BE IT RESOLVED BY THE PUBLIC SERVICE BOARD OF PEA RIDGE PUBLIC SERVICE DISTRICT:

ARTICLE I

STATUTORY AUTHORITY, FINDINGS AND DEFINITIONS

Section 1.01. Authority for this Resolution. This Resolution (together with any order or resolution supplemental hereto or amendatory hereof, the "Bond Legislation") is adopted pursuant to the provisions of Chapter 16, Article 13A, Chapter 22C, Article 2 and Chapter 22C, Article 1 of the West Virginia Code of 1931, as amended (collectively, the "Act"), and other applicable provisions of law.

Section 1.02. Findings. It is hereby found, determined and declared that:

A. Pea Ridge Public Service District (the "Issuer") is a public service district and a public corporation and political subdivision of the State of West Virginia in Cabell County of said State.

B. The Issuer presently owns and operates a public sewerage system. However, it is deemed necessary and desirable for the health, safety, advantage, convenience and welfare of the inhabitants of the Issuer that there be acquired and constructed certain improvements and extensions to the existing public sewerage system of the Issuer, consisting of extensions of service to over 400 new customers, rehabilitation of the majority of the Issuer's pump stations, upgrade of several areas of inadequate force mains, stations, improvements to two treatment plants, elimination of the sewer lagoon serving Guyan Estates and construction of a new office building, together with all appurtenant facilities (collectively, the "Project"), which constitute properties for the collection, treatment, purification or disposal of liquid or solid wastes, sewage or industrial wastes (the existing public sewerage facilities of the Issuer, the Project and any further improvements or extensions thereto are herein called the "System") in accordance with the plans and specifications prepared by the Consulting Engineers, which plans and specifications have heretofore been filed with the Issuer.

C. The Issuer intends to permanently finance a portion of the costs of acquisition and construction of the Project through the issuance of its revenue bonds to the West Virginia Water Development Authority (the "Authority") pursuant to the Act.

D. It is deemed necessary for the Issuer to issue its Sewer Revenue Bonds, in the total aggregate principal amount of not more than \$12,529,500, in the two series, being the Sewer Revenue Bonds, Series 2003 A (West Virginia SRF Program), in the aggregate principal amount of \$12,429,500 (the "Series 2003 A Bonds"), and the Sewer Revenue Bonds, Series 2003 B (West Virginia Water Development Authority), in the aggregate principal amount of \$100,000 (the "Series 2003 B Bonds"), to permanently finance a portion of the costs of acquisition and construction of the Project (collectively, the "Series 2003 Bonds"). The remaining costs of the Project shall be funded from the sources set forth in Section 2.01 hereof. Said costs shall be deemed to include the cost of all property rights, easements and franchises deemed necessary or convenient therefor; interest, if any, upon the Series 2003 Bonds prior to and during acquisition and construction of the Project and for a period not exceeding six months after completion of acquisition and construction of the Project; amounts which may be deposited in the respective Reserve Accounts (as hereinafter defined); engineering and legal expenses; expenses for estimates of costs and revenues, expenses for plans, specifications and surveys; other expenses necessary or incident to determining the feasibility or practicability of the enterprise, administrative expense, commitment fees, fees and expenses of the Authority, including the SRF Administrative Fee (as hereinafter defined), discount, initial fees for the services of registrars, paying agents, depositories or trustees or other costs in connection with the sale of the Series 2003 Bonds and such other expenses as may be necessary or incidental to the financing herein authorized, the cost of acquisition and construction of the Project, and the performance of the things herein required or permitted, in connection with any thereof; provided, that reimbursement to the Issuer for any amounts expended by it for allowable costs prior to the issuance of the

Series 2003 Bonds or the repayment of indebtedness incurred by the Issuer for such purposes shall be deemed Costs of the Project, as hereinafter defined.

E. The period of usefulness of the System after completion of the Project is not less than 40 years.

F. It is in the best interests of the Issuer that the Series 2003 A Bonds be sold to the Authority pursuant to the terms and provisions of a bond purchase agreement by and among the Issuer, the Authority and the West Virginia Department of Environmental Protection (the "DEP"), in form satisfactory to the Issuer, the Authority and the DEP (the "SRF Loan Agreement"), and that the Series 2003 B Bonds be sold to the Authority pursuant to the terms and provisions of the loan agreement by and between the Issuer and the Authority (the "WDA Loan Agreement" and, collectively with the SRF Loan Agreement, the "Loan Agreements"), both of which are approved hereby if not previously approved by resolution of the Issuer.

G. There are outstanding obligations of the Issuer which will rank on a parity with the Series 2003 Bonds as to liens, pledge and source of and security for payment, being the Sewer Revenue Bonds, Series 1992 (West Virginia SRF Program), dated December 28, 1992, issued in the original aggregate principal amount of \$1,250,000 (the "Series 1992 Bonds"), the Sewer Refunding Revenue Bonds, Series 1994, dated November 1, 1994, issued in the original aggregate principal amount of \$3,035,000 (the "Series 1994 Bonds"), and the Sewerage System Design Revenue Bonds, Series 2000 (West Virginia SRF Program), dated March 7, 2000, issued in the original aggregate principal amount of \$477,000 (the "Series 2000 Bonds" and, collectively with the Series 1992 Bonds and the Series 1994 Bonds, the "Prior Bonds").

The Series 2003 Bonds shall be issued on a parity with the Prior Bonds. Prior to the issuance of the Series 2003 Bonds, the Issuer will obtain the certificate of an Independent Certified Public Accountant stating that the coverage and parity tests of the Prior Bonds are met and the written consent of the Holders of the Series 1992 Bonds and the Series 2000 Bonds to the issuance of the Series 2003 Bonds on a parity with the Series 1992 Bonds and the Series 2000 Bonds. The Issuer is not required to obtain the consent of the Holders of the Series 1994 Bonds. Other than the Prior Bonds, there are no outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System.

H. The estimated revenues to be derived in each year following completion of the Project from the operation of the System will be sufficient to pay all costs of operation and maintenance of the System and the principal of and interest on the Bonds, and to make payments into all Sinking Funds, Reserve Accounts and other payments provided for herein, all as such terms are hereinafter defined.

I. The Issuer has complied with all requirements of West Virginia law and the Loan Agreements relating to authorization of the acquisition, construction and operation of the Project and the System and issuance of the Series 2003 Bonds, or will have so complied prior to issuance of any thereof, including, among other things and without limitation, the approval of the Project and the financing hereof by the West Virginia Infrastructure and Jobs Development Council and the obtaining of a certificate of public convenience and necessity, if necessary, and approval of this financing and necessary user rates and charges described herein from the Public Service Commission of West Virginia by final order, the time for rehearing and appeal of which will either have expired prior to the issuance of the Series 2003 Bonds or such final order will not be subject to appeal or rehearing.

J. The Project has been approved by the West Virginia Infrastructure and Jobs Development Council (the "Council") as required under Chapter 31, Article 15A of the West Virginia Code of 1931, as amended.

The payment of the debt service of the Series 2003 Bonds shall be secured by a first lien on the Net Revenues derived from the System, on a parity with the lien on such Net Revenues in favor of the Holders of the Prior Bonds. Such Net Revenues in an amount sufficient to pay the principal of and interest on and other payments for the Prior Bonds and the Series 2003 Bonds and to make all other payments provided for in the Bond Legislation, are hereby irrevocably pledged to such payments as they become due.

(5) The Issuer shall next, on the first day of each month, from the monies remaining in the Revenue Fund, transfer to the Depreciation Fund, a sum equal to 2 1/2% of the Gross Revenues each month (as previously set forth in the Prior Resolutions and not in addition thereto), exclusive of any payments for account of any Reserve Account. All funds in the Depreciation Fund shall be kept apart from all other funds of the Issuer or of the Depository Bank and shall be invested and reinvested in accordance with Article VIII hereof. Withdrawals and disbursements may be made from the Depreciation Fund for replacements, repairs, improvements or extensions to the System; provided, that any deficiencies in any Reserve Account (except to the extent such deficiency exists because the required payments into such account have not, as of the date of determination of a deficiency, funded such account to the maximum extent required hereof) shall be promptly eliminated with monies from the Depreciation Fund.

Monies in the Series 2003 A Bonds Sinking Fund shall be used only for the purpose of paying principal of and interest, if any, on the Series 2003 A Bonds as the same shall become due. Monies in the Series 2003 A Bonds Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the Series 2003 A Bonds as the same shall come due, when other monies in the Series 2003 A Bonds Sinking Fund are insufficient therefor, and for no other purpose.

Monies in the Series 2003 B Bonds Sinking Fund shall be used only for the purpose of paying principal of and interest, if any, on the Series 2003 B Bonds as the same shall become due. Monies in the Series 2003 B Bonds Reserve Account shall be used only for the purpose of paying principal of and interest, if any, on the Series 2003 B Bonds as the

same shall come due, when other monies in the Series 2003 B Bonds Sinking Fund are insufficient therefor, and for no other purpose.

All investment earnings on monies in the Series 2003 A Bonds Sinking Fund and the Series 2003 A Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall, during construction of the Project, be deposited in the Series 2003 A Bonds Construction Trust Fund, and following completion of construction of the Project, shall be deposited in the Revenue Fund and applied in full to the next ensuing principal payment due on the Series 2003 A Bonds.

Any withdrawals from the Series 2003 A Bonds Reserve Account which result in a reduction in the balance therein below the Series 2003 A Bonds Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full in the order set forth above.

Except to the extent transferred to the Series 2003 B Bonds Rebate Fund at the request of the Issuer, all investment earnings on monies in the Series 2003 B Bonds Sinking Fund and the Series 2003 B Bonds Reserve Account shall be returned, not less than once each year, by the Commission to the Issuer, and such amounts shall, during construction of the Project, be deposited in the Series 2003 B Bonds Construction Trust Fund and following completion of construction of the Project, shall be deposited in the Revenue Fund and applied in full, first to the next ensuing interest payment due on the Series 2003 B Bonds, and then to the next ensuing principal payment due thereon.

Except to the extent transferred to the Series 2003 B Bonds Rebate Fund at the request of the Issuer, any withdrawals from the Series 2003 B Bonds Reserve Account which result in a reduction in the balance therein below the Series 2003 B Bonds Reserve Requirement shall be subsequently restored from the first Net Revenues available after all required payments have been made in full in the order set forth above.

As and when additional Bonds ranking on a parity with the Series 2003 Bonds are issued, provision shall be made for additional payments into the respective sinking funds sufficient to pay the interest on such additional parity Bonds and accomplish retirement thereof at maturity and to accumulate a balance in the respective reserve accounts in an amount equal to the requirement therefor.

The Issuer shall not be required to make any further payments into the respective Series 2003 Bonds Sinking Funds or the respective Series 2003 Bonds Reserve Accounts when the aggregate amount of funds therein are at least equal to the aggregate principal amount of the Series 2003 Bonds issued pursuant to this Bond Legislation then Outstanding and all interest, if any, to accrue until the maturity thereof.

Principal, interest or reserve account payments, whether made for a deficiency or otherwise, shall be made on a parity and pro rata, with respect to the Series 2003 Bonds and the Prior Bonds, in accordance with the respective principal amounts then Outstanding.

The Commission is hereby designated as the fiscal agent for the administration of the respective Series 2003 Bonds Sinking Funds and the respective Series 2003 Bonds Reserve Accounts created hereunder, and all amounts required for said accounts shall be remitted to the Commission from the Revenue Fund by the Issuer at the times provided herein. If required by the Authority at anytime, the Issuer shall make the necessary arrangements whereby required payments into the respective Series 2003 Bonds Sinking Funds and the respective Series 2003 Bonds Reserve Accounts shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required hereunder.

Monies in the respective Series 2003 Bonds Sinking Funds and the respective Series 2003 Bonds Reserve Accounts shall be invested and reinvested by the Commission in accordance with Section 8.01 hereof.

The Series 2003 A Bonds Sinking Fund and the Series 2003 A Bonds Reserve Account shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Series 2003 A Bonds under the conditions and restrictions set forth herein.

The Series 2003 B Bonds Sinking Fund and the Series 2003 B Bonds Reserve Account shall be used solely and only for, and are hereby pledged for, the purpose of servicing the Series 2003 B Bonds under the conditions and restrictions set forth herein.

B. The Issuer shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required principal, interest and reserve account payments with respect to the Series 2003 Bonds and all such payments shall be remitted to the Commission with appropriate instructions as to the custody, use and application thereof consistent with the provisions of this Bond Legislation. The Issuer shall also on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the SRF Administrative Fee as set forth in the Schedule Y attached to the SRF Loan Agreement.

C. The Issuer shall complete the "Monthly Payment Form," a form of which is attached to the Loan Agreements, and submit a copy of said form along with a copy of its payment check to the Authority by the 5th day of such calendar month.

D. Whenever all of the required and provided transfers and payments from the Revenue Fund into the several special funds, as hereinbefore provided, are current and there remains in the Revenue Fund a balance in excess of the estimated amounts required to

be so transferred and paid into such funds during the following month or such other period as required by law, such excess shall be considered Surplus Revenues. Surplus Revenues may be used for any lawful purpose of the System.

E. The Issuer shall remit from the Revenue Fund to the Commission, the Registrar, the Paying Agent or the Depository Bank, on such dates as the Commission, the Registrar, the Paying Agent or the Depository Bank, as the case may be, shall require, such additional sums as shall be necessary to pay their respective charges and fees then due. In the case of payments to the Commission under this paragraph, the Issuer shall, if required by the Authority at anytime, make the necessary arrangements whereby such required payments shall be automatically debited from the Revenue Fund and electronically transferred to the Commission on the dates required.

F. The monies in excess of the sum insured by the maximum amounts insured by FDIC in any of the funds and accounts shall at all times be secured, to the full extent thereof in excess of such insured sum, by Qualified Investments as shall be eligible as security for deposits of state and municipal funds under the laws of the State.

G. If on any monthly payment date the revenues are insufficient to place the required amount in any of the funds and accounts as hereinabove provided, the deficiency shall be made up in the subsequent payments in addition to the payments which would otherwise be required to be made into the funds and accounts on the subsequent payment dates; provided, however, that the priority of curing deficiencies in the funds and accounts herein shall be in the same order as payments are to be made pursuant to this Section 5.03, and the Net Revenues shall be applied to such deficiencies before being applied to any other payments hereunder.

H. All remittances made by the Issuer to the Commission shall clearly identify the fund or account into which each amount is to be deposited.

I. The Gross Revenues of the System shall only be used for purposes of the System.

Any remaining proceeds thereafter shall be used as directed by the Authority.

On or before the Closing Date, the Issuer shall have delivered to the Authority and the DEP a report listing the specific purposes for which the proceeds of the Series 2003 A Bonds will be expended and the disbursement procedures for such proceeds, including an estimated monthly draw schedule. Payments of all Costs of the Project shall be made monthly.

In case any contract provides for the retention of a portion of the contract price, the Depository Bank shall disburse from the Series 2003 B Bonds Construction Trust Fund only the net amount remaining after deduction of any such portion. All payments made from the Series 2003 B Bonds Construction Trust Funds shall be presumed by the Depository Bank to be made for the purposes set forth in said certificate, and the Depository Bank shall not be required to monitor the application of disbursements from the Series 2003 B Bonds Construction Trust Funds. ARTICLE VII

ADDITIONAL COVENANTS OF THE ISSUER

Section 7.01. General Covenants of the Issuer. All the covenants, agreements and provisions of this Bond Legislation shall be and constitute valid and legally binding covenants of the Issuer and shall be enforceable in any court of competent jurisdiction by any Holder or Holders of the Bonds. In addition to the other covenants, agreements and provisions of this Bond Legislation, the Issuer hereby covenants and agrees with the Holders of the Series 2003 Bonds as hereinafter provided in this Article VII. All such covenants, agreements and provisions shall be irrevocable, except as provided herein, as long as any of the Series 2003 Bonds or the interest, if any, thereon is Outstanding and unpaid.

Section 7.02. Bonds not to be Indebtedness of the Issuer. The Series 2003 Bonds shall not be nor constitute an indebtedness of the Issuer within the meaning of any constitutional, statutory or charter limitation of indebtedness, but shall be payable solely from the funds pledged for such payment by this Bond Legislation. No Holder or Holders of the Series 2003 Bonds shall ever have the right to compel the exercise of the taxing power of the Issuer, if any, to pay the Series 2003 Bonds or the interest, if any, thereon.

Section 7.03. Bonds Secured by Pledge of Net Revenues; Lien Positions with Respect to Prior Bonds. The payment of the debt service of the Series 2003 Bonds shall be secured by a first lien on the Net Revenues derived from the System, on a parity with the lien on such Net Revenues in favor of the Holders of the Prior Bonds. The Net Revenues in an amount sufficient to pay the principal of and interest on the Prior Bonds and the Series 2003 Bonds and to make the payments into all funds and accounts and all other payments provided for in the Bond Legislation, are hereby irrevocably pledged, in the manner provided herein, to such payments as they become due, and for the other purposes provided in the Bond Legislation.

Section 7.04. Initial Schedule of Rates and Charges. The Issuer has obtained any and all approvals of rates and charges required by State law and has taken any other action required to establish and impose such rates and charges, with all requisite appeal periods having expired without successful appeal. Such rates and charges shall be sufficient to comply with the requirements of the Loan Agreements. The initial schedule of rates and charges for the services and facilities of the System shall be as set forth and approved and described in the Final Order of the Public Service Commission of West Virginia entered March 23, 2003, in Case No. 02-1213-PSD-CN, and such rates are hereby adopted.

So long as the Series 2003 Bonds are outstanding, the Issuer covenants and agrees to fix and collect rates, fees and other charges for the use of the System and to take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Bond Legislation and in compliance with the Loan Agreements. In the event the schedule of rates and charges initially established for the System in connection with the Series 2003 Bonds shall prove to be insufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements, the Issuer hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates and charges and take all such actions necessary to provide funds sufficient to produce the required sums set forth in this Bond Legislation and the Loan Agreements.

Section 7.05. Sale of the System. So long as the Prior Bonds are outstanding, the Issuer shall not sell, mortgage, lease or otherwise dispose of the System, or any part thereof, except as provided in the Prior Resolutions. Additionally, so long as the Series 2003 Bonds are outstanding and except as otherwise required by law or with the written consent of the Authority and the DEP, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to fully pay all the Bonds Outstanding in accordance with Article X hereof. The proceeds from any such sale, mortgage, lease or other disposition of the System shall, with respect to the respective Series 2003 Bonds, immediately be remitted to the Commission for deposit in the respective Series 2003 Bonds Sinking Fund, and, with the written permission of the Authority, or in the event the Authority is no longer a Bondholder, the Issuer shall direct the Commission to apply such proceeds to the payment of principal of and interest, if any, on the respective Series 2003 Bonds. Any balance remaining after the payment of the respective Series 2003 Bonds and interest, if any, thereon shall be remitted to the Issuer by the Commission unless necessary for the payment of other obligations of the Issuer payable out of the revenues of the System.

The foregoing provision notwithstanding, the Issuer shall have and hereby reserves the right to sell, lease or otherwise dispose of any of the property comprising a part of the System hereinafter determined in the manner provided herein to be no longer necessary, useful or profitable in the operation thereof. Prior to any such sale, lease or other disposition of such property, if the amount to be received therefor, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, is not in excess of \$10,000, the Issuer shall, by resolution, determine that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and may then provide for the sale of such property. The proceeds of any such sale shall be deposited in the Revenue Fund. If the amount to be received from such sale, lease or other disposition of said property, together with all other amounts received during the same Fiscal Year for such sales, leases or other dispositions of such properties, shall be in excess of \$10,000 but not in excess of \$50,000, the Issuer shall first, determine upon consultation with the Consulting Engineers that such property comprising a part of the System is no longer necessary, useful or profitable in the operation thereof and

may then, if it be so advised, by resolution duly adopted, authorize such sale, lease or other disposition of such property upon public bidding. The proceeds derived from any such sale, lease or other disposition of such property, aggregating during such Fiscal Year in excess of \$10,000 and not in excess of \$50,000, shall with the written consent of the Authority, be remitted by the Issuer to the Commission for deposit in the Sinking Funds and shall be applied only to the purchase of Bonds of the last maturities then Outstanding at prices not greater than the par value thereof plus 3% of such par value. Such payment of such proceeds into the Sinking Funds or the Revenue Fund shall not reduce the amounts required to be paid into said funds by other provisions of this Bond Legislation. No sale, lease or other disposition of the properties of the System shall be made by the Issuer if the proceeds to be derived therefrom, together with all other amounts received during the same Fiscal Year for such sales, leases, or other dispositions of such properties, shall be in excess of \$50,000 and insufficient to pay all Bonds then Outstanding without the prior approval and consent in writing of the Holders, or their duly authorized representatives, of the Bonds then Outstanding. The Issuer shall prepare the form of such approval and consent for execution by the then Holders of the Bonds for the disposition of the proceeds of the sale, lease or other disposition of such properties of the System.

Section 7.06. Issuance of Other Obligations Payable Out of Revenues and General Covenant Against Encumbrances. Except as provided in this Section 7.06 and Section 7.07 hereof, the Issuer shall not issue any obligations whatsoever payable from the revenues of the System which rank prior to, or equally, as to lien on and source of and security for payment from such revenues with the Series 2003 Bonds. All obligations issued by the Issuer after the issuance of the Series 2003 Bonds and payable from the revenues of the System, except such additional parity Bonds, shall contain an express statement that such obligations are junior and subordinate, as to lien on, pledge and source of and security for payment from such revenues and in all other respects, to the Series 2003 Bonds; provided, that no such subordinate obligations shall be issued unless all payments required to be made into all funds and accounts set forth herein have been made and are current at the time of the issuance of such subordinate obligations.

Except as provided above, the Issuer shall not create, or cause or permit to be created, any debt, lien, pledge, assignment, encumbrance or any other charge having priority over or being on a parity with the lien of the Series 2003 Bonds, and the interest thereon, if any, upon any or all of the income and revenues of the System pledged for payment of the Series 2003 Bonds and the interest thereon, if any, in this Bond Legislation, or upon the System or any part thereof.

The Issuer shall give the Authority and the DEP prior written notice of its issuance of any other obligations to be used for the System, payable from the revenues of the System or from any grants, or any other obligations related to the Project or the System.

Section 7.07. Parity Bonds. So long as the Prior Bonds are outstanding, the limitations on the issuance of parity obligations set forth in the Prior Resolutions shall be applicable. Additionally, no Parity Bonds, payable out of the revenues of the System, shall be issued after the issuance of the Series 2003 Bonds pursuant to this Bond Legislation, except with the prior written consent of the DEP and the Authority under the conditions and in the manner herein provided (unless less restrictive than the provisions of the Prior Resolutions).

All Parity Bonds issued hereunder shall be on a parity in all respects with the Series 2003 Bonds.

No such Parity Bonds shall be issued except for the purpose of financing the costs of the design, acquisition, or construction of extensions and improvements to the System or refunding any outstanding Bonds, or both such purposes.

No Parity Bonds shall be issued at any time, however, unless there has been procured and filed with the Secretary a written statement by the Independent Certified Public Accountants, reciting the conclusion that the Net Revenues actually derived, subject to the adjustments hereinafter provided for, from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of such Parity Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by such Parity Bonds, if any, shall not be less than 115% of the largest aggregate amount that will mature and become due in any succeeding Fiscal Year for principal of and interest, if any, on the following:

- (1) The Bonds then Outstanding;
- (2) Any Parity Bonds theretofore issued pursuant to the provisions contained in this Resolution then Outstanding; and
- (3) The Parity Bonds then proposed to be issued.

The "estimated average increased annual Net Revenues to be received in each of the 3 succeeding years," as that term is used in the computation provided in the above paragraph, shall refer only to the increased Net Revenues estimated to be derived from (a) the improvements to be financed by such Parity Bonds and (b) any increase in rates adopted by the Issuer and approved by the Public Service Commission of West Virginia, the period for appeal of which has expired prior to the date of delivery of such Parity Bonds, and shall not exceed the amount to be stated in a certificate of the Independent Certified Public Accountants, which shall be filed in the office of the Secretary prior to the issuance of such Parity Bonds.

The Net Revenues actually derived from the System during the 12-consecutive-month period hereinabove referred to may be adjusted by adding to such Net Revenues such additional Net Revenues which would have been received, in the opinion of the Independent Certified Public Accountants, on account of increased rates, rentals, fees and charges for the System adopted by the Issuer, the period for appeal of which has expired prior to issuance of such Parity Bonds.

All covenants and other provisions of this Bond Legislation (except as to details of such Parity Bonds inconsistent herewith) shall be for the equal benefit, protection and security of the Holders of the Bonds and the Holders of any Parity Bonds subsequently issued from time to time within the limitations of and in compliance with this section. Bonds issued on a parity, regardless of the time or times of their issuance, shall rank equally with respect to their lien on the revenues of the System and their source of and security for payment from said revenues, without preference of any Bond of one series over any other Bond of the same series. The Issuer shall comply fully with all the increased payments into the various funds and accounts created in this Bond Legislation required for and on account of such Parity Bonds, in addition to the payments required for Bonds theretofore issued pursuant to this Bond Legislation.

Parity Bonds shall not be deemed to include bonds, notes, certificates or other obligations subsequently issued, the lien of which on revenues of the System is subject to the prior and superior liens of the Series 2003 Bonds on such revenues. The Issuer shall not issue any obligations whatsoever payable from revenues of the System, or any part thereof, which rank prior to or, except in the manner and under the conditions provided in this section, equally, as to lien on and source of and security for payment from such revenues, with the Series 2003 Bonds.

No Parity Bonds shall be issued any time, however, unless all the payments into the respective funds and accounts provided for in this Bond Legislation with respect to the Bonds then Outstanding, and any other payments provided for in this Bond Legislation, shall have been made in full as required to the date of delivery of such Parity Bonds, and the Issuer shall then be in full compliance with all the covenants, agreements and terms of this Bond Legislation.

The Issuer shall submit to the Authority and the DEP such documents and information as it may reasonably require in connection with the acquisition, construction and installation of the Project, the operation and maintenance of the System and the administration of the loan or any grants or other sources of financing for the Project.

The Issuer shall permit the Authority and the DEP, or their agents and representatives, to inspect all records pertaining to the operation and maintenance of the System at all reasonable times following completion of construction of the Project and commencement of operation thereof or if the Project is an improvement to an existing system, at any reasonable time following commencement of construction.

The Issuer will keep books and records of the System, which shall be separate and apart from all other books, records and accounts of the Issuer, in which complete and correct entries shall be made of all transactions relating to the System, and any Holder of a Bond or Bonds issued pursuant to this Bond Legislation shall have the right at all reasonable times to inspect the System and all parts thereof and all records, accounts and data of the Issuer relating thereto.

The accounting system for the System shall follow current generally accepted accounting principles and safeguards to the extent allowed and as prescribed by the Public Service Commission of West Virginia. Separate control accounting records shall be maintained by the Issuer. Subsidiary records as may be required shall be kept in the manner and on the forms, books and other bookkeeping records as prescribed by the Governing Body. The Governing Body shall prescribe and institute the manner by which subsidiary records of the accounting system which may be installed remote from the direct supervision of the Governing Body shall be reported to such agent of the Issuer as the Governing Body shall direct.

The Issuer shall file with the Authority and the DEP, or any other original purchaser of the respective Series 2003 Bonds, and shall mail in each year to any Holder or Holders of the respective Series 2003 Bonds, requesting the same, an annual report containing the following:

(C) The amount of any Bonds, notes or other obligations outstanding.

The Issuer shall also, at least once a year, cause the books, records and accounts of the System to be audited by Independent Certified Public Accountants in compliance with the applicable OMB Circular or any successor thereto, and the Single Audit Act, or any successor thereto, to the extent legally required, and shall mail upon request, and

make available generally, the report of the Independent Certified Public Accountants, or a summary thereof, to any Holder or Holders of the Series 2003 Bonds, and shall submit said report to the Authority and the DEP, or any other original purchaser of the Series 2003 Bonds. Such audit report submitted to the Authority and the DEP shall include a statement that the Issuer is in compliance with the terms and provisions of the Act, the Loan Agreements and this Bond Legislation and that the revenues of the System are adequate to meet the Issuer's Operating Expenses and debt service and reserve requirements.

Subject to the terms, conditions and provisions of the Loan Agreements and the Act, the Issuer has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared by the Consulting Engineers. All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Issuer.

The Issuer shall permit the Authority and the DEP, or their agents and representatives, to enter and inspect the Project site and facilities at all reasonable times. Prior to, during and after completion of construction and commencement of operation of the Project, the Issuer shall also provide the DEP and the Authority, or their agents and representatives, with access to the System site and facilities, as may be reasonably necessary to accomplish all of the powers and rights of the Authority and the DEP with respect to the System pursuant to the Act.

The Issuer shall provide the DEP with all appropriate documentation to comply with any special conditions established by federal and/or state regulations as set forth in EXHIBIT E of the SRF Loan Agreement or as promulgated from time to time.

Section 7.09. Rates. Prior to the issuance of the Series 2003 Bonds, equitable rates or charges for the use of and service rendered by the System have been established all in the manner and form required by law, and copies of such rates and charges so established will be continuously on file with the Secretary, which copies will be open to inspection by all interested parties. The schedule of rates and charges shall at all times be adequate to produce Gross Revenues from the System sufficient to pay Operating Expenses and to make the prescribed payments into the funds created hereunder. Such schedule of rates and charges shall be changed and readjusted whenever necessary so that the aggregate of the rates and charges will be sufficient for such purposes. In order to assure full and continuous performance of this covenant, with a margin for contingencies and temporary unanticipated reduction in income and revenues, the Issuer hereby covenants and agrees that the schedule of rates or charges from time to time in effect shall be sufficient, together with other revenues of the System (i) to provide for all Operating Expenses of the System and (ii) so long as the Series 1994 Bonds are outstanding, to produce Net Revenues equal to not less than the sum of (a) 115% of the maximum amount required in any year for payment of

principal of and interest, if any, on the Series 2003 Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2003 Bonds, including the Prior Bonds, and (b) the amount, if any, required to be deposited in the respective Reserve Accounts for the Prior Bonds and the Series 2003 Bonds Reserve Accounts in order to satisfy the respective Reserve Account Requirements within a period of not more than 12 months, assuming equal payments are made each month; and thereafter, when the Series 1994 Bonds are no longer outstanding, to leave a balance each year equal to at least 115% of the maximum amount payable in any year for principal of and interest on the Series 2003 Bonds, and all other obligations secured by a lien on or payable from such revenues on a parity with the Bonds, including the Prior Bonds; provided that, in the event that amounts equal to or in excess of the reserve requirements are on deposit respectively in the respective Series 2003 Bonds Reserve Accounts and any reserve accounts for obligations on a parity with the Series 2003 Bonds, including the Prior Bonds, are funded at least at the requirement therefor, such balance each year need only equal at least 110% of the maximum amount required in any year for payment of principal of and interest, if any, on the Series 2003 Bonds and all other obligations secured by a lien on or payable from such revenues on a parity with the Series 2003 Bonds, including the Prior Bonds. In any event, the Issuer shall not reduce the rates or charges for services described in Section 7.04.

Section 7.10. Operating Budget and Monthly Financial Report. The Issuer shall annually, at least 45 days preceding the beginning of each Fiscal Year, prepare and adopt by resolution a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding Fiscal Year and shall submit a copy of such budget to the Authority and the DEP within 30 days of adoption thereof. No expenditures for the operation and maintenance of the System shall be made in any Fiscal Year in excess of the amounts provided therefor in such budget without a written finding and recommendation by a professional engineer which finding and recommendation shall state in detail the purpose of and necessity for such increased expenditures for the operation and maintenance of the System, and no such increased expenditures shall be made until the Issuer shall have approved such finding and recommendation by a resolution duly adopted. No increased expenditures in excess of 10% of the amount of such budget shall be made except upon the further certificate of a professional engineer that such increased expenditures are necessary for the continued operation of the System. The Issuer shall mail copies of such annual budget and all resolutions authorizing increased expenditures for operation and maintenance to the Authority and the DEP and to any Holder of any Bonds, within 30 days of adoption thereof, and shall make available such budgets and all resolutions authorizing increased expenditures for operation and maintenance of the System at all reasonable times to the Authority and the DEP and to any Holder of any Bonds, or anyone acting for and in behalf of such Holder of any Bonds.

month complete a "Monthly Financial Report," a form of which is attached to the Loan Agreements, and forward a copy of such report to the Authority and the DEP by the 10th day of each month.

Section 7.11. Engineering Services and Operating Personnel. The Issuer will obtain a certificate of the Consulting Engineers in the form attached to the Loan Agreements, stating, among other things, that the Project has been or will be constructed in accordance with the approved plans, specifications and designs as submitted to the Authority and the DEP, the Project is adequate for the purposes for which it was designed, the funding plan as submitted to the Authority and the DEP is sufficient to pay the costs of acquisition and construction of the Project, and all permits required by federal and state laws for construction of the Project have been obtained.

The Issuer shall provide and maintain competent and adequate engineering services satisfactory to the Authority and the DEP covering the supervision and inspection of the development and construction of the Project and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. Such engineer shall certify to the Authority, the DEP and the Issuer at the completion of construction that construction of the Project is in accordance with the approved plans, specifications and designs, or amendments thereto, approved by all necessary governmental bodies.

The Issuer shall notify the DEP in writing of such receipt. The Issuer shall submit a "Performance Certificate," a form of which is attached to the SRF Loan Agreement, to the DEP within 60 days of the end of the first year after the Project is completed.

The Issuer shall require the Consulting Engineers to submit the final Operation and Maintenance Manual, as defined in the SRF Regulations, to the DEP when the Project is 90% completed. The Issuer shall at all times provide operation and maintenance of the System in compliance with all State and federal standards.

The Issuer shall employ qualified operating personnel properly certified by the State before the Project is 50% complete and shall retain such a certified operator to operate the System during the entire term of the Loan Agreements. The Issuer shall notify the DEP in writing of the certified operator employed at the 50% completion stage.

Section 7.12. No Competing Franchise. To the extent legally allowable, the Issuer will not grant or cause, consent to or allow the granting of, any franchise or permit to any person, firm, corporation, body, agency or instrumentality whatsoever for the providing of any services which would compete with services provided by the System.

Section 7.13. Enforcement of Collections. The Issuer will diligently enforce and collect all fees, rentals or other charges for the services and facilities of the System, and take all steps, actions and proceedings for the enforcement and collection of such fees, rentals or other charges which shall become delinquent to the full extent permitted or authorized by the Act, the rules and regulations of the Public Service Commission of West Virginia and other laws of the State of West Virginia.

Whenever any fees, rates, rentals or other charges for the services and facilities of the System shall remain unpaid for a period of 20 days after the same shall become due and payable, the user of the services and facilities shall be delinquent until such time as all such rates and charges are fully paid. To the extent authorized by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, rates, rentals and other charges, if not paid, when due, shall become a lien on the premises served by the System. The Issuer further covenants and agrees that, it will, to the full extent permitted by law and the rules and regulations promulgated by the Public Service Commission of West Virginia, discontinue and shut off the services of the System and any services and facilities of the water system, if so owned by the Issuer, to all users of the services of the System delinquent in payment of charges for the services of the System and will not restore such services of either system until all delinquent charges for the services of the System, plus reasonable interest and penalty charges for the restoration of service, have been fully paid and shall take all further actions to enforce collections to the maximum extent permitted by law. If the water facilities are not owned by the Issuer, the Issuer shall enter into a termination agreement with the water provider, subject to any required approval of such agreement by the Public Service Commission of West Virginia and all rules, regulations and orders of the Public Service Commission of West Virginia.

Section 7.14. No Free Services. The Issuer will not render or cause to be rendered any free services of any nature by the System, nor will any preferential rates be established for users of the same class; and in the event the Issuer, or any department, agency, instrumentality, officer or employee of the Issuer shall avail itself or themselves of the facilities or services provided by the System, or any part thereof, the same rates, fees or charges applicable to other customers receiving like services under similar circumstances shall be charged the Issuer and any such department, agency, instrumentality, officer or employee. The revenues so received shall be deemed to be revenues derived from the operation of the System, and shall be deposited and accounted for in the same manner as other revenues derived from such operation of the System.

Section 7.15. Insurance and Construction Bonds. A. The Issuer hereby covenants and agrees that so long as the Series 2003 Bonds remain Outstanding, the Issuer will, as an Operating Expense, procure, carry and maintain insurance with a reputable insurance carrier or carriers as is customarily covered with respect to works and properties similar to the System. Such insurance shall initially cover the following risks and be in the following amounts:

In time of war the Issuer will also carry and maintain insurance to the extent available against the risks and hazards of war. The proceeds of all such insurance policies shall be placed in the Depreciation Fund and used only for the repairs and restoration of the damaged or destroyed properties or for the other purposes provided herein for the Depreciation Fund. The Issuer shall also require all contractors engaged in the construction of the Project to carry such worker's compensation coverage for all employees working on the Project and public liability insurance, vehicular liability insurance and property damage insurance in amounts adequate for such purposes and as is customarily carried with respect to works and properties similar to the Project; provided that the amounts and terms of such coverage are satisfactory to the Authority and the DEP and the Issuer shall verify such insurance prior to commencement of construction. In the event the Loan Agreements so require, such insurance shall be made payable to the order of the Authority, the Issuer, the prime contractor and all subcontractors, as their interests may appear.

Section 7.16. Mandatory Connections. The mandatory use of the System is essential and necessary for the protection and preservation of the public health, comfort, safety, convenience and welfare of the inhabitants and residents of, and the economy of, the Issuer and in order to assure the rendering harmless of sewage and water-borne waste matter produced or arising within the territory served by the System. Accordingly, every owner, tenant or occupant of any house, dwelling or building located near the System, where sewage will flow by gravity or be transported by such other methods approved by the State Department of Health from such house, dwelling or building into the System, to the extent permitted by the laws of the State and the rules and regulations of the Public Service Commission of West Virginia, shall connect with and use the System and shall cease the use of all other means for the collection, treatment and disposal of sewage and waste matters from such house, dwelling or building where there is such gravity flow or transportation by such other method approved by the State Department of Health and such house, dwelling or building can be adequately served by the System, and every such owner, tenant or occupant

Section 7.19. Statutory Mortgage Lien. For the further protection of the Holders of the Series 2003 Bonds, a statutory mortgage lien upon the System is granted and created by the Act, which statutory mortgage lien is hereby recognized and declared to be valid and binding, shall take effect immediately upon delivery of the Series 2003 Bonds, and shall be on a parity with the statutory mortgage lien in favor of the Holders of the Prior Bonds.

ARTICLE VIII

INVESTMENT OF FUNDS

Section 8.01. Investments. Any monies held as a part of the funds and accounts created by this Bond Legislation other than the Revenue Fund, shall be invested and reinvested by the Commission, the Depository Bank, or such other bank or national banking association holding such fund or account, as the case may be, at the written direction of the Issuer in any Qualified Investments to the fullest extent possible under applicable laws, this Bond Legislation, the need for such monies for the purposes set forth herein and the specific restrictions and provisions set forth in this Section 8.01.

