaneous operating logs, or other relevant evidence that:
   (1) An upset occurred and that the permittee can identify the cause(s) of the upset;
   (2) The permitted facility was at the time being properly operated;
   (3) The permittee submitted notice of the upset as required in IV.2.b) of this permit.
   (4) The permittee complied with any remedial measures required under I.3. of this permit.

d) Burden of proof. In any enforcement proceeding the permittee seeking to establish the occurrence of an upset has the burden of proof.

5. Removed Substances

Where removed substances are not otherwise covered by the terms and conditions of this permit or other existing permit by the Director, any solids, sludges, filter backwash or other pollutants (removed in the course of treatment or control of wastewaters) and which are intended for disposal within the State, shall be disposed of only in a manner and at a site subject to the approval by the Director. If such substances are intended for disposal outside the State or for reuse, i.e., as a material used for making another product, which in turn has another use, the permittee shall notify the Director in writing of the proposed disposal or use of such substances, the identity of the prospective disposer or users, and the intended place of disposal or use, as appropriate.

III. MONITORING AND REPORTING

1. Representative Sampling

Samples and measurements taken for the purpose of monitoring shall be representative of the monitored activity.

2. Reporting

a) Permittee shall submit, according to the enclosed format, a Discharge Monitoring Report (DMR) indicating in terms of concentration, and/or quantities, the values of the constituents listed in Part A analytically determined to be in the plant effluent(s). DMR submissions shall be made in accordance with the terms contained in Section C of this permit.

b) Enter reported average and maximum values under "Quantity" and "Concentration" in the units specified for each parameter, as appropriate.

c) Specify the number of analyzed samples that exceed the allowable permit conditions in the columns labeled "N.E." (i.e., number exceeding).

d) Specify frequency of analysis for each parameter as number of analyses/specified period (e.g.,3/month is equivalent to 3 analyses performed every calendar month). If continuous, enter "Cont.". The frequency listed on format is the minimum required.

3. Test Procedures

Samples shall be taken, preserved and analyzed in accordance with the latest edition of 40 CFR Part 136, unless other test procedures have been specified elsewhere in this permit.

4. Recording of Results

For each measurement or sample taken pursuant to the permit, the permittee shall record the following information.

a) The date, exact place, and time of sampling or measurement;

b) The date(s) analyses were performed;

c) The individual(s) who performed the sampling or measurement;

d) The individual(s) who performed the analyses; if a commercial laboratory is used, the name and address of the laboratory;

e) The analytical techniques or methods used, and

f) The results of such analyses. Information not required by the DMR form is not to be submitted to this agency, but is to be retained as required in III.6.

5. Additional Monitoring by Permittee

If the permittee monitors any pollutant at any monitoring point specified in this permit more frequently than required by this permit, using approved test procedures or others as specified in this permit, the results of this monitoring shall be included in the calculation and reporting of the data submitted in the Discharge Monitoring Report Form. Such increased frequency shall also be indicated. Calculations for all limitations which require averaging of measurements shall utilize an arithmetic mean unless otherwise specified in the permit.

6. Records Retention

The permittee shall retain records of all monitoring information, including all calibration and maintenance records and all original chart recordings for continuous monitoring instrumentation, copies of all reports required by this permit, and records of all data used to complete the application for the permit, for a period of at least three (3) years from the date of the sample, measurement, report or application. This period may be extended by request of the Director at any time.

7. Definitions

a) "Daily discharge" means the discharge of a pollutant measured during a calendar day or within any specified period that reasonably represents the calendar day for purposes of sampling. For pollutants with limitations expressed in units of mass, the daily discharge is calculated as the total mass of the pollutant discharged over the day. For pollutants with limitations expressed in other units of measurement, the daily discharge is calculated as the average measurement of the pollutant over the day.

b) "Average monthly discharge limitation" means the highest allowable average of daily discharges over a calendar month, calculated as the sum of all daily discharges measured during a calendar month divided by the number of daily discharges measured during that month.

c) "Maximum daily discharge limitation" means the highest allowable daily discharge.

