BE IT RESOLVED AND ORDERED BY THE PUBLIC SERVICE BOARD OF MINGO COUNTY PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution is adopted pursuant to the provisions of Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and other applicable provisions of law. Mingo County Public Service District (the "Issuer") is a public corporation, public service district and political subdivision of the State of West Virginia in Mingo County of said State, duly created pursuant to the Act by The County Commission of Mingo County.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows:

A. The Issuer currently owns and operates a public waterworks system and desires to finance and acquire, construct, operate and maintain certain additional public service properties

consisting of additions, improvements and extensions to such existing waterworks facilities with all appurtenant facilities, within the boundaries of the Issuer to be owned and operated by the Issuer.

B. It is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the Issuer, and, accordingly, it is hereby ordered, that prior construction to the System be permanently financed, and that there be constructed and designed certain additions, improvements and extensions to the existing waterworks facilities of the Issuer, consisting of construction of a water line extension to provide high quality dependable potable water and fire protection service to approximately 119 residents residing in the Harvey Magisterial District of Mingo County (the "Project"), particularly described in and according to the plans and specifications prepared by the Consulting Engineer and heretofore filed in the office of the Secretary of the Public Service Board (the "Governing Body") of the Issuer. The existing waterworks facilities of the Issuer, together with the Project and any further additions, improvements or extensions thereto, are herein called the "System." The Project and the financing hereby authorized and provided for are public purposes of the Issuer and are ordered for the purpose of meeting and serving public convenience and necessity.

C. The estimated revenues to be derived in each year from the operation of the System after completion of the Project will be sufficient to pay all costs of operation and maintenance of the System, the principal of and interest on the Bonds (hereinafter defined) and all funds and accounts and other payments provided for herein.

D. The estimated maximum cost of the Project is $2,208,000 of which $1,986,000 will be obtained from the proceeds of sale of the Series 2011 A Bonds and $222,000 will be obtained from the proceeds of the sale of the Series 2011 B Bonds, herein authorized.

E. The Issuer intends to permanently finance a portion of the costs of the Project through the issuance of its Water Revenue Bonds, Series 2011 A (United States Department of Agriculture), in the aggregate principal amount of $1,986,000 (the "Series 2011 A Bonds") and Water Revenue Bonds, Series 2011 B (United States Department of Agriculture), in the aggregate principal amount of $222,000 (the "Series 2011 B Bonds") (collectively, the "Series 2011 Bonds"), to permanently finance a portion of the cost of such construction in the manner herein provided, and pay the costs of issuances thereof. The cost of such acquisition and construction shall be deemed to include, without being limited to, the acquisition and construction of the Project; the cost of all property rights, easements and franchises deemed necessary or convenient therefor and for the improvements and extensions thereto; interest on the Series 2011 Bonds; engineering, fiscal agents and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and other expenses necessary or incident to determining the feasibility or practicability of the Project, administrative expense, and such other expenses as may be necessary or incident to the financing herein authorized; provided that, reimbursement to the Issuer for any amounts expended by it for the repayment of indebtedness incurred for costs of the Project by the Issuer shall be deemed costs of the Project.

F. The period of usefulness of the System after completion of the Project is not less than 40 years.

G. There are outstanding obligations of the Issuer which will rank on a parity with the Series 2011 Bonds as to liens, pledge and source of and security for payment being the Issuer's: (i) Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,200,000 (the "Series 2000 A Bonds"); (ii) Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,000,000 (the "Series 2000 B Bonds"); (iii) Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $2,853,436 (the "Series 2000 C Bonds"); (iv) Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $715,000 (the "Series 2000 D Bonds"); (v) Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), dated August 28, 2000, issued in the original aggregate principal amount of $8,916,818 (the "Series 2000 E Bonds"); (vi) Water Revenue Bonds, Series 2001 A (West Virginia Infrastructure Fund), dated March 9, 2001, issued in the original aggregate principal amount of $837,540 (the "Series 2001 A Bonds"); and (vii) Water Revenue Bonds, Series 2010 A (United States Department of Agriculture), dated January 12, 2010, issued in the original aggregate principal amount of $1,450,000 (the "Series 2010 A Bonds") (collectively, the "Prior Bonds"). Other than the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer which rank prior to or on a parity with the Series 2011 Bonds as to liens, pledge and/or source of and security for payment.

The Series 2011 Bonds so surrendered shall be canceled and held for the account of the Issuer. If the Series 2011 Bonds shall have matured or be about to mature, instead of issuing a substitute Bond the Issuer may pay the same, and, if such Bond be destroyed, stolen or lost, without surrender thereof.

Section 3.07. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Series 2011 Bonds shall be secured forthwith by a first lien on the Net Revenues derived from the System, on a parity with the Prior Bonds. (UNITED STATES DEPARTMENT OF AGRICULTURE)

No. AR-1 Date: _____

FOR VALUE RECEIVED, MINGO COUNTY PUBLIC SERVICE DISTRICT (herein called "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of _____ ($_____), plus interest on the unpaid principal balance at the rate of _____% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $_____, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond, in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly

or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, extensions and improvements to the waterworks system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Resolutions and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code, as amended (the "Act"), and a Resolution of the Borrower duly adopted February 8, 2011, authorizing issuance of this Bond (the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for

similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farm and Rural Development Act of 1965, as amended. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

Subject to the Prior Resolutions, the Commission shall keep the monies in the Series 2011 A Bonds Reserve Account and Series 2011 B Bonds Reserve Account invested and reinvested to the fullest extent possible in accordance with applicable law, and to the extent practicable, in Qualified Investments having maturities consonant with

the required use thereof. Investments in any fund or account under this Bond Legislation shall, unless otherwise provided herein or required by law, be valued at the lower of cost or the then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held by the "consolidated fund" managed by the West Virginia Board of Treasury Investments. Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. Earnings from monies in the Series 2011 A Bonds Reserve Account and Series 2011 B Bonds Reserve Account, so long as the Minimum Reserve is on deposit and maintained therein, shall be paid annually by the Commission to the Issuer and deposited in the Revenue Fund.

C. CHANGE OF DEPOSITORY BANK. The Issuer may designate another bank or trust company insured by FDIC as Depository Bank if the Depository Bank should cease for any reason to serve or if the Governing Body determines by resolution that the Depository Bank or its successor should no longer serve as Depository Bank. Upon any such change, the Governing Body will cause notice of the change to be sent by registered or certified mail to the Purchaser.

D. USER CONTRACTS. The Issuer shall, prior to delivery of the Series 2011 Bonds, provide evidence that there will be at least 3,241 bona fide users upon the System on completion, in full compliance with the requirements and conditions of the Purchaser.

E. CHARGES AND FEES. The Issuer shall remit from the Revenue Fund to the Depository Bank and the Commission such additional sums as shall be necessary to pay the charges and fees of the Depository Bank or the Commission then due.

F. INVESTMENT OF EXCESS BALANCES. The monies in excess of the sum insured by FDIC in any of such funds or accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State of West Virginia.

G. REMITTANCES. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

H. GROSS REVENUES. The Gross Revenues of the System shall only be used for purposes of the System.

ARTICLE V

GENERAL COVENANTS, ETC.

Section 5.01. General Statement. A. So long as the Series 2011 A Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Series 2011 A Bonds Reserve Account, sums sufficient to prepay the entire principal of the Series 2011 A Bonds remaining unpaid, together with interest accrued and to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Holder of the Series 2011 A Bonds.

B. So long as the Series 2011 B Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Series 2011 B Bonds Reserve Account, sums sufficient to prepay the entire principal of the Series 2011 B Bonds remaining unpaid, together with interest accrued and to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Holder of the Series 2011 B Bonds.

Section 5.02. Rates. So long as the Prior Bonds are outstanding, the Issuer will maintain rates as required in the Prior Resolutions. The Issuer will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide Revenues in each Fiscal Year sufficient to produce Net Revenues equal to not less than 110% of the annual debt service on the Series 2011 Bonds and the Prior Bonds and sufficient to make the payments required herein into all funds and accounts and all the necessary expenses of operating and maintaining the System during such Fiscal Year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate Revenues for such purposes.

Section 5.03. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of the System or any part thereof, except as provided in the Prior Resolutions. The System will not be sold without the prior written consent of the Purchaser so long as the Series 2011 Bonds are outstanding. Such consent will provide for disposition of the proceeds of any such sale.

Section 5.04. Issuance of Additional Parity Bonds or Obligations. No additional Parity Bonds or obligations payable out of any of the Revenues of the System shall be issued, except with the prior written consent of the Purchaser. No Parity Bonds shall be issued after issuance of the Series 2011 Bonds unless the provisions contained in the Prior Resolution respecting issuance of Parity Bonds have been satisfied.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2011 Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the acquisition or construction of additions, extensions, improvements or betterments to the System or refunding any outstanding Bonds, or both such purposes.

So long as the Series 2011 Bonds or the RUS Bonds are Outstanding, no Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues for the Fiscal Year following the year in which such Parity Bonds are to be issued shall be at least 120% of the average annual debt service requirements on the following:

(1) The Bonds Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The foregoing limitation may be waived or modified by the written consent of the Holders of the RUS Bonds, representing 75% of the then-outstanding principal indebtedness. In the event the foregoing limitation is waived or when the Series 2011 Bonds and the RUS Bonds are no longer outstanding, the following parity requirement shall be met:

So long as the Series 2000 C Bonds, Series 2000 D Bonds, Series 2000 E Bonds or Series 2001 A Bonds are outstanding, no Parity Bonds shall be issued at any time, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from the improvements to be financed by such Parity Bonds and any increase in rates adopted by the Issuer, the time for appeal of which shall have expired prior to the issuance of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period herein above referred to may be adjusted by adding to such Net Revenues such additional Net

Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. All Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Series 2011 Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2011 Bonds.

No Parity Bonds shall be issued at any time, however, unless all of the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 5.05. Insurance and Bonds. The Issuer hereby covenants and agrees that it will, as an expense of construction, operation and maintenance of the System, procure, carry and maintain, so long as the Series 2011 Bonds remain outstanding, insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(a) FIRE, LIGHTNING, VANDALISM, MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, to be procured upon acceptance of any part of the Project from the contractor, and immediately upon any portion of the System now in use, on all above-ground structures of the System and mechanical and electrical equipment in place or stored on the site in an amount equal to the full insurable value thereof. In the event of any damage to or destruction of any portion of the System, the Issuer will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk insurance to protect the interests of the Issuer during construction of the Project in the full insurable value thereof.

(b) PUBLIC LIABILITY INSURANCE, with limits of not less than $500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than $200,000 to protect the Issuer from claims for damage to property of others which may arise from the operation of the System, such insurance to be procured not later than the date of delivery of the Series 2011 Bonds.

(c) VEHICULAR PUBLIC LIABILITY INSURANCE, in the event the Issuer owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the Issuer is operated at any time or times for the benefit of the Issuer, with limits of not less than $500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than $200,000 to protect the Issuer from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle for the Issuer.

(d) WORKERS' COMPENSATION COVERAGE FOR ALL EMPLOYEES OF THE DISTRICT ELIGIBLE THEREFOR AND PERFORMANCE AND PAYMENT BONDS, such bonds to be in the amounts of 100% of the construction contract, will be required of each prime contractor, and such payment bonds have been or will be filed with the Clerk of the County Commission of said County prior to commencement of construction of the Project in compliance with West Virginia Code Section 38-2-39. Workers' compensation coverage shall be maintained as required by the laws of the State of West Virginia.

(e) FLOOD INSURANCE to be procured, to the extent available at reasonable cost to the Issuer; however, if the System is located in a community which has been notified as having special flood or mudslide prone areas, flood insurance must be obtained.

(f) FIDELITY BONDS will be provided as to every member of the Governing Body and as to every officer and employee thereof having custody of the Revenue Fund or of any revenues or other funds of the Issuer in such amount as may be requested by the Purchaser from time to time.

(g) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project and so long as the Series 2011 Bonds are outstanding, the Issuer will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the Issuer, and during such construction will

require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Purchaser may specify, with insurance carriers or bonding companies acceptable to the Purchaser.

Section 5.06. Statutory Mortgage Lien. For the further protection of the Holder of the Series 2011 Bonds, a statutory mortgage lien upon the System is granted and created by the Act, on a parity with the Prior Bonds, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon the delivery of the Series 2011 Bonds.

Section 5.07. Events of Default. Each of the following events is hereby declared an "Event of Default":

(a) Failure to make payment of any monthly amortization installment upon the Series 2011 Bonds at the date specified for payment thereof;

(b) Failure to duly and punctually observe or perform any of the covenants, conditions and agreements on the part of the Issuer contained in the Series 2011 Bonds or herein, or violation of or failure to observe any provision of any pertinent law; and

(c) If a default occurs with respect to the Prior Bonds or the Prior Resolutions.

Section 5.08. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, the Purchaser may proceed to protect and enforce its rights by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement, or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights.

Upon application by the Purchaser, such court may, upon proof of such default, appoint a receiver for the affairs of the Issuer and the System. The receiver so appointed shall administer the System on behalf of the Issuer, shall exercise all the rights and powers of the Issuer with respect to the System, shall proceed under the direction of the court to obtain authorization to increase rates and charges of the System, and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct; provided that, all rights and remedies of the Holders of the Prior Bonds shall be on a parity with the Series 2011 Bonds.

Section 5.09. Fiscal Year; Budget. While the Series 2011 Bonds are outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a Fiscal Year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than 30 days prior to the beginning of each Fiscal Year, the Issuer agrees to adopt the Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such Fiscal Year unless unanimously authorized and

directed by the Governing Body. Copies of each Annual Budget shall be delivered to the Purchaser by the beginning of each Fiscal Year.

If for any reason the Issuer shall not have adopted the Annual Budget before the 1st day of any Fiscal Year, it shall adopt a Budget of Current Expenses from month to month until the adoption of the Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the next year preceding by more than 10%; and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget be for a reason beyond the control of the Issuer. Each such Budget of Current Expenses shall be mailed immediately to the Purchaser.

Section 5.10. Compensation of Members of Governing Body. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision hereof.

Section 5.11. Covenant to Proceed and Complete. The Issuer hereby covenants to proceed as promptly as possible with the acquisition and construction of the Project to completion thereof in accordance with the plans and specifications prepared by the Consulting Engineer on file with the Secretary on the date of adoption hereof, subject to permitted changes.

Section 5.12. Books and Records; Audits. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and the Purchaser shall have the right at all reasonable times to inspect the System and all records, accounts and data of the Issuer relating thereto.

The Issuer shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants and shall mail a copy of such audit report to the Purchaser. The Issuer shall further comply with the Act with respect to such books, records and accounts.

Section 5.13. Maintenance of System. The Issuer covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as the Series 2011 Bonds are outstanding.

Section 5.14. No Competition. To the extent legally allowable, the Issuer will not permit competition with the System within its boundaries or within the territory served by it and will not grant or cause, consent to or allow the granting of any franchise, permit or other authorization for any person, firm, corporation, public or private body, agency or instrumentality whatsoever to provide any of the services supplied by the System within the boundaries of the Issuer or within the territory served by the System.

ARTICLE VI

RATES, ETC.

Section 6.01. Initial Schedule of Rates and Charges; Rules.

A. The initial schedule of rates and charges for the services and facilities of the System, subject to change consonant with the provisions hereof, shall be as set forth in the Commission Order dated September 16, 2005, the Recommended Decision entered on October 6, 2008 which became Final Order of the Public Service Commission of West Virginia on October 26, 2008, and Commission Order dated December 15, 2010, in Case No. 05-0359-PWD-42T (reopened) and are incorporated herein by reference as a part hereof.

B. There shall not be any discrimination or differential in rates between customers in similar circumstances.

C. All delinquent fees, rates and charges for services or facilities of the System shall be liens on the premises served of equal degree, rank and priority with the lien on such premises of state, county, school and municipal taxes, as provided in the Act. The Issuer shall have all remedies and powers provided under the Act and other applicable provisions of law with regard to the collection and enforcement of such fees, rates and charges.

D. The Issuer will not render or cause to be rendered any free services of any nature by the System nor any of the facilities; and in the event that the Issuer or any department, agency, officer or employee thereof should avail itself or themselves of the services or facilities of the System, the same fees, rates and charges applicable to other customers receiving like services under similar circumstances shall be charged, such charges shall be paid as they accrue, and revenues so received shall be deposited and accounted for in the same manner as other Revenues of the System.

E. The Issuer may require any applicant for any service by the System to deposit a reasonable and equitable amount to insure payment of all charges for the services rendered by the System, which deposit shall be handled and disposed of under the applicable rules and regulations of the Public Service Commission of West Virginia.

F. The Issuer, to the extent permitted by law, will not accept payment of any water bill from a customer served with water and sewer services by the Issuer without payment at the same time of a sewer bill owed by such customer for the same premises.

ARTICLE VII

MISCELLANEOUS

Section 7.01. Payment of Bonds. If the Issuer shall pay or there shall otherwise be paid, to the Holder of the Series 2011 Bonds, the principal of and interest due or to become due thereon, at the times and in the manner stipulated therein and in this Bond Legislation, then with respect to the Series 2011 Bonds, the pledge of Net Revenues and other monies and securities pledged under this Bond Legislation and all covenants, agreements and other obligations of the Issuer to the Registered Owner of the Series 2011 Bonds, shall thereupon cease, terminate and become void and be discharged and satisfied.

Except through such direct payment to the Holder of the Series 2011 Bonds, the Issuer may not defease the Series 2011 Bonds or otherwise provide for payment thereof by escrow or like manner.

Section 7.02. Modification or Amendment. The Bond Legislation may not be modified or amended after final passage without the prior written consent of the Purchaser.

Section 7.03. Delivery of Bonds. The Chairman, Secretary and Treasurer of the Governing Body are hereby authorized and directed to cause the Series 2011 Bonds, hereby awarded to the Purchaser pursuant to prior agreement, to be delivered to the Purchaser as soon as the Purchaser will accept such delivery.

Section 7.04. Severability of Invalid Provisions. If any one or more of the covenants, agreements or provisions hereof should be held contrary to any express provision of law or contrary to the policy of express law, although not expressly prohibited, or against public policy, or shall for any reason whatsoever be held invalid, then such covenants, agreements or provisions shall be null and void and shall be deemed severable from the remaining covenants, agreements or provisions hereof, and shall in no way affect the validity of all the other provisions hereof or the Series 2011 Bonds.

Section 7.05. Conflicting Provisions Repealed. The Prior Resolutions and all parts thereof not expressly hereby changed shall continue in full force and effect and this Bond Legislation shall be supplemental to the Prior Resolutions.

All resolutions and orders, or parts thereof, in conflict with the provisions hereof are, to the extent of such conflicts, hereby repealed; provided that this Section shall not be applicable to the Loan Resolution (Form FmHA 442-47) or the Prior Resolutions.

The conditions referred to above are as follows:

1. Fund Usage – Funds obligated under the terms of this letter of conditions are committed on the basis that your project will proceed to the construction stage in an expedient manner. In accordance with RUS Staff Instruction 1782-1, Section 1782.20(u)(5), any funds not disbursed within 60 months from the date of obligation will be de-obligated and returned to the Department of Treasury for further disposition to other RUS project applicants. In the event that USDA determines that your project has not progressed within the five (5) year timeline and that funds will be recaptured, you will be given appeal rights and due process to document reasons why you believe the decision to de-obligate your project funds is not justified.

2. Loan Repayment – The loan will be scheduled for repayment over a period of 40 years. The payments due the first 24 months will consist of interest only. Payments for the remaining 456 months will be equal amortized monthly installments. For planning purposes use a 2.625% interest rate and a monthly amortization factor of .00347, which provides for a monthly payment of $6,892.00. You have the option of participating in the PREAUTHORIZED DEBIT (PAD) payment process. It will allow for your payment to be electronically debited from your account on the day your payment is due. Your authority must establish and fund monthly a debt service reserve account, which equals 10% of your monthly payment each month until you accumulate the equivalent of one annual installment on your loan.

   You are reminded that your authority may be required to refinance (graduate) the unpaid balance of its RD loan, in whole or in part, upon the request of RD if at any time it shall be determined the authority is able to obtain a loan for such purposes from responsible cooperative or private sources at reasonable rates and terms for loans for similar purposes and periods or time.

3. Security – The loan must be secured by a statutory lien of first priority, a pledge of the system's revenues and other agreements between you and RD as set forth in the bond resolution which must be properly adopted and executed by the appropriate officials of your organization. Additional security requirements are contained in RUS Bulletin 1780-27 which is mentioned later.

4. Users – This conditional commitment is based upon you providing evidence that you will have at least 3,241 bona fide users on the proposed system when it has been completed and is placed in operation. This evidence will consist of 96 signed user agreements and a signed certification from you that identifies and attests to the number of users actually connected to and using the PSD's existing water system, which is to be partially replaced by the new system, at the time you request authorization to advertise the proposed project for construction bids.

   The enclosed Water Users Agreement will be used. Each user signing an agreement must make a user contribution of $100.00. Each potential user who is located along planned lines and declines the offered service will be provided an opportunity to sign a "Service Declination Statement." A guide "Service Declination Statement" is attached for your use. If a potential user refuses to sign either a user agreement or a declination statement, the individual making the contact for the PSD should complete the declination statement for that potential user and note thereon his/her visit with the potential user, the potential user's refusal to sign, and the reason therefore. The declination statement should also be dated and signed by the individual making the contact.

   Before RD can agree to the project being advertised for construction bids, you must provide evidence that the total required number of bona fide users has been acquired and that all potential users have been offered the proposed service. Information and material evidencing compliance with this requirement must consist of (1) your certification (written) as to the number of users connected to and using the water service of the existing system (paying monthly bills), (2) signed user agreements, (3) signed service declination statements, (4) records evidencing user contributions having been paid, (5) a map locating each potential user's property in the new service area identifying it by number, (6) a list of all signed bona fide users numbered so as to be a cross-reference with the map, and (7) a list of all declination statements numbered so as to be a cross-reference with the map.

5. Bond Counsel Services – The services of a recognized bond counsel are required. The bond counsel will prepare the form of resolution ordinance to be used, in accordance with Subpart D of RUS Instruction 1780. You should immediately provide your bond counsel with a copy of this letter of conditions, its attachments and enclosures.

6. Engineering Services – It will be necessary for you to obtain the services of an engineer. EJCDC No. 510-FA, "Standard Form of Agreement between Owner and Engineer for Professional Services" (2007 Funding Agency Edition) should be used to obtain the services of an engineer. The EJCDC document is issued under copyright and cannot be provided by RD.

7. Legal Services – It will be necessary for you to obtain the services of a local attorney. For your convenience "RUS Legal Services Agreement" is enclosed for your use.

8. Accounting Services – It will be necessary for you to obtain the services of a qualified accountant. The accountant must agree to develop and provide the following:

    a. All necessary accounting material required by the Public Service Commission of West Virginia (Rule 42 Exhibit).

    b. Prior to loan/grant closing, your accountant must certify that the accounts and records as required by your bond resolution have been established and are operational.

    The Accountant's Agreement should be submitted to RD for review. Compensation in the contract should include only those services identified above and not include payment for construction management services from the accountant unless RD concurrence is obtained.

    RUS regulations noted above outline requirements for the submission of management reports and audits. Appropriate state statutes place certain audit requirements on your PSD. "Government Auditing Standards (Revised 2007)" which may be accessed at "www.gao.gov/govaud/ybk01.htm", and RUS Bulletins 1780-30 and 1780-31 which may be accessed at our agency website listed above, outline audit requirements.

    You are reminded that certain provisions of the Office of Management and Budget Circular A-133 are applicable to any public body or nonprofit association that expends $500,000 or more in federal funds in any one fiscal year. You must enter into an agreement annually with an accountant (or the State Tax Department) to perform the audit. The agreement must be in accordance with the requirements of the State Tax Commissioner of West Virginia. Compensation for preparation of the A-133 audit or your annual audit are not included in project funds and should be paid from the operational revenues generated from your system operation.

9. Facility Control – Prior to advertisement for construction bids, you must furnish satisfactory evidence that you have or can obtain adequate continuous and valid

control over the lands and rights needed for the project. Such evidence must be in the following form:

a. A right-of-way map showing clearly the location of all lands and rights needed for the project. The map must designate public and private lands and rights and the appropriate legal ownership thereof.

b. A copy of deeds, contracts or options for any lands needed other than rights-of-way, along with a preliminary title opinion covering such lands. Form RD 1927-9, "Preliminary Title Opinion" may be used. In the case of your existing system or where the PSD already acquired real property (land or facilities), a preliminary title opinion(s) concerning all such property(s) will be provided.

c. A narrative opinion from your attorney concerning all permits, certifications and other items necessary to show that all legal requirements can be met and stating how they will be met. This narrative should also identify any condemnation proceedings that are anticipated and state how they will be handled.

d. A certification and legal opinion relative to title to rights-of-way and easements. Form RD 442-22, "Opinion of Counsel Relative to Rights-of-Way," may be used. This form may contain a few exceptions such as properties that must be condemned; however, prior to the start of construction or loan closing, whichever occurs first, a new Form RD 442-22, must be provided which does not provide for any exceptions. The attorney's legal opinion should include a certification that all requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and West Virginia State Code Chapter 54 have been met in the acquisition of both real property and rights-of-way. Such requirements may include, but are not limited to, distributing informational material to all affected property owners, and completing appraisals of the affected properties.

e. On the day of loan closing, the PSD's attorney must furnish final title opinions on all land(s) being acquired. Form RD 1927-10, "Final Title Opinion" may be used. In the case of your existing system or where the PSD has already acquired real property(s) (land or facilities), the PSD's attorney will provide a separate final title opinion(s) covering such property(s) on the day of loan closing.

10. Permits – Copies of all permits needed for the project must be provided for review prior to advertisement for construction bids. Such permits will include but are not limited to the following:

-West Virginia Department of Highways

-Railroads
-State Department of Health
-Department of Environmental Protection
-Corps of Engineers
-Public Land Corporation

11. Public Service Commission Approvals – You must obtain the following from the West Virginia Public Service Commission:

    a. A Certificate of Convenience and Necessity.

    b. Approval of user charges that are acceptable to you and the Rural Utilities Service.

    c. Approval of financing for the project's proposed financing arrangements.

    The "Rule 42" Exhibit to be attached to the Public Service Commission application must contain at least the information shown in Attachment No. 1. A copy of the Public Service Commission application and its "Rule 42" Exhibit must be provided for review.

12. Insurance and Bonding Requirements – Prior to loan closing or start of construction, whichever occurs first, you must acquire the types of insurance and bond coverage shown below. The use of deductibles may be allowed providing you have the financial resources to cover potential claims requiring payment of the deductible. RD strongly recommends that you have your engineer, attorney, and insurance provider(s) review proposed types and amounts of coverage, including any exclusions and deductible provisions. It is your responsibility and not that of RD to assure that adequate insurance and fidelity or employee dishonesty bond coverage is maintained.

    a. General Liability Insurance – This should include vehicular coverage.

    b. Workers' Compensation – In accordance with appropriate State laws.

    c. Position Fidelity Bond(s) – All positions occupied by persons entrusted with the receipt and/or disbursement of funds must be bonded. As a good business practice you will probably wish to have each position bonded in an amount equal to the maximum amount of funds to be under the control of that position at any one time. During the construction phase of your project, this maximum amount will be much greater than normal; therefore, it is our recommendation that you temporarily increase your coverage to $200,000, or the estimated highest monthly construction drawdown. Once construction is complete, you may decrease the amount of your coverage. Please note that the cost of the temporary increase in coverage is an eligible project cost.

The minimum coverage acceptable to RD once your project is in operation will be for each position to be bonded for an amount at least equal to one annual installment on your loan(s).

d. National Flood Insurance – In addition to meeting the requirements for the type of assistance requested, the following requirements must be met for financial assistance for acquisition and/or construction in designated special flood or mudslide prone areas:

   i. If flood insurance is available, you must purchase a flood insurance policy at the time of loan closing.

   ii. Applicants whose buildings, machinery or equipment are to be located in a community which has been notified as having special flood or mudslide prone areas will not receive financial assistance where flood insurance is not available.

e. Real Property Insurance – Prior to the acceptance of the facility from the contractor(s), you must obtain real property insurance (fire and extended coverage) on all above-ground structures, to include machinery and equipment housed therein. This does not apply to water reservoirs, standpipes, elevated tanks or noncombustible materials used in treatment plants, clearwells, filters and the like.

13. Environmental Requirements –

a. Mitigation – At the conclusion of the proposal's environmental review process, specific actions were negotiated with environmental regulatory officials to avoid or minimize adverse environmental impacts. Those actions are required for successful completion of the project and must be adhered to during project design and construction.

b. Project Modifications – The project as proposed has been evaluated to be consistent with all applicable environmental requirements. If the project or any project element deviates from or is modified from the original approved project, additional environmental review may be required.

14. Vulnerability Assessments (VA) and Emergency Response Plans (ERP) –

Congress enacted the Public Health Security and Bioterrorism Preparedness Response Act of 2002, Public Law 107-188 (Bioterrorism Act). The Bioterrorism Act amended the Safe Drinking Water (SDWA) to require all medium and large sized community water systems (serving populations greater than 3,300) to assess vulnerability to terrorist attack and develop emergency plans for response to such

an attack. Medium and large community water systems are being monitored by the U.S. EPA for completion of VA's and ERP's.

Rural Development requires all financed water and wastewater systems to have a vulnerability assessment (VA) and an emergency response plan (ERP) in place. New water or wastewater systems must provide a certification that an ERP is complete prior to the start of operations. A certification that a VA is complete must be submitted within one year of the start of operations. All other borrowers must provide a certification that a VA and ERP are complete prior to bid authorization.

You will also be required to provide a certification that the VA and ERP are complete and are current every three years after the start of operations. RD does not need or want a copy of the VA or ERP. The requested certification will be sufficient to meet our needs. Technical assistance providers are available to provide you with on site assistance if desired.

15. Civil Rights & Equal Opportunity – You should be aware of and will be required to comply with other federal statute requirements including but not limited to:

Section 504 of the Rehabilitation Act of 1973 – Under section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), no handicapped individual in the United States shall, solely by reason of their handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving RD financial assistance.

Civil Rights Act of 1964 – All borrowers are subject to, and facilities must be operated in accordance with, title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) and subpart E of part 1901 of this title, particularly as it relates to conducting and reporting of compliance reviews. Instruments of conveyance for loans and/or grants subject to the Act must contain the covenant required by paragraph 1901.202(e) of this title.

The Americans with Disabilities Act (ADA) of 1990 – This Act (42 U.S.C. 12101 et seq.) prohibits discrimination on the basis of disability in employment, State and local government services, public transportation, public accommodations, facilities, and telecommunications. Title II of the Act applies to facilities operated by State and local public entities which provides services, programs and activities. Title III of the Act applies to facilities owned, leased, or operated by private entities which accommodate the public.

Age Discrimination Act of 1975 – This Act (42 U.S.C. 6101 et seq.) provides that no person in the United States shall on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

RD financial programs must be extended without regard to race, color, religion, sex, national origin, marital status, age, or physical or mental handicap.

16. Contract Documents, Final Plans and Specifications –

a. The contract documents should consist of the following:

(1) EJCDC Document No. C-521, 2002 Edition, "Suggested Form of Agreement between Owner and Contractor on the Basis of Stipulated Price" and EJCDC Document No. C-710, 2002 Edition, "Standard General Conditions of the Construction Contract – Funding Agency Edition" and Attachments. The EJCDC document is issued under copyright and cannot be provided by RUS.

(2) "RUS Supplemental General Conditions."

RUS Bulletin 1780-26, "Guidance for the Use of EJCDC Standard Documents on Water and Waste Projects with RUS Financial Assistance may be found at the USDA website previously noted.

b. The contract documents must provide, as a minimum, the following insurance:

(1) Liability Insurance – Personal Liability - $500,000; Property Damage - $200,000 - $200,000. This coverage must include indemnification of the PSD and its engineer. EJCDC Document C-710, "Standard General Conditions of the Construction Contract" (Funding Agency Edition) and Exhibit G to RUS Bulletin 1780-26, "Supplementary Conditions" both suggest certain limits of liability for insurance coverage. Those limits should be considered as minimum requirements only. It is recommended you consider increasing the given limits of liability after analyzing your specific needs.

(2) Builder's Risk Insurance – On all structures and mechanical and electrical equipment in place or stored on the site to the full insurable value thereof.

(3) Workers' Compensation – In accordance with applicable State laws.

c. The contract documents and final plans and specifications must be submitted to RD for approval.

d. The project must be designed in compliance with Section 504 of the Rehabilitation Act of 1973.

17. State Prevailing Wage Law - You should ensure that all requirements of Article 5A of the West Virginia State Prevailing Wage Law, "Wages for Construction of Public Improvements" are met during construction of the project.

18. Interim Financing – Interim financing will be used for the RD loan if it is available at reasonable rates and terms. You must provide RD with a copy of the tentative agreement reached in connection with interim financing. A copy of the proposed agreement should be provided for RD review. A Sample Credit Agreement is attached for your use in meeting this requirement (Attachment No. 6).