Any investment shall be held in and at all times deemed a part of the fund or account in which such monies were originally held, and the interest accruing thereon and any profit or loss realized from such investment shall be credited or charged to the appropriate fund or account. The investments held for any fund or account shall be valued at the lower of cost or then current market value, or at the redemption price thereof if then redeemable at the option of the holder, including the value of accrued interest and giving effect to the amortization of discount, or at par if such investment is held in the "Consolidated Fund." The Commission shall sell and reduce to cash a sufficient amount of such investments whenever the cash balance in any fund or account is insufficient to make the payments required from such fund or account, regardless of the loss on such liquidation. The Depository Bank may make any and all investments permitted by this section through its own bond department and shall not be responsible for any losses from such investments, other than for its own negligence or willful misconduct.

The Depository Bank shall keep complete and accurate records of all funds, accounts and investments, and shall distribute to the Issuer, at least once each year, or more often as reasonably requested by the Issuer, a summary of such funds, accounts and investment earnings. The Issuer shall retain all such records and any additional records with respect to such funds, accounts and investment earnings so long as any of the Series 2003 Bonds are Outstanding and as long thereafter as necessary to assure the exclusion of interest, if any, on the Series 2003 Bonds from gross income for federal income tax purposes.

Section 8.02. Certificate as to Use of Proceeds; Covenants as to Use of Proceeds. The Issuer shall deliver a certificate as to use of proceeds or other similar certificate to be prepared by nationally recognized bond counsel relating to restrictions on the use of proceeds of the Series 2003 A Bonds as a condition to issuance of the Series 2003 A Bonds. In addition, the Issuer covenants (i) to comply with the Code and all Regulations from time to time in effect and applicable to the Series 2003 A Bonds as may be necessary in order to maintain the status of the Series 2003 A Bonds as governmental bonds; (ii) that it shall not take, or permit or suffer to be taken, any action with respect to the Issuer's use of the proceeds of the Series 2003 A Bonds which would cause any bonds, the interest on which

is exempt from federal income taxation under Section 103(a) of the Code, issued by the Authority or the DEP, as the case may be, from which the proceeds of the Series 2003 A Bonds are derived, to lose their status as tax-exempt bonds; and (iii) to take such action, or refrain from taking such action, as shall be deemed necessary by the Issuer, or requested by the Authority or the DEP, to ensure compliance with the covenants and agreements set forth in this Section, regardless of whether such actions may be contrary to any of the provisions of this Resolution.

The Issuer shall annually furnish to the Authority, information with respect to the Issuer's use of the proceeds of the Series 2003 A Bonds and any additional information requested by the Authority.

Section 8.03. Arbitrage and Tax Exemption. The Issuer covenants that (i) it shall not take, or permit or suffer to be taken, any action with respect to the gross or other proceeds of the Series 2003 B Bonds which would cause the Series 2003 B Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code, and (ii) it will take any and all actions that may be required of it (including, without implied limitation, the timely filing of a federal information return with respect to the Series 2003 B Bonds) so that the interest on the Series 2003 B Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions which would adversely affect such exclusion.

Section 8.04. Tax Certificate and Rebate. The Issuer shall deliver a certificate of arbitrage, a tax certificate or other similar certificate to be prepared by nationally recognized bond counsel or tax counsel relating to payment of arbitrage rebate and other tax matters as a condition to issuance of the Series 2003 B Bonds. In addition, the Issuer covenants to comply with all Regulations from time to time in effect and applicable to the Series 2003 B Bonds as may be necessary in order to fully comply with Section 148(f) of the Code, and covenants to take such actions, and refrain from taking such actions, as may be necessary to fully comply with such Section 148(f) of the Code and such Regulations, regardless of whether such actions may be contrary to any of the provisions of this Bond Legislation.

The Issuer shall calculate, annually, the rebatable arbitrage, determined in accordance with Section 148(f) of the Code. Upon completion of each such annual calculation, unless otherwise agreed by the Authority, the Issuer shall deposit, or cause to be deposited, in the Rebate Fund for the Series 2003 B Bonds such sums as are necessary to cause the aggregate amount on deposit in the Rebate Fund to equal the sum determined to be subject to rebate to the United States, which, notwithstanding anything herein to the contrary, shall be paid from investment earnings on the underlying fund or account established hereunder and on which such rebatable arbitrage was earned or from other lawfully available sources. Notwithstanding anything herein to the contrary, the Rebate Fund shall be held free and clear of any lien or pledge hereunder and shall be used only for payment of rebatable arbitrage to the United States. The Issuer shall pay, or cause to be

paid, to the United States, from the Rebate Fund, the rebatable arbitrage in accordance with Section 148(f) of the Code and such Regulations. In the event that there are any amounts remaining in the Rebate Fund following all such payments required by the preceding sentence, the Depository Bank shall pay said amounts to the Issuer to be used for any lawful purpose of the System. The Issuer shall remit payments to the United States in the time and at the address prescribed by the Regulations as the same may be from time to time in effect with such reports and statements as may be prescribed by such Regulations. In the event that, for any reason, amounts in the Rebate Fund are insufficient to make the payments to the United States which are required, the Issuer shall assure that such payments are made by the Issuer to the United States, on a timely basis, from any funds lawfully available therefor. In addition, the Issuer shall cooperate with the Authority in preparing rebate calculations and in all other respects in connection with rebates and hereby consents to the performance of all matters in connection with such rebates by the Authority at the expense of the Issuer. The Issuer may provide for the employment of independent attorneys, accountants or consultants compensated on such reasonable basis as the Issuer may deem appropriate in order to assure compliance with this Section 8.04. The Issuer shall keep and retain, or cause to be kept and retained, records of the determinations made pursuant to this Section 8.04 in accordance with the requirements of Section 148(f) of the Code and such Regulations. In the event the Issuer fails to make such rebates as required, the Issuer shall pay the required rebate amount, any and all interest, penalties and other amounts, from lawfully available sources, and obtain a waiver from the Internal Revenue Service, if necessary, and take any other actions necessary, in order to maintain the exclusion of interest on the Series 2003 B Bonds from gross income for federal income tax purposes.

The Issuer shall furnish to the Authority, annually, and at such time as it is required to perform its rebate calculations under the Code, a certificate with respect to its rebate calculations and, at any time, any additional information relating thereto as may be requested by the Authority. In addition, the Issuer shall cooperate with the Authority in preparing any required rebate calculations and in all other respects in connection with rebates and hereby consents to the performance of all matters in connection with such rebates by the Authority at the expense of the Issuer.

The Issuer shall submit to the Authority within 15 days following the end of each Bond Year a certified copy of its rebate calculation and certificate with respect thereto or, if the Issuer qualifies for the small governmental issue exception to rebate, or any other exception thereto, then the Issuer shall submit to the Authority a certificate stating that it is exempt from such rebate provisions and that no event has occurred to its knowledge during the Bond Year which would make the Series 2003 B Bonds subject to rebate. The Issuer shall also furnish to the Authority, at any time, such additional information relating to rebate as may be reasonably requested by the Authority including information with respect to earnings on all funds constituting "gross proceeds" of the Series 2003 B Bonds (as such term "gross proceeds" is defined in the Code).

ARTICLE IX

DEFAULT AND REMEDIES

Section 9.01. Events of Default. Each of the following events shall constitute an "Event of Default" with respect to the Series 2003 Bonds:

(1) If default occurs in the due and punctual payment of the principal of or interest on the Series 2003 Bonds; or

(2) If default occurs in the Issuer's observance of any of the covenants, agreements or conditions on its part relating to the Series 2003 Bonds set forth in this Bond Legislation, any supplemental resolution or in the Series 2003 Bonds, and such default shall have continued for a period of 30 days after the Issuer shall have been given written notice of such default by the Commission, the Depository Bank, Registrar or any other Paying Agent or a Holder of a Bond; or

(3) If the Issuer files a petition seeking reorganization or arrangement under the federal bankruptcy laws or any other applicable law of the United States of America; or

(4) If default occurs with respect to the Prior Bonds or the Prior Resolutions.

Section 9.02. Remedies. Upon the happening and continuance of any Event of Default, any Registered Owner of a Bond may exercise any available remedy and bring any appropriate action, suit or proceeding to enforce his or her rights and, in particular, (i) bring suit for any unpaid principal or interest then due, (ii) by mandamus or other appropriate proceeding enforce all rights of such Registered Owners including the right to require the Issuer to perform its duties under the Act and the Bond Legislation relating thereto, including but not limited to the making and collection of sufficient rates or charges for services rendered by the System, (iii) bring suit upon the Bonds, (iv) by action at law or bill in equity require the Issuer to account as if it were the trustee of an express trust for the Registered Owners of the Bonds, and (v) by action or bill in equity enjoin any acts in violation of the Bond Legislation with respect to the Bonds, or the rights of such Registered Owners; provided that, all rights and remedies of the Holders of the Series 2003 Bonds shall be on a parity with the Holders of the Prior Bonds.

Section 9.03. Appointment of Receiver. Any Registered Owner of a Series 2003 Bond may, by proper legal action, compel the performance of the duties of the Issuer under the Bond Legislation and the Act, including, the completion of the Project and after commencement of operation of the System, the making and collection of sufficient rates and charges for services rendered by the System and segregation of the revenues therefrom and the application thereof. If there be any Event of Default with respect to such Bonds, any

Registered Owner of a Bond shall, in addition to all other remedies or rights, have the right by appropriate legal proceedings to obtain the appointment of a receiver to administer the System or to complete the Project on behalf of the Issuer, with power to charge rates, rentals, fees and other charges sufficient to provide for the payment of Operating Expenses of the System, the payment of the Bonds and interest and the deposits into the funds and accounts hereby established, and to apply such rates, rentals, fees, charges or other revenues in conformity with the provisions of this Bond Legislation and the Act.

The receiver so appointed shall forthwith, directly or by his or her or its agents and attorneys, enter into and upon and take possession of all facilities of said System and shall hold, operate and maintain, manage and control such facilities, and each and every part thereof, and in the name of the Issuer exercise all the rights and powers of the Issuer with respect to said facilities as the Issuer itself might exercise.

Whenever all that is due upon the Bonds and interest thereon and under any covenants of this Bond Legislation for reserve, sinking or other funds and upon any other obligations and interest thereon having a charge, lien or encumbrance upon the revenues of the System shall have been paid and made good, and all defaults under the provisions of this Bond Legislation shall have been cured and made good, possession of the System shall be surrendered to the Issuer upon the entry of an order of the court to that effect. Upon any subsequent default, any Registered Owner of any Bonds shall have the same right to secure the further appointment of a receiver upon any such subsequent default.

Such receiver, in the performance of the powers hereinabove conferred upon him or her or it, shall be under the direction and supervision of the court making such appointment, shall at all times be subject to the orders and decrees of such court and may be removed thereby, and a successor receiver may be appointed in the discretion of such court. Nothing herein contained shall limit or restrict the jurisdiction of such court to enter such other and further orders and decrees as such court may deem necessary or appropriate for the exercise by the receiver of any function not specifically set forth herein.

Any receiver appointed as provided herein shall hold and operate the System in the name of the Issuer and for the joint protection and benefit of the Issuer and Registered Owners of the Bonds. Such receiver shall have no power to sell, assign, mortgage or otherwise dispose of any assets of any kind or character belonging or pertaining to the System, but the authority of such receiver shall be limited to the completion of the Project and the possession, operation and maintenance of the System for the sole purpose of the protection of both the Issuer and Registered Owners of such Bonds and the curing and making good of any Event of Default with respect thereto under the provisions of this Bond Legislation, and the title to and ownership of said System shall remain in the Issuer, and no court shall have any jurisdiction to enter any order or decree permitting or requiring such receiver to sell, assign, mortgage or otherwise dispose of any assets of the System.

ARTICLE X

PAYMENT OF BONDS

Section 10.01. Payment of Bonds. If the Issuer shall pay or cause to be paid, or there shall otherwise be paid, to the Holders of the Series 2003 Bonds, the principal of and interest, if any, due or to become due thereon, at the times and in the manner stipulated therein and in this Bond Legislation, then the pledge of Net Revenues and other monies and securities pledged under this Bond Legislation and all covenants, agreements and other obligations of the Issuer to the Registered Owners of the Series 2003 Bonds shall thereupon cease, terminate and become void and be discharged and satisfied, except as may otherwise be necessary to assure the exclusion of interest, if any, on the Series 2003 Bonds from gross income for federal income tax purposes.

ARTICLE XI

MISCELLANEOUS

Section 11.01. Amendment or Modification of Bond Legislation. Prior to issuance of the Series 2003 Bonds, this Resolution may be amended or supplemented in any way by the Supplemental Resolution. Following issuance of the Series 2003 Bonds, no material modification or amendment of this Resolution, or of any resolution amendatory or supplemental hereto, that would materially and adversely affect the rights of Registered Owners of the Series 2003 Bonds shall be made without the consent in writing of the Registered Owners of the Series 2003 Bonds so affected and then Outstanding; provided, that no change shall be made in the maturity of the Series 2003 Bonds or the rate of interest, thereon, or in the principal amount thereof, or affecting the unconditional promise of the Issuer to pay such principal and interest, if any, out of the funds herein respectively pledged therefor without the consent of the Registered Owner thereof. No amendment or modification shall be made that would reduce the percentage of the principal amount of the Series 2003 Bonds, required for consent to the above-permitted amendments or modifications. Notwithstanding the foregoing, this Bond Legislation may be amended without the consent of any Bondholder as may be necessary to assure compliance with Section 148(f) of the Code relating to rebate requirements or otherwise as may be necessary to assure the exclusion of interest, if any, on the Series 2003 Bonds from gross income of the holders thereof.

Section 11.03. Severability of Invalid Provisions. All orders or resolutions, or parts thereof, in conflict with the provisions of this Resolution are, to the extent of such conflict, hereby repealed, provided that, in the event of any conflict between this Resolution and the Prior Resolutions, the Prior Resolutions shall control (unless less restrictive), so long as the Prior Bonds are outstanding.

Section 11.06. Covenant of Due Procedure, Etc. The Issuer covenants that all acts, conditions, things and procedures required to exist, to happen, to be performed or to be taken precedent to and at the adoption of this Resolution do exist, have happened, have been performed and have been taken in regular and due time, form and manner as required by and in full compliance with the laws and Constitution of the State of West Virginia applicable thereto; and that the Chairman, Secretary and members of the Governing Body were at all times when any actions in connection with this Resolution occurred and are duly in office and duly qualified for such office.

2.10 The Local Government shall require the Consulting Engineers to submit the final Operation and Maintenance Manual, as defined in the SRF Regulations, to DEP when the Project is 90% completed. The Local Government shall at all times provide operation and maintenance of the System in compliance with any and all State and federal standards. The Local Government shall employ qualified operating personnel properly certified by the State before the Project is 50% complete and shall retain such a certified operator(s) to operate the System during the entire term of this Bond Purchase Agreement. The Local Government shall notify DEP in writing of the certified operator employed at the 50% completion stage.

2.11 The Local Government hereby covenants and agrees to comply with all applicable laws, rules and regulations issued by the Authority, DEP or other State, federal or local bodies in regard to the construction of the Project and operation, maintenance and use of the System.

2.12 The Local Government, commencing on the date contracts are executed for the acquisition or construction of the Project and for two years following the completion of acquisition or construction of the Project, shall each month complete a Monthly Financial Report, the form of which is attached hereto as Exhibit B and incorporated herein by reference, and forward a copy by the 10th of each month to the DEP and the Authority.

2.13 The Local Government, during construction of the Project, shall complete Payment Requisition Forms, the form of which is attached hereto as Exhibit C and incorporated herein by reference, and forward such forms to DEP in compliance with the Local Government's construction schedule.

3.1 The agreement of the Authority and DEP to purchase the Local Bonds is subject to the Local Government's fulfillment, to the satisfaction of the Authority and DEP, of each and all of those certain conditions precedent on or before the delivery date for the Local Bonds, which shall be the date established pursuant to Section 3.4 hereof. Said conditions precedent are as follows:

(b) The Local Government shall have performed and satisfied all of the terms and conditions to be performed and satisfied by it in this Bond Purchase Agreement;

(c) The Local Government shall have authorized the issuance of and delivery to the Authority of the Local Bonds described in this Article III and in Article IV hereof;

(d) The Local Government shall either have received bids or entered into contracts for the construction of the Project, which are in an amount and otherwise compatible with the plan of financing described in the Application; provided that, if the proceeds of the Local Bonds will refund an interim construction financing, the Local Government must either be constructing or have constructed its Project for a cost and as

otherwise compatible with the plan of financing described in the Application; and, in either case, the Authority and DEP shall have received a certificate of the Consulting Engineers to such effect, the form of which certificate is attached hereto as Exhibit D;

(e) The Local Government shall have obtained all permits required by the laws of the State and the federal government necessary for the construction of the Project, and the Authority and DEP shall have received a certificate of the Consulting Engineers to such effect;

(f) The Local Government shall have obtained all requisite orders of and approvals from the Public Service Commission of West Virginia (the "PSC") and the West Virginia Infrastructure and Jobs Development Council necessary for the construction of the Project and operation of the System, with all requisite appeal periods having expired without successful appeal and the Authority and DEP shall have received an opinion of counsel to the Local Government, which may be local counsel to the Local Government, bond counsel or special PSC counsel but must be satisfactory to the Authority and DEP, to such effect;

(g) The Local Government shall have obtained any and all approvals for the issuance of the Local Bonds required by State law, and the Authority and DEP shall have received an opinion of counsel to the Local Government, which may be local counsel to the Local Government, bond counsel or special PSC counsel but must be satisfactory to the Authority and DEP, to such effect;

(h) The Local Government shall have obtained any and all approvals of rates and charges required by State law and shall have taken any other action required to establish and impose such rates and charges (imposition of such rates and charges is not, however, required to be effective until completion of construction of the Project), with all requisite appeal periods having expired without successful appeal, and the Authority and DEP shall have received an opinion of counsel to the Local Government, which may be local counsel to the Local Government, bond counsel or special PSC counsel but must be satisfactory to the Authority and DEP, to such effect;

(i) Such rates and charges for the System shall be sufficient to comply with the provisions of Subsections 4.1(a) and 4.1(b)(ii) hereof, and the Authority and DEP shall have received a certificate of the accountant for the Local Government, or such other person or firm experienced in the finances of local governments and satisfactory to the Authority and DEP, to such effect; and

(j) The net proceeds of the Local Bonds, together with all moneys on deposit or to be simultaneously deposited (or, with respect to proceeds of grant anticipation notes or other indebtedness for which a binding purchase contract has been entered, to be deposited on a date certain) and irrevocably pledged thereto and the proceeds of grants irrevocably committed therefor, shall be sufficient to pay the costs of construction and acquisition of the Project as set forth in the Application, and the Authority and DEP shall have received a certificate of the Consulting Engineers, or such other person or firm experienced in the financing of wastewater treatment projects and satisfactory to the Authority and DEP, to such effect, such certificate to be in form and substance satisfactory to the Authority and DEP, and evidence satisfactory to the Authority and DEP of such irrevocably committed grants.

3.2 Subject to the terms and provisions of this Bond Purchase Agreement, the rules and regulations promulgated by the Authority and DEP, including the SRF Regulations, or any other appropriate State agency and any applicable rules, regulations and procedures promulgated from time to time by the federal government, it is hereby agreed that the Authority shall purchase the Local Bonds of the Local Government and the Local Government shall issue and sell the Local Bonds to the Authority, and in furtherance thereof it is agreed that the Local Government shall sell to the Authority and the Authority shall purchase the Local Bonds in the principal amount and at the price set forth in Schedule X hereto. 3.4 The Local Bonds shall be delivered to the Authority, at the offices of the Authority, on a date designated by the Local Government by written notice to the Authority, which written notice shall be given not less than ten (10) business days prior to the date designated; provided, however, that if the Authority is unable to accept delivery on the date designated, the Local Bonds shall be delivered to the Authority on a date as close as possible to the designated date and mutually agreeable to the Authority, DEP and the Local Government. The date of delivery so designated or agreed upon is hereinafter referred to as the "Date of Closing." Notwithstanding the foregoing, the Date of Closing shall in no event occur more than ninety (90) days after the date of execution of this Bond Purchase Agreement by the Authority or such later date as is agreed to in writing by DEP.

3.5 The Local Government understands and acknowledges that it is one of several local governments which have applied to the Authority and DEP for financing of wastewater treatment projects and that the obligation of the Authority to purchase the Local

Bonds is subject to the Local Government's fulfilling all of the terms and conditions of this Bond Purchase Agreement on or prior to the Date of Closing and to the requirements of the Program. The Local Government specifically recognizes that the Authority will not purchase the Local Bonds unless and until sufficient funds are available in the Fund to purchase all the Local Bonds and that, prior to such purchase, the Authority may purchase the bonds of other local governments set out in the State Project Priority List, as defined in the SRF Regulations. The Local Government further specifically recognizes that all bonds will be purchased in conjunction with the SRF Regulations and with the prior approval of DEP.

3.6 The Local Government shall provide DEP with the appropriate documentation to comply with the special conditions regarding the public release and audit requirements, established by federal and State regulations as set forth in Exhibit E attached hereto at such times as are set forth therein.

ARTICLE IV

Local Bonds; Security for Local Bonds;
Repayment of Local Bonds; Interest on Local Bonds;
Fees and Charges

4.1 The Local Government shall, as one of the conditions of the Authority and DEP to purchase the Local Bonds, authorize the issuance of and issue the Local Bonds pursuant to an official action of the Local Government in accordance with the Local Statute, which shall, as adopted or enacted, contain provisions and covenants in substantially the form as follows:

(a) That the gross revenues of the System shall always be used for purposes of the System. Such gross revenues will be used monthly, in the order of priority listed below:

(i) to pay Operating Expenses of the System;

(ii) to the extent not otherwise limited by any outstanding loan resolution, indenture or other act or document and beginning on the date set forth in Schedule X, to provide debt service on the Local Bonds by depositing in a sinking fund one-third (1/3) of the interest payment next coming due on the Local Bonds and one-third (1/3) of the principal payment next coming due on the Local Bonds and, beginning three (3) months prior to the first date of payment of principal of the Local Bonds, if the reserve account for the Local Bonds (the "Reserve Account") was not funded from proceeds of the Local Bonds or

otherwise concurrently with the issuance thereof in an amount equal to the maximum amount of principal and interest which will come due on the Local Bonds in the then current or any succeeding year (the "Reserve Requirement"), by depositing in the Reserve Account an amount not less than one-twelfth (1/12) of one-tenth (1/10) of the Reserve Requirement or, if the Reserve Account has been so funded (whether by Local Bond proceeds, monthly deposits or otherwise), any amount necessary to maintain the Reserve Account at the Reserve Requirement;

(iii) to create a renewal and replacement, or similar, fund in an amount equal to two and one-half percent (2-1/2%) of the gross revenues from the System, exclusive of any payments into the Reserve Account, for the purpose of improving or making emergency repairs or replacements to the System or eliminating any deficiencies in the Reserve Account; and

(iv) for other legal purposes of the System, including payment of debt service on other obligations junior, subordinate and inferior to the Local Bonds.

Provided, that if the Local Government has existing outstanding indebtedness which has greater coverage or renewal and replacement fund requirements, then the greater requirements will prevail until said existing indebtedness is paid in full.

(b) Covenants substantially as follows:

(i) That the Local Bonds shall be secured by a pledge of either the net or gross revenues of the System as provided in the Local Act;

(ii) That the schedule of rates or charges for the services of the System shall be sufficient to provide funds which, along with other revenues of the System, will pay all Operating Expenses and leave a balance each year equal to at least one hundred fifteen percent (115%) of the maximum amount required in any year for debt service on the Local Bonds and all other obligations secured by a lien on or payable from the revenues of the System prior to or on a parity with the Local Bonds or, if the Reserve Account is funded (whether by Local Bond proceeds, monthly deposits or otherwise) at an amount equal to the Reserve Requirement and any reserve account for any such prior or parity obligations is funded at least at the requirement therefor, equal to at least one hundred ten percent (110%) of the maximum amount required in any year for debt service on the Local Bonds and any such prior or parity obligations;

(iii) That the Local Government shall complete the Project and operate and maintain the System in good condition;

(iv) That, except as otherwise required by State law or the SRF Regulations, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole or substantially as a whole, provided that the net proceeds to be realized from such sale, mortgage, lease or other disposition shall be sufficient to fully pay all of the Local Bonds outstanding and further provided that portions of the System when no longer required for the ongoing operation of such System as evidenced by certificates from the Consulting Engineer, may be disposed of with such restrictions as are normally contained in such covenants;

(v) That the Local Government shall not issue any other obligations payable from the revenues of the System which rank prior to, or equally, as to lien and security with the Local Bonds, except parity bonds which shall only be issued if net revenues of the System prior to issuance of such parity bonds, plus reasonably projected revenues from rate increases and the improvements to be financed by such parity bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on all Local Bonds and parity bonds theretofore and then being issued and on any obligations secured by a lien on or payable from the revenues of the System prior to the Local Bonds and with the prior written consent of the Authority and DEP; provided, however, that additional parity bonds may be issued to complete the Project, as described in the Application as of the date hereof, without regard to the foregoing;

(vi) That the Local Government will carry such insurance as is customarily carried with respect to works and properties similar to the System, including those specified by Section 2.8 hereof;

(vii) That the Local Government will not render any free services of the System;

(viii) That the Authority may, by proper legal action, compel the performance of the duties of the Local Government under the Local Act, including the making and collection of sufficient rates or charges for services rendered by the System, and shall also have, in the event of a default in payment of principal of or interest on the Local Bonds, the right to obtain the appointment of a receiver to administer the System or construction of the Project, or both, as provided by law and all rights as set forth in Section 5 of the Act;

(ix) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, all delinquent rates and charges, if not paid when due, shall become a lien on the premises served by the System;

(x) That, to the extent legally allowable, the Local Government will not grant any franchise to provide any services which would compete with the System;

(xi) That the Local Government shall annually cause the records of the System to be audited by an independent certified public accountant or independent public accountant and shall submit the report of said audit to the Authority and DEP, which report shall include a statement that the Local Government is in compliance with the terms and provisions of the Local Act and this Bond Purchase Agreement and that the Local Government's revenues are adequate to meet its Operating Expenses and debt service and reserve requirements;

(xii) That the Local Government shall annually adopt a detailed, balanced budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding fiscal year and shall submit a copy of such budget to the Authority and DEP within 30 days of adoption thereof;

(xiii) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, prospective users of the System shall be required to connect thereto;

(xiv) That the proceeds of the Local Bonds, advanced from time to time, except for accrued interest and capitalized interest, if any, must (a) be deposited in a construction fund, which, except as otherwise agreed to in writing by the Authority, shall be held separate and apart from all other funds of the Local Government and on which the owners of the Local Bonds shall have a lien until such proceeds are applied to the construction of the Project (including the repayment of any incidental interim financing) and/or (b) be used to pay (or redeem) bond anticipation notes or other interim financing of such Local Government, the proceeds of which were used to finance the construction of the Project; provided that, with the prior written consent of the Authority and DEP, the proceeds of the Local Bonds may be used to fund all or a portion of the Reserve Account, on which the owner of the Local Bonds shall have a lien as provided herein;

(xv) That, as long as the Authority is the owner of any of the Local Bonds, the Local Government may authorize redemption of the Local Bonds with 30 days written notice to the Authority;

(xvi) That the West Virginia Municipal Bond Commission (the "Commission") shall serve as paying agent for all Local Bonds;

(xvii) That the Local Government shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required interest, principal and reserve account payment. The Local Government shall complete the Monthly Payment Form, attached hereto as Exhibit F and incorporated herein by reference, and submit a copy of said form along with a copy of the check or electronic transfer to the Authority by the 5th day of such calendar month;

(xviii) That, unless it qualifies for an exception to the provisions of Section 148 of the Internal Revenue Code of 1986, as amended, which exception shall be set forth in an opinion of bond counsel, the Local Government will furnish to the Authority, annually, at such time as it is required to perform its rebate calculations under the Internal Revenue Code of 1986, as amended, a certificate with respect to its rebate calculations and, at any time, any additional information requested by the Authority;

(xix) That the Local Government shall have obtained the certificate of the Consulting Engineers to the effect that the Project has been or will be constructed in accordance with the approved plans, specifications and design as submitted to the Authority and DEP, the Project is adequate for the purposes for which it was designed, the funding plan as submitted to the Authority and DEP is sufficient to pay the costs of acquisition and construction of the Project and all permits required by federal and State laws for construction of the Project have been obtained;

(xx) That the Local Government shall, to the full extent permitted by applicable law and the rules and regulations of the PSC, terminate the services of any water facility owned by it to any customer of the System who is delinquent in payment of charges for services provided by the System and will not restore the services of the water facility until all delinquent charges for the services of the System have been fully paid or, if the water facility is not owned by the Local Government, then the Local Government shall enter into a termination agreement with the water provider; and

(xxi) That the Local Government shall submit all proposed change orders to the DEP for written approval. The Local Government shall obtain the written approval of the DEP before expending any proceeds of the Local Bonds held in "contingency" as set forth in the final Schedule A attached to the certificate of the Consulting Engineer. The Local Government shall obtain the written approval of the DEP before expending any proceeds of the Local Bonds available due to bid/construction/project underruns.

The Local Government hereby represents and warrants that the Local Act has been or shall be duly adopted or enacted in compliance with all necessary corporate and other action and in accordance with applicable provisions of law. All legal matters incident to the authorization, issuance, validity, sale and delivery of the Local Bonds shall be approved without qualification by nationally recognized bond counsel acceptable to the Authority in substantially the form of legal opinion attached hereto as Exhibit G.

4.2 The Local Bonds shall be secured by the pledge and assignment by the Local Government, as effected by the Local Act, of the fees, charges and other revenues of the Local Government from the System.

4.3 At least five percent (5%) of the proceeds of the Local Bonds will be advanced on the Date of Closing. The remaining proceeds of the Local Bonds shall be advanced by the DEP monthly as required by the Local Government to pay Costs of the Project, provided, however, if the proceeds of the Local Bonds will be used to repay an interim financing, the proceeds will be advanced on a schedule mutually agreeable to the Local Government, the DEP and the Authority. The Local Bonds shall not bear interest during the construction period but interest shall commence accruing on the completion date as defined in the SRF Regulations, provided that the annual repayment of principal and payment of interest shall begin not later than one (1) year after the completion date. The repayment of principal and interest on the Local Bonds shall be as set forth on Schedule Y hereto. In no event shall the interest rate on or the net interest cost of the Local Bonds exceed any statutory limitation with regard thereto.

4.4 The Local Bonds shall be delivered to the Authority in fully registered form, transferable and exchangeable as provided in the Local Act at the expense of the Local Government. Anything to the contrary herein notwithstanding, the Local Bonds may be issued in one or more series.

4.5 As provided by the SRF Regulations, the Local Government agrees to pay from time to time, if required by the Authority and DEP, the Local Government's allocable share of the reasonable administrative expenses of the Authority relating to the Program. Such administrative expenses shall be determined by the Authority and shall include, without limitation, Program expenses, legal fees paid by the Authority and fees paid to the trustee and paying agents for any bonds or notes to be issued by the Authority for contribution to the Fund and the fees and expenses of any corporate trustee for the Fund.

4.6 The obligation of the Authority to purchase the Local Bonds shall be conditioned upon the availability of moneys in the Fund in such amount and on such terms and conditions as, in the sole judgment of the Authority, will enable it to purchase the Local Bonds.

ARTICLE V

Certain Covenants of the Local Government;
Imposition and Collection of User Charges;
Payments To Be Made by
Local Government to the Authority

5.1 The Local Government hereby irrevocably covenants and agrees to comply with all of the terms, conditions and requirements of this Bond Purchase Agreement and the Local Act. The Local Government hereby further irrevocably covenants and agrees that, as one of the conditions of the Authority to purchase the Local Bonds, it has fixed and collected, or will fix and collect, the rates, fees and other charges for the use of the System and will take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Local Act and in compliance with the provisions of Subsections 4.1(a) and 4.1(b)(ii) hereof.

5.2 In the event, for any reason, the schedule of rates, fees and charges initially established for the System in connection with the Local Bonds shall prove to be insufficient to produce the required sums set forth in the Local Act and this Bond Purchase Agreement, the Local Government hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates, fees and charges (or where applicable, immediately file with the PSC for a rate increase) and take all such actions necessary to provide funds sufficient to produce the required sums set forth in the Local Act and this Bond Purchase Agreement.

5.3 In the event the Local Government defaults in any payment due to the Authority pursuant to this Bond Purchase Agreement, the amount of such default shall bear interest at the interest rate of the installment of the Local Bonds next due, from the date of the default until the date of the payment thereof.

5.4 The Local Government hereby irrevocably covenants and agrees with the Authority that, in the event of any default hereunder by the Local Government, the Authority may exercise any or all of the rights and powers granted under Section 5 of the Act, including, without limitation, the right to impose, enforce and collect charges of the System.

ARTICLE VI Other Agreements of the

Local Government

6.1 The Local Government hereby acknowledges to the Authority and DEP its understanding of the provisions of the Act, vesting in the Authority and DEP certain powers, rights and privileges with respect to wastewater treatment projects in the event of default by the Local Government in the terms and covenants of this Bond Purchase Agreement, and the Local Government hereby covenants and agrees that, if the Authority should hereafter have recourse to said rights and powers, the Local Government shall take no action of any nature whatsoever calculated to inhibit, nullify, void, delay or render nugatory such actions of the Authority in the due and prompt implementation of this Bond Purchase Agreement.

6.2 The Local Government hereby warrants and represents that all information provided to the Authority and DEP in this Bond Purchase Agreement, in the Application or in any other application or documentation with respect to financing the Project was at the time, and now is, true, correct and complete, and such information does not omit any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. Prior to the Authority's purchasing and receiving the Local Bonds, the Authority and DEP shall have the right to cancel all or any of their obligations under this Bond Purchase Agreement if (a) any representation made to the Authority and DEP by the Local Government in connection with the issuance of the Local Bonds shall be incorrect or incomplete in any material respect or (b) the Local Government has violated any commitment made by it in its Application or in any supporting documentation or has violated any of the terms of the Act, the SRF Regulations or this Bond Purchase Agreement.

6.3 The Local Government hereby agrees to repay on or prior to the Date of Closing any moneys due and owing by it to the Authority or any other lender for the planning or design of the Project, provided that such repayment shall not be made from the proceeds of the Local Bonds.

6.4 The Local Government hereby covenants that it will rebate any amounts required by Section 148 of the Internal Revenue Code of 1986, as amended, and will take all steps necessary to make any such rebates. In the event the Local Government fails to make any such rebates as required, then the Local Government shall pay any and all penalties, obtain a waiver from the Internal Revenue Service and take any other actions necessary or desirable to preserve the exclusion from gross income for federal income tax purposes of interest on the Local Bonds.

6.5 Notwithstanding Section 6.4, the Authority and DEP may at any time, in their sole discretion, cause the rebate calculations prepared by or on behalf of the Local

Government to be monitored or cause the rebate calculations for the Local Government to be prepared, in either case at the expense of the Local Government.

6.6 The Local Government hereby agrees to give the Authority and DEP prior written notice of the issuance by it of any other obligations to be used for the System, payable from the revenues of the System or from any grants for the Project or otherwise related to the Project or the System.

6.7 The Local Government hereby agrees to file with the Authority and DEP upon completion of acquisition and construction of the Project a schedule in substantially the form of Amended Schedule A to the Application, setting forth the actual costs of the Project and sources of funds therefor.

ARTICLE VII

Miscellaneous

7.1 Schedules X and Y shall be attached to this Bond Purchase Agreement by the Authority as soon as practicable after the Date of Closing is established and shall be approved by an official action of the Local Government supplementing the Local Act, a certified copy of which official action shall be submitted to the Authority.

7.2 If any provision of this Bond Purchase Agreement shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this Bond Purchase Agreement, and this Bond Purchase Agreement shall be construed and enforced as if such invalid or unenforceable provision had not been contained herein.

7.3 This Bond Purchase Agreement may be executed in one or more counterparts, any of which shall be regarded for all purposes as an original and all of which constitute but one and the same instrument. Each party agrees that it will execute any and all documents or other instruments and take such other actions as may be necessary to give effect to the terms of this Bond Purchase Agreement.

7.4 No waiver by any party of any term or condition of this Bond Purchase Agreement shall be deemed or construed as a waiver of any other terms or conditions, nor shall a waiver of any breach be deemed to constitute a waiver of any subsequent breach, whether of the same or of a different section, subsection, paragraph, clause, phrase or other provision of this Bond Purchase Agreement.

7.5 This Bond Purchase Agreement supersedes all prior negotiations, representations and agreements between the parties hereto relating to the Local Bonds and constitutes the entire agreement between the parties hereto in respect thereof.

7.6 By execution and delivery of this Bond Purchase Agreement, notwithstanding the date hereof, the Local Government specifically recognizes that it is hereby agreeing to sell its Local Bonds to the Authority and that such obligation may be specifically enforced or subject to a similar equitable remedy by the Authority.

7.7 This Bond Purchase Agreement shall terminate upon the earlier of:

(i) written notice of termination to the Local Government from either the Authority or DEP;

(ii) the end of ninety (90) days after the date of execution hereof by the Authority or such later date as is agreed to in writing by DEP if the Local Government has failed to deliver the Local Bonds to the Authority;

(iii) termination by the Authority and DEP pursuant to Section 6.2 hereof; or

(iv) payment in full of the principal of and interest on the Local Bonds and of any fees and charges owed by the Local Government to the Authority or DEP; provided that the amount of the Local Bonds purchased under this Bond Purchase Agreement in any succeeding fiscal year is contingent upon funds being appropriated by the State legislature or otherwise being available to purchase the Local Bonds. In the event funds are not appropriated or otherwise available to purchase all of the Local Bonds, the responsibility of the Authority and DEP to purchase the Local Bonds is terminated; provided further that the obligation of the Local Government to repay the outstanding amount of the Local Bonds is not terminated due to such non-funding on any balance of the Local Bonds. The DEP agrees to use its best efforts to have the amount contemplated under this Bond Purchase Agreement included in its budget. Non-appropriation or non-funding of the Loan shall not be considered an event of default under this Bond Purchase Agreement.

IN WITNESS WHEREOF, the parties hereto have caused this Bond Purchase Agreement to be executed by their respective duly authorized officers as of the date executed below by the Authority.

INSTRUCTIONS FOR COMPLETING MONTHLY FINANCIAL REPORT

- Item 1 You will need a copy of the current fiscal year budget adopted by the Local Government to complete Items 1 and 2. In Item 1, provide the amount of actual **Gross Revenues** for the current month and the total amount year-to-date in the respective columns. Divide the budgeted annual Gross Revenues by 12. For example, if Gross Revenues of \$1,200 are anticipated to be received for the year, each month the base would be increased by \$100 ($\$1,200/12$). This is the incremental amount for the Budget Year-to-Date column.
- Item 2 Provide the amount of actual **Operating Expenses** for the current month and the total amount year-to-date in the respective columns. Any administrative fee should be included in the Operating Expenses. Divide the budgeted annual Operating Expenses by 12. For example, if Operating Expenses of \$900 are anticipated to be incurred for the year, each month the base would be increased by \$75 ($\$900/12$). This is the incremental amount for the Budget Year-to-Date column.
- Item 3 Provide the **Bond Payments (principal, interest and reserve account)** for all the outstanding bonds of the Local Government according to the source of funding. For example, Clean Water State Revolving Fund loan from Department of Environmental Protection, Drinking Water Treatment Revolving Fund loan from Bureau for Public Health, Infrastructure Fund loan from Infrastructure and Jobs Development Council, or a loan from the Water Development Authority, etc.
- Item 4 Provide the amount deposited into the **Renewal and Replacement Fund** each month. This amount is equal to 2.5% of Gross Revenues minus the total reserve account payments included in Item 3. If Gross Revenues are \$1,200, then \$30 (2.5% of \$1,200), LESS the amount of all reserve account payments in Item 3 should be deposited into the Renewal and Replacement Fund. The money in the Renewal and Replacement Fund should be kept separate and apart from all other funds of the Local Government.