d) "Composite Sample" is a combination of individual samples obtained at regular intervals over a time period. Either the volume of each individual sample is proportional to discharge flow rates or the sampling interval (for constant volume samples) is proportional to the flow rates over the time period used to produce the composite. The maximum time period between individual samples shall be two hours.

e) "Grab Sample" is an individual sample collected in less than 15 minutes.

f) "is" = immersion stabilization - a calibrated device is immersed in the effluent stream until the reading is stabilized.

g) The "daily average temperature" means the arithmetic average of temperature measurements made on an hourly basis, or the mean value plot of the record of a continuous automated temperature recording instrument, either during a calendar month, or during the operating month if flows are of shorter duration.

h) The "daily maximum temperature" means the highest arithmetic average of the temperatures observed for any two (2) consecutive hours during a 24 hour day, or during the operating day if flows are of shorter duration.

i) The "monthly average fecal coliform" bacteria is the geometric average of all samples collected during the month.

j) "Measured Flow" means any method of liquid volume measurement, the accuracy of which has been previously demonstrated in engineering practice, or which a relationship to absolute volume has been obtained.

k) "Estimate" means to be based on a technical evaluation of the sources contributing to the discharge including, but not limited to pump capabilities, water meters and batch discharge volumes.

l) "Non-contact cooling water" means the water that is contained in a leak-free system, i.e., no contact with any gas, liquid, or solid other than the container for transport; the water shall have no net poundage addition of any pollutant over intake water levels, exclusive of approved anti-fouling agents.

IV. OTHER REPORTING

1. Reporting Spills and Accidental Discharges

Nothing in this permit shall be construed to preclude the institution of any legal action or relieve the permittee from any responsibilities, liabilities or penalties established pursuant to Title 47, Series 11, Section 2 of the West Virginia Legislative Rules promulgated pursuant to Chapter 22, Article 11. Attached is a copy of the West Virginia Spill Alert System for use in complying with Title 47, Series 11, Section 2 of the Legislative rules as they pertain to the reporting of spills and accidental discharges.

2. Immediate Reporting

a) The permittee shall report any noncompliance which may endanger health or the environment immediately after becoming aware of the circumstances by using the Agency's designated spill alert telephone number. A written submission shall be provided within five (5) days of the time the permittee becomes aware of the circumstances. The written submission shall contain a description of the noncompliance and its cause; the period of noncompliance, including exact dates and times, and if the noncompliance has not been corrected, the anticipated time it is expected to continue; and steps taken or planned to reduce, eliminate, and prevent recurrence of the noncompliance.

b) The following shall also be reported immediately:
   (1) Any unanticipated bypass which exceeds any effluent limitation in the permit;
   (2) Any upset which exceeds any effluent limitation in the permit; and
   (3) Violation of a maximum daily discharge limitation for any of the pollutants listed by the Director in the permit to be reported immediately. This list shall include any toxic pollutant or hazardous substance, or any pollutant specifically identified as the method to control a toxic pollutant or hazardous substance.

c) The Director may waive the written report on a case-by-case basis if the oral report has been received in accordance with the above.

d) Compliance with the requirements of IV.2 of this section, shall not relieve a person of compliance with Title 47, Series 11, Section 2.

3. Reporting Requirements

a) Planned changes. The permittee shall give notice to the Director of any planned physical alterations or additions to the permitted facility which may affect the nature or quantity of the discharge. Notice is required when:
   (1) The alteration or addition to a permitted facility may meet one of the criteria for determining whether a facility is a new source in Section 13.7.b of Series 10, Title 47; or
   (2) The alteration or addition could significantly change the nature or increase the quantity of pollutants discharged. This notification applies to pollutants which are subject neither to effluent limitations in the permit, nor to notification requirements under IV.2 of this section.

b) Anticipated noncompliance. The permittee shall give advance notice to the Director of any planned changes in the permitted facility or activity which may result in noncompliance with permit requirements.