19. Disbursement of Funds – The RD funds will be advanced as they are needed in the amount(s) necessary to cover the RD proportionate share of any disbursements required of your PSD, over 30 day periods. Funds will be disbursed by electronic transfer of funds.

    Any RD grant funds not disbursed immediately upon receipt must be deposited in an interest bearing account except as follows:

    a. Federal grant awards (includes all federal funding sources) are less than $120,000 per year.

    b. The best available interest bearing account would not be expected to earn in excess of the following:

       Public Bodies
       Interest earned on grant funds in excess of $100 per year will be submitted to RD at least quarterly as required in 7 CFR 3016.

    c. The depository would require a minimum balance so high that it would not be feasible.

    The PSD will establish a separate fund, to be known and hereafter referred to as the Dingess Phase II Construction Account, with a lending institution insured by the Federal Deposit Corporation. The account shall be used solely for the purpose of paying the costs of the project as outlined in the construction budget. All funds in the account will be secured by a collateral pledge equaling at least 100% of the highest amount of funds expected to be deposited in the Construction Account. All deposits in excess of $250,000 will be secured by a collateral pledge in accordance with Treasury Circular Number 176.

    The PSD must assure that all project funds are expended only for the eligible items included in the final project budget or as may be later approved by RD.

20. At a properly called meeting, you must adopt and properly execute the following forms, and minutes showing the adoption must be provided:

    Form RD 1940-1 – "Request for Obligation of Funds"

    Form RD 400-1 – "Equal Opportunity Agreement"
    Form RD 400-4 – "Assurance Agreement"
    Form AD 1047 – "Certification Regarding Debarment – Primary"
    Form AD 1049 – "Certification Regarding Drug-Free Workplace"
    Form RD 1910-11 – "Applicant Certification, Federal Collection Policies"
    RD Instruction 1940-Q, Exhibit A-1, "Certification for Contracts, Grants and Loans"
    Standard Form LLL – "Disclosure of Lobbying Activities" (If Applicable)
    Certification of Compliance
    Form RD 1942-46, "Letter of Intent to Meet Conditions"

21. The enclosed Water and Waste Processing Checklist (Attachment No. 2) outlines the items needed to complete the loan docket. All the items listed must be included in the loan docket when it is forwarded to the USDA – Rural Development State Office with a request for loan closing instructions to be issued.

22. Upon receipt of the loan docket, which contains all the items required above, RD may authorize you to advertise the project for construction bids. Such advertisement must be in accordance with appropriate State statutes. Immediately after bid opening you must provide RD with (a) a bid tabulation, (b) recommendations from you and your engineer as to the acceptability of the bids received, and (c) your recommendations for contract awards. If all parties then agree the construction bids received are acceptable, it is determined that adequate funds are available to cover the total facility costs, and that all the administrative conditions of loan approval have been satisfied, loan closing instructions will be issued. The closing instructions, a copy of which will be forwarded to you, will set forth any further requirements that must be met before the loan can be closed. When all parties agree that the closing requirements can be met, a mutually acceptable date for the loan closing will be scheduled.

Any applicant contribution shall be considered as the first funds expended. After providing for all authorized costs, any remaining RD project loan funds would be applied as an extra payment toward the loan balance.

If the conditions set forth in this letter are not met within twelve (12) months from the date hereof, RD reserves the right to discontinue processing of the application. In the event the project has not advanced to the point of loan closing within the twelve-month period and it is determined the authority still wishes to proceed, it will be necessary that the proposed budget be reviewed again in detail. If during that review, it is determined

the budget is no longer current and/or adequate, RD reserves the right to require that it be revised or replaced.

We believe the information herein clearly sets forth the actions which must be taken; however, if you have any questions, please do not hesitate to contact me.

Sincerely yours,

BOBBY LEWIS

Dear Mr. Adams:

This letter, with Attachments 1 through 3 and enclosures, establishes conditions which must be understood and agreed to by you before further consideration may be given to your application. The loan will be administered on behalf of the State and Area staff of USDA, Rural Development. Any changes in project cost, source of funds, scope of services, or any other significant changes in the project or applicant must be reported to and approved by USDA, Rural Development, by written amendment to this letter. Any changes not approved by Rural Development shall be cause for discontinuing processing of the application.

The docket may be completed on the basis of an RD loan in the amount of $222,000, for a total project cost of $222,000.

The loan will be considered approved on the date a signed copy of Form RD 1940-1, "Request for Obligation of Funds," is mailed to you. The interest rate will be the lower of the rate in effect at the time of loan approval or the time of loan closing.

Extra copies of this letter are being provided for use by your engineer, attorney, bond counsel and accountant. All parties may access our web-site located at www.usda.gov/rus/water/ for the following:

To file a complaint of discrimination write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, DC 20250-9410 or call (800)795-3272 (voice) or (202)720-6382 (TDD).

The enclosures and attachments listed below are attached to the copies as noted. Enclosed are the following:

Attachment No. 1 – Project Design Phase Budget (All Copies)
Attachment No. 2 – Water and Waste Processing Checklist (All Copies)
Attachment No. 3 – Various other RD forms as identified on Attachment No. 2

The conditions referred to above are as follows:

1. **Fund Usage** – Funds obligated under the terms of this letter of conditions are committed on the basis that your project will proceed to the loan closing stage in an expedient manner. In accordance with RUS Staff Instruction 1782-1, Section 1782.20(u)(5), any funds not disbursed within 60 months from the date of obligation will be de-obligated and returned to the Department of Treasury for further disposition to other RD project applicants. In the event that USDA determines that your project has not progressed within the five (5) year timeline and that funds will be recaptured, you will be given appeal rights and due process to document reasons why you believe the decision to de-obligate your project funds is not justified.

2. **Loan Repayment** – The loan will be scheduled for repayment over a period of 40 years. The payments due the first 24 months will consist of interest only. Payments for the remaining 456 months will be equal amortized monthly installments. For planning purposes use a 2.625% interest rate and a monthly amortization factor of .00347, which provides for a monthly payment of $771.00. You have the option of participating in the PREAUTHORIZED DEBIT (PAD) payment process. It will allow for your payment to be electronically debited from your account on the day your payment is due. Your authority must establish and fund monthly a debt service reserve account, which equals 10% of your monthly payment each month until you accumulate the equivalent of one annual installment on your loan.

   You are reminded that your authority may be required to refinance (graduate) the unpaid balance of its RD loan, in whole or in part, upon the request of RD if at any time it shall be determined the authority is able to obtain a loan for such purposes from responsible cooperative or private sources at reasonable rates and terms for loans for similar purposes and periods or time.

3. **Security** – The loan must be secured by a statutory lien of shared first priority, a pledge of the system's revenues and other agreements between you and RD as set forth in the bond resolution which must be properly adopted and executed by the appropriate officials of your organization. Additional security requirements are contained RUS Bulletin 1780-27 which is mentioned later.

4. **Users** – This evidence will consist of a certification from you that identifies and attests to the number of users that are actually connected to the PSD's existing water system which is to be partially replaced by the new system, at the time you request authorization to advertise the project for construction bids. New proposed users on the Dingess II construction phase will not be considered in your certification

5. **Bond Counsel Services** – The services of a recognized bond counsel are required. The bond counsel will prepare the form of resolution to be used, in accordance with Subpart D of RUS Instruction 1780. You should immediately provide your bond counsel with a copy of this letter of conditions, its attachments and enclosures.

6. **Engineering Services** – It will be necessary for you to obtain the services of an engineer. EJCDC No. 510-FA, "Standard Form of Agreement between Owner and Engineer for Professional Services" (2006 Funding Agency Edition) should be used to obtain the services of an engineer. The EJCDC document is issued under copyright and cannot be provided by RD.

7. **Legal Services** – It will be necessary for you to obtain the services of a local attorney. For your convenience "RUS Legal Services Agreement" is enclosed for your use.

8. **Accounting Services** – It will be necessary for you to obtain the services of a qualified accountant. The accountant must agree to develop and provide the following:

    a. All necessary accounting material required by the Public Service Commission of West Virginia (Rule 42 Exhibit).

    b. Prior to loan closing, your accountant must certify that the accounts and records as required by your bond resolution have been established and are operational.

    The Accountant's Agreement should be submitted to RD for review. Compensation in the contract should include only those services identified above and not include payment for construction management services from the accountant unless RD concurrence is obtained.

    RUS regulations noted above outline requirements for the submission of management reports and audits. Appropriate state statutes place certain audit requirements on your PSD. "Government Auditing Standards" (Revised July 2007), which may be accessed at www.gao.gov/govaud/ybk01.htm, and RUS

Bulletins 1780-30 and 1780-31, which may be accessed at our agency website listed above, outline audit requirements.

You are reminded that certain provisions of the Office of Management and Budget Circular A-133 are applicable to any public body or nonprofit association that expends $500,000 or more in federal funds in any one fiscal year. You must enter into an agreement annually with an accountant (or the State Tax Department) to perform the audit. The agreement must be in accordance with the requirements of the State Tax Commissioner of West Virginia. Compensation for preparation of the A-133 audit or your annual audit are not included in project funds and should be paid from the operational revenues generated from your system operation.

9. **Facility Control** – Prior to advertisement for construction bids, you must furnish satisfactory evidence that you have or can obtain adequate continuous and valid control over the lands and rights needed for the project. Such evidence must be in the following form:

    a. On the day of loan closing, the PSD's attorney must furnish final title opinions on all existing land currently owned by the utility. Form RD 1927-10, "Final Title Opinion" may be used.

10. **Insurance and Bonding Requirements** – Prior to loan closing or start of construction, whichever occurs first, you must acquire the types of insurance and bond coverage shown below. The use of deductibles may be allowed providing you have the financial resources to cover potential claims requiring payment of the deductible. RD strongly recommends that you have your engineer, attorney, and insurance provider(s) review proposed types and amounts of coverage, including any exclusions and deductible provisions. It is your responsibility and not that of RD to assure that adequate insurance and fidelity or employee dishonesty bond coverage is maintained.

    a. General Liability Insurance – This should include vehicular coverage.

    b. Workers' Compensation – In accordance with appropriate State laws.

    c. Position Fidelity Bond(s) – All positions occupied by persons entrusted with the receipt and/or disbursement of funds must be bonded. As a good business practice you will probably wish to have each position bonded in an amount equal to the maximum amount of funds to be under the control of that position at any one time. During the design phase of your project, this maximum amount will be somewhat greater than normal; therefore, it is our recommendation that you temporarily increase your coverage to $50,000 (estimated highest monthly design drawdown). Once the design

stage of your project is complete, you may decrease the amount of your coverage. Please note that the cost of the temporary increase in coverage is an eligible project cost.

The minimum coverage acceptable to RD once your project is in operation will be for each position to be bonded for an amount at least equal to one annual installment on your loan(s).

11. **Public Service Commission Approvals and Rates** – You must determine that the rate tariff you *currently* have approved from the Public Service Commission of West Virginia is adequate to support the proposed borrowing for the design phase project.

12. **Civil Rights & Equal Opportunity** – You should be aware of and will be required to comply with other federal statute requirements including but not limited to:

    Section 504 of the Rehabilitation Act of 1973 – Under section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. 794), no handicapped individual in the United States shall, solely by reason of their handicap, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving RD financial assistance.

    Civil Rights Act of 1964 – All borrowers are subject to, and facilities must be operated in accordance with, title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d et seq.) and subpart E of part 1901 of this title, particularly as it relates to conducting and reporting of compliance reviews. Instruments of conveyance for loans and/or grants subject to the Act must contain the covenant required by paragraph 1901.202(e) of this title.

    The Americans with Disabilities Act (ADA) of 1990 – This Act (42 U.S.C. 12101 et seq.) prohibits discrimination on the basis of disability in employment, State and local government services, public transportation, public accommodations, facilities, and telecommunications. Title II of the Act applies to facilities operated by State and local public entities which provides services, programs and activities. Title III of the Act applies to facilities owned, leased, or operated by private entities which accommodate the public.

    Age Discrimination Act of 1975 – This Act (42 U.S.C. 6101 et seq.) provides that no person in the United States shall on the basis of age, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance.

RD financial programs must be extended without regard to race, color, religion, sex, national origin, marital status, age, or physical or mental handicap.

13. **Disbursement of Funds** – RD loan funds will be advanced as needed in the amount(s) necessary to cover the disbursements required of your PSD. All advances of funds will be in accordance with approved professional services contracts and other related design stage costs as identified in Attachment No. 1. Funds will be disbursed by electronic transfer of funds.

    The PSD will establish a separate fund, to be known and hereafter referred to as the Design Stage Fund Account, with a lending institution insured by the Federal Deposit Corporation. The account shall be used solely for the purpose of paying the costs of the project as outlined in the construction budget. All funds in the account will be secured by a collateral pledge equaling at least 100% of the highest amount of funds expected to be deposited in the Construction Account. All deposits in excess of $250,000 will be secured by a collateral pledge in accordance with Treasury Circular Number 176.

    The PSD must assure that all project funds are expended only for the eligible items included in the final project budget or as may be later approved by RD.

14. At a properly called meeting, you must adopt and properly execute the following forms, and minutes showing the adoption must be provided:

FINAL

12/13/2010

Entered: November 23, 2010

CASE NO. 10-1103-PWD-CN

MINGO COUNTY PUBLIC SERVICE DISTRICT,
a public utility, Naugatuck, Mingo County.
Application for a certificate of convenience and necessity for the construction, operation and maintenance of a waterline extension to provide water service to approximately 119 residences in the communities of Breeden and Lowney of Mingo County and for approval of financing related thereto (Dingess II).

RECOMMENDED DECISION

PROCEDURE

On July 16, 2010, the Mingo County Public Service District (District) filed a duly verified application for a certificate of public convenience and necessity to construct certain additions and improvements to its water system located in Mingo County. The proposed project, if constructed, is the second phase of a two-phase project and consists of the construction of a water line extension to provide high quality dependable potable water and fire protection service to approximately 119 residents residing in the Harvey Magisterial District of Mingo County, West Virginia.

The District estimates that construction of the proposed project will cost approximately $2,208,000 to be financed through two Rural Utilities Service (RUS) loans consisting of $222,000 and $1,986,000. Each loan is for a term of 40 years at an interest rate of 2.625%. Rates will not increase as a result of the project. The District will continue to bill its current water rates contained in its tariff on file with the Commission.

By Commission Order entered on July 16, 2010, the District was ordered to provide notice of its certificate application by publishing a copy of the Notice of Filing once in a qualified newspaper, as provided in W. Va. Code §59-3-1, et seq., published and of general circulation in the counties where the District provides service, making due return to the Commission of proper certification of publication within 30 days from the date of publication. In addition, the Commission ordered that the District separately mail Form No. 14, Notice of Filing, to each of its resale customers, by United States Certified Mail, return receipt requested, within 30 days of the date of the July 16, 2010 Order. In addition, the Commission ordered that the District make due return of its affidavit of proper certification that the Notice was provided to the resale customers.

On July 21, 2010, the District filed with the Commission the user agreements associated with the project which had been executed by the property owners.

By Order of the Commission entered on July 27, 2010, the Commission referred this matter to the Division of Administrative Law Judges with a decision due date of on or before November 28, 2010, in the absence of substantial protest. If substantial protest was received to the publication of the Notice of Filing, the decision due date would be December 28, 2010.

On July 29, 2010, Commission Staff filed an Initial Joint Staff Memorandum consisting of a Legal Division Memorandum prepared by Staff Attorney Cass Toon and a Utilities and Engineering Division Initial Memorandum filed by Karen L. Buckley, Utility Analyst, and Jonathan Fowler, P.E., Engineer III. Among other things, Staff provided an overview of the project and noted that the District's Rule 42 Exhibit was compliant with the requirements of the Commission's Rules for the Construction and Filing of Tariffs.

On September 2, 2010, the District filed the affidavit of publication evidencing that the Notice of Filing was published on July 24, 2010, in the Williamson Daily News as a Class I legal advertisement.

On October 1, 2010, Commission Staff filed a Final Joint Staff Memorandum recommending approval of the project subject to certain conditions.

On October 4, 2010, the Mingo County Public Service District filed a response to the October 1, 2010 Final Joint Staff Memorandum in agreement with Staff's recommendations that the certificate application be approved.

DISCUSSION

The Mingo County Public Service District was established in 1996, and has actively expanded over the ensuing years. The District currently operates nearly 90 miles of water mains and a modern water treatment facility at Naugatuck, West Virginia. As of June 2009, the District reported that it served a total of 3,366 customers. The proposed expansion which is the subject of the instant certificate case will add approximately 119 new customers in the unincorporated communities in the Harvey Magisterial District in Mingo County.

Currently, the residents in this area obtain water from individual wells, springs and cisterns which provide substandard and potentially dangerous water. This project will alleviate such problems and will secure potable water service for these residents whose groundwater has been contaminated by poorly constructed and/or malfunctioning on-site sewage disposal systems. Additionally, the project will enable the District to supply water to several planned projects of the Crum Public Service District which will result in serving potentially another 400 to 500 customers in the Crum Public Service District. Also, the project will further the development of new housing and/or businesses in the area which are stymied by the lack of a public water source.

According to the District's latest Annual Report, its unaccounted-for water losses are more than 45% of its total production. This percentage is well above the Commission's targeted level of 15%. Therefore, Staff recommended that the District develop and implement improved measures and practices to reduce its level of water loss and to improve water accountability. Staff noted that the District could look toward Commission Staff and utility industry groups such as the Rural Water Association to provide assistance in its efforts to reduce water loss through a hands-on assistance approach and training in leak detection programs.

According to Staff, the District has estimated that operation and maintenance expenses will increase by $19,757 as a result of the project. The new cost per customer based upon the overall project cost is $18,555, which Staff determined to be reasonable. Additionally, the West Virginia Bureau for Public Health, Environmental Engineering Division, has reviewed the project plans and specifications and has approved the design documents by issuing Permit No. 18,576 on May 19, 2010. Therefore, Engineering Staff recommended approval of the project without specifically approving the project plans and specifications. Engineering Staff noted that its approval of the project is based upon the Applicant receiving all necessary federal, state and local permits and approvals prior to construction. Engineering Staff recommended that copies of the permits and necessary approvals be filed with the Commission immediately upon receipt.

With respect to the loans that will be provided by RUS, the annual payment will be $9,252 for the first loan in the amount of $222,000 and the annual payment for the second loan to support the project will be $82,704. The commitment letters for the project's funding are a part of the case file. According to the District's Rule 42 Exhibit, the District's annual operation and maintenance expenses and the other expenses associated with the project will allow the District to have an annual surplus of $125,766, with debt service coverage of 116.11%.

Collectively, Commission Staff recommended approval of the project, subject to certain conditions, including the requirement that the District seek and obtain additional Public Service Commission approval of changes to the project if the scope or plans change; the District seek and obtain approval of changes in rates associated with the project; the District file an affidavit from its certified public accountant if the changes in financing and project costs do not change rates; and the District provide copies of the engineer's certified bid tabulations for all contracts to be awarded as they become available.

FINDINGS OF FACT

1. On July 16, 2010, the Mingo County Public Service District filed a duly verified application for a certificate of public convenience and necessity pursuant to W. Va. Code §24-2-11 in order to construct a water line extension to provide water and fire protection service to approximately 119 residences in the Harvey Magisterial District in Mingo County, West Virginia, at a total cost of $2,208,000, to be financed by two loans from the United States Rural Utilities Service. (See, application filed July 16, 2010).

2. No protests have been filed to the certificate application. Affidavits of publication were filed on September 2, 2010, evidencing that the District published the Notice of Filing in the Williamson Daily News on July 24, 2010, as a Class I legal advertisement. (See, affidavits filed September 2, 2010; case file generally).

3. The project will provide water service to an area of Mingo County where the groundwater is substandard, potentially dangerous and has been contaminated due to malfunctioning individually owned and operated sewage disposable systems such as septic tanks, cesspools, direct discharges to streams and pit privies. Further, if constructed, the project will provide water service to Crum Public Service District, thereby ensuring water service to 400 to 500 Crum Public Service District customers who are currently without water service. (See, Final Joint Staff Memorandum filed October 1, 2010).

4. The West Virginia Bureau for Public Health, Environmental Engineering Division, issued Permit No. 18,576 on May 19, 2010, confirming its approval of the project's plans and specifications. Staff recommends approval of the project without specifically approving the project's plans and specifications. (See, Final Joint Staff Memorandum filed October 1, 2010).

5. An analysis of the District's Rule 42 Exhibit, which includes the increase in revenues for 513 new customers, expenses and debt service associated with the project approved in Case No. 09-0092-PWD-CN, Mingo County Public Service District, shows that, at project completion, the District will have a cash surplus of $125,766 and debt service coverage of 116.11%. (See, Final Joint Staff Memorandum filed October 1, 2010).

6. The appropriate commitment letters are contained in the case file, which confirm that the project is funded by two United States Department of Agriculture Rural Utilities Service loans totaling $2,208,000 with terms of 40 years at 2.625%. (See, October 1, 2010 Final Joint Staff Memorandum; case file generally).

CONCLUSION OF LAW

1. It is reasonable to approve the project filed by the Mingo County Public Service District on July 16, 2010, since the public convenience and necessity require the proposed project; the project is financially feasible and fully funded; and the project will alleviate questionable water service that has been contaminated by malfunctioning individual sewer disposal systems.

2. It is reasonable to approve the proposed project, without hearing, since the project was duly published in the Williamson Daily News, without protest being received, and since the District does not object to Staff's final recommendations.

ORDER

IT IS, THEREFORE, ORDERED that the duly verified certificate application filed by the Mingo County Public Service District on July 16, 2010, for a certificate of public convenience necessity to construct a water line extension to provide potable water service and fire protection

IT IS FURTHER ORDERED that the Mingo County Public Service District obtain additional Commission approval, prior to construction, if the plans or scope of the project change.

IT IS FURTHER ORDERED that, if a change in the financing and project cost does not change project rates, no additional Commission approval is necessary; however, the District will be required to file an affidavit executed by its certified public accountant, verifying that the District's rates and charges are not affected.

IT IS FURTHER ORDERED that, prior to constructing any portion of the project certificated herein, the District must file all required permits and approvals with the Public Service Commission. Construction of the project shall not commence until all approvals and permits have been received and filed with the Commission.

IT IS FURTHER ORDERED that the District file with the Commission a copy of the Engineer's certified bid tabulation for all contracts awarded for the project and submit a copy of the certificate of substantial completion issued for each construction contract associated with the project, as soon as they become available.

IT IS FURTHER ORDERED that the District file the certificate of substantial completion for each contract awarded for the project as soon as each becomes available.

IT IS FURTHER ORDERED that, if the project certificated herein requires the use of any West Virginia Department of Highways' rights-of-way, the Mingo County Public Service District file all applicable rules and regulations of the Department of Highways regarding those rights-of-way.

IT IS FURTHER ORDERED that this case be, and hereby is, stricken from the Commission's docket of open cases.

The Executive Secretary is hereby ordered to serve a copy of this order upon the Commission by hand delivery, and by electronic service upon all parties of record who have filed an e-service agreement with the Commission and by United States Certified Mail, return receipt requested, upon all parties of record who have not filed an e-service agreement with the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's order by filing an appropriate petition in writing with the Secretary. No such waiver will be effective until approved by order of the Commission, nor shall any such waiver operate to make any Administrative Law Judge's Order or Decision the order of the Commission sooner than five (5) days after approval of such waiver by the Commission.

At a session of the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 15th day of December 2010.

CASE NO. 05-0357-PWD-42T (REOPENED)

MINGO COUNTY PUBLIC SERVICE DISTRICT,
a public utility, Naugatuck, Mingo County.
Rule 42T filing to increase water rates and charges.

COMMISSION ORDER

The Commission removes a tariff surcharge.

BACKGROUND

On March 15, 2005, the Mingo County Public Service District (Mingo) filed revised tariff sheets seeking increased rates and an unified rate structure.

The Commission subsequently suspended the tariff filing, granted a request from the West Virginia Water Development Authority (WDA) to intervene in this matter and approved interim rates. April 19, 2005 Commission Order.

On September 16, 2005, the Commission adopted final increased rates for Mingo. The Commission also approved a $0.82 per thousand gallon per month surcharge to eliminate a debt service deficiency. The Commission noted in that Order that the surcharge would only last until Mingo eliminated the deficiency.

The Commission denied a reconsideration request regarding the September 16, 2005 Commission Order on October 26, 2005.

On November 4, 2010, Mingo requested that the Commission reopen this matter to remove the debt service surcharge approved in the September 16, 2005 Commission Order because Mingo has eliminated its debt service deficiency. Mingo also attached a report from the Municipal Bond Commission showing that it is current on its bond payments.

On November 9, 2010, the WDA filed a letter noting that it has no objection to the request to eliminate the surcharge as Mingo requested.

Commission Staff filed a memorandum concurring with the request to eliminate the $0.82 per thousand gallon per month surcharge. Staff confirmed that Mingo is current on its debt service payments, justifying removal of the surcharge. December 2, 2010 Staff Memorandum.

DISCUSSION

The Commission concurs with the request to eliminate the $0.82 per thousand gallon per month surcharge from the current Mingo tariff for all billing after the entry of this Order because Mingo has eliminated its debt service deficiency. Mingo shall file a revised tariff with the Commission Tariff Office within thirty days reflecting the elimination of the debt service surcharge.

FINDINGS OF FACT

1. Mingo requested that the Commission discontinue a $0.82 per thousand gallon per month surcharge because it no longer has a debt service deficiency. Mingo Petition to Reopen.

2. The WDA concurs with the Mingo request to discontinue the debt service surcharge. November 9, 2010 Letter.

3. Staff recommended that the Commission eliminate the debt service surcharge because Mingo is current on its bond payments. December 2, 2010 Staff Memorandum.

CONCLUSIONS OF LAW

1. The Commission previously imposed a surcharge to eliminate a debt service deficiency. September 16, 2005 Commission Order.

2. The $0.82 per thousand gallons per month surcharge is now unnecessary because Mingo has eliminated the debt service deficiency.

ORDER

IT IS THEREFORE ORDERED that this matter is reopened.

IT IS FURTHER ORDERED that the $0.82 per thousand gallons per month surcharge previously imposed to remediate a debt service deficiency is eliminated for all bills rendered after the date of entry of this Order.

IT IS FURTHER ORDERED that Mingo shall file an original and six copies of a tariff with the Commission Tariff Office reflecting the elimination of the surcharge described in this Order, but otherwise identical to the current tariff, within thirty days.

IT IS FURTHER ORDERED that on entry of this Order, this matter shall be removed from the Commission docket of active cases.

IT IS FURTHER ORDERED that the Commission Executive Secretary serve a copy of this Order by electronic service on all parties requesting that service, on all other parties by United States First Class Mail and on Staff by hand delivery.

CASE NO. 05-0357-PWD-42T (REOPENED)

MINGO COUNTY PUBLIC SERVICE DISTRICT
Rule 42T filing to increase water rates and charges.

RECOMMENDED DECISION

PROCEDURE

On March 15, 2005, Mingo County Public Service District (District), Mingo County, filed tariff sheets with the Public Service Commission seeking approval of increased rates and charges of approximately 28.9% annually for providing public water service to approximately 2,682 customers in Mingo County, to become effective April 20, 2005. By Recommended Decision entered July 19, 2005, after proper notice, hearing and submission of legal arguments by the parties pursuant to *West Virginia Code* §24-1-9(b), the Administrative Law Judge (ALJ) set aside the rate increase proposed by the District and approved other rates.

Upon exceptions, by the September 16, 2005 Commission Order, the Commission approved the revenue requirement contained in the July 19, 2005 Recommended Decision, but adopted rates using a different rate design than that utilized by the ALJ, i.e., the Commission approved a flat rate of $11.20 per 1,000 gallons, rather than the declining block rate structure used by the ALJ, and made some other changes to the approved rates, including a surcharge of $0.82 per 1,000 gallons to balance the interests of the Water Development Authority (WDA), the West Virginia Infrastructure and Jobs Development Council (IJDC) and the Rural Utilities Service (RUS). The Commission also instituted in a separate proceeding a general investigation into the District's finances, practices and operation.

On September 26, 2005, the District filed a petition for reconsideration, seeking a new rate design. Responding thereto, by the October 26, 2005 Commission Order, the Commission denied the petition for reconsideration.

On October 19, 2007, the District submitted a petition to reopen, stating that the District inadvertently had been misapplying the approved rates since November 2005, i.e., rather than crediting the Town of Delbarton (Delbarton) for water transported through Delbarton's lines on the District's behalf, the District has simply applied the amount of the credit to all sales to Delbarton and has not credited Delbarton for the water that merely passes through Delbarton's lines.

On October 29, 2007, Staff Attorney Leslie J. Anderson submitted a letter opining that the District seeks to reopen this matter to correct a situation that the District does not believe was ever intended by the October 26, 2005 Commission Order. Ms. Anderson indicated that Staff was investigating this matter and would respond in a timely fashion to the petition to reopen.

On November 20, 2007, Staff Attorney Anderson submitted the Initial Joint Staff Memorandum recommending that the Commission reopen this matter so that it can be fully investigated.

On November 21, 2007, Delbarton petitioned the Commission to intervene in this matter, since its operation would be directly affected by the outcome.

By the December 12, 2007 Commission Order, the Commission reopened this matter; granted Delbarton's petition to intervene; and referred the matter to the Division of Administrative Law Judges (ALJ Division) for decision no later than May 16, 2008.

Responding to all of the above, by the January 4, 2008 Procedural Order, the Administrative Law Judge (ALJ) adopted a procedural schedule to process and resolve this matter, including a February 13, 2008 hearing date.

Responding to a request from Delbarton, by the January 16, 2008 Commission Order Denying Motion to Extend Administrative Law Judge's Decision Due Date, the Commission denied Delbarton's request, keeping the May 16, 2008 decision due date.

On January 17, 2008, Staff Attorney Anderson moved the ALJ to reschedule the hearing to give all of the parties more time to develop the issues, representing that the parties do not oppose Staff's request and are available for a hearing on either March 11 or 17, 2008.

Responding to all of the above, by the January 24, 2008 Order Canceling Hearing and Adopting New Procedural Schedule, the ALJ canceled the procedural schedule adopted by the January 4, 2008 Order, including the February 13, 2008 hearing date, and adopted a new procedural schedule to process and resolve this matter, including a Monday, March 17, 2008 hearing date.

Responding to a motion from Commission Staff, by the March 5, 2008 Commission Order Extending Administrative Law Judge's Decision Due Date, the Commission granted the ALJ until August 14, 2008, to render his written recommended decision in this matter, and granted Commission Staff an additional 45 days to make its final substantive recommendation.

By the March 7, 2008 Second Order Canceling Hearing and Adopting New Procedural Schedule, the ALJ adopted a new procedural schedule, including a May 28, 2008 hearing date. The March 7, 2008 Order also directed that Commission Staff submit its final substantive recommendation

by Monday, April 21, 2008, and directed that the parties file written responses to Staff's final recommendation by Thursday, May 1, 2008.

On April 24, 2008, Staff Attorney Anderson submitted Staff's final substantive recommendation, a detailed document containing multiple recommendations, including canceling the May 28, 2008 hearing date if the parties agree with Staff's recommendations.

By the April 29, 2008 Order Modifying Procedural Schedule, the ALJ amended the procedural schedule adopted by the March 7, 2008 Order by granting the parties until Friday, May 9, 2008, to submit their written responses to Commission Staff's final recommendation. In all other respects, the procedural schedule contained in the March 7, 2008 Order remained unchanged and in full force and effect.

By the May 12, 2008 Second Order Modifying Procedural Schedule, as corrected by the May 14, 2008 Corrective Order, the ALJ amended the procedural schedule adopted by the March 7, 2008 Order by granting the parties until Wednesday, May 21, 2008, to submit their written responses to Commission Staff's final recommendation. In all other respects, the procedural schedule contained in the March 7, 2008 Order remained unchanged and in full force and effect.

Responding to a motion filed by Commission Staff on May 16, 2008, to cancel the hearing and extend the decision due date, by the May 19, 2008 Commission Order Extending Administrative Law Judge's Decision Due Date, the Commission granted the ALJ until October 13, 2008, to render his written recommended decision in this matter. By the May 20, 2008 Order Canceling Hearing, the ALJ canceled the procedural schedule adopted by the March 7, 2008 Order, as amended, including the May 28, 2008 hearing date.

By the May 21, 2008 Order Adopting New Procedural Schedule, the ALJ scheduled this matter for a hearing to convene on Monday, July 7, 2008, at Williamson.