The Local Government must complete the Monthly Financial Report and forward it to the Water Development Authority by the 10th day of each month, commencing on the date contracts are executed for the acquisition or construction of the Project and for two years following the completion of acquisition or construction of the Project.

OPINION OF BOND COUNSEL FOR LOCAL GOVERNMENT

[To Be Dated as of Date of Closing]

West Virginia Water Development Authority
180 Association Drive
Charleston, WV 25311

West Virginia Department of Environmental Protection
1560 Kanawha Boulevard, East
Charleston, WV 25311

Ladies and Gentlemen:

We are bond counsel to _____ (the "Local Government"), a
_____.

We have examined a certified copy of proceedings and other papers relating to the authorization of (i) a bond purchase agreement dated ____, ____, including all schedules and exhibits attached thereto (the "Bond Purchase Agreement"), among the Local Government, the West Virginia Water Development Authority (the "Authority") and the West Virginia Department of Environmental Protection (the "DEP"), and (ii) the issue of a series of revenue bonds of the Local Government, dated _____, __ (the "Local Bonds"), to be purchased by the Authority in accordance with the provisions of the Bond Purchase Agreement. The Local Bonds are issued in the principal amount of \$ _____, in the form of one bond, registered as to principal only to the Authority, with principal payable quarterly on March 1, June 1, September 1, and December 1 of each year, beginning ____ 1, ____, and ending ____ 1, ____, all as set forth in the "Schedule Y" attached to the Bond Purchase Agreement and incorporated in and made a part of the Local Bonds.

The Local Bonds are issued for the purposes of (i) _____, and (ii) paying certain issuance and other costs in connection therewith.

We have also examined the applicable provisions of _____ of the Code of West Virginia, 1931, as amended (the "Local Statute"), and the bond _____ duly adopted or enacted by the Local Government on _____, as supplemented by the supplemental resolution duly adopted by the Local Government on _____.

(collectively, the "Local Act"), pursuant to and under which Local Statute and Local Act the Local Bonds are authorized and issued, and the Bond Purchase Agreement has been undertaken. The Local Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Local Act and the Bond Purchase Agreement.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion as follows:

1. The Bond Purchase Agreement has been duly authorized by and executed on behalf of the Local Government and is a valid and binding special obligation of the Local Government, enforceable in accordance with the terms thereof.
2. The Bond Purchase Agreement inures to the benefit of the Authority and the DEP and cannot be amended so as to affect adversely the rights of the Authority or the DEP or diminish the obligations of the Local Government without the consent of the Authority and the DEP.
3. The Local Government is a duly organized and validly existing _____, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt or enact the Local Act and to issue and sell the Local Bonds, all under the Local Statute and other applicable provisions of law.
4. The Local Act and all other necessary orders and resolutions have been legally and effectively adopted or enacted by the Local Government and constitute valid and binding obligations of the Local Government, enforceable against the Local Government in accordance with their terms. The Local Act contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Bond Purchase Agreement.
5. The Local Bonds have been duly authorized, issued, executed and delivered by the Local Government to the Authority and are valid, legally enforceable and binding special obligations of the Local Government, payable from the net or gross revenues of the System set forth in the Local Act and secured by a first lien on and pledge of the net or gross revenues of the System, all in accordance with the terms of the Local Bonds and the Local Act.
6. The Local Bonds are, by statute, exempt _____, and under existing statutes and court decisions of the United States of America, as presently written and applied, the interest on the Local Bonds is excludable from the gross income of the recipients thereof for federal income tax purposes.

No opinion is given herein as to the effect upon enforceability of the Local Bonds of bankruptcy, insolvency, reorganization, moratorium and other laws affecting creditors' rights or in the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Local Bond numbered R-1, and in our opinion the form of said bond and its execution and authentication are regular and proper.

Very truly yours,

ARTICLE II

The Project and the System

2.1 The Project shall generally consist of the design or construction and acquisition of the facilities described in the Application, to be, being or having been constructed in accordance with plans, specifications and designs prepared for the Governmental Agency by the Consulting Engineers, the Authority having found, to the extent applicable, that the Project is consistent with the applicable comprehensive plan of water management approved by the Director of the West Virginia Division of Environmental Protection (or in the process of preparation by such Director), has been approved by the West Virginia Bureau for Public Health and is consistent with the standards set by the West Virginia Water Resources Board for the waters of the State affected thereby.

2.2 Subject to the terms, conditions and provisions of this Loan Agreement and the Local Act, the Governmental Agency has acquired, or shall do all things necessary to acquire, the proposed site of the Project and shall do, is doing or has done all things necessary to construct the Project in accordance with the plans, specifications and designs prepared for the Governmental Agency by the Consulting Engineers.

2.3 All real estate and interests in real estate and all personal property constituting the Project and the Project site heretofore or hereafter acquired shall at all times be and remain the property of the Governmental Agency, subject to any mortgage lien or other security interest as is provided for in the Local Statute unless a sale or transfer of all or a portion of said property is approved by the Authority.

2.4 The Governmental Agency agrees that the Authority and its duly authorized agents shall have the right at all reasonable times to enter upon the Project site and Project facilities and to examine and inspect the same. The Governmental Agency further agrees that the Authority and its duly authorized agents and representatives shall, prior to, at and after completion of construction and commencement of operation of the Project, have such rights of access to the System site and System facilities as may be reasonably necessary to accomplish all of the powers and rights of the Authority with respect to the System pursuant to the pertinent provisions of the Act.

2.5 The Governmental Agency shall keep complete and accurate records of the cost of acquiring the Project site and the costs of constructing, acquiring and installing the Project. The Governmental Agency shall permit the Authority, acting by and through its Director or his duly authorized agents and representatives, to inspect all books, documents, papers and records relating to the Project and the System at any and all reasonable times for

the purpose of audit and examination, and the Governmental Agency shall submit to the Authority such documents and information as it may reasonably require in connection with the construction, acquisition and installation of the Project, the operation and maintenance of the System and the administration of the Loan or of any State and federal grants or other sources of financing for the Project.

2.6 The Governmental Agency agrees that it will permit the Authority and its agents and representatives to have access to the records of the Governmental Agency pertaining to the operation and maintenance of the System at any reasonable time following completion of construction of the Project and commencement of operation thereof or if the Project is an improvement to an existing system at any reasonable time following commencement of construction.

2.7 The Governmental Agency shall require that each construction contractor furnish a performance bond and a payment bond, each in an amount at least equal to one hundred percent (100%) of the contract price of the portion of the Project covered by the particular contract as security for the faithful performance of such contract.

2.8 The Governmental Agency shall require that each of its contractors and all subcontractors maintain, during the life of the construction contract, workers' compensation coverage, public liability insurance, property damage insurance and vehicle liability insurance in amounts and on terms satisfactory to the Authority. Until the Project facilities are completed and accepted by the Governmental Agency, the Governmental Agency or (at the option of the Governmental Agency) the contractor shall maintain builder's risk insurance (fire and extended coverage) on a one hundred percent (100%) basis (completed value form) on the insurable portion of the Project, such insurance to be made payable to the order of the Authority, the Governmental Agency, the prime contractor and all subcontractors, as their interests may appear. If facilities of the System which are detrimentally affected by flooding are or will be located in designated special flood or mudslide-prone areas and if flood insurance is available at a reasonable cost, a flood insurance policy must be obtained by the Governmental Agency on or before the Date of Loan Closing, as hereinafter defined, and maintained so long as any of the Local Bonds is outstanding. Prior to commencing operation of the Project, the Governmental Agency must also obtain, and maintain so long as any of the Local Bonds is outstanding, business interruption insurance if available at a reasonable cost.

2.9 The Governmental Agency shall provide and maintain competent and adequate resident engineering services satisfactory to the Authority covering the supervision and inspection of the development and construction of the Project, and bearing the responsibility of assuring that construction conforms to the plans, specifications and designs

prepared by the Consulting Engineers, which have been approved by all necessary governmental bodies. ARTICLE III

Conditions to Loan; Issuance of Local Bonds

3.1 The agreement of the Authority to make the Loan is subject to the Governmental Agency's fulfillment, to the satisfaction of the Authority, of each and all of those certain conditions precedent on or before the delivery date for the Local Bonds, which shall be the date established pursuant to Section 3.4 hereof. Said conditions precedent are as follows:

(a) The Governmental Agency shall have performed and satisfied all of the terms and conditions to be performed and satisfied by it in this Loan Agreement;

(b) The Governmental Agency shall have authorized the issuance of and delivery to the Authority of the Local Bonds described in this Article III and in Article IV hereof;

(c) The Governmental Agency shall either have received bids or entered into contracts for the design or construction of the Project which are in an amount and otherwise compatible with the plan of financing described in the Application; provided that, if the Loan will refund an interim construction financing, the Governmental Agency must either be constructing or have constructed its Project for a cost and as otherwise compatible with the plan of financing described in the Application; and, in either case, the Authority shall have received a certificate of the Consulting Engineers to such effect, the form of which certificate is attached hereto as Exhibit A;

(d) No Loan shall be made for the purpose of refinancing any outstanding long-term indebtedness of a Governmental Agency unless an opinion of counsel is received by the Authority to the effect that such refinancing is permitted by the Act and the General Resolution, and that such refinancing will not cause a violation of any covenant, representation or agreement of the Authority contained in the General Resolution or any tax or arbitrage certificate with respect to the exclusion of the interest on the Authority's water development revenue bonds from gross income of the holders thereof for federal income tax purposes;

(e) The Governmental Agency shall have obtained all permits required by the laws of the State and the federal government necessary for the design or construction of the Project, and the Authority shall have received a certificate of the Consulting Engineers to such effect;

(f) The Governmental Agency shall have obtained all requisite orders of and approvals from the Public Service Commission of West Virginia (the "PSC") and the West Virginia Infrastructure and Jobs Development Council necessary for the design or construction of the Project and operation of the System, with all requisite appeal periods having expired without successful appeal, and the Authority shall have received an opinion of counsel to the Governmental Agency, which may be local counsel to the Governmental Agency, bond counsel or special PSC counsel but must be satisfactory to the Authority, to such effect;

(g) The Governmental Agency shall have obtained any and all approvals for the issuance of the Local Bonds required by State law, and the Authority shall have received an opinion of counsel to the Governmental Agency, which may be local counsel to the Governmental Agency, bond counsel or special PSC counsel but must be satisfactory to the Authority, to such effect;

(h) The Governmental Agency shall have obtained any and all approvals of rates and charges required by State law and shall have taken any other action required to establish and impose such rates and charges (imposition of such rates and charges is not, however, required to be effective until completion of construction of the Project), with all requisite appeal periods having expired without successful appeal, and the Authority shall have received an opinion of counsel to the Governmental Agency, which may be local counsel to the Governmental Agency, bond counsel or special PSC counsel but must be satisfactory to the Authority, to such effect;

(i) Such rates and charges for the System shall be sufficient to comply with the provisions of Subsections 4.1(a) and 4.1(b)(ii) hereof, and the Authority shall have received a certificate of the accountant for the Governmental Agency, or such other person or firm experienced in the finances of governmental agencies and satisfactory to the Authority, to such effect; and

(j) The net proceeds of the Local Bonds, together with all moneys on deposit or to be simultaneously deposited (or, with respect to proceeds of grant anticipation notes or other indebtedness for which a binding purchase contract has been entered, to be deposited on a date certain) and irrevocably pledged thereto and the proceeds of grants irrevocably committed therefor, shall be sufficient to pay the costs of construction and acquisition of the Project as set forth in the Application, and the Authority shall have received a certificate of the Consulting Engineers, or such other person or firm experienced in the financing of water development projects and satisfactory to the Authority, to such effect, such certificate to be in form and substance satisfactory to the Authority, and evidence satisfactory to the Authority of such irrevocably committed grants.

3.2 Subject to the terms and provisions of this Loan Agreement, the rules and regulations promulgated by the Authority or any other appropriate State agency and any applicable rules, regulations and procedures promulgated from time to time by the federal government, it is hereby agreed that the Authority shall make the Loan to the Governmental Agency and the Governmental Agency shall accept the Loan from the Authority, and in furtherance thereof it is agreed that the Governmental Agency shall sell to the Authority and the Authority shall make the Loan by purchasing the Local Bonds in the principal amount and at the price set forth in Schedule X hereto. The Local Bonds shall have such further terms and provisions as described in Article IV hereof.

3.3 The Loan shall be secured and shall be repaid in the manner hereinafter provided in this Loan Agreement.

3.4 The Local Bonds shall be delivered to the Authority, at the offices of the Authority, on a date designated by the Governmental Agency by written notice to the Authority, which written notice shall be given not less than ten (10) business days prior to the date designated; provided, however, that if the Authority is unable to accept delivery on the date designated, the Local Bonds shall be delivered to the Authority on a date as close as possible to the designated date and mutually agreeable to the Authority and the Governmental Agency. The date of delivery so designated or agreed upon is hereinafter referred to as the "Date of Loan Closing." Notwithstanding the foregoing, the Date of Loan Closing shall in no event occur more than six months after the date of execution of this Loan Agreement by the Authority.

3.5 The Governmental Agency understands and acknowledges that the obligation of the Authority to make any such loan is subject to the Governmental Agency's fulfilling all of the terms and conditions of this Loan Agreement on or prior to the Date of Loan Closing and to the right of the Authority to make such loans to other governmental agencies as in the aggregate will permit the fullest and most timely utilization of such proceeds to enable the Authority to pay debt service on the water development revenue bonds issued by it if the Governmental Agency is unable to comply with this Loan Agreement. The Governmental Agency specifically recognizes that the Authority has issued bonds specifically to provide funds to purchase the Local Bonds and has represented to its bondholders that it will purchase the Local Bonds. The Governmental Agency further specifically recognizes that the Authority may execute Loan Agreements, commit moneys and close Local Bond sales from non Program funds. Additionally, the Governmental Agency recognizes that the Authority will purchase the Local Bonds only with funds from the Program and not with funds from any other loan programs of the Authority.

ARTICLE IV

Local Bonds; Security for Loan;
Repayment of Loan; Interest on Loan;
Fees and Charges

4.1 The Governmental Agency shall, as one of the conditions of the Authority to make the Loan, authorize the issuance of and issue the Local Bonds pursuant to an official action of the Governmental Agency in accordance with the Local Statute, which shall, as adopted or enacted, contain provisions and covenants in substantially the form as follows, unless the specific provision or covenant is modified or waived by the Authority:

(a) That the gross revenues of the System shall always be used for purposes of the System. Such gross revenues will be used monthly, in the order of priority listed below:

(i) to pay Operating Expenses of the System;

(ii) to the extent not otherwise limited by any outstanding loan resolution, indenture or other act or document, as reflected on the Schedule X attached hereto, and beginning seven (7) months prior to the first date of payment of interest on the Local Bonds and thirteen (13) months prior to the first date of payment of principal of the Local Bonds, respectively, to provide debt service on the Local Bonds by depositing in a sinking fund one-sixth (1/6) of the interest payment next coming due on the Local Bonds and one-twelfth (1/12) of the principal payment next coming due on the Local Bonds and, beginning thirteen (13) months prior to the first date of payment of principal of the Local Bonds, if the reserve account for the Local Bonds (the "Reserve Account") was not funded from proceeds of the Local Bonds or otherwise concurrently with the issuance thereof (which, with an approving opinion of bond counsel to the Governmental Agency, may be with a letter of credit or surety or other security instrument) in an amount equal to the maximum amount of principal and interest which will come due on the Local Bonds in the then current or any succeeding year (the "Reserve Requirement"), by depositing in the Reserve Account an amount not less than one-twelfth (1/12) of one-tenth (1/10) (or such other amount as shall be acceptable to the Authority and as shall fund the Reserve Account over not more than ten (10) years) of the Reserve Requirement or, if the Reserve Account has been so funded (whether by Local Bond proceeds, monthly deposits or otherwise), any amount necessary to maintain the Reserve Account at the Reserve Requirement;

(iii) to create a renewal and replacement, or similar, fund in an amount equal to two and one-half percent (2-1/2%) of the gross revenues from the System, exclusive of any payments into the Reserve Account, for the purpose of improving or making emergency repairs or replacements to the System or eliminating any deficiencies in the Reserve Account; and

(iv) for other legal purposes of the System, including payment of debt service on other obligations junior, subordinate and inferior to the Local Bonds.

Provided, that if the Governmental Agency has existing outstanding indebtedness which has greater coverage or renewal and replacement fund requirements, then the greater requirements will prevail until said existing indebtedness is paid in full.

(b) Covenants substantially as follows:

(i) That the Local Bonds shall be secured by a pledge of either the gross or net revenues of the System, as more fully set forth in the Local Act;

(ii) That the schedule of rates or charges for the services of the System shall be sufficient to provide funds which, along with other revenues of the System, will pay all Operating Expenses and leave a balance each year equal to at least one hundred fifteen percent (115%) of the maximum amount required in any year for debt service on the Local Bonds and all other obligations secured by a lien on or payable from the revenues of the System prior to or on a parity with the Local Bonds or, if the Reserve Account is funded (whether by Local Bond proceeds, monthly deposits or otherwise) at an amount equal to the Reserve Requirement and any reserve account for any such prior or parity obligations is funded at least at the requirement therefor, equal to at least one hundred ten percent (110%) of the maximum amount required in any year for debt service on the Local Bonds and any such prior or parity obligations;

(iii) That the Governmental Agency shall complete the Project, shall operate and maintain the System in good condition and, to the extent applicable, in compliance with, among other state and federal standards, the water quality standards established by the West Virginia Division of Environmental Protection (the "DEP") and the United States Environmental Protection Agency (the "EPA"), shall permit the DEP and EPA to have access to the records of the Governmental Agency pertaining to the operation and maintenance of the System at any reasonable time following completion of construction of the Project and commencement of operation thereof, and shall, as a condition precedent to the Authority's making the Loan, have obtained, among other permits required, permits from the EPA and the DEP, if required;

(iv) That, except as otherwise required by State law or with the written consent of the Authority, the System may not be sold, mortgaged, leased or otherwise disposed of, except as a whole, or substantially as a whole, and only if the net proceeds to be realized shall be sufficient to pay fully all the Local Bonds outstanding, with further restrictions on the disposition of portions of the System as are normally contained in such covenants;

(v) That the Governmental Agency shall not issue any other obligations payable from the revenues of the System which rank prior to, or equally, as to lien and security with the Local Bonds, except parity bonds which shall only be issued if net revenues of the System prior to issuance of such parity bonds, plus reasonably projected revenues from rate increases and the improvements to be financed by such parity bonds, shall not be less than one hundred fifteen percent (115%) of the maximum debt service in any succeeding year on all Local Bonds and parity bonds theretofore and then being issued and

on any obligations secured by a lien on or payable from the revenues of the System prior to the Local Bonds; provided, however, that additional parity bonds may be issued to complete the Project, as described in the Application as of the date hereof, without regard to the foregoing;

(vi) That the Governmental Agency will carry such insurance as is customarily carried with respect to works and properties similar to the System, including those specified by Section 2.8 hereof;

(vii) That the Governmental Agency will not render any free services of the System;

(viii) That the Authority may, by proper legal action, compel the performance of the duties of the Governmental Agency under the Local Act, including the making and collection of sufficient rates or charges for services rendered by the System, and shall also have, in the event of a default in payment of principal of or interest on the Local Bonds, the right to obtain the appointment of a receiver to administer the System or construction of the Project, or both, as provided by law;

(ix) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, all delinquent rates and charges, if not paid when due, shall become a lien on the premises served by the System;

(x) That, to the extent legally allowable, the Governmental Agency will not grant any franchise to provide any services which would compete with the System;

(xi) That the Governmental Agency shall annually cause the records of the System to be audited by an independent certified public accountant or independent public accountant and shall submit the report of said audit to the Authority, which report shall include a statement that the Governmental Agency is in compliance with the terms and provisions of the Local Act and this Loan Agreement and that the Governmental Agency's revenues are adequate to meet its Operating Expenses and debt service and reserve requirements;

(xii) That the Governmental Agency shall annually adopt a detailed budget of the estimated revenues and expenditures for operation and maintenance of the System during the succeeding fiscal year and shall submit a copy of such budget to the Authority within 30 days of adoption thereof;

(xiii) That, to the extent authorized by the laws of the State and the rules and regulations of the PSC, prospective users of the System shall be required to connect thereto;

(xiv) That the proceeds of the Local Bonds, except for accrued interest and capitalized interest, if any, must (a) be deposited in a construction fund, which, except as otherwise agreed to in writing by the Authority, shall be held separate and apart from all other funds of the Governmental Agency and on which the owners of the Local Bonds shall have a lien until such proceeds are applied to the construction of the Project (including the repayment of any incidental interim financing) and/or (b) be used to pay (or redeem) bond anticipation notes or other interim financing of such Governmental Agency, the proceeds of which were used to finance the construction of the Project; provided that, with the prior written consent of the Authority, the proceeds of the Local Bonds may be used to fund all or a portion of the Reserve Account, on which the owner of the Local Bonds shall have a lien as provided herein;

(xv) That, as long as the Authority is the owner of any of the Local Bonds, the Governmental Agency shall not authorize redemption of any Local Bonds by it without the written consent of the Authority and except in compliance with the restrictions contained in this Loan Agreement;

(xvi) That, to the full extent permitted by applicable law and the rules and regulations of the PSC, the Governmental Agency shall terminate the services of any water facility owned by it to any customer of the System who is delinquent in payment of charges for services provided by the System and will not restore the services of the water facility until all delinquent charges for the services of the System have been fully paid or, if the water facility is not owned by the Governmental Agency, then the Governmental Agency shall enter into a termination agreement with the water provider;

(xvii) That the Governmental Agency shall take any and all action, or shall refrain from taking any action, as shall be deemed necessary by the Authority to maintain the exclusion from gross income for federal income tax purposes of interest on the Authority's water development revenue bonds;

(xviii) That the Governmental Agency shall provide the Authority with annual financial information and such other information as is necessary for the Authority to meet its ongoing disclosure requirements;

(xix) That the Governmental Agency shall have obtained the certificate of the Consulting Engineer in the form attached hereto as Exhibit A, to the effect

that the Project has been or will be constructed in accordance with the approved plans, specifications and design as submitted to the Authority, the Project is adequate for the purposes for which it was designed and the funding plan as submitted to the Authority is sufficient to pay the costs of acquisition and construction of the Project;

(xx) That the West Virginia Municipal Bond Commission (the "Commission") shall serve as paying agent for the Local Bonds;

(xxi) That the Governmental Agency shall on the first day of each month (if the first day is not a business day, then the first business day of each month) deposit with the Commission the required interest, principal and reserve fund payment. The Governmental Agency shall complete the Monthly Payment Form, attached hereto as Exhibit D and incorporated herein by reference, and submit a copy of said form along with a copy of the check to the Authority by the 5th day of such calendar month;

(xxii) That, unless it qualifies for an exception to the provisions of Section 148 of the Internal Revenue Code of 1986, as amended, which exception shall be set forth in an opinion of bond counsel, the Governmental Agency will furnish to the Authority, annually, at such time as it is required to perform its rebate calculations under the Internal Revenue Code of 1986, as amended, a certificate with respect to its rebate calculations and, at any time, any additional information requested by the Authority;

(xxiii) That the Governmental Agency shall furnish to the Authority such information with respect to earnings on all funds constituting "gross proceeds" of the Local Bonds (as that term is defined in the Internal Revenue Code of 1986, as amended) from time to time as the Authority may request;

(xxiv) That the Governmental Agency shall obtain the written approval of the Authority before expending any proceeds of the Local Bonds available due to bid/construction/project underruns, including the "contingency" as set forth in the final Schedule A attached to the certificate of the Consulting Engineer;

(xxv) That the Governmental Agency shall list the funding provided by the Authority in any press release, publication, program bulletin, sign or other public communication that references the Project, including but not limited to any program document distributed in conjunction with any groundbreaking or dedication of the Project;

(xxvi) That, to the extent required by law, the Governmental Agency shall secure the approval of the Authority and all other state agencies having jurisdiction before applying for federal assistance for pollution abatement in order to

maximize the amounts of such federal financial assistance received or to be received for all water development projects in the State of West Virginia; and

(xxvii) That, as a condition precedent to the Authority's making the Loan, the Governmental Agency shall deliver to the Authority a tax or arbitrage certificate satisfactory to the Authority.

The Governmental Agency hereby represents and warrants that the Local Act has been or shall be duly adopted or enacted in compliance with all necessary corporate and other action and in accordance with applicable provisions of law. All legal matters incident to the authorization, issuance, sale and delivery of the Local Bonds shall be approved without qualification by recognized bond counsel acceptable to the Authority in substantially the form of legal opinion attached hereto as Exhibit B.

4.2 The Loan shall be secured by the pledge and assignment by the Governmental Agency, as effected by the Local Act, of the fees, charges and other revenues of the Governmental Agency from the System as further set forth by and subject only to such reservations and exceptions as are described in Schedules X and Y hereto or are otherwise expressly permitted in writing by the Authority.

4.3 An Origination Fee Account shall be established with the Trustee to hold the portion of the proceeds of any Loan established to fund an Origination Fee. Amounts on deposit in an Origination Fee Account shall belong to the Governmental Agency receiving the related Loan, but such amounts may only be disbursed from the Account to pay the Origination Fee as and when required to satisfy the requirements of the State's Revolving Fund program established pursuant to Title VI of the Water Quality Act of 1987 or for such other purposes as the Authority may approve in writing.

4.4 The principal of the Loan shall be repaid by the Governmental Agency annually on the day and in the years provided in Schedule X hereto. Interest payments on the Loan shall be made by the Governmental Agency on a semiannual basis as provided in said Schedule X.

4.5 The Loan shall bear interest from the date of the delivery to the Authority of the Local Bonds until the date of payment thereof, at the rate or rates per annum set forth on Schedule X hereto. In no event shall the interest rate on or the net interest cost of the Local Bonds exceed any statutory limitation with regard thereto.

4.6 The Local Bonds shall be delivered to the Authority in fully registered form, transferable and exchangeable as provided in the Local Act at the expense of the

Governmental Agency. Anything to the contrary herein notwithstanding, the Local Bonds may be issued in one or more series, as reflected by Schedule X hereto.

4.7 The Governmental Agency agrees to pay from time to time, as required by the Authority, the Governmental Agency's allocable share of the reasonable administrative expenses of the Authority relating to the Program. Such administrative expenses shall be as determined by the Authority and shall include, without limitation, Program expenses, legal fees paid by the Authority and fees paid to the trustee and paying agents for the water development revenue bonds. The Authority shall provide both the Governmental Agency and the trustee for the water development revenue bonds with a schedule of such fees and charges, and the Governmental Agency shall pay such fees and charges on the dates indicated directly to the trustee. The Governmental Agency hereby specifically authorizes the Authority to exercise the powers granted it by Section 9.06 of the General Resolution.

4.8 The Governmental Agency agrees to expend the net proceeds of the Local Bonds for the Project within 3 years of the issuance of the Authority's bonds.

4.9 As long as the Authority is the owner of any of the Local Bonds outstanding, the Governmental Agency shall not redeem any of such Local Bonds outstanding without the written consent of the Authority, and any such redemption of Local Bonds authorized by the Authority shall provide for the payment of interest to the first allowable redemption date for the applicable water development revenue bonds, the redemption premium payable on the applicable water development revenue bonds redeemable as a consequence of such redemption of Local Bonds and the costs and expenses of the Authority in effecting any such redemption, all as further prescribed by Section 9.11 of the General Resolution. Nothing in this Loan Agreement shall be construed to prohibit the Authority from refunding applicable water development revenue bonds, and such refunding need not be based upon or result in any benefit to the Governmental Agency.

ARTICLE V

Certain Covenants of the Governmental Agency;
Imposition and Collection of User Charges;
Payments To Be Made by
Governmental Agency to the Authority

5.1 The Governmental Agency hereby irrevocably covenants and agrees to comply with all of the terms, conditions and requirements of this Loan Agreement and the Local Act. The Governmental Agency hereby further irrevocably covenants and agrees that,

as one of the conditions of the Authority to make the Loan, it has fixed and collected, or will fix and collect, the rates, fees and other charges for the use of the System, as set forth in the Local Act and in compliance with the provisions of Subsections 4.1(a) and 4.1(b)(ii) hereof.

5.2 In the event, for any reason, the schedule of rates, fees and charges initially established for the System in connection with the Local Bonds shall prove to be insufficient to produce the minimum sums set forth in the Local Act, the Governmental Agency hereby covenants and agrees that it will, to the extent or in the manner authorized by law, immediately adjust and increase such schedule of rates, fees and charges so as to provide funds sufficient to produce the minimum sums set forth in the Local Act and as required by this Loan Agreement.

5.3 In the event the Governmental Agency defaults in any payment due to the Authority pursuant to Section 4.2 hereof, the amount of such default shall bear interest at the interest rate of the installment of the Loan next due, from the date of the default until the date of the payment thereof.

5.4 The Governmental Agency hereby irrevocably covenants and agrees with the Authority that, in the event of any default hereunder by the Governmental Agency, the Authority may exercise any or all of the rights and powers granted under Section 7 of the Act, including without limitation the right to impose, enforce and collect directly charges upon users of the System.

ARTICLE VI

Other Agreements of the Governmental Agency

6.1 The Governmental Agency hereby acknowledges to the Authority its understanding of the provisions of the Act, vesting in the Authority certain powers, rights and privileges with respect to water development projects in the event of default by the Governmental Agency in the terms and covenants of this Loan Agreement, and the Governmental Agency hereby covenants and agrees that, if the Authority should hereafter have recourse to said rights and powers, the Governmental Agency shall take no action of any nature whatsoever calculated to inhibit, nullify, void, delay or render nugatory such actions of the Authority in the due and prompt implementation of this Loan Agreement.

6.2 At the option of the Authority, the Governmental Agency shall issue and sell to the Authority additional, subordinate bonds to evidence the Governmental Agency's obligation to repay to the Authority any grant received by the Governmental Agency from the Authority in excess of the amount to which the Governmental Agency is entitled pursuant to applicable policies or rules and regulations of the Authority. Also at the option of the Authority, the Governmental Agency may issue and sell to the Authority additional, subordinate bonds for such purposes as may be acceptable to the Authority.

6.3 The Governmental Agency hereby warrants and represents that all information provided to the Authority in this Loan Agreement, in the Application or in any other application or documentation with respect to financing the Project was at the time, and now is, true, correct and complete, and such information does not omit any material fact necessary to make the statements therein, in light of the circumstances under which they were made, not misleading. 6.4 The Governmental Agency hereby agrees to repay on or prior to the Date of Loan Closing any moneys due and owing by it to the Authority for the planning or design of the Project, and such repayment shall be a condition precedent to the Authority's making the Loan.

6.5 The Governmental Agency hereby covenants that it will rebate any amounts required by Section 148 of the Internal Revenue Code of 1986, as amended, and will take all steps necessary to make any such rebates. In the event the Governmental Agency fails to make any such rebates as required, then the Governmental Agency shall pay any and all penalties, obtain a waiver from the Internal Revenue Service and take any other actions necessary or desirable to preserve the exclusion from gross income for federal income tax purposes of interest on the Local Bonds.

6.6 Notwithstanding Section 6.5, the Authority may at any time, in its sole discretion, cause the rebate calculations prepared by or on behalf of the Governmental Agency to be monitored or cause the rebate calculations for the Governmental Agency to be prepared, in either case at the expense of the Governmental Agency.

6.7 The Governmental Agency hereby agrees to give the Authority prior written notice of the issuance by it of any other obligations to be used for the Project, payable

from the revenues of the System or from any grants for the Project or otherwise related to the Project or the System.

6.8 The Governmental Agency hereby agrees to file with the Authority upon completion of acquisition and construction of the Project a schedule in substantially the form of Amended Schedule A to the Application, setting forth the actual costs of the Project and sources of funds therefor.

7.1 Additional definitions, additional terms and provisions of the Loan and additional covenants and agreements of the Governmental Agency, if any, may be set forth in Schedule Z attached hereto and incorporated herein by reference, with the same effect as if contained in the text of this Loan Agreement.

7.2 Schedules X and Y shall be attached to this Loan Agreement by the Authority as soon as practicable after the Date of Loan Closing is established and shall be approved by an official action of the Governmental Agency supplementing the Local Act, a certified copy of which official action shall be submitted to the Authority.

7.3 If any provision of this Loan Agreement shall for any reason be held to be invalid or unenforceable, the invalidity or unenforceability of such provision shall not affect any of the remaining provisions of this Loan Agreement, and this Loan Agreement shall be construed and enforced as if such invalid or unenforceable provision had not been contained herein.

7.4 This Loan Agreement may be executed in one or more counterparts, any of which shall be regarded for all purposes as an original and all of which constitute but one and the same instrument. Each party agrees that it will execute any and all documents or other instruments and take such other actions as may be necessary to give effect to the terms of this Loan Agreement.

7.5 No waiver by either party of any term or condition of this Loan Agreement shall be deemed or construed as a waiver of any other terms or conditions, nor shall a waiver of any breach be deemed to constitute a waiver of any subsequent breach, whether of the same or of a different section, subsection, paragraph, clause, phrase or other provision of this Loan Agreement.

7.6 This Loan Agreement supersedes all prior negotiations, representations and agreements between the parties hereto relating to the Loan and constitutes the entire agreement between the parties hereto in respect thereof.

7.7 By execution and delivery of this Loan Agreement, notwithstanding the date hereof, the Governmental Agency specifically recognizes that it is hereby agreeing to sell its Local Bonds to the Authority and that such obligation may be specifically enforced or subject to a similar equitable remedy by the Authority.

7.8 Unless the Local Bonds are purchased by the Authority, this Loan Agreement shall terminate upon the earlier of:

(i) the end of six months after the date of execution hereof by the Authority if the Governmental Agency has failed to deliver the Local Bonds to the Authority;
or

(ii) termination by the Authority pursuant to Section 6.3 hereof.

IN WITNESS WHEREOF, the parties hereto have caused this Loan Agreement to be executed by their respective duly authorized officers as of the date executed below by the Authority.

Ladies and Gentlemen:

We are bond counsel to _____ (the "Governmental Agency"), a _____.

We have examined a certified copy of proceedings and other papers relating to the authorization of (i) a loan agreement dated _____, _____, including all schedules and exhibits attached thereto (the "Loan Agreement"), between the Governmental Agency and the West Virginia Water Development Authority (the "Authority") and (ii) the issue of a series of revenue bonds of the Governmental Agency, dated _____, _____ (the "Local Bonds"), to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Local Bonds are issued in the principal amount of \$_____, in the form of one bond, registered as to principal and interest to the Authority, with interest payable semiannually on April 1 and October 1 of each year, commencing _____ 1, _____, at the rate of ___% per annum, and with principal payable annually on October 1 of each year, commencing _____ 1, _____, all as set forth in the "Schedule Y" attached to the Loan Agreement and incorporated in and made a part of the Local Bonds.

The Local Bonds are issued for the purposes of _____ and paying certain issuance and other costs in connection therewith.

We have also examined the applicable provisions of _____ of the Code of West Virginia, 1931, as amended (the "Local Statute"), and the bond _____ duly adopted or enacted by the Governmental Agency on _____ (the "Local Act"), pursuant to and under which Local Statute and Local Act the Local Bonds are authorized and issued, and the Loan Agreement has been undertaken. The Local Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Local Act and the Loan Agreement.

Based upon the foregoing and upon our examination of such other documents as we have deemed necessary, we are of the opinion as follows:

1. The Loan Agreement has been duly authorized by and executed on behalf of the Governmental Agency and is a valid and binding special obligation of the Governmental Agency enforceable in accordance with the terms thereof.

2. The Loan Agreement inures to the benefit of the Authority and cannot be amended so as to affect adversely the rights of the Authority or diminish the obligations of the Governmental Agency without the consent of the Authority.

3. The Governmental Agency is a duly organized and presently existing _____, with full power and authority to construct and acquire the Project and to operate and maintain the System referred to in the Loan Agreement and to issue and sell the Local Bonds, all under the Local Statute and other applicable provisions of law.

4. The Local Act and all other necessary orders and resolutions have been legally and effectively adopted or enacted by the Governmental Agency and constitute valid and binding obligations of the Governmental Agency enforceable against the Governmental Agency in accordance with their terms. The Local Act contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

5. The Local Bonds have been duly authorized, issued, executed and delivered by the Governmental Agency to the Authority and are valid and legally enforceable and binding special obligations of the Governmental Agency, payable from the net or gross revenues of the System referred to in the Local Act and secured by a first lien on and pledge of the net or gross revenues of the System, all in accordance with the terms of the Local Bonds and the Local Act.

6. The Local Bonds are, by statute, exempt _____, and under existing statutes and court decisions of the United States of America, as presently written and applied, the interest on the Local Bonds is excludable from the gross income of the recipients thereof for federal income tax purposes.

No opinion is given herein as to the effect upon enforceability of the Local Bonds of bankruptcy, insolvency, reorganization, moratorium and other laws affecting creditors' rights or in the exercise of judicial discretion in appropriate cases.

We have examined the executed and authenticated Local Bond numbered R-1, and in our opinion the form of said bond and its execution and authentication are regular and proper.

Very truly yours,

CASE NO. 02-1213-PSD-CN

PEA RIDGE PUBLIC SERVICE DISTRICT,
a public utility.

Application for a certificate of convenience and necessity for the addition and replacement of new lines, to construct lift stations, to upgrade existing lift station, to install manholes, to abandon an aerated lagoon and Richmond Sewer Treatment Plant, to upgrade two existing wastewater treatment plants and to construct an office building and for approval of an Interutility Agreement with the City of Huntington.

RECOMMENDED DECISION

PROCEDURE

On August 16, 2002, Pea Ridge Public Service District (District), a public sewer utility, filed a duly verified application for a certificate of convenience and necessity to construct and operate certain additions and improvements to the District's wastewater treatment system in Cabell County, West Virginia. The District estimated that construction will cost approximately \$12,323,400, and will be financed by the issuance of Revenue Bonds through the West Virginia State Revolving Fund in an amount not to exceed \$12,223,400 and a loan from the Water Development Authority in an amount not to exceed \$100,000. The District also requested increased rates and charges in order to fund and maintain this project.

This matter had been properly filed for pre-filing notice on July 5, 2002. On July 19, 2002, the District filed a duly executed affidavit of publication demonstrating publication of a formal Notice of Prefiling (Tariff Form No. 13) on July 9 and 16, 2002, in The Herald-Dispatch, a newspaper duly certified by the Secretary of State, published and of general circulation in Cabell County, West Virginia. Said notice was also posted at the Cabell County Courthouse on July 9, 2002.