c) In addition to the above reporting requirements, all existing manufacturing, commercial, and silvicultural discharges must notify the Director in writing as soon as they know or have reason to believe:
   (1) That any activity has occurred or will occur which would result in the discharge, on a routine or frequent basis, or any toxic pollutant which is not limited in the permit, if that discharge will exceed the highest of the following "notification levels":
      (A) One hundred micrograms per liter (100 ug/l);
      (B) Two hundred micrograms per liter (200 ug/l) for acrolein and acrylonitrile; five hundred micrograms per liter (500 ug/l) for 2,4-dinitro phenol; and for 2-methyl 4,6-dinitrophenol; and one milligram per liter (1 mg/l) for antimony;
      (C) Five (5) times the maximum concentration value reported for that pollutant in the permit application in accordance with Section 4.4.b.9 of Series10, Title 47.
      (D) The level established by the Director in accordance with Section 6.3.g of Series 10, Title 47;
   (2) That any activity has occurred or will occur which would result in any discharge (on a non-routine or infrequent basis) of a toxic which is not limited in the permit, if that discharge will exceed the highest of the following "notification levels":
      (A) Five hundred micrograms per liter (500 ug/l);
      (B) One milligram per liter (1 mg/l) for antimony;
      (C) Ten (10) times the maximum concentration value reported for that pollutant in the permit application in accordance with Section 4.4.b.7 of Series 10, Title 47;
      (D) The level established by the Director in accordance with Section 6.3.g of Series 10, Title 47.
   (3) That they have begun or expect to begin to use or manufacture as an intermediate or final product or by-product of any toxic pollutant which was not reported in the permit application under Section 4.4.b.9 of Series 10, Title 47 and which will result in the discharge on a routine or frequent basis of that toxic pollutant at levels which exceed five times the detection limit for that pollutant under approved analytical procedure.
   (4) That they have begun or expect to begin to use or manufacture as an intermediate or final product or by-product of any toxic pollutant which was not reported in the permit application under Section 4.4.b.9 of Series 10, Title 47 and which will result in the discharge on a non-routine or infrequent basis of that toxic pollutant at levels which exceed ten times the detection limit for that pollutant under approved analytical procedure.

4. Other Noncompliance

The permittee shall report all instances of noncompliance not reported under the above paragraphs at the time monitoring reports are submitted. The reports shall contain the information listed in IV.2.a). Should other applicable noncompliance reporting be required, these terms and conditions will be found in Section C of this permit.

NOTICE TO PERMITTEES

The 1999 regular session of the West Virginia legislature revised the Water Pollution Control Act, Chapter 22, Article 11, Section 10 of the Code of West Virginia relating to fees associated with permits. This section of the Code requires all holders of a State water pollution control permit or a national pollutant discharge elimination system permit to be assessed an annual permit fee, based upon rules promulgated by the Secretary of the Department of Environmental Protection. The Secretary has promulgated a final rule in accordance with the code revision to this effect and these rules were effective May 4, 2000. The rules establish an annual permit fee based upon the relative potential to degrade the waters of the State which, in most instances, relate to volume of discharge. However, for sewage facilities, the annual permit fee is based upon the number of customers served by the facility. You may contact the Secretary of State's Office, State Capitol Building, Charleston, WV 25305, to obtain a copy of the rules. The reference is Title 47, Legislative Rules, Department of Environmental Protection, Division of Water Resources, Series 26 Water Pollution Control Permit Fee Schedules.

Based upon the volume of discharge for which your facility is currently permitted, the number of customers served by your facility or for the category you fall within, pursuant to Section 7 of Title 47, Series 26, your annual permit fee is **$750.00**. This fee is due no later than the anniversary date of permit issuance in each year of the term of the permit or in the case of coverage under a general permit, the fee is due no later than the anniversary date of your coverage under the general permit. **You will be invoiced by this agency at the appropriate time for the fee.** Failure to submit the annual fee within ninety(90) days of the due date will render your permit void upon the date you are mailed a certified written notice to that effect.