On June 11, 2008, Staff Attorney Anderson submitted the Fourth Further Final Joint Staff Memorandum, attaching the June 10, 2008 Third Further Final Internal Memorandum from Technical Analyst Joseph A. Marakovits, Engineering Division, and Utilities Analyst Manager William A. Nelson, Water and Wastewater Division. Staff reported that, as of April 30, 2008, Delbarton had an outstanding balance of $27,758.40. After applying the transportation credit, recalculating what Delbarton owes using the proper billing and applying the dead meter rule, Staff concluded that the net effect is that the District owes Delbarton $3,887.05 as of April 2008. Staff recommended that the District immediately cease and desist from mis-billing its customers and begin properly applying the $0.56 per 1,000 gallons transportation credit rate to Delbarton until the Commission enters a final order in this matter. Staff also recommended that Delbarton pay its bills to the District on time. Staff noted that West Virginia Supreme Court of Appeals case law precludes the Commission from engaging in retroactive ratemaking, which is one factor that complicates an amicable resolution of this matter.

On June 30, 2008, Delbarton, by counsel, moved the ALJ to reschedule the hearing set for Monday, July 7, 2008, until Monday, July 28, 2008, due to a scheduling conflict arising from a long-planned vacation by counsel that will take him out of the United States. Counsel for Delbarton represented that the other parties did not object to rescheduling the hearing.

Also on June 30, 2008, the District submitted a letter indicating that, while it did not object to continuing the hearing, the District is still attempting to reach a settlement with Delbarton, although the District does not completely agree with Staff's methodology or recommendation.

Responding to all of the above, by the July 1, 2008 Order Canceling July 7, 2008 Hearing and Adopting New Procedural Schedule, the ALJ canceled the procedural schedule adopted by the May 21, 2008 Order, including the Monday, July 7, 2008 hearing date, and adopted a new procedural schedule to process and resolve this matter, including a July 28, 2008 hearing date.

On July 28, 2008, the ALJ convened the hearing as scheduled. The District appeared at the hearing by counsel, Robert R. Rodecker, Esquire; Commission Staff appeared by counsel, Staff Attorney Leslie J. Anderson, Esquire; Delbarton appeared by counsel, Cecil Varney, Esquire; and the WDA appeared by counsel, Mark E. Kauffelt, Esquire. The parties announced that they had reached a settlement and stipulated to three exhibits presented by Commission Staff. The parties opted not to file any briefs, proposed findings of fact or conclusions of law as provided by *West Virginia Code* §24-1-9(b).

On August 7, 2008, the reporter submitted a 19-page transcript and a one-page certificate that the transcript is a true and accurate record of the July 28, 2008 hearing.

EVIDENCE

Counsel for the District stated on the record at the hearing that all parties had agreed to accept the Staff-recommendation contained in Staff's June 11, 2008 filing. In particular, the parties accepted Staff's calculation that the District owed Delbarton $3,887.05 as of April 2008. The parties also stipulated that the transportation credit the District gives Delbarton should be changed from $0.56 to $0.135 per 1,000 gallons. The rates that the District charges would not change, but the District would be paying Delbarton less for transporting water. Without this change, the District would, in effect, be giving Delbarton water for free. The $3,887.05 would be refunded to Delbarton through offsetting billings for water until that amount was refunded. Also, the District would owe Delbarton additional amounts, which need to be refunded, for the months of May, June and July, but that amount was not known at the time of hearing. However, the District agreed also to credit Delbarton for those amounts as they are ascertained once the Recommended Decision is final. (See, Tr., pp. 1-19).

Staff Exhibit No. 1 is the Second Further Final Joint Staff Memorandum filed on April 24, 2008, and the attached April 24, 2008 Final Internal Memorandum from Technical Analyst Joseph A. Marakovits, Engineering Division, and Utilities Analyst Susan L. Brown, Water and Wastewater Division. The parties stipulated to two typographical errors on page 6 and one typographical error

on page 7 of the Second Further Final Joint Staff Memorandum, and to one typographical error on page 5 of the Final Internal Memorandum and on the first page of the attached Schedule A, all of which were physically corrected at the hearing. (See, Staff Exhibit No. 1).

Staff Exhibit No. 2 is the Second Further Final Joint Staff Memorandum Revising Schedule dated April 30, 2008, and the attached April 30, 2008 Further Final Internal Memorandum from Technical Analsyt Marakovits and Utilities Analyst Brown. (See, Staff Exhibit No. 2).

Staff Exhibit No. 3 is the Fourth Further Final Joint Staff Memorandum dated June 11, 2008, and the attached June 10, 2008 Third Further Final Internal Memorandum from Utilities Analyst Manager William A. Nelson, Water and Wastewater Division, and Technical Analyst Marakovits. (See, Staff Exhibit No. 3).

Reading the three Staff exhibits together, Staff recommended that the Commission revise the District's tariff to change the transportation credit for Delbarton from $0.56 per 1,000 gallons to $0.135 per 1,000 gallons, to remain in effect until the District files a new rate case. Staff also recommended that the Commission order the District to file a rate case on or before July 1, 2009. Staff further recommended that the District obtain proper audits for the years 2005, 2006 and 2007. Delbarton should work to get its annual audits performed in a timely manner. Staff calculated that the District owes Delbarton $3,887.05 as of the end of April 2008. This amount includes the correct application of the Commission-approved resale rate and transportation credit rate and a credit calculated by applying the dead meter rule to the three months prior to the petition filing. Originally, Staff had recommended applying the dead meter rule for the months of February, March and April 2008, but now believes it should be applied for the three months prior to the filing of the petition for reopening. Staff opined that, unless Delbarton pays all bills owed to the District on a timely basis, the billing issues will grow more complex. (See, Staff Exhibit Nos. 1, 2 and 3).

DISCUSSION

The ALJ holds that, since the parties have agreed and stipulated on record at the hearing to the Commission Staff's final recommendations, as clarified and corrected by Staff Exhibit No. 3, he will resolve this case by approving those Staff recommendations. The District owes Delbarton $3,887.05 as of the end of April 2008, and the District shall follow Staff's methodology to calculate any additional amounts accumulated since April 2008 until this Recommended Decision becomes final. The District shall refund to Delbarton all that is owed to Delbarton, based on Staff's calculations and calculation methodology, by crediting Delbarton's monthly billings until the refund is complete. The District's tariff will revised to change the transportation credit rate for Delbarton from $0.56 per 1,000 gallons to $0.135 per 1,000 gallons. Finally, the District shall submit to the Commission within thirty days of this Recommended Decision becoming final proper audits for the years 2005, 2006 and 2007, and shall file a new general rate case on or before July 1, 2009.

FINDINGS OF FACT

1. Mingo County Public Service District filed tariff sheets with the Commission seeking approval of increased rates and charges of approximately 28.9% annually for providing public water service to approximately 2,682 customers in Mingo County, to become effective April 20, 2005. After proper notice, hearing and submission of legal arguments by the parties pursuant to *West Virginia Code* §24-1-9(b), the ALJ set aside the rate increase proposed by the District and approved other rates. (See, July 19, 2005 Recommended Decision).

2. Upon exceptions, the Commission approved the revenue requirement contained in the July 19, 2005 Recommended Decision, but adopted rates using a different rate design than that utilized by the ALJ, i.e., the Commission approved a flat rate of $11.20 per 1,000 gallons, rather than the declining block rate structure used by the ALJ, and made some other changes to the approved rates, including a surcharge of $0.82 per 1,000 gallons to balance the interests of the WDA, the IJDC and the RUS. The Commission also instituted in a separate proceeding a general investigation into the District's finances, practices and operation. (See, September 16, 2005 Commission Order; October 26, 2005 Commission Order denying petition for reconsideration).

3. The Commission reopened this matter upon a request from Delbarton. (See, December 12, 2007 Commission Order).

4. Delbarton paid the District an incorrect amount for many months due to the District misapplying the resale rate and/or the transportation credit rate and the transportation credit rate being an inappropriate amount. (See, Staff Exhibit No. 1).

5. Staff recommended that, in order to correct the complex billing situation, the Commission revise the District's tariff to change the transportation credit for Delbarton from $0.56 per 1,000 gallons to $0.135 per 1,000 gallons, to remain in effect until the District files a new rate case. Staff also recommended that the Commission order the District to file a rate case on or before July 1, 2009. Staff further recommended that the District obtain proper audits for the years 2005, 2006 and 2007. Delbarton should work to get its annual audits performed in a timely manner. Staff calculated that the District owes Delbarton $3,887.05 as of the end of April 2008. This amount includes the correct application of the Commission-approved resale rate and transportation credit rate and a credit calculated by applying the dead meter rule to the three months prior to the petition filing. Originally, Staff had recommended applying the dead meter rule for the months of February, March and April 2008, but now believes it should be applied for the three months prior to the filing of the petition for reopening. Staff opined that, unless Delbarton pays all bills owed to the District on a timely basis, the billing issues will grow more complex. (See, Staff Exhibit Nos. 1, 2 and 3).

6. In order to settle all matters in dispute, all of the parties agreed to accept Staff's recommendations. (See, Tr., pp. 1-19).

CONCLUSIONS OF LAW

1. The District billed Delbarton an incorrect amount through a combination of misapplying the resale rate and the transportation credit and by the transportation credit being an inappropriate amount.

2. In order to correct the complex billing situation, it is reasonable to revise the District's tariff to change the transportation credit for Delbarton from $0.56 per 1,000 gallons to $0.135 per 1,000 gallons, to remain in effect until the District files a new rate case.

3. It is reasonable to direct that the District file a rate case on or before July 1, 2009.

4. It is reasonable to direct that the District obtain proper audits for the years 2005, 2006 and 2007 and file them with the Commission within thirty days of this Recommended Decision becoming final.

5. It is reasonable to hold that the District owes Delbarton $3,887.05 as of the end of April 2008, and additional amounts for the months of May, June and July 2008, to be calculated using Staff's calculation methodology, all of which amounts must be refunded by the District through crediting Delbarton's bill until the arrearage has been satisfied. The $3,887.05 owed by the District to Delbarton reasonably includes the correct application of the Commission-approved resale rate and transportation credit rate and a credit calculated by applying the dead meter rule to the three months prior to the petition filing.

ORDER

IT IS, THEREFORE, ORDERED that the tariff of the Mingo County Public Service District be, and hereby is, amended, to change the transportation credit for the Town of Delbarton from $0.56 per 1,000 gallons to $0.135 per 1,000 gallons, to remain in effect until the District files a new rate case.

IT IS FURTHER ORDERED that, within thirty (30) days of this Recommended Decision becoming final, the Mingo County Public Service District file an original and at least five copies of a proper tariff setting forth the rates and charges hereby approved.

IT IS FURTHER ORDERED that the Mingo County Public Service District file a new general rate case on or before July 1, 2009.

IT IS FURTHER ORDERED that the Mingo County Public Service District obtain proper audits for the years 2005, 2006 and 2007 and file them with the Commission within thirty (30) days of this Recommended Decision becoming final.

IT IS FURTHER ORDERED that the Mingo County Public Service District refund the Town of Delbarton all that it owes to Delbarton, including $3,887.05 as of the end of April 2008, and additional amounts for the months of May, June and July 2008, to be calculated using Staff's calculation methodology. The District shall make the refund by crediting Delbarton's bill until the arrearage has been satisfied.

IT IS FURTHER ORDERED that this matter be, and hereby is, removed from the Commission's docket of open cases.

IT IS FURTHER ORDERED that the Executive Secretary serve a copy of this Recommended Decision upon the Commission by hand delivery and upon all parties of record by United States Certified Mail, return receipt requested.

Leave hereby is granted to the parties to file written exceptions supported by a brief with the Executive Secretary of the Commission within fifteen (15) days of the date this Recommended Decision is mailed. If exceptions are filed, the parties filing exceptions shall certify to the Executive Secretary that all parties of record have been served said exceptions.

If no exceptions are so filed this Recommended Decision shall become the order of the Commission, without further action or order, five (5) days following the expiration of the aforesaid fifteen (15) day time period, unless it is ordered stayed or postponed by the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's recommended decision by filing an appropriate petition in writing with the Executive Secretary. No such waiver will be effective until approved by order of the Commission, nor shall any such waiver operate to make any Administrative Law Judge's recommended decision the order of the Commission sooner than five (5) days after approval of such waiver by the Commission.

The above schedule is net. On all accounts not paid in full when due, ten percent will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

TAP FEE

The following charges are to be made whenever the utility installs a new tap to serve an applicant:

A tap fee of $250.00 will be charged to all customers who apply for service outside of a certificate proceeding before the Commission for each new tap to the system.

RECONNECTION FEE - $15.00

To be charged whenever the supply of water is turned off for violations of rules, non-payment of bills, or fraudulent use of water.

LEAK ADJUSTMENT

$1.82 per M Gallons is to be used when a bill reflects unusual consumption which can be attributed to eligible leakage on the customer's side of the meter. This rate shall be applied to all such consumption above the customer's historical usage.

SURCHARGE

$1.50 per thousand gallons shall be added to all bills rendered by the Justice Public Service District to address the arrearage the Justice Public Service District owes to its bondholder. The surcharge will end when the Justice Public Service District is merged with the Mingo County Public Service District or whenever the arrearage is paid off.

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

At a session of the Public Service Commission of West Virginia, in the City of Charleston, on the 16th day of September, 2005.

CASE NO. 05-0357-PWD-42T

MINGO COUNTY PUBLIC SERVICE DISTRICT
Rule 42T filing to increase water rates and charges.

COMMISSION ORDER

The Commission adopts final water rates for the Mingo County Public Service District and establishes a surcharge to address the debt service deficiencies.

BACKGROUND

On March 15, 2005, Mingo County Public Service District (District), filed tariff sheets seeking approval (1) of increased rates and charges of approximately 28.9% annually and (2) to unify the tariffs of the District, the Nolan Public Service District (NPSD) and the Chattaroy Public Service District (CPSD). The District serves approximately 2,682 customers, including those customers formerly served by the NPSD and CPSD. The rates were to become effective April 20, 2005.

On March 23, 2005, the District requested that the Commission refrain from suspending the District's proposed rates in light of the fact that the District was in arrears to its bondholders in the approximate amount of $700,000.

Following the filing, the West Virginia Water Development Authority (WDA) filed a petition to intervene noting that it had a pending complaint with the Commission regarding substantial deficiencies in the District's bond accounts. The WDA also asked the Commission to allow the District's proposed rates to take effect as a first step in correcting the District's financial problems.

Both the District and the WDA agreed that the rate case and complaint case should be consolidated.

On April 19, 2005, the Commission suspended the proposed rates and charges until 12:01 a.m., September 18, 2005; granted the petition of the West Virginia Water Development Authority (WDA) to intervene; based upon Staff's recommendation, approved an interim rate increase of 41.8%, subject to refund; and instituted a $2.60 per 1,000-gallon surcharge to be charged for a period of 24 months, or until certain financial deficiencies were eliminated. The case was referred to the Division of Administrative Law Judges (ALJ).

On April 28, 2005, the District filed a petition for reconsideration of the surcharge. The District argued that the surcharge would impose a hardship on the District and its customers. The District asked that the surcharge be modified and placed on a per month basis rather than on a per 1,000 gallon basis.

On May 6, 2005, the Commission issued an order that changed the surcharge from $2.60 per 1,000 gallons to $5.20 per customer per month.

On May 11, 2005, the Rural Utilities Service (RUS) submitted a letter requesting permission to intervene.

The ALJ issued an order setting a procedural schedule and set a hearing date for June 3, 2005. The District was required to publish notice of the hearing. The ALJ also granted Intervenor status to the RUS. The hearing was conducted as scheduled with all parties present. Approximately 15 customers appeared to protest the proposed rate increase. A review of the testimony presented was set forth in the July 19, 2005, Recommended Decision and will not be repeated.

At the conclusion of the hearing, at the request of the ALJ, Staff presented an additional exhibit that contained a phased-in rate increase. (Staff Post-Hearing Exhibit 1.) Staff did not "recommend" this approach, but merely performed calculations based on questions posed by the ALJ at the hearing. The exhibit depicts a flat rate of $11.23 for the first year. It phased in the Staff-recommended rate structure "half-way" the second year. In the third year, the Staff-recommended rates, based on the cost of service study, are fully implemented. The Staff-recommended $1.64 per 1,000-gallon surcharge is constant throughout the three-year phase-in period. (Staff Post-Hearing Exhibit No. 1).

Recommended Decision

On July 19, 2005, the ALJ issued a Recommended Decision. The ALJ stated:

In his almost 16 years serving as an administrative law judge for the Public Service Commission, this rate proceeding is one of the most difficult, complex and gut-wrenching cases the ALJ has had to consider. The ALJ does not take lightly the position of any of the parties, and realizes that their interests are extremely diverse.

The ALJ concluded:

1. A threshold or limit does exist where residential customers will no longer pay or be able to pay their water bills and will chose instead to leave the District's system as customers or to severely curtail their water usage, especially in the rural setting where the customers are still not far removed from using individual water wells as their only water supply, thereby decreasing revenues instead of increasing them.

2. The laws of this state and the rules and regulations of the Commission require that the rates adopted in this case be just and reasonable, pay the District's O&M expenses and cover all of its debt service requirements.

. . .

6. A customer class cost of service study is intended to aid the Commission in adopting just and reasonable rates; it is not intended to do all of the Commission's thinking for it. It is merely one tool that the Commission uses in designing rates that are just and reasonable. In the past, the Commission has also considered rate shock when designing rates, which, in this case, is very real.

The ALJ adopted the Staff recommended revenue requirement of $1,600,000. Staff's class cost of service study was rejected as the ALJ determined that the results were illogical, impractical and would not produce just and reasonable rates. The ALJ adopted the three-year phased-in rates set forth in Staff's Post-Hearing Exhibit No. 1. The ALJ also adopted the Staff-recommended surcharge of $1.64 per 1,000 gallons of water usage. However, the ALJ directed that the surcharge become effective three years after the approved rates take effect, i.e. in September 2008.

Exceptions and Responses

On August 1, 2005, the WDA filed exceptions to the Recommended Decision. Specifically, the WDA asserted that the record did not support a three-year delay in the imposition of the surcharge. If Staff's calculations are correct, the WDA stated that the delay would mean that the bond deficiencies would not be eliminated for six years. The WDA stated that such a delay was unreasonable. Further, the WDA was concerned that if the new rates are not adequate, the deficiency would continue to grow making the elimination of the deficiency an even longer process. The WDA wants to protect the integrity of its program and asked that the approved surcharge be imposed immediately.

The District responded to the WDA's exceptions on August 9, 2005. It argued that the Recommended Decision was reasonable under the circumstances of this case. In reviewing the Recommended Decision, the District asked that the Commission consider the impact of rate shock upon the customers. The District stated that immediate imposition of the surcharge would only add to the shock that the customers will experience. The District was concerned that after imposition of the increased rates, that customers will reduce usage or discontinue water service entirely.

The District also noted that it currently has an extension project that will add additional customers to the system and a pending certificate case that has the potential to reduce purchased water expenses. These projects will lead to a stronger utility with a wider customer base and reduced costs, which the District believes will lead to earlier retirement of the arrearage. The District asked the Commission to adopt the Recommended Decision.

On August 26, 2005, Staff filed a Response to the WDA's exceptions. Staff continues to support the immediate imposition of a $1.64 per 1,000 gallons per month surcharge which would cure the arrearage in three years. Staff stated that the ALJ has essentially recommended repayment over a six year period. For informational or alternative purposes, Staff calculated a surcharge for a six year repayment to be implemented immediately to be $0.82 per 1,000 gallons per month.

DISCUSSION

The Commission agrees with the ALJ that this a complex and troubling case. There is no dispute that the District is in need of a rate increase. In fact, the Commission previously determined that the District needed an interim rate increase of 41.8% to avoid further financial distress. (Commission Order, April 19, 2005). Now, the Commission must make a final determination on a reasonable revenue level for the District and rate levels for all classes of customers in all areas served by the District that will allow the District to

receive sufficient revenues to cover its costs. In making those determinations, the Commission will take into consideration, the needs of the District, the needs of the bond holders, and the impact upon the District's customers.

At the outset, the Commission agrees with the ALJ that the Staff recommended revenue requirement of approximately $1,600,000 should be adopted. However, we do not agree with the phased-in rate design recommended by the ALJ.

The ALJ chose to reject the Staff recommended rate design and the Staff recommended surcharge in favor of a phased-in approach for both. The effect of the ALJ's rate structure, as compared to the Staff-recommended rate structure, is a rate decrease for customers with lower volume usage whereas the high volume usage customers bear a significant increase in the first year. During the third year of the ALJ's phased in rates, the low volume users will experience increases and the large volume customers will experience decreases. The Commission finds that there are more reasonable alternatives to the ALJ's recommended rate design that more consistently, fairly and contemporaneously spread the needed rate increase across all customer classes.

The ALJ's recommended decision does not provide for any reduction of the debt service deficiencies until the fourth year of the plan. The Commission will not adopt the ALJ's recommended approach that attempts to achieve gradualism by delaying all revenues that are necessary to begin payment of debt service deficiencies.

The Staff recommended rates were based upon its class cost of service study. However, as the Commission has often held, determining a rate design that fairly apportions the revenue requirements among the various customer classes is an artful science. A class cost of service study is, at best, a guide to reasonable rate design and is but one element of many that ultimately leads to a reasonable rate structure. See, *Monongahela Power Company*, Case No. 90-504-E-42T, (June 11, 1991); *City of Spencer*, Case No. 99-0152-S-MA, (June 2, 1999); and *City of Belmont*, Case No. 02-0070-W-MA (June 27, 2002).

A significant problem with the Staff's recommendation is that use of its recommended rates results in a rate decrease for customers using 20,000 gallons or more per month. However, most of the residential and lower volume commercial customers are being asked to absorb large increases Given the circumstances of this case, particularly the need for a very large rate increase and the debt service deficiencies, the Commission concludes that targeting high volume reductions is simply not a reasonable end result and cannot be justified simply because a class cost of service study might indicate the need to moderate the high volume rates. The cost of service study may, over time, provide a guide to an appropriate rate design; however, in a case where lower volume users may be assessed

increases well in excess of 50 to 60 percent, the Commission will not approve reductions for the high volume customers. Such a result would simply not be reasonable. Thus, the Commission will not adopt the Staff recommended rate design.

The rate design problems are not simplified in this case by the proposal of the District and the Staff to unify the District's multiple area rates into a single tariff for the original District, Nolan and Chattaroy service areas. However, the Commission agrees with the need to unify these three separate area rates. We find that it is important for financial health of the system for the Commission to adopt the recommended unification of the District's rates at this time. All or most of the District's customers are now or soon will be served by the same water treatment plant. The District now resembles one seamless operation rather than three separate operations depending on geography. That makes the separate rate structures for the original District, NPSD and CPSD areas outdated and not reflective of the costs to serve those customers.

The District proposed elimination of the various declining block rate structures and moving to a flat rate structure when it made its initial filing. The Commission will adopt the District's proposed flat rate structure. The District's current Mingo area structure is a flat rate and maintaining that structure will enable the Commission to provide for a percentage across the board increase within the Mingo flat rate structure to assure that all customers absorb a balanced portion of the increase in revenue requirements that the District faces in this case. While the equal percentage increase that the Commission will approve for the original District area customers will not result in equal percentage increases for the customers in the NPSD and CPSD areas, we find the end results to be necessary given our decision to unify the rates for customers in these three areas. Furthermore, although the percentage increases to customers in those areas are larger than the increases in the original District area, this is largely a function of the lower starting point rates for those customers.

To achieve the necessary revenue requirement, the Commission will adopt a flat rate of $11.20 per thousand gallons and will adopt the Staff recommended minimum bill of 2,000 gallons. With the unified rate schedules, this will result in the following monthly bills for all customers within the original District area, the NPSD and the CPSD:

2,000 gallons	$ 22.40
3,000 gallons	$ 33.60
4,000 gallons	$ 44.80
4,500 gallons	$ 50.40
20,000 gallons	$ 224.00
200,000 gallons	$2,240.00

These rates are designed to provide the District with sufficient revenue to cover its ongoing expenses and debt service payments. However, those rates will not be sufficient to pay the existing debt service arrearage on the District's bonds. As of the date of the hearing, the total debt service deficiency owed to WDA, IJDC and RUS was approximately $883,716.00. (Tr. pp 144-149; WDA Exhibit No. 1). The WDA objects to waiting three years before receiving any payments on the arrearage. The Commission agrees that requiring the bond holders to wait three years before beginning to receive any payment on the arrearage is too long. However, given the rate increases that the District's customers are being required to bear, the Commission will not adopt the $1.64 per thousand gallon surcharge recommended by Staff. Instead, in an effort to balance the interests of the customers and the interests of the WDA, IJDC and RUS, the Commission will establish a surcharge of $0.82 per thousand gallons of usage to begin immediately upon the effective date of this Order.

The Commission views the resolution of this rate case as the first step in the process of addressing the financial problems faced by the District. The District currently has outstanding bonds in excess of 17 million dollars. The annual debt service on those obligations is $732,877, which is approximately 45% of the revenue requirement established in this proceeding. (Staff Ex.1). Given its high level of debt, high debt service requirements, high level of base rates and the added pressure upon customer bills created by the inability of the District to maintain necessary debt service payments in the past, the Commission is concerned about the financial stability of the District. Therefore, the Commission will institute a general investigation, as a separate case, in order to further review and explore alternatives to the District's debt load and the current debt structure. The Commission will address the procedures for the general investigation in a future order.

The Commission does not make the above observations regarding debt load and affordability of rates to in any way question the ability of the District's management. Indeed, the District has shown admirable concern for the ability of its customers to absorb the level of rates that are necessary to provide necessary cash flow to the District. The Commission believes that the District is struggling to achieve a balance between its financial obligations and its customers' ability to pay. The Commission sympathizes with its struggle and intends that the General Investigation be used as a mechanism to assure the District that the Commission recognizes its problems, recognizes its commitment to resolution of those problems and wishes to offer guidance and assistance so that it can achieve the financial stability that it is seeking.

FINDINGS OF FACT

1. On March 15, 2005, Mingo County Public Service District (District), filed tariff sheets seeking approval (1) of increased rates and charges of approximately 28.9% annually and (2) to unify the tariffs of the District, NPSD and the CPSD. The District serves approximately 2,682 customers, including those customers formerly served by the NPSD and CPSD. The District sought one flat rate of $9.99 per 1,000 gallons. The rates were to become effective April 20, 2005. (See, March 15, 2005 filing).

2. The Commission suspended the tariff sheets and the use of the proposed rates and charges until 12:01 a.m., September 18, 2005; approved an interim rate increase of 41.8%; and established a $2.60 per 1,000-gallon surcharge to be charged for a period of 24 months, or until certain bond deficiencies were eliminated (See, April 19, 2005, Commission Order).

3. The Commission increased the surcharge from $2.60 per 1,000 gallons to $5.20 per customer per month and directed that the District publish an attached tariff setting forth the Commission-approved interim rates and charges. (See, May 6, 2005 Commission Order Modifying Interim Rate and Requiring Publication).

4. A hearing was conducted as scheduled on June 3, 2005. Notice of the hearing was published in the *Williamson Daily News* on May 11 and 18, 2005. (See, District Exhibit No. 1). Fifteen customers appeared at the hearing to protest the proposed rate increase.

5. The parties stipulated that the Staff-recommended revenue requirement of approximately $1,600,000 for the District is correct. This amount does not provide for eliminating the long-term debt deficiencies owed to the District's various bondholders. The deficiencies were addressed with a separate surcharge. (See, Tr., generally).

6. The District's problems associated with the construction of the Naugatuck water treatment plant are the reason for the District requiring such a high rate in order to produce the revenues it needs to cover its O&M expenses and its debt service requirements. During construction, the District's contractor went bankrupt. It took almost two years to get a new contractor back on the job. The District had to obtain additional financing, permission from the Commission and a new contractor, during which time the costs had increased. It also had to pay high prices for water from the Logan County Public Service District and had to incur many unanticipated labor costs until the new treatment plant was in service. Also, about 350 prospective customers who promised to connect to the system did not connect, which contributed more to the revenue shortfall. The District had to use its reserves just to meet O&M expenses. (Tr., pp. 23-26; and Tr., pp. 48-50).

7. The District does not agree with the Staff-recommended rates and charges. It is concerned that high rates will cause a loss in the customer base as many of its customers still have wells and other private water sources to which they easily could return if the rates become too high. The District is also concerned that high rates would cause the customers to sharply curtail water usage from the District. The District wants the Commission to adopt rates that will enable a small user, such as a customer who uses less than 1,500 gallons per month, to still afford to be a customer of the District. The District believes that the larger user should bear a larger share of the rate increase. (Tr., pp. 27-32).

8. The Staff-recommended rates and charges would unify the District's rates for all of its operations, except for the Justice Public Service District (JPSD), which is a separate operation. This rate case will not affect the rates of the customers of the JPSD. Although the Commission has approved the merger, the JPSD cannot be merged into the District until the JPSD has paid off all of its bonded indebtedness, which will be in about two years. (Tr., pp. 39-42).

9. Commission Staff reviewed the District's operations and its financial books and records in order to make operational recommendations and to contribute to formulating the Staff-recommended rates and charges. Several years ago, the Commission approved the consolidation of the NPSD, the CPSD and the District. Unification of the rates of the three Districts, will fully complete the consolidation process. During the test year, the District served about 2,650 customers, including all three former districts, with about 2,000 of those already in the Mingo County Public Service District; about 230 in the former NPSD and about 415 in the former CPSD. The District serves the Town of Delbarton as its sole resale customer. (Tr., pp. 43-48; Staff Exhibit No. 1).

10. The District's long-term bonded indebtedness is comprised of two issues from the RUS in 2000 in the amounts of $2,200,000 (Series A) and $2,000,000 (Series B), incurring interest at the rate of 4.5% and payable over 40 years. The annual debt service for the RUS Series A bonds is $92,340 interest and $28,836 principal and the annual debt service for the RUS Series B bonds is $83,940 interest and $26,220 principal. Also, the District has incurred an additional indebtedness to the RUS for a refinancing in the amount of $195,000, which requires an additional annual debt service of $9,085 interest and $5,651 principal. The District's long-term financing from the WDA is comprised of two bond issues of $2,800,000 (Series C) and $715,000 (Series D) issued in 2000, requiring an annual debt service of $164,861 interest and $22,645 principal, and $41,310 interest and $5,674 principal, respectively. The District's long-term financing from the West Virginia Infrastructure and Jobs Development Council (IJDC) is comprised of an $8,900,000 (Series E) loan issued in 2000, at zero percent interest, requiring an annual debt service of $236,208 principal, and a second IJDC loan issued in 2001 in the amount of $236,000, which requires

an annual debt service of $16,107 principal. (Tr., pp. 50-52; Staff Exhibit No. 1).

11. The District's aggregate debt service requirement is $732,877. The debt service reserve requirements total $73,288 and its renewal and replacement reserve requirements total $47,909. The total debt service requirement, including reserves, is $854,229. (Tr., pp. 50-52; Staff Exhibit No. 1, Statement H).

12. As of the date of the hearing, the total debt payment deficiency owed to WDA, IJDC and RUS was approximately $883,716.00. (Tr. pp 144-149; WDA Exhibit No. 1).

13. After conducting its full investigation, Staff recommended that the Commission increase the District's revenues by 49.5% above going-level prior to implementation of the interim rates or about 7.7% above the revenue levels that would be produced by the interim rates. In order to avoid some rate shock, Staff did not use the standard of increasing the cash flow surplus by 1/12 of the O&M expenses, but, rather, used Staff's engineering report to increase revenues only by $22,000 annually to cover plant additions. (Tr., pp. 59-61; Staff Exhibit No. 1).

14. Staff recommended that the debt service arrearage be eliminated with a separate surcharge in the amount of $1.64 per 1,000-gallons Staff opined that the surcharge would eliminate the debt service arrearage in approximately 36 months. (Tr., pp. 61-62; Staff Exhibit No. 1).

15. Staff's recommended rates were based on a minimum billing of 2,000 gallons usage instead of the existing 3,000 gallons usage. Staff believed that lowering the minimum billing to 2,000 gallons would benefit those who use the least amount of water and probably those least able to afford a rate increase. (Tr., pp. 62-63; Staff Exhibit No. 1).

16. Every residential customer of the District would see a rate increase under the Staff-recommended rates and rate structure, but some would have a greater percentage increase. One cause of the differential percentage of rate increases is due to unifying the District's tariff. However, customers using between 3,000 and 5,000 gallons per month would experience a much higher rate increase than customers using less than 3,000 or greater than 5,000 gallons per month. Under the Staff-recommended rates and rate design, all those customers using over 20,000 gallons would see rate decreases (compared to the pre-interim rate level). (Tr., pp. 63-66; Tr. pp. 83-84; and Staff Exhibit No. 1).

17. The District's largest water user, uses about 250,000 gallons per month. Most commercial customers use between 5,000 gallons and 40,000 gallons per month. (Tr., pp. 166-184).

18. In designing rates, Staff experimented with a flat rate of approximately $11.22 per 1,000 gallons for all customers. That flat rate would produce a $40,000 deficit for the residential class requiring the other customer classes to subsidize the residential users by that amount. That same flat rate of $11.22 per 1,000 gallons would cause the commercial customers to produce a $40,000 surplus, i.e., generate $40,000 more than it costs the District to serve the commercial customers. A flat rate would cause a smaller increase for residential customers, a larger increase for commercial customers. No class of customers would experience a rate decrease. (Tr., pp. 166-184).