By a formal Notice of Filing entered August 16, 2002, the Public Service Commission required the District to provide public legal notice of this application by publishing a copy of said Notice once in a newspaper duly qualified by the Secretary of State, published and of general circulation in Cabell County, West Virginia, and to make due return to the Commission of proper proof of publication. The Notice of Filing contained the increased rates and charges requested by the

District and made provision for the filing of written statements of protest, objection or intervention within thirty (30) days of publication.

On August 30, 2002, the District filed a duly executed affidavit of publication demonstrating publication of the Notice of Filing on August 23, 2002, in The Herald-Dispatch, all in accordance with the Commission's Order entered August 16, 2002.

Pursuant to public legal notice, numerous statements and petitions of protest have been filed in this matter.

On September 12, 2002, the District filed the duly executed affidavit of Dina B. Foster, General Manager of the Pea Ridge Public Service District, demonstrating compliance with Rule 10.3.d of the Commission's Rules of Practice and Procedure. Attached to this filing was a copy of the direct notice to customers of the requested rate increase as printed on the District's August billing.

On September 17, 2002, Commission Staff filed its Initial Joint Staff Memorandum in this matter. Staff briefly detailed the nature of this project and listed the documents or approvals needed to complete this application. Noting the numerous protests already filed, Staff recommended that this application be set for hearing after Staff files its final recommendations in this case.

By a Commission Referral Order entered September 17, 2002, this certificate application was referred to the Division of Administrative Law Judges for further proceedings with a decision due date of March 14, 2003.

On October 31, 2002, the District filed its first amendment to this application showing revised project costs of \$12,398,400.

On November 22, 2002, a Procedural Order was entered which scheduled this matter for hearing to be held on December 17, 2002, in Barboursville, Cabell County, West Virginia. This Order also required the District to provide public legal notice of the hearing by causing to be published a prepared Notice of Hearing, once a week for two consecutive weeks in a newspaper duly qualified by the Secretary of State, published and of general circulation in Cabell County, West Virginia, and to make due return of proof of publication to the Commission.

On December 2, 2002, the District filed a second formal revision to its Rule 42 Exhibit and construction budget. The revisions were based on the need for additional borrowing and increased construction costs.

On December 5, 2002, a Final Joint Staff Memorandum was filed by Commission Staff which contained the Staff Report of Jack Miller, Utilities Analyst, and Joseph A. Marakovits, Technical Analyst III. Staff recommended that the District be granted an interim rate increase.

On December 13, 2002, Staff filed a Final Joint Staff Memorandum concerning the District's certificate application. Staff pointed out that this project would improve service for the District's 3,900 existing

customers and would bring service to approximately 438 new customers in several areas of Cabell County. Staff recommended approval of this project and increased rates and charges to support it.

On December 19, 2002, the District filed a duly executed affidavit of publication demonstrating publication of the prepared Notice of Hearing on December 3 and 10, 2002, in The Herald-Dispatch, all in accordance with the Procedural Order entered November 22, 2002.

Also, on December 19, 2002, a letter was filed in this matter which confirmed the intention of the West Virginia Department of Environmental Protection (DEP) to provide an increased loan for this project, in the amount of \$12,429,500, from the State Revolving Fund. The exact terms for the loan would be established after bids for the project have been received.

The hearing in this matter convened as scheduled on December 17, 2002, in Barboursville, West Virginia, with all parties in attendance. The Pea Ridge Public Service District appeared and was represented by its attorney Ronald J. Flora. Commission Staff appeared and was represented by Staff Attorney Ronald E. Robertson, Jr. Numerous Protestants and customers of the District were present as well. On January 16, 2003, an accurate transcript of these proceedings, consisting of 152 pages of testimony, was filed with the Commission and is denoted herein as (Tr., pp. ___).

EVIDENCE

At hearing, statements of public protest were taken first. Leon Coldiron is a forty-year resident of Guyan Estates and Secretary for the Guyan Estates Committee for Fair Sewage Rates. Mr. Coldiron is an Industrial Engineer and discussed what he believes to be fair rates as a function, or percentage, of water rates. Huntington and Barboursville residents pay a sewage bill equal to thirty-five to forty percent of their water bill. If this project is built and the increased rates approved, District customers will pay in excess of one hundred percent of the water bill as sewer rates. He finds it disappointing that county government would proceed with a twelve million dollar project during a time of economic recession and not apply for more grant funding. He believes that the number of new customers to be added by the project is grossly understated. He also does not think the District intends to upgrade the Guyan Estates sewer system, as indicated in the application. Guyan Estates is a "cash cow" for the District; therefore, Mr. Coldiron would like it to be operated as a separate entity. He does not think the District needs a new office or any new employees and that the debt load from this project is too high. In short, this application should be denied. (Tr., pp. 9-13).

Alexander Skirpan complained that the previous rate increase for Guyan Estates was approved without sufficient public notice. He does not read the legal ads. He does not understand why the private utility company that previously operated the Guyan Estates sewer system was denied rate increases by the Commission. The residents of Guyan Estates cannot afford a lawyer and the Public Service Commission Consumer

Advocate Division would not represent them either. He believes Guyan Estates should be part of the Barboursville system, but Barboursville turned them down. The District's manager spends too much money and has done little for Guyan Estates. He also believes that, because the District's manager used to work at the Public Service Commission, Commission personnel should be recused from working on this case. Economic times are hard and the District should not build a new building when a new double wide trailer would give the District three times the space it currently has. He admits the current office trailer needs a new floor. Projected expenses should be cut ten percent, like state government. Commission Staff did not reduce the District's requested rates enough and he believes that is collusion. District employees do not deserve a seven percent pay raise, when senior citizens only get a 1.4% increase. He stated that the use of two different test years by the District and Staff makes it impossible for customers to compare and understand what is going on. He also does not understand how many actual customers the District has. There is a 205 customer difference between the District's count and Staff's count. (Tr., pp. 14-26).

Michael Katrinic is a resident of East Pea Ridge and does not believe the Pea Ridge system was ever intended to include Guyan Estates or reach the Ohio River Road. He is retired and utility rate increases are not easy to accommodate financially. (Tr., pp. 26-27).

Kenneth Brown is a resident of Guyan Estates. He does not think the District's financial statement and the audited balance sheet match. He believes the District needs a new accounting system, and that adjusted expenses are not legitimate. He also receives improper bills on a regular basis, but the District blames its computer system. Guyan Estates has had a 200% increase in sewer rates in the last two years and the residents are upset. He also believes the District has mishandled a State grant to extend its collection system along Route 10. He admits that this proposed project needs to be done and the sewer lagoon removed. The EPA will force the pond to be done away with eventually. He believes the rate increase should be limited to the length of time it takes to pay the bonds off. (Tr., pp. 28-33).

James Blake is a customer of the District and has a couple of pieces of rental property. He is concerned that the District will not prorate bills when tenants leave or move in at odd times. He apparently receives two bills for the same billing period when tenants leave. He is also concerned about the District's lack of planning for storm water. He believes this will lead to further increases later. He believes a moratorium on new projects is in order, until the impact of the EPA storm water policies becomes known. He also does not think the District needs an office building. The county needs a regional or countywide sewer system. (Tr. pp. 34-39).

Larry Legge is a resident of Guyan Estates. He attends the District's monthly meetings and does not believe that any of the District officials have any ulterior motives in this matter. He believes that the District should investigate combining with the Town of Barboursville. Recent activities of the Cabell County Commission and the Public Service Commission make it more logical for the Town of Barboursville to serve one side of the river and the District to serve the other. The river

crossing in this project could be a maintenance problem. He believes the District has failed to make system improvements that were supposedly funded by a previous rate increase and now those same improvements are included in this project. When incorporated into the District, Guyan Estates customers experienced a 273% rate increase and now face further increases if this project is approved. If these same increases were applied to a loaf of bread, it would cost \$4.38. An \$18,000 car would cost \$78,840. However, he agrees that the District needs a larger office and better salaries. (Tr. pp. 39-49).

At this point in the proceeding, the District initiated its case-in-chief by calling public finance lawyer John Stump as its first witness. Mr. Stump's law firm is bond counsel for Pea Ridge Public Service District. Mr. Stump explained that this project will be funded by a small loan from the West Virginia Water Development Authority (WDA) and a primary loan from the Division of Environmental Protection State Revolving Loan Fund which is ultimately funded by the United States EPA. This loan will be issued at zero percent interest and an administrative fee of one-half percent. The actual rate and term is determined by the level of the expected rates as compared to the service territory's median household income. Mr. Stump then explained that grant funding is generally non-existent for current sewer projects. There was no grant funding available for this project. (Tr., pp. 50-54).

On cross-examination by the Staff Attorney, Mr. Stump reiterated that the current loan package carries an interest rate of zero and an administrative fee of one-half percent. (Tr., pp. 54-55).

On redirect, Mr. Stump clarified that the zero percent interest rate was available only if the project's proposed rates came in at a level above one and one-half percent of median household income. If the rates are less than that, interest will be charged on the loan. The money for the loan has been set aside, or reserved, but the exact terms of the loan will not be determined until the project is near construction. Consequently, no true commitment letter is issued at this stage of the project. The District then introduced a letter stating the DEP's intention to fund the needed loan for this project. (Tr., pp. 55-58).

The District called Keith Lee as its next witness. Mr. Lee is a Sanitarian with the Cabell-Huntington Health Department. He is familiar with the new areas the District intends to serve with this project and believes that there is a need for public sewer service in those areas. There are raw sewage discharges in the areas and the Guyan Estates sewer lagoon is getting old and needs to be eliminated. (Tr., pp. 59-61).

Under cross-examination by the Staff Attorney, Mr. Lee reiterated his professional support for this project. (Tr., 61-62).

The District called Mike Warwick, an engineer with the Division of Water Resources, Department of Environmental Protection, as its next witness. Mr. Warwick is familiar with the Pea Ridge Public Service District and has reviewed the plans and specifications for this project. He believes the project is needed and feasible. He also confirmed that his agency had set aside some \$12,000,000 to fund this project and that

the final terms and conditions will be set when actual bids are received. (Tr., pp. 63-66).

On cross-examination by the Staff Attorney, Mr. Warwick confirmed that the plans and specifications for this project had been approved in a letter dated November 8, 2002. (Tr., pp. 66-67). On redirect, Mr. Warwick identified and sponsored the letter dated November 8, 2002, and a NPDES permit modification application as exhibits in this proceeding. (Tr., pp. 68-69).

Again on cross-examination by the Staff Attorney, Mr. Warwick stated that the Protestants' concern about combined sewer overflows (storm water) is simply not an issue with the District's system. (Tr., p. 70).

The District called its certified public accountant, Rod Lowe, as its next witness. Mr. Lowe prepared the District's Rule 42 Exhibit filed in this matter. Mr. Lowe worked in conjunction with another accountant, Michael Griffith. The Rule 42 Exhibit contains certain increased rates and charges required by the District. (Tr., pp. 71-73).

The District called certified public accountant Michael Griffith as its next witness. Mr. Griffith is an experienced public utility accountant and worked in conjunction with Mr. Lowe on the District's Rule 42 Exhibit. Both interim and on-going rates were proposed. He explained that, because this project has taken a long time to develop, the District used data from 2001 as its test year. By the time the application was actually filed, data from 2002 was available and Commission Staff was correct in using that more recent data as its test year. The District agreed with Staff's proposed interim rate increase. Staff has also calculated proposed final rates to be adopted after this project is completed. Mr. Griffith believes that the optimum funding package will be available for this project, if the proposed rates are at least equal to one and one-half percent of median household income. Mr. Griffith stated that the District's proposed tariff will generate rates that meet or exceed the median household income levels required by the funding application. If the District's proposed rates are adopted, it would qualify for the zero percent funding and a half percent administrative fee. Those rates would also be sufficient to fund the annual cost of the project. If the District would fail to qualify for the zero percent loan, an additional \$240,000 would be required for annual debt service and overall rates would increase. Mr. Griffith then detailed the actual expected project costs and compared the District's proposed rate to Staff's proposed rate. (Tr., pp. 74-86).

Under cross-examination by the Staff Attorney, Mr. Griffith explained that median household income is taken from census data and is based, as closely as possible, on the District's actual service territory. He confirmed that the Staff-recommended interim rates would be expected to go into effect upon the entry of a final order in this case. The permanent rates would then go into effect when the project is completed. The interim rates address current operations and the permanent rates will fund operations after the project is complete. Mr. Griffith reiterated the long-term financial advantage of the District's slightly higher proposed rate. (Tr., pp. 86-91).

On redirect, Mr. Griffith again restated his professional opinion that, by imposing slightly higher rates initially, the District would obtain advantageous funding which would avoid nearly \$240,000 a year in on-going debt service. The District's customers' best interests are served by the adoption of the District's pro forma rates. (Tr., pp. 91-92).

The District called its professional civil engineer, Kenneth P. Moran, as its next witness. Mr. Moran is an employee of Thrasher Engineering, which was responsible for the facility planning and engineering design for the District's current project. The project consists of five different contracts which were detailed by Mr. Moran. One contract will bring service to 222 currently unserved customers in the Route 2/Hillsview area and deliver that flow to the City of Huntington for treatment. One contract calls for inflow and infiltration abatement in the Tallwood/Baker areas. The Norway Avenue contract will add 216 new customers and provide significant rehabilitation as well. Another contract is for lift station improvements and new force mains. This work will include the Guyan Estates area and the elimination of the existing sewer lagoon. The new force main will be larger, but will require a lower operating pressure. This should alleviate the high maintenance expense caused by frequent pump repairs. Mr. Moran stated that closure of the Guyan Estates lagoon will cost \$475,000, and almost \$850,000 will be spent in Guyan Estates all together. (Tr., pp. 93-104).

Mr. Moran then explained that both of the District's treatment plants will be improved during this project and made more efficient. The last contract is for a new office building. The new office will be more appropriately sited and will solve the many short-comings of the current office which is housed in a mobile home. The new building and parking area will cost \$315,000. Mr. Moran then gave the design cost estimates for each contract. The total estimated construction cost and contingency is \$10,768,400, which Mr. Moran believes is necessary for the operation of the District. (Tr., pp. 104-111).

On cross-examination by the Staff Attorney, Mr. Moran identified the areas receiving new service from this project. (Tr., pp. 111-114).

On redirect, Mr. Moran confirmed that none of the new customers mentioned are coming from the Guyan Estates or J. H. Richmond systems. Those customers are already in the District's customer count. (Tr., pp. 114-115). This concluded the District's case-in-chief.

Commission Staff called Utilities Analyst Jack Miller as its first witness. Mr. Miller was responsible for Staff's review of the interim rates requested by the District. Mr. Miller identified and sponsored the Staff report as an exhibit in this matter, and then explained the process of review. Staff's independently proposed interim rates are very close to what the District's accountants initially requested. The District is currently operating at an annual deficit of \$158,643, and is probably overdue for an increase. Mr. Miller also did a two-month billing analysis which showed that, generally, the District is billing correctly. The District currently needs an increase to cover present operations. Staff designed an increased rate structure accordingly. Staff's increased revenue requirement includes reserve funding and \$90,000 of

cash flow surplus for plant additions as recommended by the Staff engineer. Operating revenues will increase by 17.9% and result in a positive cash flow position without consideration of the pending project. Mr. Miller believes that the Staff-recommended increase is sufficient, but not excessive. Under the Staff-recommended rates, the minimum bill for 300 cubic feet of usage would be \$14.88. (Tr., pp. 116-129).

Under examination by the Administrative Law Judge, Mr. Miller explained that sewer rates are primarily driven by debt and are independent of and not related to water rates. (Tr., pp. 129-130).

Staff called Technical Analyst Joe Marakovits as its next witness. Mr. Marakovits is a long-term and well-experienced employee of the Public Service Commission's Engineering Division. As Mr. Marakovits began his testimony, the District interjected that it was in absolute agreement with Staff's recommended interim rates. Mr. Marakovits explained that his recommendation of \$88,000 for cash flow surplus was based on the five-year average of plant additions, necessary vehicle replacements and expected emergency repairs to the recently acquired Richmond system. Pursuant to his review of the plans and specifications of this project, Mr. Marakovits believes that it is both convenient and necessary. He also believes that the District's pro forma adjustments to operation and maintenance expenses, as a result of the project improvements, were understated in one area. Staff increased the accounting adjustment for pumping power, but decreased the adjustment for pump maintenance, since several of the pump stations were being rehabilitated as part of the project. He also reduced the expense for certain treatment chemicals, because the Guyan Estates lagoon was being eliminated. In his review of the plans and specifications for this project, Mr. Marakovits found no apparent violations of Public Service Commission rules and regulations. He also endorses replacement of the District's current office structure and believes the pending design for the new office is appropriate for a utility of this size. Staff also recommended an increase for the District's post-construction tap fee. (Tr., pp. 130-140).

Under cross-examination by the District's attorney, Mr. Marakovits confirmed that Staff recommended approval of an inter-utility agreement between the District and the City of Huntington concerning the treatment of certain sewage flow. He also confirmed that, although a higher tap fee has been recommended, no tap fee will be charged to new customers connected during construction. (Tr., pp. 140-142).

Staff called Utilities Analyst Karen Buckley as its final witness. Ms. Buckley conducted the Staff financial review of the certificate case. She detailed several corrections to the Staff report and stated that the Staff-recommended on-going rates should be approved to be effective for service upon completion of the project. The project funding is now complete with the current expected loan of \$12,429,500 from the DEP. Staff was willing to review its recommended rates in view of the qualification requirement for the zero interest loan rate from DEP. (Tr., pp. 143-150).

On cross-examination by Mr. Flora, Ms. Buckley confirmed that her rate calculations for the completed project were based on the assumption that the District would qualify for the zero percent loan. Higher rates

would be required if the District does not qualify for that loan. (Tr., pp. 150-151).

At the conclusion of Staff's case all exhibits were admitted to record. Additionally, closing statements of protest were called for, of which there were none.

On January 10, 2003, Commission Staff filed a Further Final Joint Staff Memorandum in this matter. Staff revised its recommended rates and charges to include an inflow and infiltration reserve and to comply with the Commission's new Tariff Rules. Staff's revised rates would generate annual operating revenues of approximately \$2,334,598 and provide a surplus of \$69,280, with a debt coverage of 122.76%. These revised rates reflect an increase of .008% over Staff's original recommended rates and should become effective upon completion of this project.

On March 12, 2003, the District filed an original executed copy of the inter-utility agreement between the District and the City of Huntington Sanitary Board concerning the treatment of certain sewage flows, previously recommended for general approval by Commission Staff.

On March 13, 2003, Commission Staff filed its Second Further Final Joint Staff Memorandum in this matter. Staff's filing contained a corrected page 1 of its Revised Staff Recommended Tariff to be substituted for the original page previously filed on January 10, 2003. The corrected tariff clarifies that the minimum monthly bill of \$19.35 is equivalent to usage of 300 cubic feet per month.

DISCUSSION

This case consists of two components. The District is experiencing a current cash flow deficit and, as a result, needs immediate rate relief to fund normal operations. Secondly, the District has proposed an extensive construction project in order to bring modern sanitary sewer service to over four hundred unserved households and to modernize and upgrade several parts of its existing system.

As demonstrated in the Staff Report filed in this matter on December 5, 2002, the District is currently operating at an annual cash flow deficit of \$158,643. In order to stem this loss, Commission Staff recommended an immediate revenue increase of 17.9%, which will produce additional operating revenues of \$256,790, and a cash flow surplus of \$90,443. That surplus will fund the annual plant additions and immediate maintenance needs of the District as recommended by the Staff Technical Analyst. This amount of revenue is also sufficient to fund operations, both long-term and short-term debt and the required depreciation reserve, on an interim basis, until the District's project is completed. Staff designed and recommended a new schedule of rates and charges which will recover these increased operating revenues and also recommended its approval. Staff also recommended that the District review its current delinquent accounts, as well as those uncollectible accounts previously written off, for possible collection under current state law. Staff's findings are fully supported by the financial information and adjustments contained in its report. Although the Protestants are clearly opposed to

higher rates, they have produced no reliable evidence of specific unaccounted-for revenue or inefficient operations which would overcome the current cash flow deficit. The District is also in agreement with the interim rate increase recommended by Commission Staff. Consequently, it will be approved to become effective for all service rendered on and after the date this Recommended Decision becomes a final order of the Commission.

The second component of this case is the certificate application for the District's proposed project. The project involves extensions of service to several unserved areas of Cabell County and will add over 400 new customers. Additionally, the project will rehabilitate the majority of the District's pump stations, upgrade several areas of inadequate force mains, make improvements to both treatment plants and provide for the elimination of the out-dated and offensive sewer lagoon serving Guyan Estates. Lastly, this project calls for the construction of a modern, safe office building for the District. The District's office is currently housed in a dilapidated mobile home which can no longer be said to be functional or safe. Several of the Protestants admit that this facility needs to be replaced. The entire project is ambitious and will cost an estimated \$12,529,500. However, the District has obtained an extremely advantageous funding package consisting primarily of a loan from the State Revolving Fund in the amount of \$12,429,500, at zero percent interest for a term of 40 years. The loan carries a one-half percent administrative fee. Additional funding will consist of a loan from the WDA in the amount of \$100,000, with an interest rate of 5.8% for a term of twenty (20) years.

There is no question that this project is necessary. It will add over 400 currently unserved customers and thus eliminate much untreated, or inadequately treated, sewage discharge from the waterways of the area. The elimination of the Guyan Estates lagoon is also long overdue. Additionally, the upgrades to District pump stations, force mains and treatment plants will provide for more efficient and reliable service.

Although the project appears at first to be expensive, it is also convenient. The advantageous funding package, coupled with the District's large customer base, results in long-term rates which are not out of line with similar sewer utilities nor overly burdensome to the District's customers. The majority of the protests to this project arose from the Guyan Estates community. For years that area was served by a private sewer operator who merely collected sewage flows and transported those flows to a large sewer lagoon. Because the operator made few, if any, improvements and treatment was rudimentary, rates remained artificially low at around \$9.00 per month. Now that the District has taken over and the collection system must be modernized and incorporated into a modern treatment system, the rates have increased dramatically. This is simply a function of realistic treatment expense compared to the old out-dated lagoon system. It is unfortunate that the residents of Guyan Estates must experience these escalating rates in a relatively short period of time, but modern and effective pollution control requires this result. However, property values and the condition of the air and water in this community will improve accordingly. The Protestants' use of area sewer rates as a percentage of water rates, for purposes of comparison, is completely without support in utility regulatory practice or logic.

Sewer rates are determined by the actual cost of treatment and are independent from, and unrelated to, the cost of water treatment.

For these reasons, the District's application for a certificate of convenience and necessity as filed herein, will be granted and the construction project detailed in that application approved.

FINDINGS OF FACT

1. On August 16, 2002, Pea Ridge Public Service District, a public sewer utility, filed a duly verified application for a certificate of convenience and necessity to construct and operate certain additions and improvements to the District's wastewater treatment system in Cabell County, West Virginia. The District estimated that construction will cost approximately \$12,323,400, and would be financed by the issuance of Revenue Bonds through the West Virginia State Revolving Fund in an amount not to exceed \$12,223,400 and a loan from the Water Development Authority in an amount not to exceed \$100,000. The District also requested increased rates and charges in order to fund and maintain this project. (See, Application filed August 16, 2002).

2. This matter was properly filed for pre-filing notice on July 5, 2002. On July 19, 2002, the District filed a duly executed affidavit of publication demonstrating publication of a formal Notice of Prefiling (Tariff Form No. 13) on July 9 and 16, 2002, in The Herald-Dispatch, a newspaper duly certified by the Secretary of State, published and of general circulation in Cabell County, West Virginia. Said notice was also posted at the Cabell County Courthouse on July 9, 2002. (See, Affidavit of Publication filed July 19, 2002).

3. By a formal Notice of Filing entered August 16, 2002, the Public Service Commission required the District to provide public legal notice of this application by publishing a copy of said Notice once in a newspaper duly qualified by the Secretary of State, published and of general circulation in Cabell County, West Virginia, and to make due return to the Commission of proper proof of publication. The Notice of Filing contained the increased rates and charges requested by the District and made provision for the filing of written statements of protest, objection or intervention within thirty (30) days of publication. (See, Notice of Filing entered August 16, 2002).

4. On August 30, 2002, the District filed a duly executed affidavit of publication demonstrating publication of the Notice of Filing on August 23, 2002, in The Herald-Dispatch, all in accordance with the Commission's Order entered August 16, 2002. (See, Affidavit of Publication filed August 30, 2002).

5. On September 12, 2002, the District filed the duly executed affidavit of Dina B. Foster, General Manager of the Pea Ridge Public Service District, demonstrating compliance with Rule 10.3.d of the Commission's Rules of Practice and Procedure. Attached to this filing was a copy of the direct notice to customers of the requested rate increase as printed on the District's August billing. (See, Affidavit of Publication filed September 12, 2002).

6. The District has filed amendments to this application showing revised project costs of \$12,529,500. (See, Amendments filed October 31, 2002, and December 2, 2002).

7. The Pea Ridge Public Service District is currently operating with a cash flow deficit of \$158,643 for the test year ending June 30, 2002. Staff has recommended an interim increase in revenue of 17.9%, which will produce additional operating revenues of \$256,790, with a cash flow surplus of \$90,443. Staff has stated that this interim increase is sufficient and not excessive and will fund on-going operations, debt service, depreciation reserve and recommended plant additions and maintenance items. (See, Final Joint Staff Memorandum filed December 5, 2002; Tr., pp. 116-129, 130-140).

8. Commission Technical Staff has recommended an interim cash flow surplus of at least \$88,000 for Pea Ridge Public Service District based on average plant additions, necessary vehicle replacement and imminent maintenance needs. (See, Final Joint Staff Memorandum filed December 5, 2002; Tr., pp. 130-140).

9. Commission Staff has designed and recommended an amended Staff Recommended Interim Tariff, which will produce the increased operational revenues needed by the District, to be effective upon the entry of a final order in this case. (See, Final Joint Staff Memorandum filed December 5, 2002; Tr., pp. 116-129).

10. The project which is the subject of this application will provide modern, safe sanitary sewage service to approximately 438 new customers in various locations in Cabell County, rehabilitate and improve sewage collection, transportation and treatment facilities for all District customers, eliminate discharges of raw or inadequately treated sewage from area waterways and eliminate the out-dated, inefficient and dangerous sewer facilities at Guyan Estates and the Richmond systems. (See, Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 59-61, 93-104, 104-111, 130-140).

11. Pursuant to its review, the West Virginia Department of Environmental Protection has approved the plans and specifications for this project. (See, District Ex. No. 2; Tr., pp. 63-66, 66-67).

12. Commission Staff has reviewed the plans and specifications for this project and found no conflicts with the Commission's rules or regulations concerning engineering requirements. (See, Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 130-140).

13. This project is estimated to cost \$12,529,500, and will be financed by a West Virginia Water Development Authority loan in the amount of \$100,000, at an interest rate of 5.8%, for a term of twenty (20) years; and a West Virginia State Revolving Fund loan in the amount of \$12,429,500, at a zero percent interest rate and a one-half percent administrative fee, for a term of forty (40) years. (See, Application filed August 16, 2002; Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 50-54, 143-150).

14. All funding sources for this project have been committed or reserved and are expected to be available for this project. (See, Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 55-58, 63-66, 143-150; letters filed October 8 and December 19, 2002).

15. Pursuant to its review of this project, Commission Staff has recommended approval of the application filed in this matter and that a certificate of convenience and necessity be issued for said project. (See, Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 130-140, 143-150).

16. Staff has also recommended the general approval of an inter-utility agreement between the District and the City of Huntington Sanitary Board concerning the treatment of certain sewage flows, without approving the specific terms and conditions in the agreement. Staff has also recommended an increased tap fee for the District. (See, Final Joint Staff Memorandum filed December 13, 2002; Tr., pp. 140-142; Agreement filed March 12, 2003).

17. Commission Staff has recommended approval of increased rates in order to support this project. Staff's revised increased rates will generate annual operating revenues of approximately \$2,334,598, with a cash flow surplus of \$69,280, and a debt coverage of 122.76%, which is sufficient to support on-going operations, but is not excessive. (See, Further Final Joint Staff Memorandum filed January 10, 2003).

18. Staff has designed and recommended a Revised Staff Recommended Tariff, to become effective for all service rendered on and after the date the project engineer certifies this project as substantially complete. (See, Further Final Joint Staff Memorandum filed January 10, 2003).

19. Pursuant to public legal notice numerous statements of protest were filed in this matter; however, the Protestants did not produce any reliable evidence that the District does not require interim rate relief, or that this proposed project is not convenient and necessary. (See, letters and petitions filed August 19, 20, 22, 26 and 30, 2002, September 3, 6, 18, 19 and 24, 2002, December 19, 2002 and February 3, 2003; Tr., pp. 9-13, 14-26, 26-27, 28-33, 34-39, 39-49).

CONCLUSIONS OF LAW

1. The Pea Ridge Public Service District is currently operating with a cash flow deficit and is in need of interim rate relief as recommended by Commission Staff.

2. The proposed construction project detailed in this application is necessary because it will provide modern, safe sanitary sewer service to 438 new customers in Cabell County, West Virginia; rehabilitate and improve sewage collection, transportation and treatment facilities for all District customers; eliminate discharges of raw or inadequately treated sewage from area waterways; and eliminate the outdated, inefficient and dangerous sewer facilities at Guyan Estates and the Richmond systems.

3. The proposed construction project detailed in this application is convenient because a reasonable and advantageous funding package has been arranged and the resulting increased rates are not unduly burdensome to the District's customers.

Whenever water service has been disconnected for non-payment of sewer bills in conjunction with a water service termination agreement with WVAWC, a disconnection fee of \$20.00 shall be charged; or, in the

event the delinquent sewer bill is collected by the water company, an administrative fee of \$20.00 shall be charged.

Whenever water service, which has been previously disconnected or otherwise withheld for non-payment of a sewer bill in conjunction with a water service termination agreement with WVAWC is reconnected, a reconnection fee of \$20.00 shall be charged.

INCREMENTAL LEAK ADJUSTMENT

\$0.57 per CCF. To be used when the bill reflects unusual consumption which can be attributed to eligible leakage on customer's side of the meter. This rate shall be applied to all such unusual consumption above the customer's historical average usage.

RETURN CHECK CHARGE

A service charge equal to the actual bank fee assessed to the sewer utility up to a maximum of \$15.00 will be imposed upon any customer whose check for payment of charges is returned by the bank due to insufficient funds.

SCHEDULE II

SURCHARGE FORMULA TO BE APPLIED IN CASES WHERE
SURFACE DRAINAGE IS CONNECTED TO THE DISTRICT'S SANITARY SYSTEM

APPLICABILITY

Whenever the District has discovered that a customer's roof drain, downspout, storm sewer or similar facilities conducting surface water have been connected to the District's sewer system and such a customer has failed to take appropriate action within thirty (30) days of receipt of a demand by the District in accordance with the Rules and Regulations of the Public Service Commission to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the following formula:

$$S = A \times R \times .0006233 \times C$$

- S - the surcharge in dollars
- A - the area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet
- R - the measured monthly rainfall, in inch.
- .0006233 - a conversion factor to change inches of rain x square feet of surface to thousand of gallons of water
- .0008333 - a conversion factor to change inches of rain x square feet of surface water to \$__ per 100 cubic feet
- C - the District's approved rate per thousand gallons of metered water usage

The District shall not impose the surcharge unless and until the customer has been notified by certified mail, return receipt requested, or by hand delivery, that it has been established by smoke testing, dye testing, or on-site inspection that rain or surface water is being introduced into the sanitary sewer system at the customer's location, and that the customer has not acted within thirty (30) days from receipt of such notice to divert the water from the sanitary sewer system.

Said surcharge shall be calculated and imposed for each month that said condition continues to exist. Failure to pay the surcharge and/or correct the situation shall give rise to the possible termination of water service in accordance with the Rules and Regulations of the Public Service Commission of West Virginia.

SCHEDULE III

SURCHARGE FORMULA TO BE APPLIED TO A CUSTOMER PRODUCING UNUSUAL WASTE

The charge for the treatment of unusual waste will be calculated on the basis of the following formula:

$$C_i = V_o V_i + B_o B_i + S_o S_i$$

- C_i = Charge to unusual users per year
- V_o = Average unit cost of transport and treatment chargeable to volume, in dollars per gallons
- V_i = Volume of waste water from unusual users, in cubic feet per year
- B_o = Average unit cost of treatment, chargeable to Biochemical Oxygen Demand (BOD) in dollars per year
- B_i = Weight of BOD from unusual users, in pounds per year
- S_o = Average unit costs of treatment (including sludge treatment chargeable to total solids, in dollars per pound)
- S_i = Weight in total solids from unusual users, in pounds per year

When an unusual user is to be served, a preliminary study of wastes, and the cost of transport and treatment thereof, will be made. Waste containing material which, in judgement of the Pea Ridge Public Service District, should not be introduced into the sewer system need not be handled by it. The results of this preliminary study will be used to determine the feasibility of the proposed sewer service and the charge thereof, based upon the formula set out above.

Thereafter, unusual sewage will be monitored on a regular basis and at the conclusion of each fiscal year, based on the investigation aforesaid and audit of the Pea Ridge Public Service District records, new costs figures will be calculated for use in the above formula. The cost of establishing the monitoring facilities shall be paid by the unusual

user. Based on these audited figures, additional billings covering the past fiscal year will be made for payment by each unusual user, or refund by the Pea Ridge Public Service District, as the case may be. Such audited figures will then be used for the preliminary billing for the next fiscal year, at the end of which an adjustment will be made as aforesaid.

SCHEDULE IV

APPLICABLE INSIDE AND OUTSIDE OF THE CORPORATE LIMITS OF PEA RIDGE PUBLIC SERVICE DISTRICT

Where the amount of sanitary sewage discharged into the Pea Ridge wastewater collection and/or transmission and/or treatment system by certain industrial plants or plants cannot be accurately determined by the use of the plant's water meter or meters, and said plant cannot install a flow meter to measure such waste, a special formula will be used whereby such plant or plants will pay to the Pea Ridge Public Service District a sewer charge calculated at fifty (50) gallons (7.481 converts to cubic feet) of water per each employee at the plant of each working day.

SCHEDULE V

APPLICABLE

Applicable within the entire territory served.

AVAILABILITY OF SERVICE

Available for wastewater and leachate haulers.

RATES

Commodity Charge - Each hauler shall pay a commodity charge of \$10.00 per 1,000 gallons per load. Load shall be two times the actual capacity of the truck or other transport method of delivering wastewater and leachate. Load will be determined or agreed to by the District.

DELAYED PAYMENT PENALTY

The above schedule is net. On all accounts not paid in full when due, ten percent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

RETURN CHECK CHARGE

A service charge equal to the actual bank fee assessed to the sewer utility up to a maximum of \$15.00 will be imposed upon any customer whose check for payment of charges is returned by the bank due to insufficient funds.

SERVICE AGREEMENT

RECEIVED

THIS AGREEMENT, made this 10th day of March, 2003, by and between the CITY OF HUNTINGTON, WEST VIRGINIA, a municipal corporation, by and through the HUNTINGTON SANITARY BOARD hereinafter referred to as the "HSB", party of the first part, and the PEA RIDGE PUBLIC SERVICE DISTRICT, a public corporation, hereinafter referred to as the "DISTRICT", party of the second part.

2003 MAR 12 AM 9:03

W.V. PUBLIC SERVICE COMMISSION

WHEREAS, the HSB has constructed and placed in operation a sewage treatment plant and related facilities (collectively referred to as the "HSB facilities") and is presently receiving and treating sewage from the City of Huntington, as well as from areas outside of the City of Huntington; and

WHEREAS, the DISTRICT is preparing to construct improvements to its sanitary sewer collection system which will connect to the HSB's facilities as hereafter described; and

WHEREAS, the DISTRICT must be assured that the HSB will accept the wastewater generated within the DISTRICT and must ascertain and secure equitable rates for the treatment of said wastewater that will be paid to the HSB; and

WHEREAS, it is in the public interest and to the advantage of the parties to enter into a service agreement to provide for the HSB's receiving and treating sewage from the DISTRICT and to set forth the terms and conditions under which the foregoing may be accomplished; and

WHEREAS, the HSB and the DISTRICT desires to enter into a service agreement to accomplish the purposes set forth above, and to further set forth the terms, covenants and conditions of the Agreements and understanding between them as hereafter provided;

NOW, THEREFORE, in consideration of the mutual covenants hereinafter contained, the parties hereto, and their successors and assigns, intending to be legally bound, do hereby covenant and agree as follows:

ARTICLE I

SERVICE COVENANTS

HSB agrees to accept and render sewage treatment service to all public, domestic, commercial, industrial and other properties serviced by the DISTRICT sewer system subject to the limitations specified herein, and provided that such sewage originates from within the service territory of the DISTRICT and otherwise conforms with the applicable rules and regulations promulgated or to be promulgated by the HSB concerning the type of sewage and industrial

wastes that are acceptable for treatment at the HSB plant.

The DISTRICT covenants that any sewage collection facilities it constructs shall be in accordance with the provisions of this Agreement, and that the construction costs and all related project costs associated with the construction of the DISTRICT sewage system, and the facilities required to connect the DISTRICT sewage system to the HSB Facilities shall be the sole responsibility of the DISTRICT.

The DISTRICT agrees that the HSB shall be the sole and exclusive agency during the entire life of this Agreement to provide sewage treatment service to the DISTRICT sewage system.

ARTICLE II

OPERATION AND MAINTENANCE RESPONSIBILITIES

The HSB shall be responsible for the proper treatment and disposal of the DISTRICT's sewage after it is discharged into the HSB facilities, provided that such sewage discharge is in compliance with provisions of this Agreement.

The HSB shall have the right to promulgate, issue, publish, and enforce rules and regulations governing its activities and carrying into effect the provisions of this Agreement. Such rules and regulations may include provisions prohibiting or regulating certain discharges into the HSB facilities which may be harmful to the HSB facilities. To the extent that the HSB may not be empowered to enforce its rules and regulations within the areas of the DISTRICT's sewer system, the DISTRICT shall adopt and enforce such rules and regulations to the extent empowered by law.

ARTICLE III

PROVISIONS FOR CONNECTION

The HSB agrees to accept for treatment, and the DISTRICT agrees to deliver for treatment, the sewage flow generated from the DISTRICT sewage collection system, subject to the following limitations:

1. Connection Location

The DISTRICT's sewage collection system shall connect to the HSB's facilities at mutually

acceptable locations.

2. Ownership of Facilities

All sewage collection facilities built by the DISTRICT within its service territory shall remain under title and ownership of the DISTRICT. The HSB will grant the DISTRICT a perpetual easement for the construction, maintenance and operations of that section of the DISTRICT transmission main and flow metering facilities, which are located on property owned by the HSB, and used to deliver and meter the sewage from the DISTRICT collection system to the HSB's facilities and are constructed pursuant to this agreement.