RIGHT OF APPEAL

Notice is hereby given of your right to appeal the terms and conditions of this permit which you are aggrieved by to the Environmental Quality Board by filing a NOTICE OF APPEAL on the form prescribed by such Board for this purpose, with the Board, in accordance with the provisions of Section 21, Article 11, Chapter 22 of the Code of West Virginia within thirty (30) days after the date of receipt of the above permit.

Re: Lubeck Public Service District Sewer Revenue Bonds,
Series 2010 A (West Virginia Infrastructure Fund)

Ladies and Gentlemen:

We have served as bond counsel to Lubeck Public Service District (the "Issuer") in connection with the issuance of its Sewer Revenue Bonds, Series 2010 A (West Virginia Infrastructure Fund), dated the date hereof (the "Bonds").

We have examined certified copies of proceedings and other papers relating to the authorization of (i) a loan agreement for the Bonds, dated February 25, 2010, including all schedules and exhibits attached thereto (the "Loan Agreement"), by and between the Issuer and the West Virginia Water Development Authority (the "Authority"), on behalf of the West Virginia Infrastructure and Jobs Development Council (the "Council"), and (ii) the Bonds to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Bonds are issued in the principal amount of $2,136,720, in the form of one bond, registered to the Authority, bearing no interest, with principal payable quarterly on March 1, June 1, September 1 and December 1 of each year, commencing June 1, 2010, all as set forth in the Schedule Y attached to the Loan Agreement and incorporated in and made a part of the Bonds.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended

(collectively, the "Act"), for the purpose of refunding the Issuer's Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund) (the "Prior Notes").

We have also examined the applicable provisions of the Act and a Resolution duly adopted by the Issuer on February 11, 2010, as supplemented by a Supplemental Resolution duly adopted by the Issuer on February 11, 2010 (collectively, the "Resolution"), pursuant to and under which Act and Resolution the Bonds are authorized and issued, and the Loan Agreement is entered into. The Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Resolution and the Loan Agreement. All capitalized terms used herein and not otherwise defined herein shall have the same meaning set forth in the Resolution and the Loan Agreement when used herein.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district and is a public corporation and political subdivision of the State of West Virginia, with full power and authority to refund the Prior Notes, to operate and maintain the System, to adopt the Resolution and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer and is a valid and binding special obligation of the Issuer, enforceable in accordance with the terms thereof.

3. The Loan Agreement inures to the benefit of the Authority and the Council and cannot be amended so as to affect adversely the rights of the Authority and the Council or diminish the obligations of the Issuer, without the written consent of the Authority and the Council.

4. The Issuer has legally and effectively adopted the Resolution and all other necessary resolutions in connection with the issuance and sale of the Bonds. The Resolution constitutes a valid and binding obligation of the Issuer, enforceable against the

Issuer in accordance with its terms thereof and contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

5. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System and secured by a first lien on and a pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Sewerage System Revenue Bonds, Series 1999 A (West Virginia SRF Program), Sewerage System Revenue Bonds, Series 1999 B (West Virginia Infrastructure Fund), Sewer Revenue Bonds, Series 2005 A (West Virginia Infrastructure Fund) and Sewer Revenue Bonds, Series 2005 B (West Virginia Infrastructure Fund), all in accordance with the terms of the Bonds and the Resolution.

6. Under the Act, the Bonds and the interest thereon are exempt from taxation by the State of West Virginia and the other taxing bodies of the State.

7. The Bonds have not been issued on the basis that the interest, if any, thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest, if any, from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

8. The Prior Notes have been paid within the meaning and with the effect expressed in the Prior Resolution, and the covenants, agreements and other obligations of the Issuer to the registered owners of the Prior Notes have been satisfied and discharged. In rendering the opinion set forth in this paragraph, we have relied upon the certificate of the West Virginia Water Development Authority stating that it has received the Series 2010 A Bonds, the Series 2005 B Bonds and the Series 2010 Notes in exchange for the Prior Notes and that such exchange is sufficient to release and discharge the liens, pledges and encumbrances securing the Prior Notes.

No opinion is given herein as to the effect upon the enforceability of the Bonds under any applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or the exercise of judicial discretion or principles of equity in appropriate cases.