19. The WDA supports the Staff-recommended surcharge rate of $1.64 per 1,000 gallons. The WDA indicated that it would be good if the arrearage owed to the WDA and the IJDC could actually be eliminated in three years. Three years is longer than those agencies generally want to wait. However, the WDA agreed that trying to speed up the process in this particular case might be counter-productive. (Tr., pp. 120-123).

20. The RUS is more concerned with the District keeping up its future payments on the bonds as they become due and not falling any farther behind, rather than erasing the arrearage by a specific time. The RUS believes that the surcharge is needed, it is just not sure whether the Staff-recommended amount is correct and it is not sure that the correct amount can be calculated at this time. The RUS recommended that the Commission delay the implementation of the surcharge for one year, to permit the District to operate under the rates adopted in this case and then base the surcharge amount on better historical operating data, which the RUS termed a more meaningful surcharge. (Tr., pp. 144-149; Tr., pp. 149-155; RUS Exhibit No. 1).

21. At the conclusion of the hearing, the ALJ requested that Staff provide additional rate structure information, including phased-in rates. As requested, Staff filed a post-hearing exhibit. (Staff Post-Hearing Exhibit 1.).

22. The ALJ issued a Recommended Decision on July 19, 2005. The ALJ adopted the Staff recommended revenue requirement of $1,600,000. Staff's class cost of service study was rejected as the ALJ determined that the results were illogical, impractical and would not produce just and reasonable rates. The ALJ adopted the three-year phased-in rates set forth in Staff's Post-Hearing Exhibit No. 1. The ALJ also adopted the Staff-recommended surcharge of $1.64 per 1,000 gallons of water usage. However, the ALJ directed that the surcharge become effective in September 2008.

23. On August 1, 2005, the WDA filed exceptions to the Recommended Decision. The WDA asserted that the record did not support a three-year delay in the imposition of the surcharge. The WDA wants to protect the integrity of its program and asked that the

Public Service Commission
of West Virginia
Charleston

approved surcharge be imposed immediately.

24. The District responded to the WDA's exceptions on August 9, 2005. It argued that the Recommended Decision was reasonable under the circumstances of this case. In reviewing the Recommended Decision, the District asked that the Commission consider the impact of rate shock upon the customers.

25. Staff continues to support the immediate imposition of a $1.64 per 1,000 gallons per month surcharge which would cure the arrearage in three years. Staff asserted that the ALJ essentially recommended repayment over a six year period. For informational or alternative purposes, Staff calculated a surcharge for a six year repayment to be implemented immediately to be $0.82 per 1,000 gallons per month.

CONCLUSIONS OF LAW

1. The Commission is required to adopt rates that are just and reasonable, pay the District's O&M expenses and cover all of its debt service requirements.

2. It is reasonable to adopt a revenue requirement of approximately $1,600,000. The rates that the Commission adopts in this case must be designed to produce that level of revenue annually.

3. Determining a rate design that fairly apportions the revenue requirements among the various customer classes is an artful science. A class cost of service study is, at best, a guide to reasonable rate design and is but one element of many that ultimately leads to a reasonable rate structure. See, *Monongahela Power Company*, Case No. 90-504-E-42T, (June 11, 1991); *City of Spencer*, Case No. 99-0152-S-MA, (June 2, 1999); and *City of Belmont*, Case No. 02-0070-W-MA (June 27, 2002).

4. Given the circumstances of this case, particularly the need for a very large rate increase and the debt service deficiencies, the Commission concludes that targeting high volume reductions is not a reasonable end result and cannot be justified simply because a snapshot class cost of service study might indicate the need to moderate the high volume rates.

5. The cost of service study may, over time, provide a guide to an appropriate rate design; however, in this case where lower volume users may be assessed increases well in excess of 50 to 60 percent, the Commission will not approve reductions for the high volume customers. Such a result would simply not be reasonable. Thus, the Commission will not adopt the Staff recommended rate design.

6. As the District now resembles one seamless operation rather than three separate operations depending on geography, separate rate structures for the original District, NPSD and CPSD areas are outdated and not reflective of the costs to serve those customers. It is important for financial health of the system for the Commission to adopt the recommended unification of the District's rates at this time.

7. The Commission will adopt the District's proposed flat rate structure. The flat rate structure will enable the Commission to provide for a percentage across the board increase to assure that all customers absorb a balanced portion of the increase in revenue requirements that the District faces in this case.

8. Even though the equal percentage increase that the Commission will approve for the original District area customers will not result in equal percentage increases for the customers in the NPSD and CPSD areas, the Commission concludes that the end results are necessary given our decision to unify the rates for customers in these three areas.

9. To achieve the necessary revenue requirement, the Commission concludes that it is appropriate to adopt a flat rate of $11.20 per thousand gallons and to adopt the Staff recommended minimum bill of 2,000 gallons.

10. The approved rates will not be sufficient to pay the approximate $883,716.00 debt service arrearage on the District's bonds. The Commission concludes that the bond holders should begin to receive some payment on delinquencies immediately. In an effort to balance the interests of the customers and the interests of the WDA, IJDC and RUS, the Commission concludes that an appropriate surcharge is $0.82 per thousand gallons of usage.

11. Given its high level of debt, high debt service requirements, high level of base rates and the added pressure upon customer bills created by the inability of the District to maintain necessary debt service payments in the past, the Commission concludes that it is reasonable and necessary to institute a general investigation in order to further review and explore alternatives to the District's debt load and the current debt structure. The general investigation is for the purpose of offering guidance and assistance to the District so that it can achieve the financial stability that it is seeking.

ORDER

IT IS, THEREFORE, ORDERED that a revenue requirement of approximately $1,600,000 is adopted as the basis for designing rates in this case.

IT IS FURTHER ORDERED that the rates and charges attached hereto in Attachment A, are hereby adopted for use by the Mingo County Public Service District for all service rendered on and after 12:01 a.m., September 18, 2005.

IT IS FURTHER ORDERED that approval is hereby granted for a debt service deficiency surcharge of $0.82 per 1,000 gallons per month to remain in place until such time as the Mingo County Public Service District's debt service deficiencies as discussed herein are eliminated, at which time the District shall petition the Commission for removal of the surcharge from its tariff.

IT IS FURTHER ORDERED that the District establish and maintain a separate interest bearing checking account to be used for all revenues generated by the debt service deficiency surcharge. The monies collected with this surcharge shall be remitted directly to the Municipal Bond Commission on a monthly basis.

IT IS FURTHER ORDERED that the District request that the Municipal Bond Commission allocate the funds collected with the above-referenced surcharge to each lending agency based on the percentage of default, or alternatively, utilizing an allocation process agreed to by all parties.

IT IS FURTHER ORDERED that upon entry hereof, the Executive Secretary's office shall open a separate case initiating a general investigation naming the Mingo County Public Service District as a respondent. The general investigation shall be for the purpose of reviewing the District's finances and exploring alternatives to the District's debt load and the current debt structure. Upon opening of the general investigation docket, the Commission will issue a further order addressing the procedures to govern that matter.

IT IS FURTHER ORDERED that upon entry of this order, this case shall be removed from the Commission's docket of active cases.

IT IS FURTHER ORDERED that the Commission's Executive Secretary serve a copy of this order upon all parties of record by United States First Class Mail and upon Commission Staff by hand delivery.

WATER REVENUE BONDS, SERIES 2011 A
(UNITED STATES DEPARTMENT OF AGRICULTURE)

$1,986,000

No. AR-1

Date: February 10, 2011

FOR VALUE RECEIVED, MINGO COUNTY PUBLIC SERVICE DISTRICT (herein called "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of ONE MILLION NINE HUNDRED EIGHTY SIX THOUSAND DOLLARS ($1,986,000), plus interest on the unpaid principal balance at the rate of 2.5% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $6,753, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond, in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a

calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, extensions and improvements to the waterworks system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Resolutions and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for

similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farm and Rural Development Act of 1965, as amended. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Mingo County Public Service District in Mingo County, West Virginia (the "Issuer"), of its $1,986,000 Water Revenue Bonds, Series 2011 A (United States Department of Agriculture), dated the date hereof (the "Bonds"), pursuant to Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), a Bond Resolution duly adopted by the Issuer on February 8, 2011, (the "Bond Legislation"). We have examined the law and such certified copies of proceedings and other papers as we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon the representations of the Issuer contained in the Bond Legislation and in the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion, under existing law, as follows:

1. The Issuer is duly created and validly existing as a public service district and as a public corporation and a political subdivision of the State of West Virginia with full power to adopt and enact the Bond Legislation, perform the agreements on its part contained therein and issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Bond Legislation has been duly and effectively adopted and enacted by the Issuer and constitutes a valid and binding obligation of the Issuer enforceable upon the Issuer.

3. Pursuant to the Act, the Bond Legislation creates a valid lien on the funds pledged by the Bond Legislation for the security of the Bonds, on a parity with the Issuer's: (i) Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), dated August 28, 2000, issued

in the original aggregate principal amount of $2,200,000 (the "Series 2000 A Bonds"); (ii) Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,000,000 (the "Series 2000 B Bonds"); (iii) Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $2,853,436 (the "Series 2000 C Bonds"); (iv) Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $715,000 (the "Series 2000 D Bonds"); (v) Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), dated August 28, 2000, issued in the original aggregate principal amount of $8,916,818 (the "Series 2000 E Bonds"); (vi) Water Revenue Bonds, Series 2001 A (West Virginia Infrastructure Fund), dated March 9, 2001, issued in the original aggregate principal amount of $837,540 (the "Series 2001 A Bonds"); (vii) Water Revenue Bonds, Series 2010 A (United States Department of Agriculture), dated January 12, 2010 (the "Series 2010 A Bonds"); and (viii) Water Revenue Bonds, Series 2011 B (United States Department of Agriculture), dated February 10, 2011, issued concurrently herewith in the original aggregate principal amount of $222,000 (the "Series 2011 B Bonds").

4. The Bonds have been duly authorized, executed and delivered by the Issuer and are valid and binding special obligations of the Issuer, payable solely from the sources provided therefor in the Bond Legislation.

5. The Bonds have not been issued on the basis that the interest, if any, thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia, and the other taxing bodies of the State, and interest on the Bonds is exempt from personal income taxes and corporate net income taxes imposed directly thereon by the State of West Virginia.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Bond Legislation and the liens and pledges set forth therein may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that the enforcement thereof may also be subject to the exercise of judicial discretion in appropriate cases.

Very truly yours,

OPINION OF COUNSEL RELATIVE TO RIGHTS-OF-WAY

Date February 10, 2011

Dear Sir:

I have reviewed the action taken by MINGO COUNTY PUBLIC SERVICE DISTRICT for its Dingess 2 Waterline Extension Project (hereinafter called the "Corporation") in obtaining a right-of-way for the construction, operation, and maintenance of the facilities to be installed, repaired, or enlarged with the proceeds of a loan made or insured by, and/or a grant from Rural Development to the Corporation. I have examined the right-of-way instruments, permits, or licenses obtained from landowners, public bodies, and public utilities and made such searches of the public records necessary to determine the legal sufficiency of the instruments covered by the "Right-of-way Certificate," executed by the Corporation on _____, 19 _____. I also have examined the "Right-of-way Map" to determine whether continuous and adequate land and rights-of-way are owned or have been acquired by the instruments covered in the "Right-of-way Certificate."

Based on the foregoing examination, and to the best of my knowledge, information, and belief, I am of the opinion that:

A. The legal instruments by which the Corporation has acquired said rights-of-way (a) are in appropriate and due legal form and adequately confer upon the Corporation the necessary rights-of-way for the construction, operation, and maintenance of its facilities in their present or proposed location, and such omissions or defects as may exist will in no substantial way or manner endanger the value or operation of the facilities, and (b) have each been properly recorded in the appropriate public land records of each County in which any of the land affected thereby is situated. Such consents, releases, or subordinations from lienholders recommended by me or required by Rural Development have been obtained.

B. The legal instruments referred to above give unto the Corporation a continuous and adequate right-of-way to permit the construction, operation, and maintenance of the Corporation's facilities except as below noted.

C. Exceptions:

Very truly yours,

Attorney for Mingo County Public Service District

APPLICANT FOR TITLE EXAMINATION Mingo County Public Service District	COUNTY Mingo	STATE West Virginia

I. I have examined title to the property described in the security instrument described in paragraph II. B. below. My examination covered the period from the time of termination of title search covered by my Preliminary Title Opinion on Form RD 1927-9; or the time of recordation of the initial loan security instrument if this opinion covers land already owned by the loan applicant in a subsequent loan case, to February 10 (*Date*), 2011, at 10:00 a.m. (including the time of filing the current security instrument). p.m.

II. Based on said title examination, my preliminary title examination if any, and any additional information concerning the title which has come to my attention, it is my opinion that:

A. Good and marketable title, in accordance with title examination standards prevailing in the area, to said property (real estate and any water rights offered as security) is now vested in Mingo County Public Service District

as exclusive owner
(*Joint tenants, tenants by the entirety, etc.*)

B. The United States of America holds a valid first (*Priority*) statutory (*Mortgage, etc.*) lien on said property as required by Rural Development or the Farm Service Agency, or their successor (Agency), which lien was filed for record on n/a (*Date*), _____, at _____ a.m. p.m. and is recorded in _____ (*Book, page, and office*).

C. Said property and lien are subject only to encumbrances, reservations, exceptions, and defects which were approved by written administrative waivers of the Agency attached hereto or to my Preliminary Title Opinion.

III. If a water right is involved and is not covered by the current security instrument, it is subject only to the encumbrances, reservations, exceptions, and defects set forth in said administrative waivers and was made available as security in the following manner (Water stock would normally be reissued in the names of said land owners and the United States of America and delivered to the Agency Official at the time of loan closing):

IV. The term "encumbrances, reservations, exceptions, and defects" means all matters which would prevent the United States from obtaining the required lien on the property identified in paragraph I, including but not limited to (a) mortgages, deeds of trust, and vendors', mechanics', materialmen's, and all other liens, including any provisions thereof for future advances which could take priority over the said lien to the United States, (b) Federal, State, and local taxes, including county, school, improvement, water, drainage, sewer, inheritance, personal property, and income, (c) State and Federal bankruptcy, insolvency, receivership, and probate proceedings, (d) judgments and pending suits, in State and Federal courts, (e) recorded covenants; conditions; restrictions; reservations; liens; encumbrances; easements; rights-of-way; leases; mineral, oil, gas, and geothermal rights (regardless of the right of surface entry); timber rights; water rights; pending court proceedings and other matters of record which affect the title of the property or the ability of the buyer or seller to convey or accept title.

V. This opinion is issued expressly for the benefit of the above-named applicant for title examination and the United States of America acting through the United States Department of Agriculture Agency which provided the assistance, and I assume liability to each hereunder.

Ladies and Gentlemen:

Based upon the water rates and charges set forth in the Commission Order dated September 16, 2005, the Recommended Decision entered on October 6, 2008 which became Final Order of the Public Service Commission of West Virginia on October 26, 2008, and Commission Order dated December 15, 2010, in Case No. 05-0359-PWD-42T (reopened), and projected operating expenses and anticipated customer usage as furnished to us by E. L. Robinson Engineering Company, Consulting Engineer, it is our opinion that such rates and charges will be sufficient to provide revenues which, together with other revenues of the waterworks system (the "System") of Mingo County Public Service District (the "Issuer"), will provide for all Operating Expenses of the System and will leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Issuer's Water Revenue Bonds, Series 2011 A (United States Department of Agriculture) in the aggregate principal amount of $1,986,000 (the "Series 2011 A Bonds") and Water Revenue Bonds, Series 2011 B (United States Department of Agriculture) in the aggregate principal amount of $222,000 (the "Series 2011 B Bonds") (collectively, the "Series 2011 Bonds") and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2011 Bonds including the Issuer's: (i) Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,200,000 (the "Series 2000 A Bonds"); (ii) Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,000,000 (the "Series 2000 B Bonds"); (iii) Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $2,853,436 (the "Series 2000 C Bonds"); (iv) Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), dated August 28, 2000, issued in the original aggregate principal amount of $715,000 (the "Series 2000 D Bonds"); (v) Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure fund), dated August 28, 2000, issued in the original aggregate principal amount of $8,916,818 (the "Series 2000 E Bonds"); (vi) Water Revenue Bonds, Series 2001 A (West Virginia infrastructure fund), dated March 9, 2001, issued in the original aggregate principal amount of $837,540 (the "Series 2001 A Bonds"); and (vii) Water Revenue Bonds, Series 2010 A (United States Department of Agriculture), dated January 12, 2010, issued in the original

aggregate principal amount of $1,450,000 (the "Series 2010 A Bonds") (collectively, the "Prior Bonds").

It is further my opinion that (i) the Net Revenues for the Fiscal year following the year in which the Series 2011 Bonds are issued will be at least 120% of the average annual debt service on the Prior Bonds and the Series 2011 Bonds and that (ii) the Net Revenues actually derived from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of the Series 2011 Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by the Series 2011 Bonds, are not less than 115% of the largest aggregate amount that will mature and become due in any succeeding fiscal year for the principal of and interest on the Prior Bonds and the Series 2011 Bonds.

Very truly yours,

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

FINAL
8-1-96

Entered: July 12, 1996

CASE NO. 96-0049-PSWD-PC

MINGO COUNTY COMMISSION
Petition for consent and approval to create a new public service district to provide both water and sewer services to customers in areas which are not presently contained in the boundaries of any other public service district within Mingo County, to dissolve Ragland Public Service District and to merge Ragland Public Service District with the newly created Mingo County Public Service District.

RECOMMENDED DECISION

On March 5, 1996, the Mingo County Commission adopted resolutions to create the Mingo County Public Service District, to provide water and sewer services to customers in areas of Mingo County which are not presently in the boundaries of any other public service district within Mingo County; to dissolve the Ragland Public Service District; and to merge the Ragland Public Service District territory with the newly created Mingo County Public Service District.

On March 12, 1996, the adopted resolutions were submitted for Commission approval, pursuant to West Virginia Code §16-13A-2.

By Order dated February 27, 1996, this matter was referred to the Division of Administrative Law Judges for a decision to be rendered on or before August 15, 1996.

On April 1, 1996, Staff Attorney, Cassius H. Toon, Esquire, filed a Further Joint Staff Memorandum to which was attached the Final Staff Internal Memorandum of Mr. James W. Boggess, Jr., Utilities Analyst II, Public Service District Division. Mr. Toon advised that Staff, after a review of all the pertinent information in this case, recommended approval of the simultaneous dissolution of the Ragland Public Service District and creation of the Mingo County Public Service District and the scheduling of this case for a hearing, in accordance with the provisions of West Virginia Code §16-13A-2.

By Order dated May 31, 1996, this matter was set for a hearing to be

eld in the Council Chambers, City Building, Williamson, West Virginia, on une 19, 1996, in accordance with the provisions of West Virginia Code §16-13A-2, and said Order required that the Mingo County Commission give notice of the hearing by publishing a copy of the Notice of Hearing, once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Mingo County. In a letter dated June 10, 1996, the proper affidavit of publication was submitted by the Mingo County Commission.

The hearing was held as scheduled. The Mingo County Commission appeared by its Counsel, Robert R. Rodecker, Esquire. Commission Staff appeared by Cassius H. Toon, Esquire.

At the hearing held on June 19, 1996, no one appeared in protest to the petition of the Mingo County Commission. Thus, after receipt of Mingo County Commission Exhibits 1 through 6, which were the resolutions and orders creating the Mingo County Public Service District, merging Ragland Public Service District and Mingo County Public Service District and dissolving Ragland Public Service District, no further evidence was taken and the matter was submitted as an unprotested case.

DISCUSSION

In a resolution adopted March 5, 1996, the Mingo County Commission created the Mingo County Public Service District to provide water and sewer services to customers in areas of Mingo County, which are not presently inside the boundaries of any other public service district within Mingo County. Also, the County Commission passed a resolution to dissolve the Ragland Public Service District and to merge the Ragland Public Service District with the newly-created Mingo Public Service District.

These resolutions and orders were submitted for Commission approval on March 12, 1996, and pursuant to West Virginia Code §16-13A-2, a hearing was held in Williamson, Mingo County, on June 19, 1996. The Mingo County Commission gave a notice of the hearing by publishing a Notice of Hearing, once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Mingo County. Proper publication was made in accordance with the Commission's requirements. At the hearing held in this matter on June 19, 1996, no one appeared in protest to the petition of the Mingo County Commission, whereupon, the matter was submitted as an unprotested case. Since no one appeared in protest to the petition of the Mingo County Commission, after proper publication had been made in accordance with the Commission's requirements, the orders of the Mingo County Commission, as filed on March 12, 1996, should be approved.

FINDINGS OF FACT

1. On March 5, 1996, the Mingo County Commission adopted resolutions and orders to create the Mingo County Public Service District to provide water and sewer services to customers who are not presently in the boundaries of any other public service district within Mingo County; to

lissolve the Ragland Public Service District; and to merge the Ragland ublic Service District with the newly-created Mingo County Public Service District. Said resolutions and orders were submitted for Commission approval on March 12, 1996, pursuant to West Virginia Code §16-13A-2. (See, Resolutions filed March 12, 1996).

2. Commission Staff recommended approval of the simultaneous dissolution of the Ragland Public Service District and the creation of the Mingo County Public Service District. (See, Further Joint Staff Memorandum filed April 1, 1996).

3. By Order dated May 31, 1996, this matter was set for a hearing to be held in the Council Chambers, City Building, Williamson, West Virginia, on June 19, 1996, and the the Mingo County Commission was to give notice of said hearing by publishing a Notice of Hearing, once in a newspaper, duly qualified by the Secretary of State, published and of general circulation in Mingo County. (See, Order dated May 31, 1996, and Appendix A).

4. In a letter dated June 10, 1996, the Mingo County Commission submitted the Affidavit of Publication reflecting proper publication of the Notice of Hearing, as required by the Order of May 31, 1996. (See, letter dated June 10, 1996).

5. At the hearing held in this matter on June 19, 1996, no one appeared in protest to the petition of the Mingo County Commission, whereupon the matter was submitted as an unprotested case. (See, Tr., p. 4).

CONCLUSION OF LAW

The Administrative Law Judge is of the opinion and finds that, since the Mingo County Commission gave proper notice of the hearing to be held in this matter and no one appeared to give protest to the orders of the Mingo County Commission, the orders adopted on March 5, 1996, should be approved.

ORDER

IT IS, THEREFORE, ORDERED that the resolutions and orders, adopted by the Mingo County Commission on March 5, 1996, to create the Mingo County Public Service District to provide water and sewer services to customers in areas of Mingo County which are not presently in the boundaries of any other public service district within Mingo County; merging the territory of the Ragland Public Service District with the Mingo County Public Service District; and dissolving the Ragland Public Service District, be, and the same hereby are, approved.

If no exceptions are so filed this order shall become the order of the Commission, without further action or order, five (5) days following the expiration of the aforesaid fifteen (15) day time period, unless it is ordered stayed or postponed by the Commission.

Any party may request waiver of the right to file exceptions to an Administrative Law Judge's Order by filing an appropriate petition in writing with the Secretary. No such waiver will be effective until approved by order of the Commission, nor shall any such waiver operate to make any Administrative Law Judge's Order or Decision the order of the Commission sooner than five (5) days after approval of such waiver by the Commission.

John Hubbard said let the record reflect there was no Impropers submitted at this time.

Mark Whitt, 4-H Director, came before the Commission requesting financial assistance with help, sending our youth to camps and leadership conference's and other projects directed towards the youth of Mingo County. John Hubbard made a motion to approve $2,500.00 dollars to the 4-H project to make sure our young people are sent to camp. Haley Hatfield seconded. The vote was unanimous. Motion carried.

Randy Hatfield, President of Deputy Sheriff's Association came before the Commission on behalf of the Deputies and the cost of living raise of a one thousand dollar a year raise that had been previously denied. Sheriff Lonnie Hannah came before the Commission stating that he was supposed to submit for approval the Attorney's name and fee schedule as the Judge has ordered but the Order has not yet been signed by the Judge. The Commission asked that the Sheriff's request be put on the Agenda for Monday's Special Session.

Judy Hambrick came before the Commission on behalf of the Solid Waste Authority, with first presenting their budget stating that they do not have as much money in their budget as some people has stated. Ms. Hambrick asked the Commission for financial assistance for the (4) four employees they currently have to continue for (10) ten more weeks because they are currently going into another phase of the Solid Waste

Project. Ms. Hambrick stated that have finished all the roads except Jennings Creek and are now going into dumps and that is why we need the employees to continue for (10) ten more weeks. Haley Hatfield made a motion for them to continue for (10) ten weeks. John Hubbard seconded, but not to exceed $10,000.00 dollars. The vote was unanimous. Motion carried.

Haley Hatfield made a motion to reappoint Joe Harfield for another (4) year term to the Mingo County Solid Waste Authority Board. John Hubbard seconded. The vote was unanimous. Motion carried.

Mike Vorase came before the Commission for their support of the Civil Air Patrol, Cadet Program Startup. Mr. Vorase explained to the Commission what the Civil Air Patrol is all about, stating that our youth does not have any programs for them in the County other than sports, he said this program will give them leadership skills, patriotism, it will introduce them to science aspects to aviation. They will also provide a service to the County. Civil Air Patrol is set up to provide a disaster relief program to the County, Civil Air Patrol has ties to FEMA now, if we had an organization here during the flood we could take the Commissioners to the flooded areas. This organization will be trained to assist the County, that sets it a part from other organizations and all I need is an assurance that we will be able to use the Varney Grade School for a meeting place and the use of the County buses to transport them from here to Yeager Airport if they have a flight, I'm going to try to get them flown in a C-130 from Yeager to Right Patterson Air Force Base. This is an opportunity for the children in our community, its for children from the age of 12 thru 18 and if they are in before 18 then they can stay until they are 21, they are an auxiliary of the Air Force and they are authorized to ride in military vehicles. Mr. Vorase said he did not want to put this out to the children unless he can pull this all together I don't want them to be disappointed, I want to make sure I have all my ducks in a row before I offer it to the kids. Glen Rutledge asked Mr. Vorase what his back ground is that he has such a passion for Civil Air Patrol? He stated that he was a

pilot in Michigan but I quit flying in 1973 and I was in the reserves and I left there as a Captain. Haley Hatfield asked Mr. Vorase when he needed the building? He stated not until after December 2006, but I have to know these facilities are in place so that the kids are not disappointed. Mr. Rutledge asked how may kids does he expect to have join this organization? Mr. Vorase state out about 20 or 30 in the beginning and altogether 50 or 60 through out the County. Mr. Rutledge asked him if he was association or corporate structure? Mr. Vorase stated that the Civil Air Patrol has its own insurance we are a part of the Air Force he also stated that the Insurance could be provided upon request. John Hubbard stated that Mr. Vorase mentioned something about buses and the only problem I have with that is sometimes our bus is running and sometimes it isn't running. Mr. Vorase stated what he is asking for is a feasibility plan and if doesn't have that he has a problem. John Hubbard said you have given us a lot of information and I do not feel comfortable at all to make any recommendations of what we can or can not do, primarily your list is pretty long, at this point in time I don't think we can make any commitment to you until you submit to us exactly what you are asking for. Mr. Vorase said what I'm really asking for now is the use of the Varney Grade School and if the buss is running at the time that we may use it. John Hubbard stated that you and Emergency Service Director, Bill Davis are going to have to come back to a regular session and he is going to have to say that he doesn't have any objection of you using the building, because the Emergency Service has use of the building.

Kathy Thompson and Leann Wells came before the Commission on behalf of the Save Our Strays animal shelter, Ms. Wells is asking for some assistance with helping get an animal shelter built at Deskins Drive, Borderland, WV. After some discussion on the matter Haley Hatfield made a motion to approve a $2,500.00 dollar donation to help defray the cost of the building. John Hubbard seconded. The vote was unanimous. Motion carried.

Under the Public, Cleta Mullins came before the Commission on behalf of the Coalfield Convention & Visitors Bureau, Ms. Mullins stated she was here just as a Mingo Countian, stating that she attended the Historic Preservation Conference last week and I found out that there was about $400,000.00 thousand dollars just laying around and in order to apply for that money you need a Land Mark Commissioner and Mingo County

doesn't have one. Ms. Mullins stated that she copied Logan County to see how they applied for their Commission papers the only thing the Commission has to do is to pass an order establishing a Land Mark Commissioner. My suggestion would be is to find one from each area of your County it has to be five members. I don't expect an answer today but I would like for you to study the papers that I have given you and if you don't move soon there is a lot of money you could loose. Williamson has several homes that could be listed as a historical site, the Mountaineer Hotel is on the National Register and it got on there just by someone petitioning it to be on there. The Commission's part in it would be to get the board together and have the County Surveyor work on it after it is designated. Ms. Mullins stated she would appreciate it if the Commission would help her establish Mingo County on the National Registry and it needs to be done by October 2006.

Under Personnel, Tina Lockard stated that the Janitors position has closed and the Commission should have names to submit. Haley Hatfield made a motion to approve the hiring of David Layne and Robert Ellis and Mr. Layne can be used as part-time Court Bailiff effective Monday May 22, 2006 at a starting salary of $1,400.00 monthly. John Hubbard seconded. The vote was unanimous. Motion carried.

Nothing was submitted under 911 personnel.

County Clerk, Jim Hatfield asked for part-time employee Carissa Maynard to be extended thru the month of June 2006 until she becomes full time in July 2006. John Hubbard made a motion to hire Carissa Maynard full time effective Monday May 22, 2006 at a starting salary of $15,000.00 thousand yearly. Haley Hatfield seconded. The vote was unanimous. Motion carried.

No one was present from 911 to submit the road names of Beech Creek and Ben Creek.

Haley Hatfield made a motion to approve the appointment of Roy Dotson to fill the vacancy of the late Herb Savage after first being sworn in to the Mingo County Public Service District Board. John Hubbard seconded. The vote was unanimous. Motion carried.

Michael Sparks, Prosecuting Attorney and Donald Stevens, Private Investigator, appeared before the Commission to request assistance in purchasing child identification kits for the National Child Identification Program. Sparks stated that the Board of Education has agreed to donate $1,000.00 towards the cost of the kits. Sparks stated he has a goal of distributing these kits at the Kids Day Health Fair to be held on October 27 at the Williamson Field House and is asking that the County Commission co-sponsor this program. Sparks stated again to summarize, this is a kit that will be given to children's parents which includes an inkless fingerprint kit, DNA collection envelope and a laminate wallet card for a picture to be placed in along with written information in case the child is ever abducted or lost. This information is crucial for law enforcement to have within the first 24 hours after a child is missing. The cost of the kit is approximately $3.80 per kit. Sparks stated he would like to purchase 1,000 kits which would be close to $4,000.00. Sparks stated they also have a goal of going into each school this year, probably first or second grade, and issue these kits to those children. Sparks stated he would donate $250.00 from his office for the kit purchases. Sparks stated he would check into it further and see if he can use drug forfeiture money for this program and if so he would give $1,000.00 from that fund or more if possible.

Commissioner Smith made a Motion to pay $1,000.00 towards the purchase of child identification kits to be a co-sponsor with the Prosecuting Attorney and Board of Education. Commissioner Baisden seconded. The vote was unanimous. Motion carried.

Planning Commission: Master Plan

Appearing on behalf of the Planning Commission are Ray Scites, Vice-President, George Poole and Leasha Johnson.

Commissioner Hubbard commended the Planning Commission board members on the work that has been done thus far, stating it is exciting to see what this is going to mean to our County.

Scites stated the Planning Commission has put together a group of people that sat down as teams and came up with suggestions for improving the existing overall Master Plan for the County. From that team of groupings we had a public meeting and invited the County out to participate and we now have a Master Plan.

Johnson stated this Master Plan is actually an update to the existing Master Plan, but legislatively we have to conduct this in accordance with the State Code and since there was already a Plan in place then this will act as an update. Johnson stated the Plan being presented now is in final form and has taken into consideration the public comments received at the Public Meeting on September 24, 2007. When this is presented to the County Commission for your acceptance and once you accept as is the County Commission will be required to hold a public meeting and you must receive comments prior to adopting the updated Plan.

Commissioner Smith asked where the public could view this Plan for anyone wanting to do so?

Johnson stated a copy could be kept in the County Commission office as well as the Redevelopment Authority office for viewing.

Glen Rutledge asked who did the writing of the Master Plan?

Johnson stated that it came almost directly from the sub-committees that were formed from the Steering Committee and then they (E L Robison) took what we submitted and edited it somewhat.

Scites stated that there were a lot of committees and individuals involved.

Johnson stated it is a very comprehensive plan and it encompasses all that we have discussed in the Steering Committee, Planning Commission and Public Meeting.

Commissioner Hubbard asked if there were any further comments?