3. Flow Monitoring Requirements

The DISTRICT agrees to install and maintain flow monitoring equipment at each point of connection to the HSB system. The type of flow monitoring equipment will be mutually agreed to by both parties and will have the capacity to continually measure and record the volume of sewage contributed to the HSB Facilities from the sewer system. This flow monitoring equipment will consist of a flow metering device, a flow indicator, a recorder and totalizer at the point of connection and provide the necessary telemetering and recording equipment to transmit the flow signal to the HSB'S treatment plant. The cost of the flow monitoring and telemetering equipment shall be the responsibility of the DISTRICT. In the event of a failure of any portion of the flow measuring or telemetering system, the DISTRICT shall make the necessary repairs as soon as possible. If there is any significant difference between the totalizer readings at the connection point and at the HSB plant, the totalizer at the point of discharge shall be used for determining service charges. If measured flow data is not available due to faulty registration, breakdown or other reasons, the DISTRICT flow contribution shall be estimated based upon the arithmetic average of the last three (3) meter readings, adjusted to reflect any increase or decrease in flow resulting from new taps, shut-offs or rainfall. Adjustments shall be based upon the previous twelve months flow data. The DISTRICT and the HSB shall have the accuracy of their respective flow meters tested by a qualified factory-authorized technician at least once a year. Each party shall notify the other at least 48 hours in advance of the time and date when tests are scheduled in the event that either party should wish to have a representative present for the test. The HSB and the DISTRICT shall have the right to inspect and check the accuracy of the flow meters at their own expense at any time they may desire during the year. Each party

shall notify the other party at least 48 hours in advance of such testing, so that they may arrange to have a representative present if so desire. Each party will provide the other party complete access to the flow meter installations during normal business hours for the purpose of such inspection and testing.

4. Construction Standards

The DISTRICT agrees to design and construct the proposed sewage collection facilities, and any additions thereto, in accordance with accepted standard of good engineering practice and the applicable WV DEP and WV Department of Health design standards in effect at such time. the DISTRICT agrees to provide the HSB a complete set of as-constructed documents for the sewer system that will be constructed pursuant to this Agreement. The plans submitted shall show the exact location of the proposed connection to the HSB facilities as well as the required flow metering and telemetering equipment. The HSB shall only have the right to review and approve such plans with respect to the physical connection into the HSB facilities and the required flow metering and telemetering equipment. The construction of the connection as well as the installation of the flow monitoring device will be subject to inspection and approval of the HSB.

5. Prohibited Wastes

The DISTRICT agrees not to permit or allow the discharge of any wastes or waters into their sewer system which will interfere with the operation and maintenance of the HSB Wastewater Treatment Plant. The DISTRICT shall accomplish this purpose by adopting appropriate resolutions or ordinances governing the use of their sewage facilities, which are at least as stringent as comparable ordinances and resolutions adopted by the HSB and the city of Huntington, and to faithfully prosecute any offender under the same to ensure that such discharges do not enter the DISTRICT sewer system or the HSB facilities.

6. Septic Sewage

The design of the DISTRICT sewage collection facilities should contain provisions to prevent the sewage collected from becoming septic within the DISTRICT sewer system or at the point of discharge into the HSB facilities. If septic sewage conditions should occur following completion of construction, the DISTRICT agrees to develop and submit to the HSB a corrective action plan and schedule to eliminate this condition within thirty (30) days of receipt of written notification of the problem condition from the HSB. If the DISTRICT fails to submit the required corrective

action plan and schedule within the thirty (30) day period or fails to take the additional measures to correct this problem as outlined in the plan and schedule, the HSB shall have the right to take the necessary measures to correct the problem on their own, and assess the full costs thereof to the DISTRICT. The DISTRICT shall also be liable for the costs to repair any damages or replace any facility or equipment damaged as a result of the discharge of septic sewage into the HSB facilities. Any increase in the HSB's operating costs caused by the discharge of septic sewage from the DISTRICT shall also be the responsibility of the DISTRICT. Such costs shall be billed to the DISTRICT in addition to their metered service charges.

ARTICLE IV

INDUSTRIAL AND COMMERCIAL WASTE CONTRIBUTIONS

The DISTRICT agrees to enact and enforce necessary regulations as required to insure that will prohibit any user who may discharge industrial or commercial waste to connect into the DISTRICT sewer system without a prior written permit issued by the HSB and to insure that the provisions of this Agreement are fulfilled.

The DISTRICT also agrees to enter into an inter-jurisdictional Industrial Pretreatment Agreement (as contained in Exhibit 1 attached hereto) and require all industrial or commercial users who are or will be discharging industrial or commercial wastes into the DISTRICT sewer system to enter into an Industrial Sewer Use Service Agreement (as contained in Exhibit 2 attached hereto) with the HSB.

Applications for any such permit shall be accompanied by such information, relating to the nature of character of the industrial waste proposed to be discharged or otherwise, including without limitation a detailed engineering report in respect thereof or an Industrial Wastes Questionnaire prepared by a registered engineer or engineering firm, as the HSB may impose. No permit for the discharge of industrial wastes issued under this section shall be deemed to give any right to the applicant to continue such use and any such permit may be revoked by the HSB at any time. Whenever necessary, in the opinion of the HSB, the industrial or commercial user shall provide, at his expense, such facilities for preliminary treatment and handling of industrial or commercial wastes as may be necessary.

Any industrial or commercial user who shall discharge industrial or commercial wastes into the

DISTRICT sewer system, when required by the HSB, shall construct and thereafter shall properly maintain, at his own expense, a suitable control manhole to facilitate observation, measurement and sampling by the HSB. Any such control manhole, when required by the HSB, shall be constructed at an accessible, safe, suitable and satisfactory location in accordance with plans approved by the HSB prior to commencement of construction.

Grease, oil and sand interceptors shall be provided by the applicant when they are required by the HSB for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand or other harmful ingredients. All such interceptors shall be of a type and capacity approved by the HSB and shall be located as to be readily and easily accessible for cleaning and inspection. Where any such required facilities or interceptors are constructed, they shall be maintained continuously in satisfactory and effective operation by the applicant at his expense.

Industrial or commercial wastes being discharged into the sewer system shall be subject to periodic sampling, inspection and determination of character and concentration. Also, the HSB may at its discretion sample and inspect any industrial or commercial facilities as frequently as may be deemed necessary to determine compliance with the HSB's industrial pretreatment program. Sewage sampling facilities shall be exercised in the collection and preservation thereof in as nearly the natural state as possible, including refrigeration of all samples which are intended for analysis by biochemical methods.

Laboratory methods used in the analysis of samples of industrial wastes shall be those set forth in the latest edition of "Standard Methods for the Examination of Water and Sewage" as published by the American Public Health Association; provided, however, that alternate methods for the analysis of industrial wastes may be used.

Any industrial or commercial user who is discharging industrial or commercial wastes into the DISTRICT sewer system and who contemplates a change in the method of operation which will alter the type of industrial or commercial wastes at the time being discharged into the sewer system shall notify the DISTRICT and the HSB, in writing, at least ten (10) days prior to consummation of such change and enter into a new Industrial Sewer Use Service Agreement with the HSB.

No industrial or commercial user shall cause the discharge of water, sewage or industrial waste

which, in concentration of any given constituent or in quantity of flow, exceeds for any period of longer duration than fifteen (15) minutes, more than five (5) times its average hourly concentration of flow.

ARTICLE V

SERVICE CHARGES AND BILLING

In exchange for the rights, privileges and benefits of utilizing the HSB facilities for treatment of the DISTRICT sewage, the DISTRICT covenants and agrees to pay the HSB service charges computed in the following manner:

1. Annual Operation and Maintenance Charges

The DISTRICT agrees to pay the HSB their proportionate share of the actual net annual operation and maintenance costs for the HSB facilities which are utilized to treat the DISTRICT's sewage. The DISTRICT proportionate share shall be determined by multiplying the ratio of the total volume of sewage contributed to the HSB Facilities, as measured by the flow meter to be installed at the point of connection, to the total volume of sewage treated at the HSB treatment plant, as measured by the plant's raw sewage flow meter, by the actual net annual operation and maintenance costs.

For the purpose of determining the DISTRICT's share, the net annual operation and maintenance costs shall include all reasonable expenses and repair costs required to keep the treatment plant operating continuously in a safe and efficient manner and in compliance with applicable State and Federal Regulations. Such operating and maintenance costs are defined to include the cost of all labor, power, chemicals, equipment, materials, vehicle expense, repairs, replacements, improvements and administrative expenses used in the operations and maintenance of the treatment plant. The following costs shall be specifically excluded from the operation and maintenance costs applicable to allocation to the DISTRICT:

- A. Costs of preparing, mailing and receiving the HSB sewer rental bills, or of collecting delinquent costs from the HSB customers,
- B. Costs of operating, maintaining and repairing the HSB's sewer collection system,

C. Costs of operating, maintaining and repairing any HSB pump stations,

D. Costs of operating an industrial waste pretreatment program, unless industrial users are served by the DISTRICT,

The DISTRICT shall pay their proportionate share of such net annual operation and maintenance costs to the HSB in twelve monthly installments. The HSB will keep a separate record of the costs of operating the treatment plant and will establish an annual cost for their operating year. That annual operating cost will be used to establish the next twelve (12) monthly billing to the DISTRICT by multiplying the annual operating costs by the proportioning factor and dividing by twelve (12). During the first year of operation, the projected flows from the DISTRICT will be estimated and mutually acceptable to both parties. These projected flows will be used to establish proportionate shares.

The HSB shall submit an estimated monthly billing statement to the DISTRICT which clearly shows the total flow treated at the HSB plant, the total flow contributed to the HSB's facilities by the DISTRICT, the ratio of the DISTRICT's flow to the total flow, and an estimate of the net operation and maintenance costs incurred for each month. The billing statement shall be delivered to the DISTRICT not less than twenty (20) days prior to the date on which the payment shall be due. The third monthly billing for each fiscal year shall include an adjustment to reflect actual expenses and flows for the whole of the previous fiscal year. In the event that the parties cannot agree upon the estimated expenses for an upcoming calendar year, the DISTRICT shall continue to make payments based upon the audit for the expense of the previous year pending disposition of the dispute.

2. Debt Service Charges

The DISTRICT agrees that it will pay the HSB a proportionate share of the debt service for any specific projects required by the US EPA or WV DEP to improve the HSB's wastewater treatment facilities as well as the debt service remaining on the construction of the original WWTP.

The DISTRICT's proportionate share for the debt service charges will be determined in the same manner as the annual operating and maintenance charges.

It is understood and agreed between the parties hereto, that the proportionate shares of operating costs and debt service costs shall be included in the monthly billing.

3. Industrial Waste Surcharges and Fees

The DISTRICT agrees to adopt and enforce regulations establishing provisions to assess industrial waste surcharges and fees to any industrial user that may obtain the HSB approval to discharge such wastes into the DISTRICT's sewer system in accordance with requirements of this Agreement. Such surcharge and fee rates shall be comparable to the prevailing rates contained in the HSB's rules and regulations. Any applicable surcharges and fees shall be billed to industrial users by the DISTRICT on behalf of the HSB and the amounts collected shall in turn be paid to the HSB by the DISTRICT. The charges to be paid to the HSB under Article V of this Agreement shall become effective as soon as the DISTRICT begins to deliver sewage into the HSB Facilities. All monthly payments to the HSB shall be paid within thirty (30) calendar days after the close of the billing period or the date of the bill, whichever is longer. If any monthly installment is not paid within the specified thirty (30) day period, the HSB shall have the right to assess a ten (10) percent late payment penalty.

ARTICLE VI

CAPITAL ADDITION

With respect to the HSB WWTP, the DISTRICT agrees that where any betterments, improvements, or other Capital Additions are required for the HSB WWTP utilized for the treatment of the DISTRICT's sewage, or are ordered by appropriate Federal or State agencies having jurisdiction, the DISTRICT shall be liable for its proportionate share of the capital cost of the said betterments, improvements or other Capital Additions. The costs of any Capital Additions will be proportioned in the same manner as Operation and Maintenance Expense and include on the monthly billings.

ARTICLE VII

GENERAL PROVISIONS

Each of the parties to this Service Agreement hereby agree to the following general provisions:

1. Indemnification

The DISTRICT and the HSB mutually agree to indemnify and save harmless each other against all losses, costs, or damages on account of any injury to persons or property incurred in the performance of this Agreement due to the negligence of either party, its servants, agents or employees, or resulting from any violation of this Agreement.

2. Assignment

This Agreement and all provisions thereof shall be binding upon the parties hereto and their successors, and it shall not insure to the benefit of any other person or entity not a party hereto, except as expressly provided herein. This Agreement shall not be assigned by either party without the written consent of the other party.

3. Severability

The provisions of this Agreement shall be severable and the invalidity or unenforceability of any of the provisions contained herein shall not render invalid or unenforceable any of the other provisions and they shall remain in full force and effect.

4. Waiver

The waiver of any breach of this Agreement by any part hereto shall not constitute a continuing waiver or a waiver of any subsequent breach of either the same or another provision of this Agreement.

5. Captions

Captions appearing in this Agreement are inserted only as a matter of convenience and in no way define, limit, construe or describe the scope of intent of such sections of this Agreement nor in any way affect this Agreement.

6. Resolution of Controversies, Claims and Disputes

The parties hereto agree that in the event any controversy, including but not limited to Debt Service Allocations as set forth herein, arises relative to the provisions of this Agreement, or any other condition relating hereto, the controversy shall be resolved by the Public Service

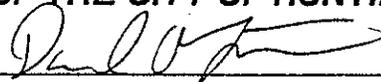

Commission of West Virginia.

7. Term of the Agreement

This Agreement shall become effective upon its execution by the parties hereto and the term shall continue and remain in force for a term of forty (40) years from the date hereof, and thereafter from year to year, unless and until a new agreement is negotiated between the parties, or until this Agreement is terminated by either the DISTRICT or the HSB upon a minimum twenty-four (24) month prior written notice to the other party. This Agreement shall be governed by and construed in accordance with the laws of the State of West Virginia.

IN WITNESS WHEREOF, the parties hereto have caused this Agreement to be executed on their behalf by their appropriate officials in accordance with proper corporate resolutions, as reference to the minutes of the meetings of said parties shall disclose, as of the day and year first above written.

At a session of the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 6th day of August, 2003.

CASE NO. 02-1213-PSD-CN (REOPENED)

PEA RIDGE PUBLIC SERVICE DISTRICT,

Application for a certificate of convenience and necessity for the addition and replacement of new lines, to construct lift stations, to upgrade existing lift station, to install manholes, to abandon an aerated lagoon and Richmond Sewer Treatment Plant, to upgrade two existing wastewater treatment plants and to construct an office building and for approval of an Interutility Agreement with the City of Huntington.

COMMISSION ORDER

On August 16, 2002, Pea Ridge Public Service District ("District") filed an application for a certificate of convenience and necessity to construct and operate certain additions and improvements to the District's wastewater treatment system in Cabell County, West Virginia. The District also requested increased rates and charges to fund and maintain the project.

A Recommended Decision was issued on March 14, 2003 (Final March 23, 2003), which approved increased rates and charges, as well as the District's application for a certificate of convenience and necessity. It was further ordered that the District was authorized to accept, execute and close on the funding package proposed for the project approved, including a loan from the West Virginia Water Development Authority in the amount of \$100,000, at an interest rate of 5.8%, for a term of not less than twenty (20) years, and a loan from the West Virginia State Revolving Fund in the amount of \$12,429,500, at an interest rate of zero percent and an administrative fee of one-half percent, for a term of forty (40) years.

On July 15, 2003, the District filed a Petition to Reopen this proceeding and requested approval of additional funding needed as the result of a bid overrun. According to the District, the project costs are now estimated at \$12,719,500.00, which represents a \$250,000 shortfall in anticipated funding. The District attached to its petition a binding Commitment Letter from the West Virginia Infrastructure and Jobs Development Council offering an Infrastructure Fund grant in the amount of \$250,000 to the District. As the grant is rate neutral, there would be no rate increase passed to the customers of the District.

On July 22, 2003, Commission Staff ("Staff") filed an Initial and Final Joint Staff Memorandum, noting that the District requested expedited treatment so as to meet an anticipated bond closing date for mid-August, 2003. Staff noted the newly estimated project cost of \$12,719,500 and bid overrun of \$250,000. Staff recommended the case be reopened and the additional funding in the amount of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council be approved.

On July 31, 2003, the District filed correspondence with the Commission, noting that it had stated in the reopening of the case that the total project cost was \$12,719,500. However, this amount failed to include \$60,000 for Bond Council and Accounting. The District again requested expedited treatment, stating the anticipated loan closing date is to be August 19, 2003.

On August 4, 2003, Staff filed a Further Final Joint Staff Memorandum, explaining that the actual cost of the project is \$12,779,500. Therefore, Staff recommended approval of the District's request for the additional funding of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

DISCUSSION

As recommended by Staff, it is reasonable to approve Pea Ridge Public Service District's petition to reopen the case and further approve the additional \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

FINDINGS OF FACT

1. On July 15, 2003, the District filed a Petition to Reopen this proceeding and requested approval of additional funding needed as the result of a bid overrun.

2. The District obtained the additional funding, a grant in the amount of \$250,000, from the West Virginia Infrastructure and Jobs Development Council.

3. As the additional funding will be received in the form of a grant, there will be no resulting rate increase.

4. On July 22, 2003, Staff filed an Initial and Final Joint Staff Memorandum, noting a newly estimated project cost of \$12,719,500 and bid overrun of \$250,000. Staff recommended the case be reopened and the additional funding in the amount of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council be approved.

5. On July 31, 2003, the District filed correspondence with the Commission and noted that the total project cost, quoted as \$12,719,500 in the reopening of the case, failed to include \$60,000 for Bond Council and Accounting. The District again requested expedited treatment, stating the anticipated loan closing date is to be August 19, 2003.

6. On August 4, 2003, Staff filed a Further Final Joint Staff Memorandum, explaining that the actual cost of the project is \$12,779,500. Therefore, Staff recommended approval of the District's request for the additional funding of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

CONCLUSION OF LAW

As recommended by Staff, it is reasonable to approve Pea Ridge Public Service District's petition to reopen the case and further approve the additional \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

ORDER

IT IS, THEREFORE, ORDERED that the Pea Ridge Public Service District's Petition to Reopen this case is hereby granted.

IT IS FURTHER ORDERED that the Pea Ridge Public Service District's request for approval of additional funding is hereby approved in the amount of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

IT IS FURTHER ORDERED that if the plans, scope or terms of financing change, the Pea Ridge Public Service District shall request a reopening of this case for subsequent review and approval by the Commission.

IT IS FURTHER ORDERED that, upon entry hereof, this proceeding shall be removed from the Commission's active docket of cases.

IT IS FURTHER ORDERED that the Commission's Executive Secretary serve a copy of this order upon all parties of record by United States First Class Mail and upon Commission Staff by hand delivery.

A Recommended Decision was issued on March 14, 2003 (Final March 23, 2003), which approved increased rates and charges, as well as the District's application for a certificate of convenience and necessity. It was further ordered that the District was authorized to accept, execute and close on the funding package proposed for the project approved, including a loan from the West Virginia Water Development Authority in the amount of \$100,000, at an interest rate of 5.8%, for a term of not less than twenty (20) years, and a loan from the West Virginia State Revolving Fund in the amount of \$12,429,500, at an interest rate of zero percent and an administrative fee of one-half percent, for a term of forty (40) years.

On July 15, 2003, the District filed a Petition to Reopen this proceeding and requested approval of additional funding which was needed as the result of a bid overrun.

On August 6, 2003, a Commission Order was entered which granted the District's request for approval of additional funding in the amount of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

~~On August 8, 2003, the District filed a Motion to Correct Order. According to the District, the term of the West Virginia State Revolving Fund loan¹ should be for a period of thirty (30) years at zero (0%) percent interest. However, the Final Order of August 6, 2003, and the prior Order entered on March 23, 2003, reflect an incorrect term of forty (40) years. The District reiterated that the closing date remains August 19, 2003.~~

DISCUSSION

It is reasonable to grant Pea Ridge Public Service District's request for a corrective order and revise the term of the West Virginia State Revolving Fund loan from forty (40) years to thirty (30) years.

FINDINGS OF FACT

1. A Recommended Decision was issued on March 14, 2003 (Final March 23, 2003), which approved, among other things, the funding package proposed for the project, including a loan from the West Virginia Water Development Authority in the amount of \$100,000, at an interest rate of 5.8%, for a term of not less than twenty (20) years, and a loan from the West Virginia State Revolving Fund in the amount of \$12,429,500, at an interest rate of zero percent and an administrative fee of one-half percent, for a term of forty (40) years.

2. On August 6, 2003, a Commission Order was entered which granted the District's request for approval of additional funding in the amount of a \$250,000 grant from the West Virginia Infrastructure and Jobs Development Council, with a project cost of \$12,779,500.

¹The District does not state to which of the approved loans it refers. Nevertheless, pursuant to the Recommended Decision, the West Virginia State Revolving Fund was approved for a term of forty (40) years.

3. On August 8, 2003, the District asked that the approved forty (40) year term of the West Virginia State Revolving Fund loan be revised to reflect a term of thirty (30) years.

CONCLUSION OF LAW

It is reasonable to grant Pea Ridge Public Service District's request for a corrective order and revise the term of the West Virginia State Revolving Fund loan from forty (40) years to thirty (30) years.

ORDER

IT IS, THEREFORE, ORDERED that the Pea Ridge Public Service District's Motion to Correct Order is hereby granted.

IT IS FURTHER ORDERED that the previously approved forty (40) year term of the West Virginia State Revolving Fund loan be revised to reflect a term of thirty (30) years. In all other respects, the Recommended Decision issued on March 14, 2003 (Final March 23, 2003) and Commission Order of August 6, 2003 remain in full force and effect.

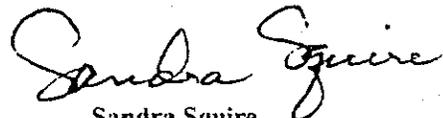

IT IS FURTHER ORDERED that if the plans, scope or terms of financing change, the Pea Ridge Public Service District shall request a reopening of this case for subsequent review and approval by the Commission.

IT IS FURTHER ORDERED that, upon entry hereof, this proceeding shall be removed from the Commission's active docket of cases.

IT IS FURTHER ORDERED that the Commission's Executive Secretary serve a copy of this order upon all parties of record by United States First Class Mail and upon Commission Staff by hand delivery.

Re: Pea Ridge Public Service District
Sewer Project 97S-292

Dear Mr. Seaton:

The West Virginia Infrastructure and Jobs Development Council (the "Infrastructure Council") has reviewed the Pea Ridge Public Service District's (the "District") revised preliminary application regarding its proposed project to extend sanitary sewer services, construct new pump stations and upgrade existing pump stations (the "Project").

Based on the findings of the Sewer Technical Review Committee, the Infrastructure Council has determined that the Project is technically feasible within the guidelines of the Infrastructure and Jobs Development Act. The District should carefully review the enclosed comments of the Sewer Technical Review Committee as the District may need to address certain issues raised in said comments as it proceeds with the Project.

Upon consideration of the revised preliminary application, the Infrastructure Council recommends that the District utilize a Clean Water State Revolving Fund loan of \$12,026,945 and pursue a Water Development Authority loan of \$100,000 to finance this \$12,126,945 Project. Please contact the Water Development Authority Office at 558-3612 for specific information on the steps the District needs to follow to apply for these funds. Please note that **this letter does not constitute funding approval from this agency.**

If you have any questions regarding this matter, please contact Katy Mallory at 558-4607.

KNOW ALL MEN BY THESE PRESENTS: That PEA RIDGE PUBLIC SERVICE DISTRICT, a public service district, public corporation and political subdivision of the State of West Virginia in Cabell County of said State (the "Issuer"), for value received, hereby promises to pay, solely from the special funds provided therefor, as hereinafter set forth, to the WEST VIRGINIA WATER DEVELOPMENT AUTHORITY (the "Authority") or registered assigns the sum of ONE HUNDRED THOUSAND DOLLARS (\$100,000), in annual installments on October 1 of each year, commencing October 1, 2004, as set forth on the "Debt Service Schedule" attached as Exhibit A hereto and incorporated herein by reference, with interest on each installment at the rate per annum set forth on said Exhibit A.

The interest on each installment shall run from the original date of delivery of this Bond to the Authority and payment therefor, and until payment of such installment, such interest shall be payable semiannually on April 1 and October 1 of each year, commencing April 1, 2004. Principal installments of this Bond are payable in any coin or currency which, on the respective dates of payment of such installments, is legal tender for the payment of public and private debts under the laws of the United States of America, at the office of the West Virginia Municipal Bond Commission, Charleston, West Virginia (the "Paying Agent"). This Bond may be redeemed prior to its stated date of maturity in whole or in part, but only with the express written consent of the Authority, and upon the terms and conditions prescribed by, and otherwise in compliance with, the Loan Agreement between the Issuer and the Authority, dated May 5, 2003.

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Pea Ridge Public Service District (the "Issuer"), a public service district, public corporation and political subdivision created and existing under the laws of the State of West Virginia, of its \$12,429,500 Sewer Revenue Bonds, Series 2003 A (West Virginia SRF Program), dated the date hereof (the "Bonds").

We have examined the law and certified copies of proceedings and other papers relating to the authorization of a bond purchase agreement dated August 4, 2003, including all schedules and exhibits attached thereto (the "Loan Agreement"), by and among the Issuer, the West Virginia Water Development Authority (the "Authority") and the West Virginia Department of Environmental Protection (the "DEP") and the Bonds, which are to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Bonds are originally issued in the form of one Bond, registered as to principal only to the Authority, bearing no interest and an Administrative Fee of .5%. The principal is payable quarterly on March 1, June 1, September 1 and December 1 of each year, commencing June 1, 2005, and maturing March 1, 2035, all as set forth in "Schedule Y" attached to the Loan Agreement and incorporated in and made a part of the Bonds.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 22C, Article 2 of the West Virginia Code of 1931, as amended (collectively, the "Act"), for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public sewerage system of the Issuer (the "Project"); and (ii) paying certain costs of issuance and related costs.

We have also examined the applicable provisions of the Act, the Bond Resolution duly adopted by the Issuer on August 18, 2003, as supplemented by a Supplemental Resolution duly adopted by the Issuer on August 18, 2003 (collectively, the "Resolution"), pursuant to and under which Act and Resolution the Bonds are authorized and issued, and the Loan Agreement has been entered into. The Bonds are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Resolution and the SRF Agreement. All capitalized terms used herein and not otherwise defined herein shall have the same meanings set forth in the Resolution and the Loan Agreement when used herein.

Based upon the foregoing, and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district, public corporation and political subdivision of the State of West Virginia, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt the Resolution and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer, is a valid and binding special obligation of the Issuer enforceable in accordance with the terms thereof, and inures to the benefit of the Authority and the DEP and cannot be amended by the Issuer so as to affect adversely the rights of the Authority or the DEP or diminish the obligations of the Issuer without the written consent of the Authority and the DEP.

3. The Resolution and all other necessary orders and resolutions have been duly and effectively adopted by the Issuer and constitute valid and binding obligations of the Issuer enforceable against the Issuer in accordance with their terms. The Resolution contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

4. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System referred to in the Resolution and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Prior Bonds, all in accordance with the terms of the Bonds and the Bond Legislation.

5. The Bonds are, under the Act, exempt from taxation by the State of West Virginia and the other taxing bodies of the State, and the interest on the Bonds, if any, is exempt from personal and corporate net income taxes imposed directly thereon by the State of West Virginia.

6. The Bonds have not been issued on the basis that the interest, if any, thereon is or will be excluded from gross income of the owners thereof for federal income tax purposes. We express no opinion regarding the excludability of such interest from the gross income of the owners thereof for federal income tax purposes or other federal tax consequences arising with respect to the Bonds.

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Loan Agreement and the Resolution, and the liens and pledges set forth therein, may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion and the application of equitable remedies in appropriate cases.

We have examined the executed and authenticated Bond numbered AR-1, and in our opinion the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

Ladies and Gentlemen:

We have served as bond counsel in connection with the issuance by Pea Ridge Public Service District (the "Issuer"), a public service district, public corporation and political subdivision created and existing under the laws of the State of West Virginia, of its \$100,000 Sewer Revenue Bonds, Series 2003 B (the "Bonds").

We have examined the law and certified copies of proceedings and other papers relating to the authorization of a loan agreement dated May 5, 2003, including all schedules and exhibits attached thereto (the "Loan Agreement"), by and between the Issuer and the West Virginia Water Development Authority (the "Authority") and the Bonds, which are to be purchased by the Authority in accordance with the provisions of the Loan Agreement. The Bonds are originally issued in the form of one Bond, registered as to principal and interest to the Authority, bearing interest at the rate of 5.0% per annum, payable semiannually on April 1 and October 1 of each year, commencing April 1, 2004, and with principal payable annually on October 1 of each year, commencing October 1, 2004, all as set forth in "Schedule Y" attached to the Loan Agreement and incorporated in and made a part of the Bonds.

The Bonds are issued under the authority of and in full compliance with the Constitution and statutes of the State of West Virginia, including particularly, Chapter 16, Article 13A and Chapter 22C, Article 1 of the West Virginia Code of 1931, as amended (collectively, the "Act"), for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public sewerage facilities of the Issuer (the "Project") and (ii) paying certain costs of issuance of the Bonds and related costs.

We have also examined the applicable provisions of the Act, the Bond Resolution duly adopted by the Issuer on August 18, 2003, as supplemented by a Supplemental Resolution duly adopted by the Issuer on August 18, 2003 (collectively, the "Resolution"), pursuant to and under which Act and Resolution the Bonds are authorized and issued, and the Loan Agreement has been entered into. The Bonds

are subject to redemption prior to maturity to the extent, at the time, under the conditions and subject to the limitations set forth in the Resolution and the Loan Agreement. All capitalized terms used herein and not otherwise defined herein shall have the same meanings set forth in the Resolution and the Loan Agreement when used herein.

In connection with the issuance of the Bonds, the Issuer has executed a Certificate as to Arbitrage, dated as of the date hereof (the "Certificate as to Arbitrage"), which, among other things, sets forth restrictions on the investment and expenditure of the Bond proceeds and earnings thereon, to ensure that the arbitrage requirements of the Internal Revenue Code of 1986, as amended, and regulations thereunder (collectively, the "Code"), necessary to establish and maintain the excludability of interest on the Bonds from gross income for federal income tax purposes, are and will continue to be met.

Based upon the foregoing, and upon our examination of such other documents as we have deemed necessary, we are of the opinion, under existing law, as follows:

1. The Issuer is a duly created and validly existing public service district, public corporation and political subdivision of the State of West Virginia, with full power and authority to acquire and construct the Project, to operate and maintain the System, to adopt the Resolution and to issue and sell the Bonds, all under the Act and other applicable provisions of law.

2. The Loan Agreement has been duly authorized by and executed on behalf of the Issuer, is a valid and binding special obligation of the Issuer enforceable in accordance with the terms thereof, and inures to the benefit of the Authority and cannot be amended by the Issuer so as to affect adversely the rights of the Authority or diminish the obligations of the Issuer without the written consent of the Authority.

3. The Resolution and all other necessary orders and resolutions have been duly and effectively adopted by the Issuer and constitute valid and binding obligations of the Issuer enforceable against the Issuer in accordance with their terms. The Resolution contains provisions and covenants substantially in the form of those set forth in Section 4.1 of the Loan Agreement.

4. The Bonds have been duly authorized, issued, executed and delivered by the Issuer to the Authority and are valid, legally enforceable and binding special obligations of the Issuer, payable from the Net Revenues of the System referred to in the Resolution and secured by a first lien on and pledge of the Net Revenues of the System, on a parity with respect to liens, pledge and source of and security for payment with the Issuer's Prior Bonds, all in accordance with the terms of the Bonds and the Bond Legislation.

5. Under existing laws, regulations, rulings and judicial decisions of the United States of America, as presently written and applied, the interest on the Bonds (a) is excludable from gross income of the owners thereof for federal income tax purposes pursuant to the Code and (b) is not an item of tax preference for purposes of the federal alternative minimum tax imposed upon individuals and corporations under the Code. It should be noted, however, that interest on the Bonds is included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax that may be imposed with respect to corporations. The opinions set forth above are subject to the condition that the Issuer comply,

on a continuing basis, with all requirements of the Code that must be satisfied subsequent to issuance of the Bonds for interest thereon to be or continue to be excludable from gross income for federal income tax purposes and all certifications, covenants and representations which may affect the excludability from gross income of the interest on the Bonds set forth in the Bond Legislation and the Certificate as to Arbitrage, and other certificates delivered in connection with the issuance of the Bonds. Failure to comply with certain of such Code provisions or such certifications, covenants and representations could cause the interest on the Bonds to be includable in gross income retroactive to the date of issuance of the Bonds. We express no opinion regarding other federal tax consequences arising with respect to the Bonds.

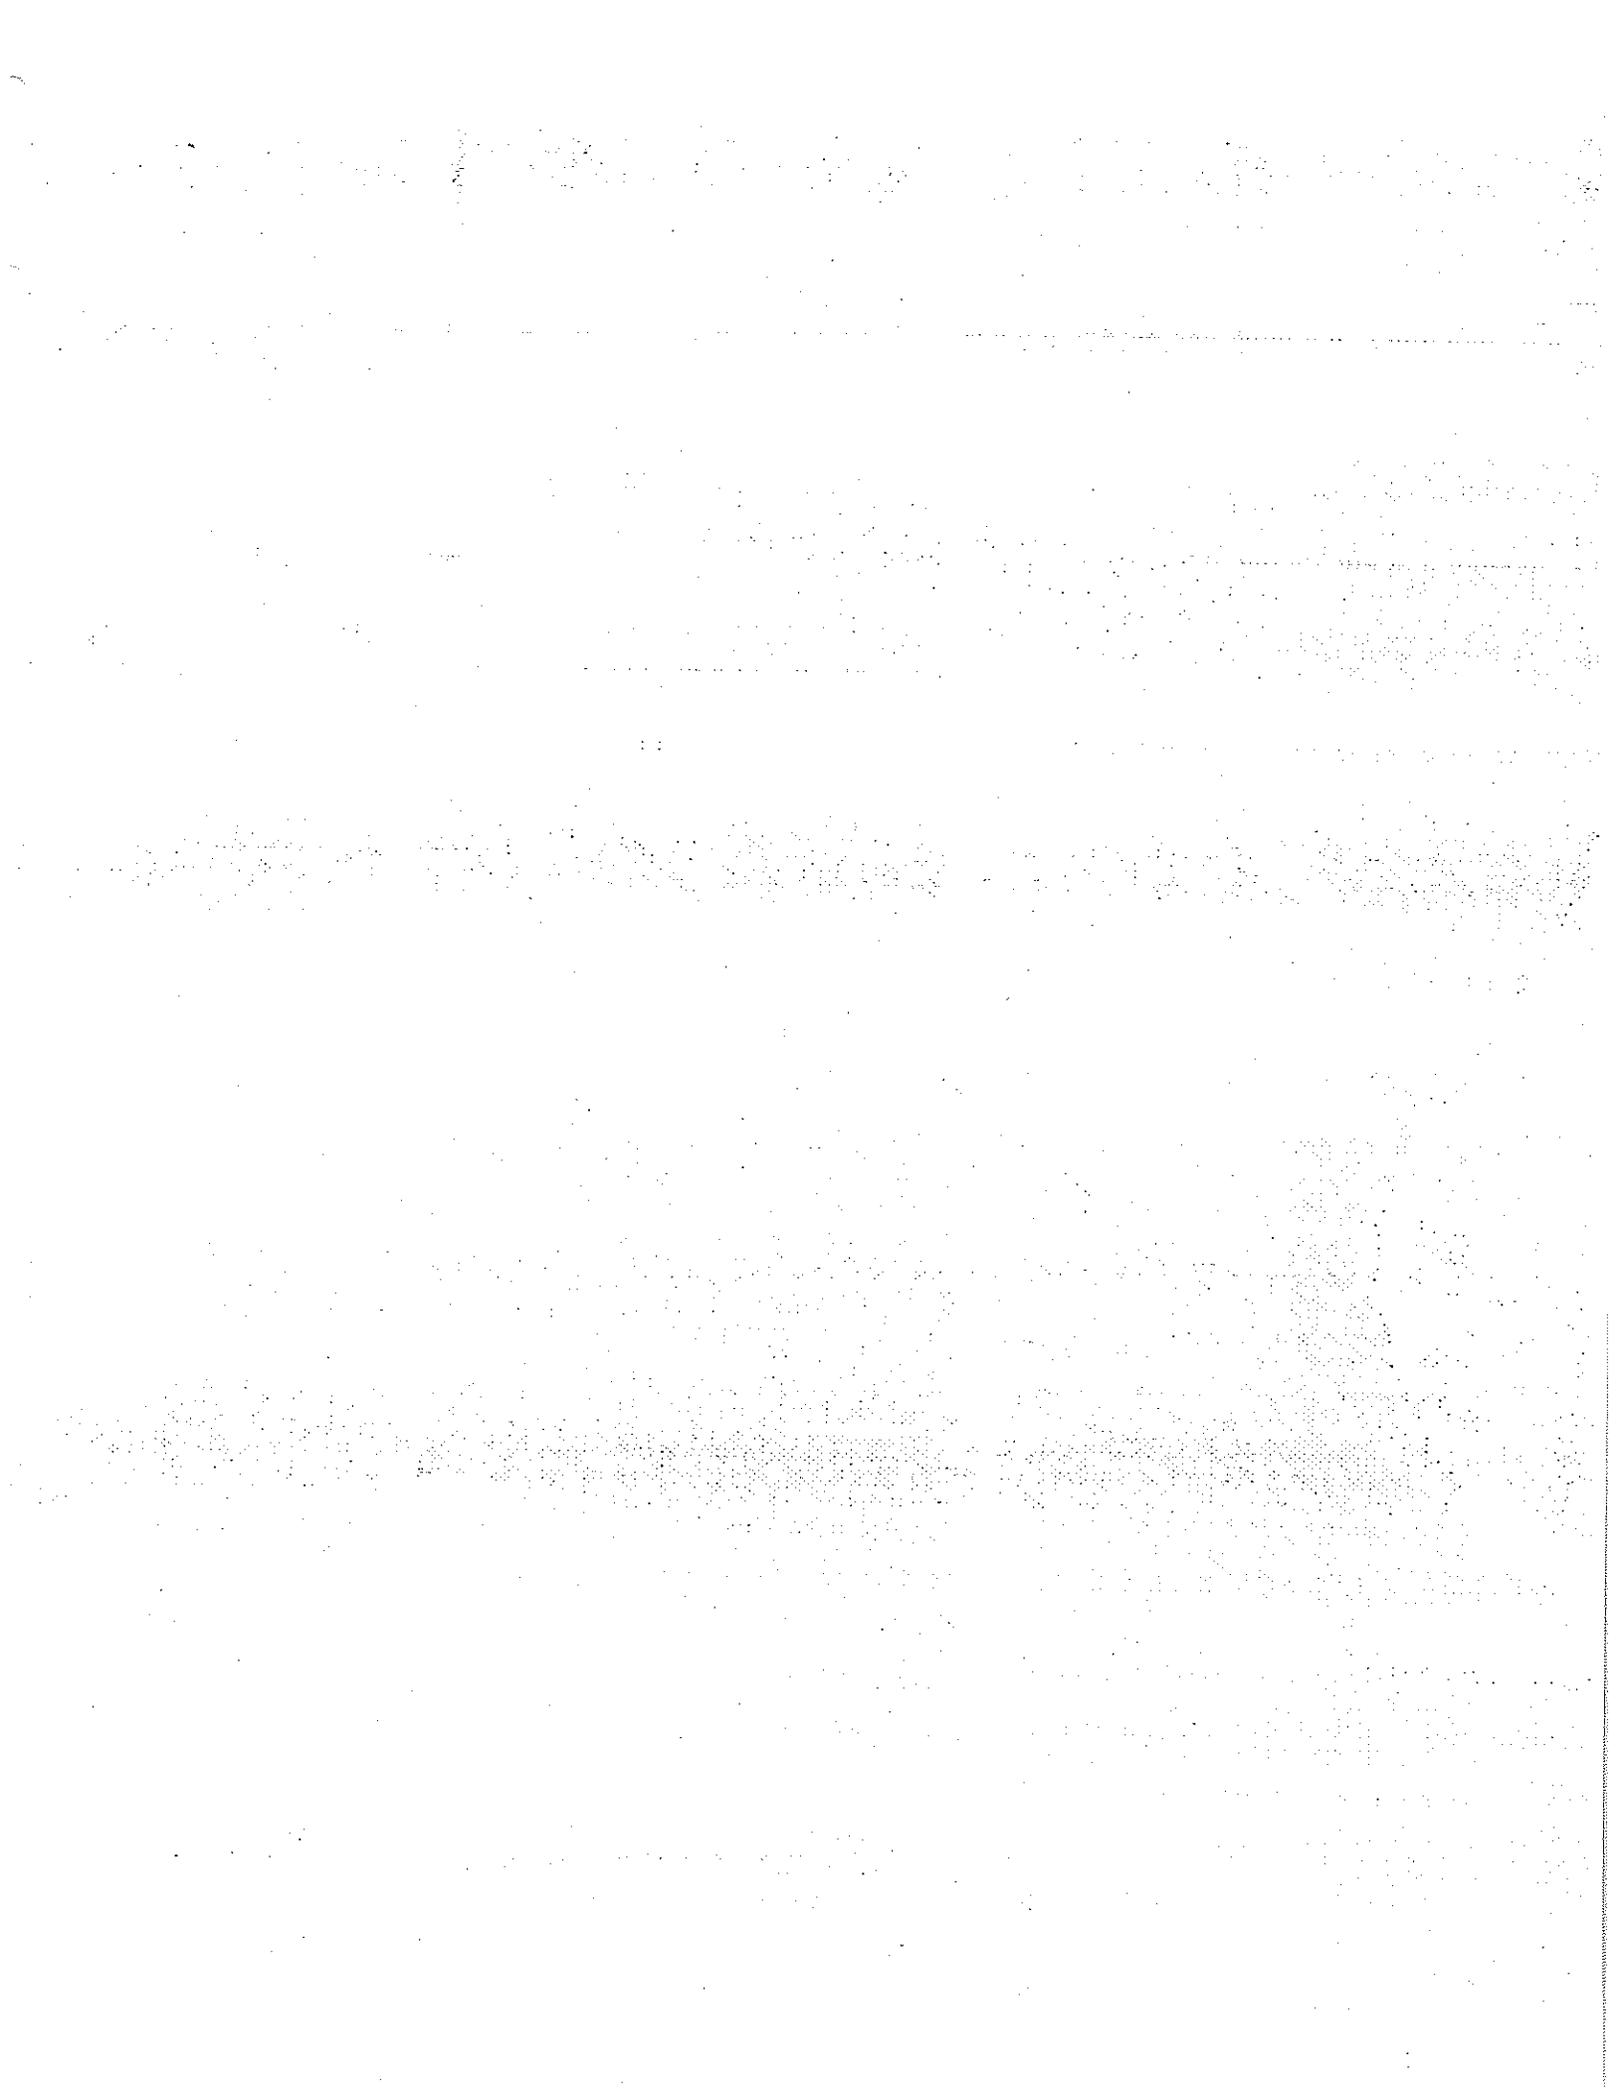

6. The Bonds are, under the Act, exempt from taxation by the State of West Virginia and the other taxing bodies of the State, and the interest on the Bonds is exempt from personal and corporate net income taxes imposed directly thereon by the State of West Virginia.