We have examined the executed and authenticated Bond numbered AR-1 and in our opinion, the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

Jackson Kelly PLLC

The Notes are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 31, Article 15A of the Code of West Virginia, 1931, as amended (collectively, the "Act"), for the purposes of (i) refunding the Issuer's Sewerage System Bond Anticipation Notes, Series 2005 (West Virginia Infrastructure Fund) (the "Prior Notes"); and (ii) paying costs of issuance and related costs.

We have also examined the applicable provisions of the Act and a Resolution duly adopted by the Issuer on February 11, 2010, as supplemented by a Supplemental Resolution duly adopted by the Issuer on February 11, 2010 (collectively, the "Resolution"), pursuant to and under which Act and Resolution the Notes are authorized and issued, and the Loan Agreement is entered into. The Notes are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Resolution and the Loan Agreement. All capitalized terms used herein and not otherwise defined herein shall have the same meaning set forth in the Resolution and the Loan Agreement when used herein.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district and is a public corporation and a political subdivision of the State of West Virginia, with full power and authority to refund the Prior Notes, to operate and maintain the System, to adopt the Resolution and to issue and sell the Notes, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer and is a valid and binding special obligation of the Issuer, enforceable in accordance with the terms thereof.

3. The Loan Agreement inures to the benefit of the Authority and the Council and cannot be amended so as to affect adversely the rights of the Authority and the Council or diminish the obligations of the Issuer without the written consent of the Authority and the Council.

4. The Issuer has legally and effectively adopted the Resolution and all other necessary resolutions in connection with the issuance and sale of the Notes. The Resolution constitutes a valid and binding obligation of the Issuer, enforceable against the Issuer in accordance with its terms thereof and contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

5. The Notes have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer. There are outstanding obligations of the Issuer which will rank senior and prior to the Notes as to liens, pledge and source of and security for payment, being the Issuer's Sewerage System Revenue Bonds, Series 1999 A (West Virginia SRF Program), Sewerage System Revenue Bonds, Series 1999 B (West Virginia Infrastructure Fund), Sewer Revenue Bonds, Series 2005 A (West Virginia Infrastructure Fund), and Sewer Revenue Bonds, Series 2005 B (West Virginia Infrastructure Fund) (collectively, the "Prior Bonds") and Sewer Revenue Bonds, Series 2010 A (West Virginia Infrastructure Fund) (the "Series 2010 A Bonds"). The Notes shall be issued junior and subordinate to the Prior Bonds and the Series 2010 A Bonds with respect to liens, pledge and source of and security for payment and in all other respects. The Notes shall be payable only from the proceeds of any grants, any sewerage system revenue bonds, refunding revenue bonds or bond anticipation notes of the Issuer, issued subsequent to the issuance of the Notes.

6. Under the Act, the Notes and the interest thereon are exempt from taxation by the State of West Virginia and the other taxing bodies of the State.

7. The Notes have not been issued on the basis that the interest, if any, thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Notes.

8. The Prior Notes have been paid within the meaning and with the effect expressed in the Prior Resolution, and the covenants, agreements and other obligations of the Issuer to the registered owners of the Prior Notes have been satisfied and discharged. In rendering the opinion set forth in this paragraph, we have relied upon the certificate of the West Virginia Water Development Authority stating that it has received the Series 2010 A Bonds and the Series 2010 Notes in exchange for the Prior

Notes and that such exchange is sufficient to release and discharge the liens, pledges and encumbrances securing the Prior Notes.

No opinion is given herein as to the effect upon the enforceability of the Notes under any applicable bankruptcy, insolvency, reorganization, moratorium or other laws affecting creditors' rights or the exercise of judicial discretion or principles of equity in appropriate cases.

We have examined the executed and authenticated Note numbered R-1 and in our opinion, the form of said Note and its execution and authentication are regular and proper.

Very truly yours,

Jackson Kelly PLLC

Ladies and Gentlemen:

In re: Lubeck Public Service District Sewer Revenue Bonds, Series 2010A
(West Virginia Infrastructure Fund);
Sewerage System Bond Anticipation Notes, Series 2010
(West Virginia Infrastructure Fund).