No further comments were made. BOOK 0164 PAGE 498

Commissioner Hubbard made a Motion to adopt the Master Plan as submitted to the County Commission and being reviewed by counsel. Commissioner Baisden seconded. The vote was unanimous. Motion carried.

Commissioner Hubbard asked what the correct time frame and procedure was for the County Commission to hold its public meeting?

Johnson stated that you have 90 days from today to hold the public meeting and it must be advertised at least 15 days prior to the meeting.

Duba's Towing: Inquire about Towing Procedures

William Sexton, Dubas Wrecker Service, appeared before the Commission in reference to the letter that was sent to all the fire chief's in Mingo County regarding towing services. Sexton stated WV Code 24-6-12, you must have a meeting with all wrecker services, all State, city and county police departments and the County Commission before this can be approved.

Commissioner Baisden stated this was probably his mistake because he thought the Sheriff had called a meeting with all the wrecker services and ambulances.

Sexton stated that meeting was held about 3 years ago.

Baisden said he thought a meeting had been held since Lonnie (Hannah) became Sheriff. Sexton said there was a meeting held but not everybody attended.

Baisden stated several complaints have been received about numerous wrecker services appearing on scenes and he and Bill Davis tried to devise a fair plan for everyone.

Sexton asked how this plan was fair when he gave him only a 2 mile radius because 500 feet above his place puts him out of city limits?

Baisden stated Duba's was given the Williamson area. Sexton stated to the Williamson Fire Dept? Baisden stated no, it was anywhere in the Williamson area and if Kenny Cox couldn't go on a run then you could take it. Baisden stated as it stands there are 2-3 wrecker services getting all of the business. Baisden stated when the tones go off sometimes the wrecker services take off and get there before the police. We just tried to divide it up and make it fair for all the areas.

Sexton asked what his radius is – how far can he go? Baisden stated he (Duba's) was given the Williamson area but anybody that calls him to come to them he can go. We were just asking for the fire departments to call 911 for the dispatching.

Sexton stated that a police officer cannot tell which wrecker service they want. Baisden stated they have been doing that and the fire departments radio who they want. That is why we put this out.

Commissioner Smith stated the tone issue has always been an issue, but my understanding of the legal issue and I am not in favor of tone-chasing because I think it is dangerous and just not right, but if I am understanding the law correctly that the PSC does not govern because there is not a franchise or territory and I don't think we can territorialize certain areas. I think that is what Dave (Baisden) was hoping to do is to have an agreement between everybody that if it happens in this territory you get it and so on. I think by law that we can but that puts you right at the issue we don't like, tone-chasing, but the way I understand it is the person involved in the accident has the choice of which wrecker service they want to use. Smith stated it was further his understanding that if there was not a preference by the involved party then MECCA/911 was called and the dispatchers were instructed to call the closest wrecker service based upon where the accident was. Commissioner Smith stated he thought that was the current policy and it would be nice if we could all get along and divide up the territory but it doesn't look like that can or will happen.

Glen Rutledge (counsel) asked Sexton what his problem with this policy was?

Sexton said that it his wrecker service is only providing service to the Williamson area and that is approximately 2-2.5 miles where others on the list have miles and miles of service area. Sexton stated city limits end 500-1000 feet above his place so if there is an accident above his place he can't go to it.

Baisden stated that was not correct and not how the letter was intended. Baisden stated Duba's service area would include anywhere up to the top of Buffalo Mountain (water tower) and then the rest of the area would be Goodwill. Sexton stated he would be fine with that as long he has the Williamson area.

Rutledge stated Sexton thought he was confined to a certain area. Baisden stated no that is not the way the letter was intended, you can go to any place you are called to. Baisden stated he was basically trying to keep from having 2-3 wreckers from showing up on a scene when not needed. Sexton stated they all do it and has been that way for years.

Commissioner Hubbard stated he has had personal experience with this issue where two wrecker services showed up at the accident scene and both argued over which one was going to get his truck.

Commissioner Smith stated that the Commission will ask the Emergency Services Director, Jarrod Fletcher and the 911 Director, Bill Davis, to conduct a meeting with a representative from each company in attendance and come to some type of agreement to avoid this situation by making known which areas each wrecker service would have with the boundary lines being known to and from.

Skip Ferris, Lenore Volunteer Fire Dept., stated he didn't agree with this because sometimes they would have to sit out in the weather and wait 4-5 hours for a wrecker service to come to them and then there are others that will come as soon as you call. Commissioner Smith stated he didn't care which wrecker service came he was just trying to get something fair and that everybody is agreeable to. Commissioner Smith stated he would not wait 4-5 hours on a wrecker and would not expect anyone to, they should call someone else.

Rutledge asked Mr. Ferris to make his complaint known to the Fletcher and he will consider that in the agreement they are going to try to arrange.

Commissioner Smith stated there can be back-ups, if the accident is in Duba's area and when he gets the call and don't get there within a certain time, then give the call to someone else. Commissioner Smith stated he appreciated what all the fire departments do but if there can be an attempt to work out territories between everybody then it needs to be done to avoid that type of situation.

Donnie (Goodwill) stated one thing there is a problem with is when the fire department itself calls for the wrecker service and it needs to go through MECCA like it should so that they are the ones dispatching the wrecker service. It shouldn't be up to the fire departments to chose which wrecker service is used. It should be the closest one to the scene and we (Goodwill & Duba's) do run over each other in our territories. Donnie stated he has been in business a long time and tries hard to get along with everybody and do right and have been before the Commission several times to talk about this. Sexton stated if there are two cars on the scene sometimes Donnie will take one and he takes one. Fletcher stated that is not the problem.

Commissioner Smith stated he felt there definitely needs to be a meeting with a representative from each service to sit down and discuss this further.

Jarrod Fletcher stated he would set that up.

Sexton stated that was fine with him.

Commissioner Hubbard asked that Fletcher report the results of that at the next meeting.

Town of Matewan: Annexation Update, Request financial assistance for Matewan Homecoming

Sheila Kessler could not attend and requested to be placed on the next agenda.

May presented the Commissioner with a Certificate of Appreciation for their past support. May stated that they wanted to upgrade the production and not stop at just one performance a year and with the help of the Commission were able to hold 3 performances. May thanked all of the officials that have supported Matewan and the Re-enactment by coming to the performances as well. May stated that also with the Commission's help they were able to be recognized by the State and hopefully will be able to stay in that State budget and continue to get that contribution from the State. May stated that Paul McCallister is back on board helping with grant writing to help get an amphitheater. May stated she was able to work with the Corp. of Engineers this summer and found the 1994 feasibility study that had been completed where they actually allowed for an amphitheater to be developed in Matewan. May stated she has asked Randall Smith, Commissioner of WV Culture & History, to be on their Planning Commission and he has agreed. May stated she feels by keeping this history in Matewan alive it will benefit our children and our County. May stated they are able to go into the schools and dress-up and teach local history not only for Matewan but for Mingo County. May stated that last year they were able to produce a brochure and feels like that helped bring in the over 650

people in each performance. May stated she is here today to ask again for the Commission's financial support in hopes that they will eventually be able to build the amphitheater and hope that it would eventually pay for itself and be able to maintain that on our own. May stated she is asking for $2,500.00 from the Commission to continue upgrading.

May stated the 2008 productions are scheduled for May 17, 2008. May stated that November 2, 2007 is an Appreciation Dinner being held for all the volunteers, etc. to thank you and everyone involved in the re-enactment.

Commissioner Hubbard made a Motion to approve a donation of $2,500.00 the Matewan Re-Enactment Group. Commissioner Baisden seconded. The vote was unanimous. Motion carried.

May stated she did have one more request and submitted a letter to the Commissioners. May stated in June 2007 the Commissioners did a letter to the Secretary of Interior in support of Matewan becoming recognized as National Historic Park. May stated they are now in the process of asking the Congressional delegation to move into the realm of asking for funding for this park service study to be done for Matewan. May stated there is specific wording that needs to be included and asked that the Commission send a letter with the same wording she has submitted to Governor Manchin, Congressman Rahall, Senator Byrd, and Senator Rockefeller.

Commissioner Smith made a Motion to send a letter of support for the Town of Matewan becoming a National Historic Park to the Congressional Delegation and the Governor's office asking that funds be allocated for the same. Commissioner Baisden seconded. The vote was unanimous. Motion carried.

Shafer stated they have raised funds by having the Rubber Duck Race, Spring Auction, candle selling, etc. and they are here today to ask for a donation from the County Commission in the amount of $3,000.00.

Commissioner Smith made a Motion to approve a donation in the amount of $2,500.00 to the Tug Valley American Red Cross. Commissioner Baisden seconded. The vote was unanimous. Motion carried.

Isom Ooten appeared before the Commission and raised his right hand and repeated the Oath of Office for the Mingo County Public Service District.

Commissioner Hubbard informed Ooten that training is required and once that is arranged he will be notified.

Coalfield Visitor's Bureau: Request increase in hotel/motel tax from 3% to 6%

Cleeta Mullins, Coal Visitor's Bureau, appeared before the Commission to request the Commission to increase the current hotel/motel tax from 3% to 6%. Mullins stated for 2002 the Commission passed a mandate for the hotel/motel tax and she asked that the Commission amend that Order to reflect the rate as 6%. Mullins stated the only hotel she is aware of in Mingo County in operation is under a new owner now, which it used to be the Justonian and is now the Stonecreek Lodge, and he has agreed to collect the tax.

Mullins stated that the municipalities collect their own taxes. Mullins stated she was told there is one at Kermit but she has been unable to contact anyone concerning that.

Commissioner Baisden asked if this tax was also to be collected on cabins and lodges?

Mullins stated yes that is something that Mingo County does need to look into and she stated she has a listing of all the lodges and cabins in Mingo County and there needs to be an Order put out from the Commission and start collecting these taxes.

Baisden asked if this was for non-residents only? Mullins stated it used to be for non-residents but it is now for everyone – anyone who rents a room/cabin would pay this tax. Mullins stated that it used to also be that you had to have 6 rooms before you could collect the tax but not anymore, now even it is one room you can collect the tax. Mullins stated this does not cost the owners anything, the consumer is the one paying the tax.

Commissioner Smith asked what the procedure was for the one located within the city limits? Mullins stated the City Council collects that tax money and the send it to the City and it is divided 50% between the City and the CVB.

(Public) What is Logan's tax?

Mullins stated is 6% everywhere in WV. Mullins stated she came to Mingo County last because there was only one hotel and the new owner is now collecting that tax.

Mullins stated that she would also like to talk to the Commission about the Hatfield-McCoy tour that Bill Richardson does. Mullins stated that the CVB done that last year and brought in 11 different groups. Mullins stated she paid for all of it, they were put up in the Chief Logan Lodge and at the Sycamore Inn. Mullins stated the way she got those groups here was by going to Travel South last year at Myrtle Beach, this year it is going to be in Biloxi, Mississippi. This year because of the cut in my funding that I am getting this year I won't have the money to pay for that myself again. Bill Richardson typed this up and asked me to give this to you and he is asking that you pay for me and him to attend Travel

South and the cost would be approximately $3,000.00. Like I said I paid for it last year and it did bring in 3 buses of tours and they stayed at the Sycamore Inn and at Chief Logan State Park. The only thing if we do it this year we will ask that we only bring them to Sycamore Inn and not to Logan County keeping them in Mingo County. We would be telling them about the Hatfield-McCoy tour and inviting them to bring their buses here.

Baisden asked what the length of the stay would be?

Mullins stated 3 days. The cost includes $1,300 for Travel South, and then the rooms, meals and travel expense. Mullins stated CVB would probably pay mileage but would not pay for the Travel South because it did not benefit Logan County only Mingo County.

Commissioner Smith asked what did Logan County pay for last year? Mullins stated they paid for the whole thing. Commissioner Smith asked what the amount was last year? Mullins stated it was $1350.00 for Travel South, the rooms were $100 per night x 4 nights, and the gas.

(Public – Marvin Vernatter) Has this CVB ever been audited by the State? Mullins stated yes, in fact she brought the audit to the County Commission the last time she was here a couple of months ago. Mullins stated they paid for an audit to be done and are 100% okay. Mullins stated she thinks the Commissioners were very proud she done that because you don't ever want to leave a loose end that someone can pick at.

Commissioner Hubbard asked when Travel South will be?

Mullins stated it wasn't until March 2008.

Commissioner Smith asked what the $1,300.00 was for? Mullins stated that was for the registration. Commissioner Smith asked if that covered both of them? Mullins stated she thought it covered just her and there is a certain percentage charged for an additional person. Mullins stated you are working a table in a huge conference center and you present a scrapbook of your area to show the bus operators and they take this information and then if get interested will call you and book a tour. Mullins stated this usually starts about 2 weeks after the conference. If you book one tour you get your $3,000 back because you have 50 people coming here and staying in a hotel room.

Mullins stated she would like to see Mingo County build a conference center. Mingo County has a lot to offer now. I really need to go to this conference so that I can improve my connections and ways to present Mingo County.

Commissioner Hubbard stated the matter regarding funding for the Travel South conference would be tabled.

Commissioner Hubbard tabled the matter regarding the hotel/motel tax.

As we discussed the former Emergency Services Director received a salary of $25,000.00 and that was $12,500 from the County and $12,500 from the matching State grant and I feel it is only fair that we increase Mr. Fletcher's salary to reflect the same.

Rutledge stated that he has spoken with Mr. Duty and explained all of this to him and he asked that the Commission write a letter to them asking what their intentions are because of receiving several complaints.

Commissioner Smith asked if that should be addressed in a Special Session?

Lockard stated she is trying to schedule a Special Session on November 7, 2007 before the Regular Session on a renewal of the franchise for Colane Cable and that will be in the form of a public hearing though so it will have to be different from a public hearing. Thompson reported she has looked at some trailers and the one that most fits the needs and least amount of renovations needed is a 2003 model for $8,000.00 and would like to know if the Commission could help with the purchase of that. Thompson reported that SOS would pay for moving the mobile home if the Commission would purchase.

Thompson stated that as soon as the public sees anything on that property whether it is a trailer or a camper they are going to start dumping animals.

Commissioner Smith suggested contacting Rich at the Home Show in Belfry, KY and asked if there is anything he can do to help because he may be able to do something through the corporate office.

Hall stated he just asked for a copy of the delinquent land up for sale and all he got was a bad attitude. Hall said he would like to know why he could not get a copy of this information?

2. To refinance the unpaid balance, in whole or in part, of its bonds upon the request of the Government if at any time it shall appear to the Government that the Association is able to refinance its bonds by obtaining a loan for such purposes from responsible cooperative or private sources at reasonable rates and terms for loans for similar purposes and periods of time as required by section 333(c) of said Consolidated Farm and Rural Development Act (7 U.S.C. 1983(c)).

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution is adopted pursuant to the provisions of Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and other applicable provisions of law. Mingo County Public Service District (the "Issuer") is a public corporation, public service district and political subdivision of the State of West Virginia in Mingo County of said State, duly created pursuant to the Act by The County Commission of Mingo County.

Section 1.02. Findings and Determinations. It is hereby found, determined and declared as follows:

A. The Issuer currently owns and operates a public waterworks system and desires to finance and acquire, construct, operate and maintain certain additional public service properties consisting of additions, improvements and extensions to such existing waterworks facilities with all appurtenant facilities, within the boundaries of the Issuer to be owned and operated by the Issuer.

B. It is deemed essential, convenient and desirable for the health, welfare, safety, advantage and convenience of the inhabitants of the Issuer, and, accordingly, it is hereby ordered, that prior construction to the System be permanently financed, and that there be constructed and designed certain additions, improvements and extensions to the existing waterworks facilities of the Issuer, consisting of a waterline extension to serve in the unincorporated communities of Dingess, Trace, Parsley and Kirk in Mingo County, together with all necessary appurtenant facilities (the "Project"), particularly described in and according to the plans and specifications prepared by the Consulting Engineer and heretofore filed in the office of the Secretary of the Public Service Board (the "Governing Body") of the Issuer. The existing waterworks facilities of the Issuer, together with the Project and any further additions, improvements or extensions thereto, are herein called the "System." The Project and the financing hereby authorized and provided for are public purposes of the Issuer and are ordered for the purpose of meeting and serving public convenience and necessity.

C. The estimated revenues to be derived in each year from the operation of the System after completion of the Project will be sufficient to pay all costs of operation and maintenance of the System, the principal of and interest on the Bonds (hereinafter defined) and all funds and accounts and other payments provided for herein.

D. The estimated maximum cost of the Project is $12,058,944.54 of which $1,450,000 will be obtained from the proceeds of sale of the Series 2010 A Bonds, herein authorized.

E. The Issuer intends to permanently finance a portion of the costs of the Project through the issuance of its Water Revenue Bonds, Series 2010 A (United States Department of Agriculture), in the aggregate principal amount of $1,450,000 (the "Series 2010 A Bonds"), to permanently finance a portion of the cost of such construction in the manner herein provided, and pay the costs of issuances thereof. The cost of such acquisition and construction shall be deemed to include, without being limited to, the acquisition and construction of the Project; the cost of all property rights, easements and franchises deemed necessary or convenient therefor and for the improvements and extensions thereto; interest on the Series 2010 A Bonds; engineering, fiscal agents and legal expenses; expenses for estimates of costs and revenues; expenses for plans, specifications and surveys; and other expenses necessary or incident to determining the feasibility or practicability of the Project, administrative expense, and such other expenses as may be necessary or incident to the financing herein authorized; provided that, reimbursement to the Issuer for any amounts expended by it for the repayment of indebtedness incurred for costs of the Project by the Issuer shall be deemed costs of the Project.

F. The period of usefulness of the System after completion of the Project is not less than 40 years.

G. There are outstanding obligations of the Issuer which will rank on a parity with the Series 2010 A Bonds as to liens, pledge and source of and security for payment being the Issuer's: (i) Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,200,000 (the "Series 2000 A Bonds"); (ii) Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), dated August 28, 2000, issued in the original aggregate principal amount of $2,000,000 (the "Series 2000 B Bonds"); (iii) Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), dated August 28, 2000,

Other than the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer which rank prior to or on a parity with the Series 2010 A Bonds as to liens, pledge and/or source of and security for payment.

The Issuer is not in default under the terms of the Prior Bonds, or the resolutions authorizing issuance of the Prior Bonds or any document in connection therewith, and has complied with all requirements of all the foregoing with respect to the issuance of parity bonds or has obtained a sufficient and valid consent or waiver thereof.

Section 3.02. Description of Bonds. The Series 2010 A Bonds shall be issued in single form, numbered AR-1, only as a fully registered Bond, and shall be dated the date of delivery thereof. The Series 2010 A Bonds shall bear interest from the date of delivery, payable monthly at the rate of 2.375% per annum, and shall be sold for the par value thereof. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commending 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $4,843, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond.

The Series 2010 A Bonds shall be subject to prepayment of scheduled monthly installments, or any portion thereof, at the option of the Issuer, and shall be payable as provided in the respective Bond forms hereinafter set forth.

Section 3.03. Negotiability, Registration, Transfer and Exchange of Bonds. The Series 2010 A Bonds shall be and have all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but the Series 2010 A Bonds, and the right to principal of and stated interest on the Series 2010 A Bonds, may only be transferred by transfer of the registration thereof upon the books required to be kept pursuant to Section 3.04 hereof, by the party in whose name it is registered, in person or by attorney duly authorized in writing, upon surrender of the Series 2010 A Bonds for cancellation, accompanied by delivery of a written instrument of transfer, duly executed in a form acceptable to the Bond Registrar.

Whenever the Series 2010 A Bonds shall be surrendered for registration of transfer, the Issuer shall execute and deliver a new Bond or Bonds in authorized denominations, for a like aggregate principal amount. The Bond Registrar shall require the payment by the new owner requesting such transfer of any tax or other governmental charge required to be paid with respect to such transfer, but the Issuer shall pay any other expenses incurred by the Bond Registrar with respect to such transfer.

No registration of transfer of the Series 2010 A Bonds shall be permitted to be made after the 15th day next preceding any installment payment date on the Series 2010 A Bonds.

The Bond Registrar shall accept the Series 2010 A Bonds for registration or transfer only if ownership thereof is to be registered in the name of the Purchaser, an individual (including joint ownership), a corporation, a partnership or a trust, and only upon receipt of the social security number of each individual, the federal employer identification number of each corporation or partnership or the social security numbers of the settlor and beneficiaries of each trust and the federal employer identification number and date of each trust and the name of the trustee of each trust and/or such other identifying number and information as may be required by law. The Series 2010 A Bonds shall initially be fully registered as to both principal and interest in the name of the United States of America. So long as the Series 2010 A Bonds shall be registered in the name of the United States of America, the address of the United States of America for registration purposes shall be National Finance Office, St. Louis, Missouri 63103, or such other address as shall be stated in writing to the Issuer by the United States of America.

The Series 2010 A Bonds may be signed and sealed on behalf of the Issuer by such person as at the actual time of the execution of such Bonds shall hold the proper office in the Issuer, although at the date of such Bonds such person may not have held such office or may not have been so authorized.

Section 3.06. Bonds Mutilated, Destroyed, Stolen or Lost. In case the Series 2010 A Bonds shall become mutilated or be destroyed, stolen or lost, the Issuer may in its discretion issue and deliver a new Bond of like tenor as the Bonds so mutilated, destroyed, stolen or lost, in exchange and substitution for such mutilated Bonds or in lieu of and substitution for the Bonds destroyed, stolen or lost, and upon the holder's furnishing the Issuer proof of his ownership thereof and complying with such other reasonable regulations and conditions as the Issuer may require. The Series 2010 A Bonds so surrendered shall be canceled and held for the account of the Issuer. If the Series 2010 A Bonds shall have matured or be about to mature, instead of issuing a substitute Bond the Issuer may pay the same, and, if such Bond be destroyed, stolen or lost, without surrender thereof.

Section 3.07. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Series 2010 A Bonds shall be secured forthwith by a first lien on the Net Revenues derived from the System, on a parity with the Prior Bonds. The Net Revenues derived from the System in an amount sufficient to pay the principal of and interest on the Series 2010 A Bonds and the Prior Bonds, and to make the payments as hereinafter provided, are hereby irrevocably pledged to the payment of the principal of and interest on the Series 2010 A Bonds and the Prior Bonds as the same become due.

Subject to the provisions hereof, the text of the Series 2010 A Bonds and the other details thereof shall be of substantially the following tenor, with such omissions, insertions and variations as may be authorized or permitted hereby or by any resolution adopted after the date of adoption hereof and prior to the issuance thereof:

The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $_____, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond, in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, extensions and improvements to the waterworks system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Resolutions and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code, as amended (the "Act"), and a Resolution of the Borrower duly adopted January 8, 2010, authorizing issuance of this Bond (the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farm and Rural Development Act of 1965, as amended. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

Section 4.02. Bond Proceeds; Project Construction Account. The proceeds of the sale of the Series 2010 A Bonds shall be deposited upon receipt by the Issuer in the Series 2010 A Bonds Project Construction Account. The monies in the Series 2010 A Bonds Project Construction Account in excess of the amount insured by FDIC shall be secured at all times by the Depository Bank by securities or in a manner lawful for the securing of deposits of State and municipal funds under West Virginia law. Monies in the Series 2010 A Bonds Project Construction Account shall be expended by the Issuer solely for the purposes provided herein.

Monies in the Series 2010 A Bonds Project Construction Account shall be used solely to pay the cost of acquisition and construction of the Project upon vouchers and other documentation approved by the Purchaser.

Until completion of acquisition and construction of the Project, the Issuer will additionally transfer from the Series 2010 A Bonds Project Construction Account and pay to the Purchaser on or before the due date, such sums as shall be from time to time required to make the monthly installments on the Series 2010 A Bonds if there are not sufficient Net Revenues to make such monthly payment.

Pending application as provided in this Section 4.02, money and funds in the Series 2010 A Bonds Project Construction Account shall be invested and reinvested at the direction of the Issuer, to the extent possible in accordance with applicable law, in Qualified Investments.

When acquisition and construction of the Project has been completed and all costs thereof have been paid or provision for such payment has been made, any balance remaining in the Series 2010 A Bonds Project Construction Account shall be disposed of in accordance with the regulations of the Purchaser.

Section 4.03. Covenants of the Issuer as to System Revenues and Funds. So long as any of the Series 2010 A Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Series 2010 A Bonds Reserve Account, a sum sufficient to pay, when due or at the earliest practical prepayment date, the entire principal of the Series 2010 A Bonds remaining unpaid, together with interest accrued and to accrue thereon, the Issuer further covenants with the Holders of the Series 2010 A Bonds as follows:

A. REVENUE FUND. The entire Gross Revenues derived from the operation of the System, and all parts thereof, and all Tap Fees received, shall be deposited as collected by the Issuer in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in the Resolutions and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner provided in the Resolutions.

B. DISPOSITION OF REVENUES. All Revenues at any time on deposit in the Revenue Fund shall be disposed of only in the following order and priority, subject to the provisions of the Prior Resolutions not otherwise modified herein:

(1) The Issuer shall first, each month, pay from the Revenue Fund the Operating Expenses of the System.

(2) The Issuer shall next, each month, on or before the due date thereof, transfer from the Revenue Fund and simultaneously remit (i) to the National Finance Office the amount required by the Prior Resolutions to pay the interest on the RUS Bonds; (ii) to the Commission the amount required by Prior Resolutions to pay interest of the Series 2000 C Bonds and Series 2000 D Bonds; and (iii) to the National Finance Office the amount required to pay interest on the Series 2010 A Bonds.

(3) The Issuer shall next, each month, transfer from the Revenue Fund and simultaneously, on or before the due date thereof, remit (i) to the National Finance Office the amount required by the Prior Resolutions to pay the principal of the RUS Bonds; (ii) to the Commission the amount required by Prior Resolutions to pay the principal of the Series 2000 C Bonds, Series 2000 D Bonds, Series 2000 E Bonds and Series 2001 A Bonds; and (iii) remit to the National Finance Office, commencing 24 months following the date of delivery of the Series 2010 A Bonds, the amount required to amortize the principal of the Series 2010 A Bonds.

(4) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously (i) remit to the Commission the amounts required by the Prior Resolutions to be deposited in the respective Reserve Accounts for the Prior Bonds; and (ii) beginning on the date specified by the purchaser, but in any event not later than the 24th monthly anniversary of the Closing Date, and continuing on each monthly anniversary of the Closing Date thereafter, transfer from the Revenue Fund and remit to the Commission, for deposit in the Series 2010 A Bonds Reserve Account, an amount equal to 10% of the monthly payment amount, until the amount in the Series 2010 A Bonds Reserve Account equals the Series 2010 A Bonds Reserve Requirement; provided that, no further payments shall be made into the Series 2010 A Bonds

Reserve Account when there shall have been deposited therein, and as long as there shall remain on deposit therein, an amount equal to the Series 2010 A Bonds Reserve Requirement.

(5) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and remit to the Depository Bank for deposit in the Renewal and Replacement Fund, an amount equal to 2 1/2% of the Gross Revenues each month, exclusive of any payments for account of any Reserve Account. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, repairs, improvements or extensions to the System; provided that, any deficiencies in any Reserve Accounts (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with monies from the Renewal and Replacement Fund.

Whenever the money in the Series 2010 A Bonds Reserve Account shall be sufficient to prepay the Series 2010 A Bonds in full, it shall be the mandatory duty of the Issuer, anything to the contrary herein notwithstanding, to prepay the Series 2010 A Bonds at the earliest practical date and in accordance with applicable provisions hereof.

The Commission is hereby designated as the Fiscal Agent for the administration of the Series 2010 A Bonds Reserve Account. All amounts required for the Series 2010 A Bonds Reserve Account will be deposited therein by the Issuer upon transfers of funds from the Revenue Fund at the times provided herein, together with written advice stating the amount remitted for deposit into each such fund.

The Revenue Fund shall constitute a Trust Fund and shall be used only for the purposes and in the order provided herein, and until so used, the Purchaser shall have a lien thereon for further securing payment of the Series 2010 A Bonds and the interest thereon, on a parity with the Prior Bonds.

The Series 2010 A Bonds Reserve Account shall constitute a trust fund and shall be used only for the purposes and in the order provided herein, and until so used, the Purchaser shall have a lien thereon for further securing payment of the Series 2010 A Bonds and the interest thereon.

If on any payment date the Revenues are insufficient to make the payments and transfers as hereinabove provided, the deficiency shall be made up in the subsequent payments and transfers in addition to those which would otherwise be required to be made on the subsequent payment dates.

Principal, interest or reserve payments, whether made for a deficiency or otherwise, shall be made on a parity and pro rata, with respect to the Series 2010 A Bonds and the Prior Bonds, in accordance with the respective principal amounts then Outstanding.

Subject to the Prior Resolutions, the Commission shall keep the monies in the Series 2010 A Bonds Reserve Account invested and reinvested to the fullest extent possible in accordance with applicable law, and to the extent practicable, in Qualified Investments having maturities consonant with the required use thereof. Investments in any fund or account under this Bond Legislation shall, unless otherwise provided herein or required by law, be valued at the lower of cost or the then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held by the "consolidated fund" managed by the West Virginia Board of Treasury Investments. Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. Earnings from monies in the Series 2010 A Bonds Reserve Account, so long as the Minimum Reserve is on deposit and maintained therein, shall be paid annually by the Commission to the Issuer and deposited in the Revenue Fund.

C. CHANGE OF DEPOSITORY BANK. The Issuer may designate another bank or trust company insured by FDIC as Depository Bank if the Depository Bank should cease for any reason to serve or if the Governing Body determines by resolution that the Depository Bank or its successor should no longer serve as Depository Bank. Upon any such change, the Governing Body will cause notice of the change to be sent by registered or certified mail to the Purchaser.

D. USER CONTRACTS. The Issuer shall, prior to delivery of the Series 2010 A Bonds, provide evidence that there will be at least 570 bona fide users upon the System on completion, in full compliance with the requirements and conditions of the Purchaser.

E. CHARGES AND FEES. The Issuer shall remit from the Revenue Fund to the Depository Bank and the Commission such additional sums as shall be necessary to pay the charges and fees of the Depository Bank or the Commission then due.

F. INVESTMENT OF EXCESS BALANCES. The monies in excess of the sum insured by FDIC in any of such funds or accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State of West Virginia.

G. REMITTANCES. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be

deposited.

H. GROSS REVENUES. The Gross Revenues of the System shall only be used for purposes of the System.

ARTICLE V

GENERAL COVENANTS, ETC.

Section 5.01. General Statement. So long as the Series 2010 A Bonds shall be outstanding and unpaid, or until there shall have been set apart in the Series 2010 A Bonds Reserve Account, sums sufficient to prepay the entire principal of the Series 2010 A Bonds remaining unpaid, together with interest accrued and to accrue thereon to the date of prepayment, the covenants and agreements contained herein shall be and constitute valid and legally binding covenants between the Issuer and the Holder of the Series 2010 A Bonds.

Section 5.02. Rates. So long as the Prior Bonds are outstanding, the Issuer will maintain rates as required in the Prior Resolutions. The Issuer will, in the manner provided in the Act, fix and collect such rates, fees or other charges for the services and facilities of the System, and revise the same from time to time whenever necessary, as will always provide Revenues in each Fiscal Year sufficient to produce Net Revenues equal to not less than 110% of the annual debt service on the Series 2010 A Bonds and the Prior Bonds and sufficient to make the payments required herein into all funds and accounts and all the necessary expenses of operating and maintaining the System during such Fiscal Year and such rates, fees and other charges shall not be reduced so as to be insufficient to provide adequate Revenues for such purposes.

Section 5.03. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of the System or any part thereof, except as provided in the Prior Resolutions. The System will not be sold without the prior written consent of the Purchaser so long as the Series 2010 A Bonds are outstanding. Such consent will provide for disposition of the proceeds of any such sale.

Section 5.04. Issuance of Additional Parity Bonds or Obligations. No additional Parity Bonds or obligations payable out of any of the Revenues of the System shall be issued, except with the prior written consent of the Purchaser. No Parity Bonds shall be issued after issuance of the Series 2010 A Bonds unless the provisions contained in the Prior Resolution respecting issuance of Parity Bonds have been satisfied.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2010 A Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the acquisition or construction of additions, extensions, improvements or betterments to the System or refunding any outstanding Bonds, or both such purposes.

So long as the Series 2010 A Bonds and the RUS Bonds are Outstanding, no Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues for the Fiscal Year following the year in which such Parity Bonds are to be issued shall be at least 120% of the average annual debt service requirements on the following:

(1) The Bonds Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The foregoing limitation may be waived or modified by the written consent of the Holders of the RUS Bonds, representing 75% of the then-outstanding principal indebtedness. In the event the foregoing limitation is waived or when the Series 2010 A Bonds and the RUS Bonds are no longer outstanding, the following parity requirement shall be met:

So long as the Series 2000 C Bonds, Series 2000 D Bonds, Series 2000 E Bonds and Series 2001 A Bonds are outstanding, no Parity Bonds shall be issued at any time, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from the improvements to be financed by such Parity Bonds and any increase in rates adopted by the Issuer, the time for appeal of which shall have expired prior to the issuance of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period herein above referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. All Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Series 2010 A Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2010 A Bonds.