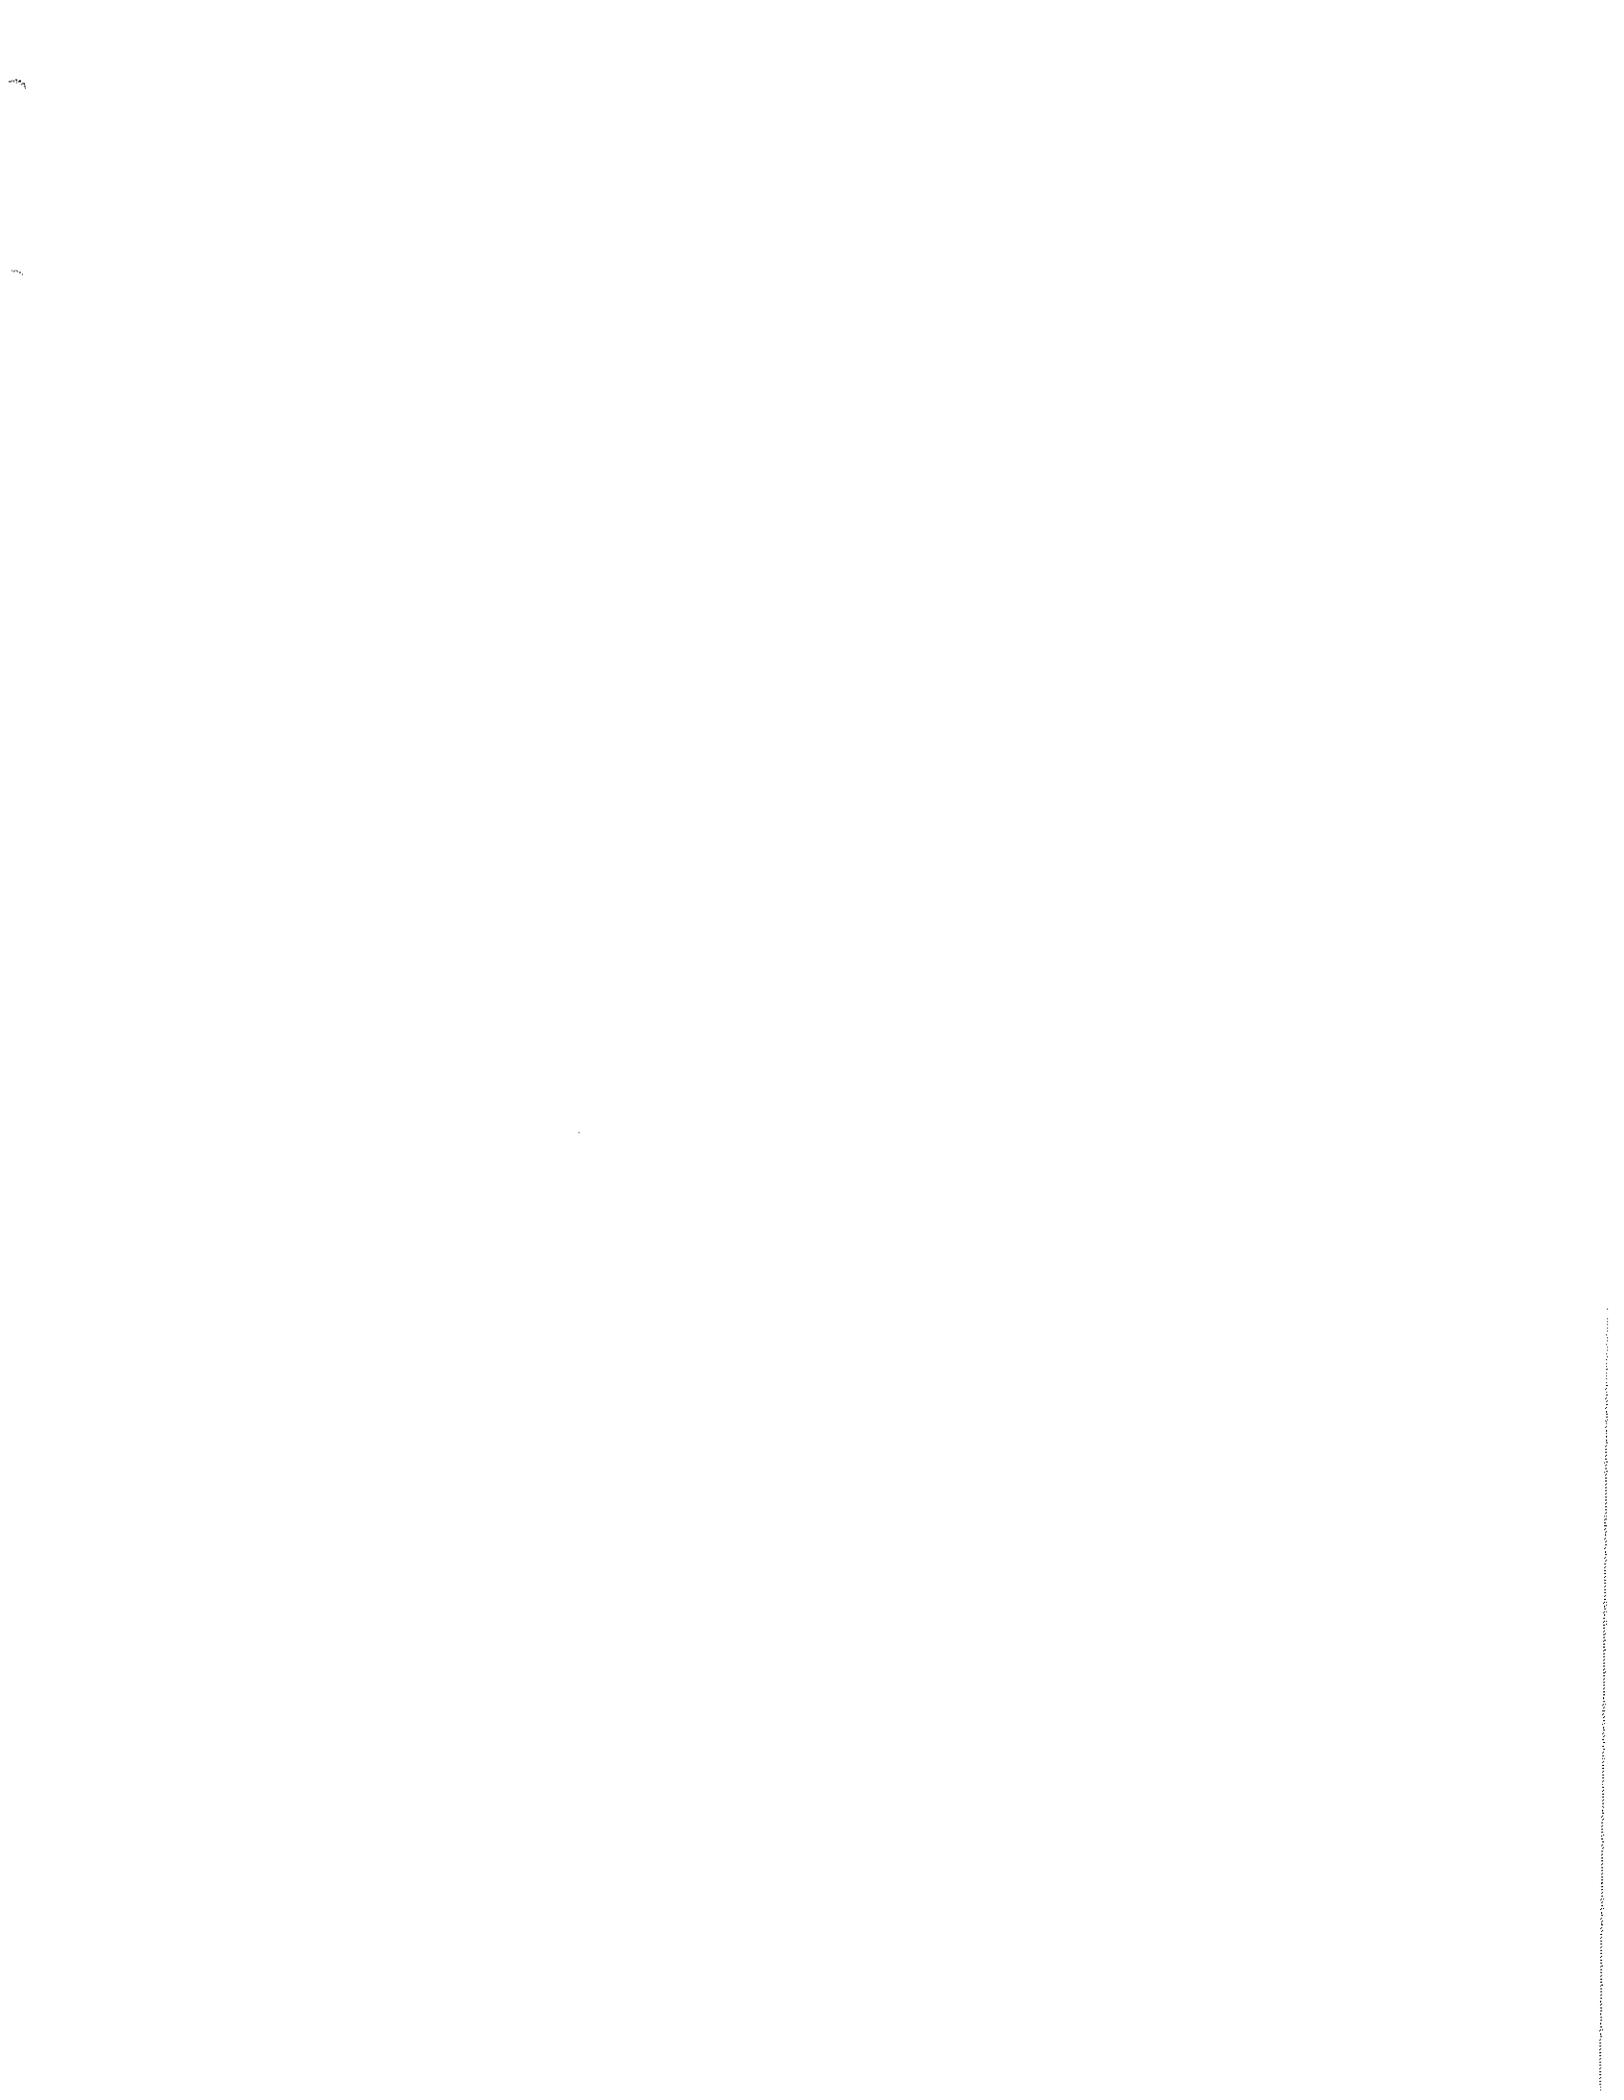

It is to be understood that the rights of the holders of the Bonds and the enforceability of the Bonds, the Loan Agreement and the Resolution, and the liens and pledges set forth therein, may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion and the application of equitable remedies in appropriate cases.

We have examined the executed and authenticated Bond numbered BR-1, and in our opinion the form of said Bond and its execution and authentication are regular and proper.

Very truly yours,

Steptoe & Johnson PLLC

Ladies and Gentlemen:

I am counsel to Pea Ridge Public Service District, a public service district, in Cabell County, West Virginia (the "Issuer"). As such counsel, I have examined copies of the approving opinions of Steptoe & Johnson PLLC, as bond counsel, a bond purchase agreement for the Series 2003 A Bonds dated August 4, 2003, including all schedules and exhibits attached thereto, by and among the West Virginia Water Development Authority (the "Authority"), the West Virginia Department of Environmental Protection (the "DEP") and the Issuer, and a loan agreement for the Series 2003 B Bonds dated May 5, 2003, including all schedules and exhibits attached thereto, by and between the Issuer and the Authority (collectively, the "Loan Agreements"), the Bond Resolution duly adopted by the Issuer on August 18, 2003, as supplemented by the Supplemental Resolution duly adopted by the Issuer on August 18, 2003 (collectively, the "Resolution"), orders of The County Commission of Cabell County relating to the Issuer and the appointment of members of the Public Service Board of the Issuer, and other documents, papers, agreements, instruments and certificates relating to the above-captioned bonds (collectively, the "Bonds") of the Issuer. All capitalized terms used herein and not otherwise defined herein shall have the same meaning set forth in the Resolution and the Loan Agreements when used herein.

I am of the opinion that:

1. The Issuer is duly created and validly existing as a public service district and as a public corporation and political subdivision of the State of West Virginia.

2. The members and officers of the Public Service Board of the Issuer have been duly, lawfully and properly appointed and elected, have taken the requisite oaths, and are authorized to act in their respective capacities on behalf of the Issuer.

3. The Loan Agreements have been duly authorized, executed and delivered by the Issuer and, assuming due authorization, execution and delivery by the other parties thereto, constitute valid and binding agreements of the Issuer enforceable in accordance with their terms.

4. The Resolution has been duly adopted by the Issuer and is in full force and effect.

5. The execution and delivery of the Bonds and the Loan Agreements and the consummation of the transactions contemplated by the Bonds, the Loan Agreements and the Resolution and the carrying out of the terms thereof, do not and will not, in any material respect, conflict with or constitute, on the part of the Issuer, a breach of or default under any order, resolution, agreement or other instrument to which the Issuer is a party or by which the Issuer or its properties are bound or any existing law, regulation, court order or consent decree to which the Issuer is subject.

6. The Issuer has received all permits, licenses, approvals, consents, exemptions, orders, certificates and authorizations necessary for the creation and existence of the Issuer, the issuance of the Bonds, the acquisition and construction of the Project, the operation of the System and the imposition of rates and charges for use of the System, including, without limitation, all requisite orders, certificates and approvals from The County Commission of Cabell County, the DEP and the West Virginia Infrastructure and Jobs Development Council, and has taken any other action required for the imposition of such rates and charges, including, without limitation, the adoption of a resolution prescribing such rates and charges. The Issuer has received all requisite orders and approvals from the Public Service Commission of West Virginia, including the Orders entered on March 23, 2003, August 6, 2003 and August 12, 2003, in Case No. 02-1213-PSD-CN, among other things, granting to the Issuer a certificate of public convenience and necessity for the Project and approving the financing for the Project. The time for appeal of the Order entered March 23, 2003, has expired prior to the date hereof without any appeal. The time for appeal of the Orders dated August 6, 2003 and August 12, 2003, has not expired. The parties to such Orders have stated that they do not intend to appeal such Orders. Such Orders remain in full force and effect.

7. To the best of my knowledge, there is no litigation, action, suit, proceeding or investigation at law or in equity before or by any court, public board or body, pending or threatened, wherein an unfavorable decision, ruling or finding would adversely affect the transactions contemplated by the Bonds, the Loan Agreements, the Resolution, the acquisition and construction of the Project, the operation of the System, the validity of the Bonds or the collection of the Gross Revenues or the pledge of the Net Revenues for the payment of the Bonds.

8. I have ascertained that all successful bidders have made the required provisions for all insurance and payment and performance bonds and verified such insurance policies and bonds for

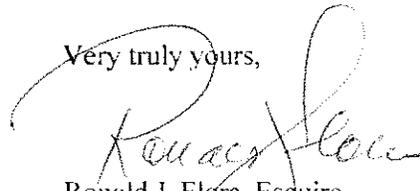

Pea Ridge Public Service District, et al.

accuracy. Based upon my review of the contracts, the surety bonds and the policies or other evidence of insurance coverage in connection with the Project, I am of the opinion that such surety bonds and policies (1) are in compliance with the contracts; (2) are adequate in form, substance and amount to protect the various interests of the Issuer; (3) have been executed by duly authorized representatives of the proper parties; (4) meet the requirements of the Act, the Bond Legislation and the Loan Agreements; and (5) all such documents constitute valid and legally binding obligations of the parties thereto in accordance with the terms, conditions and provisions thereof.

All counsel to this transaction may rely upon this opinion as if specifically addressed to them.

Re: Final Title Opinion for Pea Ridge Public Service District

Ladies and Gentlemen:

I am counsel to Pea Ridge Public Service District (the "Issuer") in connection with a proposed project to construct, operate and maintain a sewage collection and treatment system to serve the District's existing 3900 customers and approximately 348 additional customers in East and West Pea Ridge, Rte 2/Hillview area, Norway Avenue, Cedar Crest, East Cabell Heights, Darnell Rd., Tallwood/Baker area, Guyan Estates, and the former JH Richmond system area, in Cabell County, West Virginia including the addition and replacement of approximately 16 miles of 1.5 through 10 inch mains, construction of 8 new duplex submersible lift stations, upgrade of 14 existing sewage lift stations, the abandonment of the Guyan Estates aerated lagoon and the JH Richmond wastewater treatment plant, upgrade of the two existing wastewater treatment plants, and the construction of a new 2,624 square foot office building (the "Project"). I provide this final title opinion on behalf of the Issuer to satisfy the requirements of the West Virginia Department of Environmental Protection (the "DEP") for the Project. Please be advised of the following:

1. The Issuer is a duly created and validly existing public service district possessed with all the powers and authority granted to public service districts under the laws of the State of West Virginia to construct, operate and maintain the Project as approved by the DEP.

2. The Issuer has obtained all necessary permits and approvals for the construction of the Project.

3. I have investigated and ascertained the location of, and I am familiar with the legal description of, the necessary sites, including easements and/or rights of way, required for the Project as set forth in the plans for the Project prepared by Thrasher Engineering, the consulting engineers for the Project.

4. I have examined the records on file in the Office of the Clerk of the County Commission of Cabell County, West Virginia, the county in which the Project is to be located, and, in my opinion, the Issuer has acquired legal title or such other estate or interest in all of the necessary site components for the Project, including all easements and/or rights of way, with the exception of those listed in Paragraph 5, sufficient to assure undisturbed use and possession for the purpose of construction, operation and maintenance for the estimated life of the Project.

5. The following listed properties are to be acquired by eminent domain and the necessary filings have been made in the Office of the Clerk of the Circuit Court of Cabell County, West Virginia, to permit the Issuer a right-of-entry for the purpose of construction, operation and maintenance of the Project on the subject properties. The Issuer's title thereto is defeasible in the event the Issuer does not satisfy any resulting judgment and/or award in the proceedings for acquisition of said properties, and our certification is subject to the following pending litigation:

2. NO LITIGATION: No controversy or litigation of any nature is now pending or threatened, restraining, enjoining or affecting in any manner the issuance, sale or delivery of the Bonds, the acquisition and construction of the Project, the operation of the System, the receipt of the Net Revenues, or in any way contesting or affecting the validity of the Bonds, or any proceedings of the Issuer taken with respect to the issuance or sale of the Bonds, the pledge or application of the Net Revenues or any other moneys or security provided for the payment of the Bonds or the existence or the powers of the Issuer insofar as they relate to the authorization, sale and issuance of the Bonds, the acquisition and construction of the Project, the operation of the System, the pledge or application of moneys and security or the collection of the Gross Revenues or the pledge of Net Revenues as security for the Bonds.

3. GOVERNMENTAL APPROVALS AND BIDDING: All applicable and necessary approvals, permits, exemptions, consents, authorizations, registrations, licenses, orders and certificates required by law for the acquisition and construction of the Project, the operation of the System, including, without limitation, the imposition of rates and charges, and the issuance of the Bonds have been duly and timely obtained and remain in full force and effect. There are outstanding obligations of the Issuer which will rank on a parity with the Bonds as to liens, pledge and source of and security for payment, being the Sewer Revenue Bonds, Series 1992 (West Virginia SRF Program), dated December 28, 1992, issued in the original aggregate principal amount of \$1,250,000 (the "Series 1992 Bonds"), the Sewer Refunding Revenue Bonds, Series 1994, dated November 1, 1994, issued in the original aggregate principal amount of \$3,035,000 (the "Series 1994 Bonds"), and the Sewerage System Design Revenue Bonds, Series 2000 (West Virginia SRF Program), dated March 7, 2000, issued in the original aggregate principal amount of \$477,000 (the "Series 2000 Bonds" and, collectively with the Series 1992 Bonds and the Series 1994 Bonds, the "Prior Bonds").

The Issuer has met the coverage and parity requirements for issuance of parity bonds of the Prior Bonds and the resolutions authorizing the Prior Bonds and has substantially complied with all other parity requirements, except to the extent that noncompliance with any such other parity requirements is not of a material nature. The Issuer has obtained the certificate of an Independent Certified Public Accountant stating that the coverage and parity tests of the Prior Bonds are met. The Issuer has obtained the written consent of the Holders of the Series 1992 Bonds and the Series 2000 Bonds to the issuance of the Bonds on a parity with the Series 1992 Bonds and the Series 2000 Bonds. The Issuer is not required to obtain the consent of the Holders of the Series 1994 Bonds regarding the issuance of the Bonds on a parity basis to the Series 1994 Bonds. Other than the Prior Bonds, there are no outstanding bonds or obligations of the Issuer which are secured by revenues or assets of the System.

Ladies and Gentlemen:

Based upon the rates and charges set forth in the Final Order of the Public Service Commission of West Virginia entered March 23, 2003, in Case No. 02-1213-PSD-CN, and projected operation and maintenance expenses and anticipated customer usage as furnished to me by Pea Ridge Public Service District (the "Issuer"), it is my opinion that such rates and charges will be sufficient to provide revenues which, together with other revenues of the sewerage system (the "System") the Issuer, will pay all repair, operation and maintenance expenses of the System and leave a balance each year equal to at least 115% of the maximum amount required in any year for debt service on the Issuer's Sewer Revenue Bonds, Series 2003 A (West Virginia SRF Program) and Sewer Revenue Bonds, Series 2003 B (West Virginia Water Development Authority) (collectively, the "Bonds"), to be issued to the West Virginia Water Development Authority on the date hereof, and all other obligations secured by a lien on or payable from the revenues of the System, on a parity with Bonds, including all Prior Bonds of the Issuer as defined and described in the Bond Resolution of the Issuer adopted August 18, 2003, authorizing the Bonds. It is my further opinion that the Net Revenues actually derived from the System during any 12 consecutive months, within the 18 months immediately preceding the date of the actual issuance of the Bonds, plus the estimated average increased annual Net Revenues to be received in each of the 3 succeeding years after the completion of the improvements to be financed by the Bonds, are not less than 115% of the largest aggregate amount that will mature and become due in any succeeding fiscal year for the principal of and interest on the Prior Bonds and the Bonds.

In connection with the requirements of the Issuer's Sewer Refunding Revenue Bonds, Series 1994, it is my opinion that such rates and charges will be sufficient to produce Net Revenues equal to not less than the sum of (i) 115% of the maximum annual debt service on the Bonds and the Prior Bonds in any fiscal year; and (ii) the amount, if any, required to be deposited in the Reserve Accounts of the Bonds and the Prior Bonds in order to satisfy the respective reserve account requirements within a period of not more than 12 months, assuming equal payments are made each month. In such connection it is my further opinion that the Net Revenues actually derived from the System during the fiscal year preceding the date of the actual issuance of the Bonds, plus the increased annual Net Revenues expected to be received after the date of issuance of the Bonds will not be less than 115% of the maximum annual debt service on the Bonds and the Prior Bonds.

the Bonds are derived, to lose their status as tax-exempt bonds. The Issuer hereby covenants to take all actions necessary to comply with such covenant.

5. The Series 2003 A Bonds were sold on August 19, 2003, to the Authority, pursuant to a bond purchase agreement dated August 4, 2003, by and among the Issuer, the Authority and the DEP, for an aggregate purchase price of \$12,429,500 (100% of par), at which time, the Issuer received \$749,259 from the Authority and the DEP, being the first advance of the principal amount of the Series 2003 A Bonds. No accrued interest has been or will be paid on the Series 2003 A Bonds. The balance of the principal amount of the Series 2003 A Bonds will be advanced to the Issuer as acquisition and construction of the Project progresses.

6. The Series 2003 A Bonds are being delivered simultaneously with the delivery of this certificate and are issued for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public sewerage facilities of the Issuer (the "Project") and (ii) paying certain costs of issuance of the Bonds and related costs.

On the date hereof, the Issuer has simultaneously issued its Sewer Revenue Bonds, Series 2003 B (West Virginia Water Development Authority) in the aggregate principal amounts of \$100,000 (the "Series 2003 B Bonds").

7. Within 30 days after the delivery of the Bonds, the Issuer shall enter into agreements which require the Issuer to expend at least 5% of the net sale proceeds of the Bonds on the Project, constituting a substantial binding commitment. The acquisition and construction of the Project and the allocation of the net sale proceeds of the Bonds to expenditures of the Project shall commence immediately and shall proceed with due diligence to completion, and with the exception of proceeds deposited in the Reserve Account for the Bonds, if any, all of the proceeds from the sale of the Bonds, together with any investment earnings thereon, will be expended for payment of costs of the Project on or before December 1, 2004. The acquisition and construction of the Project is expected to be completed by September 1, 2004.

8. The total cost of the Project (including all costs of issuance of the Bonds) is estimated at \$12,779,500. Sources and uses of funds for the Project are as follows:

11. Monies held in the Series 2003 A Bonds Sinking Fund will be used solely to pay principal of and interest, if any, on the Series 2003 A Bonds and will not be available to meet costs of acquisition and construction of the Project. All investment earnings on monies in the Series 2003 A Bonds Sinking Fund and Series 2003 A Bonds Reserve Account, if any, will be withdrawn therefrom and deposited into the Series 2003 A Bonds Construction Trust Fund during construction of the Project, and following completion of the Project, will

be deposited, not less than once each year, in the Revenue Fund, and such amounts will be applied as set forth in the Bond Resolution.

12. Work with respect to the acquisition and construction of the Project will proceed with due diligence to completion. The acquisition and construction of the Project is expected to be completed within 13 months of the date hereof.

13. The Issuer will take such steps as requested by the Authority to ensure that the Authority's bonds meet the requirements of the Code.

14. With the exception of the amount deposited in the Series 2003 A Bonds Sinking Fund for payment of interest, if any, on the Bonds and the amount deposited in the Series 2003 A Bonds Reserve Account, if any, all of the proceeds of the Bonds will be expended on the Project within 16 months from the date of issuance thereof.

15. The Issuer does not expect to sell or otherwise dispose of the Project in whole or in part prior to the last maturity date of the Bonds.

16. The amount designated as costs of issuance of the Bonds consists only of costs which are directly related to and necessary for the issuance of the Bonds.

17. All property financed with the proceeds of the Bonds will be owned and held by (or on behalf of) a qualified governmental unit.

18. No proceeds of the Bonds will be used, directly or indirectly, in any trade or business carried on by any person who is not a governmental unit.

19. The original proceeds of the Bonds will not exceed the amount necessary for the purposes of the issue.

20. The Issuer shall use the Bond proceeds solely for the costs of the Project, and the Project will be operated solely for a public purpose as a local governmental activity of the Issuer.

21. The Bonds are not federally guaranteed.

22. The Issuer has retained the right to amend the Bond Resolution authorizing the issuance of the Bonds if such amendment is necessary to assure that the Bonds remain governmental bonds.

23. The Issuer has either (a) funded the Series 2003 A Bonds Reserve Account at the maximum amount of principal and interest which will mature and become due on the Bonds in the then current or any succeeding year with the proceeds of the Bonds, or

(b) created the Series 2003 A Bonds Reserve Account which will be funded with equal payments made on a monthly basis over a 10-year period until such Series 2003 A Bonds Reserve Account holds an amount equal to the maximum amount of principal and interest which will mature and become due on the Bonds in the then current or any succeeding year. Monies in the Series 2003 A Bonds Reserve Account and the Series 2003 A Bonds Sinking Fund will be used solely to pay principal of and interest on the Bonds and will not be available to pay costs of the Project.

25. To the best of my knowledge, information and belief, there are no other facts, estimates and circumstances which would materially change the expectations herein expressed.

26. The Issuer will comply with instructions as may be provided by the Authority, at any time, regarding use and investment of proceeds of the Bonds, rebates and rebate calculations.

27. To the best of my knowledge, information and belief, the foregoing expectations are reasonable.

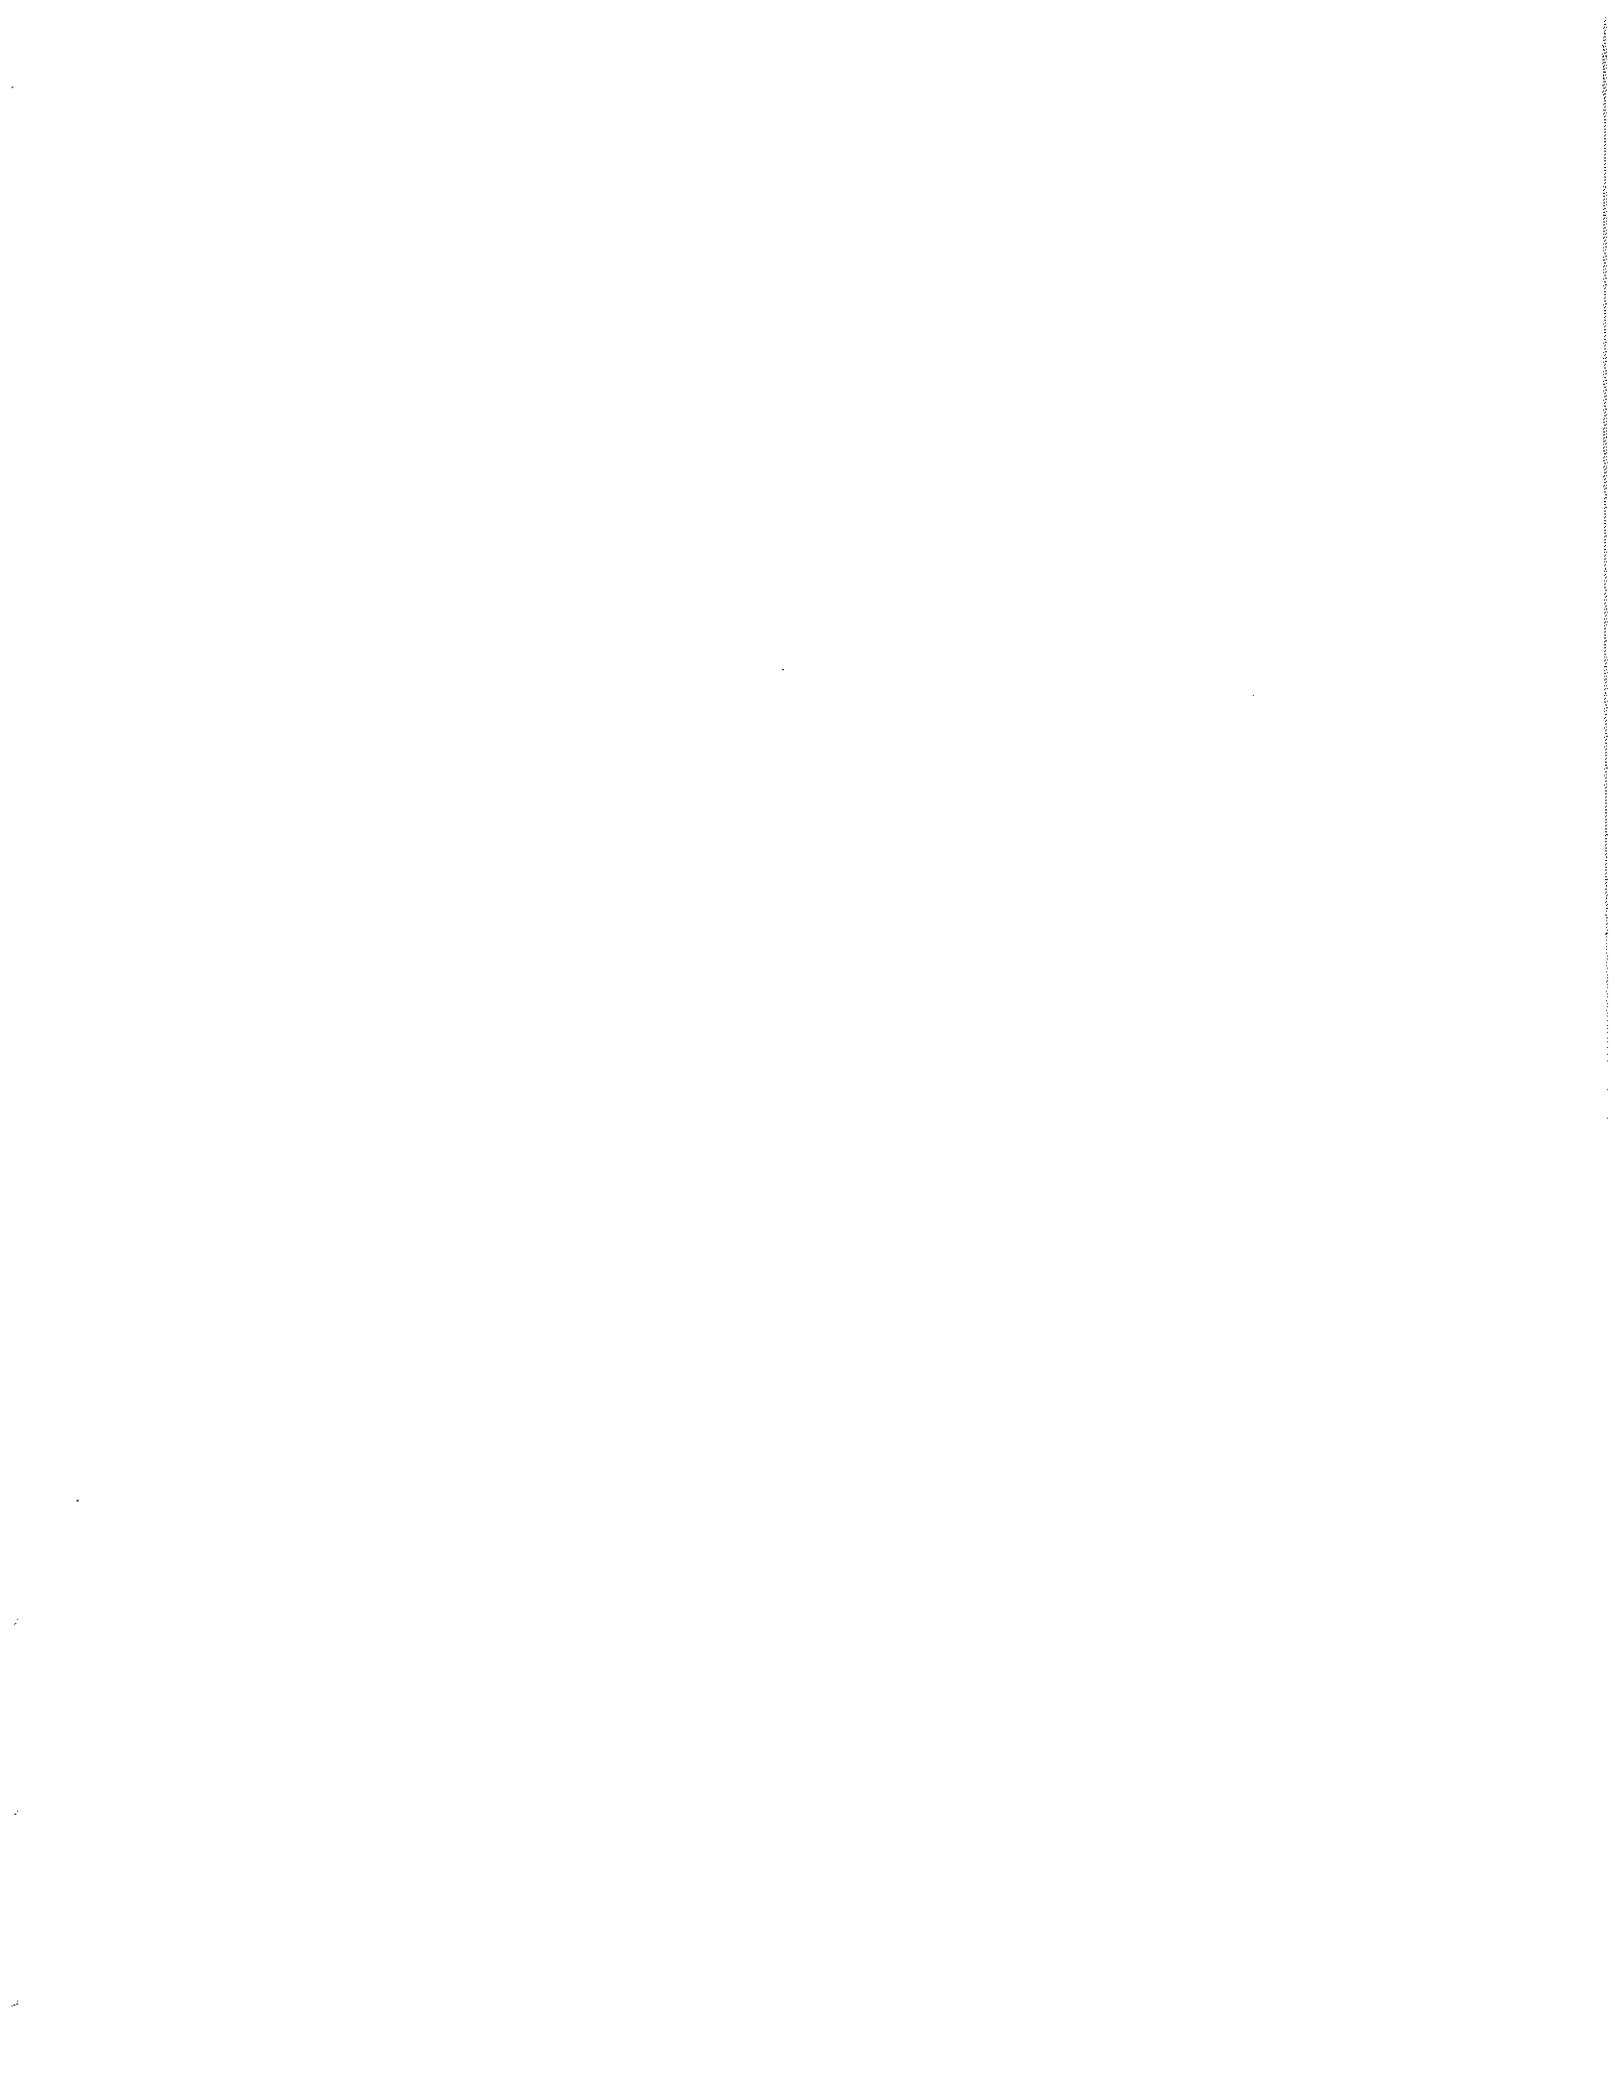

WITNESS my signature on this 19th day of August, 2003.