I am counsel to Lubeck Public Service District (the "Issuer"). As such counsel, I have examined copies of the approving opinion of Jackson Kelly, PLLC, as bond counsel, relating to the above-captioned bonds of the Issuer (collectively, the "Bonds"), and the above-captioned notes of the Issuer (the "Notes"), a loan agreement for the Bonds and Notes, all dated February 25, 2010, including all schedules and exhibits attached thereto (collectively, the "Loan Agreement"), by and between the Issuer and the West Virginia Water Development Authority (the "Authority"), on behalf of the West Virginia Infrastructure and Jobs Development Council (the "Council"), a Resolution duly adopted by the Public Service Board of the Issuer (the "Board") on February 11, 2010, as supplemented by a Supplemental Resolution duly adopted on February 11, 2010, (collectively, the "Resolution"), orders of the County Commission of Wood County relating to the Issuer and the appointment of members of the Board, and other documents relating to the Bonds and the Issuer. All capitalized terms used herein and not otherwise defined herein shall have the same meaning set forth in the Loan Agreement and Resolution when used herein.

I am of the opinion that:

1. The Issuer is a duly created and validly existing public service district and is a public corporation and political subdivision of the State of West Virginia, with full power and authority to refund the Prior Notes, to operate and maintain the System and to adopt the Resolution, all under the Act and other applicable provisions of law.

2. The members and officers of the Board have been duly and properly appointed and elected, have taken the requisite oaths and are thereby authorized to act on behalf of the Issuer in their respective capacities.

3. The Loan Agreement has been duly authorized, executed and delivered by the Issuer and, assuming due authorization, execution and delivery by the Authority, constitutes a valid and binding agreement of the Issuer, enforceable in accordance with its terms.

4. The Resolution has been duly adopted by the Board and is in full force and effect.

5. The execution and delivery of the Bonds and the Notes and the Loan Agreement and the consummation of the transactions contemplated by the Bonds and the Notes, the Loan Agreement and the Resolution, and the carrying out of the terms thereof, do not, and will not, in any material respect, conflict with or constitute, on the part of the Issuer, a breach of or default under any resolution, agreement or other instrument to which the Issuer is a party or any existing law, regulation, court order or consent decree to which the Issuer is subject.

6. The Issuer has received all permits, licenses, approvals, consents, exemptions, orders, certificates, registrations and authorizations necessary for the creation and existence of the Issuer, the issuance of the Bonds and of the Notes, the refunding of the Prior Notes, the operation of the System and the imposition of rates and charges for the use of the System, including, without limitation, all

requisite permits, approvals, orders and certificates from The County Commission of Wood County, the Council, the West Virginia Department of Environmental Protection and the Public Service Commission of West Virginia (the "PSC"). The Issuer has taken all actions required for the imposition of such rates and charges, including, without limitation, the adoption of a resolution prescribing such rates and charges. The Issuer has received the PSC Order entered on November 13, 2009, in Case No. 08-2016-PSWD-42A, approving the refunding of the Prior Notes through the issuance of the Bonds and the Notes and the PSC Order entered November 13, 2009, in Case No. 08-2016-PSWD-42A, approving the rates for the System. The time for appeal of the Order has expired prior to the date hereof. The Order is in full force and effect.

7. To the best of my knowledge, there is no litigation, action, suit, proceeding or investigation at law or in equity before or by any court, public board or body, pending or threatened, wherein an unfavorable decision, ruling or finding would adversely affect the transactions contemplated by the Loan Agreement, the Bonds, the Notes and the Resolution, the operation of the System, the validity of the Bonds and the Notes, the collection of the Gross Revenues, the pledge of the Net Revenues for the payment of the Bonds or the pledge of the proceeds of additional revenue bonds, refunding bonds, bond anticipation notes and grants for the payment of the Notes.

All counsel to this transaction may rely upon this opinion as if specifically addressed to them.

Yours very truly,

Richard A. Hayhurst,
Counsel for Lubeck Public Service District.