No Parity Bonds shall be issued at any time, however, unless all of the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 5.05. Insurance and Bonds. The Issuer hereby covenants and agrees that it will, as an expense of construction, operation and maintenance of the System, procure, carry and maintain, so long as the Series 2010 A Bonds remain outstanding, insurance with a reputable insurance carrier or carriers covering the following risks and in the following amounts:

(a) FIRE, LIGHTNING, VANDALISM, MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, to be procured upon acceptance of any part of the Project from the contractor, and immediately upon any portion of the System now in use, on all above-ground structures of the System and mechanical and electrical equipment in place or stored on the site in an amount equal to the full insurable value thereof. In the event of any damage to or destruction of any portion of the System, the Issuer will promptly arrange for the application of the insurance proceeds for the repair or reconstruction of such damaged or destroyed portion. The Issuer will itself, or will require each contractor and subcontractor to, obtain and maintain builder's risk

insurance to protect the interests of the Issuer during construction of the Project in the full insurable value thereof.

(b) PUBLIC LIABILITY INSURANCE, with limits of not less than $500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than $200,000 to protect the Issuer from claims for damage to property of others which may arise from the operation of the System, such insurance to be procured not later than the date of delivery of the Series 2010 A Bonds.

(c) VEHICULAR PUBLIC LIABILITY INSURANCE, in the event the Issuer owns or operates any vehicle in the operation of the System, or in the event that any vehicle not owned by the Issuer is operated at any time or times for the benefit of the Issuer, with limits of not less than $500,000 for one or more persons injured or killed in one accident to protect the Issuer from claims for bodily injury and/or death, and not less than $200,000 to protect the Issuer from claims for damage to property of others which may arise from such operation of vehicles, such insurance to be procured prior to acquisition or commencement of operation of any such vehicle for the Issuer.

(d) WORKERS' COMPENSATION COVERAGE FOR ALL EMPLOYEES OF THE DISTRICT ELIGIBLE THEREFOR AND PERFORMANCE AND PAYMENT BONDS, such bonds to be in the amounts of 100% of the construction contract, will be required of each prime contractor, and such payment bonds have been or will be filed with the Clerk of the County Commission of said County prior to commencement of construction of the Project in compliance with West Virginia Code Section 38-2-39. Workers' compensation coverage shall be maintained as required by the laws of the State of West Virginia.

(e) FLOOD INSURANCE to be procured, to the extent available at reasonable cost to the Issuer; however, if the System is located in a community which has been notified as having special flood or mudslide prone areas, flood insurance must be obtained.

(f) FIDELITY BONDS will be provided as to every member of the Governing Body and as to every officer and employee thereof having custody of the Revenue Fund or of any revenues or other funds of the Issuer in such amount as may be requested by the Purchaser from time to time.

(g) Provided, however, and in lieu of and notwithstanding the foregoing provisions of this Section, during construction of the Project

and so long as the Series 2010 A Bonds are outstanding, the Issuer will carry insurance and bonds or cause insurance and bonds to be carried for the protection of the Issuer, and during such construction will require each contractor and subcontractor to carry insurance, of such types and in such amounts as the Purchaser may specify, with insurance carriers or bonding companies acceptable to the Purchaser.

Section 5.06. Statutory Mortgage Lien. For the further protection of the Holder of the Series 2010 A Bonds, a statutory mortgage lien upon the System is granted and created by the Act, on a parity with the Prior Bonds, which statutory mortgage lien is hereby recognized and declared to be valid and binding and shall take effect immediately upon the delivery of the Series 2010 A Bonds.

Section 5.07. Events of Default. Each of the following events is hereby declared an "Event of Default":

(a) Failure to make payment of any monthly amortization installment upon the Series 2010 A Bonds at the date specified for payment thereof;

(b) Failure to duly and punctually observe or perform any of the covenants, conditions and agreements on the part of the Issuer contained in the Series 2010 A Bonds or herein, or violation of or failure to observe any provision of any pertinent law; and

(c) If a default occurs with respect to the Prior Bonds or the Prior Resolutions.

Section 5.08. Enforcement. Upon the happening of any Event of Default specified above, then, and in every such case, the Purchaser may proceed to protect and enforce its rights by an appropriate action in any court of competent jurisdiction, either for the specific performance of any covenant or agreement, or execution of any power, or for the enforcement of any proper legal or equitable remedy as shall be deemed most effectual to protect and enforce such rights.

Upon application by the Purchaser, such court may, upon proof of such default, appoint a receiver for the affairs of the Issuer and the System. The receiver so appointed shall administer the System on behalf of the Issuer, shall exercise all the rights and powers of the Issuer with respect to the System, shall proceed under the direction of the court to obtain authorization to increase rates and charges of the System, and shall have the power to collect and receive all revenues and apply the same in such manner as the court may direct; provided that, all rights and remedies of the Holders of the Prior Bonds shall be on a parity with the Series 2010 A Bonds.

Section 5.09. Fiscal Year; Budget. While the Series 2010 A Bonds are outstanding and unpaid and to the extent not now prohibited by law, the System shall be operated and maintained on a Fiscal Year basis commencing on July 1 of each year and ending on the following June 30, which period shall also constitute the budget year for the operation and maintenance of the System. Not later than 30 days prior to the beginning of each Fiscal Year, the Issuer agrees to adopt the Annual Budget for the ensuing year, and no expenditures for operation and maintenance expenses of the System in excess of the Annual Budget shall be made during such Fiscal Year unless unanimously authorized and directed by the Governing Body. Copies of each Annual Budget shall be delivered to the Purchaser by the beginning of each Fiscal Year.

If for any reason the Issuer shall not have adopted the Annual Budget before the 1st day of any Fiscal Year, it shall adopt a Budget of Current Expenses from month to month until the adoption of the Annual Budget; provided, however, that no such monthly budget shall exceed the budget for the corresponding month in the next year preceding by more than 10%; and provided further, that adoption of a Budget of Current Expenses shall not constitute compliance with the covenant to adopt an Annual Budget unless failure to adopt an Annual Budget be for a reason beyond the control of the Issuer. Each such Budget of Current Expenses shall be mailed immediately to the Purchaser.

Section 5.10. Compensation of Members of Governing Body. The Issuer hereby covenants and agrees that no compensation for policy direction shall be paid to the members of the Governing Body in excess of the amount permitted by the Act. Payment of any compensation to any such member for policy direction shall not be made if such payment would cause the Net Revenues to fall below the amount required to meet all payments provided for herein, nor when there is default in the performance of or compliance with any covenant or provision hereof.

Section 5.11. Covenant to Proceed and Complete. The Issuer hereby covenants to proceed as promptly as possible with the acquisition and construction of the Project to completion thereof in accordance with the plans and specifications prepared by the Consulting Engineer on file with the Secretary on the date of adoption hereof, subject to permitted changes.

Section 5.12. Books and Records; Audits. The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and the Purchaser shall have the right at all reasonable times to inspect the System and all records, accounts and data of the Issuer relating thereto.

The Issuer shall, at least once a year, cause said books, records and accounts of the System to be properly audited by an independent competent firm of certified public accountants and shall mail a copy of such audit report to the Purchaser. The Issuer shall further comply with the Act with respect to such books, records and accounts.

Section 5.13. Maintenance of System. The Issuer covenants that it will continuously operate, in an economical and efficient manner, and maintain the System as a revenue-producing utility as herein provided so long as the Series 2010 A Bonds are outstanding.

Section 5.14. No Competition. To the extent legally allowable, the Issuer will not permit competition with the System within its boundaries or within the territory served by it and will not grant or cause, consent to or allow the granting of any franchise, permit or other authorization for any person, firm, corporation, public or private body, agency or instrumentality whatsoever to provide any of the services supplied by the System within the boundaries of the Issuer or within the territory served by the System.

ARTICLE VI

RATES, ETC.

Section 6.01. Initial Schedule of Rates and Charges; Rules.

A. The initial schedule of rates and charges for the services and facilities of the System, subject to change consonant with the provisions hereof, shall be as set forth in the Recommended Decision entered on June 12, 2009 which became Final Order of the Public Service Commission of West Virginia on July 2, 2009, in Case No. 09-0092-PWD-CN and are incorporated herein by reference as a part hereof.

B. There shall not be any discrimination or differential in rates between customers in similar circumstances.

C. All delinquent fees, rates and charges for services or facilities of the System shall be liens on the premises served of equal degree, rank and priority with the lien on such premises of state, county, school and municipal taxes, as provided in the Act. The Issuer shall have all remedies and powers provided under the Act and other applicable provisions of law with regard to the collection and enforcement of such fees, rates and charges.

D. The Issuer will not render or cause to be rendered any free services of any nature by the System nor any of the facilities; and in the event that the Issuer or any department, agency, officer or employee thereof should avail itself or themselves of the services or facilities of the System, the same fees, rates and charges applicable to other customers receiving like services under similar circumstances shall be charged, such charges shall be paid as they accrue, and revenues so received shall be deposited and accounted for in the same manner as other Revenues of the System.

E. The Issuer may require any applicant for any service by the System to deposit a reasonable and equitable amount to insure payment of all charges for the services rendered by the System, which deposit shall be handled and disposed of under the applicable rules and regulations of the Public Service Commission of West Virginia.

F. The Issuer, to the extent permitted by law, will not accept payment of any water bill from a customer served with water and sewer services by the Issuer without payment at the same time of a sewer bill owed by such customer for the same premises.

ARTICLE VII

Section 7.05. Conflicting Provisions Repealed. The Prior Resolutions and all parts thereof not expressly hereby changed shall continue in full force and effect and this Bond Legislation shall be supplemental to the Prior Resolutions.

WATER REVENUE BONDS, SERIES 2010 A
(UNITED STATES DEPARTMENT OF AGRICULTURE)

$1,450,000

No. AR-1

Date: January 12, 2010

FOR VALUE RECEIVED, MINGO COUNTY PUBLIC SERVICE DISTRICT (herein called "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of ONE MILLION FOUR HUNDRED FIFTY THOUSAND DOLLARS ($1,450,000), plus interest on the unpaid principal balance at the rate of 2.375% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $4,843, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond, in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly

or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, extensions and improvements to the waterworks system (the "System") of the Borrower, is payable solely from the revenues to be derived from the operation of the System after there have been first paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of the Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of the Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the herein defined Resolutions and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code, as amended (the "Act"), and a Resolution of the Borrower duly adopted January 8, 2010, authorizing issuance of this Bond (the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farm and Rural Development Act of 1965, as amended. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF MINGO COUNTY PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Bond Legislation") is adopted pursuant to the provisions of Chapter 16, Article 13A and Chapter 31, Article 15A of the West Virginia Code of 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Mingo County Public Service District (the "Issuer") is a public service district and a public corporation and political subdivision of the State of West Virginia in Mingo County of said State.

B. The Issuer presently owns and operates a public waterworks system. However, it is deemed necessary and desirable for the health and welfare of the inhabitants of the Issuer that there be acquired certain additions, betterments, improvements and extensions to the existing public waterworks facilities of the Issuer, consisting of a water line extension along U.S. Route 52 in Mingo County, which would initially serve 880 new customers; together with all appurtenant facilities (collectively, the "Project") (the existing public waterworks facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System"), which have been constructed in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have heretofore been filed with the Issuer.

C. The Issuer intends to permanently finance the costs of acquisition of the Project through the issuance of its revenue bonds to the West Virginia Water Development Authority (the "Authority"), which administers the West Virginia Infrastructure Fund pursuant to the Act.

D. It is deemed necessary for the Issuer to issue its Water Revenue Bonds, Series 2001 A (West Virginia Infrastructure Fund), in the total aggregate principal amount of not more than $837,540 (the "Series 2001 A Bonds"), to permanently finance a portion of the costs of acquisition of the Project. The remaining Costs of the Project (as herein defined) shall be funded from the sources set forth in Section 2.01 hereof. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Series 2001 A Bonds for a period not exceeding 6 months after completion of acquisition of the Project; amounts which may be deposited in the Reserve Account (as hereinafter defined); engineering and legal expenses; expenses for estimates of costs and revenues, expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise, administrative expense, commitment fees, fees and expenses of the Authority, discount, initial fees for the services of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Series 2001 A Bonds and such other expenses as may be necessary or incidental to the financing herein authorized, the acquisition of the Project and the placing of same in operation, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the Series 2001 A Bonds or the repayment of indebtedness incurred by the Issuer for such purposes shall be deemed Costs of the Project, as hereinafter defined.

E. The period of usefulness of the System after completion of the Project is not less than 40 years.

F. It is in the best interests of the Issuer that its Series 2001 A Bonds be sold to the Authority pursuant to the terms and provisions of a loan agreement by and between the Issuer and the Authority, on behalf of the West Virginia Infrastructure and Jobs Development Council (the "Council"), in form satisfactory to the respective parties (the "Loan Agreement"), approved hereby if not previously approved by resolution of the Issuer.

G. There are outstanding obligations of the Issuer which will rank on a parity with the Series 2001 A Bonds as to liens, pledge, source of and security for payment, being the Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), issued in the aggregate principal amount of $2,200,000 (the "Series 2000 A Bonds"), the Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), issued in the aggregate principal amount of $2,000,000 (the "Series 2000 B Bonds"), the Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), issued in the aggregate principal amount of $2,853,436 (the "Series 2000 C Bonds"), the Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), issued in the aggregate principal amount of $715,000 (the "Series 2000 D Bonds"), and the Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), issued in the aggregate principal amount of $8,916,818 (the "Series 2000 E Bonds"), all dated August 28, 2000 (collectively, the "Prior Bonds"). Prior to the issuance of the Series 2001 A Bonds, the Issuer will obtain (i) the certificate of an Independent Certified Public Accountant stating that the parity test of the Prior Bonds is met; and (ii) the written consent of the Holders of the Prior Bonds to the issuance of the Series 2001 A Bonds on a parity with the Prior Bonds. Other than the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System. The Issuer is in compliance with all the covenants of the Prior Bonds and the Prior Ordinances.

H. The estimated revenues to be derived in each year after completion of the Project from the operation of the System will be sufficient to pay all costs of operation and maintenance of the System and the principal of and interest, if any, on the Series 2001 A Bonds, and to make payments into all funds and accounts and other payments provided for herein.

I. In lieu of funding the Series 2001 A Bonds Reserve Account (as hereinafter defined) with cash, the Issuer may, with the advance written consent of the Authority, obtain a letter of credit for the benefit of the Commission, to be drawn upon in the event that at any time payments are inadequate to provide funds for the Issuer to make all payments required hereunder.

J. The Issuer has complied with all requirements of West Virginia law and the Loan Agreement relating to authorization of the acquisition and operation of the

Project and the System and issuance of the Series 2001 A Bonds, or will have so complied prior to issuance of any thereof, including, among other things and without limitation, the approval of the Project and the financing thereof by the Council and the obtaining of a certificate of public convenience and necessity and approval of this financing and necessary user rates and charges described herein from the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which will either have expired prior to the issuance of the Series 2001 A Bonds or such final order will not be subject to appeal.

K. The Project has been reviewed and determined to be technically and financially feasible by the Council as required under Chapter 31, Article 15A of the West Virginia Code of 1931, as amended.

Section 1.03. Bond Legislation Constitutes Contract. In consideration of the acceptance of the Series 2001 A Bonds by those who shall be the Registered Owners of the same from time to time, this Bond Legislation shall be deemed to be and shall constitute a contract between the Issuer and such Bondholders, and the covenants and agreements herein set forth to be performed by the Issuer shall be for the equal benefit, protection and security of the Bondholders of any and all of such Series 2001 A Bonds, all of which shall be of equal rank and without preference, priority or distinction between any one Bond and any other Bonds, and by reason of priority of issuance or otherwise, except as expressly provided therein and herein.

Section 5.03. System Revenues; Flow of Funds. A. The entire Gross Revenues derived from the operation of the System and all parts thereof shall be deposited upon receipt by the Issuer in the Revenue Fund. The Revenue Fund shall constitute a trust fund for the purposes provided in the this Bond Legislation and shall be kept separate and distinct from all other funds of the Issuer and the Depository Bank and used only for the purposes and in the manner herein provided. All moneys in the Revenue Fund shall be disposed of only in the following order of priority:

(1) The Issuer shall first, each month, pay from the Revenue Fund the Operating Expenses of the System.

(2) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously (i) remit to the National Finance Office designated in the Series 2000 A Bonds and the Series 2000 B Bonds the amounts required in the Prior Resolution to pay interest on the Series 2000 A Bonds and the Series 2000 B Bonds; (ii) remit to the Commission for deposit in the Series 2000 C Bonds Sinking Fund, the amount required in the Prior Resolution to pay the interest on the Series 2000 C Bonds; and (iii) remit to the Commission for deposit in the Series 2000 D Bonds Sinking Fund, the amount required in the Prior Resolution to pay the interest on the Series 2000 D Bonds.

(3) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously (i) remit to the National Finance Office designated in the Series 2000 A Bonds and the Series 2000 B Bonds the amounts required in the Prior

Resolution to amortize the principal of the Series 2000 A Bonds and the Series 2000 B Bonds over the life of each bond issue; (ii) remit to the Commission for deposit in the Series 2000 C Bonds Sinking Fund, the amount required in the Prior Resolution to pay the principal which will mature and become due on the Series 2000 C Bonds; (iii) remit to the Commission for deposit in the Series 2000 D Bonds Sinking Fund, the amount required in the Prior Resolution to pay the principal which will mature and become due on the Series 2000 D Bonds; (iv) remit to the Commission for deposit in the Series 2000 E Bonds Sinking Fund, the amount required in the Prior Resolution to pay the principal which will mature and become due on the Series 2000 E Bonds; and (v) remit to the Commission, commencing 3 months prior to the first date of payment of principal of the Series 2001 A Bonds, for deposit in the Series 2001 A Bonds Sinking Fund, an amount equal to 1/3rd of the principal which will mature and become due on the Series 2001 A Bonds on the next ensuing quarterly principal payment date; provided that, in the event the period to elapse between the date of such initial deposit in the Series 2001 A Bonds Sinking Fund and the next quarterly principal payment date is less than 3 months, then such monthly payments shall be increased proportionately to provide, 1 month prior to the next quarterly principal payment date, the required amount of principal coming due on such date.

(4) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and simultaneously remit to the Commission (i) for deposit in the Series 2000 A Bonds Reserve Account, the amount required by the Prior Resolution; (ii) for deposit in the Series 2000 B Bonds Reserve Account, the amount required by the Prior Resolution; (iii) for deposit in the Series 2000 C Bonds Reserve Account, the amount required by the Prior Resolution; (iv) for deposit in the Series 2000 D Bonds Reserve Account, the amount required by the Prior Resolution; (v) for deposit in the Series 2000 E Bonds Reserve Account, the amount required by the Prior Resolution; and (vi) commencing 3 months prior to the first date of payment of principal of the Series 2001 A Bonds, if not fully funded upon issuance of the Series 2001 A Bonds, for deposit in the Series 2001 A Bonds Reserve Account, an amount equal to 1/120th of the Series 2001 A Bonds Reserve Requirement; provided that, no further payments shall be made into the Series 2001 A Bonds Reserve Account when there shall have been deposited therein, and as long as there

shall remain on deposit therein, an amount equal to the Series 2001 A Bonds Reserve Requirement.

(5) The Issuer shall next, on the first day of each month, transfer from the Revenue Fund and remit to the Depository Bank for deposit in the Renewal and Replacement Fund, (i) a sum equal to 2 1/2% of the Gross Revenues each month (as previously set forth in the Prior Resolution and not in addition thereto), exclusive of any payments for account of any Reserve Account; and (ii) such amounts required by the Prior Resolution relative to the Series 2000 A Bonds and the Series 2000 B Bonds. All funds in the Renewal and Replacement Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Renewal and Replacement Fund for replacements, repairs, improvements or extensions to the System; provided, that any deficiencies in any Reserve Account (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with moneys from the Renewal and Replacement Fund.

(6) After all the foregoing provisions for use of moneys in the Revenue Fund have been fully complied with, any moneys remaining therein and not permitted to be retained therein may be used to prepay installments of the Bonds, pro rata, or for any lawful purpose of the System.

Moneys in the Series 2001 A Bonds Sinking Fund shall be used only for the purposes of paying principal of and interest, if any, on the Series 2001 A Bonds, as the same shall become due. Moneys in the Series 2001 A Bonds Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the Series 2001 A Bonds, as the same shall come due, when other moneys in the Series 2001 A Bonds Sinking Fund are insufficient therefor, and for no other purpose.

All investment earnings on moneys in the Series 2001 A Bonds Sinking Fund and the Series 2001 A Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payment, if any, due on the Series 2001 A Bonds, and then to the next ensuing principal payment due thereon.

Any withdrawals from the Series 2001 A Bonds Reserve Account which result in a reduction in the balance therein to below the Series 2001 A Bonds Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full in the order set forth above.

As and when additional Bonds ranking on a parity with the Series 2001 A Bonds are issued, provision shall be made for additional payments into the respective sinking fund sufficient to pay the interest on such additional parity Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the respective reserve account in an amount equal to the requirement thereof.

The Issuer shall not be required to make any further payments into the Series 2001 A Bonds Sinking Fund or the Series 2001 A Bonds Reserve Account when the aggregate amount of funds therein are at least equal to the aggregate principal amount of the Series 2001 A Bonds issued pursuant to this Bond Legislation then Outstanding and all interest, if any, to accrue until the maturity thereof.

Interest, principal or reserve payments, whether made for a deficiency or otherwise, shall be made on a parity and pro rata, with respect to the Prior Bonds and the Series 2001 A Bonds, in accordance with the respective principal amounts then Outstanding.

The Commission is hereby designated as the fiscal agent for the administration of the Series 2001 A Bonds Sinking Fund and the Series 2001 A Bonds Reserve Account created hereunder, and all amounts required for said accounts shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein. If required by the Authority at anytime, the Issuer shall make the necessary arrangements whereby required payments into said accounts shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required hereunder.

Moneys in the Series 2001 A Bonds Sinking Fund and the Series 2001 A Bonds Reserve Account shall be invested and reinvested by the Commission in accordance with Section 8.01 hereof.

The Series 2001 A Bonds Sinking Fund and the Series 2001 A Bonds Reserve Account shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Series 2001 A Bonds, under the conditions and restrictions set forth herein.

B. The Issuer shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required principal, interest and reserve payments with respect to the Series 2001 A Bonds and

all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Bond Legislation.

C. The Issuer shall complete the "Monthly Payment Form," a form of which is attached to the Loan Agreement, and submit a copy of said form along with a copy of its payment check to the Authority by the 5th day of such calendar month.

D. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in the Revenue Fund a balance in excess of the estimated amounts required to be so transferred and paid into such funds during the following month or such other period as required by the Act, such excess shall be considered as surplus revenues (the "Surplus Revenues"). Surplus Revenues may be used for any lawful purpose of the System.

E. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as the Commission, the Registrar, the Paying Agent or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay their respective charges and fees then due. In the case of payments to the Commission under this paragraph, the Issuer shall, if required by the Authority at anytime, make the necessary arrangements whereby such required payments shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required.

F. The moneys in excess of the sum insured by the maximum amounts insured by FDIC in any of the funds and accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as herein above provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 5.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

I. The Gross Revenues of the System shall only be used for purposes of the System.

J. All Tap Fees shall be deposited by the Issuer, as received, in the Bond Construction Trust Fund, and following completion of the Project, shall be deposited in the Revenue Fund and may be used for any lawful purpose of the System.

ARTICLE VI

BOND PROCEEDS; DISBURSEMENTS

Section 6.01. Application of Bond Proceeds; Pledge of Unexpended Bond Proceeds: From the moneys received from the sale of the Series 2001 A Bonds, the following amounts shall be first deducted and deposited in the order set forth below:

A. From the proceeds of the Series 2001 A Bonds, there shall first be deposited with the Commission in the Series 2001 A Bonds Sinking Fund, the amount, if any, set forth in the Supplemental Resolution as capitalized interest; provided, that such amount may not exceed the amount necessary to pay interest on the Series 2001 A Bonds for the period commencing on the date of issuance of the Series 2001 A Bonds and ending 6 months after the estimated date of completion of acquisition of the Project.

B. Next, from the proceeds of the Series 2001 A Bonds, there shall be deposited with the Commission in the Series 2001 A Bonds Reserve Account, the amount, if any, set forth in the Supplemental Resolution for funding the Series 2001 A Bonds Reserve Account.

C. Next, from the proceeds of the Series 2001 A Bonds, there shall be paid to the West Virginia Division of Environmental Protection, Office of Abandoned Mine Lands and Reclamation, the purchase price for the acquisition of the Pigeon Creek waterline extension.

D. As the Issuer receives advances of the remaining moneys derived from the sale of the Series 2001 A Bonds, such moneys shall be deposited with the Depository Bank in the Series 2001 A Bonds Construction Trust Fund and applied solely to payment of the costs of the acquisition of the Project in the manner set forth in Section 6.02 and until so expended, are hereby pledged as additional security for the Series 2001 A Bonds.

E. After acquisition of the Project, and all costs have been paid, any remaining proceeds of the Series 2001 A Bonds shall be applied as directed by the Council.

Section 6.02. Disbursements From the Bond Construction Trust Fund. The Issuer shall each month provide the Council and Authority with a requisition for the costs associated with the acquisition of the Project, together such appropriate transfer documentation as the Council shall require.

Except as provided in Section 6.01 hereof, disbursements from the Series 2001 A Bonds Construction Trust Fund shall be made only after submission to and approval from the Council, of a certificate, signed by an Authorized Officer, stating that:

(a) None of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;

(b) Each item for which the payment is proposed to be made is or was necessary in connection with the acquisition of the Project and constitutes a Cost of the Project;

(c) Each of such costs has been otherwise properly incurred; and

(d) Payment for each of the items proposed is then due and owing.

Pending such application, moneys in the Series 2001 A Bonds Construction Trust Funds shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

The Issuer shall expend all proceeds of the Series 2001 A Bonds within 3 years of the date of issuance of the State's general obligation Bonds, the proceeds of which were used to make the loan to the Issuer.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Bond Legislation shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Holder or Holders of the Bonds. In addition to the other covenants, agreements and provisions of this Bond Legislation, the Issuer hereby covenants and agrees with the Holders of the Series 2001 A Bonds as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of the Series 2001 A Bonds or the interest, if any, thereon is Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Series 2001 A Bonds shall not be nor constitute a corporate indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation, but shall be payable solely from the funds pledged for such payment by this Bond Legislation. No Holder or Holders of the Series 2001 A Bond shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Series 2001 A Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Series 2001 A Bonds shall be secured by a first lien on the Net Revenues derived from the System on a parity with the lien on the Net Revenues in favor of the Holders of the Prior Bonds. The Net Revenues in an amount sufficient to pay the principal of and interest, if any, on the Series 2001 A Bonds and the Prior Bonds and to make the payments into all funds and accounts and all other payments provided for in the Bond Legislation are hereby irrevocably pledged, in the manner provided herein, to such payments as they become due, and for the other purposes provided in the Bond Legislation.

Section 7.04. Rates and Charges. The Issuer has obtained any and all approvals of rates and charges required by State law and has taken any other action required to establish and impose such rates and charges, with all requisite appeal periods having expired without successful appeal. Such rates and charges shall be sufficient to comply with the requirements of the Loan Agreement. The initial schedule of rates and charges for the services and facilities of the System shall be as set forth and approved and described in the Final Order of the Public Service Commission of West Virginia entered March 10, 1999, in Case No. 98-0754-PWD-CN, and such rates are hereby adopted.

So long as the Series 2001 A Bonds are outstanding, the Issuer covenants and agrees to fix and collect rates, fees and other charges for the use of the System and to take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Bond Legislation and in compliance with the Loan Agreement. In the event the

schedule of rates, fees and charges initially established for the System in connection with the Series 2001 A Bonds shall prove to be insufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreement, the Issuer hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates, fees and charges and take all such actions necessary to provide funds sufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreement.

Section 7.05. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of or encumber the System, or any part thereof, except as provided in the Prior Resolution. Additionally, so long as the Series 2001 A Bonds are outstanding and except as otherwise required by law or with the written consent of the Authority and the Council, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to pay fully all the Bonds Outstanding in accordance with Article X hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall, with respect to the Series 2001 A Bonds, immediately be remitted to the Commission for deposit in the Series 2001 A Bonds Sinking Fund, and, with the written permission of the Authority and the Council, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of and interest, if any, on the Series 2001 A Bonds. Any balance remaining after the payment of the Series 2001 A Bonds and interest, if any, thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with a professional engineer that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property in accordance with the laws of the State. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. The payment of such

proceeds into the Renewal and Replacement Fund shall not reduce the amount required to be paid into such account by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Holders, or their duly authorized representatives, of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Holders of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided for in Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any other obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Series 2001 A Bonds. All obligations issued by the Issuer after the issuance of the Series 2001 A Bonds and payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, and source of and security for payment from such revenues and in all other respects, to the Series 2001 A Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts established by this Bond Legislation have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Series 2001 A Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Series 2001 A Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, for the Project or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. So long as the Prior Bonds are outstanding, the limitations on the issuance of parity obligations set forth in the Prior Resolution shall be applicable. In addition, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Series 2001 A Bonds pursuant to this Bond Legislation, without the prior written consent of the Authority and the Council and without complying with the conditions and requirements herein provided.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2001 A Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the acquisition or construction of additions extensions, improvements or betterments to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues expected to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from the improvements to be financed by such Parity Bonds and any increase in rates adopted by the Issuer, the time for appeal of which shall have expired prior to the issuance of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period herein above referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the time for appeal of which shall have expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and

security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. All Bonds, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond over any other. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on the revenues of the System is subject to the prior and superior liens of the Series 2001 A Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2001 A Bonds.

No Parity Bonds shall be issued at any time, however, unless all of the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of the Parity Bonds, and the Issuer then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 7.08. Books; Records and Audit. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the Project. The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the Authority and the Council such documents and information as they may reasonably require in connection with the acquisition of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at all reasonable times following acquisition of the Project and commencement of operation thereof.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable

times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the Public Service Commission of West Virginia. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Issuer. The Issuer shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Issuer shall be reported to such agent of the Issuer as the Issuer shall direct.

The Issuer shall file with the Council, the Authority, or any other original purchaser of the Series 2001 A Bonds, and shall mail in each year to any Holder or Holders of the Series 2001 A Bonds, requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Bond Legislation, and the status of all said funds and accounts.

(C) The amount of any Bonds, notes or other obligations payable from the revenues of the System outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants in compliance with the applicable OMB Circular, or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of the Series 2001 A Bonds, and shall submit said report to the Council and the Authority, or any other original purchaser of the Series 2001 A Bonds. Such audit report submitted to the Authority and the Council shall include a statement that the Issuer is in compliance with the terms and provisions of the Act, the Loan Agreement and this Bond Legislation and that the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the Loan Agreement and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to acquire the Project which has been constructed in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property

constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

The Issuer shall permit the Authority and the Council, or their agents and representatives, to enter and inspect the Project site and Project facilities at all reasonable times. After acquisition and commencement of operation of the Project, the Issuer shall also provide the Authority and the Council, or their agents and representatives, with access to the System site and System facilities as may be reasonably necessary to accomplish all of the powers and rights of the Authority and the Council with respect to the System pursuant to the Act.

Section 7.09. Rates. Prior to the issuance of the Series 2001 A Bonds, equitable rates or charges for the use of and service rendered by the System shall be established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2001 A Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2001 A Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit respectively in the Series 2001 A Bonds Reserve Account and the reserve accounts for obligations on a parity with the Series 2001 A Bonds are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2001 A Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2001 A Bonds, including the Prior Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority and the Council within 30 days of adoption thereof. (ii) that it shall not take, or permit or suffer to be taken, any action with respect to the Issuer's use of the proceeds of the Series 2001 A which would cause any bonds, the interest on which is exempt from federal income taxation under Section 103(a) of the Code; issued by the Authority or the Council, as the case may be, from which the proceeds of the Series 2001 A Bonds are derived, to lose their status as tax-exempt bonds; and (iii) to take such action or refrain from taking such action, as shall be deemed necessary by the Issuer, or requested by the Authority, or requested by the Authority or the Council, to ensure compliance with the covenants and agreements set forth in this Section, regardless of whether such actions may be contrary to any of the provisions of this Resolution.