PEA RIDGE PUBLIC SERVICE DISTRICT

Sewer Revenue Bonds, Series 2003 B
(West Virginia Water Development Authority)

CERTIFICATE AS TO ARBITRAGE

The undersigned Chairman of the Public Service Board of Pea Ridge Public Service District in Cabell County, West Virginia (the "Issuer"), being one of the officials of the Issuer duly charged with the responsibility for the issuance of \$100,000 in aggregate principal amount of Sewer Revenue Bonds, Series 2003 B (West Virginia Water Development Authority) of the Issuer, dated August 19, 2003 (the "Bonds" or the "Series 2003 B Bonds"), hereby certify as follows:

1. This certificate is being executed and delivered pursuant to Section 148 of the Internal Revenue Code of 1986, as amended, and the temporary and permanent regulations promulgated thereunder or under any predecessor thereto (the "Code"). I am one of the officers of the Issuer duly charged with the responsibility of issuing the Bonds. I am familiar with the facts, circumstances and estimates herein certified and am duly authorized to execute and deliver this certificate on behalf of the Issuer. Capitalized terms used herein and not otherwise defined herein shall have the same meaning as set forth in the Bond Resolution duly adopted by the Issuer on August 18, 2003, as supplemented (the "Bond Resolution"), authorizing the Bonds.

2. This certificate may be relied upon as the certificate of the Issuer.

3. The Issuer has not been notified by the Internal Revenue Service of any listing or proposed listing of it as an issuer that may not certify its bonds or the certification of which may not be relied upon by holders of obligations of the Issuer or that there is any disqualification of the Issuer by the Internal Revenue Service because a certification made by the Issuer contains a material misrepresentation.

4. This certificate is based upon facts, circumstances, estimates and expectations of the Issuer in existence on August 19, 2003, the date on which the Bonds are to be physically delivered in exchange for the entire principal of the Bonds, and to the best of my knowledge and belief, the expectations of the Issuer set forth herein are reasonable.

5. In the Bond Resolution pursuant to which the Bonds are issued, the Issuer has covenanted that (i) it shall not take, or permit or suffer to be taken, any action with respect to the gross or other proceeds of the Bonds which would cause the Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code, and (ii) it will take all actions that may be required of it (including, without implied limitation, the timely filing of

a federal information return with respect to the Bonds) so that the interest on the Bonds will be and remain excluded from gross income for federal income tax purposes, and will not take any actions which would adversely affect such exclusion. The Issuer has, therefore, covenanted to not intentionally use any portion of the proceeds of the Bonds to acquire higher yielding investments or to replace funds which were used directly or indirectly to acquire higher yielding investments, except as otherwise allowed under Sections 103 and 148 of the Code.

6. The Series 2003 B Bonds were sold on August 19, 2003, to the West Virginia Water Development Authority (the "Authority"), pursuant to a loan agreement dated May 5, 2003, by and between the Issuer and the Authority, for an aggregate purchase price of \$100,000 (100% of par value), at which time, the Issuer received the entire principal amount of the Series 2003 B Bonds (100% of par value), there being no interest accrued thereon.

On the date hereof, the Issuer has simultaneously issued its Sewer Revenue Bonds, Series 2003 A (West Virginia SRF Program), in the original principal amount of \$12,429,500 (the "Series 2003 A Bonds").

7. The Bonds are being delivered simultaneously with the delivery of this certificate and are issued for the purposes of (i) paying a portion of the costs of acquisition and construction of certain improvements and extensions to the existing public sewerage facilities of the Issuer (the "Project") and (ii) paying certain costs of issuance of the Bonds and related costs.

8. The Issuer shall, on the date hereof or immediately hereafter, enter into agreements which require the Issuer to expend at least 5% of the net sale proceeds of the Bonds for the acquisition and construction of the Project, constituting a substantial binding commitment, or has already done so. Acquisition and construction of the Project and allocation of the net sale proceeds of the Bonds to expenditures of the Project will commence immediately and will proceed with due diligence to completion, and, with the exception of proceeds constituting capitalized interest, if any, and proceeds deposited in the reserve account for the Bonds, if any, all of the proceeds from the sale of the Bonds, together with any investment earnings thereon, will be expended for payment of costs of the Project on or before December 1, 2004, except as otherwise required for rebate to the United States under Section 148(f) of the Code. Acquisition and construction of the Project is expected to be completed by September 1, 2004.

9. The total cost of the Project (including all costs of issuance of the Bonds) is estimated at \$12,779,500. Sources and uses of funds for the Project are as follows:

SOURCES

Gross Proceeds of the Series 2003 A Bonds	\$12,429,500.00
Gross Proceeds of the Series 2003 B Bonds	\$ 100,000.00
IJDC Grant	\$ 250,000.00
Total Sources	<u>\$12,779,500.00</u>

USES

Acquisition and Construction of Project	\$12,719,500.00
Cost of Issuance	\$ 60,000.00
Total Uses	<u>\$ 12,779,500.00</u>

Except for the proceeds of the Bonds and the Series 2003 A Bonds, no other funds of the Issuer will be available to meet costs of the Project, which would constitute "replacement proceeds" within the meaning of Treas. Reg. § 1.148-1(c), inasmuch as (i) the Issuer does not reasonably expect that the term of the Bonds is longer than is reasonably necessary for the governmental purposes of the Issuer, (ii) the weighted average maturity of the Bonds does not exceed 120% of the average reasonably expected economic life of the Project, and (iii) there are no amounts that have a sufficiently direct nexus to the Bonds or to the governmental purpose of the Bonds to conclude that the amounts would have been used for that governmental purpose if the proceeds of the Bonds were not used or to be used for that governmental purpose.

10. Pursuant to Article V of the Bond Resolution, the following special funds or accounts have been created or continued:

- (1) Revenue Fund (established by the Prior Resolutions);
- (2) Operation and Maintenance Fund (established by the Prior Resolutions);
- (3) Depreciation Fund (established by the Prior Resolutions);
- (4) Series 2003 B Bonds Construction Trust Fund;
- (5) Series 2003 B Bonds Rebate Fund;
- (6) Series 2003 B Bonds Sinking Fund; and

(7) Series 2003 B Bonds Reserve Account.

11. Pursuant to Article VI of the Bond Resolution, the proceeds of the Bonds will be deposited as follows:

(a) Series 2003 B Bonds proceeds in the amount of \$-0- shall be deposited in the Series 2003 B Bonds Sinking Fund, as capitalized interest.

(b) Series 2003 B Bonds proceeds in the amount of \$-0- shall be deposited in the Series 2003 D Bonds Reserve Account.

(c) The balance of the proceeds of the Series 2003 B Bonds shall be deposited in or credited to the Series 2003 B Bonds Construction Trust Fund for payment of the costs of the Project, including, without limitation, costs of issuance thereof and related costs.

The Issuer reasonably expects that (i) at least 85% of the net sale proceeds of the Bonds will be spent on the Project within 3 years from the date of issuance of the Bonds; (ii) within 6 months of the date of issuance of the Bonds the Issuer will incur a substantial obligation to a third party to expend at least 5% of the net sale proceeds of the Bonds on the Project, and (iii) completion of the Project and allocation of the net sale proceeds of the Bonds to expenditures of the Project will proceed with due diligence.

Prior to expenditure, the proceeds of the Bonds in the Series 2003 B Bonds Construction Trust Fund, if invested, will be invested at a yield not to exceed the yield on the Authority's bonds, the proceeds of which were used to make the loan to the Issuer. The Issuer will expend all proceeds of the Bonds on the costs of the Project as expeditiously as possible.

Except for "preliminary expenditures" as defined in Treas. Reg. § 1.150-2(f)(2), none of the proceeds of the Bonds will be used to reimburse the Issuer for costs of acquisition and construction of the Project previously incurred and paid by the Issuer with its own funds.

12. Monies held in the Series 2003 B Bonds Sinking Fund will be used solely to pay principal of and interest on the Series 2003 B Bonds, and will not be available to meet costs of acquisition and construction of the Project. Except to the extent transferred to the Rebate Fund at the request of the Issuer, all investment earnings on monies in the Series 2003 B Bonds Sinking Fund and the Series 2003 B Bonds Reserve Account will be withdrawn therefrom, not less than once each year, and, during construction of the Project, deposited into the Series 2003 B Bonds Construction Trust Funds, and following completion of construction of the Project, will be deposited in the Revenue Fund, and such amounts will be applied as set forth in the Bond Resolution.

13. Except for the Series 2003 B Bonds Sinking Fund and the Series 2003 B Bonds Reserve Account there are no other funds or accounts established or held by the Issuer which are reasonably expected to be used to pay debt service on the Series 2003 B Bonds, or which are pledged as collateral for the Series 2003 B Bonds and for which there is a reasonable assurance that amounts therein will be available to pay debt service on the Series 2003 B Bonds if the Issuer encounters financial difficulties. The Issuer does not expect that monies in the Depreciation Fund will be used or needed for payments upon the Bonds, and because such amounts may be expended for other purposes, there is no reasonable assurance that such amounts would be available to meet debt service if the Issuer encounters financial difficulties; thus, such amounts may be invested without yield limitation. Except as provided herein, no funds which have been or will be used to acquire directly or indirectly securities, obligations, annuity contracts, investment-type property or any residential rental property for family units which is not located within the jurisdiction of the Issuer and which is not acquired to implement a court ordered or approved desegregation plan or other investment property producing a yield in excess of the yield on the Bonds, have been or will be pledged to payment of the Bonds. Less than 10% of the proceeds of the Bonds, if any, will be deposited in the Series 2003 B Bonds Reserve Account and or any other reserve or replacement fund. The amounts deposited in the Series 2003 B Bonds Reserve Account from time to time by the Issuer will not exceed the maximum annual principal and interest on the Series 2003 B Bonds and will not exceed 125% of average annual principal and interest on the Bonds. Amounts in the Series 2003 B Bonds Reserve Account, not to exceed 10% of the proceeds of the Bonds, if invested, will be invested without yield limitation. The establishment of the Series 2003 B Bonds Reserve Account is required by the Authority, is vital to its purchase of the Bonds, and is reasonably required to assure payments of debt service on the Bonds.

14. The Issuer shall, on the date hereof or immediately hereafter, enter into contracts for the construction of the Project, and the amount to be expended pursuant to such contract exceeds 5% of the net sale proceeds of each series of Bonds.

15. Work with respect to the acquisition and construction of the Project will proceed with due diligence to completion. Acquisition and construction of the Project is expected to be completed within 13 months.

16. The Issuer will comply with the provisions of the Code, for which the effective date precedes the date of delivery of its Bonds to the Authority.

17. With the exception of the amount deposited in the Series 2003 B Bonds Sinking Fund for payment of interest on the Series 2003 B Bonds, if any, and amounts deposited in the Series 2003 B Bonds Reserve Account, if any, all of the proceeds of the Bonds will be expended within 16 months from the date of issuance thereof.

18. The Series 2003 B Bonds Sinking Fund (other than the Series 2003 B Bonds Reserve Account) is intended primarily to achieve a proper matching of payments of debt service on the Bonds each year. The Series 2003 B Bonds Sinking Fund (other than the Series 2003 B Bonds Reserve Account) will be depleted at least once a year except for a reasonable carryover amount not in excess of the greater of 1/12th of annual debt service on the Bonds, or 1 year's interest earnings on the Series 2003 B Bonds Sinking Fund (other than the Series 2003 B Bonds Reserve Account). Except as otherwise allowed, any money deposited in the Series 2003 B Bonds Sinking Fund for payment of the principal of or interest on the Bonds (other than the Series 2003 B Bonds Reserve Account) will be spent within a 13-month period beginning on the date of receipt and will be invested without yield limitation, and any monies received from the investment of amounts held in the Series 2003 B Bonds Sinking Fund (other than in the Series 2003 B Bonds Reserve Account) will be spent within a 1-year period beginning on the date of receipt.

19. All proceeds of the Bonds will be spent as expeditiously as possible.

20. The amount designated as cost of issuance of the Bonds consists only of costs which are directly related to and necessary for the issuance of the Bonds.

21. All property financed with the proceeds of the Bonds will be held for federal income tax purposes by (or on behalf of) a qualified governmental unit.

22. The Issuer shall file Form 8038-G in a timely fashion with the Internal Revenue Service Center, Ogden, Utah 84201.

23. No more than 10% of the proceeds of the Bonds will be used (directly or indirectly) in any trade or business carried on by, and less than 5% of the proceeds of Bonds or \$5,000,000 have been or will be used to make or finance loans to, any person who is not a governmental unit.

24. The original proceeds of the Bonds will not exceed the amount necessary for the purposes of the issue, except to the extent any such proceeds are required for rebate to the United States.

25. The Issuer shall use the Series 2003 B Bond proceeds solely for the costs of the Project, and the Project will be operated solely for a public purpose as a local governmental activity of the Issuer.

26. The Issuer shall not permit at any time or times any of the proceeds of the Bonds or any other funds of the Issuer to be used directly or indirectly in a manner which would result in the exclusion of the Bonds from treatment afforded by Section 103(a) of the Code by reason of classification of the Bonds as "private activity bonds" within the meaning of the Code. The Issuer will take all actions necessary to comply with the Code and the

Treasury Regulations promulgated or to be promulgated thereunder in order to assure that the interest on the Bonds is excluded from gross income for federal income tax purposes.

27. The Bonds are not, and will not be, in whole or part, directly or indirectly, federally guaranteed within the meaning of Section 149(b) of the Code.

28. The Issuer will rebate to the United States the amount, if any, required by the Code and take all steps necessary to make such rebates. In the event the Issuer fails to make such rebates as required, the Issuer shall pay the required rebate amount and any and all penalties and other amounts from lawfully available sources, and obtain a waiver from the Internal Revenue Service, if necessary, in order to maintain the exclusion of interest on the Bonds from gross income for federal income tax purposes.

29. The Issuer has retained the right to amend the Bond Resolution authorizing the issuance of the Bonds if such amendment is necessary to assure compliance with Section 148(f) of the Code or as may otherwise be necessary to assure the exclusion of interest on the Bonds from the gross income for federal income tax purposes of interest on the Bonds.

30. The Issuer shall comply with the yield restriction on Bond proceeds as set forth in the Code.

31. The Issuer has either (a) funded the Series 2003 B Bonds Reserve Account at the maximum amount of principal and interest which will mature and become due on the Bonds, in the then current or any succeeding year with the proceeds of the Bonds, or (b) created the Series 2003 B Bonds Reserve Account which will be funded with equal payments made on a monthly basis over a 10 year period until such Reserve Account holds an amount equal to the maximum amount of principal and interest which will mature and become due on the Bonds in the then current or any succeeding year. Monies in the Series 2003 B Bonds Reserve Account and the Series 2003 B Bonds Sinking Fund will be used solely to pay principal of and interest on the Bonds and will not be available to pay costs of the Project.

32. The Issuer shall submit to the Authority within 15 days following the end of each bond year a certified copy of its rebate calculation and a certificate with respect thereto or, if the Issuer qualifies for the small governmental issuer exception to rebate, or any other exception thereto, then the Issuer shall submit to the Authority a certificate stating that it is exempt from the rebate provisions and that no event has occurred to its knowledge during the bond year which would make the Bonds subject to rebate.

33. The Issuer expects that no part of the Project financed by the Bonds will be sold or otherwise disposed of prior to the last maturity date of the Bonds.

34. The Issuer covenants and agrees to comply with the rebate requirements of the Code if not exempted therefrom, and with all other requirements of the Code necessary, proper or desirable to maintain the tax-exempt status of the Bonds and the interest thereon. In addition, the Issuer has covenanted to comply with all Regulations from time to time in effect and applicable to the Bonds as may be necessary in order to fully comply with Section 148(f) of the Code, and has covenanted to take such actions, and refrain from taking such actions, as may be necessary to fully comply with such Section 148(f) of the Code and such Regulations, regardless of whether such actions may be contrary to any of the provisions of the Resolution authorizing issuance of the Bonds.

The Issuer has further covenanted to calculate, annually, the rebatable arbitrage, determined in accordance with Section 148(f) of the Code. Upon completion of each such annual calculation, unless otherwise agreed by the Authority, the Issuer shall deposit, or cause to be deposited, in the Rebate Fund such sums as are necessary to cause the aggregate amount on deposit in the Rebate Fund to equal the sum determined to be subject to rebate to the United States, which shall be paid from investment earnings on the underlying fund or account established hereunder and on which such rebatable arbitrage was earned or from other lawfully available sources. The Issuer has further covenanted to pay, or cause to be paid, to the United States, from the Rebate Fund, the rebatable arbitrage in accordance with Section 148(f) of the Code and such Regulations. The Issuer shall remit payments to the United States in the time and at the address prescribed by the Regulations as the same may be from time to time in effect with such reports and statements as may be prescribed by such Regulations. In the event that, for any reason, amounts in the Rebate Fund are insufficient to make the payments to the United States which are required, the Issuer shall assure that such payments are made by the Issuer to the United States, on a timely basis, from any funds lawfully available therefor.

35. The Bonds are a fixed yield issue. No interest or other amount payable on the Bonds (other than in the event of an unanticipated contingency) is determined by reference to (or by reference to an index that reflects) market interest rates or stock or commodity prices after the date of issue.

36. None of the Bonds has a yield-to-maturity more than one-fourth of one percent higher than the yield on the Bond determined by assuming the Bond is retired on the date that when used in computing the yield on the Bond produces the lowest yield.

37. No portion of the proceeds of the Bonds will be used, directly or indirectly, to acquire higher yielding investments, or to replace funds which were used, directly or indirectly, to acquire higher yielding investments, all within the meaning of Section 148 of the Code.

38. Other than the Series 2003 A Bonds, there are no other obligations of the Issuer which (a) are to be issued at substantially the same time as the Bonds, (b) are to be sold

pursuant to a common plan of financing together with the Bonds and (c) will be paid out of substantially the same sources of funds or will have substantially the same claim to be paid out of substantially the same sources of funds as the Bonds.

39. The transaction contemplated herein does not represent an exploitation of the difference between taxable and tax-exempt interest rates and the execution and delivery of the Bonds is not occurring sooner than otherwise necessary, nor are the Bonds in principal amounts greater than otherwise necessary or to be outstanding longer than otherwise necessary.

40. On the basis of the foregoing, it is not expected that the proceeds of the Bonds will be used in a manner that would cause the Bonds to be "arbitrage bonds" within the meaning of Section 148 of the Code.

41. To the best of my knowledge, information and belief, there are no other facts, estimates and circumstances which would materially change the expectations herein expressed.

42. Steptoe & Johnson PLLC is entitled to rely upon the representations, expectations, covenants, certifications and statements contained herein in rendering its opinions regarding the tax-exempt status of interest on the Bonds.

43. To the best of my knowledge, information and belief, the foregoing expectations are reasonable.

WITNESS my signature on this 19th day of August, 2003.

THE PETITION OF THE PEAK RIDGE PUBLIC SERVICE DISTRICT, A PUBLIC CORPORATION, AND THE PETITION OF APPROXIMATELY ONE HUNDRED PROPERTY OWNERS TO REVISE AND CHANGE THE BOUNDARY LINE OF THE TERRITORY EMBRACED IN THE PEAK RIDGE PUBLIC SERVICE DISTRICT, PURSUANT TO ARTICLE 13A OF CHAPTER 16 OF THE CODE OF WEST VIRGINIA, AS AMENDED.

TO THE COUNTY COURT OF CABELL COUNTY, WEST VIRGINIA.

THE PEAK RIDGE PUBLIC SERVICE DISTRICT, a public corporation, duly created by the County Court of Cabell County, West Virginia, pursuant to Chapter 16 of the West Virginia Code and the property owners who have signed the petition attached hereto, do hereby petition the County Court of Cabell County, West Virginia, to revise and change the boundary lines of the said territory limits by adding the territorial limits described below pursuant to the provisions of Article 13A of Chapter 16 of the Code of West Virginia, as amended:

Beginning at the Southeast Monck Park Public Service District Line where it strikes the Guyandotte River, thence with the south side of the said Guyandotte River and with its meanders in an easterly direction to the west line of the Peak Ridge Public Service District at Russell Creek, thence continuing with the westerly line of Peak Ridge Public Service District in a southerly direction to Campbell Park, thence in a westerly direction meandering along the north watershed to the east line of Monck Park Public Service District line, thence in a northerly direction with the easterly line of Monck Park Public Service District to the place of beginning.

The purpose of the changes in the territorial limits of the Peak Ridge Public Service District is to enable the said Peak Ridge Public Service District to construct or acquire by purchase or otherwise, and maintain, operate, improve and extend properties and sewage service within said territory and also outside such territory to the extent permitted by law.

The petitioners represent to the County Court that this additional area can best be served by the Peak Ridge Public Service District and that such service can be furnished more economically than an independent public service district.

The territory described above does not include within its limits the territory of any other public service district organized under the law hereinbefore referred to, nor does such territory include within its limits any city, incorporated town or other municipal corporation.

The undersigned petitioners will, upon demand, deposit with the County Court of Cabell County, the costs of publication of the notice of public hearing as required by law.

F. H. Milam, Inc., Consulting Engineers, 1214 Myers Avenue, Dunbar, West Virginia, prepared a map embracing the territory to be annexed and added to the Pea Ridge Public Service District which is described hereinaabove. A copy of the said map is hereto attached and made part of this petition.

WHEREFORE, the petitioners request the County Court of Cabell County, to revise and change a boundary line of the Pea Ridge Public Service District in accordance with this petition.

Signed this 20 day of April, 1965.

PUBLIC SERVICE COMMISSION
OF WEST VIRGINIA
CHARLESTON

02-1213-PSD-CN v.p.d

Entered by the PUBLIC SERVICE COMMISSION OF WEST VIRGINIA in the City of Charleston on the 16th day of August, 2002.

CASE NO. 02-1213-PSD-CN
PEA RIDGE PUBLIC SERVICE DISTRICT
P.O. Box 86
Barboursville, Cabell County 25504-0086

Application for a Certificate of Convenience and Necessity for the addition and replacement of new lines, to construct lift stations, to upgrade existing lift stations, to install manholes, to abandon a aerated lagoon and the Richmond Sewer Treatment Plant, to upgrade two existing wastewater treatment plants and to construct an office building and for approval of an Interutility Agreement with the City of Huntington.

NOTICE OF FILING

WHEREAS, on August 16, 2002, Pea Ridge Public Service District, a public utility, filed an application, duly verified, for a Certificate to construct certain additions and improvements to the District's wastewater treatment system in Cabell County. The application is on file with and available for public inspection at the Public Service Commission, 201 Brooks Street, in Charleston, West Virginia.

WHEREAS, Pea Ridge Public Service District estimates that construction will cost approximately \$12,323,400. It is proposed that the construction will be financed as follows: the issuance of Revenue Bonds through the West Virginia State Revolving Fund in an amount not to exceed \$12,223,400 and a loan from the Water Development Authority in an amount not to exceed \$100,000.

WHEREAS, the utility anticipates charging the following monthly service rates for its customers:

APPLICABILITY

Applicable in entire territory served.

AVAILABILITY OF SERVICE

Available for domestic, commercial, industrial (except unusual industrial waste) and resale service.

First	300 cubic feet per month	\$6.75 per 100 cubic feet
Next	3,700 cubic feet per month	\$6.00 per 100 cubic feet
All over	4,000 cubic feet per month	\$5.45 per 100 cubic feet

MINIMUM MONTHLY BILL for 300 cubic feet is \$20.25 per month.

UNMETERED RATE for 602 cubic feet is \$38.37 per month.

CONNECTION CHARGE

During construction — \$0.00

After construction passes the premises to be served,
charge for connection to system \$300.00

DELAYED PAYMENT PENALTY

The above tariff is net. On all accounts not paid in full within twenty (20) days of the latest pay date, ten per cent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

WATER DISCONNECT-RECONNECT-ADMINISTRATIVE FEES

Whenever water service has been disconnected for non-payment of sewer bills, a disconnection fee of \$20.00 shall be charged, or in the event the delinquent sewer bill is collected by the WVAWC in the field, an administrative fee of \$20.00 shall be charged. A \$20.00 reconnection fee will be assessed for each occurrence where water service to sewer customers is restored, after water service has been terminated for non-payment of sewer bills.

RETURNED CHECK CHARGE

If a check received is returned by the bank for any reason, the bank's charge to the District shall be the District's charge to the customer for such returned check and under no circumstances shall the fee collected by the District exceed \$20.00.

LEAK ADJUSTMENT INCREMENT \$4.08 per 100 cubic feet

To be used when the bill reflects unusual consumption which can be attributed to eligible leakage on customer's side of the meter. This rate is used to calculate consumption above the customer's historical average usage.

SURCHARGE FORMULA TO BE APPLIED IN CASES WHERE SURFACE DRAINAGE IS CONNECTED TO THE DISTRICT'S SANITARY SEWER SYSTEM

Where the District has discovered that a customer's roof drain, down spouts, storm sewer or other similar facilities conducting surface water have been connected to the District's sewer system, and such customer has failed to take appropriate action, within thirty (30) days of receipt of a demand by the District in accordance with the Rules and Regulations of the Public Service Commission, to eliminate such connection, a surcharge will be imposed upon the customer calculated on the basis of the following formula:

$$S = A \times R \times .006233 \times C$$

S The surcharge in dollars

A The area under roof and/or the area of any other water collection surface connected to the sanitary sewer, in square feet

R The measured monthly rainfall, inches

.006233 A conversion factor to change inches of rain x square feet of surface to thousands of gallons of water (7.481 converts to cubic feet)

C The District's approved rate per hundred cubic feet of unmetered water usage.

The District shall not impose the surcharge unless and until the customer has been notified by Certified Mail, Return Receipt Requested, or by hand delivery, that it has been established by smoke testing, dye testing, or on-site inspection that rain or other surface water is being introduced into the sanitary sewer system at the customer's location, and that the customer has not acted within thirty (30) days from receipt of such notice to divert the water from the sanitary sewer system.

Said surcharge shall be calculated and imposed for each month that said condition continues to exist. Failure to pay the surcharge and/or correct the situation shall give rise to the possible termination of water service in accordance with the Rules and Regulations of the Public Service Commission of West Virginia.

SURCHARGE FORMULA TO BE APPLIED IN THE CASE OF USERS PRODUCING UNUSUAL WASTE

The charge for the treatment of unusual waste will be calculated on the basis of the following formula:

$$Ci = VoVi + BoBi + SoSi$$

Ci Charge to unusual users per year

Vo Average unit cost of transport and treatment chargeable to volume, in dollars per gallon

Vi Volume of waste water from unusual users, in cubic feet per year

Bo Average unit cost of treatment, chargeable to Biochemical Oxygen Demand

(BOD) in dollars per year

Bi Weight of BOD from unusual users, in pounds per year

So Average unit costs of treatment (including sludge treatment chargeable to total

solids, in dollars per pound)

Si Weight of total solids from unusual users, in pounds per year

When an unusual user is to be served, a preliminary study of its wastes, and the cost of transport and treatment thereof, will be made. Waste containing material which, in judgement of the Pea Ridge Public Service District, should not be introduced into the sewer system need not be handled by it. The results of this preliminary study will be used to determine the feasibility of the proposed sewer service and the charge thereof, based upon the formula set out above. Thereafter, unusual sewage will be monitored on a regular basis and at the conclusion of each fiscal year, based on the investigation aforesaid and audit of the Pea Ridge Public Service District records, new cost figures will be calculated for use in the above formula. The cost of establishing the monitoring facilities shall be paid by the unusual user. Based on these audited figures, additional billings covering the past fiscal year will be made for payment by each unusual user, or refund given by the Pea Ridge Public Service District, as the case may be. Such audited figures will then be used for the preliminary billing for the next fiscal year, at the end of which an adjustment will be made as aforesaid.

Comment — Not part of the rate schedule: This schedule is included on an if and when basis.
APPLICABLE INSIDE AND OUTSIDE OF THE CORPORATE LIMITS OF PEA RIDGE PSD

Where the amount of sanitary sewage discharged into the Pea Ridge wastewater collection and/or transmission and/or treatment system by certain industrial plant or plants cannot be accurately determined by the use of the plant's water meter or meters, and said plant cannot install a flow meter to measure such waste, a special formula will be used whereby such plant or plants will pay to the Pea Ridge Public Service District a sewer charge calculated at fifty (50) gallons (7.481 converts to cubic feet) of water per each employee at the plant each working day.

This schedule is included on an if and when basis.

APPLICABILITY

Applicable in entire territory served.

AVAILABILITY OF SERVICE

Available for wastewater and leachate haulers.

RATES

COMMODITY CHARGE — Each hauler shall pay a commodity charge of \$10.00 per 1,000 gallons per load. Load will be two times the actual capacity of the truck or other transport method delivering wastewater and leachate. Load will be determined or agreed to by the District.

DELAYED PAYMENT PENALTY

The above tariff is net. On all current usage billings not paid within twenty (20) days, ten per cent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

RETURNED CHECK CHARGE

If a check received is returned by the bank for any reason, the bank's charge to the District shall be the District's charge to the customer for such returned check and under no circumstances shall the fee collected by the District exceed \$20.00.

These rates represent the following project-related increases:

	(\$) INCREASE	(%) INCREASE
Residential and Commercial	\$14.43	60.6%

These rates represent the following proposed interim rates:

RATES

First 300 cubic feet used per month	\$5.03 per 100 cubic feet
Next 3,700 cubic feet used per month	\$4.48 per 100 cubic feet
All over 4,000 cubic feet used per month	\$4.09 per 100 cubic feet

MINIMUM BILL

Each customer shall pay a minimum bill of \$15.09 per month

UNMETERED RATE

A flat fee of \$28.62, based on 602 cubic feet of water usage per month, will be charged for all unmetered water customers.

SERVICE CONNECTION CHARGE

\$300.00

DELAYED PAYMENT PENALTY

The above tariff is net. On all current usage billings not paid within twenty (20) days, ten per cent (10%) will be added to the net current amount unpaid. This delayed payment penalty is not interest and is to be collected only once for each bill where it is appropriate.

These rates represent the following non-project related increases:

	(\$) INCREASE	(%) INCREASE
Residential and Commercial	\$4.73	19.8%

The District has no resale customers.

The proposed increased rates and charges will produce approximately \$1,074,491 annually in additional revenue over current, an increase of 78.5%.

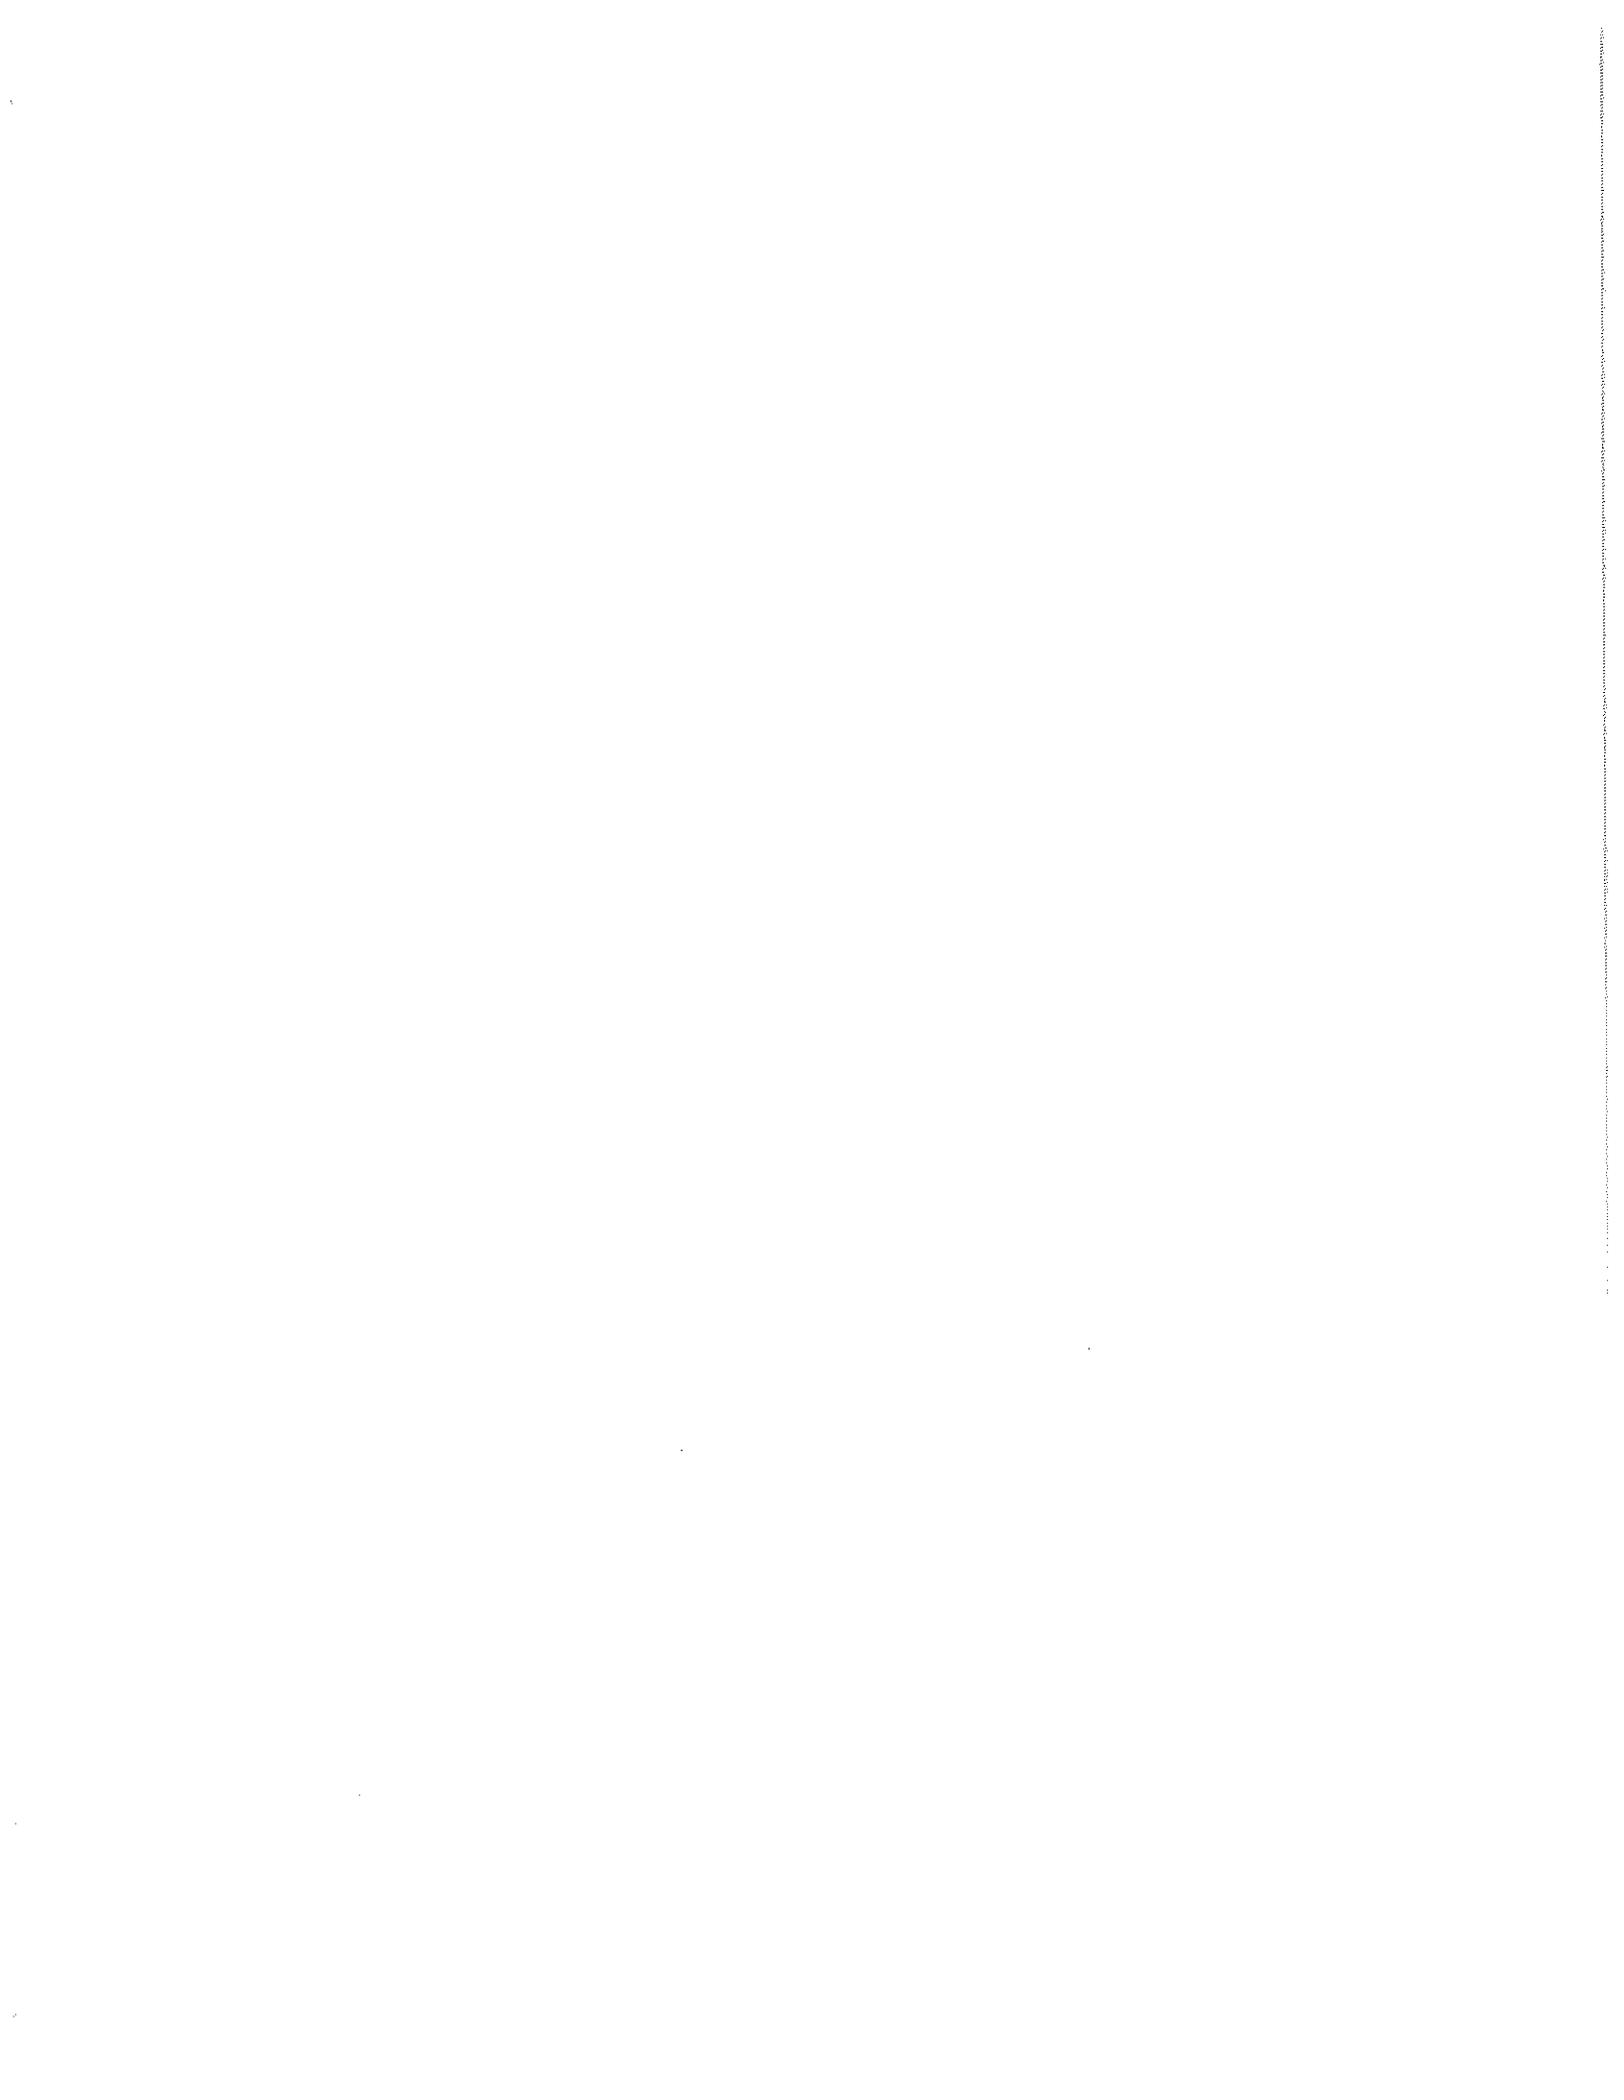

The increases shown are based on averages of all customers in the indicated class. Individual customers may receive increases that are greater or less than average. Furthermore, the requested rates and charges are only a proposal and are subject to change (increases or decreases) by the Public Service Commission in its review of this filing.