(WEST VIRGINIA INFRASTRUCTURE FUND)

No. AR-1 $837,540

KNOW ALL MEN BY THESE PRESENTS: That MINGO COUNTY PUBLIC SERVICE DISTRICT, a public corporation and political subdivision of the State of West Virginia in Mingo County of said State (the "Issuer"), for value received, hereby promises to pay, solely from the special funds provided therefor, as hereinafter set forth, to the West Virginia Water Development Authority (the "Authority") or registered assigns the sum of EIGHT HUNDRED THIRTY-SEVEN THOUSAND FIVE HUNDRED FORTY DOLLARS ($837,540), or such lesser amount as shall have been advanced to the Issuer hereunder and not previously repaid, as set forth in the "Record of Advances" attached as EXHIBIT A hereto and incorporated herein by reference, in quarterly installments on March 1, June 1, September 1 and December 1 of each year, commencing March 1, 2002, as set forth on the "Debt Service Schedule" attached as EXHIBIT B hereto and incorporated herein by reference.

This Bond shall bear no interest. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent").

This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority and the West Virginia Infrastructure and Jobs Development Council (the "Council"), and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement by and between the Issuer and the Authority, on behalf of the Council, dated February 15, 2001.

This Bond is issued (i) to pay a portion of the costs of acquisition of certain improvements and extensions to the existing public waterworks facilities of the Issuer (the "Project"); and (ii) to pay certain costs of issuance of the Bonds of this Series (the "Bonds") and related costs. The existing public waterworks facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System." This Bond is issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly Chapter 16, Article 13A and Chapter 31, Article 15A of the West Virginia Code of 1931, as amended (the "Act"), a Bond Resolution

The Bond Legislation provides for the issuance of additional bonds under certain conditions, and such bonds would be entitled to be paid and secured equally and ratably from and by the funds and revenues and other security provided for the Bonds under the Bond Legislation.

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS, WITH THE ISSUER'S WATER REVENUE BONDS, SERIES 2000 A (UNITED STATES DEPARTMENT OF AGRICULTURE), ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,200,000 SERIES 2000 B (UNITED STATES DEPARTMENT OF AGRICULTURE), ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,000,000, SERIES 2000 C (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,853,436, SERIES 2000 D (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $715,000, AND SERIES 2000 E (WEST VIRGINIA INFRASTRUCTURE FUND), ISSUED IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $8,916,818, ALL DATED AUGUST 28, 2000 (COLLECTIVELY, THE "PRIOR BONDS").

This Bond is payable only from and secured by a pledge of the Net Revenues (as defined in the Bond Legislation) to be derived from the operation of the System, on a parity with the pledge of Net Revenues in favor of the holders of the Prior Bonds, and from moneys in the reserve account created under the Bond Legislation for the Bonds (the "Series 2001 A Bonds Reserve Account") and unexpended proceeds of the Bonds. Such Net Revenues shall be sufficient to pay the principal of and interest, if any, on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute a corporate indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same, except from said special fund provided from the Net Revenues, the moneys in the Series 2001 A Bonds Reserve Account and unexpended proceeds of the Bonds. Pursuant to the Bond Legislation, the Issuer has covenanted and agreed to establish and maintain just and equitable rates and charges for the use of the System and the services rendered thereby, which shall be sufficient, together with other revenues of the System, to provide for the reasonable expenses of operation, repair and maintenance of the System, and to leave a balance each year equal to at least 115% of the maximum amount payable in any year for principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Bonds, including the Prior Bonds; provided however, that so long as there exists in the Series 2001 A Bonds Reserve Account an amount at least equal to the maximum amount of principal and interest, if any, which will become due on the Bonds in the then current or any succeeding year, and in the

respective reserve accounts established for any other obligations outstanding on a parity with the Bonds, including the Prior Bonds, an amount at least equal to the requirement therefor, such percentage may be reduced to 110%. The Issuer has entered into certain further covenants with the registered owners of the Bonds for the terms of which reference is made to the Bond Legislation. Remedies provided the registered owners of the Bonds are exclusively as provided in the Bond Legislation, to which reference is here made for a detailed description thereof.

Subject to the registration requirements set forth herein, this Bond, under the provision of the Act is, and has all the qualities and incidents of, a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

All money received from the sale of this Bond, after reimbursement and repayment of all amounts advanced for preliminary expenses as provided by law and the Bond Legislation, shall be applied solely to payment of the costs of the Project and costs of issuance hereof described in the Bond Legislation, and there shall be and hereby is created and granted a lien upon such moneys, until so applied, in favor of the registered owner of this Bond.

IT IS HEREBY CERTIFIED, RECITED AND DECLARED that all acts, conditions and things required to exist, happen and be performed precedent to and at the issuance of this Bond do exist, have happened, and have been performed in due time, form and manner as required by law, and that the amount of this Bond, together with all other obligations of the Issuer, does not exceed any limit prescribed by the Constitution or statutes of the State of West Virginia and that a sufficient amount of the Net Revenues of the System has been pledged to and will be set aside into said special fund by the Issuer for the prompt payment of the principal of this Bond.

BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF MINGO COUNTY PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Bond Legislation") is adopted pursuant to the provisions of Chapter 16, Article 13A, Chapter 22C, Article 1, and Chapter 31, Article 15A of the West Virginia Code of 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Mingo County Public Service District (the "Issuer") is a public service district and a public corporation and political subdivision of the State of West Virginia in Mingo County of said State.

B. The Issuer presently owns and operates a public waterworks system. However, it is deemed necessary and desirable for the health and welfare of the inhabitants of the Issuer that there be acquired and constructed a public waterworks system of the Issuer, consisting of a new water treatment plant and combined waterline extension near Naugatuck, Mingo County, which will initially provide service to approximately 3,176 customers with the potential to serve 3,772 in Mingo County extend water service to approximately 2,544 new customers, including the Town of Delbarton, together with all appurtenant facilities (collectively, the "Project") (the existing public waterworks facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System"), in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have heretofore been filed with the Issuer.

C. The estimated revenues to be derived in each year after completion of the Project from the operation of the System will be sufficient to pay all costs of operation and maintenance of the System and the principal of and interest, if any, on the Bonds (as hereinafter defined), and to make payments into all funds and accounts and other payments provided for herein.

D. The Issuer has determined that, by refunding its outstanding Waterworks System Design Notes, Series 1998 (West Virginia Infrastructure Fund), dated

April 3, 1998, and Waterworks System Design Notes, Series 1999 (West Virginia Infrastructure Fund), dated November 16, 1999, issued in the original principal amounts of $200,000 and $152,290, respectively (collectively, the "Prior Bonds"), it can achieve significant savings in debt service. The entire outstanding principal of, all interest accrued on, if any, and the administrative fee for, if any, the Prior Bonds will be paid in full with proceeds of the Series 2000 E Bonds on the date of issuance thereof.

E. It is deemed necessary for the Issuer to issue its Water Revenue Bonds in the total aggregate principal amount of not more than $16,685,254 in five series (collectively, the "Bonds"), being the Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), in the aggregate principal amount of not more than $2,200,000 (the "Series 2000 A Bonds"), the Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), in the aggregate principal amount of not more than $2,000,000 (the "Series 2000 B Bonds"), the Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), in the aggregate principal amount of not more than $2,853,436 (the "Series 2000 C Bonds"), the Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), in the aggregate principal amount of not more than $715,000 (the "Series 2000 D Bonds"), and the Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), in the aggregate principal amount of not more than $8,916,818 (the "Series 2000 E Bonds"), to permanently finance a portion of the costs of acquisition and construction of the Project and to pay in full the Prior Bonds. The remaining costs of the Project shall be funded from the sources set forth in Section 2.01 hereof. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Bonds prior to and during acquisition and construction of the Project and for a period not exceeding 6 months after completion of acquisition and construction of the Project; amounts which may be deposited in the Reserve Accounts (as hereinafter defined); engineering and legal expenses; expenses for estimates of costs and revenues, expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise, administrative expense, commitment fees, fees and expenses of the Authority, discount, initial fees for the services of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Bonds and such other expenses as may be necessary or incidental to the financing herein authorized, the acquisition or construction of the Project and the placing of same in operation, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the Bonds or the repayment of indebtedness incurred by the Issuer for such purposes shall be deemed Costs of the Project, as hereinafter defined.

F. The period of usefulness of the System after completion of the Project is not less than 40 years.

G. It is in the best interests of the Issuer that its Series 2000 A Bonds and Series 2000 B Bonds be sold to the Purchaser (as hereinafter defined) pursuant to the terms and provisions of the Letter of Conditions (as hereinafter defined), its Series 2000 C Bonds be sold to the Authority pursuant to the terms and provisions of a loan agreement by and between the Issuer and the Authority, its Series 2000 D Bonds be sold to the Authority pursuant to the terms and provisions of a loan agreement by and between the Issuer and the Authority and its Series 2000 E Bonds be sold to the Authority pursuant to the terms and provisions of a loan agreement by and between the Issuer and the Authority, on behalf of the West Virginia Infrastructure and Jobs Development Council (the "Council"), each loan agreement in form satisfactory to the respective parties (collectively, the loan agreement for the Series 2000 C Bonds, the loan agreement for the Series 2000 D Bonds and the loan agreement for the Series 2000 E Bonds are referred to as the "Loan Agreement"), approved hereby if not previously approved by resolution of the Issuer.

H. The Series 2000 A Bonds, the Series 2000 B Bonds, the Series 2000 C Bonds, the Series 2000 D Bonds and the Series 2000 E Bonds shall be issued on a parity with each other. Following the refunding of the Prior Bonds, there are no other outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System.

I. In lieu of funding the Reserve Accounts (as hereinafter defined) with cash, the Issuer may obtain letters of credit, surety bonds or other credit facility for the benefit of the Commission, to be drawn upon in the event that at any time payments are inadequate to provide funds for the Issuer to make all payments required hereunder.

J. The Issuer has complied with all requirements of West Virginia law and the Loan Agreement relating to authorization of the acquisition, construction and operation of the Project and the System, the refunding of the Prior Bonds and issuance of the Bonds, or will have so complied prior to issuance of any thereof, including, among other things and without limitation, the obtaining of a certificate of public convenience and necessity and approval of this financing and necessary user rates and charges described herein from the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which will either have expired prior to the issuance of the Bonds or such final order will not be subject to appeal or rehearing.

K. The Project has been reviewed and determined to be technically and financially feasible by the Council as required under Chapter 31, Article 15A of the West Virginia Code of 1931, as amended.

Section 1.03. Bond Legislation Constitutes Contract. In consideration of the acceptance of the Bonds by those who shall be the Registered Owners of the same from time to time, this Bond Legislation shall be deemed to be and shall constitute a contract between the Issuer and such Registered Owners, and the covenants and agreements herein

set forth to be performed by the Issuer shall be for the equal benefit, protection and security of the Registered Owners of any and all of such Bonds, all which shall be of equal rank and without preference, priority or distinction between any one Bond of a series and any other Bonds of the same series, by reason of priority of issuance or otherwise, except as expressly provided therein and herein.

The Bond Registrar shall not be obliged to make any such exchange or transfer of Bonds during the period commencing on the 15th day of the month next preceding an interest payment date on the Bonds or, in the case of any proposed redemption of Bonds, next preceding the date of the selection of Bonds to be redeemed, and ending on such interest payment date or redemption date.

FOR VALUE RECEIVED, the MINGO COUNTY PUBLIC SERVICE DISTRICT (the "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of _____ _____ DOLLARS ($_____), plus interest on the unpaid principal balance at the rate of ____% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $_____, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, betterments and improvements to the waterworks system (the "System") of Borrower, is payable solely from the revenues to be derived from the operation of the System after there have first been paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Resolution and upon surrender and cancellation of this Bond.

Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Resolution and Supplemental Resolution of the Borrower, both duly adopted on August 21, 2000, authorizing issuance of this Bond (collectively, the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

No. BR-1 Date: _____

FOR VALUE RECEIVED, the MINGO COUNTY PUBLIC SERVICE DISTRICT (the "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of _____ _____ DOLLARS ($_____), plus interest on the unpaid principal balance at the rate of ____% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $_____, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, betterments and improvements to the waterworks system (the "System") of Borrower, is payable solely from the revenues to be derived from the operation of the System after there have first been paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Resolution and upon surrender and cancellation of this Bond. Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Resolution and Supplemental Resolution of the Borrower, both duly adopted on August 21, 2000, authorizing issuance of this Bond (collectively, the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS, WITH THE ISSUER'S (1) WATER REVENUE BONDS, SERIES 2000 A (UNITED STATES DEPARTMENT OF AGRICULTURE), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,200,000; (2) WATER REVENUE BONDS, SERIES 2000 C (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,853,436; (3) WATER REVENUE BONDS, SERIES 2000 D (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $715,000; AND (4) WATER REVENUE BONDS, SERIES 2000 E (WEST VIRGINIA INFRASTRUCTURE FUND), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $8,916,818.

As the Issuer receives advances of the remaining moneys derived from the sale of the Series 2000 C Bonds, such moneys shall be deposited with the Depository Bank in the Series 2000 C Bonds Construction Trust Fund and applied solely to payment of costs of the Project in the manner set forth in Section 6.02 and until so expended, are hereby pledged as additional security for the Series 2000 C Bonds.

N. As the Issuer receives advances of the remaining moneys derived from the sale of the Series 2000 D Bonds, such moneys shall be deposited with the Depository Bank in the Series 2000 D Bonds Construction Trust Fund and applied solely to payment of

costs of the Project in the manner set forth in Section 6.02 and until so expended, are hereby pledged as additional security for the Series 2000 D Bonds.

O. As the Issuer receives advances of the remaining moneys derived from the sale of the Series 2000 E Bonds, such moneys shall be deposited with the Depository Bank in the Series 2000 E Bonds Construction Trust Fund and applied solely to payment of costs of the Project in the manner set forth in Section 6.02 and until so expended, are hereby pledged as additional security for the Series 2000 E Bonds.

P. The Depository Bank shall act as a trustee and fiduciary for the Bondholders with respect to the respective Bond Construction Trust Funds and shall comply with all requirements with respect to the disposition of such funds set forth in the Bond Legislation. Except with respect to any transfers to the Rebate Fund permitted hereunder, moneys in the respective Bonds Construction Trust Funds shall be used solely to pay Costs of the Project and until so transferred or expended, are hereby pledged as additional security for the Bonds.

Section 6.02. Disbursements From the Bond Construction Trust Funds. A. Moneys in the Series 2000 A Bonds Construction Trust Fund and the Series 2000 B Bonds Construction Trust Fund shall be used solely to pay the cost of acquisition and construction of the Project upon vouchers and other documentation approved by the Purchaser.

Until completion of acquisition and construction of the Project, the Issuer will transfer from the Series 2000 A Bonds Construction Trust Fund and the Series 2000 B Bonds Construction Trust Fund and pay to the Purchaser on or before the due date, such sums as shall be from time to time required to make the monthly installment payments on the Series 2000 A Bonds and the Series 2000 B Bonds, respectively, if there are not sufficient Gross Revenues to make such monthly payment.

When construction of the Project has been completed and all costs thereof have been paid or provision for such payment has been made, any balance remaining in the Series 2000 A Bonds Construction Trust Fund and the Series 2000 B Bonds Construction Trust Fund shall be disposed of in accordance with the regulations of the Purchaser.

B. Except as provided in Section 6.01 hereof, disbursements from the Series 2000 C Bonds Construction Trust Fund and the Series 2000 D Bonds Construction Trust Fund shall be made only after submission to the Depository Bank, of a certificate, signed by an Authorized Officer and the Consulting Engineers, stating that:

(a) None of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;

(b) Each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(c) Each of such costs has been otherwise properly incurred; and

(d) Payment for each of the items proposed is then due and owing.

In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Series 2000 C Bonds Construction Trust Fund and the Series 2000 D Bonds Construction Trust Fund only the net amount remaining after deduction of any such portion. All payments made from the respective Bond Construction Trust Funds shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from such funds. The Consulting Engineers shall from time to time file with the Depository Bank written statements advising the Depository Bank of its then authorized representative.

Pending such application, moneys in the Series 2000 C Bonds Construction Trust Fund and the Series 2000 D Bonds Construction Trust Fund shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

After completion of construction of the Project, as certified by the Consulting Engineers, and all Costs of the Project have been paid, the Depository Bank shall transfer any moneys remaining in the Series 2000 C Bonds Construction Trust Fund to the Series 2000 C Bonds Reserve Account, and any moneys remaining in the Series 2000 D Bond Construction Trust Fund to the Series 2000 D Bonds Reserve Account, provided that, in no event shall more than 10% of the proceeds of the Series 2000 C Bonds or the Series 2000 D Bonds be deposited in the respective Reserve Account, and when such Reserve Accounts are fully funded, shall return such remaining moneys to the Issuer for deposit in the Revenue Fund. The Issuer shall thereafter, apply such moneys in full, first to the next ensuing interest payment due on the Series 2000 C Bonds and the Series 2000 D Bonds and thereafter to the next ensuing principal payment due thereon. Any remaining proceeds of the Series 2000 C Bonds and the Series 2000 D Bonds shall be used as directed in writing by the Authority.

The Issuer shall expend all proceeds of the Series 2000 C Bonds and the Series 2000 D Bonds within 3 years of the date of issuance of the Authority's Bonds, the proceeds of which were used to make the loans of the Issuer.

C. To make disbursements from the Series 2000 E Bonds Construction Trust Fund, the Issuer shall each month provide the Council with a requisition for the costs incurred for the Project, together with such documentation as the Council shall require. Payments of all Costs of the Project from the proceeds of the Series 2000 E Bonds shall be made monthly.

Except as provided in Section 6.01 hereof, disbursements from the Series 2000 E Bonds Construction Trust Fund shall be made only after submission to and approval from the Council, of a certificate, signed by an Authorized Officer and the Consulting Engineers, stating that:

(a) None of the items for which the payment is proposed to be made has formed the basis for any disbursement theretofore made;

(b) Each item for which the payment is proposed to be made is or was necessary in connection with the Project and constitutes a Cost of the Project;

(c) Each of such costs has been otherwise properly incurred; and

(d) Payment for each of the items proposed is then due and owing.

Pending such application, moneys in the Series 2000 E Bonds Construction Trust Fund shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

After completion of construction of the Project, as certified by the Consulting Engineers, and all costs of the Project have been paid, any remaining proceeds of the Series 2000 E Bonds shall be applied as directed by the Council.

The Issuer shall expend all proceeds of the Series 2000 E Bonds within 3 years of the date of issuance of the State's general obligation bonds, the proceeds of which were used to make the loan to the Issuer.

Section 6.03. Disbursements from Tap Fee Escrow Account. Moneys in the Tap Fee Escrow Account shall be used solely to reimburse the Issuer in the amount of Two Hundred and Fifty Dollars ($250.00) for each customer on the System who, prior to issuance of the Bonds, declined service from the System and who, subsequent to issuance of the Bonds, requested service from the System. Disbursements from the Tap Fee Escrow Account shall be made only after submission to the Depository Bank and the Purchaser, of a resolution of the Issuer, signed by the Chairman and the General Manager of the Issuer, stating, among other things:

(a) The number of taps installed for new customers on the System for which reimbursement is being requested in this particular resolution;

(b) None of the taps for which the reimbursement is sought has formed the basis for any disbursement theretofore made;

(c) None of the customers for which tap cost reimbursement is sought has previously been a customer of the System at that location, and each such customer was offered, and subsequently declined prior to August 28, 2000, the service of the System prior to the issuance of the Bonds;

(d) Each customer for which tap cost reimbursement is sought has paid the Issuer the maximum tap charge permitted by the Public Service Commission of West Virginia; and

(e) The Issuer has incurred the cost of installing each tap for which reimbursement is sought.

The form of such resolution is attached hereto as "Exhibit B" and incorporated herein by reference.

Upon receipt of a resolution in the form set forth in Exhibit B which has been executed by the Chairman and General Manager of the Issuer, the Depository Bank shall be authorized to disburse the amount requested in such resolution to the Issuer. The Depository Bank shall have no obligation to either verify the statements contained in any resolution or to monitor the application of disbursements from such Tap Fee Escrow Account.

At anytime after January 1, 2006, the Issuer may, by written request, petition the Purchaser to release any monies remaining in the Tap Fee Escrow Account into the Renewal and Replacement Fund. The Purchaser may, in its sole discretion, grant such a request. In the event that the Purchaser authorizes the transfer of such monies into the Renewal and Replacement Fund, the Depository Bank shall be notified of such authorization by a letter from the Purchaser, signed by the State Director of the Purchaser (or any individual in an office succeeding thereto), which letter shall serve as conclusive evidence to the Depository Bank of such authorization. Upon receipt of such authorization, the Depository Bank shall transfer all monies remaining in the Tap Fee Escrow Account into the Renewal and Replacement Fund.

Pending such application, moneys in the Tap Fee Escrow Account shall be invested and reinvested in Qualified Investments at the written direction of the Issuer.

ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Bond Legislation shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Holder or Holders of the Bonds. In addition to the other covenants, agreements and provisions of this Bond Legislation, the Issuer hereby covenants and agrees with the Holders of the Bonds as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of the Bonds or the interest, if any, thereon is Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Bond Legislation. No Holder or Holders of any Bonds shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues. The payment of the debt service of the Series 2000 A Bonds, the Series 2000 B Bonds, the Series 2000 C Bonds, the Series 2000 D Bonds and the Series 2000 E Bonds shall be secured forthwith equally and ratably by a first lien on the Net Revenues derived from the System. The Net Revenues in an amount sufficient to pay the principal of and interest, if any, on the Bonds and to make the payments into all funds and accounts and all other payments provided for in the Bond Legislation are hereby irrevocably pledged, in the manner provided herein, to such payments as they become due, and for the other purposes provided in the Bond Legislation.

Section 7.04. Initial Schedule of Rates and Charges. The Issuer has obtained any and all approvals of rates and charges required by State law and has taken any other action required to establish and impose such rates and charges , with all requisite appeal periods having expired without successful appeal. Such rates and charges shall be sufficient to comply with the requirements of the Loan Agreement. The initial schedule of rates and charges for the services and facilities of the System shall be as set forth and approved and described in the Commission Order of the Public Service Commission of West Virginia entered July 11, 2000, in Case No. 99-1345-PWD-CN and such rates are hereby adopted.

So long as the Bonds are outstanding, the Issuer covenants and agrees to fix and collect rates, fees and other charges for the use of the System and to take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Bond Legislation and in compliance with the Loan Agreement. In the event the schedule of rates,

fees and charges initially established for the System in connection with the Bonds shall prove to be insufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreement, the Issuer hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates, fees and charges and take all such actions necessary to provide funds sufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreement.

Section 7.05. Sale of the System. So long as the Bonds are outstanding and except as otherwise required by law or with the written consent of the Purchaser, the Authority and the Council, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to fully pay all the Bonds Outstanding in accordance with Article X hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall, with respect to the Series 2000 A Bonds and the Series 2000 B Bonds, immediately be remitted to the National Finance Office designated in the Series 2000 A Bonds and the Series 2000 B Bonds, and with respect to the Series 2000 C Bonds, the Series 2000 D Bonds and the Series 2000 E Bonds, immediately be remitted to the Commission for deposit in the respective Sinking Funds, and, with the written permission of the Purchaser, the Authority and the Council, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of and interest, if any, on the Bonds. Any balance remaining after the payment of all Bonds and interest, if any, thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of $10,000, the Issuer shall, by resolution duly adopted, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of $10,000 but not in excess of $50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property in accordance with the laws of the State. The proceeds of any such sale shall be deposited in the Renewal and Replacement Fund. The payment of such proceeds into the Renewal and Replacement Fund shall not reduce the

amount required to be paid into said fund by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of $50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Holders of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Holders of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Bonds. All obligations issued by the Issuer after the issuance of the Bonds and payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts set forth herein have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the Purchaser, the Authority and the Council prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. No Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Bonds pursuant to this Bond Legislation, except with the prior written consent of the Authority, the Purchaser and the Council under the conditions and in the manner herein provided.

All Parity Bonds issued hereunder shall be on a parity in all respects with the Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the acquisition or construction of extensions and improvements to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

(1) The Bonds then Outstanding;

(2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and

(3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from (a) the improvements to be financed by such Parity Bonds and (b) any increase in rates adopted by the Issuer, the period for appeal of which has expired prior to the date of issuance of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the period for appeal of which has expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of the same series. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity

Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on revenues of the System is subject to the prior and superior liens of the Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

Section 7.08. Books; Records and Audit. The Issuer shall keep complete and accurate records of the cost of acquiring the Project site and the costs of acquiring, constructing and installing the Project. The Issuer shall permit the Purchaser, the Authority and the Council, or their agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at all reasonable times for the purpose of audit and examination. The Issuer shall submit to the Purchaser, the Authority and the Council such documents and information as they may reasonably require in connection with the acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Purchaser, the Authority and the Council, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at all reasonable times following completion of construction of the Project and commencement of operation thereof, or, if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the Public

Service Commission of West Virginia. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Purchaser, the Council, the Authority, or any other original purchaser of the Bonds, and shall mail in each year to any Holder or Holders of the Bonds, requesting the same, an annual report containing the following:

(A) A statement of Gross Revenues, Operating Expenses, Net Revenues and Surplus Revenues derived from and relating to the System.

(B) A balance sheet statement showing all deposits in all the funds and accounts provided for in this Bond Legislation, and the status of all said funds and accounts.

(C) The amount of any Bonds, notes or other obligations outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants in compliance with the applicable OMB Circular, or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of the Bonds, and shall submit said report to the Purchaser, the Council and the Authority, or any other original purchaser of the Bonds. Such audit report submitted to the Purchaser, the Authority and the Council shall include a statement that the Issuer is in compliance with the terms and provisions of the Act, the Loan Agreement and this Bond Legislation and that the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the Loan Agreement and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

The Issuer shall permit the Purchaser, the Authority and the Council, or their agents and representatives, to enter and inspect the Project site and Project facilities at all

reasonable times. Prior to, during and after completion of construction of the Project, the Issuer shall also provide the Purchaser, the Authority and the Council, or their agents and representatives, with access to the System site and System facilities as may be reasonably necessary to accomplish all of the powers and rights of the Purchaser, the Authority and the Council with respect to the System pursuant to the Act.

Section 7.09. Rates. Prior to the issuance of the Bonds, equitable rates or charges for the use of and service rendered by the System shall be established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) to leave a balance each year equal to at least 115% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit respectively in the Reserve Accounts and the reserve accounts for obligations on a parity with the Bonds are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Purchaser, the Authority and the Council within 30 days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by a professional engineer, which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of a

professional engineer that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Purchaser, the Authority and the Council and to any Holder of any Bonds, within 30 days of adoption thereof, and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to the Purchaser, the Authority and the Council and to any Holder of any Bonds, or anyone acting for and in behalf of such Holder of any Bonds.

Commencing on the date contracts are executed for the acquisition and construction of the Project and for two years following the completion of the Project, the Issuer shall each month complete a "Monthly Financial Report," a form of which is attached to the respective Loan Agreements, and forward a copy of such report to the Authority and the Council by the 10th day of each month.

Section 7.11. Engineering Services and Operating Personnel. The Issuer will obtain a certificate of the Consulting Engineers in the form attached to the Loan Agreement, stating, among other things, that the Project has been or will be constructed in accordance with the approved plans, specifications and designs as submitted to the Authority and the Council, the Project is adequate for the purposes for which it was designed, the funding plan as submitted to the Authority and the Council is sufficient to pay the costs of acquisition and construction of the Project, and all permits required by federal and state laws for construction of the Project have been obtained.

The Issuer shall provide and maintain competent and adequate engineering services satisfactory to the Purchaser, the Authority and the Council covering the supervision and inspection of the development and construction of the Project, and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the Purchaser, the Authority, the Council and the Issuer at the completion of construction that construction of the Project is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies. The Issuer shall employ qualified operating personnel properly certified by the State to operate the System during the entire term of the Loan Agreement.

Section 7.12. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the

System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the Public Service Commission of West Virginia and other laws of the State of West Virginia.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 30 days after the same shall become due and payable, the property and the owner thereof, as well as the user of the services and facilities, shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, rates, rentals and other charges, if not paid, when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that, it will, to the full extent permitted by law and the rules and regulations promulgated by the Public Service Commission of West Virginia, discontinue and shut off the services of the System and any services and facilities of the water system, if so owned by the Issuer, to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services of either system until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law. If the water facilities are not owned by the Issuer, the Issuer shall enter into a termination agreement with the water provider, subject to any required approval of such agreement by the Public Service Commission of West Virginia and all rules, regulations and orders of the Public Service Commission of West Virginia.

Section 7.14. No Free Services. Except as required by law, the Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.15. Insurance and Construction Bonds. A. The Issuer hereby covenants and agrees that so long as the Bonds remain Outstanding, the Issuer will, as an Operating Expense, procure, carry and maintain insurance with a reputable insurance carrier or carriers as is customarily covered with respect to works and properties similar to the System. Such insurance shall initially cover the following risks and be in the following amounts:

(1) FIRE, LIGHTNING, VANDALISM, MALICIOUS MISCHIEF AND EXTENDED COVERAGE INSURANCE, on all above-ground insurable portions of the System in an amount equal to the actual cost thereof. In time of war the Issuer will also carry and maintain insurance to the extent available against the risks and hazards of war. The proceeds of all such insurance policies shall be placed in the Renewal and Replacement Fund and used only for the repairs and restoration of the damaged or destroyed properties or for the other purposes provided herein for the Renewal and Replacement Fund. The Issuer shall require all contractors engaged in the construction of the Project to furnish a performance bond and a payment bond, each in an amount equal to 100% of the contract price of the portion of the Project covered by the particular contract as security for the faithful performance of such contract. The Issuer shall verify such bonds prior to commencement of construction.

The Issuer shall also require all contractors engaged in the construction of the Project to carry such worker's compensation coverage for all employees working on the Project and public liability insurance, vehicular liability insurance and property damage insurance in amounts adequate for such purposes and as is customarily carried with respect to works and properties similar to the Project; provided that the amounts and terms of such coverage are satisfactory to the Authority and the Issuer shall verify such insurance prior to commencement of construction. D. INFORMATION RETURN. The Issuer will timely file all statements, instruments and returns necessary to assure the tax-exempt status of the Series 2000 C Bonds and the Series 2000 D Bonds and the interest thereon including, without limitation, the information return required under Section 149(e) of the Code.

E. FURTHER ACTIONS. The Issuer will take any and all actions that may be required of it (including, without limitation, those deemed necessary by the Authority) so that the interest on the Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions or fail to take any actions (including, without limitation, those deemed necessary by the Authority), the result of which would adversely affect such exclusion.

Section 7.19. Statutory Mortgage Lien. ARTICLE VIII

INVESTMENT OF FUNDS; NON ARBITRAGE

Section 8.01. Investments. Any moneys held as a part of the funds and accounts created by this Bond Legislation other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Bond Legislation, the need for such moneys for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Any investment shall be held in and at all times deemed a part of the fund or account in which such moneys were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account except as otherwise provided herein with respect to the Rebate Fund. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission, the Depository Bank, or such other bank or national banking association, as the case may be, shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank, or such other bank or national banking association, as the case may be, may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once each year, or more often as reasonably requested by the Issuer, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any of the Bonds are Outstanding and as long thereafter as necessary to assure the exclusion of interest, if any, on the Bonds from gross income for federal income tax purposes.

Section 8.02. Arbitrage and Tax Exemption. The Issuer covenants that (i) it shall not take, or permit or suffer to be taken, any action with respect to the gross or other proceeds of the Series 2000 C Bonds and the Series 2000 D Bonds which would cause Series 2000 C Bonds or the Series 2000 D Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code, and (ii) it will take any and all actions that may be required of

it (including, without implied limitation, the timely filing of a federal information return with respect to the Series 2000 C Bonds or the Series 2000 D Bonds) so that the interest, if any, on the Series 2000 C Bonds or the Series 2000 D Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions which would adversely affect such exclusion.

Section 8.03. Tax Certificate and Rebate. The Issuer shall deliver a certificate of arbitrage, a tax certificate or other similar certificate to be prepared by nationally recognized bond counsel or tax counsel relating to payment of arbitrage rebate and other tax matters as a condition to issuance of the Series 2000 C Bonds and the Series 2000 D Bonds. In addition, the Issuer covenants to comply with all Regulations from time to time in effect and applicable to the Series 2000 C Bonds and the Series 2000 D Bonds as may be necessary in order to fully comply with Section 148(f) of the Code, and covenants to take such actions, and refrain from taking such actions, as may be necessary to fully comply with such Section 148(f) of the Code and such Regulations, regardless of whether such actions may be contrary to any of the provisions of this Bond Legislation.

The Issuer shall calculate, annually, the rebatable arbitrage, determined in accordance with Section 148(f) of the Code. Upon completion of each such annual calculation, unless otherwise agreed by the Authority, the Issuer shall deposit, or cause to be deposited, in the Rebate Fund such sums as are necessary to cause the aggregate amount on deposit in the Rebate Fund to equal the sum determined to be subject to rebate to the United States, which, notwithstanding anything herein to the contrary, shall be paid from investment earnings on the underlying fund or account established hereunder and on which such rebatable arbitrage was earned or from other lawfully available sources. Notwithstanding anything herein to the contrary, the Rebate Fund shall be held free and clear of any lien or pledge hereunder and shall be used only for payment of rebatable arbitrage to the United States. The Issuer shall pay, or cause to be paid, to the United States, from the Rebate Fund, the rebatable arbitrage in accordance with Section 148(f) of the Code and such Regulations. In the event that there are any amounts remaining in the Rebate Fund following all such payments required by the preceding sentence, the Depository Bank shall pay said amounts to the Issuer to be used for any lawful purpose of the System. The Issuer shall remit payments to the United States in the time and at the address prescribed by the Regulations as the same may be from time to time in effect with such reports and statements as may be prescribed by such Regulations. In the event that, for any reason, amounts in the Rebate Fund are insufficient to make the payments to the United States which are required, the Issuer shall assure that such payments are made by the Issuer to the United States, on a timely basis, from any funds lawfully available therefor. In addition, the Issuer shall cooperate with the Authority in preparing rebate calculations and in all other respects in connection with rebates and hereby consents to the performance of all matters in connection with such rebates by the Authority at the expense of the Issuer. To the extent not so performed by the Authority, the Issuer and the Depository Bank (at the expense of the Issuer) may provide for the

employment of independent attorneys, accountants or consultants compensated on such reasonable basis as the Issuer or the Depository Bank may deem appropriate in order to assure compliance with this Section 8.03. The Issuer shall keep and retain, or cause to be kept and retained, records of the determinations made pursuant to this Section 8.03 in accordance with the requirements of Section 148(f) of the Code and such Regulations. In the event the Issuer fails to make such rebates as required, the Issuer shall pay the required rebate amount and any and all penalties and other amounts, from lawfully available sources, obtain a waiver from the Internal Revenue Service and take any other actions necessary in order to maintain the exclusion of interest on the Series 2000 C Bonds and the Series 2000 D Bonds from gross income for federal income tax purposes.

The Issuer shall furnish to the Authority, annually, and at such time as it is required to perform its rebate calculations under the Code, a certificate with respect to its rebate calculations and, at any time, any additional information relating thereto as may be requested by the Authority. In addition, the Issuer shall cooperate with the Authority in preparing any required rebate calculations and in all other respects in connection with rebates and hereby consents to the performance of all matters in connection with such rebates by the Authority at the expense of the Issuer.

The Issuer shall submit to the Authority within 15 days following the end of each Bond Year a certified copy of its rebate calculation or, if the Issuer qualifies for any exception to rebate, the Issuer shall submit a certificate stating that it is exempt from the rebate provisions and that no event has occurred to its knowledge during the Bond Year which would make the Series 2000 C Bonds and the Series 2000 D Bonds subject to rebate. The Issuer shall also furnish the Authority, at any time, such additional information relating to rebate as may be reasonably requested by the Authority, including information with respect to earnings on all funds constituting "gross proceeds" of the Series 2000 C Bonds and the Series 2000 D Bonds (as such term "gross proceeds" is defined in the Code).

Section 8.04. Certificate as to Use of Proceeds; Covenants as to Use of Proceeds. The Issuer shall deliver a certificate as to use of proceeds or other similar certificate to be prepared by nationally recognized bond counsel relating to restrictions on the use of proceeds of the Series 2000 E Bonds as a condition to issuance of the Series 2000 E Bonds. In addition, the Issuer covenants (i) to comply with the Code and all Regulations from time to time in effect and applicable to the Series 2000 E Bonds as may be necessary in order to maintain the status of the Series 2000 E Bonds as governmental bonds; (ii) that it shall not take, or permit or suffer to be taken, any action with respect to the Issuer's use of the proceeds of the Series 2000 E Bonds which would cause any bonds, the interest on which is exempt from federal income taxation under Section 103(a) of the Code, issued by the Authority or the Council, as the case may be, from which the proceeds of the Series 2000 E Bonds are derived, to lose their status as tax-exempt bonds; and (iii) to take such action, or refrain from taking such action, as shall be deemed necessary by the Issuer, or

requested by the Authority or the Council, to ensure compliance with the covenants and agreements set forth in this Section, regardless of whether such actions may be contrary to any of the provisions of this Resolution.

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Bonds:

(1) If default occurs in the due and punctual payment of the principal of or interest, if any, on any series of the Bonds; or

(2) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to the Bonds set forth in this Bond Legislation, any supplemental resolution or in the Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by the Commission, the Depository Bank, the Registrar or any other Paying Agent or a Holder of a Bond; or

(3) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default, any Registered Owner of a Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his or her rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding enforce all rights of such Registered Owners including the right to require the Issuer to perform its duties under the Act and the Bond Legislation relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon the Bonds, (iv) by action at law or bill in equity require the Issuer to account as if it were the trustee of an express trust for the Registered Owners of the Bonds, and (v) by action or bill in equity enjoin any acts in violation of the Bond Legislation with respect to the Bonds, or the rights of such Registered Owners; provided that, all rights and remedies of the Holders of the Series 2000 A Bonds, the Series 2000 B Bonds, the Series 2000 C Bonds, the Series 2000 D Bonds and the Series 2000 E Bonds shall be on a parity with each other.

Section 9.03. Appointment of Receiver. Any Registered Owner of a Bond may, by proper legal action, compel the performance of the duties of the Issuer under the Bond Legislation and the Act, including, the completion of the Project and after

commencement of operation of the System, the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any Event of Default with respect to such Bonds, any Registered Owner of a Bond shall, in addition to all other remedies or rights, have the right by appropriate legal proceedings to obtain the appointment of a receiver to administer the System or to complete the acquisition and construction of the Project on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of Operating Expenses of the System, the payment of the Bonds and interest and the deposits into the funds and accounts hereby established, and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of this Bond Legislation and the Act.

The receiver so appointed shall forthwith, directly or by his or her or its agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate and maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might exercise.

Whenever all that is due upon the Bonds and interest thereon and under any covenants of this Bond Legislation for reserve, sinking or other funds and upon any other obligations and interest thereon having a charge, lien or encumbrance upon the revenues of the System shall have been paid and made good, and all defaults under the provisions of this Bond Legislation shall have been cured and made good, possession of the System shall be surrendered to the Issuer upon the entry of an order of the court to that effect. Upon any subsequent default, any Registered Owner of any Bonds shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him or her or it, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby, and a successor receiver may be appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Registered Owners of the Bonds. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the completion of the Project and the possession, operation and maintenance of the System for the sole purpose of the protection of both the Issuer and Registered Owners of such Bonds and the curing and making

good of any Event of Default with respect thereto under the provisions of this Bond Legislation, and the title to and ownership of the System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, assign, mortgage or otherwise dispose of any assets of the System.

MINGO COUNTY PUBLIC SERVICE DISTRICT
WATER REVENUE BOND, SERIES 2000 A
(UNITED STATES DEPARTMENT OF AGRICULTURE)

No. AR-1

Date: August 28, 2000

FOR VALUE RECEIVED, the MINGO COUNTY PUBLIC SERVICE DISTRICT (the "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of TWO MILLION TWO HUNDRED THOUSAND DOLLARS ($2,200,000), plus interest on the unpaid principal balance at the rate of 4.5% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $10,098, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, betterments and improvements to the waterworks system (the "System") of Borrower, is payable solely from the revenues to be derived from the operation of the System after there have first been paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Resolution and upon surrender and cancellation of this Bond.

Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Resolution and Supplemental Resolution of the Borrower, both duly adopted on August 21, 2000, authorizing issuance of this Bond (collectively, the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS, WITH THE ISSUER'S (1) WATER REVENUE BONDS, SERIES 2000 B (UNITED STATES DEPARTMENT OF AGRICULTURE), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,000,000; (2) WATER REVENUE BONDS, SERIES 2000 C (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,853,436; (3) WATER REVENUE BONDS, SERIES 2000 D (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $715,000; AND (4) WATER REVENUE BONDS, SERIES 2000 E (WEST VIRGINIA INFRASTRUCTURE FUND), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $8,916,818.

Water Revenue Bonds, Series 2000 A
(United States Department of Agriculture)

Mingo County Public Service District

United States Department of Agriculture
Morgantown, West Virginia

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Mingo County Public Service District in Mingo County, West Virginia (the "Issuer"), of its $2,200,000 Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), dated the date hereof (the "Bonds"), pursuant to Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Bond Resolution duly adopted by the Issuer on August 21, 2000, and a Supplemental Resolution duly adopted by the Issuer on August 21, 2000 (collectively, the Bond Legislation). We have examined the law and such certified copies of proceedings and other papers as we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon the representations of the Issuer contained in the Bond Legislation and in the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion, under existing law, as follows:

1. The Issuer is duly created and validly existing as a public service district and as a public corporation and a political subdivision of the State of West Virginia with corporate power to adopt the Bond Legislation, perform the agreements on its part contained therein and issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Bond Legislation has been duly adopted by the Issuer and constitutes a valid and binding obligation of the Issuer enforceable upon the Issuer.

3. Pursuant to the Act, the Bond Legislation creates a valid lien on the funds pledged by the Bond Legislation for the security of the Bonds on a parity with the Issuer's Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), and Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), issued concurrently herewith, and subject to no other prior lien granted under the Act.

4. The Bonds have been duly authorized, executed and delivered by the Issuer and are valid and binding special obligations of the Issuer, payable solely from the sources provided therefor in the Bond Legislation.

5. The Bonds have not been issued on the basis that the interest, if any, thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia, and the other taxing bodies of said State, and interest on the Bonds is exempt from personal income taxes and corporate net income taxes imposed directly thereon by the State of West Virginia.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Bond Legislation and the liens and pledges set forth therein may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent

constitutionally applicable and that the enforcement thereof may also be subject to the exercise of judicial discretion in appropriate cases.

Very truly yours,

UNITED STATES OF AMERICA
STATE OF WEST VIRGINIA
MINGO COUNTY PUBLIC SERVICE DISTRICT
WATER REVENUE BOND, SERIES 2000 B
(UNITED STATES DEPARTMENT OF AGRICULTURE)

No. BR-1 Date: August 28, 2000

FOR VALUE RECEIVED, the MINGO COUNTY PUBLIC SERVICE DISTRICT (the "Borrower") promises to pay to the order of the United States of America (the "Government"), or its registered assigns, at its National Finance Office, St. Louis, Missouri 63103, or at such other place as the Government may hereafter designate in writing, the principal sum of TWO MILLION DOLLARS ($2,000,000), plus interest on the unpaid principal balance at the rate of 4.5% per annum. The said principal and interest shall be paid in the following installments on the following dates: Monthly installments of interest only, commencing 30 days following delivery of the Bond and continuing on the corresponding day of each month for the first 24 months after the date hereof, and $9,180, covering principal and interest, thereafter on said corresponding day of each month, except that the final installment shall be paid at the end of 40 years from the date of this Bond in the sum of the unpaid principal and interest due on the date thereof, and except that prepayments may be made as provided hereinbelow. The consideration herefor shall support any agreement modifying the foregoing schedule of payments.

If the total amount of the loan is not advanced at the time of loan closing, the loan shall be advanced to Borrower as requested by Borrower and approved by the Government and interest shall accrue on the amount of each advance from its actual date as shown on the Record of Advances attached hereto as a part hereof.

Every payment made on any indebtedness evidenced by this Bond shall be applied first to interest computed to the effective date of the payment and then to principal.

Prepayments of scheduled installments, or any portion thereof, may be made at any time at the option of Borrower. Refunds and extra payments, as defined in the regulations of the Government according to the source of funds involved, shall, after payment of interest, be applied to the installments last to become due under this Bond and shall not affect the obligation of Borrower to pay the remaining installments as scheduled herein.

If the Government at any time assigns this Bond and insures the payment thereof, Borrower shall continue to make payments to the Government as collection agent for the holder.

While this Bond is held by an insured lender, prepayments as above authorized made by Borrower may, at the option of the Government, be remitted by the Government to the holder promptly or, except for final payment, be retained by the Government and remitted to the holder on either a calendar quarter basis or an annual installment due date basis. The effective date of every payment made by Borrower, except payments retained and remitted by the Government on an annual installment due date basis, shall be the date of the United States Treasury check by which the Government remits the payment to the holder. The effective date of any prepayment retained and remitted by the Government to the holder on an annual installment due date basis shall be the date of the prepayment by Borrower and the Government will pay the interest to which the holder is entitled accruing between the effective date of any such prepayment and the date of the Treasury check to the holder.

Any amount advanced or expended by the Government for the collection hereof or to preserve or protect any security herefor, or otherwise under the terms of any security or other instrument executed in connection with the loan evidenced hereby, at the option of the Government shall become a part of and bear interest at the same rate as the principal of the debt evidenced hereby and be immediately due and payable by Borrower to the Government without demand. Borrower agrees to use the loan evidenced hereby solely for purposes authorized by the Government.

Borrower hereby certifies that it is unable to obtain sufficient credit elsewhere to finance its actual needs at reasonable rates and terms, taking into consideration prevailing private and cooperative rates and terms in or near its community for loans for similar purposes and periods of time.

This Bond, together with any additional bonds ranking on a parity herewith which may be issued and outstanding for the purpose of providing funds for financing costs of additions, betterments and improvements to the waterworks system (the "System") of Borrower, is payable solely from the revenues to be derived from the operation of the System after there have first been paid from such revenues the reasonable current costs of operation and maintenance of the System. This Bond does not in any manner constitute an indebtedness of Borrower within the meaning of any constitutional or statutory provision or limitation.

Registration of this Bond is transferable by the registered owner hereof in person or by his, her or its attorney duly authorized in writing, at the office of Borrower, as Bond Registrar, but only in the manner, subject to the limitations and upon payment of the charges, if any, provided in the Resolution and upon surrender and cancellation of this Bond.

Upon such transfer a new Bond or Bonds, of authorized denomination or denominations, for the like principal amount, will be issued to the transferee in exchange herefor.

This Bond, under the provisions of the Act, is and has all the qualities and incidents of a negotiable instrument under the Uniform Commercial Code of the State of West Virginia, but may only be transferred by transfer of registration hereof with the Bond Registrar.

This Bond has been issued under and in full compliance with the Constitution and statutes of the State of West Virginia, including, among others, Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Resolution and Supplemental Resolution of the Borrower, both duly adopted on August 21, 2000, authorizing issuance of this Bond (collectively, the "Resolution").

If at any time it shall appear to the Government that Borrower may be able to obtain a loan from a responsible cooperative or private credit source at reasonable rates and terms for loans for similar purposes and periods of time, Borrower will, at the Government's request, apply for and accept such loan in sufficient amount to repay the Government.

This Bond is given as evidence of a loan to Borrower made or insured by the Government pursuant to the Consolidated Farmers Home Rural Development Act. This Bond shall be subject to the present regulations of the Government and to its future regulations not inconsistent with the express provisions hereof.

THIS BOND IS ISSUED ON A PARITY WITH RESPECT TO LIENS, PLEDGE AND SOURCE OF AND SECURITY FOR PAYMENT, AND IN ALL RESPECTS, WITH THE ISSUER'S (1) WATER REVENUE BONDS, SERIES 2000 A (UNITED STATES DEPARTMENT OF AGRICULTURE), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,200,000; (2) WATER REVENUE BONDS, SERIES 2000 C (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $2,853,436; (3) WATER REVENUE BONDS, SERIES 2000 D (WEST VIRGINIA WATER DEVELOPMENT AUTHORITY), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $715,000; AND (4) WATER REVENUE BONDS, SERIES 2000 E (WEST VIRGINIA INFRASTRUCTURE FUND), DATED AUGUST 28, 2000, ISSUED CONCURRENTLY HEREWITH IN THE ORIGINAL AGGREGATE PRINCIPAL AMOUNT OF $8,916,818.

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Mingo County Public Service District in Mingo County, West Virginia (the "Issuer"), of its $2,000,000 Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), dated the date hereof (the "Bonds"), pursuant to Chapter 16, Article 13A of the West Virginia Code of 1931, as amended (the "Act"), and a Bond Resolution duly adopted by the Issuer on August 21, 2000, and a Supplemental Resolution duly adopted by the Issuer on August 21, 2000 (collectively, the Bond Legislation). We have examined the law and such certified copies of proceedings and other papers as we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied upon the representations of the Issuer contained in the Bond Legislation and in the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion, under existing law, as follows:

1. The Issuer is duly created and validly existing as a public service district and as a public corporation and a political subdivision of the State of West Virginia with corporate power to adopt the Bond Legislation, perform the agreements on its part contained therein and issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Bond Legislation has been duly adopted by the Issuer and constitutes a valid and binding obligation of the Issuer enforceable upon the Issuer.

3. Pursuant to the Act, the Bond Legislation creates a valid lien on the funds pledged by the Bond Legislation for the security of the Bonds on a parity with the Issuer's Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), and Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), issued concurrently herewith, and subject to no other prior lien granted under the Act.

4. The Bonds have been duly authorized, executed and delivered by the Issuer and are valid and binding special obligations of the Issuer, payable solely from the sources provided therefor in the Bond Legislation.

5. The Bonds have not been issued on the basis that the interest, if any, thereon is or will be excluded from the gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia, and the other taxing bodies of said State, and interest on the Bonds is exempt from personal income taxes and corporate net income taxes imposed directly thereon by the State of West Virginia.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Bond Legislation and the liens and pledges set forth therein may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent

constitutionally applicable and that the enforcement thereof may also be subject to the exercise of judicial discretion in appropriate cases.

(WEST VIRGINIA WATER DEVELOPMENT AUTHORITY)

No. CR-1 $2,853,436

KNOW ALL MEN BY THESE PRESENTS: That MINGO COUNTY PUBLIC SERVICE DISTRICT, a public corporation and political subdivision of the State of West Virginia in Mingo County of said State (the "Issuer"), for value received, hereby promises to pay, solely from the special funds provided therefor, as hereinafter set forth, to the West Virginia Water Development Authority (the "Authority") or registered assigns the sum of TWO MILLION EIGHT HUNDRED FIFTY THREE THOUSAND FOUR HUNDRED THIRTY SIX DOLLARS ($2,853,436), in annual installments on October 1 of each year, commencing October 1, 2002, as set forth on the "Debt Service Schedule" attached as Exhibit A hereto and incorporated herein by reference, with interest on each installment at the rate per annum set forth on said Exhibit A.

The interest on each installment shall run from the original date of delivery of this Bond to the Authority and payment therefor, and until payment of such installment, such interest shall be payable semiannually on April 1 and October 1 in each year, commencing April 1, 2001. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent"). The interest on this Bond is payable by check or draft of the Paying Agent mailed to the registered owner hereof at the address as it appears on the books of One Valley Bank, National Association, Charleston, West Virginia, as registrar (the "Registrar"), on the 15th day of the month next preceding an interest payment date, or by such other method as shall be mutually agreeable so long as the Authority is the Registered Owner hereof.

This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority, and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement between the Issuer and the Authority, dated August 22, 2000.

This Bond is issued (i) to pay a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public waterworks system of the Issuer (the "Project"); (ii) to pay interest on the Bonds of this Series (the "Bonds") during the construction of the Project and for not more than 6 months thereafter; and (iii) to

pay certain costs of issuance hereof and related costs. The existing public waterworks system of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System." This Bond is issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly Chapter 16, Article 13A and Chapter 22C, Article 1 of the West Virginia Code of 1931, as amended (collectively, the "Act"), a Bond Resolution duly adopted by the Issuer on August 21, 2000, and a Supplemental Resolution duly adopted by the Issuer on August 21, 2000 (collectively, the "Bond Legislation"), and is subject to all the terms and conditions thereof. Such Net Revenues shall be sufficient to pay the principal of and interest on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. Mingo County Public Service District
Water Revenue Bonds, Series 2000 C
(West Virginia Water Development Authority)

Mingo County Public Service District
Chattaroy, West Virginia

West Virginia Water Development Authority
Charleston, West Virginia

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Mingo County Public Service District (the "Issuer"), a public service district and public corporation and political subdivision created and existing under the laws of the State of West Virginia, of its $2,853,436 Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority), dated the date hereof (the "Bonds").

We have examined the law and certified copies of proceedings and other papers relating to the authorization of a loan agreement, dated August 22, 2000, including all schedules and exhibits attached thereto (the "Loan Agreement"), by and between the Issuer and the West Virginia Water Development Authority (the "Authority") and the Bonds, which are to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Bonds are originally issued in the form of one bond, registered as to principal and interest to the Authority, with interest payable April 1 and October 1 of each year, commencing April 1, 2001, at the rate of 5.8% per annum, and with principal installments payable on October 1 of each year, commencing October 1, 2002, and ending October 1, 2039, all as set forth in the "Schedule Y," attached to the Loan Agreement and incorporated in and made a part of the Bonds.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 22C, Article 1 of the West Virginia Code of 1931, as amended (collectively, the "Act"), for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions

to the existing public waterworks system of the Issuer (the "Project"); (ii) paying interest on the Bonds prior to and during the acquisition and construction of the Project and for a period not to exceed 6 months after completion of acquisition and construction of the Project; and (iii) paying certain costs of issuance and related costs.

We have also examined the applicable provisions of the Act, the Bond Resolution duly adopted by the Issuer on August 21, 2000, as supplemented by a Supplemental Resolution duly adopted by the Issuer on August 21, 2000 (collectively, the "Bond Legislation"), pursuant to and under which Act and Bond Legislation the Bonds are authorized and issued, and the Loan Agreement has been entered into. The Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Bond Legislation and the Loan Agreement.

In connection with the issuance of the Bonds, the Issuer has executed a Certificate as to Arbitrage, dated as of the date hereof (the "Certificate as to Arbitrage"), which, among other things, sets forth restrictions on the investment and expenditure of the Bond proceeds and earnings thereon, to ensure that the arbitrage requirements of the Internal Revenue Code of 1986, as amended, and regulations thereunder (collectively, the "Code"), necessary to establish and maintain the excludability of interest on the Bonds from gross income for federal income tax purposes, are and will continue to be met.

Based upon the foregoing, and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district, public corporation and political subdivision of the State of West Virginia, with corporate power and authority to acquire and construct the Project, to operate and maintain the System, to adopt the Bond Legislation and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer, is a valid and binding special obligation of the Issuer enforceable in accordance with the terms thereof, and inures to the benefit of the Authority and cannot be amended by the Issuer so as to affect adversely the rights of the Authority or diminish the obligations of the Issuer without the written consent of the Authority.

3. The Bond Legislation and all other necessary orders and resolutions have been duly and effectively adopted by the Issuer and constitute valid and binding obligations of the Issuer enforceable upon the Issuer. The Bond Legislation contains

provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

4. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), and Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), issued concurrently herewith, all in accordance with the terms of the Bonds and the Bond Legislation.

5. Under existing laws, regulations, rulings and judicial decisions of the United States of America, as presently written and applied, the interest on the Bonds (a) is excludable from gross income of the owners thereof for federal income tax purposes pursuant to the Code and (b) is not an item of tax preference for purposes of the federal alternative minimum tax imposed upon individuals and corporations under the Code. It should be noted, however, that interest on the Bonds is included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax that may be imposed with respect to corporations. The opinions set forth above are subject to the condition that the Issuer comply, on a continuing basis, with all requirements of the Code that must be satisfied subsequent to issuance of the Bonds for interest thereon to be or continue to be excludable from gross income for federal income tax purposes and all certifications, covenants and representations which may affect the excludability from gross income of the interest on the Bonds set forth in the Bond Legislation and the Certificate as to Arbitrage, and other certificates delivered in connection with the issuance of the Bonds. Failure to comply with certain of such Code provisions or such certifications, covenants and representations could cause the interest on the Bonds to be includable in gross income retroactive to the date of issuance of the Bonds. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia, and the other taxing bodies of the State, and the interest on the Bonds is exempt from personal and corporate income taxes imposed directly thereon by the State of West Virginia.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Loan Agreement, the Bond Legislation and the liens and

pledges set forth therein, may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Bond numbered CR-1, and in our opinion the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

STEPTOE & JOHNSON

(WEST VIRGINIA WATER DEVELOPMENT AUTHORITY)

No. DR-1 $715,000

KNOW ALL MEN BY THESE PRESENTS: That MINGO COUNTY PUBLIC SERVICE DISTRICT, a public corporation and political subdivision of the State of West Virginia in Mingo County of said State (the "Issuer"), for value received, hereby promises to pay, solely from the special funds provided therefor, as hereinafter set forth, to the West Virginia Water Development Authority (the "Authority") or registered assigns the sum of SEVEN HUNDRED FIFTEEN THOUSAND DOLLARS ($715,000), in annual installments on October 1 of each year, commencing October 1, 2002, as set forth on the "Debt Service Schedule" attached as Exhibit A hereto and incorporated herein by reference, with interest on each installment at the rate per annum set forth on said Exhibit A.

The interest on each installment shall run from the original date of delivery of this Bond to the Authority and payment therefor, and until payment of such installment, such interest shall be payable semiannually on April 1 and October 1 in each year, commencing April 1, 2001. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent"). The interest on this Bond is payable by check or draft of the Paying Agent mailed to the registered owner hereof at the address as it appears on the books of One Valley Bank, National Association, Charleston, West Virginia, as registrar (the "Registrar"), on the 15th day of the month next preceding an interest payment date, or by such other method as shall be mutually agreeable so long as the Authority is the Registered Owner hereof.

This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority, and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement between the Issuer and the Authority, dated August 22, 2000.

This Bond is issued (i) to pay a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public waterworks system of the Issuer (the "Project"); (ii) to pay interest on the Bonds of this Series (the "Bonds") during the construction of the Project and for not more than 6 months thereafter; and (iii) to pay certain costs of issuance hereof and related costs. The existing public waterworks system

of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System." Such Net Revenues shall be sufficient to pay the principal of and interest on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute a corporate indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same or the interest hereon except from said special fund provided from the Net Revenues, the moneys in the Series 2000 D Bonds Reserve Account and unexpended proceeds of the Bonds. Subject to the registration requirements set forth herein, this Bond is transferable, as provided in the Bond Legislation, only upon the books of the Registrar by the registered owner, or by its attorney duly authorized in writing, upon the surrender of this Bond, together with a written instrument of transfer satisfactory to the Registrar, duly executed by the registered owner or its attorney duly authorized in writing.

Subject to the registration requirements set forth herein, this Bond, under the provision of the Act is, and has all the qualities and incidents of, a negotiable instrument under the Uniform Commercial Code of the State of West Virginia.

Water Revenue Bonds, Series 2000 D
(West Virginia Water Development Authority)

Mingo County Public Service District
Chattaroy, West Virginia

West Virginia Water Development Authority
Charleston, West Virginia

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Mingo County Public Service District (the "Issuer"), a public service district and public corporation and political subdivision created and existing under the laws of the State of West Virginia, of its $715,000 Water Revenue Bonds, Series 2000 D (West Virginia Water Development Authority), dated the date hereof (the "Bonds").

We have examined the law and certified copies of proceedings and other papers relating to the authorization of a loan agreement, dated August 22, 2000, including all schedules and exhibits attached thereto (the "Loan Agreement"), by and between the Issuer and the West Virginia Water Development Authority (the "Authority") and the Bonds, which are to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Bonds are originally issued in the form of one bond, registered as to principal and interest to the Authority, with interest payable April 1 and October 1 of each year, commencing April 1, 2001, at the rate of 5.8% per annum, and with principal installments payable on October 1 of each year, commencing October 1, 2002, and ending October 1, 2039, all as set forth in the "Schedule Y," attached to the Loan Agreement and incorporated in and made a part of the Bonds.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 22C, Article 1 of the West Virginia Code of 1931, as amended (collectively, the "Act"), for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public waterworks system of the Issuer (the "Project"); (ii) paying interest on the Bonds and during acquisition and construction of the Project and for a period not to exceed 6 months after completion of acquisition and construction of the Project; and (iii) paying certain costs of issuance and related costs.

We have also examined the applicable provisions of the Act, the Bond Resolution duly adopted by the Issuer on August 21, 2000, as supplemented by a Supplemental Resolution duly adopted by the Issuer on August 21, 2000 (collectively, the "Bond Legislation"), pursuant to and under which Act and Bond Legislation the Bonds are authorized and issued, and the Loan Agreement has been entered into. The Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Bond Legislation and the Loan Agreement.

In connection with the issuance of the Bonds, the Issuer has executed a Certificate as to Arbitrage, dated as of the date hereof (the "Certificate as to Arbitrage"), which, among other things, sets forth restrictions on the investment and expenditure of the Bond proceeds and earnings thereon, to ensure that the arbitrage requirements of the Internal Revenue Code of 1986, as amended, and regulations thereunder (collectively, the "Code"), necessary to establish and maintain the excludability of interest on the Bonds from gross income for federal income tax purposes, are and will continue to be met.

Based upon the foregoing, and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district, public corporation and political subdivision of the State of West Virginia, with corporate power and authority to acquire and construct the Project, to operate and maintain the System, to adopt the Bond Legislation and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer, is a valid and binding special obligation of the Issuer enforceable in accordance with the terms thereof, and inures to the benefit of the Authority and cannot be amended by the Issuer so as to affect adversely the rights of the Authority or diminish the obligations of the Issuer without the written consent of the Authority.

3. The Bond Legislation and all other necessary orders and resolutions have been duly and effectively adopted by the Issuer and constitute valid and binding obligations of the Issuer enforceable upon the Issuer. The Bond Legislation contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

4. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Water Revenue Bonds, Series 2000 A (United States Department of Agriculture), Water Revenue Bonds, Series 2000 B (United States Department of Agriculture), Water Revenue Bonds, Series 2000 C (West Virginia Water Development Authority) and Water Revenue Bonds, Series 2000 E (West Virginia Infrastructure Fund), issued concurrently herewith, all in accordance with the terms of the Bonds and the Bond Legislation.

5. Under existing laws, regulations, rulings and judicial decisions of the United States of America, as presently written and applied, the interest on the Bonds (a) is excludable from gross income of the owners thereof for federal income tax purposes pursuant to the Code and (b) is not an item of tax preference for purposes of the federal alternative minimum tax imposed upon individuals and corporations under the Code. It should be noted, however, that interest on the Bonds is included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax that may be imposed with respect to corporations. The opinions set forth above are subject to the condition that the Issuer comply, on a continuing basis, with all requirements of the Code that must be satisfied subsequent to issuance of the Bonds for interest thereon to be or continue to be excludable from gross income for federal income tax purposes and all certifications, covenants and representations which may affect the excludability from gross income of the interest on the Bonds set forth in the Bond Legislation and the Certificate as to Arbitrage, and other certificates delivered in connection with the issuance of the Bonds. Failure to comply with certain of such Code provisions or such certifications, covenants and representations could cause the interest on the Bonds to be includable in gross income retroactive to the date of issuance of the Bonds. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia, and the other taxing bodies of the State, and the interest on the Bonds is exempt from personal and corporate income taxes imposed directly thereon by the State of West Virginia.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Loan Agreement, the Bond Legislation and the liens and pledges set forth therein, may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Bond numbered DR-1, and in our opinion the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

STEPTOE & JOHNSON

KNOW ALL MEN BY THESE PRESENTS: That MINGO COUNTY PUBLIC SERVICE DISTRICT, a public corporation and political subdivision of the State of West Virginia in Mingo County of said State (the "Issuer"), for value received, hereby promises to pay, solely from the special funds provided therefor, as hereinafter set forth, to the West Virginia Water Development Authority (the "Authority") or registered assigns the sum of EIGHT MILLION NINE HUNDRED SIXTEEN THOUSAND EIGHT HUNDRED EIGHTEEN DOLLARS ($8,916,818), or such lesser amount as shall have been advanced to the Issuer hereunder and not previously repaid, as set forth in the "Record of Advances" attached as EXHIBIT A hereto and incorporated herein by reference, in quarterly installments on March 1, June 1, September 1 and December 1 of each year, commencing December 1, 2002, as set forth on the "Debt Service Schedule" attached as EXHIBIT B hereto and incorporated herein by reference.

This Bond shall bear no interest. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent").

This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority and the West Virginia Infrastructure and Jobs Development Council (the "Council"), and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement by and between the Issuer and the Authority, on behalf of the Council, dated August 22, 2000.

This Bond is issued (i) to pay a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public waterworks system of the Issuer (the "Project"); (ii) to pay in full the entire outstanding principal of, all interest accrued on, if any, and the administrative fee for, if any, the Issuer's Waterworks System Design Notes, Series 1998 (West Virginia Infrastructure Fund) and Waterworks System Design Notes, Series 1999 (West Virginia Infrastructure Fund); and (iii) to pay certain costs of issuance of the Bonds of this Series (the "Bonds") and related costs. The existing public waterworks system of the Issuer, the Project and any further improvements or extensions

Such Net Revenues shall be sufficient to pay the principal of and interest, if any, on all bonds which may be issued pursuant to the Act and shall be set aside as a special fund hereby pledged for such purpose. This Bond does not constitute a corporate indebtedness of the Issuer within the meaning of any constitutional or statutory provisions or limitations, nor shall the Issuer be obligated to pay the same, except from said special fund provided from the Net Revenues, the moneys in the Series 2000 E Bonds Reserve Account and unexpended proceeds of the Bonds.