Regular Board Meeting Minutes: February 10, 2003

The regularly scheduled monthly meeting of Pea Ridge P.S.D. took place at the Barboursville Community Center, Barboursville, WV on Monday, February 10, 2003.

Chairman Michael Seaton called the meeting to order at 4:30 p.m. Those present included Chairman Michael Seaton, Vice-Chairman Charles Woolcock, Sec/Treas. Chet Porter, Dist. Mgr. Dina Foster, Office Mgr. Sue Miers, Field Supr. Richard Secrest, Attorney Ron Flora, Woody Thrasher of Thrasher Eng., visitors Ron and Brenda Sizemore, Larry and Katrina Caserta.

Approval of January 13, 2003 Board Minutes:

Copies of the Board Minutes were provided to each Board Member at an earlier time for their consideration. A motion was made by C. Woolcock to approve the minutes as written, with a second by C. Porter. Motion carried.

Election of Officers of the Board:

Presently Pea Ridge P.S.D. officers are as follows: Chairman Michael T. Seaton, Vice-Chairman Charles R. Woolcock, and, Secretary Treasurer Chet Porter. A motion was made by C. Porter stating a desire for all officers to remain as they presently are. All officers were in agreement. A second was given by C. Woolcock. Motion carried.

Financial Update:

Copies of all new purchase journals, an Accts. Payable Aged Trial Balance ending January 31, 2003, as well as unaudited financial statements for January 31, 2003 were supplied to Board Members at an earlier date for their consideration. Also supplied and reviewed was the Monthly Financial Report. It was noted that the requested adjustment to Accts. Payable and General Ledger had been made as of the new statements, balancing those accounts. Also completed were changes requested by C. Woolcock to the arrangement of "Cash on Hand" on the Balance Sheet.

Accounts Payable:

Payables were provided to each board member for their review. A motion was made by C. Woolcock to pay as able, with a second by C. Porter, motion carried.

Adjustments to Sewer Bills:

Per C. Porter a suggestion was made to look into the possibility of allowing adjustments to customers who leave water running in their faucets during cold weather, thus keeping their pipes from freezing. It was decided that R. Flora would check with Michael Griffith to be sure what the District's position would be on that subject. It was noted that to make this provision there would probably need to be a change in the way the District's tariff was written. The subject will be addressed at the next regularly scheduled board meeting.

Visitors:

It was noted that there were no visitors at this meeting.

Health Insurance:

In attendance were Larry and Katrina Caserta as well as Ron and Brenda Sizemore. Presentation was made of a health care plan to be considered as an alternative to the District's presently held insurance coverage by Blue Cross Blue Shield. Further investigation is to be done by PRPSD and its board members in consideration of the stated proposal. No decision was made at this time.

Easements and Project Update:

Discussed was the discrepancy between project easements actually received by PRPSD and those that Triple Cross Trucking has stated were obtained. R. Flora and D. Foster have established that in hand we have a total of 380 signed easements. To reach the necessary 80% that would allow us our 0% monies we need to obtain an approximate 260 additional signatures. Should those signatures not be in hand by our March 2003 deadline the District will lose the 0% monies presently set aside for its project.

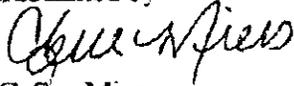

It was requested by the board that a registered letter be written and sent to Triple Cross Trucking and its officers by R. Flora. The letter is to state that if the full 80%, 260 additional easements, are not in PRPSD possession by 5:00 p.m. on Monday, February 24, 2003, that legal action will be taken by Pea Ridge P.S.D., there will be a termination of services with Triple Cross Trucking and no further payment would be made by PRPSD. This letter is to be faxed to Pea Ridge Tuesday morning, Feb. 11, 2003 for review by C. Woolcock. It was suggested that the officers of Triple Cross Trucking be named in the letter and that the letter be mailed or hand delivered to Juanita Ferguson at the Cabell County Courthouse as soon as possible. A motion was made by C. Woolcock with a second by M. Seaton for this letter to be written, motion carried.

As requested by the board at the January 13, 2003 meeting a full report was presented by R. Secrest regarding grease traps in the district. It was reported that all grease traps had been inspected in the last month. The majority were in satisfactory condition with only a couple not being cleaned. In addition nine traps were found to be less than 1000 gallons in size. The district will follow up with letters to restaurant owners requesting adequate size and cleaning.

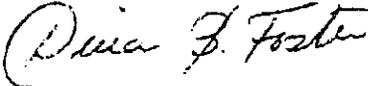

PEA RIDGE P.S.D. BOARD MINUTES FEBRUARY 10, 2003 PG. 3

There being no further business to discuss, the meeting was adjourned at 6:30 p.m.

The regularly scheduled monthly meeting of the Pea Ridge PSD took place at the Barboursville Community Center, Barboursville, WV on Monday, May 12, 2003.

Chairman Michael Seaton called the meeting to order at 4:30 pm. Those present included Chairman Michael Seaton, Vice-Chairman Charles Woolcock, Newly appointed Board Member Franklin Sampson, District Manager Dina Foster, Attorney Ron Flora, Woody Thrasher, of Thrasher Engineering, John Stump of Steptoe & Johnson, and Gregory B. Isaacs of Crews and Associates.

The first order of business was the Welcome and introduction of the District's new Board Member, Frank Sampson by Chairman Seaton, C. Woolcock added that he was glad to have him and was pleased that the County Commission saw fit to appoint him to the Board. C. Woolcock made the motion that Frank Sampson be appointed Secretary / Treasurer of the Board, M. Seaton seconded the motion, motion carried.

A motion was made by M. Seaton to sign the bank signature cards and resolution adding Frank Sampson and removing Chet Porter. New Bank signature cards were signed by all Board Members.

Approval of the April 3, 2003 Regular Board Meeting minutes and the May 2, 2003 Special Board Meeting Minutes: Copies of the April 3, 2003 meeting were sent to all Board Members for their consideration. A motion was made by C. Woolcock to approve these minutes, second by M. Seaton, motion carried. Copies of the May 2, 2003 special meeting minutes were presented to the Board at the meeting. C. Woolcock made a motion to accept the May 2, 2003 board meeting minutes, second by M. Seaton, motion carries.

Financial Update: Copies of all purchase journals, Accts. Payable Aged Trial Balance ending April 30, 2003, unaudited financial statements for April 30, 2003, as well as a list of the manual checks written since the last meeting were supplied to the Board Members at an earlier date. The Board requested a list that showed all the checks with a total. It was noted that the District is in much better financial condition since the rate increase. Ron Flora noted that the condemnations are ready to go. We are holding \$20,000 back in the checking for condemnations. D. Foster informed the Board of the failure of one of the columns supporting an aerial 8" main line in Tallwood. Richard and

the field people were working on correcting the problem. This may be a costly repair. C. Woolcock made a motion to pay invoices as money allows, M. Seaton seconded, motion carried.

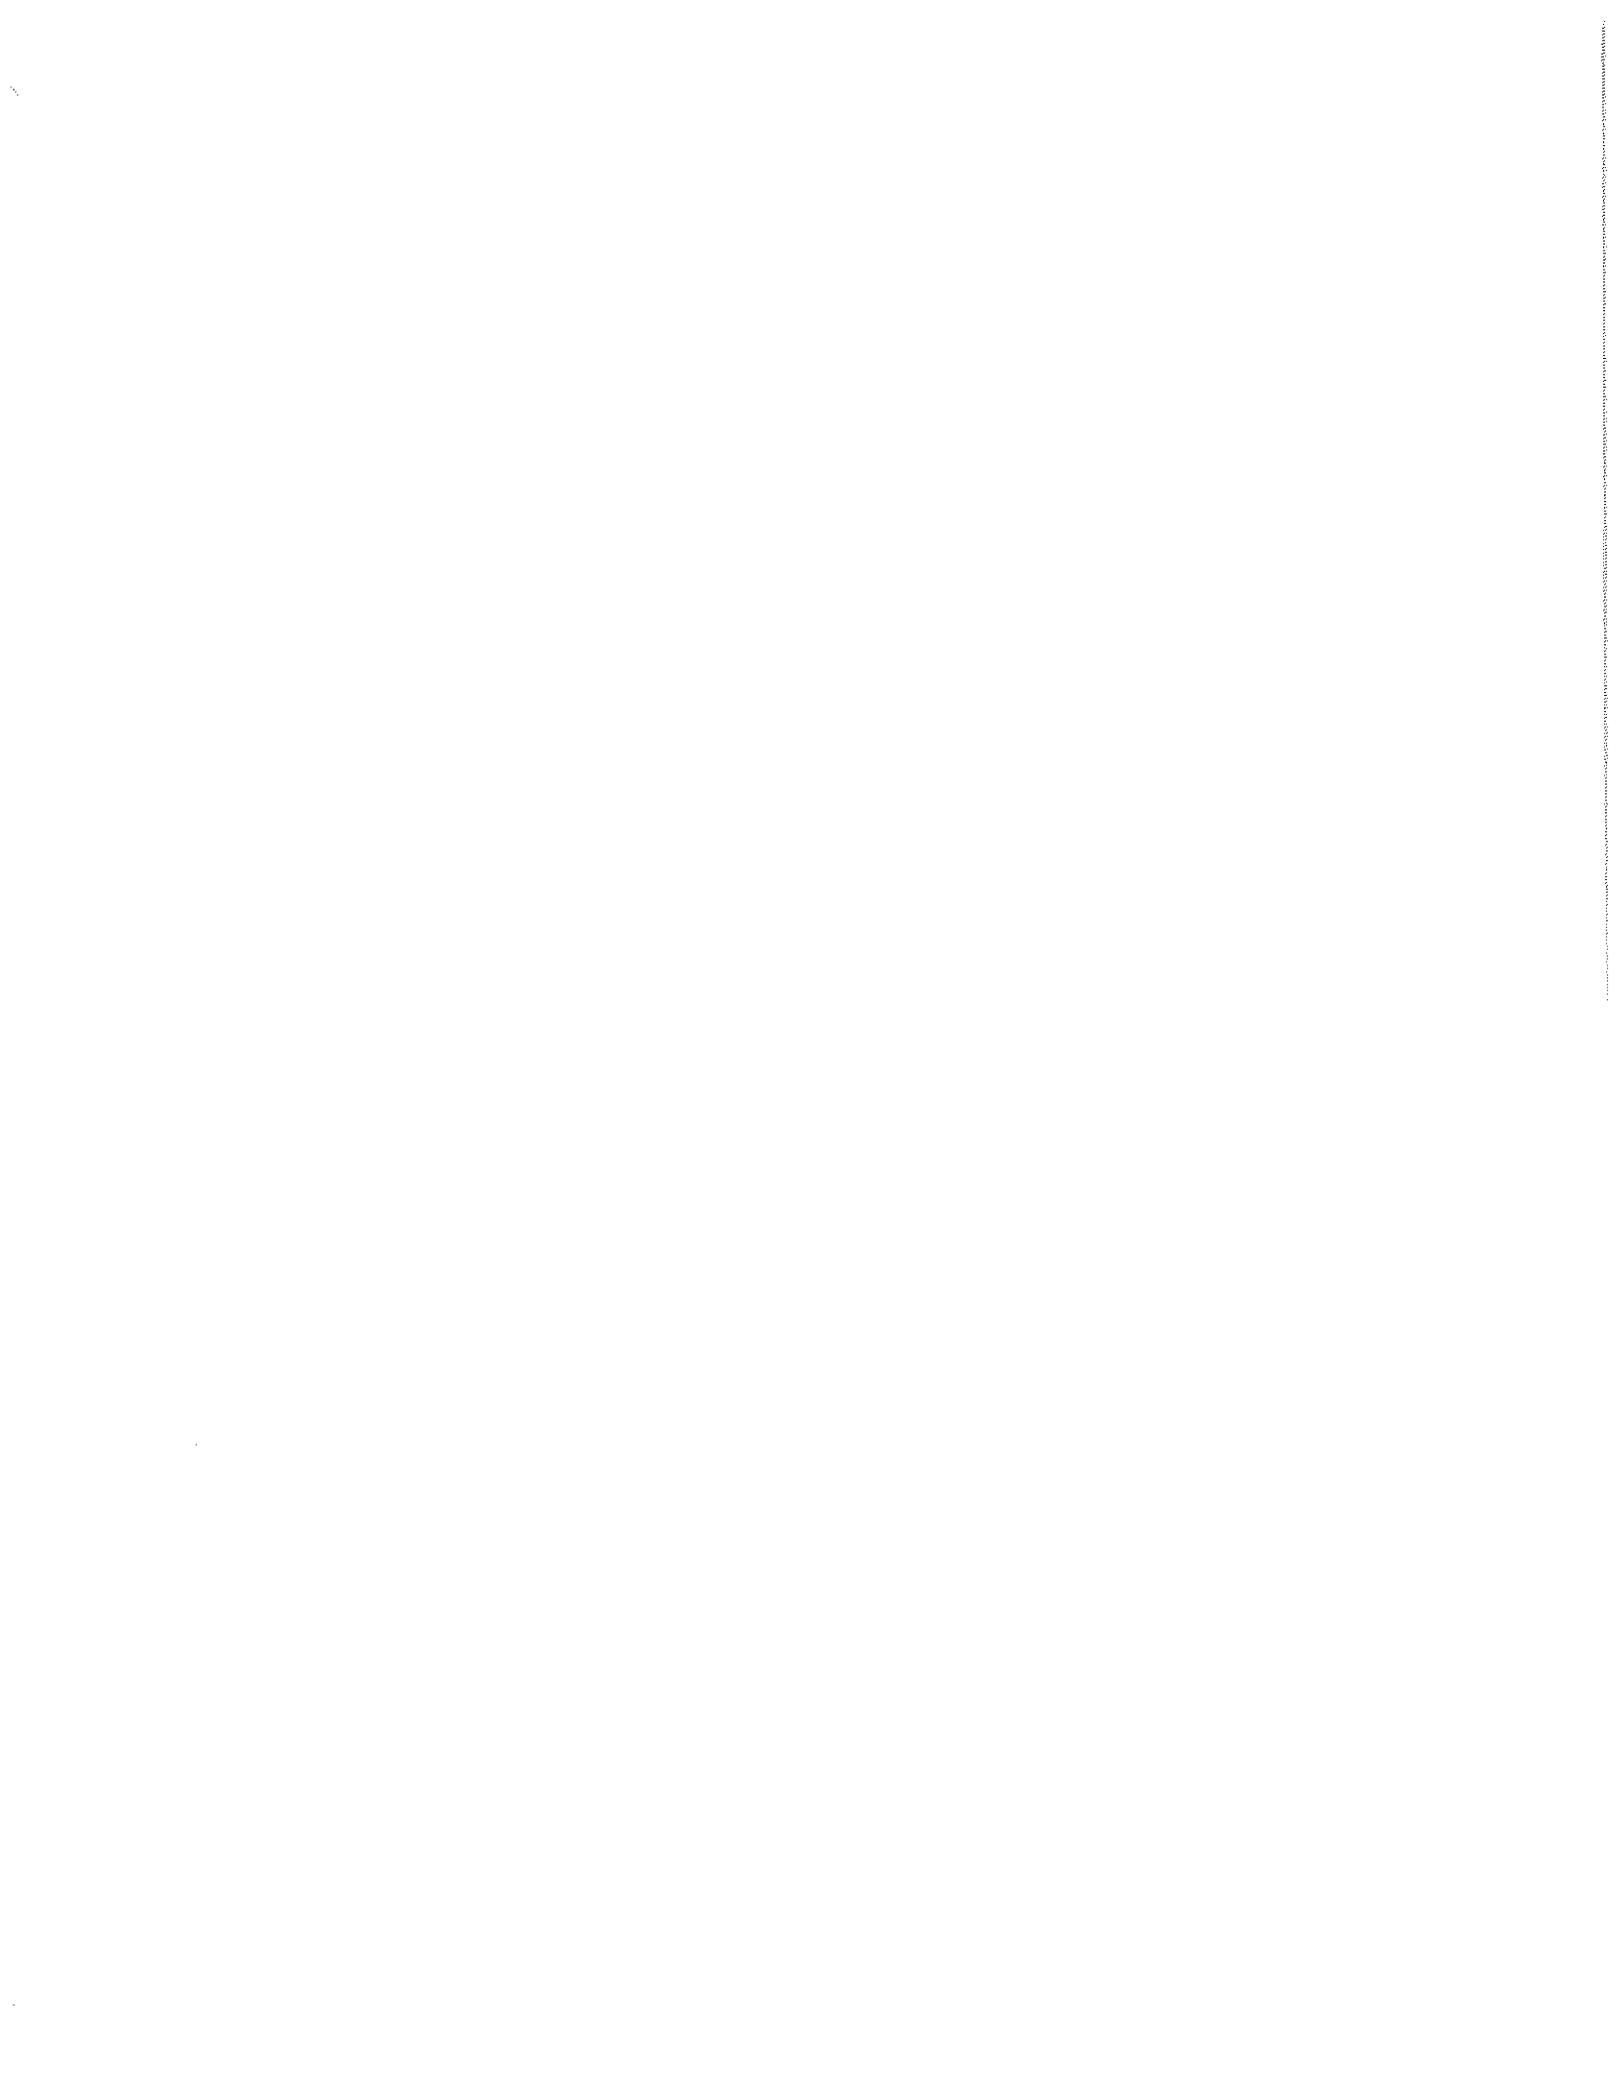

Project Update: R. Flora informed the Board that all the condemnations for the pump stations are ready to be filled. The rest of the easements and pump stations are in various stages of negotiation. Letters are being sent to approximately 33 people on easements. The Nelson station site has been secured. Appraisals for the easements will cost \$200 per property. Woody Thrasher informed that we had a pre-bid conference on May 8, 2003. Bids will be received on May 29, 2003 at 1:00pm. There was a good turnout of contractors at the pre-bid. Estimating closing in beginning of August. Bid results will be presented at June Board meeting. C. Woolcock suggested that once bids are received, a spread should be put in the paper informing the customers.

Bond refinancing: Bond Counsel John Stump, introduced Gregory Isaacs of Crews & Associates. John had been approached by this company concerning the refinancing of Pea Ridge PSD's 1994 bonds. Mr. Isaacs presented a proposal showing an average yearly savings of approximately \$14,000 if the District refinanced the 1994 Bond with today's favorable interest rates. It was noted that this is a true savings after all refinancing costs have been paid. It was J. Stump's opinion that this was a good thing, but that time was of the essence because interest rates may go back up. After reviewing the proposal and discussion, it was the Board's opinion that this was worth pursuing. A motion was made by C. Woolcock authorizing Ron Flora to file a petition for the refinancing with the Public Service Commission, to be verified by D. Foster, for the purpose of getting the process started. Second by F. Sampson, motion carries.

Employee Uniforms: D. Foster had a meeting with the District's employees. At the top of the list of concerns with the field employees was the need for uniforms and boots. The district currently has a contract with Unifirst for long sleeve shirts for the field employees. This contract will run out in 2006. Unifirst has agreed to reduce the weekly charge from \$52.00 to \$24.00 for the Summer months. D. Foster presented a proposal to purchase six shirts and six Jeans, and one pair of boots for each field employee. Also, to purchase four (4) shirts for each of the office employees. Shirts to be purchased from Hometown Sportswear at \$12.00 for the field employees, and \$14.00 for the office. Total cost for the proposed clothing is \$2666.00. C. Woolcock made a motion to approve the clothing proposal as presented. This is to last until the end of 2003. The Board will decide on a policy for clothing allowance for next year. Second by F. Sampson, motion carried.

C. Woolcock suggested that all taps and applications for service be brought before the Board for approval. F. Sampson to get with Dina on current procedures and any changes.

There being no further business, the meeting was adjourned at 6:00pm. Motion to adjourn by C. Woolcock, second by M. Seaton, motion carries.

FOR MUNICIPAL BOND COMMISSION USE ONLY:
DOCUMENTS REQUIRED: _____
TRANSFERS REQUIRED: _____

The purpose of the NEW ISSUE REPORT FORM is to provide the WV Municipal Bond Commission with an early warning of three basic facts no later than the day of closing on any issue for which the Commission is to act as fiscal agent. These are:

1. Formal notification that a new issue is outstanding.
2. Date of first action or debt service.
3. Contact people should we lack documents, information, or funds needed to administer the issue by the date of the first action or debt service.

The commission recognizes that as bond transcripts become increasingly long and complex, it has become more difficult to assemble and submit them to the Commission within the 30 days specified by the West Virginia Code 13-3-8. This notice is not intended to provide all the information needed to administer an issue, but to alert the Commission and ensure that no debt service payments are missed due to delays in assembling bond transcripts. If, at the time of closing, documents such as the ordinance and all supplements, debt service schedules, and a specimen bond or photostat are available and submitted with this form, it will greatly aid the Commission in the performance of its duties. These documents are needed to set up the proper accounts and to advise the issuer of monthly deposit requirements as far in advance of the first debt service as possible.

It is not necessary to complete all items if they are not pertinent to your issue. Indicate the County of the issuer. With PSDs that overlap more than one county, indicate the county of their business office. Complete "Rate" only if the issue has only one rate. Please complete a separate form for each series of an issue. Other important information can be recorded under "Notes."

Again, please submit this form on each new issue on the day of closing. If fund transfers into or out of the Commission at closing are required, please submit this form before closing. If no significant facts change by closing, no resubmission at closing is required. If, however, there are changes, please submit an updated form, with changes noted, at closing.

If you should have any questions concerning this form, please call the Commission.

OPERATION AND MAINTENANCE RESPONSIBILITIES

The HSB shall be responsible for the proper treatment and disposal of the DISTRICT's sewage after it is discharged into the HSB facilities, provided that such sewage discharge is in compliance with provisions of this Agreement.

The HSB shall have the right to promulgate, issue, publish, and enforce rules and regulations governing its activities and carrying into effect the provisions of this Agreement. Such rules and regulations may include provisions prohibiting or regulating certain discharges into the HSB facilities which may be harmful to the HSB facilities. To the extent that the HSB may not be empowered to enforce its rules and regulations within the areas of the DISTRICT's sewer system, the DISTRICT shall adopt and enforce such rules and regulations to the extent empowered by law.

ARTICLE III

PROVISIONS FOR CONNECTION

The HSB agrees to accept for treatment, and the DISTRICT agrees to deliver for treatment, the sewage flow generated from the DISTRICT sewage collection system, subject to the following limitations:

1. Connection Location

The DISTRICT's sewage collection system shall connect to the HSB's facilities at mutually

acceptable locations.

2. Ownership of Facilities

All sewage collection facilities built by the DISTRICT within its service territory shall remain under title and ownership of the DISTRICT. The HSB will grant the DISTRICT a perpetual easement for the construction, maintenance and operations of that section of the DISTRICT transmission main and flow metering facilities, which are located on property owned by the HSB, and used to deliver and meter the sewage from the DISTRICT collection system to the HSB's facilities and are constructed pursuant to this agreement.

3. Flow Monitoring Requirements

The DISTRICT agrees to install and maintain flow monitoring equipment at each point of connection to the HSB system. The type of flow monitoring equipment will be mutually agreed to by both parties and will have the capacity to continually measure and record the volume of sewage contributed to the HSB Facilities from the sewer system. This flow monitoring equipment will consist of a flow metering device, a flow indicator, a recorder and totalizer at the point of connection and provide the necessary telemetering and recording equipment to transmit the flow signal to the HSB'S treatment plant. The cost of the flow monitoring and telemetering equipment shall be the responsibility of the DISTRICT. In the event of a failure of any portion of the flow measuring or telemetering system, the DISTRICT shall make the necessary repairs as soon as possible. If there is any significant difference between the totalizer readings at the connection point and at the HSB plant, the totalizer at the point of discharge shall be used for determining service charges. If measured flow data is not available due to faulty registration, breakdown or other reasons, the DISTRICT flow contribution shall be estimated based upon the arithmetic average of the last three (3) meter readings, adjusted to reflect any increase or decrease in flow resulting from new taps, shut-offs or rainfall. Adjustments shall be based upon the previous twelve months flow data. The DISTRICT and the HSB shall have the accuracy of their respective flow meters tested by a qualified factory-authorized technician at least once a year. Each party shall notify the other at least 48 hours in advance of the time and date when tests are scheduled in the event that either party should wish to I. have a representative present for the test. The HSB and the DISTRICT shall have the right to inspect and check the accuracy of the flow meters at their own expense at any time they may desire during the year. Each party

shall notify the other party at least 48 hours in advance of such testing, so that they may arrange to have a representative present if so desire. Each party will provide the other party complete access to the flow meter installations during normal business hours for the purpose of such inspection and testing.

4. Construction Standards

The DISTRICT agrees to design and construct the proposed sewage collection facilities, and any additions thereto, in accordance with accepted standard of good engineering practice and the applicable WV DEP and WV Department of Health design standards in effect at such time. the DISTRICT agrees to provide the HSB a complete set of as-constructed documents for the sewer system that will be constructed pursuant to this Agreement. The plans submitted shall show the exact location of the proposed connection to the HSB facilities as well as the required flow metering and telemetering equipment. The HSB shall only have the right to review and approve such plans with respect to the physical connection into the HSB facilities and the required flow metering and telemetering equipment. The construction of the connection as well as the installation of the flow monitoring device will be subject to inspection and approval of the HSB.

5. Prohibited Wastes

The DISTRICT agrees not to permit or allow the discharge of any wastes or waters into their sewer system which will interfere with the operation and maintenance of the HSB Wastewater Treatment Plant. The DISTRICT shall accomplish this purpose by adopting appropriate resolutions or ordinances governing the use of their sewage facilities, which are at least as stringent as comparable ordinances and resolutions adopted by the HSB and the city of Huntington, and to faithfully prosecute any offender under the same to ensure that such discharges do not enter the DISTRICT sewer system or the HSB facilities.

6. Septic Sewage

The design of the DISTRICT sewage collection facilities should contain provisions to prevent the sewage collected from becoming septic within the DISTRICT sewer system or at the point of discharge into the HSB facilities. If septic sewage conditions should occur following completion of construction, the DISTRICT agrees to develop and submit to the HSB a corrective action plan and schedule to eliminate this condition within thirty (30) days of receipt of written notification of the problem condition from the HSB. If the DISTRICT fails to submit the required corrective

action plan and schedule within the thirty (30) day period or fails to take the additional measures to correct this problem as outlined in the plan and schedule, the HSB shall have the right to take the necessary measures to correct the problem on their own, and assess the full costs thereof to the DISTRICT. The DISTRICT shall also be liable for the costs to repair any damages or replace any facility or equipment damaged as a result of the discharge of septic sewage into the HSB facilities. Any increase in the HSB's operating costs caused by the discharge of septic sewage from the DISTRICT shall also be the responsibility of the DISTRICT. Such costs shall be billed to the DISTRICT in addition to their metered service charges.

ARTICLE IV

INDUSTRIAL AND COMMERCIAL WASTE CONTRIBUTIONS

The DISTRICT agrees to enact and enforce necessary regulations as required to insure that will prohibit any user who may discharge industrial or commercial waste to connect into the DISTRICT sewer system without a prior written permit issued by the HSB and to insure that the provisions of this Agreement are fulfilled.

The DISTRICT also agrees to enter into an inter-jurisdictional Industrial Pretreatment Agreement (as contained in Exhibit 1 attached hereto) and require all industrial or commercial users who are or will be discharging industrial or commercial wastes into the DISTRICT sewer system to enter into an Industrial Sewer Use Service Agreement (as contained in Exhibit 2 attached hereto) with the HSB.

Applications for any such permit shall be accompanied by such information, relating to the nature of character of the industrial waste proposed to be discharged or otherwise, including without limitation a detailed engineering report in respect thereof or an Industrial Wastes Questionnaire prepared by a registered engineer or engineering firm, as the HSB may impose. No permit for the discharge of industrial wastes issued under this section shall be deemed to give any right to the applicant to continue such use and any such permit may be revoked by the HSB at any time. Whenever necessary, in the opinion of the HSB, the industrial or commercial user shall provide, at his expense, such facilities for preliminary treatment and handling of industrial or commercial wastes as may be necessary.

Any industrial or commercial user who shall discharge industrial or commercial wastes into the

DISTRICT sewer system, when required by the HSB, shall construct and thereafter shall properly maintain, at his own expense, a suitable control manhole to facilitate observation, measurement and sampling by the HSB. Any such control manhole, when required by the HSB, shall be constructed at an accessible, safe, suitable and satisfactory location in accordance with plans approved by the HSB prior to commencement of construction.

Grease, oil and sand interceptors shall be provided by the applicant when they are required by the HSB for the proper handling of liquid wastes containing grease in excessive amounts, or any flammable wastes, sand or other harmful ingredients. All such interceptors shall be of a type and capacity approved by the HSB and shall be located as to be readily and easily accessible for cleaning and inspection. Where any such required facilities or interceptors are constructed, they shall be maintained continuously in satisfactory and effective operation by the applicant at his expense.

Industrial or commercial wastes being discharged into the sewer system shall be subject to periodic sampling, inspection and determination of character and concentration. Also, the HSB may at its discretion sample and inspect any industrial or commercial facilities as frequently as may be deemed necessary to determine compliance with the HSB's industrial pretreatment program. Sewage sampling facilities shall be exercised in the collection and preservation thereof in as nearly the natural state as possible, including refrigeration of all samples which are intended for analysis by biochemical methods.

Laboratory methods used in the analysis of samples of industrial wastes shall be those set forth in the latest edition of "Standard Methods for the Examination of Water and Sewage" as published by the American Public Health Association; provided, however, that alternate methods for the analysis of industrial wastes may be used.

Any industrial or commercial user who is discharging industrial or commercial wastes into the DISTRICT sewer system and who contemplates a change in the method of operation which will alter the type of industrial or commercial wastes at the time being discharged into the sewer system shall notify the DISTRICT and the HSB, in writing, at least ten (10) days prior to consummation of such change and enter into a new Industrial Sewer Use Service Agreement with the HSB.

No industrial or commercial user shall cause the discharge of water, sewage or industrial waste

which, in concentration of any given constituent or in quantity of flow, exceeds for any period of longer duration than fifteen (15) minutes, more than five (5) times its average hourly concentration of flow.

ARTICLE V

SERVICE CHARGES AND BILLING

In exchange for the rights, privileges and benefits of utilizing the HSB facilities for treatment of the DISTRICT sewage, the DISTRICT covenants and agrees to pay the HSB service charges computed in the following manner:

1. Annual Operation and Maintenance Charges

The DISTRICT agrees to pay the HSB their proportionate share of the actual net annual operation and maintenance costs for the HSB facilities which are utilized to treat the DISTRICT's sewage. The DISTRICT proportionate share shall be determined by multiplying the ratio of the total volume of sewage contributed to the HSB Facilities, as measured by the flow meter to be installed at the point of connection, to the total volume of sewage treated at the HSB treatment plant, as measured by the plant's raw sewage flow meter, by the actual net annual operation and maintenance costs.

For the purpose of determining the DISTRICT's share, the net annual operation and maintenance costs shall include all reasonable expenses and repair costs required to keep the treatment plant operating continuously in a safe and efficient manner and in compliance with applicable State and Federal Regulations. Such operating and maintenance costs are defined to include the cost of all labor, power, chemicals, equipment, materials, vehicle expense, repairs, replacements, improvements and administrative expenses used in the operations and maintenance of the treatment plant. The following costs shall be specifically excluded from the operation and maintenance costs applicable to allocation to the DISTRICT:

- A. Costs of preparing, mailing and receiving the HSB sewer rental bills, or of collecting delinquent costs from the HSB customers,
- B. Costs of operating, maintaining and repairing the HSB's sewer collection system,

C. Costs of operating, maintaining and repairing any HSB pump stations,

D. Costs of operating an industrial waste pretreatment program, unless industrial users are served by the DISTRICT,

The DISTRICT shall pay their proportionate share of such net annual operation and maintenance costs to the HSB in twelve monthly installments. The HSB will keep a separate record of the costs of operating the treatment plant and will establish an annual cost for their operating year. That annual operating cost will be used to establish the next twelve (12) monthly billing to the DISTRICT by multiplying the annual operating costs by the proportioning factor and dividing by twelve (12). During the first year of operation, the projected flows from the DISTRICT will be estimated and mutually acceptable to both parties. These projected flows will be used to establish proportionate shares.

The HSB shall submit an estimated monthly billing statement to the DISTRICT which clearly shows the total flow treated at the HSB plant, the total flow contributed to the HSB's facilities by the DISTRICT, the ratio of the DISTRICT's flow to the total flow, and an estimate of the net operation and maintenance costs incurred for each month. The billing statement shall be delivered to the DISTRICT not less than twenty (20) days prior to the date on which the payment shall be due. The third monthly billing for each fiscal year shall include an adjustment to reflect actual expenses and flows for the whole of the previous fiscal year. In the event that the parties cannot agree upon the estimated expenses for an upcoming calendar year, the DISTRICT shall continue to make payments based upon the audit for the expense of the previous year pending disposition of the dispute.

2. Debt Service Charges

The DISTRICT agrees that it will pay the HSB a proportionate share of the debt service for any specific projects required by the US EPA or WV DEP to improve the HSB's wastewater treatment facilities as well as the debt service remaining on the construction of the original WWTP.

The DISTRICT's proportionate share for the debt service charges will be determined in the same manner as the annual operating and maintenance charges.

It is understood and agreed between the parties hereto, that the proportionate shares of operating costs and debt service costs shall be included in the monthly billing.

3. Industrial Waste Surcharges and Fees

The DISTRICT agrees to adopt and enforce regulations establishing provisions to assess industrial waste surcharges and fees to any industrial user that may obtain the HSB approval to discharge such wastes into the DISTRICT's sewer system in accordance with requirements of this Agreement. Such surcharge and fee rates shall be comparable to the prevailing rates contained in the HSB's rules and regulations. Any applicable surcharges and fees shall be billed to industrial users by the DISTRICT on behalf of the HSB and the amounts collected shall in turn be paid to the HSB by the DISTRICT. The charges to be paid to the HSB under Article V of this Agreement shall become effective as soon as the DISTRICT begins to deliver sewage into the HSB Facilities. All monthly payments to the HSB shall be paid within thirty (30) calendar days after the close of the billing period or the date of the bill, whichever is longer. If any monthly installment is not paid within the specified thirty (30) day period, the HSB shall have the right to assess a ten (10) percent late payment penalty.

ARTICLE VI

CAPITAL ADDITION

With respect to the HSB WWTP, the DISTRICT agrees that where any betterments, improvements, or other Capital Additions are required for the HSB WWTP utilized for the treatment of the DISTRICT's sewage, or are ordered by appropriate Federal or State agencies having jurisdiction, the DISTRICT shall be liable for its proportionate share of the capital cost of the said betterments, improvements or other Capital Additions. The costs of any Capital Additions will be proportioned in the same manner as Operation and Maintenance Expense and include on the monthly billings.

ARTICLE VII
